Luo Feng, accompanied by the Sector Beast Morosa, had passed through reincarnation and arrived at the Land of Origin....

Chapter 1: Episode 1 Chapter 1: First Arrival in the Land of Origin

In the gloomy and profound Samsara Channel,

"We're finally seeing the end," Luo Feng spoke from inside the Star Tower, gazing at the light at the end of the Samsara Channel. With his strength as an eternal true god, he could already see that vibrant, vast world teeming with life.

"Master, we've finally reached the Land of Origin," the Sector Beast Morosa said excitedly.

"Hmm, we're finally here," Luo Feng revealed a smile as well.

In the region of the Primordial Cosmos, the two of them had long since become utterly invincible, alone and lonely for too long.

Luo Feng looked toward Morosa and said solemnly, "After entering the Land of Origin, you must not reveal any information about Sector Beasts. There are countless beings stronger than us in the Land of Origin. Once we're exposed, there will be no escape!"

"Master, rest assured, even if I die, I won't reveal any information about Sector Beasts!" Morosa stated.

Luo Feng nodded, "Both of us have Perfect Divine Bodies, even if we die, a single drop of blood can bring us back to life. But if we expose information about Sector Beasts and get targeted by some terrifying beings from the Land of Origin, they will seek out every drop of our blood and completely annihilate us."

Morosa nodded.

One of the three great legacies of the Duan Dong River lineage, the "Undying River," if cultivated, can bring one back to life using just a drop of blood.

Both Luo Feng and the Sector Beast Morosa had Perfect Divine Bodies, with a life level a hundred thousand times that of normal beings. Their lives held many unthinkable characteristics; they could isolate life signs, rendering life lock ineffective, obscure fate, and even transform into a myriad of forms flawlessly.

Without the need to cultivate the "Undying River," every strand of their hair, every drop of their blood, could be used to be reborn.

"The waters of the Land of Origin run deep and unfathomable," Luo Feng said gravely. "Over endless years, the only Sector Beast that has survived is the one in Tianmu Kingdom. All the rest have perished."

Luo Feng looked forward to the Land of Origin but was well aware that it was extremely dangerous.

His master, Mountain sitting guest, and the ancestor from the third generation of the Duan Dong River lineage were both at the Godly King Level, but the third generation ancestor had completely died! His master, Mountain sitting guest, had also been hunted and forced to flee into the Universe Ocean!

"All the other Sector Beasts are dead?" Morosa was astonished. "But they all have Perfect Divine Bodies, with extremely strong survival capabilities."

Being a Sector Beast himself, he was very clear about the multitude of ways they had to preserve their lives.

"They're all dead," Luo Feng nodded. Without the highest rules' restrictions, he had already received a massive influx of legacy information from the Duan Dong River lineage and the World of Jin while in the Samsara Channel, which also included some secretive information about the Land of Origin.

Mountain sitting guest was afraid that Luo Feng would die before growing up, so he had already told him all of the taboos.

The Duan Dong River lineage, which was passed down to only one successor at a time, had also made him aware of the various dangers of the Land of Origin.

"Sector Beasts, born with the Path of Destruction, become a catastrophe as they grow. Any power in the Land of Origin would seek to eliminate them immediately upon discovery," Luo Feng continued, "The Sector Beast in Tianmu Kingdom survived one part because it had reached the pinnacle of growth and was difficult to deal with when it was exposed.

On the other hand, it was under someone's control and did not wantonly destroy, which is why the various forces of the Land of Origin tolerated its existence."

"I also have a master," Morosa quickly interjected.

Luo Feng smiled, "Having a master, you still need to be powerful enough. Otherwise, those ancient beings won't mind crushing you with a flick of their fingers."

"Whether it's you or me, we're still very weak now," Luo Feng looked into the distance, "We're only eternal true gods, we must hold a reverent heart."

"Yes," Morosa immediately responded.

Under the soul enslavement, Morosa would rather die than disobey Luo Feng's orders.

As Sector Beasts, destruction and devouring were their favorite activities and also the fastest way for them to grow.

But in the Primordial Cosmos Region, after the calamity caused by Sector Beasts, Morosa stopped devouring any small universe under Luo Feng's command and relied solely on slowly absorbing the Primal Chaos Current for growth. It took aeons to reach the level of an eternal true god.

Even as Luo Feng could already see the end of the Samsara Channel, the Star Tower still flew for quite some time before actually arriving.

Whoosh!

The Star Tower flew out of the Samsara Channel and came upon a dark, boundless land, with a vast aura spreading and condensing into a thin mist, making the land and sky indistinct and hard to discern.

The Samsara Channel they emerged from had already disappeared, and Luo Feng immediately stowed away the Star Tower, appearing on the vast land together with Morosa.

At this moment, Luo Feng's hair had grown much longer, a pair of dark golden horns had sprouted on his forehead, and his facial features had also changed somewhat. Morosa still wore a simple and honest guard's appearance with silver-gray skin, slightly ugly but very honest.

"Although the small universe of Purple Moon Ancestor was destroyed back then, he still lives. He is well aware that my small universe had a diameter of a billion light-years when I first became a true god," Luo Feng said to himself, "Having such a vast small universe right upon becoming a true god is an astonishing affair. It could easily draw the attention of powerful entities."

"Purple Moon Ancestor, fortunately, is just a true god of void space and has little influence; he likely can't contact any powerful beings. But I'll still be cautious," Luo Feng was well aware that a moment of carelessness could lead to eternal regret.

No opportunities for enemies.

With his Perfect Divine Body, changing his aura and appearance, even Purple Moon Ancestor himself wouldn't recognize him if he came in person, let alone other powerhouses of the Land of Origin who had never seen him before.

"Master, look!" Morosa exclaimed, looking up at the night sky in shock.

Luo Feng also looked toward the night sky.

The night sky of the Land of Origin was vast and profound, with stars gleaming brightly.

In the night sky, countless stars were extremely far from the land, varying in size. Among them, some extremely large stars, even with untold spaces separating them, still sent a fearful pulse to Luo Feng's heart.

"The beings born in the Land of Origin generally make it to True God," Luo Feng looked up and said, "Their small universes are in the depths of the starry night sky, each star represents a small universe!"

"True Gods, true gods of void space, eternal true gods, Primal Chaos Overlords, Godly Kings! Their mini universes are all in the starry sky, hence the dazzling array of stars," Luo Feng pointed at some terrifying stars in the night sky, "The stars that emanate the most terrifying aura are the mini universes of the Godly Kings."

"Countless mini universes in the night sky?" Morosa looked envious, thinking that if he could devour them to his heart's content, his growth rate would increase by a lot.

Luo Feng glanced at him.

Morosa immediately flashed an innocent smile.

"By looking at these countless mini universes, one can understand just how profound the Land of Origin is; we are merely two small fish," Luo Feng observed the star-filled night sky, "If one day a massive star falls, it also signifies the death of a powerhouse."

Morosa nodded in understanding, "By observing the stars at night, one can tell which powerhouses are alive and which are dead."

"But you don't know which stars correspond to whom," said Luo Feng, withdrawing his gaze from the stars in the night sky to focus on sensing the spatial, temporal, and various laws' fluctuations of the Land of Origin.

"The stability of space is terrifying!" Luo Feng stretched out his right hand, a dark vortex emerged in his palm, tearing and wreaking havoc, causing slight ripples in the space, "Space is like a boundless ocean; my power can only cause a few ripples."

Luo Feng felt the flow of time, comparing it with his Divine Power

Incarnation far away in his homeland which also sensed the passage of time.

"Time flows very slowly here; one second in this place equals 10,081 seconds in the Primordial Cosmos," Luo Feng looked around, the land vast and desolate, but he could perceive the fluctuations of laws between heaven and earth.

"The Law of Primal Chaos can be sensed very clearly!" Luo Feng's eyes shone with excitement, "It's too vivid!"

When he was in his homeland, it was like sensing laws through layers of fog, making the perception very vague.

In the Land of Origin, the layers of fog had dissipated, akin to watching from an ultra-close distance! This made understanding laws much easier. It was also easier for the Land of Origin to produce strong beings.

"If I had come to the Land of Origin when I was at the True God level, I would have become an eternal true god much more quickly," thought Luo Feng.

Below True God, it is suitable to cultivate in the region of the Primordial Cosmos.

Above True God, the Land of Origin is more fitting.

Even with Luo Feng's talents, he had cultivated continuously in his homeland until the Primordial Cosmos was on the verge of destruction, observing the Sector Beast and the Path of Destruction, the Primordial Cosmos's destruction and rebirth, before he finally comprehended the Source of Life and Death and stepped into the realm of the eternal true god.

Of course, Luo Feng took so long partly because sensing laws in the Primordial Cosmos Region was too vague and the efficiency of cultivation was too low; another reason was—comprehending the Source of Law is extremely difficult!

Like the Primordial Ancestor, and others who cultivated for lengthy epochs like the East Emperor Ancestor and Purple Moon Ancestor,

they are also just true gods of void space.

"Master, where shall we head next?" Morosa looked around, "Besides, I've carefully sensed the surroundings and haven't detected the Primordial Ancestor."

"After fighting through the Samsara Channel to reach the Land of Origin, one could appear anywhere on the continent," said Luo Feng.

Luo Feng then carefully observed the surroundings, his gaze penetrating through layers of spatial obstruction to see very far away.

On this vast land, there were giant worm-like Exotic Beasts lurking deep beneath the ground, divine birds flying high in the night sky, and a True God Team cautiously exploring and advancing. There was also a Flying Boat, its aura concealed, hurriedly escaping.

Luo Feng observed, "Within my observation range, I've detected about a thousand Exotic Beasts, a small team of twelve True Gods, and a lone true god of void space."

"It's him, a local cultivator from the Land of Origin who I've come into contact with," Luo Feng looked distantly at that Flying Boat.

...

This Flying Boat was hiding its presence, silently flying through the air.

There stood a tall man with a sharp tail inside the Flying Boat, wearing dark green armor and observing the outside world with eyes emitting a faint glow.

"I nearly lost my life this time!" Moyu Hu, piloting the Flying Boat and concealing its aura, couldn't help but feel excited though his forehead displayed excitement, "But the intelligence was correct, and eventually, I managed to find the treasure. I, Moyu Hu, have finally made a great fortune. With this treasure, my three children can receive excellent cultivation."

"Perhaps, there is a chance to have the most talented eldest child apprenticed to an eternal true god?" Moyu Hu yearned.

In the Land of Origin with its abundance of strong beings and strict hierarchy, the mentor-disciple relationship even surpasses kinship. Because giving birth might be the result of a moment's passion. However, in the Land of Origin, if a master accepts a disciple he generally wants to cultivate the disciple, even supplying resources and arranging the future...

The importance of a master to a disciple is self-evident!

"Even if they cannot apprentice under an eternal true god, at least all three children can learn a powerful legacy," Moyu Hu thought to himself. His wife had died long ago, and the three children she left behind are what he cares about most in this world.

The Myriad Clans' Cultivators converge in the Land of Origin. Even though many Cultivators do not care about the life and death of their offspring, Moyu Hu deeply cares!

As a true god of void space, he has infinite lifespan, and other than his own growth in cultivation, the only thing he cares about are his three children.

"Soon, it will take just ten days to return to Huyang City," Moyu Hu thought, cautiously piloting the Flying Boat, avoiding some dangerous areas.

Suddenly—

Moyu Hu felt an irresistible force enveloping him. The Flying Boat seemed like a leaf boat caught in a maelstrom, plummeting into it, becoming ever smaller, continuously shrinking!

"This is bad," a chill ran down Moyu Hu's spine as the Flying Boat he piloted couldn't escape the terrifying spatial vortex, but could only continue to sink within it.

In the end, the Flying Boat fell into the deepest part of the spatial vortex, located in a gigantic palm whose lines resembled rivers and ravines.

Luo Feng stood in place without moving, simply controlling the void to shrink the space where the distant Flying Boat was, and gently

caught it in his palm. Beside him, Morosa curiously watched, "Master, why capture this Flying Boat?"

"Let's ask for directions first," Luo Feng observed the creature in the Flying Boat in his hand.

Chapter 2 Jiu Jiang Primal Chaos Prefecture

The fearful Moyu Hu within the Flying Boat dared not hesitate and immediately flew out, and as soon as it landed, it knelt down and said with utmost respect, "Moyu Hu pays respects to the Supreme."

Moyu Hu's heart was filled with fear and unease; after overcoming countless hardships, it had only just obtained a treasure. It feared that this terrifying being might kill it to snatch the treasure! It did not want to die; if it died, its three children would struggle greatly to survive in Huyang City.

"I ask you, which Primal Chaos Prefecture is this?" Luo Feng asked.

Upon hearing this, Moyu Hu was stunned.

Was he asking for directions?

"To report to the Supreme," Moyu Hu quickly replied respectfully, "this is the Jiu Jiang Primal Chaos Prefecture of Yu Kingdom."

"Yu Kingdom?" Luo Feng nodded slightly.

In the Land of Origin, there were many forces, a city, a tribe, or a secretive sect could all be a power on its own.

But to qualify for constructing a Divine Kingdom, at least a Godly King Level existence was required.

The Jin State once established by his master, Mountain sitting guest, had only one Godly King. Yu Kingdom and Shi Kingdom were much stronger; the Shi Kingdom had three Godly Kings initially. Yu Kingdom even had five Godly Kings.

"Shi Kingdom and Yu Kingdom are adjacent; fortunately, after braving the cycle of rebirth, I arrived in Yu Kingdom," thought Luo Feng, "If I had arrived in Shi Kingdom, that would have been somewhat troublesome."

He had obtained the "Nine volume manual" and the Star Tower because of his master, Mountain sitting guest. He also received the inheritance of the lineage from the World of Jin, and even more, he acquired the "Lie Yuan Technique."

The favor of his master was too great.

If he became a Godly King in the future, he must stand by his master's side! When weak, he naturally had to keep some distance from the three rulers of Shi Kingdom.

"I remember, there should be three major cities in Jiu Jiang Primal Chaos Prefecture, right?" Luo Feng asked.

"Yes," Moyu Hu immediately replied, "Jiu Jiang Primal Chaos Prefecture is vast and boundless, with three large cities and one hundred and eighty-nine ordinary cities. The three large cities are Jiu Jiang City, Huyang City, and Xuyin City."

Luo Feng nodded, "Jiu Jiang Primal Chaos Prefecture, that's the fief of the Primal Chaos Overlord 'Marquis of Jiu Jiang', right?"

In Land of Origin, eternal true gods could at most be granted a surname, usually serving as a general leading a region, or as a core member administering a city, forming the elite of a Divine Kingdom.

A Primal Chaos Overlord, however, would be ennobled! Their status was much higher! They would even be granted an entire Primal Chaos Prefecture as a fief. If they got on bad terms, a Primal Chaos Overlord could just brush off their butts and defect to another realm.

"Marquis of Jiu Jiang resides in Jiu Jiang City," Moyu Hu replied immediately, "That's why, among the three large cities, Jiu Jiang City has the strictest rules! Xuyin City, due to the mines and some forces, often has conflicts and the most wars. Huyang City, being close to the border of Yu Kingdom, has various countries setting up branches

there. It's the most prosperous in trade.

I also live in Huyang City."

Luo Feng nodded slightly.

"I need to cultivate and also need a stable environment with suitable resources," Luo Feng thought, "There is no need for me to train under the watchful eyes of a Primal Chaos Overlord in Jiu Jiang City."

"There are too many conflicts in Xuyin City."

"Huyang City is prosperous in trade and information, conducive for purchasing resources, and is suitable for me to stay temporarily." Luo Feng quickly made a decision. As his strength was weak, he needs to be extra cautious.

Luo Feng looked at the respectful Moyu Hu and ordered, "I want to go to Huyang City, you help guide the way."

"Yes," a relieved and somewhat excited Moyu Hu replied.

Guide the way?

Then he wouldn't kill him!

"Huyang City is in that direction," Moyu Hu immediately pointed the way out.

"Let's go," with a thought, Luo Feng, along with Morosa and Moyu Hu, began to traverse space at high speed.

Moyu Hu only felt an invisible force wrapping around him, the surrounding space twisted, their three figures crossed vast spans of space in an instant, they were more than a hundred times faster than when he used the Flying Boat.

"Supreme, we should still be careful on the way, as there are many dangerous places we may encounter," Moyu Hu hastily said.

"Are there Primal Chaos Level Exotic Beasts dwelling along the path?" Luo Feng asked calmly.

"Of course not! There is only one Primal Chaos Level Exotic Beast 'Chao Yong' in the entire Jiu Jiang Primal Chaos Prefecture, which lives deep in Chao Yong Lake. There are no Primal Chaos Level Exotic Beasts in other areas," Moyu Hu said.

Luo Feng nodded, "Then there's not much to worry about,"

Luo Feng, with Morosa and Moyu Hu, continued high-speed space travel in a straight line towards Huyang City.

"Not worried about Primal Chaos Level Exotic Beasts?" Moyu Hu heard this with a trembling heart.

"Supreme, if we do not deviate from the path, we might pass by the lairs of Eternal True God Level Exotic Beasts," Moyu Hu couldn't help but say.

Luo Feng just looked at him, saying nothing more.

Eternal True God Level Exotic Beasts?

Having come to the Land of Origin with nothing to his name, he was actually waiting for Eternal True God Level Exotic Beasts to attack him, so he could slaughter one or two. The scales, bones, blood, and essence of these beasts could be sold for money or exchanged for the resources he wanted.

"I do have a few extremely precious items on me, the Godly King Level weapon 'Star Tower', the Godly King Level Blade Embryo 'Bloodshadow Knife' and the Eternal True God Level Mechanical Flow Treasure 'Wu Yuyi Wings', but I obviously cannot sell them," Luo Feng thought, "I am indeed quite poor right now."

Wu Yuyi Wings, as a Mechanical Flow Treasure, offered the most assistance to Luo Feng at this stage! The other two were of limited help for now, but as Luo Feng became stronger, the importance of Star Tower and Bloodshadow Knife would become more prominent.

"The Exotic Beasts on Land of Origin are deliberately left unchecked by the God Kings," Luo Feng thought, "allowing them to multiply and occupy most of the territory in Land of Origin."

"Myriad Clans' Cultivators slaughter Exotic Beasts, gathering their body materials as Cultivation Resources."

Chapter 3: Chapter 2: Jiu Jiang Primal Chaos Prefecture_2

"Godly King level exotic beasts are generally kept in captivity; they hardly ever appear in the outside world. Should one appear, the group of Godly Kings would quickly capture it and take it away," Luo Feng was well aware of this.

Exotic beasts pose a significant threat to weaker true gods.

But for truly powerful beings, they are merely living cultivation resources.

"Exotic beasts have low intelligence, yet the top among them possess the strength of a Godly King level just through their heritage," Luo Feng was also somewhat astonished, "Why is their lineage so powerful?"

According to the intelligence he understood, every Godly King level exotic beast was a treasure of heaven and earth, reared by truly powerful forces. The essence of those Godly King level exotic beasts' lineage was a treasure unattainable even by the third-generation grandmasters and his mentor, Mountain Sitting Guest.

"For the weak, the exotic beasts scattered throughout the Land of Origin pose a threat," thought Luo Feng, "but once one's strength reaches a certain level, these beasts become mere prey."

"These exotic beasts have lower intelligence, and the real threats in the Land of Origin to me are those cultivators of the Myriad Clans," Luo Feng was well aware of this point.

The geniuses who roamed through Samsara from generation to generation in the three thousand Primordial Cosmoses.

The massive number of creatures native to the Land of Origin plus a large number of creatures from smaller cosmoses, among the vast number of creatures, naturally, many elites also emerged.

After enduring endlessly long years, amongst the cultivators of the Myriad Clans, hidden dragons and crouching tigers abounded!

Like the 'Duan Dong River', such factions are among the weaker in the entire Land of Origin. His mentor, Mountain Sitting Guest, also belonged to the weaker ranks among the Godly Kings.

Even the Tianmu Kingdom, which controls a Pinnacle Sector Beast, still doesn't rank as the most terrifying force in the Land of Origin.

"To me right now, what is needed is to lie low carefully, making myself increasingly powerful. Only then will I be eligible to uncover more secrets of the Land of Origin," Luo Feng was very clear about this, and even the vengeance of his mentor, Mountain Sitting Guest, can now be set aside.

Without being a Godly King, one simply isn't qualified to get involved."

******

There are myriad smaller universes surrounding the Primordial Cosmos, the largest of which is indisputably Luo Feng's own smaller cosmos, spanning a hundred billion light-years in diameter.

Luo Feng's smaller cosmos was absorbing the Primal Chaos Current at its maximum efficiency, transforming it into Divine Power to nourish Luo Feng's True God's Heart, allowing Luo Feng's godly body to grow. Luo Feng had been an eternal true god for far too short a time, and his godly physique hadn't yet reached its ultimate state.

Inside Luo Feng's smaller universe.

Under a large tree.

Luo Feng and Primordial Ancestor sat opposite each other, drinking fruit wine. Both of them were just Divine Power Incarnations.

"Only when you told me did I learn that the other end of the Samsara Channel turned out to be the Land of Origin," Primordial Ancestor remarked, they had both traversed Samsara, and thus discussing the Land of Origin was no longer restricted by the supreme rules.

"Primordial Ancestor, do you know which kingdom you are in now in the Land of Origin?" Luo Feng asked.

Primordial Ancestor replied, "After I arrived in the Land of Origin, I encountered a tribe, which has tens of thousands of creatures, almost all adults in this tribe are true gods, with only one true god of void space. They were very friendly to me. I found out that the place I was in is within the territory of the Flame Wind Ancient Country."

"Flame Wind Ancient Country?" Luo Feng was slightly taken aback.

"How is the Flame Wind Ancient Country?" asked Primordial Ancestor.

"In the Land of Origin, any place named a 'country' has been established by a Godly King," explained Luo Feng, "among them, only two are called ancient countries, one is the Flame Wind Ancient Country, and the other is the Thunder Ancient Country. These two ancient countries have the most longstanding history and the deepest heritage; they are recognized as the strongest two kingdoms."

No one, not even his mentor Mountain Sitting Guest, knows when these two great kingdoms were established, with no records available, many mysteries unknown.

Apart from the manifold Divine Kingdoms visible on the surface, including a few secret forces, some secretive existences mentioned in the intelligence left behind by the mentor Mountain Sitting Guest and the Duan Dong River, such as an entity named 'Yuan' who had completely escaped the Braided Cage, the 'Lie Yuan Technique' is indeed derived from Yuan.

Because of escaping the Braided Cage, Yuan is also greatly revered by those ancient beings.

His mentor Mountain Sitting Guest suspects that among the two

ancient countries, there might also be beings who have escaped the Braided Cage.

"Besides the visible Divine Kingdoms, there are also some very powerful forces in the shadows," Luo Feng said, "in any case, in the Land of Origin, one must be cautious."

"I know, Luo Feng. Where are you now?" asked the Primordial Ancestor.

"I am in Yu Kingdom, a second-tier nation," Luo Feng said, "We are too far apart, and it's not feasible to meet up for now. Moreover, without having reached the Primal Chaos Dominator Level, it's not suitable to travel across half the Land of Origin to meet up."

Traversing half the Land of Origin, for an eternal true god, was akin to surviving nine deaths and enduring a single life.

The Primordial Ancestor nodded.

"Primordial Ancestor, have you obtained an inheritance that leads to becoming an eternal true god?" Luo Feng asked.

"No," the Primordial Ancestor shook his head and sighed, "After enduring hardships to reach the Land of Origin, I know nothing about this place, and I have no inheritance either. Everything must be accumulated slowly."

Luo Feng nodded.

It indeed wasn't easy for the strong beings who broke through Samsara to arrive at the Land of Origin.

Most had no information or inheritance.

He was somewhat more fortunate himself; after surviving nine deaths, passing the trials of the Duan Dong River lineage, and the test of his master, the Mountain Sitting Guest, he was able to acquire the inheritances of two major factions.

"I have an inheritance here," Luo Feng took out a Memory Stone he had prepared beforehand.

The core inheritance of the Duan Dong River lineage was forbidden to be passed on. Non-core inheritances were relatively common and not quite suitable for the Primordial Ancestor.

The inheritances from the World of Jin lineage, where the most core nine were forbidden to be passed on; the rest had no restrictions. But to transfer it to the Primordial Ancestor, Luo Feng himself had to learn it first to infuse it into the Memory Stone.

"This inheritance is called the 'Nine Netherworlds,'" Luo Feng handed over the Memory Stone to the Primordial Ancestor, "but I've only realized the first half, and the Memory Stone also contains only the first half, which can be cultivated to the level of an eternal true god at highest."

"An inheritance leading to eternal true god?" The Primordial Ancestor's eyes lit up.

"Thank you," the Primordial Ancestor, quite excited, took the Memory Stone and immediately began receiving the information. Moments later, he opened his eyes and nodded, saying, "Luo Feng, this 'Nine Netherworlds' is very suitable for me."

"If it suits you, that's great," Luo Feng smiled.

During the over a month in the Samsara Channel, Luo Feng reviewed many inheritances from two lineages. He felt that "Nine Netherworlds" was the most suitable for the Primordial Ancestor, so he took the effort to understand the relatively easier first half!

"Luo Feng, I won't say too many thanks," the Primordial Ancestor was quite moved internally; this inheritance was too precious for him!

Having cultivated for nearly a Reincarnation Era, the Primordial Ancestor understood all too well how difficult it was to ascend from a true god of void space to an eternal true god!

Even the creatures of the Land of Origin, who could rely on bloodline cultivation or resources such as Exotic Beast Materials for cultivation, the ones who could become eternal true gods were one in a billion!

"What I can do is just so much, in the Flame Wind Ancient Country,

everything depends on you," Luo Feng looked at the Primordial Ancestor too, the Human Race from the hometown reaching the Land of Origin, only the two of them were there.

"You must be careful in Yu Kingdom too," the Primordial Ancestor said as well.

The two exchanged smiles.

At this moment, their true bodies were separated by half the Land of Origin, unable to meet up, and could only struggle on their own.

———

The new book "Sovereign of the Stars 2: Land of Origin" is officially being updated! Please support us with collections, votes, and more support!

Chapter 4: Chapter 3: Blue-Purple Blood Crystal Flower

The earth was vast and wild, with exotic beasts roaring and birds chirping, waves of disturbances spreading out, containing various destructive powers. One could inadvertently lose their life if caught in the disturbances. Even true gods had to tread carefully in the wilderness, fearing they might provoke some terrifying exotic beasts.

Swoosh!

A wave of spatial disturbance swept across the sky, coming from Luo Feng, his servant Morosa, and Moyu Hu. They traversed the void space, charging headlong toward Huyang City.

"There's an eternal true god."

"It's an eternal true god."

From afar, the previously roaring exotic beasts were frightened into diving underwater, while large flocks of flying exotic beasts also kept their distance. Wherever the spatial disturbance passed, there was silence!

No exotic beast dared to make a sound.

"All the exotic beasts have gone quiet," a team of true gods observed the distant wave of spatial disturbance with envy and admiration. "To be so bold in the wilderness, it must be an eternal true god."

"If I could become an eternal true god in this lifetime…" a team member reflected.

"Chan Muhe, you sure dare to dream! My wish is much smaller, just to be able to settle in Huyang City would satisfy me."

"Huyang City? That's a large city. Living there for one era requires a piece of primal chaos crystal. Can you afford that?"

The group of true gods exchanged a few words before continuing on their journey.

...

Luo Feng and his party traversed at high speed.

"Is this the way an eternal true god travels?" Moyu Hu was thrilled by the experience. "In the past, When I left the city, I was always careful, concealing all my presence. This type of unrestrained, exhilarating flight is truly satisfying!"

Luo Feng and Morosa observed the Land of Origin.

Previously, their knowledge had been based on intelligence, but now they were seeing things for themselves, towering billions of miles high, rivers that stretched endlessly, deep and unfathomable lakes, and various kinds of magical exotic beasts. Both Luo Feng and Morosa found everything novel.

The exotic beasts had keen senses. Sensing the disturbances from afar, they hid.

"They are indeed sharp,"

Luo Feng did not bother to hunt these weaker exotic beasts. Firstly, each beast had its unique talents, making them hard to capture. Secondly, the weaker exotic beasts were too low in value to bother with.

"Supreme, ahead is the lair of an eternal true god level exotic beast," Moyu Hu pointed toward the distant area. "That beast is known as the Horned Serpent, which is proficient in burrowing. The armies of Huyang City have tried to encircle and capture it several times without success."

"Horned Serpent?" Luo Feng was intrigued.

Exotic beasts at the eternal true god level were highly valuable!

Having arrived at the Land of Origin penniless and not wanting to sell the rare treasures he carried, he naturally had to find a way to earn resources.

"Just maintain the true god of void space aura, and don't scare off the Horned Serpent," Luo Feng telepathically communicated.

"Yes, Master," Morosa, as a perfect divine body, maintained his disguise flawlessly. Ever since arriving at the Land of Origin, he had maintained the aura of the true god of void space. As a sector beast, discretion was mandatory upon his arrival at the Land of Origin. He just needed enough time and energy to eventually reach his pinnacle.

However, Luo Feng needed sufficient trials to grow.

Luo Feng, Morosa, and Moyu Hu slowed down their flight, started concealing their aura fluctuations, and approached the area near the Horned Serpent's lair.

"Hum~~~"

Deep in the distant mountains, a tremendous golden eye glanced at Luo Feng and his companions, instantly Luo Feng felt a colossal increase in spatial pressure, distorting space itself. Surrounding rocks and vegetation silently turned to dust.

Luo Feng naturally used his divine power to resist this terrifying pressure, also protecting his companions.

"Eternal true god, what are you here for?" the massive Horned Serpent looked toward Luo Feng from deep within the mountains, visibly wary, and transmitted its thoughts from afar.

Phew.

Luo Feng ignored it and headed even faster toward the mountain.

"Dare to follow me and see," transmitted the massive Horned Serpent, then vanished into thin air.

Luo Feng stopped, sensing that the Horned Serpent's aura had burrowed deep into the earth and was still escaping deeper.

"Earth Escape?" Luo Feng frowned. "The elements of time, space, and matter in the Land of Origin are incredibly stable. Even I find it troublesome to burrow through the earth. But that Horned Serpent vanished in an instant. It must possess a source of law related to the earth."

"Master, shall we continue to chase?" Morosa asked.

"No use chasing." Luo Feng shook his head.

He possessed the Source of Life and Death, and Morosa specialized in the Path of Destruction. Both were more adept at direct combat, making them average in 'Earth Escape' abilities.

"These exotic beasts really are incredible. Though they have low intelligence, they naturally possess a source of laws through their bloodlines. Even the top exotic beasts can attain Godly King level strength through their bloodlines alone." Luo Feng marveled internally.

"Master, that Horned Serpent really is cowardly," Morosa remarked.

"It is quite timid," Luo Feng laughed lightly, detecting it from afar and immediately escaping deep into the earth.

"Can't blame them," Luo Feng commented. "These eternal true god level exotic beasts rely on their bloodline talents for such strength, while Myriad Clans' Cultivators master secret techniques and use powerful weapons. They even comprehend the essence of laws. At the same level, eternal true god level exotic beasts generally cannot defeat eternal true gods.

Therefore, very few dare to confront an eternal true god head-on."

"But once they dare to confront directly, they are not ordinary eternal true god level exotic beasts," Luo Feng added. "Amongst eternal true god level exotic beasts, occasionally there are some extremely powerful ones."

In their same class, the exceptionally strong exotic beasts generally have more special bloodlines and higher value. Possibly one might be worth as much as a dozen or more ordinary ones. Luo Feng still

anticipated encountering such exotic beasts.

"Hunting eternal true god level exotic beasts truly is difficult," Luo Feng shook his head, not wanting to waste more time. "Let's continue on our way."

The places where eternal true god level exotic beasts lived were typically suited to their bloodline talents, making them especially good at escaping.

Sigh.

Luo Feng and his two companions continued their journey toward Huyang City.

...

Deep in the mountains, two teams of true gods of void space were locked in battle.

"We are Team B from Nine Banquet Tower of Huyang City. We are only here to collect ingredients. Please show some mercy," a rock creature pleaded, struggling to defend himself. His team originally had over a hundred members. Now, only three true gods of void space remained, desperately holding their ground.

They had not anticipated that a relatively safe task like gathering ingredients could be so dangerous.

The ten shadows encircling them were relentless, coordinating with each other, aiming to annihilate them swiftly.

"We have no grudges, yet you strike with such severity; we must drag one of you down with us if we die."

"Let's fight!"

The other two members of the true gods of void space had already gone mad. One of them unfolded golden wings, and a terrifying surge of power erupted.

"Your speed is too slow," a deep voice sounded.

Though the three members of Team B from Nine Banquet Tower were initially frenzied, upon hearing this deep voice, they fell silent without uttering a sound. Their bodies naturally disintegrated, souls included, dying instantly. Only their weapons remained.

"Army Commander, it's our fault," the ten grey shadows respectfully said.

"Continue. Kill all creatures that appear in this area," the deep voice ordered.

"Army Commander," the leading shadow couldn't help but speak, "We are ordered to reach Huyang City by a set deadline. Today is the last day."

"Do your job," the deep voice responded.

"Yes."

The leading shadow dared not speak further. The ten shadows silently continued to guard the vast area, slaying any passing creature without exception.

This vast area actually concealed a terrifying power that obscured its core region.

Within the core region, a green plant was growing, topped with a crystalline blue-purple flower! The fragrance of the flower spread, causing the surrounding natural energy to become chaotic.

Next to this plant, a black-robed figure sat, guarding it.

"I never expected that upon leaving Shi Kingdom and taking up my post in Yu Kingdom at Huyang City, I would encounter a mature 'Blue-Purple Blood Crystal Flower' on the way. When this flower is immature, it appears ordinary and unremarkable. But once it blossoms... its fragrance affects the soul and becomes exceedingly conspicuous.

It blooms for about ten days until it naturally falls off, then it can be used in medicine," the black-robed figure said with fervent eyes. "I heard that the Blue-Purple Blood Crystal Flower can only be nurtured

where a Godly King has fought and bled. This flower alone is worth at least 100,000 cosmic sands."

"All the weapon treasures I have cultivated up to now add up to only about twenty thousand cosmic sands," the black-robed figure said with passionate eyes. "If any eternal true god discovers this, they would definitely fight me for it. Even after it's exposed, the forces from Huyang might come here to kill."

"Only a few days are left until it drops naturally," the black-robed figure patiently waited.

He allowed no news of this place to leak out. Although he had done his best to conceal it, he feared any passing creature might notice, so he killed anyone who passed by.

Suddenly—

The black-robed figure slightly furrowed his brow and took out his transmission token.

"What's the matter?" the black-robed figure asked.

"Hei Duomo, why haven't you arrived at Huyang yet?" a voice as resolute as a mountain came through, "According to the Marquis's order, today is the last day. You must reach Huyang City."

"There has been a delay; please forgive me, Chairman Zan Yun," the black-robed figure said lightly with a chuckle. "There shouldn't be anything urgent in Huyang City that requires my immediate attention, right?"

"Huyang City is, after all, Yu Kingdom's Huyang, and our branch in Shi Kingdom has always been short of eternal true gods," the resolute voice softened, "I won't report your delay, but you should still reach Huyang as soon as possible."

"Rest assured, I will arrive within ten days," the black-robed figure responded.

Soon, the transmission ended.

The black-robed figure smiled and put away the transmission token. The so-called military order didn't bind an eternal true god very tightly. They were already core members, and minor issues were typically not pursued too strictly.

"Right now, nothing is more important than this Blue-Purple Blood Crystal Flower," the black-robed figure observed the fully blooming and fragrant blue-purple flower, his eyes filled with obsession.

...

Luo Feng, accompanied by Morosa and Moyu Hu, was traversing the void, flying straight to Huyang City.

"Hmm?" Luo Feng suddenly looked toward a direction, seeing a distant range of mountains where a terrifying force was hidden, with a hint of blue-purple barely visible.

"Could there be a rare treasure?" Luo Feng thought to himself.

There are significant differences among eternal true gods.

Their godly bodies vary in size, the purity of their Divine Power differs, the sources of law they master are distinct, and the secret techniques they practice and Weapon Secret Treasures they possess all affect an eternal true god's strength.

As someone with a Perfect Divine Body, stronger than 'unlimited godly bodies,' Luo Feng would reveal a vast and immense true form. Naturally, his sensory range was far beyond that of an ordinary eternal true god.

His sensory range and sensitivity were astonishing. His perception and control of aura could even reach 'perfect' levels. Even some ancient beings might need to utilize causality and space-time methods just to glimpse some truths about Luo Feng.

"There must be an eternal true god hidden there, masking the aura of the treasure," Luo Feng's eyes lit up. "Heavenly treasures, born from the earth, belong to no one. He who is capable shall possess them!"

While thinking, Luo Feng tactfully received Moyu Hu into the Star

Tower.

———

Updates will now be at 11:30 AM every day, one chapter daily. Nowadays, unlike before, I can no longer update two chapters daily. Partly due to energy levels and partly to ensure quality, please understand.

Chapter 5: Chapter 4 Luo Feng and Hei Duomo

"Ah—" Moyu Hu was somewhat startled before being put away.

Morosa grinned goofily and looked toward the distance, "Master, are you ready to make a move? Do you need my help?" Even if he were to act, he would only unleash eternal true god techniques, preferring death over using any Sector Beast moves.

"If I need you to act, I'll let you know," Luo Feng eagerly replied, his bones infused with a love for battle, although he hadn't encountered any opponent since becoming an eternal true god.

"Alright," Morosa said, a hint of disappointment in his voice; he too longed for a good battle.

"You stay here and watch; I'll go up and have a look," Luo Feng said, already flying over.

Morosa stood in midair, watching the scene, and thought to himself, "It has not been long since the master became an eternal true god; he hasn't had the chance to cultivate any powerful secret techniques. I hope this opponent is strong so that I can join the fight."

Morosa itched to act.

Even without using Sector Beast techniques, simply by understanding the 'Path of Destruction,' Morosa had already devised many moves.

"Hmm?" Luo Feng noticed a Flying Boat carrying a True God Team entering that area while he was flying closer.

...

This Flying Boat carried a true god of void space along with more than ten true gods, who were carefully steering the Flying Boat towards Huyang City, avoiding dangerous territories along the way.

"Suo Zi, Suo Yun, the two of you will settle in Huyang City from now on," the disheveled-haired man instructed. "Huyang City is a large city, teeming with true gods; even a true god of void space is just an ordinary member. And you true gods are considered the lowest level."

The two young men listened obediently.

The disheveled-haired man, the clan leader of their tribe and the only true god of void space in the tribe, had lived in Huyang City for many long years.

"You must be low-key once in Huyang City. Those who show off their treasures will have their lives taken," the clan leader said, "Be low-key, and keep it that way. Even though you are the most talented in the tribe, you are still too weak."

"Yes," the two young men replied.

"As long as ordinary true gods don't show off, no one will attack you. After all, Huyang City has laws and order," the clan leader said, "But if you show off or boast, you'll silently lose your life! Even the Huyang Guards won't be able to find out the murderer."

"Haha, clan leader, you've said these things many times," someone said.

"These two kids will definitely remember them well," another laughed.

The rest of the team members laughed as well.

The clan leader smiled and nodded, "The first thing you do in Huyang City is to thoroughly check your own bloodline. Afterwards, find a secret technique suitable for yourselves. Huyang City has countless opportunities; as long as you seize them, you might become a true god of void space."

Desire filled the eyes of Suo Zi and Suo Yun.

They were not content with a lifetime in the tribe, afraid of remaining mere true gods forever. They too aspired to become true gods of void space and experience more wonders.

"Don't worry, clan leader, we've firmly remembered how to survive in Huyang City," Suo Yun said.

The clan leader nodded slightly, when suddenly his expression changed.

"Not good." The clan leader's aura surged instantaneously. He burned his godly body and marshaled all his divine power to control the Flying Boat, with layers of dazzling formations appearing on its surface.

At that moment, ten terrifying shadows appeared, and invisible forces connected as one, assaulting the Flying Boat simultaneously.

"Military formation? Ten true gods of void space?" The clan leader knew it was bad news. He had lived in Huyang City before, his experiences there rich, but the death of beloved friends had made him weary of life in Huyang City; he left for the wilderness and settled in a small tribe.

Over a long period, he naturally became the clan leader of the entire tribe and also attracted many weak true gods to join.

After all, those living in the wilderness were generally very weak and impoverished true gods. Having a true god of void space as a support naturally formed a larger tribe.

"Boom—"

The ten shadows collaborated in attacking, with the Flying Boat's surface revealing layer upon layer of formations, coordinating seamlessly. Even if one or two formations were destroyed, new ones emerged.

"They are somewhat capable," the ten shadows were surprised.

They were all elite soldiers, the trusted aides of the Army Commander Hei Duomo! A single true god of void space able to

briefly withstand their joint attack was very, very rare.

"Finish them quickly."

"We can't delay."

They also feared angering the Army Commander. Having the Army Commander personally intervene meant that his aides were useless.

"Boom." "Boom." "Boom."...

Each of the ten shadows surged in aura.

"What? Ten military elites, all burning their godly bodies desperately? I was just passing by!" the clan leader could hardly believe it. How could there be such enmity, to resort to burning their godly bodies in desperation from the outset?

The clan leader glanced at his fellow tribespeople, sadness in his eyes.

"We can't escape this time; we're likely all going to die here," said the disheveled-haired man.

The ten or more true gods of the tribe were stunned.

Suo Zi and Suo Yun, the two young true gods, were especially dumbfounded. They had been full of anticipation for life in Huyang City, and now they were about to die?

They had been born in the tribe and had never been to a big city.

"This is fate."

"We've seen what needed to be seen, experienced what needed to be experienced."

"It's a pity that Suo Yun and Suo Zi are still so young, never having been to a big city."

Most of the other true gods in the tribe were quite resigned; they were the tribal elite, having followed the clan leader to Huyang City

for procurement many times, and were accustomed to the constant presence of life and death from frequently hunting exotic beasts.

"Is it finally my turn?" the clan leader calmly awaited his fate, his eyes filled with reminiscence.

The other true gods also gazed out of the Flying Boat, looking at the terrifying siege, each awaiting the arrival of death.

Suddenly—

"What is this?"

"This—"

The Clan Leader, Suo Zi, Suo Yun, and their fellow kin were all shocked as they looked out, only to see a dark-haired man with a pair of dark golden horns suddenly appear outside, his gaze profound.

The moment he appeared, ten shadows were so frightened that they immediately fled: "It's the eternal true god!"

The Clan Leader inside the Flying Boat reacted the quickest, immediately flying out to respectfully bow: "Greetings, Supreme!"

Luo Feng glanced at him, nodded slightly, then waved his hand to collect the entire Flying Boat along with the Clan Leader.

He might have to confront that unfamiliar eternal true god, fearing that even a mere ripple from the battle might kill these weaker ones. Luo Feng did not want to involve the innocent, so he chose to secure them first.

Luo Feng then looked up, gazing towards the distant source of powerful energy, where the ten shadows had also fled.

"I see you," Luo Feng said with a smile.

The black-robed figure hiding in the distance gritted his teeth in frustration. Although he was powerful, and according to the levels of the Bloodline Cultivation Method, he had even reached the Eternal Eighth Realm, making him one of the strongest among the eternal

true gods.

But at the crucial moment of harvesting the Blue-Purple Blood Crystal Flower, he did not want any accidents.

Yet as much as he feared something, it happened!

"This is my place of cultivation." A terrifying power released slightly, and a deep voice sounded, "Respected Divine Monarch passing by, please leave."

In the Land of Origin, Divine Monarch was a term of respect.

"Place of cultivation?" Luo Feng laughed, "How come I detect the aura of a rare heavenly treasure!"

The terrifying power in the distance immediately revealed a black-robed figure.

The black-robed figure's expression was extremely grim and annoyed. He had tried his best to conceal his presence, but the scent of the heavenly treasure was too mysterious; achieving a 'perfect concealment' usually required the power of a Primal Chaos Overlord.

"The blossoming period of the Blue-Purple Blood Crystal Flower lasts only ten days, and within these ten days, apart from me, there appears to be another eternal true god who has passed by and detected the aura of the treasure," the black-robed figure internally sighed.

After showing himself, the black-robed figure looked towards Luo Feng from afar.

Both parties' gazes collided.

"Indeed, there is a rare heavenly treasure, but I discovered it first," the black-robed figure said, "Whoever dares to compete, I shall kill!"

He was gambling.

Gambling that Luo Feng, unaware of the heavenly treasure, would not rashly risk a battle.

What he did not know was that aside from a few crucial treasures, Luo Feng was essentially penniless, desperately in need of treasures to exchange for resources. Moreover, Luo Feng had been lonely in the Primordial Cosmos Region for too long and was eager for a great battle.

"I am very interested in trying," Luo Feng's eyes gleamed with the desire to fight.

"You are forcing my hand," the black-robed figure sighed softly, and the surroundings instantly darkened a bit; the ten trusted aides by his side silently disintegrated and died. At their deaths, each seemed somewhat incredulous.

"You killed your subordinates?" Luo Feng was puzzled.

"They should die the moment they learn of the heavenly treasure," the black-robed figure spoke calmly, "Originally, they could have lived a few more days until the matter was settled, but then you arrived!"

For an ordinary treasure, there was no need to kill his trusted aides; Hei Duomo was enough to withstand the scrutiny that comes with an ordinary treasure.

But the Blue-Purple Blood Crystal Flower was too precious; once exposed, it would bring too much trouble, and Hei Duomo did not think he could withstand it. So Hei Duomo's plan was to kill all creatures approaching this area. Naturally, he had never planned to spare the ten trusted aides who had been following him.

"Tell me your name; as an eternal true god, you have earned the right to be remembered," the black-robed figure spoke.

"Since I am going to die, there's no need to know too much," Luo Feng replied.

The black-robed figure laughed in extreme anger.

He was reluctant to make a move easily, because any eternal true god on the Land of Origin should not be underestimated; after all, anyone could produce a terrifying treasure with a flip of their hand. But that

did not mean he lacked confidence!

Hei Duomo, with the strength of the 'Eternal Eighth Realm', was considered exceptionally strong among the eternal true gods; otherwise, he would not have been assigned to oversee many matters in Huyang City.

"I am being cautious as an old hand, and yet this eternal true god does not know the immensity of heaven and earth," the black-robed figure's prepared secret technique was instantly unleashed.

"Hmm?" Luo Feng felt it.

A certain unknown source of law was activated.

A black-silver conical spike appeared out of nowhere.

This black-silver spike was densely covered with secret patterns that circulated, terrifying in power. As soon as it appeared, it was already in front of Luo Feng, its speed distorting space and slightly altering the flow of time.

Luo Feng's body was not large, but as a Perfect Divine Body, he could change size at will; though seeming small, it was actually immensely huge. Moreover, in his hometown's small cosmos, Divine Power was continuously forming, connected to the True God's Heart and continuously supplying, causing Luo Feng's godly body to continuously grow.

This black-silver spike, about half the height of Luo Feng, struck him in the chest with a "bang!!!" like two towering mountains colliding at high speed. Even as a Perfect Divine Body, Luo Feng was still knocked back by this spike, his step back causing the void to tremble.

At the same time, one spike after another appeared out of thin air.

As they appeared, these spikes had already reached in front of Luo Feng!

Some spikes struck Luo Feng's headron-head, some on his back, and some on his face... The spikes, attacking from all directions, bombarded Luo Feng.

A total of nineteen spikes!

These nineteen spikes coordinated with each other, their terrifying strikes flowing continuously like water, bringing destructive power that surged into Luo Feng's body, aiming to completely destroy his godly body.

And each spike also transmitted a strange toxin, permeating Luo Feng's godly body, eroding his consciousness.

"Toxins of Law?" Luo Feng detected, his eyes flickering with excitement, "Really interesting."

It had been too long since he had encountered such an interesting opponent.

Chapter 6: Chapter 5 Unilateral

"He must have mastered a source of laws that contains deadly poison," Luo Feng speculated. In the Land of Origin, the eternal true gods harvest the essence of exotic beasts' blood for cultivation, so they often have very unique talents, even mastering some rare sources of laws.

The nineteen sharp cones bombarded him from all directions, and Luo Feng couldn't help but stagger clumsily, with many wounds appearing on his body. However, the wounds healed instantly. The speed of his divine power consumption was not even close to the replenishment rate of a small universe with a diameter of a hundred billion light-years.

"You have been affected by my law's poison and still dare to withstand my Blackwater Cone?" The black-robed figure watched the scene, secretly shocked in his heart.

Hei Duomo was most adept at two methods, one of which was the poison of laws! This poison was unpredictable, it could destroy a godly body and erode consciousness. The weak would die on the spot, and even the strong would suffer damage to their strength.

But he did not know.

Luo Feng's perfect divine body was not the least bit affected by the poison of laws. As for its effect on the soul's consciousness?

With Star Tower guarding the True God's Heart and a spirit will that had reached the pinnacle of the Primal Chaos Level, that bit of law poison couldn't shake him.

"Is that the extent of your poisoning technique?" Luo Feng chuckled as a knife suddenly appeared in his hand.

It was the Bloodshadow Knife, a Godly King Level weapon embryo. The blade was bleak, yet it glinted with a trace of blood light. The moment Luo Feng grasped the knife, the source of the law of life and death was naturally stirred, and countless grey blade lights appeared out of nowhere, sweeping across all directions, repelling those sharp cones.

Blade of Life and Death from "World Breaking Nine Blades"!

During his journey through the Samsara Channel, Luo Feng acquired a vast inheritance from two streams and naturally selected what suited him.

Apart from the core inheritances of Duan Dong River like "Duan Mie" and "Dong Hua," which he was obliged to cultivate, Luo Feng, possessing the Perfect Divine Body, also chose the Body Refining Secret Technique "Primal Chaos Great Strength Diagram," his main blade technique "World Breaking Nine Blades," and for Primoridal Ancestor, "Nine Netherworlds."

However, due to the shortness of time and the high difficulty of "Duan Mie" and "Dong Hua," as well as the vast amount of resources needed for "Primal Chaos Great Strength Diagram," the parts at the eternal true god tier were still untrained.

Of the "World Breaking Nine Blades," he had only comprehended the first blade, which happened to be the most compatible with the 'Source of Life and Death' he controlled—the Blade of Life and Death!

"You have been affected by my poison, yet you remain arrogant?" The black-robed figure laughed loudly as his figure twisted and grew massive, towering like a mountain in the blink of an eye.

He was now clad in scale armor, resembling a standing monster, with four thick legs, a robust body, and eight deep cyan arms. He also had three heads that looked like lizard heads.

The three-headed, eight-armed Hei Duomo, each claw holding a black spear, spread toxic gas with each breath. The gas spread over ten thousand miles, causing a vast amount of vegetation to wither.

With his towering mountainous stature, the three massive heads stared at Luo Feng and growled, "Why don't you reveal your true body?"

"Just you?" Luo Feng held the knife in one hand, looking up at the colossal figure.

The eternal true gods of the Land of Origin usually maintain a humanoid form, with an average height of about one 'blade.' A blade is a basic unit of length in the Land of Origin. According to the information Luo Feng had, the ancient beings of the Land of Origin most revered the 'Yuan,' which is the humanoid form, so the figures at the Godly King Tier usually maintained humanoid forms as well.

Setting an example for others to follow, the Myriad Clans' Cultivators of the Land of Origin, no matter their tribe, even if they were of the Mechanical Clan, Metallic Life Forms, or Plant Tribes, were all accustomed to the humanoid form.

However, when it comes to battle, to fully exert their strength, they would reveal their true bodily forms!

It is only in their true bodily forms that they can perfectly display their full strength!

"Maintaining a too small form impedes their strength, so they need to reveal their true bodies. Generally, unlimited godly bodies can change size at will. Even in a small form, they can still exert their full strength perfectly," Luo Feng understood this. His body could also change size at will, without any impact on his strength.

"Then die!" Hei Duomo's three heads were ferocious, and with giant strides that spanned the clouds, he quickly approached, while the eight spears covered heaven and earth, attacking Luo Feng.

Luo Feng turned into a blur of grey blade light.

A massive towering figure and a diminutive one clashed in an instant.

"Boom～～～"

The blade light contained the mystery of the source of life and death,

empowered by the prestige of the Godly King level weapon embryo, and infused with the immense divine power contained within Luo Feng's perfect divine body. Despite being a newly ascended eternal true god, Luo Feng's blade strike was already terrifying.

The spears were equally frightening. Hei Duomo had been an eternal true god for eons and had used secret techniques and spent massive resources to elevate himself to the Eternal Eighth Realm. These spears showed his profound heritage.

The blade light and the spears collided.

Both Luo Feng's diminutive form and Hei Duomo's massive form were shaken back slightly.

"No wonder you dare to compete for this treasure! You do have some ability!" Hei Duomo grew even more solemn, as the eight black spears coordinated with each other, bombarding Luo Feng with a frenzied onslaught.

In a head-on clash, Luo Feng's Blade of Life and Death was only considered on par.

Now, the eight spears worked in perfect harmony, threatening to increase their power manifold.

This set of secret weapon methods was another great technique of Hei Duomo—the "Black Sky Spear Technique"! Hei Duomo had studied this secret for tens of thousands of years and had cultivated a suitable Eight-Armed Divine Body! With an eight-armed form, he unleashed the dreadful spear technique.

At this moment, as the Black Sky Spear Technique was executed fully, Luo Feng felt as if the sky was falling and the earth was splitting, all filled with long spears.

"As for powerful blade techniques, I only know this one move—Blade of Life and Death!" Luo Feng said, somewhat embarrassed. After all, he had become an eternal true god and immediately came to the Land of Origin. There was no time to study his heritage.

Wielding the Bloodshadow Knife, Luo Feng used the Blade of Life and

Death over and over again. He was completely suppressed by the mysterious coordination of the eight spear shadows and was occasionally stabbed or slashed, sending him flying backwards into the ground!

"What's going on? He has refined his divine body to such a realm, so how come his blade technique is so mediocre?" Hei Duomo became even more cautious. He never dared to be careless when facing an eternal true god.

Little did he know.

Luo Feng hadn't had the chance to cultivate any Body Refining Secret Techniques. His divine body was so strong simply because he had recently become an eternal true god, and that was its state from the start! His mastery of blade techniques was already quite good, and he had even grasped a rather powerful move.

"There must be a plot!" Hei Duomo believed in one thing—he would never easily trust the enemy's surface maneuvers.

"Burn Divine Power!" Hei Duomo's aura suddenly surged, burning his divine power, causing his strength, speed, and other aspects to skyrocket. The overwhelming aura impacted all directions, startling Luo Feng.

Luo Feng too, immediately burned divine power: "Divine Power Ignition!"

"Duan Mie," as one of the three grand techniques of the Duan Dong River lineage, was too profound! Luo Feng had not yet grasped the method of burning divine power at the eternal true god level in a short period. His method of burning divine power was naturally cruder and not as refined as Hei Duomo's method.

"Burning divine power, and his strength hasn't increased much? Could it be he hasn't obtained the secret technique for burning divine power? Then where does he get the nerve to fight over treasures?" Thoughts flickered through Hei Duomo's mind.

But his movements never stopped.

The might of the eight long spears grew even more terrifying.

"Boom boom boom～～～"

Although both sides were burning divine power, Luo Feng was clearly in a worse state and was completely suppressed. He was struck by the long spears time and time again, and his injuries were also noticeably more severe.

"Master, should I take action?" A voice echoed in Luo Feng's mind, belonging to the Sector Beast Morosa, which was hiding far away and observing the battle.

"I'm enjoying the fight, don't interject," said Luo Feng. Even though he was hit repeatedly, relying on the nearly endless divine power of his Perfect Divine Body, he could withstand the injury. He was thoroughly experiencing the clash at the eternal true god level.

Hei Duomo fully occupied the advantage, but he just couldn't kill Luo Feng's godly body, which shocked him: "What a strong Body Refining Secret Technique!"

"Then let him witness my killing blow!"

"Black Sky Spear Technique's 'All Worlds as One'!"

Hei Duomo's burning divine power was madly poured into eight long spears. The world around them twisted, and then Luo Feng saw a long spear carrying the power to decimate heaven and earth before him, cleaving directly onto his own head.

Boom!!!

This force was much more powerful than before, and Luo Feng was blasted downward in an instant.

But as he fell, the second spear, the third spear…

In the blink of an eye, thousands of consecutive spear strikes hit Luo Feng. Each blow was relentless, and Luo Feng couldn't defend himself during the fall, only able to withstand these spear techniques with his sturdy body.

Within less than a moment from falling from the high sky, he suffered thousands of long spear strikes.

Luo Feng was stunned, feeling an endless, terrifying force continuously pouring into his body, relentlessly extinguishing his divine power. His entire being was pounded into the earth, and the horrifying shock waves spread in all directions, causing trees to topple and mountains to crumble. Within millions of miles, Exotic Beasts fell silent, each one lying low.

Even though the Land of Origin's ground was stable, a giant basin was still blasted out, with Luo Feng lying right in the middle of the central pit.

"Huh." Luo Feng blinked his eyes and sat up straight in the pit.

"Master got hit pretty hard." The Sector Beast Morosa, concealing its presence and observing from a distance, couldn't help but cover its eyes and sent a telepathic message, "Master, are you sure you don't need my help?"

"No need, I'm still alright," Luo Feng telepathically replied, then lifted his head to look at the towering figure of Hei Duomo.

Looking down at the tiny Luo Feng, disbelief filled the eyes of Hei Duomo's three heads: "He's still not dead?"

Chapter 7: Chapter 6 You Can Be Proud

```

Channeling Divine Power to execute the killer move "All Worlds as One," he unleashed thousands of spear attacks in a single breath, and the combined force put a great strain on himself. This move consumed about one-tenth of his Divine Power.

Hei Duomo was well aware that if he were to withstand such an attack head-on, his godly body would definitely collapse.

Yet, this unfamiliar eternal true god actually withstood it!

"I can't afford to wear him down!" Hei Duomo's three heads grew colder in the eyes, "To kill him, I must shatter his godly body in one fell swoop! There's only one way left, to use the forbidden move of the Black Sky Spear Technique! I refuse to believe he can withstand that!"

Without hesitation, Hei Duomo executed the forbidden move of the Black Sky Spear Technique, and at this moment, in Luo Feng's view, Hei Duomo's towering figure seemed to explode, with an immense surge of Divine Power boiling over.

Hei Duomo instantly burned fifty percent of his godly body's power!

A typical eternal true god unleashing such a mighty force would scatter it, struggling to control it. But Hei Duomo, using the immense Divine Power he set ablaze, executed the forbidden move of the Black Sky Spear Technique!

"Black Sky Destruction!!!" With an increasingly icy gaze, Hei Duomo swung his eight spears!
```

Incredible Divine Power poured into the eight spears, and as they swung, their phantoms naturally converged into a black shadow as imposing as a pillar from the heavens, with Hei Duomo himself merging into that heavenly pillar-like shadow.

The pillar-like black shadow came crashing down!

The Black Sky Spear Technique's forbidden move, "Black Sky Destruction," was Hei Duomo's desperate move. If he couldn't kill his enemy with this move, he would escape with all his might without a second's hesitation.

"Impressive!" Luo Feng watched the heavenly pillar-like black shadow, and in that moment, he felt the annihilation of all things, everything returning to primal chaos.

"His move already possesses a part of the Primal Chaos Mindset."

Invincible and lonely for too long, facing such a formidable opponent excited Luo Feng so much that his blood boiled!

Luo Feng instantly wielded his knife to counter the heavenly pillar-like black shadow, and at the moment of contact, his body shook violently, Boom!!! He could feel the power of the pillar-like black shadow instantly transmitting into his body, causing a massive explosion within!

Even Luo Feng, with his Perfect Divine Body, sensed the extraordinary force of this move, instantly obliterating a significant portion of his Divine Power.

In midair, Luo Feng's body burst out with blinding light. Beneath the terrible explosion, shockwaves radiated in all directions, much more powerful than the aftershocks of "All Worlds as One."

The intense explosion ripped open many wounds on the surface of Luo Feng's body.

Watching Luo Feng in midair, his body tattered with many wounds, Hei Duomo was stupefied.

"The godly body hasn't collapsed?" Hei Duomo couldn't believe it; his

forbidden move had consumed a full fifty percent of his Divine Power, and with the previous depletion, only thirty percent was left, leaving him much weakened and completely unable to launch another forbidden move.

All of Luo Feng's wounds healed automatically as he looked at Hei Duomo: "Do you have any stronger moves?"

The towering and mighty Hei Duomo's heart trembled, and he fled without the slightest hesitation.

```

Buzz!

He instantly turned into a shadowy figure, tearing through the night sky, fleeing towards the far distance.

"It will probably take a few more days for the Blue-Purple Blood Crystal Flower to mature and fall. I'll go to Huyang City first to ask for help," Hei Duomo thought, escaping with all his might. The Shi Kingdom's branch in Huyang City still had many experts. "With a numbers advantage, I believe we should be able to handle this strange eternal true god."

"Buzz～～～"

With just a distant look in his eyes, Luo Feng released an invisible fluctuation that instantly swept over Hei Duomo. Amidst his escape, Hei Duomo vaguely saw an endless vortex of black mist enveloping him, the black mist vortex instantly swallowing his will!

As an eternal true god who had endured the ravages of endless years, his will was naturally very strong. But the devouring power of the black mist vortex was too terrifying; it had almost completely annihilated his will upon contact.

Hei Duomo, while fleeing, materialized in midair, tracing a parabola out of inertia and crashing heavily onto the ground, as if he had fallen asleep.

"I was completely overpowered in close combat," Luo Feng took a
```

step and arrived near Hei Duomo's body, looking at the mountain-like frame, "It was only with the Secret Technique of Willpower from the 'Nine Netherworlds' that I managed to take him down."

This move was precisely the 'Nightmare of the Nine Netherworlds,' a Secret Technique of Willpower from the "Nine Netherworlds"!

In order to help the Primordial Ancestor, Luo Feng had also cultivated the "Nine Netherworlds" to the eternal true god level. It was a complete legacy primarily focused on illusion techniques and also contained three secret techniques of willpower.

In terms of sophistication, the three secret techniques of willpower associated with the "Nine Netherworlds" were rather ordinary and couldn't compare to the "Lie Yuan Technique."

But with his terrifying will at the pinnacle of primal chaos, the seemingly ordinary 'Nightmare of the Nine Netherworlds' still became very fearsome!

"The fact that I was forced to use a Secret Technique of Willpower is enough for you to take pride in," Luo Feng swung the Bloodshadow Knife in his hand, and the dim shadow of the blade pierced through Hei Duomo's defenseless body, stabbing into Hei Duomo's True God's Heart.

One strike, destroying the True God's Heart.

Hei Duomo, in his daze, was already dead.

A star in the night sky dimmed, a sign that Hei Duomo's small cosmos, deep in the night sky, was collapsing.

In the night sky, stars shone brilliantly, countless stars twinkled, either dimming and collapsing or shining brightly. Every time a star dimmed, it signified the death of a creature. For the vast Land of Origin, the death of an eternal true god was like a small wave in the ocean, barely noticeable.

"This battle was truly not easy," Luo Feng touched his face, having been roughed up not too long ago, his face took quite a few hits, "My close combat is indeed very weak."

From beginning to end, he had relied solely on the Perfect Divine Body to withstand attacks!

Body Refining Secret Technique? Protective Secret Technique? Blade Technique? Movement Technique?

He kept using only the 'Blade of Life and Death,' knowing nothing else!

Luo Feng spotted the unprotected Blue-Purple Blood Crystal Flower at a glance; the scent of the Blue-Purple Blood Crystal Flower, no longer concealed by Hei Duomo's power, began to spread rapidly.

"The Blue-Purple Blood Crystal Flower? No wonder an eternal true god would fight so desperately for it!" Luo Feng revealed a joyful expression; with a thought, his invisible power instantly enveloped the area, perfectly concealing the scent of the Blue-Purple Blood Crystal Flower.

He concealed his aura far better than Hei Duomo, absolutely leaving no trace of flaws.

Even as Luo Feng concealed the surroundings, he completely obscured the vast area where the battle had taken place. Even if a True God passed by, they would notice nothing amiss.

"Swoosh."

The honest Morosa flew over from the distance, landing next to Luo Feng, and clicked his tongue in amazement as he looked at Hei Duomo's corpse: "Master, you've used the Secret Technique of Willpower again! When you were dealing with me initially, it was this technique you employed."

"Willpower is also a part of my strength," Luo Feng said.

"That battle just now was totally one-sided," Morosa remarked with emotion.

Luo Feng glanced at him.

Morosa immediately covered his mouth, then he greedily eyed the

array of weapons and treasures left by Hei Duomo: "This Eight-Armed Eternal True God had quite a few weapons."

"If you want them, take them yourself," Luo Feng said.

"Two spears are enough for me," Morosa said right away, summoning two black spears into his hands. He twirled the spears, his face filled with joy.

At his level, weaker weapons were not as robust as his body! And Eternal Level weapons weren't so easy to come by; Morosa didn't have a single weapon that suited him up until now.

"With weapons, my strength will at least double," Morosa said gleefully.

"Just two spears are enough?" Luo Feng asked.

"Yes, yes, that's enough," Morosa replied.

"Once you're in Huyang City, you'll need some spending money." Luo Feng tossed a black-green jade vial to Morosa.

After receiving it and taking a brief look, Morosa saw that the black-green jade vial contained more than a hundred grains of sand, each with an embryonic universe within. There were also neatly cut Primal Chaos Crystals and several piles of colorful stones.

"So these are the Cosmic Sand, Primal Chaos Crystals, and Primal Chaos Stones? 122 grains of Cosmic Sand, 30,000 Primal Chaos Crystals, and a large amount of Primal Chaos Stones," Morosa said curiously, very pleased.

According to the currency exchange ratio of the Land of Origin, one grain of Cosmic Sand is equivalent to 10,000 Primal Chaos Crystals, and even more valuable than 100 million Primal Chaos Stones.

Cosmic Sand had become the highest currency denomination.

"How come he didn't have a single piece of armor?" Morosa wondered aloud.

"Armor is much more expensive than spears," Luo Feng explained. "His wealth was mainly spent on weapons and inheritance; the eight spears alone are worth eight thousand grains of Cosmic Sand."

Eternal True God Level armor, whether in terms of forging difficulty or the materials required, is far superior to weapons of the same level.

"Master, can I have his corpse?" Morosa asked, eyeing Hei Duomo's massive corpse with covetousness.

He loved to devour small universes, but he also relished the corpses of super-strong beings. As long as he consumed enough energy, he could continue to grow.

"Wait until I'm done studying it, then it's yours." Luo Feng gathered all the spoils of war first.

The spoils left by Hei Duomo were quite decent: the eight spears were about 8,000 grains of Cosmic Sand in value, the 19 Blackwater Cones were also around 2,000 grains of Cosmic Sand, plus some Cosmic Sand he carried, piles of Exotic Beast Materials, among others —totaling an estimated 15,000 Cosmic Sand in value, which Luo Feng also shared part of with Morosa.

"In the Land of Origin, Bloodline Cultivation Methods are typical," Luo Feng said, studying the corpse for a moment. "The bloodline inside this corpse is indeed very powerful."

"However, relying on the bloodline will only take you to the Primal Chaos Overlord level at most," Luo Feng was aware of this as well.

According to records from his master, Mountain Sitting Guest, and the Duan Dong River lineage, nearly half of the Primal Chaos Overlords from Land of Origin had reached their positions through Bloodline Cultivation Methods, while the other half had comprehended the Primal Chaos Laws.

And Godly Kings? Not a single one depended on bloodlines.

"I'll give you the corpse," Luo Feng said, glancing at Morosa. "Hurry up and get into Star Tower!"

"Yes, yes, yes." Morosa excitedly collected the massive corpse, subsequently getting absorbed into Star Tower to enjoy his feast to his heart's content.

"The most delicious food I've had since I was born."

Within one of the floors of Star Tower, Morosa drooled at the sight of the huge corpse in front of him and began to greedily absorb it. The corpse's immense Divine Power was continuously drawn into Morosa.

Outside.

Luo Feng was sitting cross-legged next to the Blue-Purple Blood Crystal Flower, quietly waiting.

"The bloom of this Blue-Purple Blood Crystal Flower lasts only ten days in total, probably not many days left." Luo Feng was in a good mood, as the value of this Blue-Purple Blood Crystal Flower was much, much higher compared to the treasures left by the deceased Hei Duomo.

...

Within Huyang City, a towering pavilion named 'Sky Cloud Tower' soared into the clouds.

At the very top of Sky Cloud Tower, Chairman Zan Yun sat alone, gazing at the partially obscured view of the cityscape amidst the clouds.

"Hmm?" Chairman Zan Yun's expression changed slightly as he took out an octagonal token. Through it, he could sense the other twelve Eternal True Gods from the Shi Kingdom's branch in Huyang City.

At that moment, he lost the signal from one of them.

The token, bestowed by the Marquis, could sense others within the range of the Land of Origin. Generally, a loss of signal indicated death.

"Hei Duomo is dead?" Chairman Zan Yun was shocked.

Chapter 8: Chapter 7 Arrival at Huyang City

"He died before he even reached Huyang City?" Chairman Zan Yun pondered, "Where he died and why, I have no idea. This must be reported immediately!"

He dared not hesitate. With a thought, a small cosmos descended. Clouds swirled around Sky Cloud Tower, naturally concealing the entire top floor.

When eternal true gods invoke 'A Thought Generates the Universe,' most do so without stirring a ripple, even merging the descending cosmic scene naturally into the heavens and earth, thereby completely controlling the surrounding area.

Without delay, Chairman Zan Yun rose, giving reverence as he employed a secret technique. A speck of blood-red flame spontaneously sprang into existence, exuding an aura of disaster and darkness.

"Marquis," Chairman Zan Yun said with respect, "just now, my transmission token lost all contact with Hei Duomo."

"His life token has shattered; he's indeed dead." The blood-red flame slowly emitted a disaster's aura, "He died right after arriving at Huyang City. Was it an expert sent by Yu Kingdom? Or one sent by the Marquis of Jiu Jiang?"

Shi Kingdom eyed the surrounding divine kingdoms predatorily, so naturally, its relations with Yu Kingdom were poor, and the covert conflicts never ceased.

The death of a subordinate was quite normal.

"He had not yet reached Huyang City." Chairman Zan Yun explained immediately.

"Oh?" The blood-red flame questioned, "He should have arrived."

"Hei Duomo should have arrived, today being the deadline." Chairman Zan Yun respectfully said, "Just today, I had contacted and urged him. Yet, he said he would need to delay a few days before arriving. He mentioned nothing else."

The voice from the blood-red flame spoke: "Since he said he could arrive after a few days' delay, he must still be in Jiu Jiang Primal Chaos Prefecture's territory. Pay attention and find out how exactly he died."

"Yes." Chairman Zan Yun said respectfully, "Marquis, I'm somewhat short on experts on my end..."

"Soon, you won't be lacking." The blood-red flame then vanished.

Chairman Zan Yun let out a sigh of relief.

"Hei Duomo, that fool, lost his life just trying to travel." After reporting, Chairman Zan Yun settled back leisurely, "The one who could kill him must be extraordinarily powerful. I certainly don't have the ability to investigate! The Marquis most likely won't blame me."

Serving a Primal Chaos Overlord, even coming to the territory of another country, taking such risks, Chairman Zan Yun naturally wanted to reap huge benefits.

As for putting his life on the line? If he could avoid it, he would.

Behind the death of Hei Duomo, one could tell there was a great expert involved. Chairman Zan Yun had no intention of investigating.

If one were to always rush headlong into danger, Chairman Zan Yun wouldn't have lived so long.

******

Under the night sky.

Luo Feng sat cross-legged next to that Blue-Purple Blood Crystal Flower.

That captured Flying Boat could be released after the Blue-Purple Blood Crystal Flower was harvested. No rush.

"Arriving in the Land of Origin for the first time and having an altercation with a native eternal true god truly revealed many of my deficiencies," Luo Feng mused, "I've just become an eternal true god, and I haven't even begun cultivating many secret techniques."

In this recent encounter, he was utterly outmatched in close combat.

It was only by relying on his Perfect Divine Body that he withstood all the attacks.

"If I encounter someone adept at trapping their foes, they might capture me in a few moves. Then, I'd have to count on the Secret Technique of Willpower or rely on a Mechanical Stream Secret Treasure!" Luo Feng thought, "In the long run, my opponents are likely to be on the level of Three Sovereigns of Shi Kingdom."

"So, I still need to increase my strong points, practice the Lie Yuan Technique, and elevate my willpower to a higher level!"

"At the same time, advancing my major realm is crucial. I must find a way to break through to the Primal Chaos Lord Realm."

"To become a Primal Chaos Overlord, I must comprehend the Primal Chaos Laws," Luo Feng thought, "On one hand, I need an active understanding of the Primal Chaos Laws, and on the other hand, learning some secret techniques related to the Primal Chaos Laws."

He aimed to experience the basic mysteries of the Primal Chaos Laws in practice.

Combining practice and theory is the faster way to master the Primal Chaos Laws.

"My chosen Body Refining Secret Techniques, 'Primal Chaos Great

Strength Diagram' and 'World Breaking Nine Blades,' both lead towards the Primal Chaos Realm." Luo Feng had plenty of secret techniques, although he was somewhat poor.

"For the foreseeable future, I shall mainly cultivate 'Primal Chaos Great Strength Diagram' and 'World Breaking Nine Blades' as well as 'Lie Yuan Technique,' and I will also practice 'Duan Mie,' 'Dong Hua,' and 'Nine Netherworlds.'"

From the perspective of self-growth, he decided on his primary and secondary Dharma practices.

The three great inheritances of Duan Dong River lineage were beneficial, but all were auxiliary, designed to make generations of inheritors better at saving their own lives. As for resources, inheritors had to fight for them themselves.

"This 'Primal Chaos Great Strength Diagram' requires treating the godly body as a Secret Treasure during cultivation, demanding vast resources. I wonder how long this Blue-Purple Blood Crystal Flower will suffice for my cultivation," Luo Feng pondered.

The key to the godly body is the 'True God's Heart.' As long as one protects the True God's Heart from harm, they may refine the godly body as they please.

Thus, generation after generation of powerhouses in the Land of Origin created various Body Refinement secret techniques. Without a doubt, the stronger the godly body's foundation, the better the effects of practicing Body Refinement secret techniques. Luo Feng, with his Perfect Divine Body, naturally chose Body Refinement secret techniques to make his godly body even stronger!

"The resources needed for the Body Refinement secret techniques, I'll be able to purchase them after arriving at Huyang City," Luo Feng decided, then began to comprehend 'World Breaking Nine Blades.'

...

Within one of the spaces in Star Tower.

A Flying Boat resided here, and the Clan Leader along with a dozen

True Gods looked around this space perplexedly, sensing an endless expanse of grey at the edges of space, with time itself completely sealed off, utterly unable to leave.

"Clan Leader, what exactly does the Supreme intend by capturing us here?"

"Could they be considering us as test subjects?"

"I've heard that many True Gods in Huyang City went to test medicines. Could the Supreme be planning to use us to try out medicines?" The True Gods within the group speculated wildly, all feeling somewhat uneasy, given that they were completely powerless to resist.

Suo Zi and Suo Yun, the two young True Gods, also worried upon hearing the discussions of their older clan members.

The Clan Leader laughed, "If it weren't for the Supreme, we would all be dead by now. The Supreme has given us the grace of saving our lives. If there's anything he needs us to do, it would be our opportunity. In Huyang City, many True Gods long for the chance to serve an eternal true god, but never have the chance."

Having had dealings with eternal true gods, the Clan Leader was very clear that these lofty eternal true gods didn't care about those weaker than themselves.

Since they had been saved, they would not take the trouble to kill them afterwards.

"Clan Leader, what do we do now?" Suo Zi asked.

"We wait patiently," replied the Clan Leader.

...

Day and night cycled through their endless loop.

A day on the Land of Origin was extremely long. Luo Feng spent three days cultivating next to the Blue-Purple Blood Crystal Flower and gained some insights into the 'World Breaking Nine Blades,' 'Lie

Yuan Technique,' and 'Duan Mie.'"

"A day in the Land of Origin is very long, roughly equivalent to a year on my home planet Earth," thought Luo Feng.

Now the sky was clear, with clouds drifting by and daylight shining. However, if one looked up, they could still see the few most brilliant stars twinkling in the sky.

"Hmm?"

Suddenly, Luo Feng noticed the fragrance of the flower becoming richer, to the point that it even made his soul consciousness feel extremely pleased. He immediately turned to look and saw the Blue-Purple Blood Crystal Flower swaying gently, its petals appearing as if they were emitting light.

"It's finally about to ripen completely." Luo Feng smiled. After emitting the richest fragrance, the light from the Blue-Purple Blood Crystal Flower finally subsided, becoming ordinary, and silently breaking off from the stem, falling towards the ground.

With a gesture from Luo Feng, the Blue-Purple Blood Crystal Flower was enveloped in divine power and floated in front of him.

"I've heard that this Blue-Purple Blood Crystal Flower greatly aids the cultivation of bloodlines," admired Luo Feng, "However, I'm not a native of the Land of Origin, and thus I cannot practice the Bloodline Cultivation Method."

The geniuses who came to the Land of Origin from the Primordial Cosmos could only comprehend the laws.

Those born on the Land of Origin had various special bloodlines hidden in their bodies, qualifying them to enter the 'Bloodline Cultivation Method.'

Luo Feng stored the Blue-Purple Blood Crystal Flower in a wooden box.

"It's time to head to Huyang City."

With a single step, Luo Feng traversed the void and left, also summoning Morosa and Moyu Hu to his side.

"Moyu Hu, continue to lead the way," said Luo Feng.

"Yes," Moyu Hu dared not ask any more questions. He glanced around in all directions and continued to lead the way.

Luo Feng looked at Morosa beside him, "You seem quite pleased with yourself. Big gains?"

"There were indeed quite a few," Morosa revealed a look of joy and telepathically conveyed, "Master, if such good fortune came a thousand times over, I reckon I'd have hopes of reaching the Primal Chaos Realm."

Luo Feng glanced at him.

Devouring a thousand eternal true gods? What a daring thought!

"Better stick to absorbing the power of heaven and earth," Luo Feng said, no longer paying him any mind. The energy of the Land of Origin was so dense that it formed a mist, making absorbing the power of heaven and earth quite effective.

Whoosh—

After traversing the void for a long time, Luo Feng's eyes suddenly brightened.

"What's that?" As a being with a Perfect Divine Body, Luo Feng's observational range was extremely vast. He now saw an endlessly majestic city at the end of his flight path.

This city was like the wall of the world, its walls higher than any mountain Luo Feng had seen since arriving in the Land of Origin. Compared to its height, the true body of Hei Duomo was less than one ten-thousandth of the height of the city wall.

Under the covering mist formed by the power of heaven and earth, the majestic city appeared indistinct, making it impossible for Luo Feng to see the end of the walls.

"Although I've long known about the enormity of the Land of Origin's major city fortresses, seeing them with my own eyes is still shocking," thought Luo Feng.

"Supreme, we will soon arrive at Huyang City," Moyu Hu, who also saw the outline of Huyang City in the distance, said, "In the entire Jiu Jiang Primal Chaos Prefecture, there are only three large cities. Each of these large cities is built upon the ruins of Primal Chaos and is the result of the combined efforts of masters from the Mechanical School, forming an incredibly stable fortress."

As they approached, Moyu Hu pointed ahead, "Supreme, the East City Gate of Huyang City is ahead. Those two massive floating objects above the eastern city wall belong to two of Huyang's Ten Great Legions—the Vine Jiao Legion and the Golden Jade Legion!"

Luo Feng looked over and saw a vast mass of greenery floating above the southern side of Huyang City's wall, a huge plant teeming with branches and vines through which countless True Gods were entering and exiting this colossal plant.

On the northern side of the city wall, a giant golden octahedron floated, just as large, with countless True Gods moving in and out along beams of light.

A massive plant and a golden octahedron represented two of Huyang's Ten Great Legions.

Thank you all for your support! ^_^

Chapter 9: Chapter 8 Acquiring a Residence

"The Vine Jiao Legion, the Golden Jade Legion," Luo Feng sighed. "Each legion wields a Gigantic Mechanical Stream Secret Treasure."

His own Sha Wu Wings was a Mechanical Stream Secret Treasure designed for individual use.

The behemoths before him were Mechanical Stream Secret Treasures designed for legions! In terms of value, they were worth far more, requiring massive numbers of True Gods to operate.

Moyu Hu explained, "Each of Huyang's Ten Great Legions is led by an eternal true god, commanding many true gods of void space and countless other True Gods. With the aid of Gigantic Mechanical Treasures, their combined strength even possesses a portion of the power that belongs to the Primal Chaos Realm."

Luo Feng nodded. His Sha Wu Wings allowed him to control Primal Chaos to some extent! In terms of power, it was indeed much weaker than the legion-class treasures.

"Even the most ordinary soldiers in Huyang's Ten Great Legions are at least at the Ninth Realm of True God," Moyu Hu remarked with emotion. "The Ten Great Legions, together with the Huyang Guards, naturally deter all within Huyang City."

Luo Feng nodded slightly, then with a wave of his hand, he released the Flying Boat he had saved earlier, as well as the tribal clan leader and more than ten True Gods.

As the clan leader and the True Gods looked around and saw the towering grandeur of Huyang City in the distance, they bowed respectfully one after another, "We pay our respects to the Supreme."

"Ahead lies Huyang City," Luo Feng said. "I take it your destination is Huyang City, right?"

Before he rescued them, Luo Feng saw them and 'heard' their conversation, clearly understanding that this tribal group was indeed heading for Huyang City.

"Yes, we were indeed planning to come to Huyang City. We thank the Supreme for saving our lives," the clan leader said.

"Let us part ways here."

Luo Feng nodded, then immediately flew with Morosa and Moyu Hu directly toward the boundless and imposing East City Gate of Huyang City.

The clan leader and the other True Gods of his tribe stood still, somewhat astonished.

"I thought we were going to be taken as experimental subjects."

"I was already prepared to be a test patient!"

They were all pleasantly surprised; who wouldn't prefer freedom over being controlled?

The clan leader, looking at his kin, laughed and said, "We are fortunate this time to have encountered the Supreme. After entering the city, we shall first help Suo Zi and Suo Yun apply for a residence. Then we'll acquire the items our tribe needs and must leave before nightfall."

Non-citizens of the city must leave before nightfall.

A day in the Land of Origin is equivalent to about a year on Earth, so there is plenty of time for shopping.

"Yes," the tribespeople all responded.

"Suo Zi, Suo Yun, after settling in Huyang City, the city owner's mansion will collect one Primal Chaos Crystal per era, and some Dark Forces will also charge about the same amount," the clan leader

continued. "Once you become true gods of void space, the city owner's mansion's fee can be waived."

True gods of void space, eternal true gods, and those above are exempt from residence fees in any city.

Because they are the backbone of a great city's operations!

"After becoming true gods of void space, will those Dark Forces still demand benefits?" Suo Zi asked.

"They will demand even more!" said the clan leader. "The longer you stay in the city, the clearer it will become that the city's governance isn't completely dictated by the city owner's mansion."

Suo Zi and Suo Yun listened obediently.

"Enter the city," commanded the clan leader. They immediately boarded their Flying Boat and flew together toward the East City Gate.

...

The East City Gate of Huyang City was towering and wide, accommodating a vast number of True Gods coming and going simultaneously.

"There are so many cultivators from the Myriad Clans entering and leaving Huyang City every day," Luo Feng commented with great interest as he flew. Observing everything in one of the Land of Origin's large cities for the first time, Luo Feng found everything to be novel.

"There are even those walking!" Morosa exclaimed in surprise, looking down below, where, in addition to a large number of Flying Boats, there were multitudes of True Gods entering the city on foot.

"Not everyone can afford a Flying Boat," said Luo Feng.

The spatial pressure on the Land of Origin is extremely strong, and True Gods typically are only about 'one blade' tall. Being taller would exert excessive pressure on their skeletal structure. Under such dire

pressure, True Gods could not fly on their own and required Flying Treasures.

Only after reaching the Void True God Realm and mastering the Void could one fly independently.

"What's that?" Luo Feng looked into the distance. There, a dark cyan winged dragon was also flying toward the East City Gate.

Among the multitude of Flying Boats around, this dark cyan winged dragon was indeed conspicuous, and its aura quite formidable.

"That's a Mechanical Flow Treasure 'Chi Wing Dragon' operated by an elite squad of the Huyang Legion," Moyu Hu, having lived for many years in Huyang, was familiar and said with a smile, "The Chi Wing Dragon requires over a hundred true gods of void space to operate it, and it demands an extremely high will from the squadron leader.

With the Chi Wing Dragon, they can even contend against an eternal true god and are extremely adept at swift flying."

Luo Feng nodded in understanding; the military might of Yu Kingdom was indeed strong.

Wherever the Chi Wing Dragon flew, nearby Flying Boats naturally kept their distance. Anyone who stayed in Huyang City long enough knew the extraordinary origins of this 'Chi Wing Dragon.'

...

Inside the Chi Wing Dragon.

A robust woman in armor was being escorted, crowned with four purple horns that resembled a tiara, her purple eyes burning with purple flames. Those who had lived long in Huyang could recognize her as a member of one of Huyang City's top families, the Moli Clan, based on her appearance.

"Finally back in Huyang City," a woman with a fluffy tail sighed alongside her. "Out in the wilderness, I'm always worried about being attacked by powerful exotic beasts; Huyang City is so much more reassuring."

"Dior Rong, with Senior Brother Gaowu here, what's there to be afraid of?" the robust woman said, looking over to a figure not far away.

The figure, sculpted as if from metal, appeared quite ordinary, but his formidable reputation had already begun to spread.

As the favorite disciple of "Moli Xiao," the supreme commander of the Huyang Legion, Gaowu Shui had achieved the Tenfold Realm of true god of void space at a young age. Given his profound accumulation, everyone believed he could become an eternal true god at any moment.

"In the wilderness, one cannot afford to be complacent," Gaowu Shui, who seemed cold but was actually mild-mannered, said. "One must always be cautious and alert. Otherwise, by the time you fall into a trap set by an eternal exotic beast, it's too late to escape."

"There's never been a mistake with Senior Brother Gaowu leading the team," the robust woman said, clearly trusting Senior Brother Gaowu immensely.

"Sister Feiyun, I know just how formidable your Senior Brother Gaowu is," the fuzzy-tailed woman said teasingly.

"Hmm?" Gaowu Shui suddenly started, and looked outside.

Commanding the Mechanical Stream Treasure 'Chi Wing Dragon,' his will was also the will of the entire Chi Wing Dragon. With the help of the Chi Wing Dragon, his senses were extremely sharp. He could detect the presence of eternal exotic beasts from far away while in the wilderness.

At this moment, he sensed the presence of Luo Feng not far away.

Luo Feng, moving about with the power of an eternal true god, naturally did not conceal his aura to the point of 'Absolute Perfection.' Instead, like a normal eternal true god, he let out a slight hint of his presence.

As for Morosa, he had disguised himself to appear as a true god of void space level, quite inconspicuous.

"Senior Brother Gaowu, what's wrong?" the robust woman and the fuzzy-tailed woman both turned to Gaowu Shui.

"There is a stranger who is an eternal true god," Gaowu Shui said seriously as he looked at Luo Feng flying towards the East City Gate in the distance, "It's that man with the dark golden horns."

"A strange eternal true god?" The two women's expressions changed slightly, looking into the distance. They were well aware that in Huyang City, no matter how profound one's family background was, it was ultimately the terrifying eternal true gods who decided the order of the city.

One must be perceptive, otherwise, inadvertently provoking an eternal true god might result in a silent death. Even the city owner's mansion would find it difficult to identify the murderer.

Officials were unwilling to probe too much into matters involving eternal true gods because the highest level of martial power in Huyang City was at the eternal true god level!

"Among the three major cities of Jiu Jiang Primal Chaos Prefecture, our Huyang City has the most number of eternal true gods," Gaowu Shui said solemnly. "And today, one more has been added."

"Jiu Jiang City is the place where Marquis Jiu Jiang resides! Most eternal true gods do not like to cultivate and live under the watchful eye of the Primal Chaos Overlord. After all, it's not pleasant to have a terrifying being looming over your head," the fuzzy-tailed woman said with a laugh.

"Huyang City, as a bustling trade city, attracts powerful individuals from various countries and forces, and so we have a larger number of eternal true gods."

As the offspring of major clans, they strutted around inside Huyang City.

But what they feared the most were the strange eternal true gods.

Strange... signified the unknown!

One might just be passing through Huyang City, casually slaughter a few major clan offspring, and then leave. There would be no way to trace them.

...

Luo Feng, Morosa, and Moyu Hu had already entered the city and were flying within the city.

"What a huge city," Morosa commented as they entered the city. At a glance, he felt the clouds and mist in the distance were endless with mountains undulating and towering buildings even larger than the mountains.

Luo Feng, however, was sensing the flow of the city's aura and nodded, "The great formation of Huyang City is operational, creating a spatial separation! To enter or leave the city, one must go through the city gates. The high skies above are sealed off."

Morosa looked up at the high sky and nodded, "The spatial seal is quite strong. Within the whole of Huyang City, one can no longer traverse through the void."

"Inside Huyang City, we can only fly slowly and cannot traverse through the void. That's why if someone commits a crime and causes trouble, they can't escape quickly and are easily caught by the Huyang Guards. Inside Huyang City, we have to fly slowly, but the Huyang Guards and Huyang's Ten Great Legions can traverse through the void," Moyu Hu also said.

Luo Feng grinned. It might sound frightening, but eternal true gods who could create universes in a thought had their ways to cope.

"Moyu Hu, do you know where one can purchase housing?" Luo Feng inquired.

"I'll show you the way," Moyu Hu exclaimed excitedly. Having managed to return to Huyang City alive with the treasures, his mood was extremely delightful.

Whoosh!

Unable to traverse through the void, Luo Feng and the others flew for a while before arriving at a grand and towering palace.

This palace was divided into three levels, covering a vast area. At the entrance of the first-level palace, numerous true gods were coming and going. Only a few figures could be seen entering and exiting the second-level palace, while the top layer was entirely silent.

"In Huyang City, all purchases of residences are handled in this 'Primal Chaos Hall'," Moyu Hu explained. "The first floor of the Primal Chaos Hall is for serving true gods. True gods can apply for a residence for free but must pay a living fee of one Primal Chaos Crystal each era."

Luo Feng nodded. Huyang City was vast, and providing each true god with a small cave mansion was quite easy. The cumulative income from the numerous true gods paying one Primal Chaos Crystal each era was substantial.

The fees collected by the city owner's mansion were partly to maintain the operation of the entire city, such as supporting the Ten Great Legions, the Huyang Guards, maintaining numerous officials, and formation upkeep. Other parts were tributes to the Marquis of Jiu Jiang and the Monarch of Yu Country.

The Monarch of Yu Country, high and mighty, acquired a massive amount of resources, many of which originated from the countless true gods.

"The second floor of the Primal Chaos Hall is for serving true gods of void space level, who must purchase their residences," Moyu Hu continued.

"The third floor of the Primal Chaos Hall is for serving eternal true gods," Moyu Hu added.

Luo Feng nodded and led Morosa and Moyu Hu directly towards the palace's top third floor.

The third floor of the Primal Chaos Hall was majestic and spacious.

As the three figures of Luo Feng, Morosa, and Moyu Hu flew inside,

two officials immediately appeared. Their gaze was fervent as they looked at Luo Feng, and their demeanor was highly respectful.

"We greet the Divine Monarch," the two officials said cordially.

To the officials, Morosa, perfectly concealing his aura, and Moyu Hu, seemed to be just two servants of the eternal true god.

"I plan to stay in Huyang City for a while and need a place to stay," Luo Feng stated.

Chapter 10: Chapter 9: Rating

"Divine Monarch," the chubby official explained, "the dwellings we prepare for eternal true gods in Huyang City are all located near the Primal Chaos Ruins in the surrounding ring area. There, sensing the Primal Chaos Laws is the clearest."

The reason why large cities attract eternal true gods is precisely because of the proximity to the Primal Chaos Ruins, where sensing the Primal Chaos Laws is most distinct! Naturally, eternal true gods are willing to reside there.

Primal Chaos Ruins also condense a large amount of Primal Chaos Crystals and Primal Chaos Stones.

The Primal Chaos Crystals and Primal Chaos Stones of the Land of Origin all originate from these Primal Chaos Ruins.

"Please look, Divine Monarch, there are over ten thousand cave mansions to choose from in the ring area of the Primal Chaos Ruins," said the chubby official as a three-dimensional model of Huyang City materialized in the hall, with a large number of cave mansions marked on the ring area.

"If you find a single cave mansion too small, you can even purchase several to form a super-large cave mansion," the chubby official said with a smile. "Many large clans in Huyang City have purchased cave mansions here."

"I'll take this one," Luo Feng chose a relatively small cave mansion, instantly seeing all the data information about it.

The cave mansion was 200,000 kilometers long and wide, with a small mountain inside rising 128,000 kilometers high, some elegant lakes and rivers, and over a thousand pavilions and palaces. Beneath the cave mansion, there was a large underground palace.

The underground palace was 100,000 kilometers in length and width, filled with intricate mechanisms, and enveloped in layers of formations, an ideal place for secluded cultivation.

"This cave mansion is rather small, it might feel a bit cramped for an eternal true god when revealing their true body to cultivate secret techniques," the chubby official reminded.

"It's enough, it's enough," Luo Feng said with a smile.

Eternal true gods do indeed require sufficient open space when revealing their true body to cultivate secret techniques.

But his godly body's size was at will, and there would be no impact when cultivating in a small form. And if he were to expand fully? Even the largest cave mansion would feel too small.

"This 'Primal Chaos Armor number 913' cave mansion has a purchase cost of 500 Cosmic Sand," said the leaner official.

Luo Feng immediately waved his hand, and exactly 500 Cosmic Sand floated into view on one side. He chose a smaller cave mansion because the Cosmic Sand left by Hei Duomo was rather limited.

A too-large cave mansion would be unaffordable!

Of course, his size was adjustable at will, and since only he and Morosa would be residing there, there was no need for it to be too large.

"Please inform us of your esteemed name, Divine Monarch," the leaner official asked.

"Luo He," Luo Feng replied, using a false name to prevent the Purple Moon Ancestor from leaking his information.

"All information has been recorded," the leaner official said, handing a Command Token to Luo Feng, "From this moment on, this 'Primal Chaos Armor number 913' cave mansion belongs to the Divine Monarch."

"Good," Luo Feng said, satisfied as he took the Command Token and

turned to leave with Morosa and Moyu Hu.

The two officials respectfully escorted the eternal true god to the great hall's doorway, watching them fly away.

"Report to the city owner's mansion quickly," urged the chubby official.

"Such eternal true gods who purchase residences openly and aboveboard generally have no ill intent," the leaner official said as he reported the detailed information as well.

...

After flying out of the Primal Chaos Hall,

"Moyu Hu, you've been troubled leading the way these past few days. If you run into trouble in the future, you can communicate with me," Luo Feng said to Moyu Hu with a smile, giving him a communication imprint at the same time.

Moyu Hu was both shocked and delighted: "It is my honor to serve the Supreme. He didn't kill me or rob my treasures. Merely for leading the way, he even gave me a chance to seek help. The difference between one eternal true god and another is truly huge."

Moyu Hu secretly marveled, then piloted his Flying Boat towards his home: "I should go home and see if those three little rascals have caused any trouble."

Thinking of his three children, Moyu Hu's heart swelled with joy.

Returning with treasures, his children's fate would also change.

******

Having seen the gigantic model of Huyang City when they were purchasing the cave mansion, Luo Feng and his company already knew the exact location. They flew directly towards it.

"Master, if you're called Luo He, what should I be called?" Morosa transmitted telepathically.

"You'll be called Luo Sa!" Luo Feng replied with a telepathic transmission.

"Got it!" Morosa nodded.

Not far from the Primal Chaos Hall to the Primal Chaos Ruins, Luo Feng and Morosa flew for a while before arriving in front of the cave mansion.

"Here we are," Luo Feng remarked, looking at the cave mansion ahead of them, admiring the elegant mountain ranges that rose over a hundred thousand kilometers high, complete with lakes and waterfalls. A twenty-thousand-kilometer squared cave mansion was indeed considered rather small for an eternal true god.

With the Command Token in hand, Luo Feng easily refined it.

Hum~~~

The Secret Patterns imprinted on the underground palace of the cave mansion lit up, and instantly formations emerged one by one, combining and evolving, drawing in dense mists of Power of Heaven and Earth to cloak the entire cave mansion in clouds and mist.

"The power of these formations is not negligible, even eternal true gods would need to spend some time to break in forcibly," Luo Feng was quite pleased.

"Selling for 500 Cosmic Sand, how could the formations be weak?" Morosa couldn't help but comment, as his own pocket money was just a bit over a hundred Cosmic Sand.

"What's for sale is the location, a position near the Primal Chaos Ruins! The formations are a free gift." After Luo Feng assimilated the entire cave mansion's formation, he condensed a Command Token and handed it to Morosa, "This Command Token is for you. With this, you can freely enter and exit the cave mansion."

Morosa took it, "Let's take a good look at this cave mansion."

Whoosh!

Luo Feng and Morosa entered through the main gate of the cave mansion and leisurely toured the place. With their flying speed, naturally, they could blink from one end of the mansion to the other, quickly finishing the tour.

The master and servant reached the mountaintop and celebrated together with a drink.

"From now on, we will temporarily reside in Huyang City," Luo Feng said with a smile as he drank.

"This will be our first dwelling place since arriving in the Land of Origin." Morosa was also very fond of the cave mansion.

Luo Feng looked around and said, "Out of the thousand buildings within this mansion, choose any one as your residence, and I'll take the main building."

Morosa drank his exquisite wine with great pleasure—it was a fine drink brought over from the Primordial Cosmos, dwindling with each sip. He looked down from above and nodded, "Then I choose the secondary building not far from the main building. I have to protect my master well."

"Hahaha, I'm relying on your protection." Luo Feng said, while also sensing the Laws of Primal Chaos.

Rumbling~~~

The distance was too close, right next to their own mansion, the Primal Chaos Laws manifested on their own! He could even see with his naked eyes the substantial Primal Chaos Laws appearing next to the 'Primal Chaos Ruins'.

"Ever since I came to the Land of Origin, I've found the sensing of the Primal Chaos Laws to be very clear," Luo Feng thought, 'Now living next to the 'Primal Chaos Ruins', it's like watching the laws manifest right before my eyes at close range!"

This was a far better cultivation environment than that of the Primordial Cosmos Region.

Accustomed to the incredibly vague environment of the Primordial Cosmos, Luo Feng was so moved that he was almost in tears.

"With such an environment, I don't need any treasures, just time to comprehend, and I am confident that I can understand the Laws of Primal Chaos," Luo Feng was confident.

Comprehending the 'Laws of Primal Chaos' in such an environment would not be as difficult as sensing the 'Source of Law' in the Primordial Cosmos Region.

"Master...hmm?"

Morosa was drinking wine and chatting with Luo Feng when suddenly, Luo Feng sat there and entered a state of cultivation.

"Starting cultivation already?"

Morosa blinked, stealing a glance at the neighboring Primal Chaos Ruins, "I don't feel anything about these so-called Primal Chaos Ruins."

He was born from the Path of Destruction, needing only to eat, drink, and have enough time and energy to grow, and he could reach the pinnacle. Naturally, he could not understand Luo Feng's emotions at the moment.

"The master needs to cultivate hard. Only when he is strong enough can he protect me in the future." Morosa thought. The thought of only the Sector Beast of Tianmu Kingdom surviving among the many Sector Beasts born throughout the three thousand years of history in the Primordial Cosmos Region put him under a lot of pressure.

...

At the moment, within the massive cave mansion No. 3 of Primal Chaos Armor, this mansion belonged to the Moli Clan.

"Hmm?" The middle-aged man with four purple curved horns on his head, 'Moli Meng', was looking at a piece of information that just appeared, "A strange eternal true god has come to Huyang City and purchased the 'Primal Chaos Armor 913' cave mansion. His name is

Luo He?"

"Besides that, there is no record of any information about him." Moli Meng speculated, "Is he an eternal true god who has recently made a breakthrough? Or has he been sent by an external force?"

As a bustling trade city on the frontier, Huyang City was indeed a mix of all sorts. Moli Meng could not afford to take any piece of information about any eternal true god lightly.

"Father, Father," said a robust woman clad in armor as she strode in.

"Feiyun," Moli Meng smiled at his daughter, "Back from the hunt?"

Moli Feiyun said, "The hunt is a small matter, Father. When I returned to Huyang City, I discovered a strange eternal true god not in the intelligence you gave me. He has black hair, and also a pair of dark golden pointed horns…"

"Is it him?" Moli Meng pulled up the information he had been looking at just before.

Moli Feiyun looked at the abundant information in the report and nodded, "Yes, that's him. His name is originally Luo He? The City Owner's Mansion rated his power level as Grade D. Is it that low?"

The City Owner's Mansion paid close attention to every eternal true god, collecting all related information, and would assign a power level ranking. The rankings went from high to low as Grade A, B, C, and D.

Such information would be reported to the high-ranking core members immediately.

As one of the high-ranking members of Huyang City, Moli Meng held most of the city's profound secrets! Of course, that didn't include those with hostile intentions who had intentionally infiltrated, as they weren't so easy to find.

"The official records don't have any past information about him, so he's temporarily rated as Grade D," Moli Meng said.

"The entire official records of Yu Kingdom don't have any past information about him?" Moli Feiyun was surprised.

"None."

Moli Meng said, "Since he has openly bought a mansion, he probably bears no ill will. He might indeed be an eternal true god who has just broken through. Such newly emerged eternal true gods, without undergoing a lot of experience, usually aren't too strong, possibly only at the third or fourth realms of eternal true gods, so it's only proper to provisionally rate him as Grade D."

"However, even if it is Grade D, you still keep your distance from him." Moli Meng reminded his daughter.

"I understand," Moli Feiyun promptly responded obediently.

———————

I would like to thank the newly added Alliance Hierarchs, namely—

Silver Alliance: Gun Demon Xu Jingming (That was the protagonist of my last novel, ah!)

Alliance Hierarchs: Ultramarine Fish Roe, Three More Obstacles at Night, Venerable Xu Xin (This name is quite cool)

Chapter 11: Chapter 10: Flame Wind Pavilion

Luo Feng was immersed in comprehension, and when he stopped, he found that the sky had already darkened, and Morosa was sitting there idly, bored to death.

"Master, are you awake?" Morosa showed a look of joy.

"While I was cultivating, you just sat here like a fool?" Luo Feng said. "Why didn't you go take a stroll around within Huyang City? I was only comprehending the laws, not turning into an idiot! If an outsider touched the formation of the cave mansion, I would have immediately interrupted my comprehension."

With an ingratiating tone, Morosa said, "Enjoying food and entertainment can be done at any time, but when master is cultivating, I must guard diligently, as it is the most important matter!"

"Haha, well said." Luo Feng stood up. "Alright, let's go out for a bit and sell that Blue-Purple Blood Crystal Flower."

"Master, which establishment are you planning to sell it to?" Morosa also stood up.

"Of course, the Flame Wind Pavilion." Luo Feng said, and right away the two of them had left the house.

Moments later, Luo Feng and Morosa were already looking at the distant and majestic Flame Wind Pavilion from afar. Among the countless buildings in Huyang City, the main building of the Flame Wind Pavilion was second in height only to the city owner's mansion.

"The safest place in the entire Huyang City is this Flame Wind

Pavilion," Luo Feng said. "Even if Huyang City were to be destroyed, this Flame Wind Pavilion would remain unscathed."

"Oh?" Morosa was amazed, as his understanding of the Land of Origin came from Luo Feng.

"The Flame Wind Pavilion represents the Flame Wind Ancient Country," Luo Feng said. "Inside the Flame Wind Ancient Country, some powerful forces have come together to establish the Flame Wind Pavilion, and their business spans across most of the Land of Origin."

"Even in wars between Divine Kingdoms, they wouldn't dare to touch the Flame Wind Pavilion. Because to do so would be to disgrace the Flame Wind Ancient Country," Luo Feng laughed. "The consequences would be severe."

Morosa nodded in realization, "What a strong background."

"No matter the treasures, they can buy and they can sell!" Luo Feng said. "They are the safest trading partners!"

This Blue-Purple Blood Crystal Flower was enough to make some eternal true gods green with envy and go insane. To ensure a stable transaction, Luo Feng did not hesitate to choose trading with the Flame Wind Pavilion.

The Flame Wind Pavilion covered a vast area, with many buildings, and the main building particularly catered to guests from all directions.

Whoosh.

Upon arriving at the entrance of the main building, Luo Feng and Morosa were immediately met by an attendant who came forward to greet them: "Divine Monarch, please come inside." The attendant enthusiastically led them into a private hall.

"Divine Monarch, this is Chun Mi Wine from the Flame Wind Ancient Country, please have a taste." The attendant poured the wine, a cup of which would be worth several Primal Chaos Crystals in the Flame Wind Ancient Country and was simply not available for purchase in

Huyang City.

"Chun Mi Wine?" Luo Feng picked up a cup, took a sip, and felt a light, refreshing taste spreading through his soul and consciousness.

"Let's talk business. I'm here to sell a Blue-Purple Blood Crystal Flower," Luo Feng said, turning his hand and placing a wooden box on the long table in front of him.

"Blue-Purple Blood Crystal Flower?" The attendant was somewhat surprised, despite being used to catering to eternal true gods, he was still a bit shocked. He immediately opened the wooden box and saw a seemingly ordinary Blue-Purple Blood Crystal Flower.

Hum～～～ Within the Flame Wind Pavilion, a formation activated, enveloping the Blue-Purple Blood Crystal Flower in light, and instantly completing the appraisal.

"This Blue-Purple Blood Crystal Flower is fully mature, well harvested and preserved, and of superior quality. Based on the current market value, the Flame Wind Pavilion is willing to buy it for 120,000 Cosmic Sands," said the attendant. "How does that sound to the Divine Monarch?"

"Okay," Luo Feng readily nodded in agreement.

He was well aware of the Flame Wind Pavilion's rules, that for treasures valued below ten million Cosmic Sand, bargaining was generally not entertained. For various exotic treasures from heaven and earth, the Flame Wind Ancient Country's headquarters had clear pricing for different levels, and its branches had no authority to adjust them.

"Then this Blue-Purple Blood Crystal Flower belongs to my Flame Wind Pavilion," the attendant repositioned the Blue-Purple Blood Crystal Flower and at the same time, a cyan jade vial appeared out of thin air on the table. The attendant handed the cyan jade vial to Luo Feng, "Divine Monarch, there are 120,000 Cosmic Sand inside. Please verify."

Luo Feng took the vial and with a brief sensation confirmed it was

correct.

"The transaction is settled," the attendant said with a smile, "Divine Monarch, is there anything else I can do for you?"

"I also need to purchase some Artifact Refining Materials. Here's the material list," Luo Feng said, handing over a prepared list to the other party, "The total cost for the materials is 100,000 Cosmic Sand!"

The majority of the Cosmic Sand earned from selling the Blue-Purple Blood Crystal Flower would be spent.

"100,000 Cosmic Sand to buy all these materials?" the attendant was astonished, "Most of these materials are fairly common. If we go by the list, that would be a very large quantity. We might need to move entire mountains for some materials. Are you sure you want to spend all 100,000 Cosmic Sand on these?"

"Can the Flame Wind Pavilion gather them all?" Luo Feng asked.

The attendant confidently smiled, "No need to worry about that, even if it's a hundred times or a thousand times more, the Flame Wind Pavilion can summon them from other places! As for your needs, we have ample stock in our storerooms. It will be delivered in the time it takes to drink a cup of wine."

"Good, then please arrange it quickly," Luo Feng nodded, "Besides purchasing these materials, I would also like to apply to join the Flame Wind Pavilion's 'Dark Hall'."

The attendant smiled slightly, "Once you join the Dark Hall of our Flame Wind Pavilion, you can actively post tasks, accept tasks, and purchase intelligence. As an eternal true god, you can join the Dark Hall without review or fees."

As an organization that spans most of the Land of Origin.

Of course, Flame Wind Pavilion engages in the business of intelligence, as well as offering bounties for tasks. These kinds of businesses are all undertaken in the name of the 'Dark Hall'. The more clients the Dark Hall has, the better, so the threshold to enter is very low.

One can join the Dark Hall with sufficient strength or wealth.

"Divine Monarch will need a code name within the Dark Hall," the attendant said.

After thinking for a moment, Luo Feng replied, "Call me Bladesman."

"Alright, your application has been successful." The attendant flipped his hand and passed a transmission token to Luo Feng, "This is the Dark Hall's Transmission Order. With it, you can contact the Dark Hall within large cities. Whether it's purchasing intelligence, posting or accepting tasks, everything can be done through this transmission token.

If the transmission token is lost or damaged, you can also have it reissued at the Flame Wind Pavilion."

Luo Feng took the Dark Hall's Transmission Order, which was fixed to contact only the Dark Hall.

"A set of basic intelligence on the various countries of the Land of Origin," Luo Feng decided to try purchasing intelligence first.

"Divine Monarch, as you've just joined the Dark Hall and being an eternal true god, you have a sum of 1,000 Cosmic Sand available on credit, which must be repaid within one era; otherwise, the penalty will be ten times the outstanding amount," the attendant reminded.

"The intelligence I'm purchasing costs 10 Cosmic Sand; I'll pay you first," Luo Feng paid straight away.

At the same time, he was reviewing the piece of intelligence just sent through the 'Dark Hall's Transmission Order'. It was a basic report on the countries of the Land of Origin, including maps, cities, and other fundamental information.

Naturally, Luo Feng was most interested in the intelligence about the Shi Kingdom.

"...Shi Kingdom, a total of five Masters..." This information was rightfully basic intelligence, merely stating 'a total of five Masters' regarding the Shi Kingdom's Masters. As for the Godly King level

beings, what powers they had, what Secret Treasures they possessed, there was not a single record.

Luo Feng's expression changed slightly.

"The Shi Kingdom has five masters now? When Master Mountain sitting guest fled to the Universe Ocean, there were only three masters in the Shi Kingdom," Luo Feng thought, "The Yu Kingdom hasn't changed much, still with five Godly Kings."

"During the time Master fled, the Shi Kingdom has grown stronger."

Luo Feng accepted this quite naturally.

Mountain sitting guest had fled the Land of Origin, and in the Primordial Cosmos, he had gone through an entire Reincarnation Era, even nurturing an outstanding individual like Luo Feng. With the aggressive nature of the Shi Kingdom, it was natural for changes to occur over such a long period.

Three masters? Five masters?

For Luo Feng, who was still just an eternal true god, there wasn't much of a difference. He wasn't at the Godly King Level, so he couldn't get involved at all!

"The Dark Hall still has a large number of bounties, Divine Monarchs can take a look as well," said the attendant.

Luo Feng nodded.

He effortlessly saw numerous bounty tasks, including protection duties, hiring tasks, assassination tasks, and so on.

"There's a bounty to kill the highest commander of the Huyang Legion, 'Moli Xiao'?" Luo Feng was surprised to see this task.

The highest commander of Huyang's Ten Great Legions was one of the most powerful rulers in the entire Huyang City. Even the City Lord's power might not necessarily surpass that of this highest commander! Yet, there was a bounty in the Flame Wind Association's Dark Hall.

"As long as there's a client brave enough to issue a task, our Flame Wind Pavilion will dare to place a bounty," the attendant said with a smile, "Even if it's a Godly King, our Flame Wind Pavilion will post a bounty just the same."

"The Flame Wind Pavilion indeed has such strength," Luo Feng nodded.

"Huh."

Suddenly, a black Jade Vial appeared out of nowhere, which the attendant handed to Luo Feng: "Divine Monarch, all the Artifact Refining materials you requested are here, please inspect them."

After Luo Feng took it, he saw a massive pile of materials heaped like a mountain; with a single thought, he checked everything thoroughly.

"There's nothing missing, only extra," Luo Feng was very satisfied.

"With some common materials, we only add more," said the attendant.

Luo Feng nodded, then got up and instructed Morosa, "Let's go."

The attendant personally saw Luo Feng out.

...

Inside one of the small buildings of the Flame Wind Pavilion.

A figure made of grey fog was leisurely browsing through one piece of information after another when suddenly a burly man walked in.

"Pavilion master," the eyes of the figure of grey fog, which were made of mist, looked towards the burly figure, "As the pavilion master, you leave all matters of the Flame Wind Pavilion to me, an old fellow, to handle entirely by myself."

"Second Uncle, I've troubled you," the burly man immediately said with a smile.

"What I regret most now is agreeing to the ancestor, always following

and protecting you. Who would've thought that after leaving the Flame Wind Ancient Country, you'd wander for over a thousand eras, and still not return!" said the figure of grey fog, "When do you plan on returning to the clan? I'm starting to miss home."

"I plan to break through to the Primal Chaos Realm before going back," said the burly man.

"You, as part of Emperor Chu's Lineage and with noble blood, haven't cultivated the Bloodline Cultivation Method but pursued understanding of the laws; I knew of your ambition then," the figure of grey fog remarked, "You initially became a True God with 'unlimited godly bodies' without relying on bloodline, and every step you take will be difficult.

Actually, our clan's elders usually cultivate their bloodlines first, and only when they hit a bottleneck do they turn to understand the laws!"

The burly man shook his head, a hint of disdain in his eyes: "After taking the straightforward path for countless years and then turning to the difficult road, how many can succeed? They're all mediocre!"

The figure of grey fog nodded in approval: "If you continue along the path of the laws and become a Primal Chaos Overlord, after you return, the clan will certainly train you with all their resources."

Because every Godly King on the Land of Origin had broken through by understanding the laws.

"Becoming a Primal Chaos Overlord is very difficult," the burly figure nodded, "The Primal Chaos Laws are much too arcane."

He was born on the Land of Origin, so from a young age, he had a crystal-clear sense of various laws! Therefore, he felt that the farther he went, the more difficult it became.

Luo Feng was different.

In the era of the Primordial Cosmos, sensing the laws was extremely vague. So when he arrived at the Land of Origin, Luo Feng was overjoyed! He found the understanding of the Primal Chaos Laws to be rapidly improving.

"Hmm?" The figure of grey fog saw a new piece of information that had just appeared before him, glanced at it, and then told the burly figure beside him, "Pavilion master, a new eternal true god has come to Huyang City and has also become a client of our Dark Hall, with the code name 'Bladesman'."

"Oh, I see," the burly figure nodded.

Both of them didn't pay much attention, as descendants of Emperor Chu's Lineage from the Flame Wind Ancient Country, they were entitled to overlook most eternal true gods in Huyang City.

******

Luo Feng and Morosa returned to the Cave mansion.

"I will go into reclusive training for some time, you are free to do as you please," Luo Feng instructed, "Remember, don't cause any trouble for me."

"Don't worry, Master!" Morosa immediately responded enthusiastically.

Only then did Luo Feng turn and enter the underground grand hall of the Cave mansion. As soon as he entered, the multi-layered mechanisms of the grand hall shut down, and formations were sealed off.

This underground grand hall was specifically used for cultivation in solitude, but Luo Feng still found it too small. With a wave of his hand, he brought out the Star Tower.

Whoosh.

Luo Feng entered the Star Tower. The Star Tower itself contained vast space, allowing Luo Feng to cultivate to his heart's content without worrying about damaging a single thing.

"Begin to cultivate the 'Primal Chaos Great Strength Diagram,'" Luo Feng sat cross-legged and began his first secluded training on the Land of Origin.

Chapter 12: Chapter 11 The First Closed-Door Cultivation

In one of the floors of the Star Tower, within a vast and boundless space, sat Luo Feng cross-legged, his body beginning to grow in size.

"Grow! Grow! Grow!"

From his original stature, just one blade's height above an average True God, Luo Feng's height surged in the blink of an eye, far surpassing the elegant mountain range over a hundred thousand kilometers high near his cave mansion—not even one of his small toe could compare to that mountain range.

"The space-time of the Land of Origin is extremely stable and suppressive. True Gods are generally about one blade's height. Now that I am showing my true size, I am only 120 million kilometers tall!" gazing down on his majestic true body, Luo Feng contemplated, "The suppression of the Land of Origin is indeed too strong.

If I were in the surrounding regions of the Primordial Cosmos, my godly body would be many times larger."

In different regions, whether it's the speed of time flow or the pressure of space, the environment is drastically different.

In the regions of the Primordial Cosmos, the stature of True Gods is extremely large.

"I broke through from the True God Level to the Eternal True God Level in a short period of time. My Perfect Divine Body hasn't grown to its limit." Luo Feng was very clear that his microcosm was ceaselessly absorbing Primal Chaos Current and transforming it into Divine Power, continuously fueling the growth of his godly body.

Every moment, he was growing taller!

120 million kilometers was just a height during the developmental phase!

"Accumulated over the long years of the Land of Origin, there are not a few who possess unlimited godly bodies." Luo Feng had a wealth of information about unlimited godly bodies; among his predecessors of Duan Dong River, two of them had unlimited godly bodies.

How tall could a Perfect Divine Body grow in the stage of an eternal true god? Luo Feng didn't know, because there was no precedent.

But he understood the height of unlimited godly bodies!

"An 'unlimited godly body' at the level of an eternal true god, under the environment of the Land of Origin, can reach a maximum height of 3.6 billion kilometers." Luo Feng thought, "I have a Perfect Divine Body, so my growth limit should be even higher!"

"Let's just develop gradually."

Luo Feng sat cross-legged with closed eyes and began to delve into the study of the Primal Chaos Great Strength Diagram.

Having a Perfect Divine Body, Luo Feng naturally wanted to make the most of his advantage. He carefully selected from the massive heritages he had obtained and chose the Body Refining Secret Technique "Primal Chaos Great Strength Diagram."

"To refine the godly body like a Secret Treasure Weapon, a weapon that is a hundred kilometers tall and one that is a hundred million kilometers tall have vastly different powers, even if the principles of their creation are similar." Luo Feng studied and understood meticulously this Body Refining Secret Technique.

The Primal Chaos Great Strength Diagram appeared to be a common Body Refining Method of the Primal Chaos Realm, but it was very suitable for those with large godly bodies.

This method was divided into six layers.

The first three layers were at the Eternal Level.

The last three layers were at the Primal Chaos Realm Level.

"Primal Chaos Great Strength Diagram, first layer 'Foundation Building.'" With a thought, Luo Feng summoned a small amount of Artifact Refining Materials and began to use the Secret Technique to melt them. With the strength of Luo Feng's Perfect Divine Power, melting the materials was quite effortless.

Even if he understood the technique of melting, it required repeated trials.

"Artifact Refining is not easy! And it's even harder to refine 'Eternal True God Level Weapons'." Luo Feng learned the various Artifact Refining techniques recorded in the secret technique, naturally encountering all sorts of difficulties during the learning process.

The characteristics of the materials, their combination, engraving Formation Diagrams, how different Formation Diagrams combine...

Time after time, he encountered difficulties and then solved them.

"Fortunately, I became an eternal true god through understanding the essence of laws," Luo Feng couldn't help but reflect while studying the Artifact Refining Secret Technique, "Those who became eternal true gods through bloodline cultivation know how things work but not why.

Without understanding the essence of laws, their difficulty in learning Artifact Refining Secret Techniques is probably much greater."

In fact, any top-secret technique is not easy to master!

Even if one acquires a secret technique, there is no guarantee it can be perfected.

The path of cultivation gets harder the further one advances!

Only those who understand the essence of the laws, and take each step solidly, can hope to reach the Godly King Level.

Time passed.

One day, two days, three days...

Each day in the Land of Origin is equivalent to about one year in the Primordial Cosmos. Considering also that time flows faster in the Primordial Cosmos, a second here passed as 10,081 seconds there.

So, one day passed in the Land of Origin meant a staggering 10,081 years had passed in the Primordial Cosmos, that is, an era!

Luo Feng's microcosm, with a diameter of 100 billion light-years, crazily absorbed the Primal Chaos Current and condensed it into Divine Power, connected to Luo Feng's True God's Heart, providing for the growth of his godly body.

Inside the Star Tower, Luo Feng, with a height of 120 million kilometers, was also slowly growing taller.

130 million kilometers, 140 million kilometers... 200 million kilometers... 300 million kilometers... As his height increased, the more Divine Power he needed, and the slower the rate of growth became.

Immersed in the study of the Primal Chaos Great Strength Diagram, Luo Feng lost track of time.

"Hahaha, each occupation has its own specialities! Fortunately, I have a deeper understanding of the laws, and luckily this is just the first layer 'Foundation Building' of the Primal Chaos Great Strength Diagram. I've finally got it all figured out," Luo Feng laughed heartily.

"Oh?" It was only then that Luo Feng noticed he had grown quite a bit taller, "My height has reached 800 million kilometers?"

This height seemed trivial to Luo Feng. After all, according to the information he had, unlimited godly bodies could reach a height of 36 billion kilometers at the stage of an eternal true god.

"My godly body is still growing. It would be most appropriate to refine it once it has finished developing," Luo Feng thought. Otherwise, refining the body while it was still growing would waste a

lot of materials.

"Time to explore other secret techniques." Luo Feng was captivated by his cultivation.

Having just become an eternal true god, he naturally improved in all aspects as he practiced various secret techniques.

And the feeling of continuous growth was very addictive.

"World Breaking Nine Blades, Lie Yuan Technique, Duan Mie, Dong Hua, Nine Netherworlds…" Luo Feng, in his state of seclusion, was completely immersed in them.

He could also sense the manifestation of Primal Chaos Laws in the neighboring "Primal Chaos Ruins" at any time, studying various secret techniques while observing the Primal Chaos Laws, Luo Feng felt insights flooding into his mind.

The collision of different secret techniques, combined with Luo Feng's extraordinary talent, made rapid progress all but inevitable.

To be able to cultivate to an eternal true god in the Primordial Cosmos Region! To cultivate a Perfect Divine Body in such an environment, and to have one's will reach the Pinnacle of Primal Chaos! Luo Feng's talent was beyond doubt.

...

Immersion in cultivation caused time to continually pass by.

When Luo Feng had researched several secret techniques for a while, one day, his increasingly majestic godly body suddenly stopped growing.

"Hum~~~"

In the small universe of the Primordial Cosmos Region, which was at its limit of absorbing Primal Chaos Current, suddenly slowed down the absorption.

Luo Feng's godly body also shook, halting his cultivation.

"My godly body, it's not growing any longer?" Luo Feng felt new Divine Power accumulating in the True God's Heart but could no longer make the godly body grow, "At last, it has grown to the limit of the eternal true god stage."

"Unknowingly, it's been 1.2 billion days since I came to the Land of Origin, over an Era already," Luo Feng thought.

An Era on the Land of Origin equates to ten billion days!

Luo Feng had sequestered himself for just over an Era, and in that time, 1.2 billion Eras had already passed in the Primordial Cosmos Region. The small universe had continued to absorb energy for such a long time, allowing Luo Feng's godly body to grow to its limit.

"My current godly body height…" With a slight sensing, Luo Feng became clear of his current height, "It has grown to a height of 180 billion kilometers! That's five times the ultimate height of 36 billion kilometers for unlimited godly bodies."

His height was fivefold.

The vastness of his Divine Power was more than a hundredfold.

"Even in the time-space environment of the Land of Origin, my height has reached 180 billion kilometers! I am even taller than the walls of Huyang City, which are probably around the level of my knees," Luo Feng mused, "With such a massive godly body, those Primal Chaos Overlords who do not possess 'unlimited godly bodies' are probably not as tall as me."

According to the intelligence he had, those who cultivated their bloodlines to become Primal Chaos Overlords, no matter how special their bloodlines! Or how formidable their secret techniques, had not exceeded a height of a hundred billion kilometers.

Of course, in terms of the quality of Divine Power, insights into the Primal Chaos Laws, and Weapon Secret Treasures, those Primal Chaos Overlords were far superior to him.

Even if it were the Secret Technique of Willpower!

The Secret Technique of Willpower, which was relatively rare on the Land of Origin, was something Primal Chaos Overlords could easily acquire several of; perhaps nowhere close to Lie Yuan Technique, but they also had various application techniques.

Those who were able to cultivate to the Primal Chaos Realm had their wills toughened to great strength! Combined with the Secret Technique of Willpower, it was very hard for Luo Feng to even think of heavily damaging his opponents with his will alone!

"Now, I still fall significantly short in all respects when compared to the Primal Chaos Overlords," Luo Feng felt, sensing the vast Divine Power contained within his 180 billion-kilometer-tall godly body, "Since the godly body has grown to its limit, it's time to commence full-body refinement."

With a thought, the vast materials stored in the Star Tower flew out, with Luo Feng skillfully beginning to smelt the materials, precisely controlling the proportions, and gradually fusing them into every part of his godly body.

Each step of the "Foundation Building" in the first layer of the Primal Chaos Great Strength Diagram had been thoroughly practiced by Luo Feng, and he had experimented with a small amount of materials; therefore, full-body refinement now went exceedingly smoothly.

Days passed by.

Refining a secret treasure that was as tall as 180 billion kilometers, even when fully understanding all the steps, was an exceedingly complicated task. With Luo Feng's powerful will, his meticulousness in inscribing every Formation Diagram ensured there were no mistakes, and it finally took him more than three hundred days to complete the first layer of the Primal Chaos Great Strength Diagram.

"At last, I've refined the first layer," Luo Feng exhaled in relief, "The Artifact Refiner Materials I spent a hundred thousand Cosmic Sands to buy are almost used up."

Luo Feng felt somewhat melancholic.

"Just for Foundation Building, such a vast amount of materials was consumed?" Luo Feng now also realized the only downside of his godly body being too large, which was the horrifying consumption of body refinement, "A hundred thousand Cosmic Sands. I thought I prepared enough, but it turned out to be barely sufficient to complete the simplest first layer."

"How many Cosmic Sands will I need for the much more complex and vastly more consuming second and third layers? A million Cosmic Sands? Two million Cosmic Sands?" Luo Feng felt the pressure.

To think of someone like Hei Duomo accumulating treasures worth just over ten thousand Cosmic Sands.

This time it was just good luck, with the tremendous wealth from the rare treasure Blue-Purple Blood Crystal Flower, that he had gathered enough to complete the first layer's Foundation Building.

Luo Feng introspected his godly body.

Within his massive 180 billion-kilometer-tall godly body, besides the original complex structure, there was an additional layer of secret treasure structure, with dense secret patterns infiltrating every drop of blood, deeply integrated into every piece of bone.

"The cost was great, but the effect is rather good," Luo Feng was quite satisfied, "It's time to leave seclusion."

With one thought, he packed up the Star Tower, and lifted the formation seal of the Underground Palace.

Boom boom boom~~~

The passage of the Underground Palace opened, and Luo Feng flew out, arriving at his own cave mansion.

Now it was night, with a cold wind howling, and the entire cave mansion was quiet; Morosa was not inside.

"Secluding myself for just over an Era, for eternal true gods, is considered a relatively short seclusion," Luo Feng had decisively chosen to seclude himself properly to make up for his many

shortcomings, especially after his first battle upon arrival in the Land of Origin, in which he had been utterly trounced.

In just over an Era, Luo Feng's various aspects had been sufficiently replenished!

"You've returned quite quickly!" Luo Feng looked up, and with the sensation of soul enslavement, knew that Morosa had swiftly made his way back as soon as he had emerged from seclusion.

"Whew."

A stream of black light flew into the cave mansion; it was Morosa, who from afar excitedly shouted while carrying a big jug of wine in one hand and a large piece of roasted meat in the other, "Master, master, you've finally emerged from seclusion. I've been anxiously waiting."

Chapter 13: Chapter 12 Fire Realm Restaurant 'Black Butcher

Luo Feng looked at the jug of wine and grilled meat in Morosa's hands and couldn't help but laugh, "You seem to have enjoyed yourself these days. On our way back, you just couldn't let go of the wine and meat in your hands."

"Enjoyed myself?" Morosa took a big bite of the meat and shook his head repeatedly, "Not at all. Master, you told me not to cause trouble! Throughout this entire era, I didn't dare to stir up any kind of trouble! It's been so frustrating, I've been holding it all in!"

"Very frustrated?" Luo Feng pressed on.

Morosa nodded vigorously, "Huyang City is a mix of different powers, and there are some battle-hungry maniacs who deliberately pick fights! According to my temper, I would have squashed them with one hand long ago. But the master's command comes above all else! I would rather die than disobey! So, I just had to endure it, turning big issues into small ones, and small issues into nothing."

Luo Feng was curious, "You turn big issues into small ones, and small issues into nothing?"

Sector Beasts, born from the Path of Destruction, have an inherently ferocious nature, and Luo Feng was curious how he could possibly have endured.

"I just slightly injured them enough to let them feel the difference in strength! Then I made them pay a fine," Morosa explained hurriedly, "This isn't causing trouble. If one does not fight back when attacked, they will only be bullied even more harshly."

Luo Feng nodded, "I understand, a coward in Huyang City will be devoured without leaving any remnants."

"Master is wise," Morosa said with a laugh, and couldn't help but take a few more sips of wine, savoring it.

"Back home, you didn't like to drink much," Luo Feng observed curiously.

Morosa's eyes lit up and he quickly said, "Master, since you've come to the Land of Origin, you haven't really had a chance to taste the local wines, right? Some of the wines here taste so much better than those back home."

"Let me have a taste," Luo Feng took the jug and tilted his head back for a sip.

Upon taking a sip, he immediately felt as if his soul had been nourished, feeling comfortable and relaxed.

"This is interesting," Luo Feng exclaimed in surprise, "Since arriving in the Land of Origin, I've only had a cup of Chun Mi Wine at the Flame Wind Pavilion, which has a relatively restrained flavor. But this wine of yours is domineering. It even affects my soul consciousness."

Luo Feng's soul consciousness was so strong, yet he still felt a sense of comfort and relaxation.

If a true god of void space were to drink it, they would probably feel so comfortable that they'd be ecstatic."

Morosa nodded and said, "Creatures born in the Land of Origin can consume the Power of Heaven and Earth from birth, so they don't actually need to eat or drink. Their food and wine... are not meant for energy replenishment, but they do have some peculiar effects."

"Either a very strong olfactory stimulation or some benefits to the godly body and soul consciousness, making true gods crave them," Morosa explained.

Luo Feng nodded.

He was aware of this as well—the common food and drinks in the Land of Origin were not valuable; it was the special food and drinks that fetched a high price. They generally had miraculous effects like refining the godly body or nourishing the soul.

"Like this jug of wine here, it costs three Primal Chaos Crystals! I have to drink it sparingly," Morosa admitted with a hint of cherishing attachment as he put it away.

"Food and wine are so enticing? Come on, Morosa, take me to have a look," Luo Feng said.

Morosa's eyes sparkled, and with his mouth agape, he swallowed the huge piece of grilled meat in one bite, then quickly said, "Don't worry, master. Although I don't know much about other things, in these past eras, I've come to know quite a bit about the food and wine in Huyang City. I'll show you the way."

"But..." Morosa smirked and chuckled, "I'm quite broke, so you'll have to foot the bill later."

"Look at how stingy you are, all that pocket money is given by me," Luo Feng said, "Alright, lead the way!"

"Let's go!" Morosa, decisive and swift, led Luo Feng out of the cave mansion.

...

Under Morosa's lead, after flying for a while, the two of them arrived at an ordinary restaurant called 'Fire Realm Restaurant' in Huyang City, which did not cover a large area and was rather unremarkable.

"In this past era, I have tried many delicacies, but the Fire Realm Feast here is my favorite, and it's not too expensive either," Morosa introduced.

Luo Feng looked up.

The name 'Fire Realm Restaurant' stood out as part of the Formation.

"Black Butcher, come out quick!" Morosa yelled, and also explained to

Luo Feng, "Master, Black Butcher is the owner of this restaurant. I've been here many times and am very familiar with him. He also comes from the Land of Origin that broke through the cycle of reincarnation."

"From the Land of Origin that broke through the cycle of reincarnation?" Luo Feng was surprised.

Suddenly, a fat man emerged to greet them, his hair and beard as stiff as needles, his body covered in scale armor, sporting tusks, and with a pair of fiery eyes, like two burning stars. He walked out full of enthusiasm and with great respect, "For a Supreme to come here is an honor for my Fire Realm Restaurant."

This was an eternal true god!

Since his ordinary little restaurant opened, the number of eternal true god customers could be counted on one's fingers.

"Prepare your specialty, the Fire Realm Feast, quickly," Morosa urged.

"This way, please," the fat man, known as the 'Black Butcher,' immediately led the way.

In one of the small buildings within the Fire Realm Restaurant.

Luo Feng and Morosa took their seats.

"The Fire Realm Feast requires me to cook it myself, so I ask the Supreme to wait a little while," said the Black Butcher before respectfully taking his leave. Meanwhile, an attendant brought in some drinks and side dishes as an appetizer.

As soon as the attendant entered, Luo Feng noticed him and exclaimed in surprise, "Is it you, you little fellow?"

The attendant was Suo Zi, the young man from the tribe that Luo Feng had saved.

"Greetings to the Supreme," Suo Zi quickly bowed respectfully.

"Hahaha..." Morosa laughed and said, "I've come here many times and

often had this Suo Zi serve us. Master, you saved them back then, and now bumping into each other in a restaurant is quite fateful."

"It is quite a coincidence," Luo Feng nodded, "How did you end up working in this restaurant?"

Suo Zi was grateful to this kind eternal true god—without Luo Feng, their entire team would have perished back then.

"To answer the Supreme, after Suo Yun and I settled in Huyang City, we needed to earn Primal Chaos Crystals, whether to pay the Residence Fees or for our own Cultivation," Suo Zi explained, "I got lucky. The owner saw potential in me and recruited me as an apprentice."

"This lad has a gift for cooking," Morosa interjected, "Being skilled in cooking can help one settle down in Huyang City."

Suo Zi immediately added, "I am currently learning from the owner."

"Your restaurant owner has a bit of a reputation in Huyang City. Coming from the legendary Primordial Cosmos, inhabitants of the Land of Origin are naturally skilled in culinary arts. Moreover, having integrated some culinary heritage of the Land of Origin...

the combination makes his cooking truly stand out among the true gods of void space." Morosa praised, for he could now be considered a connoisseur.

Suo Zi nodded and said, "I have always been working hard at learning. If I don't study well and get kicked out, I'll have to risk my life outside the city."

Luo Feng listened on the side and asked, "What about the brothers who settled in Huyang City with you?"

"Suo Yun has become an ordinary guard for a big family," Suo Zi said in a low voice, "Living life on the edge."

Luo Feng understood.

An ordinary guard for a big family is cannon fodder—always the first

to rush into the thick of things and do the grunt work.

"They both have some talent; that's how they found jobs," Morosa said. "From what I've seen, about half of the true gods in Huyang City have to frequently go outside the city to hunt Exotic Beasts."

Luo Feng was already aware of this information.

The inhabitants of the Land of Origin, especially those at the middle and lower levels, mostly relied on hunting Exotic Beasts to make a living. Many were responsible for gathering and processing Exotic Beast Materials, forming a vast industry chain.

As for service jobs within a large city? The thresholds are very high. Without sufficient talent and strength, one isn't qualified for these service jobs.

During the conversation,

"Here it comes, here it comes." The restaurant owner 'Black Butcher' walked in, waving his hand, and a lavish feast appeared. Various dishes and foods were displayed, with the most eye-catching being the huge fiery red meat in the center.

The meat in the middle exuded an aura of flames.

"Supreme, I was a true god who embarked on the path of a culinary god in my homeland of the Primordial Cosmos," the Black Butcher said with a smile. "After becoming the true god of void space and traversing the cycles to the Land of Origin, even with my cooking skills, it was difficult to set roots in Huyang City.

So I started from scratch and became a butcher in Huyang City, starting with helping to slaughter the Exotic Beasts and processing their materials, step by step understanding the characteristics of Exotic Beast Materials. It took a hard fifty thousand eras to achieve something, and only then did I open this Fire Realm Restaurant."

"Supreme, please try my Fire Realm Feast," the Black Butcher said with confidence.

In the long history of the Land of Origin, there had been many

powerful individuals from the three thousand Primordial Cosmos that had come through the cycles. Each Primal Chaos Prefecture had some.

To promote his business and attract customers, the Black Butcher had tried every possible method!

"I'll try it," Luo Feng began to taste it.

The Black Butcher watched nervously on the side.

If an eternal true god enjoyed it and came often, it would be like a live advertisement! Only then could his restaurant become more famous and attract more customers.

Luo Feng sampled each dish, finding the appetizers and drinks in the beginning simply decent.

But when he tasted the huge piece of meat in the center, Luo Feng's eyes lit up.

"Master, you have to take a big bite to really appreciate the flavor," Morosa said, and Luo Feng, listening, took a big mouthful. Instantly, a third of the enormous piece of meat flew out, rapidly shrinking as it entered Luo Feng's mouth.

The meat was large, but he chewed and swallowed it easily.

"Boom!!!"

Luo Feng felt as though flames were spreading from his abdomen to his entire body, as if refining his entire godly body. Even his soul and consciousness felt pleasantly warm.

"Eating the Fire Realm Feast is like swallowing an entire world of flames, making one feel as though their godly body and spirit have been transformed," the Black Butcher said on the side. "It's as if one has been reborn."

Luo Feng glanced at him with a smile.

Reborn?

That seemed a bit too mystical! But indeed, it was rather comfortable.

For those with weaker godly bodies, perhaps there really would be a sense of 'transformation of the godly body and spirit,' a feeling of being 'reborn.'

"Supreme, what do you think?" the Black Butcher was somewhat anxious.

"Not bad," Luo Feng complimented.

The Black Butcher could only nod: "This feast I created myself. In some of the top restaurants and eateries in Huyang City, the culinary arts were handed down by Primal Chaos Overlords or even Godly Kings, while mine can only be considered minor tricks."

Luo Feng took a sip of wine and added, "Cultivation is fundamental. Coming from the Primordial Cosmos, you should have no way to practice the Bloodline Cultivation Method."

"Yes," the Black Butcher nodded. "I can only follow the path of laws, but understanding the Source of Law is too difficult! Even though the laws are clearer in the Land of Origin, I've reached a bottleneck and have been unable to break through, which is why I've thought of seeking external aid. I opened the restaurant hoping to earn some wealth and purchase resources to assist my cultivation."

"But even opening a restaurant is tough," added the Black Butcher.

"This Fire Realm Feast is pretty good. Keep up the hard work," Luo Feng had eaten half of it and let Morosa have the rest. Morosa happily gobbled it up eagerly, quickly polishing off the entire thing.

After paying a fee of ten Primal Chaos Crystals, Luo Feng and Morosa left.

At the Fire Realm Restaurant, 'Black Butcher' accompanied by attendant Suo Zi saw them to the outside of the restaurant.

"Suo Zi," the Black Butcher gazed into the distance, "do you think that Supreme will come again in the future?"

"The Supreme seemed quite fond of the Fire Realm Feast," Suo Zi said.

"Let's hope so."

The Black Butcher mused, "Only if an eternal true god comes here often can it attract enough true gods to visit!"

Back in his homeland of the Primordial Cosmos, he had been an unbeatable existence, but after arriving in the Land of Origin, he had faced a tough struggle. In terms of strength? In large cities, true gods of void space were commonplace! People like Moyu Hu also had to venture into the wild.

The Black Butcher was extremely proud at heart. Adventuring in the wilderness could be fatal at any moment, and he was unwilling to take that risk. Starting from the bottom as a butcher, his restaurant in Huyang City had gradually accumulated a number of regular customers over the years.

"I must make this restaurant even bigger; only then can I earn more, and my chances of becoming an eternal true god will be greater!" the Black Butcher turned and walked back toward the restaurant.

In Huyang City, even a small restaurant owner might have an extraordinary background.

Because the city was full of hidden dragons and crouching tigers, with so many strong individuals around, making a name for oneself became that much harder.

Chapter 14: Chapter 13: Heart Honing Inside Dream Flower Tower

Morosa spoke while flying, "We just visited a rather affordable eatery. Next, we shall visit one of the top pleasure destinations in all of Huyang City."

"One of the top pleasure destinations in Huyang City? Where?" Luo Feng inquired curiously.

"Dream Flower Tower," Morosa stated mysteriously.

"The Myriad Clans' Cultivators usually conceal their True Bodies to appear similar, but they actually are from various clans," Luo Feng said. "Some don't even have genders, and their preferences can differ vastly. How can this Dream Flower Tower attract cultivators from all the Myriad Clans?"

"Wait and see, Master. You'll understand soon," Morosa replied.

As they conversed jovially, a magnificent complex of buildings emerged ahead. The complex covered a vast area and was enveloped in a formation. Numerous attendants could vaguely be seen flying around, their laughter, the sounds of musical instruments, and roars softly emanating from the area.

"There's the Dream Flower Tower ahead," Morosa remarked poignantly. "Everything is perfect, except that it's expensive!"

A green-robed figure flew toward them to greet them, acting very humbly, "It's an honor for Dream Flower Tower to host the Supreme."

Inside Huyang City, the eternal true gods were the most powerful

beings—as they were the "sky" of Huyang City! They each had their affairs, and it was only on rare occasions that Dream Flower Tower could host an eternal true god.

"This is my first visit; you take care of the arrangements," Luo Feng instructed.

"Yes," the green-robed attendant answered with a charming smile. "I shall arrange for the most prestigious Orchid Star Hall for the Supreme."

Leading the way, the attendant flew ahead with Luo Feng and Morosa following.

The formation of the entire Dream Flower Tower was like a vast labyrinthine world. Morosa marveled, "I've visited several times but never ventured this deep into Dream Flower Tower. It seems this place is only for truly honored guests."

Suddenly, Luo Feng frowned slightly as he looked ahead. Being a Perfect Divine Body, his sensing range was broad and sensitive. At that moment, he sensed something he disliked happening in a hall ahead.

The spacious hall was gathering guests from the Myriad Clans, all of whom were drinking, talking, and laughing as they watched a life-and-death battle unfolding at the center of the hall.

Two True Gods were trying everything they could to kill their opponent!

The center of the hall was bloody, with more than ten bodies of True Gods that had reverted to their original forms after death.

"Kill, kill, kill him for me! If you lose, your entire family will join you in death!" an enraged green-robed guest roared.

"Congque Mountain, out of the ten servants you dispatched for this ultimate battle, only this one remains, while I still have three servants yet to fight," another guest, with eight arms, chuckled leisurely. "It seems this bet will belong to me."

"Hmph, it's not over yet. My guard has exceptional talents, capable of killing all your remaining servants," the green-robed guest retorted angrily.

"Is that so?" the eight-armed guest raised his glass.

The other guests were also exceedingly excited.

"Congque Mountain, I bet on your side to win, but your servant isn't doing well; only one left."

"My servant will win. He must win," said the green-robed guest, his face contorting fiercely. Meanwhile, the eyes of the two True Gods fighting in the center grew increasingly frenzied, having no way out.

Each side had sent ten servants, and the battle wouldn't end until all from one side were dead.

Who would willingly participate in such a cruel gamble?

But they had no choice!

"I left my tribe and came to Huyang City in search of opportunities. I gained inheritance and grew stronger. But now, I am dying here. I wonder how my sister is doing in the tribe?" a bald True God, clearly at a disadvantage and struggling to hold on, thought.

"Kill him!" the green-robed guest shouted fiercely. "And after that, kill the remaining three. I will reward you handsomely!"

"Amusing," said the assured eight-armed guest.

At that moment, Luo Feng, Morosa, and the attendant flew past from a distance, and Luo Feng glanced over here briefly.

The laws of Huyang City prohibited killing.

However, considering the True Gods' pursuit of strength, some also craved battle. Therefore, as long as both parties signed a life-and-death contract, agreeing to fight voluntarily, Huyang City would not intervene.

But Luo Feng understood at a glance that these True Gods fighting in the center of the hall were clearly 'volunteered' to fight.

"Buzz～～～"

Luo Feng merely glanced once.

An intangible aura then swept across all creatures in the grand hall; originally reveling and betting guests suddenly felt targeted by an unimaginably terrifying being.

The two True Gods, originally fighting to the death, found their thoughts stalling and their minds blank under this terrifying aura.

Almost all of these extraordinary guests were true gods of void space, yet the silence was deafening, with none daring to make a sound.

"Supreme," the flying green-robed attendant exclaimed in shock, halting immediately.

"I was feeling quite good today," Luo Feng said, a hint of coldness in his brow, speaking indifferently, "but seeing this dirtied my eyes, spoiling my mood."

The green-robed attendant trembled in fear, hastily responding, "It's an oversight on Dream Flower Tower's part. Such life-and-death betting is not allowed here. It's our mistake for spoiling the Supreme's mood, tonight all your expenses will be on Dream Flower Tower."

"Let's go to Orchid Star Hall," Luo Feng said.

"Yes," the attendant resumed leading the way.

Morosa glanced back at the hall from a distance, chuckling sinisterly, "A bunch of brats." He then followed Luo Feng towards Orchid Star Hall.

Inside the hall of the life-and-death bet.

"Everyone should leave quickly," the serving attendant urged urgently. "That unfamiliar eternal true god apparently dislikes this life-and-death betting."

"Hurry up, everyone leave quickly," said Congque Mountain, the green-robed guest, immediately.

"You were lucky," said the Eight-Armed Guest. He dared not linger and ran swiftly, disappearing quickly outside the hall with three guards escorting him; other distinguished guests also hastily fled.

The two True Gods who had been fighting glanced at each other.

"Unexpectedly, we both escaped disaster," they said, collecting the bodies of their fallen comrades before also making a swift departure.

...

Deep within the Dream Flower Tower was the core hall, "Orchid Star Hall."

"Even though Dream Flower Tower is one of the top places for enjoyment in Huyang City, only occasionally does an eternal true god visit," Morosa said as he sat aside, "Usually, the guests are primarily the true gods of void space, who indulge wildly while those attendants dare not stop those from influential clans."

The green-robed attendant was helping to pour wine by his side.

"There is too much impurity in the world, how could I possibly manage it all?" Luo Feng said leisurely, "The air I dispersed was merely a warning to them."

"What if they ignore your warning, Master?" asked Morosa.

"Then they are disrespecting me, slapping my face! Then their deaths can blame no one else," Luo Feng stated.

Upon hearing this, Morosa hastily replied, "Master is indeed kind-hearted to still give them a chance to live."

The attending green-robed attendant silently trembled in his heart.

Many distinguished guests in that hall had come from top influential families within Huyang City, and this strange eternal true god spoke of killing so easily—could it have been just casual words?

"Hmm?" Luo Feng noticed a woman dressed in black walking into the hall from outside, who bowed slightly after entering.

"Supreme," the green-robed attendant helped introduce her, "this is the direct disciple of our tower's master, 'Musician Su Ya.'

Morosa also added, "In the whole of Huyang City, very few eternal true gods excel in Illusion Technique, and only the Dream Flower Tower Master is willing to perform illusions to entertain the guests."

Luo Feng nodded.

He had also practiced the "Nine Netherworlds" and had just reached the level of eternal true god. Indeed, if Illusion Technique was not used for combat but for entertaining the masses, it could have remarkably effective results.

"Begin," Luo Feng was curious as to what kind of illusion technique the Dream Flower Tower used to attract the cultivators of the Myriad Clans.

The woman in black sat by herself, waving her hand to make various musical instruments appear before her.

As divine power was infused into the instruments, sounds of various instruments resonated immediately. Every instrument had the capacity to affect the spirit, and their combination instantly transported Luo Feng back to his past memories.

His emotions began to heat up.

Luo Feng seemed to see the scenario where many people on Earth bravely faced the Golden Horned Giant Beast.

"Using musical instruments as a guide, the foundation of illusion technique influencing emotions—"

"Thrilling! Exciting! Flaring up!"

"For those of us who have cultivated for endless ages, our spirits become more and more tranquil, like the vast land, hardly fluctuating! It's very difficult to make my emotions violently

fluctuate," Luo Feng had no resistance and let himself be influenced by the musical illusion voluntarily.

But his spiritual will was too strong, at the pinnacle of the Primal Chaos level, and no ordinary illusion technique could shake it.

It merely reminded Luo Feng of some memories from Earth.

That period of passionate burning years!

"Right, within the 'Lie Yuan Technique' there are many secret techniques for cultivating spiritual will, including one called the 'Seven Emotions of Heart Refining Technique.'" As numerous surging memories from the past emerged, Luo Feng also recalled the 'Seven Emotions of Heart Refining Technique.'

"The 'Seven Emotions of Heart Refining Technique' actively amplifies the perceptivity of the spirit, making it very easy to be touched, joyful, furious, or sorrowful... Afterward, using these varied emotions as nourishment to refine the spiritual will."

With that thought in mind, Luo Feng began to perform the 'Seven Emotions of Heart Refining Technique.' As the method operated, his perceptivity of the spirit quickly amplified.

The previous music and illusion technique that had only slightly resonated with Luo Feng now had an effect many times stronger in an instant.

"Boom!"

Luo Feng was momentarily transported back to the past.

"Sit down, close your eyes, remember, do not resist," Luo Feng said in a deep voice.

"Understood." Mohanderson, Ist, Tripati Singh, Jia Yi, and Sokolov were sitting in their respective positions according to the "Six Blades" secret technique. They looked at each other, their faces revealing strange smiles.

It was indeed the scene where they six sacrificed themselves against

the Golden Horned Giant Beast.

A passionate thought surged in Luo Feng's heart, transcending life and death, with only the single thought of slaying the Golden Horned Giant Beast.

Under the aid of the 'Seven Emotions of Heart Refining Technique,' this intense emotion made Luo Feng's eyes well up with tears.

...

The purpose of the musical illusion technique was to serve the guests by invoking beneficial emotions.

Passion burning, love, unyielding promises, brotherhood shared through life and death...

After a while, the black-clad female musician stopped playing, and she was somewhat surprised by the expression of the unfamiliar eternal true god, as eternal true gods generally do not indulge so deeply in their illusion effects.

Luo Feng's eyes faintly filled with tears as he slowly opened them.

"Good, very good," Luo Feng quietly said, "Excellent."

******

Thanks to the two new Alliance Hierarchs for their rewards:
Invincible War God Luo Feng, LA Wind is Rising

Chapter 15: Chapter 14: The Expectation of the Mountain Sitting Guest

"Master?" Morosa also felt that Luo Feng was too affected, considering it was just an illusion technique from the true god of void space.

Luo Feng glanced at the woman in black and nodded, "You may leave now."

"Musician Su Ya takes her leave." The black-clad Musician Su Ya respectfully withdrew.

Luo Feng paid no attention to Morosa, nor to the green-robed attendant on the side, and drank alone.

In the huge hall, for a moment neither Morosa nor the green-robed attendant dared to make a sound.

Luo Feng silently drank, his eyes deep.

His will was currently enduring the honing of the "Seven Emotions of Heart Refining Technique."

Just like steel needs to be forged and struck repeatedly, a creature needs to go through setback after setback to gradually grow.

The same goes for the will.

It needs to be tempered over and over again! The stronger the tempering, if the will does not collapse, it will become even stronger!

The "Seven Emotions of Heart Refining Technique" is special as it

tempers one's own will with various emotions. As the secret technique is activated, intense feelings surge and continuously assault the will.

"I have cultivated for too long, my emotions have become deeper and more restrained, who would have thought that in this Dream Flower Tower, I would return to the time when my emotions were most intense," reminisced Luo Feng.

"Within the 'Lie Yuan Technique', there are various secret techniques for cultivating will, I had long chosen the 'Great Destruction Heart Refining Technique' to temper my will. I have already practiced it numerous times during my retreat of over an epoch. This secret technique has a high upper limit, while the 'Seven Emotions of Heart Refining Technique' ultimately has its limits.

After all, I cannot always be in the midst of emotional turmoil, otherwise, I would go mad," thought Luo Feng.

The "Great Destruction Heart Refining Technique" is about using the mood of utter destruction of all things to grind away at the will!

What Luo Feng needed to do was to resist with his will!

Because Morosa inherently mastered the 'destruction of the origin', Luo Feng could directly observe and even attempt to condense the mood of great destruction, making this secret technique highly effective.

Destruction of the origin is on the same level of existence as the 'Life Origin' of the Primordial Cosmos! Enslaving a Sector Beast to directly observe 'destruction of the origin', Luo Feng naturally chose the "Great Destruction Heart Refining Technique" as his main practice.

"However, those memories are indeed beautiful," Luo Feng's emotions gradually stabilized.

"Is this Musician Su Ya the one who most strongly affects emotions with illusion techniques from your Dream Flower Tower?" suddenly asked Luo Feng.

Upon hearing the question, the green-robed attendant promptly

replied, "Our Dream Flower Tower's strongest illusion techniques naturally come from the Tower Master, but she only occasionally hosts the Hundred Flowers Banquet, and only invited guests can participate. Among the other musicians, there are more than ten who are close to Musician Su Ya's level."

Luo Feng nodded, "Let them come and play their music."

"Very well," said the green-robed attendant, feeling a bit puzzled inside. Why would an eternal true god care so much about illusion techniques from a true god of void space level?

In Huyang City, there were some eternal true gods who liked the Dream Flower Tower Master, and there were even a very few who were madly infatuated with her. But... it was unheard of for an eternal true god to particularly fancy illusionists of the true god of void space level.

But since Luo Feng had commanded it, the green-robed attendant naturally went to arrange it immediately.

...

While Luo Feng was practicing the "Seven Emotions of Heart Refining Technique", he continuously experienced the illusion techniques of these musicians. Although they all came from the same tradition, each had their own strengths. Some even created an illusory world, making Luo Feng a part of the story within that world.

"Supreme one, are you satisfied with these musicians?" the green-robed attendant inquired, "Our Dream Flower Tower has several other interesting novelties. The musicians' illusion techniques are just one of them."

"Today, I have had my fill! I shall return another time," said Luo Feng as he got up. He glanced at a petite woman covered with leaves, who appeared a bit shy. Named 'Araya,' she was a plant creature from the Land of Origin. Her music had a special charm that stirred Luo Feng's emotions the most intensely, far surpassing the other musicians, "This Musician Araya is very good."

Saying this, Luo Feng casually threw a grain of sand that seemed ordinary but instantly drew the gaze of many creatures present.

"Cosmic Sand?" the green-robed attendant exclaimed, swiftly adding, "Supreme one, all expenses tonight at the Dream Flower Tower are on us, you need not..."

"I dislike taking unfair advantage," Luo Feng stated as he walked out.

Morosa then swept up the nearby wine jug with a wave of his hand and quickly followed Luo Feng, not without glancing at the piece of Cosmic Sand left on the table, "Since my master has given it, you'd better accept it quickly."

The green-robed attendant then picked up the Cosmic Sand, admiring the nascent universe contained within it and marveled.

The night's expenses were actually just over two thousand Primal Chaos Crystals, but Luo Feng's piece of Cosmic Sand was worth far more.

"Araya, the Supreme one is very pleased with your music, a reward of 10 Primal Chaos Crystals," said the green-robed attendant.

"Thank you, Steward Yulu," the plant creature 'Araya' exclaimed joyfully, bowing in gratitude. The other musicians could only look on with envy; they only received the basic service fee, while Araya obviously won the favor of that eternal true god the most.

******

At the deepest part of the Dream Flower Tower's grand formation lay an unassuming little tower.

A figure in a loose robe stood there, overlooking almost the entire Dream Flower Tower, taking everything in view.

"Master," said the green-robed attendant respectfully, "That eternal true god has left, and he also paid with a Cosmic Sand."

The Dream Flower Tower Master nodded slightly, "Tell me all his information in detail."

"Yes," the green-robed attendant respectfully began, "His servant had visited us multiple times before, but this unfamiliar eternal true god was here for the first time. He seemed to only care about the music and illusion techniques at the Dream Flower Tower."

"Those musicians are all true gods of void space, so theoretically, their impact on an eternal true god should be very minimal," said the green-robed attendant. "But he seems to really enjoy it."

"Even to the point of shedding tears upon listening, it is indeed quite inconceivable," the green-robed attendant, who was also confused, added. "And from what he said, he will come again."

With a light smile, the Dream Flower Tower Master said, "Every creature is unique, this unfamiliar eternal true god may just be more susceptible to emotional fluctuations."

"If those musicians' illusion techniques have such an influence on him, if the Tower Master were to take action personally..." the green-robed attendant whispered, "he might develop an ardent obsession with the Tower Master."

The Dream Flower Tower Master looked out the window.

Over the eons, only two eternal true gods had developed an infatuation with her. After all, eternal true gods have extraordinary wills; even if they get immersed temporarily, they would revert to their senses once the illusion was over. Very few would truly become enamored with her.

"When he comes next time, tell him that I will hold a 'Hundred Flowers Banquet' in ten days and invite him to attend," the Dream Flower Tower Master said softly.

"Yes, Tower Master," the green-robed attendant replied respectfully.

...

A day in the Land of Origin is very long, and Luo Feng, over the following days, aside from cultivation, was taken by Morosa to various places for different types of consumption, broadening his horizons.

When Luo Feng returned to the Dream Flower Tower, he also received an invitation.

"Supreme," the green-robed attendant greeted him enthusiastically, "my Tower Master will host the Hundred Flowers Banquet in ten days. Many eternal true gods from Huyang City will be invited, and the Tower Master has also invited the Supreme to attend."

"The Dream Flower Tower Master's Hundred Flowers Banquet?" Luo Feng was surprised. "In ten days?"

"Yes, in ten days! It might be several eras before the Tower Master holds the next Hundred Flowers Banquet," said the green-robed attendant.

Luo Feng smiled, "Since I'm invited, I would be happy to attend and look forward to witnessing the Tower Master's mastery over illusion techniques."

"May I ask for the Supreme's honored name? The Hundred Flowers Banquet requires some preparations in advance," the green-robed attendant said.

"Luo He," Luo Feng replied.

The green-robed attendant made a point to remember this name firmly.

This Hundred Flowers Banquet was actually for this very eternal true god 'Luo He' before him. If 'Luo He' became fervently enamored with the Dream Flower Tower Master, then her influence in Huyang City would naturally increase.

******

On the outskirts of the Primordial Cosmos.

The Mountain sitting guest was very reclusive, hardly interacting with other true gods. At the moment, he left his own small cosmos and headed toward Luo Feng's.

"It's only been over ten thousand eras since I left the Land of Origin,

but time flows tens of thousands of times faster in the regions of the Primordial Cosmos. I have waited here for far too long!"

"Throughout this elongated time, I've remained but a true god! And made no progress in strength," lamented the Mountain sitting guest, his ancient face tinged with desolation, as he endured the torment of time's passage.

Thinking this, the Mountain sitting guest continued his journey towards Luo Feng's small cosmos, and finally, he could vaguely see that vast cosmos.

"Hmm?" The Mountain sitting guest paused, his eyes widening as he carefully observed Luo Feng's small cosmos.

"The rate of primal chaotic current absorption has slowed down significantly," said the Mountain sitting guest, somewhat excited. "It looks like Luo Feng's godly body has finally grown to its limit."

"His small cosmos, spanning hundreds of billions of light-years in diameter, absorbs vast amounts of primal chaotic energy every moment! Having continued for so long... the accumulated total should put his godly body between 15 and 20 billion kilometers tall in the Land of Origin," calculated the Mountain sitting guest. As the former God King Jin, he was very accurate in estimating energy scales.

"Good, good, good."

Excitement filled the Mountain sitting guest's eyes. "With such a massive godly body, far surpassing his peers, once he becomes a Godly King, even if ten or eight Godly Kings joined forces, they couldn't compare to him in terms of Divine Power advantage."

"With Luo Feng, there's hope for my revenge," thought the Mountain sitting guest, harboring endless hatred. Everything he valued most had been destroyed by the Three Sovereigns of Shi Kingdom.

His sister-in-law and wife, his friends and brothers, his many fellow disciples...

All were gone.

From that day on, the Mountain sitting guest had only one thought – revenge!

For this, he spared no expense!

Everything he did in the Primordial Cosmos was for this single goal. Fortunately, he had cultivated Luo Feng!

"My strength is much weaker than that of Tian Kun, the leader of the Three Sovereigns of Shi Kingdom. I only managed to escape death by relying on a Secret Treasure. A direct confrontation is impossible for me," the Mountain sitting guest was well aware. "Only with Luo Feng's growth do I hold hope for vengeance."

"Just with the enormous advantage of his godly body, Luo Feng should be able to overwhelm the three sovereigns of Shi Kingdom!" the Mountain sitting guest muttered to himself.

After Luo Feng set off on his reincarnation journey to the Land of Origin, the Mountain sitting guest continued to stay in the Primordial Cosmos Region, intending to understand the divine power capacity of Luo Feng's godly body.

Now, the Mountain sitting guest was reassured.

"It's time to prepare for my reincarnation. I've been away from the Land of Origin far too long," the Mountain sitting guest immediately headed toward his own small cosmos and began his final preparations before his reincarnation attempt.

Chapter 16: Chapter 15 Hundred Flowers Banquet

Night had just fallen when Luo Feng and Morosa arrived at Dream Flower Tower.

"It seems we are the earliest to arrive," Luo Feng said leisurely as he sat down, Morosa taking a seat to one side, surrounded by buildings shaped like blossoms, with numerous attendants waiting outside each structure.

The green-robed attendant said with a smile, "Supreme, the other guests should be arriving soon."

"Haha... I must be the earliest one again!" A mountainous figure flew into the area with a hearty laugh, with the attendant who was responsible for receiving him tossed aside.

"Oh?" The mountainous figure exclaimed in surprise as he looked towards Luo Feng, "Someone's earlier?"

Luo Feng observed this mountainous figure as the green-robed attendant introduced him, "Supreme, this is one of the top Artifact Refining Masters in Huyang City, the Sect Leader of Heavenly Flame Sect, Shang Tianyan."

"Haha, which Divine Monarch is this?" Shang Tianyan approached with a warm smile.

"Luo He," Luo Feng also stood up.

"Brother Luo He must be new to Huyang City," Shang Tianyan said with a smile, "If you don't mind, how about we sit together?"

"Please."

Luo Feng too was fond of making friends, having come to the Land of Origin to see more of the world. He glanced at Morosa, who obediently moved to the farthest corner.

After all, he was only a True God of Void Space on the surface and shouldn't sit too close to two Eternal True Gods.

"I, Shang Tianyan, love making friends in Huyang City. I always wish to befriend any new Eternal True God," Shang Tianyan said as he sat down.

"Indeed, I have just arrived in Huyang City and can count the number of friends I've made on one hand," Luo Feng said.

"Today, you've gained one more friend in me," Shang Tianyan said with a laugh, "If Brother Luo He encounters any trouble in Huyang City in the future, feel free to see me. After all, I specialize in artifact refining, having connections with various forces."

Luo Feng nodded, "To be one of the top in artifact refining in Huyang City, Brother Shang's strength is indeed remarkable."

He had practiced the Body Refining Secret Technique, "Primal Chaos Great Strength Diagram," which is a body refinement method. Since a godly body can recover even after damage, the difficulty of body refining is somewhat lower than that of artifact refining.

Even so, it was a considerable effort for Luo Feng to thoroughly understand the first level of the "Primal Chaos Great Strength Diagram," 'Foundation Building'. This made him all the more admire those genuine Artifact Refining Masters.

"We all have our strengths," Shang Tianyan said humbly with a smile.

While they were talking, a winged man flew in, naturally exuding a decadent air. No one paid him any heed as he entered a building on his own and sat down to drink by himself.

"That Eternal True God's name is Sang Shuiyun," Shang Tianyan said, "He's one of the Eternal True Gods who always comes to Dream Flower Tower's Hundred Flowers Banquet, along with me. We are love rivals!"

"Love rivals?" Luo Feng asked in surprise.

Shang Tianyan shook his head with a sigh, "Unfortunately, while I have intentions, the Dream Flower Tower Master is heartless."

Luo Feng found it interesting that both of these Eternal True Gods were pursuing the Dream Flower Tower Master?

"You'll understand the charm of the Dream Flower Tower Master when you see her," Shang Tianyan said, suddenly noticing another arriving Eternal True God. This Eternal True God was formed by condensing mist, their figure obscure and hard to see, with only one eye calmly observing the surroundings.

"Who might this be?" Luo Feng asked curiously.

Shang Tianyan whispered, "That's Lord Bai Wu of the Six Lords Alliance."

Luo Feng was puzzled.

"The Six Lords Alliance is one of the covert forces in Huyang City," Shang Tianyan explained, "It's said that these six Eternal True Gods often cultivated and sparred together, eventually forming the Six Lords Alliance. They are one of the nineteen dark forces in Huyang City."

"Nineteen dark forces?" Luo Feng nodded.

"Haven't you purchased any detailed information about Huyang City?" Shang Tianyan asked.

"No," Luo Feng shook his head.

Had he done so, it would have been too boring.

A journey of cultivation is about the surprises!

"The official powers in Huyang City are the city owner's mansion, the Huyang Guards, and Huyang's Ten Great Legions. These official powers are mainly managed by the Five Great Families," Shang Tianyan explained with simplicity, "Each of the Five Great Families

has an extraordinary background, some even being of the Royal Family."

Luo Feng nodded, as this was something he understood.

In the Yu Kingdom, there were five Godly Kings, and their family members, accumulated over the long years, were numerous. Naturally, they would be sent to various Primal Chaos Prefectures to occupy some high-ranking positions.

"The official forces are led by the Five Great Families. They have formidable strength and terrifying backgrounds."

"But in this world, ultimately, strength is what speaks! No matter how intimidating the background, it's not as reliable as real, tangible strength. That's why the forces formed by some Eternal True Gods naturally influence the entire Huyang City."

"The nineteen dark forces also permeate Huyang City. Even the residents of Huyang have to pay a residence fee to them," Shang Tianyan said.

"Besides these forces, there are many weaker families. Most of them are simply conducting business, engaging in alchemy, artifact refining, or establishing sects. We, the independent Eternal True Gods, have much less influence," Shang Tianyan said cheerfully, "We're also not interested in competing for control over Huyang City."

Luo Feng nodded in understanding.

From what he knew, the sum of the casual and ordinary family Eternal True Gods in a large city exceeded the number of official and dark powers.

```

"There are also some major forces from the Land of Origin with branches in Huyang City, and while the branches may be ordinary, they can call upon some terrifying experts at any time," Shang Tianyan shook his head, "The waters here are too deep. Once you get involved, you could lose your life at any moment."
```

Luo Feng found his newly made friend, 'Shang Tianyan,' quite interesting.

"Brother Luo He, which faction do you belong to?" Shang Tianyan asked.

"None," Luo Feng replied, "When I came to Huyang City, I just brought a servant with me."

Shang Tianyan laughed, "You've just come to Huyang City; it's very easy for some forces to exploit you. I'll give you some intelligence, you'd better be careful and keep an eye out." As he spoke, he flicked his finger, and a stream of light flew towards Luo Feng.

Luo Feng looked at the rather detailed intelligence report! Such information would normally cost at least ten Cosmic Sands.

"Thank you, Brother Shang," Luo Feng said.

"It's nothing," Shang Tianyan suddenly looked outside, "There are quite a number of eternal true gods who have come this time. Two from the Five Great Families have come, too?"

Luo Feng looked over.

Two figures in purple and gold flew in. They each had three eyes and extremely sharp tails covered with purple and gold scales. They scanned the area with their eyes but did not interact with any eternal true gods. Instead, they flew towards a certain spot.

"The two eternal true gods from the 'Qumeng Clan' of the Five Great Families?" Shang Tianyan exclaimed in surprise, "It's rare for the Royal Family to visit the Dream Flower Tower."

With the detailed intelligence that Luo Feng had received, he already knew that among the Five Great Families, two were Royal Families, and the Qumeng Clan was the family of 'Godly King Qumeng' of the Five Great Godly Kings of Yu Kingdom.

With a Godly King as their guardian, through endless ages of procreation, producing countless descendants, and with vast resources for cultivation, the Qumeng Clan naturally had a large

number of elites.

"The Five Great Families have eternal true gods coming too? That is indeed rare!"

"The charm of the Dream Flower Tower Master is indeed extraordinary."

The other eternal true gods who were present were also chatting leisurely and couldn't help but pay attention to the two eternal true gods from the Qumeng Clan. After all, the Qumeng Clan had a Godly King behind them! Who wouldn't envy that?

As the music sounded, the eternal true gods present all fell silent and looked towards the figure emerging from the void.

"The Dream Flower Tower Master?" Luo Feng gazed from a distance.

The Dream Flower Tower Master's godly body seemed to be a manifestation of the laws of enchantment, naturally drawing the attention of every eternal true god present, even making Luo Feng see the shadow of his wife, Xu Xin, on her.

"Such a powerful godly body, does every eternal true god see their most favored traits when they look at her?" Luo Feng mused, having already understood from the intelligence given by Shang Tianyan, yet still somewhat astonished.

"Tonight, there are fifteen eternal true gods who have come to participate in the Hundred Flowers Banquet. This is also the honor of Dream Flower," the Dream Flower Tower Master said, her voice echoing everywhere and in the souls of every eternal true god, "I have newly composed a melody, and I ask all eternal true gods to appreciate it."

In attendance, there were two eternal true gods from the Qumeng Clan of the Five Great Families, five true gods from the nineteen great Dark Forces, and eight others, including Luo Feng and Shang Tianyan, making up a total of fifteen eternal true gods participating in the Hundred Flowers Banquet.

The music rang out between heaven and earth, and snowflakes

naturally began to flutter in the night. The world in the vision of Luo Feng and the others began to change.

"Such an impressive musical Illusion Technique." Luo Feng could feel the strength of the Dream Flower Tower Master's Illusion Technique, which was far superior to the one that his previously most satisfactory 'Araya' employed.

But for Luo Feng, who had the Primal Chaos Pinnacle Will, such a musical Illusion Technique still had a limited impact.

"Her musical Illusion Technique is obviously much stronger. If I don't use the 'Seven Emotions of Heart Refining Technique,' this music has no effect on me. But once I use it…I'm afraid I won't be able to withstand it," Luo Feng was a little worried.

Listened to the melodies of musicians like Araya with the 'Seven Emotions of Heart Refining Technique,' and felt his emotions surge and his eyes fill with tears.

Under the Dream Flower Tower Master's musical Illusion Technique, if he still used the 'Seven Emotions of Heart Refining Technique,' he would definitely be more deeply immersed and might even lose his composure.

"Morosa, protect me while I practice," Luo Feng communicated telepathically.

"Hmm?" Morosa, who was eating and drinking alone in a corner, looked up and hurriedly responded mentally, "Master, rest assured, I will protect you diligently."

The Dream Flower Tower Master's musical Illusion Technique only enveloped the fifteen eternal true gods. Those servants and attendants were not privileged enough to be served by the Dream Flower Tower Master's efforts.

Resolving his will, Luo Feng then used the 'Seven Emotions of Heart Refining Technique.' With the secret technique in operation, the original music he was listening to suddenly increased its power exponentially, plunging Luo Feng completely into the world of the

soul at once.

...

The two eternal true gods from the Qumeng Clan listened to the melody.

"It's mediocre at best, far inferior to some performances at the Royal Capital."

"You can listen to it. However, in terms of emotional impact, it's far less than our family's 'Hundred Calamities Melody.'" As they listened and drank, their discussion showed that the music's impact on them was minimal.

Most of the eternal true gods present were rather enjoying themselves.

Two eternal true gods, Shang Tianyan and Sang Shuiyun, who were infatuated with the Dream Flower Tower Master, were so immersed in the music that their faces were marked with tears of emotion.

Luo Feng, who was originally sitting cross-legged and listening, had now lost control. His invisible aura spread out, silently shattering the table in front of him, which startled Morosa in the corner, and even the Green-robed Attendant was surprised, "Supreme Lord Luo He!"

Fortunately, the building was enveloped by a Formation, keeping it intact.

"Who is this unknown eternal true god? To lose control during a Hundred Flowers Banquet?" The other eternal true gods present were all surprised.

Even Shang Tianyan, who was sitting beside Luo Feng and deeply immersed, opened his eyes and looked at Luo Feng. He was moved to tears, but he still maintained a clear perception of the outside world and was very far from losing control.

"Has my friend, Brother Luo He, immersed himself so deeply?" Shang Tianyan couldn't believe it.

```
```

Chapter 17: Chapter 16 Kind Luo Feng

The two eternal true gods from the Qumeng Clan who had been drinking and chatting turned their heads, keenly watching Luo Feng in the distance as he outwardly released his aura.

"Is his spiritual will so weak? Merely a performance of a musical illusion technique and he's lost control?"

"It's likely he's an eternal true god who luckily broke through in some remote tribe and doesn't possess a secret technique to cultivate spiritual will, that's why he's so weak."

"Such a serious flaw in the mind is easily targeted."

They watched with amusement. As members of the royal 'Qumeng Clan,' they felt superior to the other eternal true gods outside their clan! In their view, these outsiders had crude secret techniques and inferior secret treasure weapons. Luo Feng, they thought, was just the type to have hardly cultivated his spiritual will, lucky to become an eternal true god.

"What a fine Hundred Flowers Banquet, but he's ruined the mood." The tall figure covered in black fur, with eyes full of anger, had been deeply immersed in the music, enjoying a first-rate experience, but Luo Feng's actions had disturbed his pleasure.

He was none other than 'Lai Mo,' the third leader of the 'Blood Python Association' from the Dark Forces.

"A newly emerged eternal true god is not worth much concern." A figure cloaked in black scales sipped his drink, "The Dream Flower Tower Master will soon ask him to leave, otherwise, he will disrupt the entire banquet."

This black-scaled figure was the leader of the Blood Python Association.

"Interesting," Lord Bai Wu observed Luo Feng with one eye from beneath his misty form.

At this moment, the other eternal true gods in the hall were also paying attention to Luo Feng. After all, an eternal true god releasing his aura would naturally trigger the vigilance of others, a kind of instinct.

Seeing this, the Dream Flower Tower Master who had been performing the musical illusion technique had no choice but to temporarily stop.

"I knew he was susceptible to musical illusion techniques, but I didn't expect him to lose control." The Dream Flower Tower Master was helpless, she had to consider the feelings of other esteemed guests.

Once the illusion technique ceased,

Luo Feng quickly regained his composure, becoming aware that everything in his room—the table, food, and drinks—had all been utterly destroyed. The eternal true gods from the surrounding buildings were all looking in his direction, seemingly discussing something.

"I've lost control," Luo Feng thought to himself, "It seems that practicing the 'Seven Emotions Heart Refining Technique' isn't quite suitable while listening to the music of the Dream Flower Tower Master."

"Sorry about that, Brother Shang," Luo Feng, who had been sitting cross-legged, immediately got up and apologized to Shang Tianyan beside him.

"It's nothing," Shang Tianyan laughed heartily, "I just didn't expect you to be more immersed than me."

"The Tower Master's music is indeed extraordinary," Luo Feng smiled, "It brought back many memories... I'll go for a walk outside, Brother Shang, you all carry on."

Luo Feng glanced at Morosa and then walked towards the exit. Morosa promptly followed.

As Luo Feng left the building, he nodded slightly towards the Dream Flower Tower Master in apology, then led his servant Morosa away.

"He did not look at me with passion," the Dream Flower Tower Master felt a hint of disappointment in her heart. Being immersed in the illusion didn't necessarily mean falling in love with her, "But his resistance to the illusion technique is clearly weak, there's still a chance."

"Ladies and gentlemen, I apologize for the slight disruption..." The Dream Flower Tower Master's soothing voice arose, naturally comforting their minds.

"This unfamiliar eternal true god probably isn't very strong."

"Apart from that, his spiritual will seems rather weak."

As the group of eternal true gods watched Luo Feng leave, they all formed their own opinions.

...

"Master, aren't we attending the Hundred Flowers Banquet any longer?" Morosa followed Luo Feng.

"There's not much point in attending," Luo Feng shook his head. Without practicing the 'Seven Emotions of Heart Refining Technique,' the illusion technique wasn't worth mentioning. But if he did practice it, he temporarily exceeded his own limits and would lose control.

Compared to that, musicians at the true god of void space level were more suitable for him.

"Supreme." Green-robed attendant Yulu also followed along.

"Arrange another place," Luo Feng instructed, "And, have Araya come over."

The green-robed attendant nodded and immediately began to arrange

it via a transmission token. After a while, she whispered, "Supreme, the Hundred Flowers Banquet is being held today! The Dream Flower Tower has many guests, and Araya is performing elsewhere at the moment, it might take a while before she can come over."

"Oh?" Luo Feng scanned with a glance, his Perfect Divine Body's sensitivity immediately locked onto a hall, where Araya was performing.

******

In that hall,

Araya stood there, her body covered in vines that stretched out and coiled around various musical instruments. The instruments resonated naturally under the drive of divine power, plunging the guests into an illusory realm.

As soon as the performance ended, Araya immediately bowed to take her leave.

"Wait a moment." One of the young men sitting in the place of honor spoke up. This young man had four purple horns on his head like a crown and eyes burning with purple flames. Anyone with a bit of knowledge could recognize that this youth was a scion of the 'Moli Clan' from Huyang City.

Araya had to pause.

"I've been to the Dream Flower Tower many times and listened to countless pieces of music, but you are the most talented musician I've encountered," the young man from the Moli Family began, "I, Moli Lian, formally invite you to become a musician for our Moli Clan. Are you willing?"

Araya's heart trembled at the invitation from the scion of the Moli Clan. She didn't want to go. Entering such a top clan could mean becoming a mere plaything.

Next to Moli Lian sat a red-haired man who spoke with a laugh, "Araya, Moli Lian is a genius among the younger generation of the Moli Family and has even been personally mentored by Commander

Moli Xiao of the Huyang Legion, with great prospects of becoming an eternal true god. His personal invitation is an honor for you. What is there to hesitate about?"

"I am a musician of the Dream Flower Tower, I cannot leave without permission," Araya said softly.

"As long as you agree, the Dream Flower Tower Master will still give face to my Moli Clan," Moli Lian said with a smile.

"Young Master Moli Lian... I, I don't want to go," Araya said with all the courage she could muster. If she really went to the Moli Clan, she would have no way to contend with the core members of such a powerful clan. She would become a disposable plaything.

Moli Lian's eyebrows slightly furrowed.

Seeing this, the red-haired man immediately said, "Araya, you're from the Thousand Leaves Vine Clan, right? If I'm not mistaken, doesn't your clan lie within our Blood Python Association's territory?"

The Blood Python Association is one of the nineteen dark forces within Huyang City, secretly controlling the entire city.

Araya's face changed upon hearing this.

"The Thousand Leaves Vine Clan has nine True Gods of Void Space and more than ten thousand True Gods, who reside in the Snow Winter District of Huyang City," the red-haired man said, looking at her. "I should remember correctly."

Within the Blood Python Association's territory, for every cultivator with even a bit of background, he remembered them all clearly.

Because he needed to find 'fat sheep,' and once he found them, they would have to be slaughtered!

"Palace Master Duan," Araya hesitated, she didn't want to relent. The path of cultivation was not meant for being treated as a plaything, but she was afraid of the Blood Python Association!

"Duan Moyun, your Blood Python Association's strength is just

average," said Moli Lian with a light chuckle, his eyes also turned colder.

The red-haired man also looked at Araya with some annoyance: "Just a little musician, not appreciating the favor, get lost!"

Araya was on tenterhooks and didn't dare to leave. She could see that 'Palace Master Duan Moyun' was very annoyed, and if she really just walked away like this, she feared it would bring great disaster to the entire Thousand Leaves Vine Clan.

Just as Araya was caught in a dilemma, a purple-robed attendant hurried into the grand hall, repeatedly apologizing, "Young Master Moli Lian, Palace Master Duan Moyun, please do not be angry. Since Young Master Moli Lian personally invited her, it's naturally Araya's good fortune. Let me persuade Araya."

Moli Lian nodded slightly.

The red-haired man, Duan Moyun, smirked, "This little musician has quite the courage."

"Yes, yes," the purple-robed attendant agreed, about to pull Araya out with him.

Suddenly—

The entire grand hall quieted down, everyone present seemed to become part of a painting, unable to move or make any sound.

At this moment, a black-haired man with a simple-looking servant walked into the hall.

"Dream Flower Tower?" Luo Feng sneered, "I said I admire Musician Araya! How dare you Dream Flower Tower offer a musician I'm interested in to some kid?"

Everyone present was in a state of shock, including Young Master Moli Lian and Palace Master Duan Moyun.

Their fear was immense.

An Eternal True God turning hostile could easily crush them to death. Although they had their backgrounds, it did not equate to power! For instance, if Luo Feng didn't care for their backgrounds at this moment, they were just two True Gods of Void Space.

"Supreme Lord Luo He!" the green-robed attendant also entered the grand hall, extremely anxious, "It's our Dream Flower Tower's fault."

"Shut up," Luo Feng said.

The green-robed attendant immediately fell silent.

Luo Feng glanced over Palace Master Duan Moyun and Young Master Moli Lian and said indifferently, "From today onwards, the two of you are not allowed to step into the Dream Flower Tower."

"And you, Dream Flower Tower," Luo Feng's eyes swept over the green-robed attendant and the purple-robed attendant, "Araya, you watch her. If you can't protect her, hand her over to me! Understand?"

The green-robed attendant nodded repeatedly.

"As for the Blood Python Association, the Moli Clan, the Dream Flower Tower, anyone who's not satisfied can come to me," Luo Feng said with a slight smile. "I'll entertain them warmly."

After that, the invisible aura receded, and everyone in the grand hall regained their freedom.

But they were all still intimidated, not daring to make a sound for a while.

"Araya, come with me," Luo Feng said, then walked straight out.

"Heh heh heh…" Morosa looked around and laughed a few times before walking out. He'd been ordered 'not to cause trouble,' but if his master Luo Feng caused trouble, Morosa was absolutely in favor.

Araya and the green-robed attendant followed out, both somewhat dazed.

...

Only Young Master Moli Lian, Palace Master Duan Moyun, the purple-robed attendant, and a group of their subordinates were left in the grand hall.

"This is too..." Moli Lian felt indignant yet helpless.

"Completely disregarding the Blood Python Association, the Dream Flower Tower, and the Moli Clan," the red-haired man, Duan Moyun, was furious and immediately reported the detailed situation to the Blood Python Association's President and Vice President through the transmission token.

At this moment, the President of the Blood Python Association and a Vice President were attending the Hundred Flowers Banquet.

"We must inform the Tower Master," the purple-robed attendant also immediately reported the whole situation to the Dream Flower Tower Master.

...

Luo Feng arrived at the familiar Orchid Star Hall, where food and wine had been prepared in advance.

The green-robed attendant whispered, "Supreme, today's events might cause some trouble."

Luo Feng glanced at her, saying nothing.

He had already been very restrained!

To avoid causing great trouble for the musician Araya, he hadn't made a move! When he heard 'Palace Master Duan Moyun' threatening with the Thousand Leaves Vine Clan, Luo Feng felt a murderous intent.

Such coercion, threatening to compel through clan allegiance, was something Luo Feng despised the most.

It would have been satisfying to kill, but it would bring Araya a lot of

trouble. Hence, he was very restrained, just giving a few reminders, which was already very merciful!

"Supreme Lord Luo He," a Blood Python Association Member walked to the outside of the hall, respectfully saying, "Vice President Lai Mo is also attending the Hundred Flowers Banquet and, having heard about a small conflict between our Blood Python Association's Palace Master Duan Moyun and the Supreme, has specially sent me to invite the Supreme to the banquet!"

"You want me to attend the banquet?" Luo Feng said, holding his wine cup, "If he wants to see me, let him come in person! There's no reason for me to visit him!"

Chapter 18: Chapter 17: Get Started

Luo Feng sat there drinking, not paying any attention to the Vice President of the Blood Python Association.

Having enclosed himself in the Land of Origin for over an era, he had fully developed his Perfect Divine Body to its pinnacle on one hand, and on the other hand, he had preliminarily mastered many secret techniques, turning his potential into strength to some extent.

He was no longer limited to the lone move "Blade of Life and Death" that he had used when he confronted Hei Duomo. Now, Luo Feng was itching for a challenge, eager to encounter more formidable opponents.

"Within Huyang City, the truly powerful experts could be rated as the top few of the Five Great Families, the leaders of the nineteen Dark Forces, as well as some leaders of superpowers in the local divisions of Huyang City, or some reclusive old oddities..." Luo Feng preliminarily identified his sufficiently strong opponents based on the information given by his friend Shang Tianyan.

Those opponents, they were the ones who ignited Luo Feng's fighting spirit.

The Vice President "Lai Mo" of the Blood Python Association, merely a Vice President within a faction of the Dark Forces, how strong could he be?

"Supreme Lord Luo He, does the Vice President come here personally to visit you?" The member of the Blood Python Association trembled with fear, worried about being scolded by the Vice President during the report.

Luo Feng's gaze pierced through the temple doors to the far distance, "Your Vice President has heard everything loud and clear!"

If the Formation of the Orchid Star Hall had blocked sound, naturally the outside world could not pry. But Luo Feng did not conceal anything, with the Formation of the Orchid Star Hall wide open, everything he said... could be seen and heard by any eternal true god who had an interest in observing this place!

"Yes, this subordinate will take his leave." The member of the Blood Python Association, overwhelmed with fear, quickly left.

The green-robed attendant and Araya inside the hall were also extremely nervous.

"Supreme." The green-robed attendant transmitted his voice, "Vice President Lai Mo is fierce and tyrannical, the Supreme humiliating him like this, he will definitely not tolerate it."

"This is called humiliation?" Luo Feng smiled as he lifted his cup, "You still don't quite understand."

...

At the Hundred Flowers Banquet.

The President "Mu Yang" and Vice President "Lai Mo" of the Blood Python Association were seated next to each other. They initially hadn't paid much attention to outside affairs. But numerous messages transmitted by Duan Moyun annoyed them both.

An incident like this happening at the Dream Flower Tower would definitely spread within Huyang City. With the President and Vice President present at Dream Flower Tower, if they acted as if they saw nothing, it would only lead to rumors that the Blood Python Association was fearful.

The Blood Python Association was one of the nineteen Dark Forces in Huyang City.

The Dark Forces were overbearing and wild, relying on strength! Without strength, there was no right to control those territories.

"After all, he is an eternal true god. Have a talk with him, settle this minor issue," President Mu Yang said.

"Alright, I will handle it." Only then did the Vice President Lai Mo order his subordinates to deliver the message.

During the message transmission, they both naturally watched from a distance.

The Dream Flower Tower Master, Shang Tianyan, and several other interested eternal true gods also spared some thought to pay attention. Since there was no formation to block sound on Luo Feng's side at Orchid Star Hall, they could see and hear everything clearly.

"If you want to see me, come to me in person! There's no reason for me to visit him!" The eternal true gods who were paying attention all heard Luo Feng's words.

"Exciting!"

"Interesting!"

"Not giving any face to the Blood Python Association at all." These eternal true gods reacted with both shock and delight, preferring not to engage in deadly combat themselves, but witnessing other eternal true gods do so was even more exciting than the Hundred Flowers Banquet!

"This unfamiliar eternal true god sure is bold! With both the President and Vice President of the Blood Python Association here, and he still does not show any respect."

"The Blood Python Association has been rooted in Huyang City for long years. If they tolerate this, it would become the joke of the entire Huyang City. Therefore, the Blood Python Association cannot tolerate it! They must act!" Several aware eternal true gods all watched the two from the Blood Python Association.

President Mu Yang and Vice President Lai Mo both looked displeased.

"President," Vice President Lai Mo said with murderous eyes, "this cannot be tolerated! If we do, we will become the laughingstock of

the entire Huyang City!"

"Unlike the Five Great Families, we don't have a powerful backing." President Mu Yang whispered, "The territories of the Blood Python Association were fought for. The reputation of the Dark Forces was also fought for. Since he shows no respect, let's see what he's truly capable of."

"I'll check out his background." Lai Mo stood up, "A fool who can't even withstand an Illusion Technique, I want to see where his confidence comes from."

"Be cautious with every eternal true god," President Mu Yang advised.

"Don't worry."

Lai Mo walked straight outside.

"Vice President Lai Mo, everyone is here at my invite for the Hundred Flowers Banquet..." the Dream Flower Tower Master said.

"Don't worry about this, Tower Master." Vice President Lai Mo, with every fiber of his being shimmering with a terrifying luster, his presence spreading, walked directly towards Orchid Star Hall. In just a few steps, he crossed the vast distance and arrived in front of the hall.

Seeing this, the Dream Flower Tower Master could only follow. With two eternal true gods about to clash, it was happening at her Dream Flower Tower; how could she just watch idly?

"My newly befriended Brother Luo He is extraordinarily fierce. I wouldn't dare provoke the Blood Python Association, yet he dare to disregard them so blatantly!" Shang Tianyan was greatly surprised.

"The nineteen Dark Forces were all established through bloodshed, causing even the city owner's mansion to be quite wary of them." Lord Bai Wu, who was also a member of the Dark Forces, knew very well how formidable the Blood Python Association was, "The Blood Python Association is not easy to mess with."

"Thrilling! This is even more interesting than the Hundred Flowers

Banquet!" the two eternal true gods from the Qumeng Royal Family were truly excited.

"These Dark Forces, each one is troublesome. Now I want to see what happens to this eternal true god who provoked the Blood Python Association." Their status was high, but they were equally wary of the Blood Python Association.

The Dark Forces generally don't have much background, but their strength is formidable!

...

At that moment, over ten eternal true gods all looked towards Orchid Star Hall, and the Dream Flower Tower Master hurried over as well.

Inside the Orchid Star Hall, the green-robed attendant and Araya both stood in the corner, extremely nervous.

"Big trouble's coming," said the green-robed attendant Yulu, visibly panicked, based on her experience living in Huyang City so far. Daring to blatantly slap the face of the Blood Python Association like this, they would certainly retaliate.

"Is it because of me?" Araya worried and blamed herself; she also understood that at this point, she was no longer important.

"Here they come." In the corner, Morosa's eyes shone as he watched the entrance of the hall.

Luo Feng, however, continued to sit leisurely, drinking his wine.

The Vice President of the Guild, Lai Mo, appeared at the entrance of the hall, a menacing aura spreading across him as his blood-red eyes fixed on Luo Feng, grinning. "Didn't Lord Luo He ask me to come visit personally? I'm here now!"

"If you have something to say, say it quickly," Luo Feng continued to pour himself a drink, too lazy to even glance at him.

Seeing this, the Vice President Lai Mo laughed in a mixture of anger and amusement.

The Dream Flower Tower Master rushed over at the same time, realizing there was no stopping it now.

"I heard you're quite arrogant, considering the Moli Clan, Dream Flower Tower, and my Blood Python Association beneath you. I wanted to resolve this matter, but who knew you'd be even more mad than I expected!" Vice President Lai Mo shook his head. "You should know, things have escalated to a point where they're not easily settled. I'm giving you one last chance to apologize!

Pay up ten thousand cosmic sand as an apology, and the Blood Python Association will overlook this. Otherwise… heh heh…"

The murderous intent in Vice President Lai Mo's eyes intensified.

Hei Duomo, whom Luo Feng had killed earlier, had only a bit more than ten thousand cosmic sand in treasures.

Poorer, newly ascended eternal true gods couldn't even produce that much!

Ten thousand cosmic sand was quite a hefty amount! Forcing Luo Feng to pay up so much would definitely save face for the Blood Python Association.

"Enough with the nonsense," Luo Feng, holding his cup of wine, said softly, "either start fighting, or get lost!"

Vice President Lai Mo was stunned.

All the eternal true gods watching from a distance were somewhat bewildered; this newly emerged eternal true god "Luo He" was incredibly fierce! Such a fierce and domineering eternal true god was a rare sight in Huyang City.

Normally, eternal true gods are quite cautious and do not start fights lightly.

"Very well!" Vice President Lai Mo extended his right hand, and a black staff appeared.

Instantly, Vice President Lai Mo's aura exploded, his Divine Power

already igniting, for Luo Feng's disdain had made him incredibly wary; he showed his most proud technique right from the start.

Except for not revealing his True Body, Vice President Lai Mo had fully unleashed his power!

"Shatter!" Vice President Lai Mo swung the black staff, which, like cleaving through chaos, carried an aura of shattering everything and instantly reached in front of Luo Feng.

In terms of strength and skills, Vice President Lai Mo was far superior to "Hei Duomo."

But Luo Feng was no longer the Luo Feng who had just arrived at the Land of Origin.

"Hmph."

Luo Feng gently waved his left hand, his palm like a blade, executing that one move: the Blade of Life and Death.

His hand touched the black staff that meant to shatter everything, and Luo Feng, having undergone one round of Body Refinement and grown to the pinnacle of the Perfect Divine Body, unleashed its full might through his palm.

"Hmm?" Vice President Lai Mo's blood-colored eyes suddenly bulged round; he felt an unmatched power crushing towards him, the black staff rebounded and struck his body, and a streak of the blade light grazed Vice President Lai Mo's body.

Vice President Lai Mo's body couldn't resist at all. In the cycle of creation and destruction, the blade light pierced through his body.

"Stop!" Far away, the Blood Python Association President Mu Yang was shocked but couldn't come to the rescue in time. After all, encounters between eternal true gods happened too quickly.

Luo Feng still sat in his original spot, his left hand holding a glowing 'True God's Heart'.

A single exchange.

The 'True God's Heart' of Vice President Lai Mo was now in Luo Feng's palm.

"Mercy, mercy," the face of Vice President Lai Mo appeared on the surface of the True God's Heart, terrified, begging repeatedly.

The black staff and some personal treasures flew towards Luo Feng. He fiddled with them a bit with his right hand and then lightly shook his head: "You're rather poor."

The shocked Dream Flower Tower Master hurriedly spoke up, "Lord Luo He, please show some mercy; you both are esteemed guests of my Dream Flower Tower…"

"I'll give the Tower Master face," Luo Feng said while collecting the spoils of war, looking at the True God's Heart in his left hand. "Vice President Lai Mo, I'm giving you one last chance as well. Pay twenty thousand cosmic sand as an apology, and I'll spare your life."

"I'm being merciful. Your weapons and treasures are included in the count; you just need to pay an additional twelve thousand cosmic sand."

"Pay, and you live. Don't pay, and you can't blame me," Luo Feng said, looking at the True God's Heart in his palm.

At this moment, the other eternal true gods attending the Hundred Flowers Banquet felt an intangible pressure; even some felt their own True God's Hearts trembling.

At that moment, they realized… a terrifying figure had arrived in Huyang City!

Chapter 19: Chapter 18: The Blood Python Association Leader and Luo Feng

"I'll pay! I'll pay!" Luo Feng's palm enclosed the 'True God's Heart,' which echoed with a voice, and the face of Vice President Lai Mo that surfaced on it was filled with anxiety and panic.

At such a time, the dignity of a strong person was dog shit! Vice President Lai Mo did not want to die at all.

"Where is the Cosmic Sand for the supplementary payment?" Luo Feng asked.

"It's with the president, the president has it!" the face of Vice President Lai Mo on the True God's Heart shouted urgently, "President, President!!!" His voice, imbued with the Divine Power of an Eternal True God Level being, naturally carried far and wide. If not for the Formation shielding every corner of the Dream Flower Tower, the sound would have traveled even farther.

Whoosh.

A figure with black scales had arrived at the doorway of the Orchid Star Hall. It was the Blood Python Association Leader, Mu Yang.

As the leader of one of the Dark Forces, although Mu Yang's body was covered with black scales, his aura was subdued, making him seem ordinary. But those with informed sources were well aware that Blood Python Association Leader Mu Yang was one of the most formidable beings within Huyang City. His strength was unfathomable, and even the city owners mansion had suffered losses at his hands.

"I will pay the twelve thousand Cosmic Sand to make up for the shortage, and I kindly ask you to spare my brother." Blood Python Association Leader Mu Yang said with a smile. "Also, we would like to redeem that scepter weapon. Please name your price."

"The Blood Python Association Leader is indeed straightforward," Luo Feng remarked, holding the True God's Heart in his left hand and casually tossing the scepter weapon with a flick of his wrist. "This scepter weapon can count for six thousand Cosmic Sand."

"I haven't even given you the Cosmic Sand, and Brother Luo He, you've already returned the weapon. I admire that, I really do!" Blood Python Association Leader Mu Yang praised with a smile.

He could fully predict the consequences of not providing the Cosmic Sand.

"Here are eighteen thousand Cosmic Sand." The Blood Python Association Leader produced a black bottle in his hand, which flew toward Luo Feng. As Luo Feng swept over it with his Divine Power, he confirmed it contained precisely 18,000 grains, not one more, not one less.

Luo Feng caught the black bottle with his right hand and flung the True God's Heart with his left. The True God's Heart turned into a streak of light and flew into Vice President Lai Mo's body. Lai Mo quickly stood up, now looking at Luo Feng with fear.

During the negotiation, the other Eternal True Gods didn't dare to speak out. They were afraid that any mishap might incite Luo Feng's wrath upon them.

"Brother Luo He's strength is truly admirable. It's only right that two thousand Cosmic Sand go to you," said Blood Python Association Leader Mu Yang. "We will take our leave from tonight's Hundred Flowers Banquet."

After speaking, the Blood Python Association Leader walked out, Vice President Lai Mo followed him, and the Dream Flower Tower Master could only watch from the side.

Luo Feng looked at the black bottle in his hand.

"This president is quite tolerant," Luo Feng thought. Among the more than ten Eternal True Gods who participated in the Hundred Flowers Banquet, based on the intelligence he knew, the most powerful and wealthiest should be none other than Blood Python Association Leader Mu Yang.

Although the two Eternal True Gods from the Qumeng Royal Family had high statuses, the Qumeng Royal Family within Huyang City had more than ten Eternal True Gods, and the Secret Techniques they cultivated consumed a lot of resources. How much could they have left?

But the Blood Python Association Leader monopolized power, long exploiting the Myriad Clans' Cultivators of Huyang City, so his accumulated wealth was naturally immense.

"River God Luo He," the Dream Flower Tower Master approached.

"It's not suitable to stay any longer tonight. Dream Flower Tower Master, I shall take my leave now," Luo Feng said as he got up. The other Eternal True Gods were watching him from afar, so he couldn't continue to listen to the music.

Luo Feng left with Moli Meng, and the Dream Flower Tower Master could only follow to see them off, even promising, "Rest assured, God Luo He, we at Dream Flower Tower will take good care of Araya in the future."

The Dream Flower Tower Master was indeed somewhat nervous.

There was no helping it; having seen Luo He effortlessly extract Vice President Lai Mo's 'True God's Heart,' she couldn't help being nervous.

"This Lord Luo He is too powerful," the Dream Flower Tower Master watched Luo Feng and his companion leave. "He must be among the very top of Huyang City, but why did he lose control under my Illusion Technique?"

...

"What an exciting night at the Hundred Flowers Banquet!"

"The conflict eventually saw the Blood Python Association bowing their heads," the two Eternal True Gods from the Qumeng Clan started chatting and standing up. Whether it was Luo Feng's action or the Blood Python Association Leader Mu Yang's compliant compensation, both were intriguing to them.

A head of the Dark Forces bowing and paying? How rare!

"Lord Luo He's strength is truly terrifying."

"Did he lose control in the Illusion because of a flaw in his spirit, or did he do it on purpose?" These Eternal True Gods, one by one, got up; they no longer had the mood to continue at the banquet.

"Lord Luo He's strength surpasses mine," Lord Bai Wu commented quietly. "Blood Python Association Leader is extremely powerful, yet he had to cede!"

As part of Huyang City's Dark Forces, Lord Bai Wu certainly understood how fearsome the Blood Python Association Leader was!

If the 'Six Lords Alliance's' six Eternal True Gods were nearly equal in strength, combining to exert formidable influence, then the Blood Python Association, predominantly, drew its might from the Blood Python Association Leader's personal power with the two Vice Presidents being far inferior!

Whoosh! Whoosh! Whoosh!

One by one, these Eternal True Gods began to leave discussing among themselves or weighed down with thoughts. Only two Eternal True Gods, Shang Tianyan and Sang Shuiyun, lingered, still enamored by the Dream Flower Tower Master.

"This Brother Luo He that I've recently become acquainted with has extraordinary strength!" Shang Tianyan exclaimed, "He was even willing to have a drink with me and acknowledge me as a friend."

"How could someone as strong as him lose control in an Illusion Technique?" Sang Shuiyun, the winged man, said with a despairing

look in his eyes filled with confusion, "An eternal true god might have a weak will, but such a powerful eternal true god cannot possibly have a weak will!"

"That's right, whether it's refining the bloodline of exotic beasts or cultivating powerful secret techniques, both require great willpower," Shang Tianyan said.

"But he just lost control," Sang Shuiyun said, "We both saw it."

Shang Tianyan was stunned for a moment, then nodded, "Yes, he indeed lost control just now."

"I don't understand," Sang Shuiyun said, his eyes full of confusion.

"Sometimes, losing control isn't necessarily because the illusion is too strong," Shang Tianyan said, "It might also be because he chose to immerse himself in it."

"Immerse himself?" Sang Shuiyun turned to look at Shang Tianyan, "Is there something he's pursuing in the Illusory Realm?"

Shang Tianyan, catching sight of the Dream Flower Tower Master approaching from afar, immediately brightened up and quickly called out, "Tower Master!"

Sang Shuiyun's gaze softened a few degrees as he looked towards the Dream Flower Tower Master.

******

Blood Python Association Headquarters.

"This time our Blood Python Association has lost face, being utterly outdone by a new eternal true god, even President Mu Yang had to personally apologize," a gaunt figure couldn't help but say, who was the other Vice President, Mu Lin, "This incident happened in the Dream Flower Tower, and so many eternal true gods saw it, it will spread throughout all of Huyang City's powers overnight!"

Vice President Lai Mo and President Mu Yang both remained very quiet.

"Lai Mo, is he really that strong? To take away your True God's Heart in one move?" Vice President Mu Lin pressed on.

"Would I lie about such a thing?" Vice President Lai Mo snapped, embarrassed and furious.

"Enough,"

President Mu Yang looked out the window and said, "Let's put an end to this matter right here!"

Vice President Mu Lin looked at his fellow clansman in surprise, "Are we going to let this Luo He, who just popped up from nowhere, keep pushing the Blood Python Association around?"

"A regular eternal true god daring to defy us certainly cannot be tolerated," President Mu Yang said calmly, "But for an eternal true god who could take away Vice President Lai Mo's True God's Heart in one move, it's not shameful for us to yield and bear with it."

President Mu Yang gazed out the window, "Moreover, I can tell he was waiting for me to make my move! He lurks in the shadows while I'm in the light. He knows a lot about me, yet I know nothing about him... Of course, I can't make a move."

"Just wait, once I understand his background," President Mu Yang's eyes were ice-cold, "I will make him pay the price."

...

So many eternal true gods witnessed this conflict, and as the word spread from ten to a hundred, virtually all the well-informed powers within Huyang City received detailed reports of the incident that night.

Every faction also memorized the name 'Luo He.'

Within a small building in the Flame Wind Pavilion.

"This Luo He is really interesting," the Master of the Flame Wind Pavilion said, looking at the latest report, "He lost control to the music and Illusion Technique of the Dream Flower Tower Master. Yet

the next moment, without using any Secret Treasure Weapons, he simply reached out his hand and took the Vice President of the Blood Python Association's True God's Heart."

A figure shrouded in gray mist calmly organizing the reports said, "He made his move right in front of Blood Python Association's President Mu Yang, clearly prepared for a proper fight. But Mu Yang backed down, bowed his head."

"Uncle, who do you think is stronger between the two of them?" the Master of the Flame Wind Pavilion asked curiously.

"The Blood Python Association has a lot of powers coveting its territory, and the Five Great Families have taken drastic actions. But from what we've investigated in the Flame Wind Pavilion, President Mu Yang has survived several assassination attempts and even killed several eternal true gods from the Five Great Families.

To this day, we still haven't fully figured out his real capabilities," the gray figure said, "As for this other Luo He, we know almost nothing about him; he's very mysterious."

"Who's stronger? Only a fight would reveal that," the figure enshrouded in gray mist said.

"Knowing President Mu Yang of the Blood Python Association, this matter won't just end like this," the Master of the Flame Wind Pavilion said with expectation in his eyes.

...

Inside Primal Chaos Armor No. 3 Super-Large Cave Mansion.

Moli Meng, looking at the latest intelligence sent by the city owner's mansion, was surprised: "This Luo He actually managed to overpower the Blood Python Association? And the city owner's mansion upgraded his rating to Grade A directly?"

The city owner's mansion rates each eternal true god from high to low in four levels: Grade A, B, C, and D.

The highest, 'Grade A,' represents an eternal true god that not even a

dispatched Huyang Legion could handle!

Chapter 20: Chapter 19 Diaorong Qi's Visit

Inside the Fire Realm Restaurant, a secluded little building.

"These past two days, many forces in Huyang City have been visiting Brother Luo He," said Shang Tianyan, sitting opposite Luo Feng, with Suo Zi dutifully serving food and fine wine by their side. As for the servant Morosa, he could only wait outside the building.

"Quite a few forces have directly come to my cave mansion for visits. When I go to the Dream Flower Tower, similarly, there are forces waiting there as well. That's why I'm hiding out in this Fire Realm Restaurant—this little restaurant, at least, is peaceful and quiet!" Luo Feng remarked wistfully.

"Haha, the moment you forced the Blood Python Association to bow their heads and make amends, you became one of the few top figures in Huyang City," laughed Shang Tianyan. "I don't know how many eternal true gods are envious. Us common eternal true gods can't compare to Brother Luo He when it comes to influence."

There were profound gaps even among eternal true gods.

Disparities in the strength of a godly body, gaps in the quality of Weapon Secret Treasures and armor, differences in Secret Techniques, levels of laws, variances in bloodline talents, different willpower... Various factors made the disparity staggeringly vast.

"If I'm not mistaken, the city owners' mansion has likely already upgraded your ranking to Grade A," Shang Tianyan said.

"Grade A?" Luo Feng asked curiously.

"An eternal true god that a Huyang Legion can't do anything against

is generally considered Grade A. At that level, the city owners' mansion won't take action lightly either," explained Shang Tianyan.

Luo Feng thought for a moment and then said, "A Huyang Legion is led by a top eternal true god, with tens of thousands of true gods of void space and tens of millions of elite true gods controlling the Legion Mechanical Secret Treasures. When the legion's power is unified, the force it can unleash already possesses a portion of the Primal Chaos Realm's might."

"With Brother Luo He's strength, even if you can't resist head-on, you can always employ hit-and-run tactics, making a Huyang Legion helpless against you," Shang Tianyan said with a smile. "You didn't use any Weapon Secret Treasures, and with just one hand, you captured Vice President Lai Mo's True God's Heart.

Anyone can see that once you fully unleash your power, you can still contend with a Huyang Legion using various Secret Techniques even if there is a gap."

Luo Feng just smiled and said nothing.

The Huyang Legion is strong head-on? In terms of quantity and purity of Divine Power, the multitudes of eternal true gods, true gods of void space, and masses of true gods all amounted to less than himself! It was merely that their Mechanical Treasure was somewhat stronger than his own "Sha Wu Wings."

A head-to-head confrontation wouldn't exhaust him but would be something a Huyang Legion couldn't bear in terms of the cost!

"Looking at your smile, you don't seem to take a Huyang Legion too seriously," said Shang Tianyan as he raised his cup. "To this, we should drink."

"Drink," Luo Feng replied with a laugh, toasting with him.

"But Brother Luo He, don't ever underestimate the city owners' mansion. Huyang's Ten Great Legions, the Huyang Guards... These are just the overt deterrent forces," Shang Tianyan said. "This large city, which has been built and refined over endless ages, is one of

their real points of reliance.

If truly pressed, I'm afraid a Primal Chaos Overlord, or even a Godly King might come tearing through space to arrive!"

"I'm not that foolish to provoke the city owners' mansion needlessly," acknowledged Luo Feng.

"Of course, the entire Jiu Jiang Primal Chaos Prefecture is the fief of the Marquis of Jiu Jiang. Who is the Marquis of Jiu Jiang? Unless there's a major issue, it's unlikely he'd come rushing to Huyang City," continued Shang Tianyan. "So as long as you don't challenge the city owners' mansion's rule, there's no need to fear provoking a Primal Chaos Overlord. But remember one thing..."

Shang Tianyan's expression turned much more serious.

"Please speak, Brother Shang," said Luo Feng.

"Never get involved in the conflict between Shi Kingdom and Yu Kingdom," whispered Shang Tianyan. "That is the most fearsome whirlpool of Huyang City. Once you get caught in it, no matter how strong you are as an individual, you could be ground into dust."

"Conflict between Shi Kingdom and Yu Kingdom?" Luo Feng asked, curious.

"Since its establishment, Shi Kingdom has been expanding and encroaching on its neighbors. It now borders our Yu Kingdom, so naturally, there are many conflicts," Shang Tianyan explained. "As a large border city, Huyang has never stopped its covert conflicts. For example, the Zan Yun Commerce Chamber is a commerce chamber of Shi Kingdom."

Luo Feng nodded and said, "The chairman of the Zan Yun Commerce Chamber visited my cave mansion yesterday, but I didn't pay much attention to him."

Simply because the other party was from Shi Kingdom, Luo Feng was unwilling to get too involved.

"That's the right approach," Shang Tianyan said. "As a large border

city, normal trade can't be forbidden by Yu Kingdom. Zan Yun Commerce Chamber acts very respectably on the surface, but Shi Kingdom has long sent a batch of eternal true gods into the city in secret."

"Whenever Shi Kingdom wishes, they can always summon more powerful forces here," said Shang Tianyan. "This is also the biggest trouble for Huyang City."

"Someday, if the two Divine Kingdoms go to war, it would be normal for this place to be ground to dust."

Shang Tianyan sighed and lifted his cup.

He had spent most of his life in Huyang City and naturally did not wish to see Huyang turned to ruins.

"There's nothing we can do about the conflicts between the two Divine Kingdoms. We can only go with the flow," Luo Feng said, drinking with him. He really liked Shang Tianyan as a friend—straightforward in character, and when Luo Feng asked about problems with Body Refinement, Shang Tianyan didn't beat around the bush.

As one of the top Artifact Refining Masters in Huyang City, Shang Tianyan was much stronger than Luo Feng in Artifact Refining. With no master to guide him, it was natural that Luo Feng would come across some difficulties in his own understanding of the Primal Chaos Great Strength Diagram. A few words from Shang Tianyan, however, could reveal the key points to him.

If Luo Feng had immersed himself in research, his solid grasp of the laws would have eventually led him to comprehension, but it would have taken longer and involved some detours.

Grateful for the guidance, Luo Feng cherished this friendship deeply.

The two of them ate, drank, and chatted, gaining a report on the situation in Huyang City. But more importantly, talking with Shang Tianyan allowed Luo Feng to gain a deeper understanding of the various forces in Huyang City.

"Not to mention, this restaurant has its own unique charm," praised Shang Tianyan, standing up to leave.

"I like it here too. Their roasted meat is robust enough," said Luo Feng. His Perfect Divine Body was so powerful that ordinary delicacies felt too weak and bland.

The two of them talked as they walked out of the little building, and Morosa quickly stowed away the wine pitcher as they did.

At that moment, Luo Feng and Shang Tianyan both saw a woman with a fluffy tail ahead, accompanied by a guard.

"This is 'Diaorong Qi' from the Diaorong Family, the daughter of Diaorong Yan," Shang Tianyan introduced.

"I have seen Uncle Shang," Diaorong Qi said with a smile and a polite bow.

"Are you here to visit Brother Luo He?" Shang Tianyan asked with a smile, "How did you find your way here?"

Diaorong Qi quickly explained, "I heard about the Supreme Lord Luo He being at the Dream Flower Tower and really wanted to visit. Later, I learned from my guard that Supreme Lord Luo He might come to the Fire Realm Restaurant."

Luo Feng watched the scene with interest. The guard beside the woman was none other than the young True God 'Suo Yun' whom he had saved from a tribal squad before.

"Supreme," Suo Yun hastily explained with respect, "I share a residence with Brother Suo Zi, and during a conversation, I accidentally learned of your visit to the Fire Realm Restaurant."

"Quite the coincidence," Luo Feng said, looking at the woman with the fluffy tail, Diaorong Qi, "What brings you to find me?"

"To request mentorship!"

Her eyes shining brightly, Diaorong Qi said, "I wish to take you, Supreme, as my master."

"Your father is an eternal true god, and yet you come to take me as your master?" Luo Feng looked at her.

"My father excels in alchemy but is not skilled in combat," Diaorong Qi said with a respectful bow, "I am willing to offer five thousand Cosmic Sands, merely hoping to be accepted as your disciple."

Luo Feng shook his head and looked at Shang Tianyan, "Brother Shang, let's go."

Without trying to persuade him, Shang Tianyan understood that accepting a disciple was a very serious matter, and he flew off with Luo Feng.

"Supreme," Diaorong Qi called out urgently, "please give me a chance, an opportunity to be tested."

"Dreaming of becoming a disciple of my master? Pretty wishful thinking!" Morosa glanced at Diaorong Qi and then followed Luo Feng as they left.

Diaorong Qi stood still, then after a moment, turned and instructed as she walked away, "Suo Yun, you continue to stay at the Fire Realm Restaurant. As soon as you spot Supreme Lord Luo He, inform me immediately."

"Yes," the guard Suo Yun responded respectfully, watching as his mistress departed.

"Suo Yun," Suo Zi approached, "how could you carelessly spread the word that the Supreme is here?"

The guard Suo Yun looked at his brother, retorting, "My mistress wanted to visit the Supreme and bore no ill will. Why shouldn't I speak of it?"

"We run a restaurant business, and we should guard the privacy of our esteemed customers," Suo Zi admonished, "I told you in confidence because you are my brother. You didn't even let me know before telling your mistress the news?"

Suo Yun scoffed, "The Supreme didn't blame me, yet you, as my

brother, are blaming me."

"The Supreme may be amiable and not blame you, but if you encounter someone with a bad temper, you'd be done for!" Suo Zi said urgently, "In Huyang City, especially in matters involving eternal true gods, caution can never be excessive!"

"Being cautious all the time, when can we make a breakthrough?" Suo Yun said coldly, "We must seize opportunities when they come! Just for this piece of news, I've already been granted a Secret Technique!"

Suo Zi was taken aback.

Having come from their tribe to Huyang City, and after identifying their bloodlines, they sought to acquire Secret Techniques suitable for themselves. But good and suitable Secret Techniques were prohibitively expensive.

"Suo Yun has already acquired a Secret Technique?" Suo Zi felt mixed emotions at the moment.

On one hand, he was happy for his brother, yet he could also feel the gap between them widening. He was still an apprentice, painstakingly saving up to purchase Secret Techniques with Primal Chaos Crystals, anticipating a long and arduous process ahead.

"The Clan Leader said, one must be cautious and prudent in Huyang City. No rush, I have a long life ahead, I can spare the time," Suo Zi suppressed his emotions.

...

Blood Python Association Headquarters.

"These past two days, the most famous person in all of Huyang City has been that Luo He," Vice-chairman Mu Lin shook his head, "Mention of Luo He will always bring up our Blood Python Association."

"Can you shut up?" Vice President Lai Mo snapped irritably.

"I don't care about these rumors," said Chairman Mu Yang, frowning, "What bothers me is that we paid out twenty thousand Cosmic Sands in compensation. I am too poor now, every single Cosmic Sand is precious to me."

Vice-chairman Mu Lin and Vice President Lai Mo looked at each other.

"We've both run out," Vice-chairman Mu Lin quickly stated.

"Chairman, whatever I could lend, I already did, and this time you paid 18,000 Cosmic Sands for me, which means you still owe me 5,000 Cosmic Sands," Vice President Lai Mo said.

Both vice-chairmen were somewhat puzzled by the continuous poverty of 'Mu Yang', the chairman who controlled most of the association's resources, making them apprehensive to lend him anything more!

Chapter 21: Chapter 20: The Poverty of the Blood Python Association Leader

Blood Python Association Leader Mu Yang's eyes turned cold, "I'm not borrowing from you! I'm asking you if you have spotted any good prey recently?"

"We too have ordered our subordinates to search for prey," Vice President Lai Mo explained, "but you are aware, Association Leader, that the True Gods of Void Space within Huyang City are all very cautious. They do not reveal their treasures, making it difficult to select suitable prey.

In the past era, I slaughtered 122 True Gods of Void Space, gaining a total of one thousand eight hundred Cosmic Sand. I keep one tenth, and you take nine tenths; I have already given it to you."

"In the last era, I slaughtered 132 prey, gaining a total of twelve hundred Cosmic Sand, and I've also given you your share," Vice-chairman Mu Lin said. "We have all sworn on the cause and effect contract; we would not lie about these things."

Mu Yang said coldly, "What I want are good prey! Not these inferior ones!"

Both vice presidents shook their heads.

"We can't find any good prey; the city owner's mansion has already set the minimum criteria," said Vice President Lai Mo. "The number of True Gods of Void Space within the city that can be killed is very limited, and they are extremely cautious. Even if they obtain treasures, they would not reveal them publicly."

Vice-chairman Mu Lin expressed his concern, "Association Leader, you have earned enough since establishing the Blood Python Association. You weren't as anxious before; why have you been increasingly anxious lately?"

He and the Association Leader were from the same tribe and had drifted together to Huyang City, so he could say many things that Vice President Lai Mo dared not say.

"How are the residence fees we collected?" the Blood Python Association Leader pressed. "Has there been any increase?"

"The massive number of True Gods in the city mostly hunt Exotic Beasts for a living. Every time they venture out and make a hefty profit, they return to live stably within the city. Besides the occasional shopping, they mostly seclude themselves and do not come out. We simply cannot collect residence fees," Vice President Lai Mo said, shaking his head.

"Is there any overall growth?" Mu Yang pressed further.

"No," Lai Mo shook his head, "It has probably even declined this era."

"A bunch of useless trash!"

Mu Yang was furious, "The Blood Python Association maintains so many subordinates to find suitable prey within the city and to collect residence fees! Not finding prey, and even experiencing a decline in residence fees this era? What use do these incompetents serve? Expel those incapable from the Blood Python Association!"

Maintaining a subordinate also bears a significant cost; subordinates must also pay the city owner's mansion a residence fee of 'one Primal Chaos Crystal per era', in addition to needing cultivation resources. Thus, the average cost of maintaining a True God Level subordinate each era is about 3 Primal Chaos Crystals.

The stronger the subordinate, the higher the maintenance cost!

A vast dark force has high operational costs. After all, collecting residence fees from a multitude of residents, you can't expect the Eternal True Gods to do it, can you?

Finding fat sheep is no easy task.

"The city owner's mansion has rules; as long as those True Gods live within a cave mansion, the city owner's mansion guarantees their absolute safety. In many places within Huyang City, filled with True Gods, if we make a move, we will be discovered by other True Gods. Once there is concrete evidence, the city owner's mansion must arrest the culprit," said Mu Lin, shaking his head.

"The city owner's mansion ensures these residents' safety in various ways, making it hard for us to collect residence fees."

The city owner's mansion collects residence fees as an official collection; every True God must pay. Once paid, they receive various protections, and this is why many True Gods aspire to live in a big city.

Dark forces also collect residence fees, but the vast majority of residents try all means to avoid it.

Like usually hiding in cave mansions! They travel to places with many True Gods, or even groups of True Gods act collectively!

"The Blood Python Association is being supported by me; you two think of some solutions!" Association Leader Mu Yang's eyes were even more fierce, "How do you find good prey? How do you collect more residence fees?"

"We'll think of something," the two vice presidents verbally agreed, but since the Blood Python Association has been operating for so long, all usable methods had already been employed.

"Hmm?" Association Leader Mu Yang suddenly looked outside, "Moli Meng is here; you two go out first."

"Alright," Lai Mo and Mu Lin, the two vice presidents, breathed a sigh of relief and promptly left.

Soon, a middle-aged man with four purple curved horns, 'Moli Meng' walked in.

"Here to collect again!" Association Leader Mu Yang sighed.

"This era's fifty thousand Cosmic Sand, it's time you gave them to me," Moli Meng looked at him. "Surely you can't fail to pay after losing twenty thousand Cosmic Sand to Luo He?"

Association Leader Mu Yang shook his head, "Merely fifty thousand Cosmic Sand, of course, I can afford it. But Moli Meng, doesn't the Blood Python Association's minimal territory require way too many cosmic sand payments every era, perhaps it could be less?"

"No way," Moli Meng looked at him and lightly chuckled, "Unless you dissolve the Blood Python Association and give up the territory. The rules of Huyang City are clear; whichever dark force controls the territory must pay the Cosmic Sand; this is the bottom line of the Five Great Families."

Association Leader Mu Yang was quite frustrated.

While competing with other dark forces for territory previously, he also did not want to pay fees to the Five Great Families and suffered their punishment. He suffered a great loss that time and eventually had to step back, which only then did the Five Great Families tolerate him.

"In that case, can the Blood Python Association have a higher quota for slaughters each era?" Association Leader Mu Yang said, "Each era, the death rate within the city cannot exceed one thousandth, but this rate is too low.

True Gods and True Gods of Void Space in the city naturally have conflicts and conflicts across a long era, with a normal death rate approaching one thousandth already, leaving us with too few quotas to kill!"

"No more than one thousandth!" Moli Meng calmly said, "In the recent era, your Blood Python Association should have assassinated over a million True Gods within the city, and perhaps hundreds of True Gods of Void Space; that's enough!"

"The True Gods of Huyang City are countless, and what we've killed is far from the normal death rate," Mu Yang shook his head, handing over a Jade Vial to Moli Meng, "Fifty thousand Cosmic Sand, not one

less."

Moli Meng took it, and his expression eased somewhat, then said, "I remind you, recently, over several eras, your Blood Python has done some over-the-line things!"

"What thing? I'm not aware of it," said Mu Yang in surprise, "Don't pin everything on me."

Moli Meng gave him a look, then turned and left without saying more.

Mu Yang watched him leave.

"The five great families of the city owner's mansion are the most ruthless!" President Mu Yang's eyes were cold, but he was well aware that once the bottom line was crossed, the five great families would spare no cost to completely crush the Blood Python Association.

"Every era, all members of the Blood Python Association need a large amount of Cosmic Sand, and so do the five great families. That Luo He even took away twenty thousand units of Cosmic Sand," lamented President Mu Yang, feeling quite impoverished, "This era alone hasn't brought in much profit."

With a thought from Mu Yang, the formation in the hall activated, completely isolating it from the outside world.

Hum~~~

In front of him, the void condensed into a mirror, within which was the figure of a person wearing a white robe and a red mask.

"Divine Monarch Xue Yun." President Mu Yang became somewhat more humble.

The most terrifying two powers in Huyang City were, naturally, the ruling power of the five great families of the city owner's mansion and the forces of the Shi Kingdom. Lurking among the Shi Kingdom's forces was a supremely terrifying existence known as 'Xue Yun'.

The conflict between the Shi Kingdom's forces and the five great

families of the city owner's mansion was the most intense, not just minor skirmishes against dark forces.

"President Mu Yang, why have you suddenly contacted me?" Xue Yun's voice was calm, seemingly without any fluctuation.

"The latter part of the 'Primordial Iron Blood Sand Technique' requires one million units of Cosmic Sand, which I really cannot gather," President Mu Yang said, "Could I perhaps have some Cosmic Sand on credit first? I can pay half up front?"

Xue Yun chuckled lightly, "Relying on the Bloodline Cultivation Method, refining to the Primal Chaos Realm is your limit, whereas the 'Primordial Iron Blood Sand Technique' is a 'Perfection Level' bloodline cultivation method for the Primal Chaos Realm and especially suits you. Such a cultivation method is a rare opportunity for you. If it weren't for your great contributions...

we would not have given you this purchasing opportunity."

"I know, but one million units of Cosmic Sand is just too hard to gather," said President Mu Yang.

"You have this purchasing opportunity because you work for our Shi Kingdom. You wouldn't be able to buy it at all in the Flame Wind Pavilion," Xue Yun stated.

President Mu Yang, of course, understood.

The Shi Kingdom was generous enough to offer something like the 'Primordial Iron Blood Sand Technique', a top-tier Bloodline Cultivation Method, which naturally drove Mu Yang mad with desire.

Ordinary cultivation methods would leave him hopeless to ever reach the Primal Chaos Realm. But such perfect bloodline cultivation methods at least gave him a glimmer of hope to reach the Primal Chaos Realm.

"You're slowly earning through the Blood Python Association, which naturally means slower profits," Xue Yun said softly, "If you want to earn more, you'll have to take some risks. Think about it yourself."

Then the connection was cut off.

President Mu Yang pondered. He had dealings with all sides in Huyang City, entangled quite deeply with both the city owner's mansion and the Shi Kingdom's forces.

"Normal business within Huyang City, all under the infiltration of the city owner's mansion, can't make too much. It requires time to slowly accumulate. To earn a significant sum, some risk must be taken," President Mu Yang's eyes grew colder, "Once I get the 'Primordial Iron Blood Sand Technique', I'll leave Huyang City immediately.

Let the city owner's mansion and the Shi Kingdom's forces fight as fiercely as they will, I'll stay out of it."

******

Primal Chaos Armor's Cave mansion no. 913.

Atop a high mountain, Luo Feng sat on a large rock, drinking alone.

In reality, he was operating the 'Great Destruction Heart Refining Technique', and his spiritual will was continuously being destroyed and worn down, which made each condensation of his spiritual will more refined. This was normal adaptation to survival.

Under such strong destruction and wear, each condensation naturally had to resist this kind of destruction and wear.

Short-term improvements were not as effective as the 'Seven Emotions of Heart Refining Technique', but the advantage of the 'Great Destruction Heart Refining Technique' was that it could be carried out long-term, and over time, the results were good.

"With Shang Tianyan's guidance, I should be able to fully understand the theory of the second layer of the 'Primal Chaos Great Strength Diagram' soon," Luo Feng, with his deep understanding of the laws, naturally comprehended quickly, "But even if I fully understand it, what can I do?"

"Poor! I simply cannot afford the materials required for the second body refinement," Luo Feng also felt the headache.

"The first body refinement, merely foundational, already consumed materials worth a hundred thousand units of Cosmic Sand."

"According to estimates, the second body refinement will require many times more materials."

"The third body refinement, again, will increase severalfold."

"Where can I gather so much Cosmic Sand?" Luo Feng was quite vexed.

With his current strength, to significantly enhance his power, he either needed to break through the great realm of 'Peak Will of Primal Chaos Realm' or undergo the second body refinement of 'Perfect Divine Body'.

His godly body was too massive, and his Divine Power incredibly pure, so each body refinement offered significant growth.

"Advancing the will can't be rushed. It requires daily accumulation and gradually honing oneself," Luo Feng understood this, "As for the materials for the second body refinement, I need to think of a solution. Alas, I'm just too poor!"

Thinking this, Luo Feng triggered a thought and began scouting for bounty missions using the Flame Wind Association's Dark Hall's Transmission Order.

———

Thank you to the two Alliance Hierarchs who tipped: Hidden Night Behind the Moon and The Sea in Your Eyes.

Chapter 22: Chapter 21: The Three Children of Moyu Hu

The bounty missions of the Flame Wind Association's Dark Hall also are categorized into protection, hiring, assassination, and others, among which the assassination missions undoubtedly offer the highest bounties.

"Look at the ones with high bounties," Luo Feng said as he drank and studied the assassination missions.

The highest bounty mission: to kill the supreme commander of the Huyang Legion 'Moli Xiao,' with a bounty of 1.2 million Cosmic Sand.

"Those who can offer 1.2 million Cosmic Sand as a bounty and are not afraid of the city owner's mansion are very likely from the Shi Kingdom," Luo Feng speculated, "According to the rules of the Flame Wind Association's Dark Hall, for assassination missions, the bounty must be paid in advance to the Flame Wind Pavilion.

If the mission is not completed, the bounty remains with the Flame Wind Pavilion! Without sufficient backing, no one would be willing to leave such a massive fortune there for long."

The second-highest bounty mission: to kill the leader of the Shi Kingdom's forces within Huyang City, 'Xue Yun,' with a bounty of 1 million Cosmic Sand.

The third highest bounty mission: to kill the leader of the Zhu Clan, 'Zhu Hu,' with a bounty of 530,000 Cosmic Sand.

The fourth highest bounty mission: to kill the Puppet Shadow Master 'Chun Yuyi,' with a bounty of 180,000 Cosmic Sand.

...

The seventh highest bounty mission: to kill the Blood Python Association Leader 'Mu Yang,' with a bounty of 120,000 Cosmic Sand.

...

Luo Feng noticed the familiar bounty for the Blood Python Leader which ranked seventh. The enemies of the Blood Python Leader surely were generous!

"The top three bounties are quite high, and then there is a notable drop afterward," Luo Feng noted. Having received detailed intelligence about Huyang City from Shang Tianyan, he was also familiar with the information on these mighty figures listed in the bounty missions.

Moli Xiao: The strongest amongst the Five Great Families of the city owner's mansion, and the supreme commander of the Huyang Legion.

His individual strength is extremely formidable, and the Royal Capital of Yu Kingdom sent him to command a large city, equipped him with the best legion Mechanical Stream Secret Treasures, and his Royal Guard Army is incomparably elite.

Already powerful individually, and commanding a legion, Moli Xiao is extremely fearsome.

Xue Yun: The leader of the Shi Kingdom's forces within Huyang City. He has long been lurking in Huyang City, causing significant losses to the Five Great Families of the city owner's mansion, who have always been unable to deal with him.

Both individuals are very strong, with extraordinary backgrounds.

They have also clashed more than once.

"Zhu Clan's Zhu Hu, ranked third?" Luo Feng was curious, "The Zhu Clan is a native family in Huyang City, honestly doing business, supposedly without many enemies. How come Zhu Hu's bounty is even higher than those of the dark forces leaders? Most crucially, with a long-term bounty of 530,000 Cosmic Sand, the Zhu Clan remains stable."

From these assassination missions, Luo Feng could see that within Huyang City, Moli Xiao, Xue Yun, and Zhu Hu were not to be trifled with.

"Of course, people like the Flame Wind Pavilion's master, like me, and those few recluses living in Huyang City, we have no bounties," Luo Feng said with a smile, "Having no bounty doesn't mean being weak."

"Which of these assassination missions should I choose?"

Luo Feng pondered.

Hiring and protection missions require much time and energy for less reward. Naturally, he would choose an assassination mission.

"Leaders of dark forces who commit all kinds of evil can be considered as options," Luo Feng thought. He always prepared before he acted and only killed those who deserved it! Since leaders of dark forces did countless evils, they naturally made the list of options.

"The bounty for the Blood Python Leader is a bit low," Luo Feng shook his head slightly. Three dark forces leaders had bounties higher than the Blood Python Leader, surely warranting further research.

The first time taking a bounty mission must be a success.

Preparations had to be made.

******

Luo Feng sat on a large stone on a high mountain, studying potential targets, when suddenly a figure flew nearby.

"Master," Morosa said, "Moyu Hu has come to visit."

"Moyu Hu?" Luo Feng was surprised; the first True God of Void Space he met upon arriving at the Land of Origin had been Moyu Hu.

"While you were secluded for over a decade, Moyu Hu also came to visit," Morosa said, "Knowing the master was in seclusion, he did not disturb you further. This is his second visit."

Luo Feng smiled, "The second time? Let him come in first."

"Alright," Morosa nodded, but couldn't help adding, "Master, should we perhaps hire a few servants?"

"Hire servants? We're focused on cultivation in the cave mansion, occasionally drinking and eating some fruit which we can prepare in advance. What do we need servants for?" Luo Feng chuckled, "And when we're out, aren't you my servant?"

Morosa spoke softly, "Master, your fame in Huyang City is growing, and more people are visiting you. I have to guard the door and also serve as a servant."

Luo Feng laughed.

Whenever guests visited, the sole servant Morosa needed to prepare fine wines and food, and be on hand to serve. Although Morosa was disguising his strength, he was, after all, an Eternal True God Level Sector Beast, and he was continuously growing stronger, perhaps even faster than Luo Feng himself, making it really unfitting for him to perform menial tasks.

"It's my fault," Luo Feng smiled, "Don't worry, I'll hire some servants in the next few days."

"I'm not in that much of a hurry," Morosa grinned and flew towards the entrance of the cave mansion to bring Moyu Hu in.

Moyu Hu appeared somewhat restrained and nervous as he followed Morosa, flying up the high mountain.

"Greetings, Supreme," Moyu Hu said respectfully.

As a True God of Void Space, he ranked among the middle echelons in Huyang City. The latest hot news in the entire Huyang City was that a dark force 'Blood Python Association' had been forced to bow down by an Eternal True God named Luo He, and Moyu Hu was well aware of this.

Luo Feng sat leisurely, looking at Moyu Hu, "What brings you to me?"

"The Supreme has said that I could ask for his help," Moyu Hu was somewhat nervous, but he knew from his understanding of the Supreme Lord Luo He that he was an eternal true god with a good temper.

"Yes, I have promised," Luo Feng smiled, "My promise is very valuable. Is this how you plan to use it up?"

Moyu Hu flipped his hand, and a small gray hammer appeared in his hand. He held the hammer respectfully, "This weapon is my greatest discovery in life. I found it exploring treasures outside the city, where I fortuitously discovered the body of an eternal true god. The most precious item was the weapon that belonged to the eternal true god.

I am willing to offer this weapon to the Supreme, only wishing for a chance for my child to become an apprentice."

Luo Feng looked surprised at the small hammer, "This is indeed an eternal true god-level weapon secret treasure. From my estimate, it values around 6000 cosmic sands. You, a mere true god of void space, having such a discovery. And yet you dare to show it in front of me? Aren't you afraid I would kill you and take it?"

"Such a treasure, I dare not sell to any power, because the slightest leak of information, and my entire family would be gone," Moyu Hu looked at Luo Feng, "I haven't met many eternal true gods, but the only one I trust is the Supreme."

Last time he guided the way, he wasn't killed! Wasn't robbed! And even got a chance to help!

Moyu Hu then decided to bet on Luo Feng's nature.

"Haha..." Luo Feng beckoned with his hand, picking up the small hammer, "I do not take disciples lightly."

"Eternal true gods do not take disciples lightly either, they usually require trials," Moyu Hu said, "I only hope the Supreme can give a chance for a trial."

Luo Feng said, "You should know that I have conflicts with the Blood Python Association."

"Yes," Moyu Hu nodded, "The news has spread throughout Huyang City." From this conflict, Moyu Hu could see how powerful the Supreme was! If his child could apprentice under the Supreme, that truly would be a grand opportunity.

Luo Feng said, "In the future, I will have conflicts with other dark forces. The Eternal True Gods who hold grudges against me are likely not few. If your child follows me, he might get involved."

Moyu Hu was secretly alarmed.

Already having conflicts with the Blood Python Association, and now with other dark forces?

"Since following the Supreme, naturally both fortune and misfortune must be borne," Moyu Hu replied decisively, as he very clearly understood that he dared only offer the small hammer to Luo Feng.

"How many children do you have?" Luo Feng asked.

"Three children, the Supreme can choose any one of them," Moyu Hu immediately offered a book respectfully, "This is the detailed information about all three of my children."

Luo Feng beckoned it over, "You are indeed well-prepared, but let me be clear in advance, I now only seek one servant! He needs to undergo a trial, and if he fails the trial, he cannot become my disciple. Moreover, the trial will be very long."

"Having the opportunity to be a servant for the Supreme is great fortune for my child," Moyu Hu promptly said.

"Good," Luo Feng nodded, "Bring your three children here, and I will choose one to be my servant."

Moyu Hu showed joy, "I will bring them right away."

He respectfully took his leave and quickly departed.

"Master..." Morosa looked at the small hammer Luo Feng was fiddling with in his hands, unbelievingly said, "You recruit a servant, and also just earned a weapon secret treasure valued at six thousand cosmic

sands?"

Luo Feng laughed, "I said I'd recruit a servant within two days. Now I have! Wasn't that fast?"

"Fast!" Morosa praised, "And, Master, you truly know how to earn."

"Six thousand cosmic sands, to become my servant, it's not a loss," Luo Feng laughed.

"I am also Master's servant. To be on the same level as me, of course he doesn't lose," Morosa was delighted, as many of the more mundane tasks could now be handed to Moyu Hu's child.

Morosa said, "Master, in the future I can help you teach the child. No need for you to bother."

That way, he would have even more reason to order the child around.

"Good, if I take him as a disciple, then you will be his second master," Luo Feng said, "But I won't accept a disciple easily. If he doesn't meet the minimum requirements, he can just be a servant for life."

Morosa nodded, "Let me and Master teach together, the threshold for acceptance ought to be higher."

...

Moyu Hu returned home, his house was a modestly-located small cave mansion that he had bought for 1000 primal chaos crystals. It was considered average among the residences of true gods of void space.

"Father." The three young true gods were waiting, aware that their father was going to visit the eternal true god 'Luo He'. Seeing their father return, they were somewhat excited.

Moyu Hu smiled at his three children.

In the Land of Origin, love is a luxury! After all, most true gods live and cultivate under harsh conditions, let alone find a wife and have

children.

Moyu Hu was fortunate; he had met his true love and together they had raised three children.

Since his wife's death, Moyu Hu's greatest concern had been his three children, whose lives he valued more than his own.

"Supreme Lord Luo He has agreed to give an opportunity. He will choose one of you three to be a servant," Moyu Hu said, "Being a servant, undergoing many trials, only then might one eventually become a disciple of Supreme Lord Luo He. If you can't pass the trials, you won't become a disciple of the eternal true god."

"We understand."

"It's a rare opportunity, and we will strive for it."

The three brothers grew up in Huyang City and were well aware of the value of this opportunity.

Moyu Hu nodded, "Let's leave right now."

Chapter 23: Chapter 22 Servant

Moyu Hu led his three brothers to the front gate of Luo Feng's Cave Dwelling.

"The Primal Chaos Armor Sector's cave mansion!"

The eyes of the three brothers from the Moyu Family were fervid. This area was legendary throughout Huyang City, neighboring the Primal Chaos Ruins. Those residing here were among the most terrifying beings in Huyang City, and in the past, the three brothers would not have dared to come near.

"Father is indeed remarkable, to have secured such an opportunity for us! This is the greatest opportunity of my life, I must seize it even if it means risking my life!" The eldest of the Moyu brothers was the most burly, with eyes sharp as knives.

"Both my eldest brother and youngest brother have higher talent than me. With Supreme Lord Luo He choosing one among the three of us, my hopes are the slimmest," thought the second Moyu brother, yet he hadn't given up, "I must strive with all my might!"

"The eldest brother has the greatest talent," mused the youngest Moyu brother. "It's hard to know how the eternal true god will select his disciple."

As the three brothers harbored their own thoughts, Moyu Hu had already stepped forward and lightly tapped on the door, sending an invisible ripple spreading.

Soon, the honest-looking Morosa opened the door and glanced at them, "Come in."

"Yes," Moyu Hu responded with a very humble attitude, leading the three children into the cave mansion.

As the three brothers entered such a vast and expansive cave mansion, they felt nervous. The chaos aura here was incredibly rich, almost to the point where Primal Chaos Stones could condense from it.

Inside the pavilion.

"We pay our respects to the Supreme," respectfully saluted Moyu Hu, while the three brothers knelt down immediately.

"Rise," said Luo Feng, holding a book that contained the information on the three Moyu brothers.

"Among you three brothers, the eldest is at the Ninth Realm of True God, and the other two are at the Sixth Realm of True God," Luo Feng spoke, "However, in my eyes, the Realm of True God has no significance."

The hearts of the three brothers trembled.

"I will choose one of you to be my servant," Luo Feng declared, "The time of servitude will be very, very long. Only by passing my trials may you become my disciple."

"We understand," the eldest 'Moyu LieFeng', the second 'Moyu Qingyan', and the youngest 'Moyu Liuxing' all responded with utmost respect.

"I'll make the conditions clear beforehand. Those who are unwilling to be servants can speak up now, but once you become my servant, there will be no chance for regrets," stated Luo Feng.

The three brothers listened attentively.

Luo Feng said leisurely, "Being my servant is dangerous! There will be a number of eternal true gods who want to kill me in the future, and you may get involved. I can't guarantee I'll always be able to protect you. So as my servant, you must be prepared for death!"

The eldest brother, Moyu LieFeng, said, "Since we follow the Supreme, we naturally bear our own fortunes and misfortunes."

"We do not fear death; we only fear not having the chance," added the second brother, Moyu Qingyan.

The youngest brother, Moyu Liuxing, hesitated before inquiring, "May I ask the Supreme, will the Supreme's eternal true god enemies be numerous?"

"Numerous, and they will be unscrupulous," Luo Feng replied with a smile.

In his assassination missions, Luo Feng was most eager to deal with the covert leader of Shi Kingdom, 'Blood Light', known for his violent and brutal methods, and his identity piqued Luo Feng's interest in hunting. The only problem was that he did not know Blood Light's whereabouts.

After all, even with the Five Great Families of the city owner's mansion putting forth all their efforts against Shi Kingdom's infiltrating powers, wanting to kill Blood Light, he remained cautious and well-hidden, making it difficult for Luo Feng to find an opportunity.

Having decided to take on some assassination missions, Luo Feng knew that enemies in the future would not be few.

Of course, he and Morosa, one in the light and one in the dark, would do their best to ensure the safety of their servants.

"Father, I give up," said Moyu Liuxing.

Moyu Hu looked at his youngest son, but wasn't surprised. His youngest son was born latest when he and his wife were in better circumstances, leading to a more comfortable upbringing for the child.

"I'd rather cultivate in peace," said Moyu Liuxing, who disliked a life filled with danger.

"Alright, one has given up," Luo Feng nodded, "After becoming my servant, I will not offer him cultivation guidance or resources."

The eldest Moyu LieFeng and second Moyu Qingyan were both

startled.

"He will need to comprehend the laws on his own," Luo Feng continued, "After grasping the Ten Fundamental Laws, he may pass the first trial; only after enduring many trials can he qualify to become my disciple."

"To glean the Ten Fundamental Laws without any guidance?" The surprise was palpable for the eldest and second Moyu brothers.

Creatures born in the Land of Origin could almost always become True Gods, precisely because they relied on the Bloodline Cultivation Method! If one chose the path of laws, the proportion of creatures reaching True God status would diminish drastically.

Grasping the Ten Fundamental Laws is exceedingly difficult!

"Since birth, we have followed the Bloodline Cultivation Method. Even if we exhaust our lives, it would be extremely difficult to perceive the Ten Fundamental Laws," Moyu LieFeng said, "And if we're unable to perceive them..."

"If you're unable to perceive them, naturally you cannot become my disciple," Luo Feng stated, "Even having perceived them, there are still other trials to pass."

Moyu LieFeng was reluctant but still declared, "I give up."

Moyu Hu watched his eldest son, who could endure hardships and was very determined. However, the challenge of 'perceiving the Ten Fundamental Laws' made him choose to give up voluntarily.

"And you?" Luo Feng turned his gaze to the remaining Moyu brother, the second 'Moyu Qingyan', "Will you give up?"

"I am willing to follow the Supreme," Moyu Qingyan answered without hesitation.

Luo Feng nodded in satisfaction and then said to Moyu Hu, "Moyu Qingyan it is, then. From now on, he is my servant."

"Thank you, Supreme," Moyu Hu had observed his children's choices

from the beginning. Aware of his sons' temperaments, he was not surprised by their decisions.

Luo Feng nodded, "From now on, Moyu Qingyan will live here."

"Then we shall take our leave," Moyu Hu respectfully bid farewell, leading the other two children away, leaving only the second son, 'Moyu Qingyan', behind with Luo Feng.

"As I said, I will not guide you and will not provide you with cultivation resources," Luo Feng addressed Moyu Qingyan, "You must diligently comprehend the Ten Fundamental Laws. As for the minor matters within the cave dwelling, follow Luo Sa's arrangements!"

"Yes, Supreme," Moyu Qingyan said respectfully.

"Kid, you need to call the master just like me," Morosa said.

"Yes, Master," Moyu Qingyan obediently replied.

"Luo Sa, help me teach him well," Luo Feng waved his hand dismissively. He wouldn't give any advice or resources, but he didn't forbid Morosa from giving some guidance.

"Kid, come with me!" Morosa stretched out his hand and grabbed Moyu Qingyan by the neck, happily walking out. From now on, he could order Moyay Qingyan to serve him and the master.

Luo Feng watched the scene with a smile.

The biggest flaw in the Bloodline Cultivation System was its shaky foundation! It relied solely on the power of the bloodline to progress until eventually hitting an insurmountable bottleneck.

Both the Duan Dong River lineage and God King Jin's lineage noted in their heritage that the top families in the Land of Origin insisted that their members 'at least master the Ten Fundamental Laws.' Understanding these basic laws made it much easier to comprehend the Bloodline Cultivation Method. The path of bloodline cultivation would then be much more promising.

"As my disciple, even if you can't follow the Law Lineage, at the very

least, your journey in bloodline cultivation should take you far," Luo Feng thought. "In the Land of Origin, the environment for perceiving the laws is much better than in the Primordial Cosmos! And Morosa might give some tips occasionally!

If he can't master the Ten Fundamental Laws even under these conditions, then he truly is worthless and doesn't deserve to be my disciple!"

...

Moyu Hu and the two children returned to their dwelling.

"The path you choose is your own; just don't regret it," Moyu Hu spoke only after arriving home.

"Father, I am not afraid of death, but I fear having no chance to rise," the eldest, Moyu LieFeng, said solemnly. "I am already at the Ninth Realm of True God. With more effort, I might reach the state of the true god of void space. And concerning the so-called Ten Fundamental Laws, I've tried to comprehend them before, and fear that I may not grasp them in my lifetime."

The third child, Moyu Liuxing, smiled, "Father, I willingly chose my own path."

"Good, no complaints then," Moyu Hu nodded and didn't say much; their paths were theirs to forge!

And he also felt that the path of his second son, Moyu Qingyan, would not be an easy one.

******

Night fell.

Inside the large cave mansion of the Diaorong Clan.

"Qi went to the Moli Clan again; she's quite close to Moli Feiyun," The old man with the fuzzy tail thought, "She spends more time with Moli Feiyun than with me, her father."

He was actually quite pleased; after all, the Moli Clan was one of the Five Great Families!

Suddenly—

A blood-red aura instantly burst into the large cave dwelling. The formations that were constantly operating within the mansion were torn apart in the blink of an eye.

"Who is it!" The old man 'Diaorong Yan' with red eyebrows changed his complexion drastically, and a terrifying fluctuation burst out from the center of his being, the dazzling red light spreading directly towards that blood-red aura.

"The cosmos is formed in a thought; my dwelling is enveloped and completely isolated from the outside world," Diaorong Yan knew something was wrong and immediately manifested his massive True Body—a creature with fuzzy tail and erect red fur.

"What's happening?"

"What's going on?" The members of the Diaorong Clan inside the mansion, seeing Diaorong Yan's towering True Body, were somewhat panicked.

"I didn't expect you, a mere alchemist, to have some tricks up your sleeve," a cold voice resonated within Diaorong Yan's consciousness. "Unfortunately, before me, they are worth nothing."

Boom, boom, boom~~~

Diaorong Yan said urgently, "Please, stop, we can talk this over."

A gigantic blood-colored hand appeared out of nowhere, and in the moment it appeared, it grasped Diaorong Yan's True Body, causing it to disintegrate immediately. What followed was an endless sweep of Blood Light across the entire mansion, eradicating all creatures within it, whether they were from the Diaorong Clan or were servants and guards.

...

At the city owner's mansion in Huyang City, inside a hall.

"The cave dwelling of the Diaorong Clan has suddenly been enveloped by a small Cosmic Domain, and a massive burst of Divine Power has been detected in that area," a group of officials responsible for monitoring the entire city noticed the disturbance at the location of the Diaorong Clan's dwelling.

"Quickly report to the City Lord."

...

Inside the cave mansion of the Moli Clan.

Diaorong Qi and Moli Feiyun, the two women, were sipping wine and chatting leisurely.

"I like my senior brother, but he doesn't care about me…" Moli Feiyun was slightly tipsy from drinking.

"I want to become a disciple, to take Commander Moli Xiao as my master, but Commander Moli Xiao doesn't think much of me. I want to take Lord Luo He as my master, but Lord Luo He looks down on me as well…" Diaorong Qi said in annoyance as she drank her wine.

Suddenly—

Diaorong Qi received a message on her transmission token.

"Qi, my killer is the Blood Python Association Leader 'Mu Yang.' You must remember this…" a message of final words came through.

A small cosmic domain isolated the inside from the outside; normal transmission tokens couldn't send information through. However, Diaorong Yan used an expensive Karmic Messenger Order, managing to send out a message before death.

"Father!" Diaorong Qi jerked awake, completely sobered.

"What's wrong?" Moli Feiyun asked in a daze.

Chapter 24: Chapter 23 Diaorong Qi's Choice

Diaorong Qi sat there in a daze, tears streaming down her face.

"Little Qi, what's wrong?" Moli Feiyun asked her crying friend, instantly sobered, and quickly inquired, "What happened?"

"My father is dead," Diaorong Qi said blankly.

While her father was alive, she was the privileged daughter of a large clan, mingling only with the descendants of great families in Huyang City. She even looked down on becoming a disciple of ordinary eternal true gods, wanting to be apprenticed to the openly strongest 'Commander Moli Xiao' in Huyang City, or at the very least to 'Lord Luo He', who could suppress the dark forces.

Choosing her alchemy-proficient father, an ordinary eternal true god, was not exactly what Diaorong Qi had been willing to settle for.

But now that her father was gone, and had left her a way out in his final message, she found it somewhat unbearable.

"Father!" Diaorong Qi knew well that her father was the one who loved her the most in this world, willing to give everything for her, a dear relative.

"Uncle Yan is dead?" Moli Feiyun couldn't believe it, "How is that possible? Uncle Yan was an eternal true god, who killed him?"

"He was indeed killed."

A sigh rose. It was 'Moli Meng', the one currently in power of the Moli Clan. As for Moli Xiao, he had no energy to manage family trivialities.

"Father," Moli Feiyun looked at her own father.

"Just now, every creature in the main branch's cave mansion of the Diaorong Family was killed, without a single survivor," Moli Meng said, "Now, only some of the branches of the Diaorong Family remain."

The size of a cave mansion was limited, and some large clans had to be dispersed, especially the peripheral branches, which could only live in ordinary cave mansions. Ironically, the core of the Diaorong Family was the one eradicated this time.

"Father, who is the murderer?" Moli Feiyun asked.

Diaorong Qi also looked toward Moli Meng.

Moli Meng said, "Before Diaorong Yan died, he contacted many of his friends through the Karmic Messenger Order, indicating that the murderer was Association Leader Mu Yang of the Blood Python."

"My father also sent a transmission saying that the murderer was the leader of the Blood Python," Diaorong Qi said hoarsely, "The entire cave mansion, including my father and tens of thousands of creatures, from eternal true gods to the young children of our clan, not a single one was spared. With the definitive evidence of my father's own transmission, the city owner's mansion should act, right?"

Moli Meng shook his head, "The leader of the Blood Python is not an ordinary eternal true god. He controls a force of his own, and killing him is not easy; it requires discussion among the Five Great Families to decide. Plus, your father's pre-death transmission does not count as definitive evidence. The murderer could have completely impersonated the leader of the Blood Python."

"Impersonation?" Diaorong Qi was anxious, "Can't we trust my father's last transmission?"

"Some secret techniques of impersonation are hard even for eternal true gods to see through," Moli Meng said, "In any case, to conclusively determine the identity of the murderer and to get the

city owner's mansion to act... is very difficult."

Diaorong Qi fell silent.

"After your father's death, it will be difficult for you, a true god of void space, to control his many properties, the numerous alchemy cave mansions, shops, and so on," Moli Meng said shaking his head, "The Moli Clan can help take them over."

"Father!" Moli Feiyun began anxiously.

"Rest assured, I would not stoop to take such a small advantage. These assets are valued at 20,000 cosmic sand, and will be deposited in your name in the Flame Wind Pavilion," Moli Meng said, "It's not suitable for you to carry so much cosmic sand on you."

"Thank you, Uncle Meng," Diaorong Qi gratefully said, knowing full well the price was definitely not low.

"Within Huyang City, those confident in killing the leader of the Blood Python can be counted on one hand," Moli Meng said, "So to kill him, you need to have enough patience to wait for the right opportunity."

Diaorong Qi asked, "Can Commander Moli act? I can give up the 20,000 cosmic sand."

"It's not as simple as you think," Moli Meng replied as he turned to leave.

"Little Qi, you can stay with me, no one will threaten you," Moli Feiyun said.

"Feiyun, I just want to be alone for a while," Diaorong Qi said softly.

"Alright, I won't disturb you," Moli Feiyun said as she got up to leave.

Diaorong Qi sat there alone, staring blankly at the night sky, at the countless twinkling stars. Just now, the star belonging to her father must have entirely dimmed as well.

"Father..." At that moment, Diaorong Qi missed her father immensely,

and then her eyes turned wild.

Through the transmission token, Diaorong Qi made contact with the Flame Wind Association's Dark Hall from afar.

"Diaorong Qi, after your father Diaorong Yan died, he left you 30,000 cosmic sand in the Dark Hall. And Moli Meng has also deposited 20,000 cosmic sand for you, so now you have 50,000 cosmic sand in your name," the Dark Hall responded to her.

"I want to offer a bounty of 40,000 cosmic sand for the head of Association Leader Mu Yang of the Blood Python," Diaorong Qi transmitted back, believing in her father's judgment of the murderer's identity as he lay dying.

"Understood, the bounty for the leader of the Blood Python has now been raised to 160,000 cosmic sand! You still have 10,000 cosmic sand in your name," the Dark Hall responded.

After upping the bounty, Diaorong Qi could only wait in silence, hoping a powerful individual would take the offer and kill the leader of the Blood Python!

...

At the headquarters of the Blood Python Association.

"Moli Meng, why have you come?" the leader of the Blood Python said with a smile as he looked at Moli Meng.

Moli Meng's face was grim: "Have you lost your mind? Diaorong Yan focused on alchemy, contributing to the entirety of Huyang City and not meddling in your dark force struggles. Why did you attack him? Acting so recklessly will only cause panic among many families in Huyang City! If the Five Great Families deem you a threat to the stability of the entire city, you are finished!"

"It wasn't me who killed him. The murderer impersonated me!" the leader of the Blood Python said urgently, "The leader of the Shi Kingdom's Forces, 'Xue Yun', is very good at impersonating, and I suspect it was him pretending to be me."

"Before his death, Diaorong Yan was certain the murderer was you," Moli Meng sneered, "To leave such clear evidence of your identity in such a criminal act shows just how incapable you really are."

"It really wasn't me," the leader of the Blood Python said.

"Inside Huyang City, everyone must abide by the rules!" Moli Meng gave him a look then turned to leave, "If you don't follow the rules, the consequences might be more than you can handle."

With that, Moli Meng had already disappeared.

Association Leader Mu Yang of the Blood Python watched Moli Meng leave, his expression eventually settling into calm.

"What does it matter if I don't play by the rules? Hmph, in this world, strength is ultimately what is respected most," Blood Python Leader Mu Yang sneered. "If I kill one, what can the many families within Huyang City do? If they dare to move against me, they'd better be prepared to die!"

"It's just a pity that Diaorong Yan was such trash. Killing him and even plundering his entire cave mansion, I only managed to get a total of 220,000 Cosmic Sand," Blood Python Leader shook his head. "An eternal true god ranked in the top three in Huyang City for alchemy, I estimated him to be quite the fat sheep. Unfortunately, it amounted to so little."

"If all else fails, I'll have to use my armor treasure as collateral," Blood Python Leader thought inwardly. "I must buy the lower part of the 'Primordial Iron Blood Sand Technique' as soon as possible. Otherwise, if I delay too long, I will be completely entangled by Shi Kingdom's Forces and won't be able to save my own life."

He was well aware of how dangerous the conflict between the Five Great Families and Shi Kingdom's Forces was. He had been involved because of inheritance and only thought of gaining the inheritance quickly and then fleeing far away.

The longer the delay, the more dangerous it became!

"I must gather one million Cosmic Sand as soon as possible!" the eyes

of Blood Python Leader were ice-cold.

******

Time passed slowly in the Land of Origin. The night came, and the day followed.

Various major powers within Huyang City all knew about 'Diaorong Yan's death' and had also heard that the murderer might be Blood Python Leader Mu Yang. The bounty on Mu Yang at the Flame Wind Pavilion's Dark Hall had reached 160,000 Cosmic Sand!

"Some of my father's friends would want to offer a reward, but now that my father is dead, none of them would help," Diaorong Qi, within the Moli Family, had been checking the bounty. The bounty hadn't changed, and nobody completed the mission.

"Fourth in the bounty list is a dark force leader known as 'Chun Yuyi', with a bounty of 180,000 Cosmic Sand. For eons, he has lived well. Now Blood Python Leader's bounty is 160,000 Cosmic Sand, ranking fifth. Who would kill him?" Diaorong Qi repeatedly looked at the bounty missions, hoping for some changes in the list.

But the previous long night had brought no such changes.

Diaorong Qi only felt powerless; after her father's death, there was nothing much she could do.

"Miss, Supreme Lord Luo He has arrived at the Fire Realm Restaurant," Suo Yun, who had been waiting at the Fire Realm Restaurant, transmitted.

"Luo He?" Diaorong Qi's heart stirred. "As soon as Supreme Lord Luo He arrived in Huyang, he didn't take the Blood Python Association seriously; he definitely wouldn't be afraid of Blood Python Leader."

Blood Python Leader's notorious reputation made many forces wary. But clearly, Lord Luo He didn't care about that, which was also why Diaorong Qi had immediately wanted to seek him as a mentor.

Sigh.

Diaorong Qi immediately got up.

"Little Qi," Moli Feiyun had always been worried about her good friend.

"I must go out immediately," Diaorong Qi said.

"It's not safe for you to go out now," Moli Feiyun said worriedly.

"It's daytime now, with true gods everywhere. It's quite safe. Besides, I must go out!" Diaorong Qi insisted.

After thinking for a moment, Moli Feiyun said, "I will arrange a guard unit to escort you, and you will take our Moli Family's Flying Boat."

"Thanks," Diaorong Qi expressed her gratitude and immediately rushed outside without further ado.

...

Fire Realm Restaurant.

"Supreme, my young mistress has ordered that all of your expenses at the Fire Realm Restaurant will be borne by her," Suo Yun said with utmost respect.

Luo Feng arrived accompanied by Morosa and Moyu Qingyan.

"Have you been here guarding since I left the Fire Realm Restaurant last time?" Luo Feng looked at Suo Yun.

"Yes, it was the young mistress's order," the guard Suo Yun replied.

"Thank her for me," Luo Feng said as he headed inside. The owner of Fire Realm Restaurant, 'Black Butcher', also came forward enthusiastically to welcome them.

Inside the small building.

Luo Feng and Morosa enjoyed food and wine together, while the servant 'Moyu Qingyan' could only wait outside the building, guarding it diligently.

"That young miss from the Diaorong Family seems quite eager to find a master," Morosa commented.

"Her father died last night," Luo Feng replied.

"Died?" Morosa was surprised.

"I heard it from a friend," Luo Feng explained, as he had received visits from many powers and made some friends. Several eternal true gods, including Shang Tianyan, had informed him of this news.

Luo Feng suddenly mentioned, "Among Shi Kingdom's covert forces within Huyang City, their leader is called Xue Yun, with a bounty of one million Cosmic Sand."

"Let's take him down!" Morosa's eyes lit up.

"But we can't find him," Luo Feng thought. "Do you have any way to find him?" With Morosa's innate mastery of the Great Dao of Destruction Origin, even without relying on the "Secret Technique of Willpower" such as the Lie Yuan Technique, Luo Feng didn't think he could necessarily defeat Morosa.

If he couldn't find Xue Yun, perhaps Morosa might have a chance.

"I've never met him," Morosa frowned. "If I had seen him once, I might have some methods to locate him."

"What a pity," Luo Feng shook his head.

If they could kill Xue Yun and take the spoils and the hefty bounty, just one would be worth a band of dark force leaders. It would probably be enough for his three attempts at body refinement.

Too bad they couldn't find him!

"Master," a voice came from outside, it was Moyu Qingyan's, "Diaorong Qi is here to visit."

"She's here?" Luo Feng looked at the spread before him at Fire Realm Feast, "Let her in."

Outside, Moyu Qingyan who had been guarding seriously, stepped aside and said, "The master has allowed you to enter."

Chapter 25: Chapter 24: Accepting the Assassination Mission

Diaorong Qi glanced at the young True God, then entered the small building alone.

Within the small building, Diaorong Qi immediately saw Luo Feng and Morosa, both sitting there, enjoying the fine food and drinking wine.

"Diaorong Qi pays her respects to the Supreme," Diaorong Qi said reverently as she knelt and pressed her forehead to the ground.

"Speak your business," Luo Feng said leisurely as he poured himself some wine.

"My father was murdered, and all the creatures in the cave mansion, including the children, were slaughtered," Diaorong Qi said while prostrate, "I only wish to avenge my father and all the creatures of the entire cave mansion that died."

"I asked the city owner's mansion to kill the murderer, but they were unmoved."

"I increased the bounty at the Flame Wind Pavilion's Dark Hall, hoping someone would be willing to take action. But I waited all night and still no powerful being stepped forward."

"I know the Supreme is not afraid of the Blood Python Association, so I have come to beg the Supreme, hoping the Supreme would accept the bounty and kill the Blood Python Leader," Diaorong Qi pleaded hoarsely.

Luo Feng and Morosa both looked at her.

"What do you offer me in your plea?" Luo Feng said, "That banquet you've arranged for this occasion?"

"I have nothing left to offer; nearly all my wealth has been put into the bounty of the Flame Wind Association's Dark Hall. Now only ten thousand Cosmic Sand remain. I am also willing to offer these ten thousand Cosmic Sand to the Supreme," Diaorong Qi whispered as she knelt.

"I know that this bit of Cosmic Sand is far too little to ask the Supreme to take action. But I have nothing left, only my life remains."

"I am willing to sell myself into servitude for the Supreme, to serve for a lifetime. I have no other wishes than to seek vengeance," Diaorong Qi said with tears in her eyes, her fluffy tail also drooping to the side.

Luo Feng looked at her: "Sell yourself into servitude? Your father obviously had plans for you, and today you also came aboard the Moli Clan's Flying Boat; you could easily live a carefree life. Now you want to give up everything, sell yourself into servitude, all for the sake of revenge?"

"Yes," Diaorong Qi prostrated without any hesitation.

"Even if I killed the Blood Python Leader, your father cannot be brought back to life. To give up a carefree life for a dead father?" Luo Feng looked at her, recalling the last time he saw the young Miss of the Diaorong Family, feeling her pride, but now she was completely different.

"That was my father! He loved me the most in this world, always protecting and cherishing me. His final transmission before his death was all about considering my welfare, arranging a way out for me. Yet... the father who loved me most, is gone! The clan members I've grown up with since my birth are gone!" Diaorong Qi said as she knelt.

"For the sake of vengeance, I can do anything! At no expense! Even if it meant perishing both in body and soul, I would be content!" Diaorong Qi looked towards Luo Feng.

"Your father made arrangements for you in his final transmissions? He likely hoped you'd live well," Luo Feng said, "You need not sell yourself into servitude. Keep the ten thousand Cosmic Sand you have left and use it for your own cultivation, and live well, just as your father hoped for you. As for your request for me to take action, I was indeed planning to accept a bounty mission."

"Let the Blood Python Leader be my first bounty target," Luo Feng said.

Diaorong Qi stared at Luo Feng, stunned.

He would help without needing Cosmic Sand or her servitude?

"I am willing to serve the Supreme," Diaorong Qi expressed her immense gratitude.

"There's no need," Luo Feng said lightly, shaking his head, "You go back to the Moli Clan first, and remember, keep this matter a secret."

Diaorong Qi nodded repeatedly.

Of course, she understood the importance of secrecy.

"You will receive a message before nightfall," Luo Feng said as he waved his hand lightly, "You may go."

"Thank you, Supreme," Diaorong Qi bowed deeply before getting up and departing.

As Diaorong Qi left the small building, her emotions surged. She saw Moyu Qingyan waiting at the door and felt an inexplicable twinge of envy. She offered to serve as a servant, yet the Supreme did not accept.

"Miss," Suo Yun hurriedly approached to greet her.

"Suo Yun, my father is dead; the Diaorong Clan is finished," Diaorong

Qi said, "You no longer need to act as my protector." As she spoke, she patted Suo Yun on the shoulder, and a Jade Vial appeared inside Suo Yun's robe.

Stunned, Suo Yun could hardly believe it.

Diaorong Qi quickly boarded the Moli Clan's Flying Boat and left.

"The Diaorong Clan is finished?" Suo Yun, who had been guarding the modest Fire Realm Restaurant, was not very well-informed and did not know about the events of the previous night. Sensing the small Jade Vial with Divine Power, he couldn't help feeling delighted, "A full five hundred Primal Chaos Crystals! The Miss is truly generous."

Even with his talents, serving as a protector for the Diaorong Family for one era earned him only 10 Primal Chaos Crystals. The Miss was letting him go and gave him five hundred Primal Chaos Crystals, which was truly a fortune for a True God.

He understood that such a large number of Primal Chaos Crystals was given to him because of the merit points he had accrued.

"With these, I can purchase resources to refine the bloodline of my godly body and, added to my previous Inheritance Law, with my talents, I fully aim to become a true god of void space," Suo Yun mused internally with eagerness welling up, and turned to leave.

...

At that moment, the Fire Realm Restaurant's owner 'Black Butcher' also noticed Suo Yun's departure.

"This protector, Suo Yun, has been staying at my Fire Realm Restaurant all this time, and he's finally leaving?" the Black Butcher thought, "The Diaorong Family's young Miss who just left was also odd; normally she comes with her own entourage of protectors. Why did she take the Moli Clan's Flying Boat this time?"

The Black Butcher subtly felt something was amiss. Having struggled to reach the Void True God Realm after arriving in the Land of Origin from reincarnation cycles, he wasn't as well-informed and didn't know of the annihilation of the Diaorong Family.

"Black Butcher!" A commanding voice resounded as the red-haired man Duan Moyun, accompanied by several subordinates, arrived at the Fire Realm Restaurant.

"Palace Master Duan." The portly Black Butcher greeted him enthusiastically. As the Black Butcher, a member of the Law Lineage who had cultivated in the Land of Origin for countless years, he was definitely among the top tier in the Void True God Realm, more than capable of suppressing Duan Moyun.

However, he didn't dare to show the slightest disrespect at the moment, for the other was one of the Palace Masters of the Blood Python Association.

"It's truly rare for Palace Master Duan to visit my humble restaurant," the Black Butcher said warmly.

"Black Butcher," Duan Moyun spoke, "I'm here to deliver an order."

The Black Butcher asked, puzzled, "What order?"

"Our leader has commanded that all merchants within the territory of the Blood Python Association must pay a one-time tribute fee for One Hundred Eras," Duan Moyun said.

"A tribute fee for One Hundred Eras?" The Black Butcher was shocked and asked urgently, "Hasn't it always been just one Era's fee at a time? I've never shortchanged the Blood Python Association in my tributes."

"The rules have changed, pay a one-time fee for One Hundred Eras. After this payment, the next will be after another One Hundred Eras," Duan Moyun said with a smile, "My Blood Python Association won't overcharge you."

The Black Butcher said anxiously, "But where would I get so much?"

"All merchants within our Blood Python Association's territory are the same," Duan Moyun said. "You have three days to make the payment, if you don't pay, hmm hmm... You should know the consequences of defying the Blood Python Association."

The Black Butcher's expression turned ugly.

"The message has been delivered, you better hurry and prepare," Duan Moyun said as he turned and walked away with his subordinates.

"Master, how can we gather such a huge tribute fee in three days?" a disciple also said worriedly.

The Black Butcher shook his head slightly: "Those merchants with stronger backing can ignore the Blood Python Association, but we don't have that luxury! To dare not pay at a time like this, one might lose their life without a sound."

Since the Blood Python Association had decided to collect a one-time tribute fee for One Hundred Eras, they'd surely make an example out of someone! Those who dared not pay would be killed!

The Black Butcher had lived in Huyang City till this day, and he knew very well what should and shouldn't be done.

Though he understood, he still felt aggrieved: "Sigh, it's so hard to run a small restaurant here in Huyang City."

"The Blood Python Association is collecting a tribute fee for One Hundred Eras?" a voice sounded.

The Black Butcher turned his head and saw Luo Feng and Morosa walking up to him.

"Supreme heard?" the Black Butcher said helplessly, "It's the order of the Blood Python Association, and a small restaurant like ours has no room to resist."

"Indeed, the Blood Python Association is a bit mad," Luo Feng nodded. "Luckily, I've had dealings with them."

The Black Butcher muttered to himself.

Had dealings?

Who in Huyang City didn't know that the River God crushed the

Blood Python Association, making them obediently pay a penalty of twenty-thousand Cosmic Sand!

"I'll speak to them when the time comes, and you should be able to avoid paying that tribute fee," Luo Feng said.

"That would really trouble you, my lord," the Black Butcher said repeatedly. In Huyang City, some merchants with strong backing wouldn't need to pay tribute fees. It was only the weaker merchants like them who couldn't resist. If the River God spoke up, life for the small restaurant would undoubtedly improve significantly.

"My word should carry some weight," Luo Feng said before departing with Morosa and Moyu Qingyan.

The Black Butcher watched Luo Feng leave, overflowing with joy: "The Blood Python Association won't start a fight with Supreme Lord Luo He just for a small restaurant like mine. Ah, Supreme likes my little restaurant, life's going to get better from now on."

Having a patron like that could save one from a lot of exploitation.

...

"Master, are we going to the Blood Python Association now?" asked Morosa, looking down at the bustling cityscape of Huyang City, his eyes burning with eagerness, while the bewildered Moyu Qingyan stood beside him.

Visit the Blood Python Association? Was it necessary to be so urgent for the sake of the Fire Realm Restaurant? At this moment, Moyu Qingyan was still unaware of Luo Feng's intention to confront the Association Leader of the Blood Python.

"We're going now," Luo Feng nodded. "Let's go."

Whoosh!

Luo Feng, leading his two servants, turned into a blur of flowing light, heading directly for the Blood Python Association Headquarters.

Soon, the vast, imposing expanse of the Blood Python Association Headquarters came into view, teeming with Blood Python Association Members scattered everywhere while the Formation operated, its power terrifyingly formidable.

"You two stay outside and watch," Luo Feng instructed, glancing at Morosa.

"Yes, Master," Morosa replied, while simultaneously grabbing hold of Moyu Qingyan, who was somewhat confused. Shouldn't the servants accompany their master during his visit to the Blood Python Association?

Morosa transmitted a message through mental connection: "Master, rest assured, even if that cunning Blood Python Leader manages to escape, I'll be able to intercept him."

"Just watch, I'll handle him!" Luo Feng sent a message back telepathically and flew towards the grand entrance of the Blood Python Association Headquarters.

"Leave the body of the Blood Python Leader to me, will you?" Morosa sent a telepathic message, drooling with anticipation. The body of the famous Blood Python Leader would surely be far superior to that of Hei Duomo.

Luo Feng had already flown close to the main entrance of the Blood Python Association Headquarters. He also utilized the Flame Wind Pavilion's Dark Hall's Transmission Token to instantly accept the mission "Assassinate Association Leader Mu Yang of the Blood Python."

Chapter 26: Chapter 25: Overwhelming Force

It was now daytime, and outside the headquarters of the Blood Python Association there was a bustling crowd, with many True Gods some soaring across the sky on flying Secret Treasures, others walking on the streets. Yet, they all consciously kept their distance from the headquarters of the Blood Python Association.

"That is the headquarters of the Blood Python Association!"

"Dark Forces' Blood Python Association!"

Many True Gods passing by gazed in awe at the grand and vast headquarters of the Blood Python Association.

Suddenly, they noticed an incredibly dense darkness had completely enveloped the entire Blood Python Association headquarters. This scene left the Cultivators of the Myriad Clans who were passing by in shock.

After all, it was daytime, and many tribal true gods had entered the city, and they all clearly witnessed this scene.

"What's happening? The darkness has covered the entire Blood Python Association headquarters! You can't see inside, nor hear any sound."

"This is a Cosmic Domain! The headquarters of the Blood Python Association must have encountered a formidable enemy!"

"This is big trouble!"

The Myriad Clans' Cultivators were bustling about, all immediately stepping back to keep a distance, watching from afar. Among these

cultivators were Morosa and Moyu Qingyan.

"Lord Luo Sa, the master he?" Moyu Qingyan was not foolish, naturally realizing something was amiss.

"Just watch." Morosa said with a smile, watching intently.

...

Luo Feng accepted the bounty task, known only to the Flame Wind Pavilion, which also would not disclose the matter.

Accepting tasks had no restrictions; even several powerful beings could accept the same task separately, and whoever completed the task would receive the bounty!

"Master, Luo He has accepted the task of assassinating the Association Leader Mu Yang of the Blood Python," the shadowy figure immediately informed the Master of the Pavilion.

"Luo He and the Association Leader Mu Yang of the Blood Python?" The Master of the Flame Wind Pavilion gently tapped, and the scene of the Blood Python Association headquarters appeared in front of him, now completely engulfed by darkness, utterly indistinct, "This Luo He is direct! He's gone straight in!"

...

"The headquarters of the Blood Python Association, suddenly enveloped by a Cosmic Domain! And there's a burst of strong fluctuations!" Several officials responsible for monitoring the entire city at the city owner's mansion were immediately shocked.

"Quickly report to the City Lord."

They knew the urgency of the situation, clearly someone powerful had directly attacked the Blood Python Association headquarters!

******

Luo Feng was well aware, though he had accepted the task, the Flame Wind Pavilion would not disclose it. But Luo Feng always

believed in one thing, the more people who knew the secret, the easier it was to expose. Even with the Flame Wind Pavilion, Luo Feng would not fully trust them.

While deploying the Cosmic Domain to instantly envelop the Blood Python Association headquarters, Luo Feng had already made his move.

"Hmph." Luo Feng's right hand turned into a claw, stretching forward, his arm swelling, and his five fingers lengthening and enlarging rapidly. The five fingers, like five heavenly pillars causing space and time to warp, forcefully grasped onto the formation of the Blood Python Association headquarters.

As a force of the Dark Forces, the Blood Python Association headquarters often clashed with other forces, so naturally, its formation was powerful, having also cost a considerable amount.

But as Luo Feng's five fingers, like heavenly pillars, came crashing down, "Boom, boom, boom～～～" continuous explosions ensued, several formation bases of the headquarters burst directly, and the operating formation was completely ripped apart!

"Not good."

"A powerful enemy is here."

Many members inside the Blood Python Association headquarters looked up to see the formation ripping apart and were instantly panicked, having no thought of resisting. After all, seeing a Cosmic Domain enveloping them and even the formation broken, they knew the attacker was among the most powerful of the eternal true gods.

These common members could manage collecting levies, but facing a terrifying force, they would crumble to dust upon contact. They all hurriedly hid, seeking refuge in secluded parts of the buildings, only hoping not to be involved.

"Has someone already made their move so quickly?" In the closed hall, the Blood Python Association Leader Mu Yang looked up, his gaze piercing through layers of barriers to see the palm tearing the

formation, "Who in Huyang City dares to strike at me?"

"Not good!" In another location, Vice President Lai Mo, Vice-chairman Mu Lin felt the terrifying disturbance of the entire formation being shattered, both their faces turned pale.

"To instantly crush the formation, this strength must be no weaker than the Leader's. Far surpassing both of us." Vice President Lai Mo, Vice-chairman Mu Lin both trembled with fear, they were much weaker than the leader.

"Hahaha... You Blood Python Association have committed all evils, now retribution has come!" A horribly tortured true god of void space burst out with a mad laugh, "The vengeance for my Qimo Tribe's three thousand seven hundred kinsmen, shall be avenged today!"

This true god of void space was one of the preys of the Blood Python Association.

At this time, Vice President Lai Mo and Vice-chairman Mu Lin could no longer afford to investigate the Qimo Tribe's hidden treasures, Vice President Lai Mo merely glanced at him, and the horribly tortured true god of void space was eradicated.

"Let's go."

"Go and meet with the President!" Two Vice Presidents acted decisively, instantly dashing out of the building.

As they burst out of the building, they realized that the outside was completely engulfed in darkness. Within the twisted darkness, a terrifying presence loomed over them, and a vague figure was already approaching.

"Luo He!!!" Upon seeing the blurry figure, Vice President Lai Mo's bloodshot eyes bulged out. Initially stricken by Luo Feng with a move that took the True God's Heart, Vice President Lai Mo's fear of Luo Feng was deep-seated.

"Luo He?" Vice-chairman Mu Lin's face also changed.

The two of them encountered Luo Feng but reacted in utterly

different ways.

Vice President Lai Mo immediately ignited his Divine Power, retreating frantically, only thinking about getting as far away as possible.

Meanwhile, the exceptionally thin Vice-chairman Mu Lin, showed a crazed expression. In an instant, his body explosively disintegrated, transforming into countless Poisonous Insects. These densely packed insects, most of which attacked Luo Feng, while a few scattered in all directions.

Luo Feng instantly discerned these densely packed Poisonous Insects, each encased in a silver-grey shell, remarkably tough.

"The body of Poisonous Insects." Luo Feng had thoroughly understood from the information obtained from Shang Tianyan, knowing that this Vice-chairman Mu Lin's entire strength lay in his godly body, cultivated into the quite troublesome body of Poisonous Insects.

With the ability to split into a million Poisonous Insects, tough and with exceedingly sharp mouthparts, even Weapon Secret Treasures could be slowly gnawed away given enough time.

Moreover, the intense poison contained could penetrate the soul. In terms of threat, Vice-chairman Mu Lin was even more difficult to deal with than Vice President Lai Mo.

"With my countless treasure insects, as long as I can delay for a while, I can completely shake him off!" Each Poisonous Insect contained the will of Vice-chairman Mu Lin.

"Hmph."

Luo Feng didn't stop his steps, accompanied by a cold snort. A grey, vigorous force erupted on the surface of his godly body. This force, centered on Luo Feng, impacted the surrounding area naturally including all the attacking Poisonous Insects.

These incredibly tough insects, touching the grey vigor, were instantly shattered.

The grey vigor also split into tens of thousands of strands, pursuing the fleeing insects. All the escaping insects were nowhere near fast enough to outrun this grey vigor and were all overtaken and annihilated.

"Pfft." Some of the grey vigor even chased up to the frantically fleeing Vice President Lai Mo. Although Lai Mo's power was not dispersed, he burned his godly body and wielded a scepter, barely blocking those strands of grey vigor before fleeing even faster in terror: "Mu Lin's million Poisonous Insects were wiped out in a single encounter? This Luo He is too terrifying.

Only the President can stop him."

Luo Feng continued advancing, waving his hand to collect various items like bracelets and jade vials that dropped from the annihilation of the million Poisonous Insects.

The destruction of the million Poisonous Insects was thanks to the "Reincarnation Blade" from the "World Breaking Nine Blades" which Luo Feng had mastered and comprehended. Now, after a session of Body Refinement, the terrifying strength of his godly body emanating from the Reincarnation Blade's essence felt as if it was an entire realm of Reincarnation Blades!

"With just a small release of vigor from my godly body, I can easily devastate ordinary eternal true gods." Luo Feng was well aware of the formidable nature of his own godly body.

When he first arrived at the Land of Origin, his godly body was still growing, far from reaching the height of 100 million kilometers.

Now, having grown to its pinnacle, his True Body could maintain a height of 180 billion kilometers in the Land of Origin, with every movement not inferior to the eternally true gods at the Tenfold Realm of the Bloodline Path. And after another session of Body Refinement! The formidable nature of Luo Feng's divine body was beyond imagination.

The vigor burst of the godly body, supplemented with the Reincarnation Blade's essence forming the 'Reincarnation Blade

Realm', under such realm's influence, the likes of Hei Duomo and Vice President Lai Mo, if they resisted directly, would be twisted and shattered.

"Just being remotely affected by a small amount of that power is this terrifying?" Vice President Lai Mo, burning his Divine Power, rushed towards where the President was.

"President save me, President, save my life!" Vice President Lai Mo urgently transmitted his message.

"I'll handle him," spoke Association Leader Mu Yang from the Blood Python, already arriving in front of Vice President Lai Mo.

Vice President Lai Mo felt a momentary relief: "Even if the President is weaker than that Luo He, he can entangle him for a while, giving me enough time to get away." This small cosmic domain might trap ordinary members of the Blood Python Association, but not him - an eternal true god.

But suddenly, Association Leader Mu Yang's expression changed as he looked at him.

"How is this possible?" Vice President Lai Mo looked down at his chest, then turned around.

Luo Feng was standing right behind him, holding a glowing True God's Heart in his hand.

Only at that moment did Vice President Lai Mo's body crash down.

The face of Vice President Lai Mo appeared on the surface of the True God's Heart, still filled with disbelief and unwillingness: "How is this possible? The laws of space and time are sealed within Huyang City, except for the Huyang Legion and Huyang Guards, no other powerful beings can travel through the Void. How did he suddenly appear behind me?"

"You escape quite fast!" Luo Feng looked at the True God's Heart.

The face on the True God's Heart, belonging to Vice President Lai Mo, immediately pled for mercy: "Lord Luo He, facing you, I dare not

make a move. Please spare my life, I will give all my treasures to you, Divine Monarch."

"If I kill you, the treasures are mine anyway!" Luo Feng closed his hand, and with a squelch, he crushed the True God's Heart.

——

Thank you to the two Alliance Hierarchs who rewarded: 小就是坏 and 以力破法.

Chapter 27: Chapter 26 That's Interesting

Luo Feng took action within the Blood Python Association Headquarters, causing an uproar on the outside.

A patrolling Huyang Guard team was piloting the Mechanical Flow Treasure "Fire Yun Snake," a large sinuous fire-red serpent that had already reached close to the Blood Python Association Headquarters in the Void. The powerful sound carried far and wide, "All Cultivators must retreat from the 'Earth Net' area immediately!"

It was seen that the Power of Heaven and Earth coalesced into numerous ropes, forming the Earth Net Formation that surrounded the Blood Python Association Headquarters.

The location of the Blood Python Association Headquarters was not considered premium, far from being comparable to the Primal Chaos Armor Sector, hence the cave mansions here were quite cheap, and the whole headquarters was naturally very large, stretching ten billion kilometers in width and length.

The Earth Net Formation enveloped an area with a diameter of thirty billion kilometers!

"Retreat."

"Quickly move back," the Myriad Clans' Cultivators watching from a distance hurriedly retreated, staying beyond the range of the 'gigantic Earth Net.' Morosa and Moyu Qingyan likewise retreated with the crowd.

"This commotion from the master…" Moyu Qingyan was somewhat nervous.

Morosa closely observed, prepared for any contingencies.

At this moment, within the huge plant "Vine Jiao Legion" that floated above the East City Gate of Huyang City.

"Quick, quick, quick!"

"All Vine Jiao hatches close."

One of Huyang's Ten Great Legions, the "Vine Jiao Legion," mobilized urgently. The myriad of True Gods who were previously entering and exiting through the vines saw the hatches closing and had to jump down swiftly.

The entire Vine Jiao Legion became operational, with a peak eternal true god leading tens of millions of true gods of void space and tens of millions of Elite True Gods to pilot this colossal legion-class Mechanical Stream Secret Treasure, the power of which was naturally terrifying.

The numerous True Gods who could enter and exit freely were all off-duty gods!

Thousands of on-duty True Gods were not allowed to abandon their posts.

"Vine Jiao Legion, there is currently a skirmish happening at the Blood Python Association Headquarters within Huyang," said General Jiang Chengrong in the core cabin of the Vine Jiao Legion, listening to orders from Supreme Commander Moli Xiao. "I only have one demand, ensure that the scuffle within the Blood Python Association Headquarters does not impact the innocent outsiders!

Whoever affects the innocent will not be spared lightly! As for the life and death inside the Blood Python Association? No need to intervene."

"Rest assured, Commander Moli," Jiang Chengrong smiled. "Anyone who disrupts the order of Huyang will face the full force of the Vine Jiao Legion."

The apparition of Moli Xiao that appeared in front of them had four

purple curved horns like a crown and his face showed signs of age. Even as an apparition, he exuded a strong oppressive aura. He was one of the most powerful beings among the Five Great Families of the city owners mansion.

Jiang Chengrong, an eternal true god from the Jiu Jiang Marquis "Jiang Family," greatly admired and respected Moli Xiao, who he considered the most powerful eternal true god he had ever met!

"Rumble~~~"

The Vine Jiao Legion was on the move.

Huyang's Ten Great Legions and the Huyang Guards were not restricted by the main city formation, allowing them to travel directly through the Void. It was just a matter of decision-making at the top level, order transmission, and a bit of time for the legion to mobilize.

But the legions themselves could traverse the Void in the blink of an eye, and they had already arrived above the Blood Python Association Headquarters.

"What is that?"

Outside the Blood Python Association Headquarters, the Myriad Clans' Cultivators saw the massive plant that crossed the sky.

"It's the Vine Jiao Legion."

"The Vine Jiao Legion is one of the Ten Great Legions of Huyang, and the entire legion has mobilized?" The onlooking Myriad Clans' Cultivators were surprised.

"Ordinary conflicts within Huyang City that violate laws and the conflicts among Dark Forces are usually handled by the Huyang Guards. But this time, it's an entire legion that has taken action. It seems the fight inside the Blood Python Association Headquarters is too terrifying! The Huyang Guards can no longer suppress it."

"It's probably one of the most fearsome beings within Huyang fighting. We should retreat even further! Even the Huyang Legion might not be able to protect us."

Many onlooking Cultivators of the Myriad Clans piloted Flying Boats to retreat billions of kilometers farther. With the observation abilities of a True God, they could still vaguely see the Blood Python Association Headquarters from a distance.

Whoosh whoosh whoosh~~~~

The Vine Jiao Legion hovered above the Blood Python Association Headquarters as countless vines stretched out, completely enveloping and wrapping around the Association. However, these vines did not penetrate the small Cosmic Domain.

They obviously had no intention of getting involved in the internal strife.

"I wonder who is clashing with the Blood Python Association," General Jiang Chengrong from within the Vine Jiao Legion looked down below. "During the day, countless tribes come to Huyang for trading. After dark, all non-residents must leave."

"During the day, it's the busiest and most prosperous. The city owners mansion absolutely prohibits affecting the innocent," stated Jiang Chengrong, one of those resolutely guarding the order.

For instance, the residences of True Gods are absolutely safe, with massive formations enveloping the dwellings of countless True Gods, prohibiting Dark Forces from raiding them. This allows them to Cultivate in peace.

During the daytime, in bustling areas, anyone bold enough to initiate a killing would be seen and remembered by numerous True Gods. With irrefutable evidence! The city owners mansion is obligated to take action.

The Dark Forces also have to act in more hidden spots.

This is why the vast majority of residents dare not pay the 'Residence Fee' levied by the Dark Forces. The Dark Forces have limited members and cannot afford to break the rules, so how can they control the huge number of residents?

Only those with jobs within the city, or those who need to operate in

the city at night, comply with paying the fees demanded by the Dark Forces.

...

Luo Feng was well aware of some of the city owners mansion's rules and had no intention of crossing those lines.

After killing Vice President Lai Mo, Luo Feng waved his hand, collecting the corpse of Vice President Lai Mo along with his left-behind scepter, weapons, and other items.

Association Leader Mu Yang of the Blood Python watched calmly. Both of them guessed the actions of the city owners mansion, but neither cared.

"Impressive, impressive," Blood Python Association Leader Mu Yang praised. "Lord Luo He, your movement technique is so fast, nearly mirroring the traversing of the Void over short distances!"

"I had to. Vice President Lai Mo escaped too quickly!" Luo Feng replied.

The movement technique he had just used was one of the three great secrets of the Duan Dong River lineage, "Dong Hua"!

Vice President Lai Mo had been fleeing from the start, and Luo Feng was distracted dealing with those million poisonous insects; thus, he had to resort to the Godly King Level supreme technique "Dong Hua" to completely extinguish Vice President Lai Mo.

"Lord Luo He," the Blood Python Association Leader said amicably, "You've also killed the two vice presidents, and you've collected their treasures. Could Lord Luo He consider stopping here?"

"Stop?" Luo Feng was astonished.

"In this world, having one more friend is always better than having one more enemy," the Blood Python Association Leader said. "The death of the two vice presidents is not worth mentioning. I would rather make a friend of Lord Luo He. To show my sincerity, I am willing to give Brother Luo He fifty thousand Cosmic Sand. Could

Brother Luo He please honor this face?"

"Be my friend?" Luo Feng chuckled lightly, "Are you worthy?"

Association Leader Mu Yang's expression stiffened, and his eyes grew colder: "One last question, where did I offend Lord Luo He? Why must you take action against me?"

"You killed Diaorong Yan." Luo Feng said.

"Diaorong Yan is nothing remarkable among eternal true gods. How can he compare to you and me? Me killing him, it's just survival of the fittest," Association Leader Mu Yang said.

"Relying on alchemy skills to accumulate resources, upstanding and honorable, I quite admire that. And you, eternal true gods of the Dark Forces, are each of you scum!

Frantically hunting the weak for prey, preying on those True Gods and true gods of void space to plunder their wealth, you are truly the most despicable among eternal true gods," Luo Feng said, "Each and every one of you deserves to be killed!"

Indeed, he truly thought so in his heart.

Whether as a servant, a butcher, or a mining worker, all are upright and proper endeavors.

The city owner's mansion only collects the most basic residence fee from true gods, and offers free accommodation to those above true gods while maintaining the order of the city. But the Dark Forces relentlessly exploit without any bottom line, even crazily looking for 'fat sheep' to slaughter directly and plunder.

To massacre all beings, to nourish their own bodies.

Luo Feng naturally looked down upon these eternal true gods of the Dark Forces.

"I understand," Blood Python Association Leader Mu Yang nodded lightly, "However, I need Lord Luo He to understand that even if I am despicable and lowly, as long as I am powerful, I still stand high

above all."

"The survival of the fittest is the fundamental truth!" the Blood Python Association Leader, his face full of black scales, was ferocious and mad, "I want to see just how strong you, Luo He, are to dare come and kill me!"

He instantly revealed his true body, towering like a mountain, covered with dense patches of black scales. With a slight swing of his tail clad in scale armor, he twisted space-time, and numerous surrounding buildings were destroyed. Some Blood Python Association members hiding inside the buildings were caught in the chaos and turned to dust amidst their terror.

"No—"

"Leader!"

Many members of the Blood Python Association, seeing the giant black scale-armored tail revealed in the dark, could tell it was their own leader from the aura. They cried out in anguish, but at this moment, the Blood Python Association Leader simply did not care about them.

"Boom!" The Blood Python Association Leader burned his Divine Power, his eyes fixed on Luo Feng, and his godly body instantly emanated a fiery blood-colored aura.

"Die!"

A blood-colored afterimage streaked across an arc, cleaved through the darkness, and swooped towards the diminutive Luo Feng.

Luo Feng stood still, clearly seeing that the blood-colored afterimage was the massive scale-armored tail spreading a blood-colored atmosphere, which, like cleaving through a primal world, enveloped Luo Feng.

```

"Huh." A terrifying scale-armored tail struck where Luo Feng had been standing, making the ground suddenly sink, but Luo Feng
```

vanished into thin air.

Executing the movement technique "Dong Hua," Luo Feng instantly appeared at the chest of the towering Blood Python Association Leader Mu Yang. His arm swelled, and his palm, like a blade, stabbed towards the leader's chest.

This blade technique seemed ordinary, yet it contained the essence of the 'Worldbreaking Nine Sabers - Life and Death Saber,' which let Luo Feng, having undergone body refinement, focus all of his immense might into that palm strike.

"Pfft—" The palm strike caused the Blood Python Association Leader Mu Yang's face to drastically change as the scales on his chest caved in and cracked under the formidable power, sending him flying backward involuntarily.

"Armor Secret Treasure? Has the armor fused with the scale armor?" Luo Feng was well aware of the strength of his godly body, and the sensation from his palm strike convinced him that it was indeed an Armor Secret Treasure.

Huh!

Luo Feng instantly caught up with the flying Blood Python Association Leader, raising his arm and cleaving down. It was like he was wielding a great axe, carrying the same grand destructive essence, and he instantly struck the leader's shoulder.

This strike was the 'Worldbreaking Nine Sabers - Return to Ruins Saber' that Luo Feng had comprehended!

During a closure of more than a decade, Luo Feng had temporarily mastered three of the 'Worldbreaking Nine Sabers': the Life and Death Saber, the Reincarnation Blade, and the Return to Ruins Saber.

Among them, the 'Return to Ruins Saber,' with its destructive essence of returning everything to chaos, was quickly comprehended by Luo Feng because he had Morosa's 'Great Dao of Destruction Origin' as a reference.

This saber was the most ferocious and the most destructive among

the three.

"Crack~~~" The Blood Python Association Leader, being an eternal true god in the Tenfold Realm and protected by an Armor Secret Treasure as well as burning his Divine Power, still felt an overwhelming force cleaving his shoulder, causing the scales to cave in and split open.

"My Armor Secret Treasure has been split?" Association Leader Mu Yang felt his heart tremble, "This Luo He's palm strike is like a full-strength blow from one of Huyang's Ten Great Legions wielding a legion-class secret treasure. Even burning my Divine Power, I can't withstand it."

The burst of power from the peak of a Perfect Divine Body was first felt by the Blood Python Association Leader.

Too fierce!

The Blood Python Association Leader even suspected, "Is Luo He the legendary unlimited godly body?"

"Boom!" Following the splintering of the Armor Secret Treasure, Luo Feng immediately pounced again, clearly intending to rip the Blood Python Association Leader apart with his bare hands.

Suddenly—

Bang!!!

A massive blood-red hand appeared out of nowhere, fiercely striking Luo Feng as he lunged forward.

With the giant palm being so immense and Luo Feng so tiny in comparison, Luo Feng was sent flying backward with a whoosh, crashing into the buildings of the Blood Python Association Headquarters, breaking through many structures, and inciting wails from the hidden members within.

"Hahaha, hahaha..." The thrown Luo Feng stood up, his eyes filled with excitement as he looked ahead, "Interesting, now this is interesting."

That slap was truly painful! Making his entire Perfect Divine Body feel the hurt.

"I didn't expect you to have a single-entity Mechanical Flow Secret Treasure as well." Luo Feng felt his blood boiling; this battle, from this moment on, was truly thrilling.

"Those who have seen this Mechanical Flow Secret Treasure of mine are all dead," came the cold voice of the Blood Python Association Leader from amid the thick Blood Light.

```
```

Chapter 28: Chapter 27 Sha Wu Wings

"I gave you a chance, but you insisted on courting death!" The intense mass of blood light split into three beams in an instant, all of them pouncing towards Luo Feng.

"Hahaha, just with you?" Luo Feng laughed loudly, his body bursting with a murky vigor that filled the surroundings, naturally forming a domain, which was the Reincarnation Blade Realm.

With the Reincarnation Blade Realm protecting his body and employing the Donghua Body Method, Luo Feng was even faster than the three beams of blood light, meeting one of them head-on.

"Bang!" Luo Feng's expression changed slightly, for when his hand, shaped like a knife, struck the blood light, he felt its power being swallowed, and the blood light began to erode his palm.

Fortunately, he had undergone a round of Body Refinement, his body now like a Secret Treasure Weapon, greatly enhancing his resistance to erosion. Although it consumed a bit of his Divine Power, given the reserve of his Divine Power, such erosion was naturally insignificant.

"What a formidable godly body! However, no matter what Body Refining Secret Technique you use, it won't save you today!" Along with the frenzied voice of the Blood Python Association Leader, waves of blood light enveloped Luo Feng like an endless tide, Luo Feng resisted with all his might, but still couldn't prevent the blood light from engulfing him.

"Whoosh!"

In just a moment, the dense blood light completely bound Luo Feng. The blood light transformed into a giant blood-colored hand, which

firmly grasped Luo Feng's godly body, intending to crush him completely.

"Eternal Level Mechanical Treasure, indeed different. Even with my Perfect Divine Body, I can't block it without burning Divine Power." Luo Feng, grasped by the blood-colored hand, was not the least bit panicked, but instead felt a sense of emotion.

To him, this kind of battle was merely a trial.

Eternal True God Level Mechanical Treasure contained moves of the Primal Chaos Realm, overwhelmingly superior to Eternal True God Level. Additionally, the Mechanical Treasure could also convert energy; for instance, the Sha Wu Wings transformed the user's energy into an even more powerful force, stored within the Sha Wu Wings itself.

Like Luo Feng's Sha Wu Wings, like the Legion class treasures of Huyang's Ten Great Legions, they all contained moves of the Primal Chaos Realm level.

If both sides used Mechanical Treasures, it would depend on who the user was.

Someone like 'Moli Xiao,' who was originally strong and controlled a Legion Mechanical Treasure, would naturally be terrifyingly powerful. But generally, legions, when compared to the super-strong association leaders like Mu Yang of the Blood Python wielding individual Mechanical Treasures, didn't have a huge gap.

The blood-colored hand grasped Luo Feng, seeking to crush him to dust: "Die!"

Luo Feng struggled to resist, and under this pressure, the skin on the surface of his godly body began to crack.

"He can actually withstand it with his godly body?"

This made 'Association Leader Mu Yang of the Blood Python,' who had transformed into the blood-colored hand, somewhat incredulous. Using the Mechanical Treasure, Luo Feng hadn't burned any Divine Power and still managed to hold out until now.

"I must burn Divine Power now!" In an instant, Divine Power erupted within Luo Feng, operating in accordance with one of the three supreme teachings of the Duan Dong River lineage, the "Duan Mie" Dharma. In a moment, Divine Power burned furiously, and the might of the godly body surged dramatically.

The "Duan Mie" Dharma was extremely effective in burning Divine Power. The reason the successors of the Duan Dong River lineage dominated their peers was mainly because of "Duan Mie." As for "Donghua," that was a movement technique, while "Undying River" was used for revival after death.

In a battle, one relied on "Duan Mie" alone! Regardless of the path one took, burning Divine Power and employing this Dharma would grant a significant advantage at the same level.

"Boom~~~"

Under the terrifying might, Luo Feng's arms shook, and the blood-colored hand was shattered.

"What?" The blood-colored giant hand coalesced into a blood-colored figure in the distance, and the Association Leader Mu Yang of the Blood Python couldn't believe it, "Merely by burning divine power, the burst of might actually surpassed my Mechanical Stream Secret Treasure."

"Luo He, are you an unlimited godly body?" Association Leader Mu Yang of the Blood Python asked.

Merely by burning the power of his godly body, he was able to overpower an Eternal Level Mechanical Stream Secret Treasure. Naturally, Association Leader Mu Yang thought of the legendary 'unlimited godly body,' which represented the highest level of godly bodies.

"Keep guessing!" Luo Feng grinned, and at the same time, a seemingly ordinary blade appeared in his right hand out of thin air. The blade was dark with a faint hint of blood light, the Godly King Level Blade Embryo 'Bloodshadow Knife'!

"A blade?" The blood-colored figure in the distance was shocked, "You are only starting to use a weapon now?"

"Die!" Under the state of burning divine power, Luo Feng's movement technique and blade technique were both immensely empowered. Even though his realm wasn't as powerful as the Mechanical Stream Secret Treasure, Luo Feng's moves were extremely powerful.

Break Laws with Force!

With a blade in hand, Luo Feng was able to suppress that terrifying blood light.

"Hum~~~" As the blade light sang like an incantation, it flashed in and out of existence, releasing countless strikes in a moment, each one chasing after that mass of blood light and slashing at it.

While Association Leader Mu Yang controlled the Mechanical Stream Secret Treasure, he was formless and intangible, seeming as one with primal chaos, but every time Luo Feng's blade struck him, he felt a terrifying destructive power rampaging and causing his consumption of divine power to greatly intensify.

"Where did this guy pop up from? Merely by bursting forth with divine power and wielding a blade, he can chase after me and hack away? I'm controlling an Eternal True God Level Mechanical Stream Secret Treasure." Mu Yang felt stifled and unwilling.

******

The Vine Jiao Legion hovered right above the Blood Python Association Headquarters, with countless vines wrapping around that small cosmic domain.

General Jiang Chengrong was quite at ease, after all, unless one was insane, an eternal true god would not dare to cross the City Lord's mansion's bottom line! The Vine Jiao Legion came here just for deterrence!

"Hum~~~"

Through the Legion Mechanical Treasure 'Vine Jiao,' Jiang Chengrong

clearly sensed two terrifying fluctuations inside the Blood Python Association Headquarters, both of them fiercely battling with a strength that even alarmed him.

"Such strong fluctuations!" Jiang Chengrong thought to himself, "This might is not inferior to the entire Vine Jiao Legion!"

"Association Leader Mu Yang has always been tough to handle, otherwise, he wouldn't have been able to establish a Dark Force on his own. But who is the other party in the battle?" Jiang Chengrong was quite curious, "Is it a friend I know, or some mysterious new powerhouse?"

Within Huyang City, there were many hidden dragons and crouching tigers. For the moment, Jiang Chengrong couldn't guess who would have attacked the Blood Python Association Headquarters.

...

Flame Wind Pavilion.

"Master, the burst of fluctuations is strong," the figure shrouded in grey mist exclaimed, "This Luo He probably has a Mechanical Stream Secret Treasure as well, which gave him the courage to make his move."

"He might be able to defeat Mu Yang, but it will be difficult to kill him," said the Master of the Flame Wind Pavilion, "At Mu Yang's level, there are almost no weaknesses. Unless one completely overpowers him, he's hard to kill."

The shadowy figure nodded, defeating was easy, but killing was hard.

The two of them watched with great interest, yet they were just there for the entertainment.

As scions of the 'Emperor Chu's Lineage,' a branch of the imperial clan of Flame Wind Ancient Country, what they practiced were also the powerful secret techniques of Emperor Chu's Lineage. In terms of heritage, they were stronger than both Duan Dong River and God King Jin's lineages.

Within Huyang City, the eternal true gods they admired could be counted on one hand.

******

The Blood Python Association Headquarters had long since been reduced to ruins.

"His body refining secret technique is also extremely strong, and my Blood Light erosion can't even shake him," a mass of Blood Light being chased by Luo Feng counterattacked time and again, but after just over ten breaths of exchange, Association Leader Mu Yang of the Blood Python completely gave up.

"Enough."

"Let go of the Blood Python Association. After escaping, I'll find a way to rob some treasures and exchange them for the 'Primordial Iron Blood Sand Technique' as soon as possible!" decided Association Leader Mu Yang in his heart, instantaneously beginning to flee.

Whoosh!

The mass of Blood Light instantly split into nine beams, shooting in all directions.

"Trying to escape?" Luo Feng frowned, momentarily unable to stop him.

"Luo He, we will settle our feud later!" The nine beams of Blood Light fled as a voice came along.

Suddenly—

Buzz!

All nine beams of Blood Light saw that in the endless dark domain, the Luo Feng standing in place suddenly donned a dazzling set of golden armor, with a pair of shining golden wings unfurling.

Six pairs of golden wings spread out behind Luo Feng!

Sha Wu Wings, originally known as 'Primal Chaos Golden Wings,' only revealed their strongest form under the urging of Luo Feng's perfect divine power. As the six pairs of wings spread out, they stirred up the primal chaos, causing the surrounding material energy to shatter, returning everything to the most primitive 'chaos.'

"What's happening?"

In some of the ruins of the Blood Python Association Headquarters, extending billions of kilometers, there were still some members of the Blood Python Association hidden. Neither Luo Feng nor Association Leader Mu Yang deliberately sought to kill these ordinary members.

So there were quite a few lucky ones still alive. At this moment, they saw a series of murky currents appearing in the distance amidst the darkness.

Wherever these murky currents swept through, destroyed buildings, and the powers of heaven and earth in the air, everything was assimilated! All turned into these murky currents.

"Buzz～～～" The endless and terrifying power of chaos completely enveloped the nine beams of Blood Light, eight of which instantly disintegrated, leaving only one beam of Blood Light remaining.

Under the pressure of the power of chaos, this beam of Blood Light revealed Association Leader Mu Yang's true body.

"Control Primal Chaos?" Association Leader Mu Yang struggled with all his might but found the power of chaos too terrifying to resist.

He looked up into the distance.

Amid the darkness, surrounded by streams of primal chaos, Luo Feng, with six pairs of shining golden wings on his back, walked step by step towards him, each step seeming to trample the entire domain.

"You also have a Mechanical Flow secret treasure. Is your secret treasure's Primal Chaos Realm technique 'Control Primal Chaos'?" struggled Association Leader Mu Yang, still unable to break free, "How are you, an eternal true god, so strong when wielding a Mechanical Flow secret treasure?"

Both were using Mechanical Flow secret treasures, but with the Sha Wu Wings unfurled and controlling chaos, Association Leader Mu Yang was unable to resist at all.

Luo Feng looked at his opponent.

Indeed, both of them were using Mechanical Flow secret treasures, but Luo Feng was driving the whole Sha Wu Wings with 'perfect divine power' as the base energy. The perfect divine power was refined and condensed through the Sha Wu Wings, already comparable to the divine power of a real Primal Chaos Overlord.

When Luo Feng then displayed the Sha Wu Wings' Primal Chaos Realm technique 'Control Primal Chaos,' its might was unimaginable.

If replaced by an eternal true god who followed the bloodline cultivation path, their divine power would be much inferior to Luo Feng's, and when driving Sha Wu Wings, the power would be far less.

"Since you're going to die, there's no need to ask so many questions," Luo Feng was already close at hand.

"Pfft!"

The six pairs of wings behind Luo Feng suddenly flashed light, slicing through the Association Leader Mu Yang's body.

Already completely suppressed, the eyes of Association Leader Mu Yang bulged as the wings, sharp as blades, had already sliced across his chest, and through his True God's Heart.

"Luo He, I have prepared a big gift for you, hahaha..." laughed Association Leader Mu Yang, as his consciousness completely dissipated. The leader of one of Huyang City's dark forces had thus completely died.

With a wave of his hand, Luo Feng collected the corpse of Association Leader Mu Yang, the left-behind armor, Mechanical Flow secret treasures, and all other items.

"It's time to go," Luo Feng looked around, feeling that he had entirely collected the spoils of war, and suddenly expanded his own small

cosmic domain.

"Buzz～～～"

The Vine Jiao Legion, responsible for garrisoning outside, suddenly found the dark small cosmic domain expand abruptly, whoosh—darkness spread in all directions, but as it spread, it also rapidly dissipated.

Once the darkness was completely gone, the Blood Python Association Headquarters revealed itself, nothing but ruins.

As for Luo Feng? He was, of course, long gone.

"Where is the master?" Morosa and Moyu Qingyan, who were watching from a distance, wondered.

"Morosa, you take Qingyan and go back first. I still have things to do," Luo Feng transmitted through his mind.

"Yes, master," Morosa understood and immediately led Moyu Qingyan away quietly.

Chapter 29: Chapter 28 Who Killed?

The Vine Jiao Legion hovered in the sky, its invisible force enveloping the ruins of the Blood Python Association Headquarters, dragging out the surviving members one by one. For a moment, deep within the vast headquarters spanning a billion kilometers, millions of members were relocated.

"After the battle, only one or two tenths of these Blood Python Association members survived," said Jiang Chengrong, looking down and shaking his head slightly.

"Those who survived were almost all hiding deep underground," the deputy general beside him added. The Blood Python Association Headquarters indeed had a multitude of underground structures. It was only because the land in the Land of Origin was solid and stable that one or two tenths of the members survived the horrific battle.

"Hmm?"

General Jiang Chengrong and the deputy general noticed that the Flame Wind Association's Dark Hall had sent a new bounty—each time there was a change in bounties, the Dark Hall would actively send them to their clients.

The bounty displayed: The mission to assassinate the Leader of the Blood Python Association, Mu Yang, had been completed!

"The Leader of the Blood Python Association is dead?" the deputy general asked in surprise. Since they could not see any eternal true god corpses in the ruins, they indeed did not know the extent of the casualties.

"If the Flame Wind Pavilion confirms the death, then it is indeed

true," Jiang Chengrong nodded. Since the Flame Wind Pavilion's Dark Hall issued assassination missions, they naturally had full confidence in confirming the target's life or death.

The deputy general spoke solemnly, "Our entire Vine Jiao Legion couldn't do anything against the Leader of the Blood Python Association. And now he has been killed..."

"The power of the one who took action is stronger than our entire legion!" Jiang Chengrong sighed, "I wonder who it was."

Whoosh!

A group of figures shuttled through the void, arriving from afar. Leading them was the Supreme Commander of Huyang's Ten Great Legions, 'Moli Xiao.' Moli Xiao had a somewhat aged face, with his eyes burning with purple flames as he surveyed the battlefield.

"You take charge of the Vine Jiao Legion, I'll go to greet Commander Moli," instructed General Jiang Chengrong.

"Right," the deputy general immediately responded.

The Ten Great Legions of Huyang, when at full strength, each had two eternal true gods, over twenty thousand true gods of void space, and over twenty million elite true gods. This was a double configuration! They always made sure to have at least one eternal true god, over ten thousand true gods of void space, and over ten million elite true gods within the Legion's Mechanical Flow Secret Treasure.

This way, they could rotate shifts, ensuring that an unexpected event befalling an eternal true god wouldn't affect the legion's operations.

"Whew."

General Jiang Chengrong flew out of the colossal Vine Jiao Legion to personally welcome Commander Moli Xiao.

"Commander Moli," General Jiang Chengrong flew to the side.

"Flame Wind Pavilion has confirmed that the Leader of the Blood

Python Association is dead," Moli Xiao gazed at the vast ruins of the Blood Python Association Headquarters. "In Huyang City, there are only a handful who could kill the Leader of the Blood Python Association!"

"Indeed, he couldn't even escape, just forcibly killed," Jiang Chengrong nodded, then continued, "The confrontation was always inside the Blood Python Association Headquarters. I immediately relocated all the surviving Blood Python Association members to one side; they haven't destroyed the battlefield."

Moli Xiao nodded slightly.

Hum~~~

With just a thought, endless black mist spread out, completely covering the ruins of the Blood Python Association, carefully inspecting every trace of the ruins. By examining the remnants remaining in the ruins, it was possible to deduce some of the details of the clash.

"The matter here and the Power of Heaven and Earth were completely shattered and melted into Chaotic Power not long ago," observed Moli Xiao carefully. "This is not something the Leader of the Blood Python Association would do."

Jiang Chengrong nodded, "It seems that the one who took action must possess a Mechanical Flow Treasure that can control Chaotic Power."

"Just by relying on one Mechanical Flow treasure, one cannot kill the leader of the Blood Python Association," Commander Moli Xiao lightly shook his head. "The secret treasure you wield is of the Legion Mechanical Flow, could you kill the Blood Python Leader?"

General Jiang Chengrong smiled: "The one who acted is much stronger than me."

"Very strong, and not one of the few that I'm familiar with," Commander Moli Xiao frowned, "A strange powerhouse has come to Huyang City!"

Their conversation was followed in silence by a group of subordinates who didn't dare to make a sound.

At Commander Moli Xiao's side was his favorite disciple 'Gaowu Shui'.

Listening to this, Gaowu Shui felt secretly alarmed in his heart.

In his heart... his master was the pillar that supported the entire Huyang City! General Jiang Chengrong was also an extremely powerful eternal true god. Yet now, even his master seemed quite wary of this mysterious figure.

"We must identify his identity as quickly as possible," Commander Moli Xiao spoke.

"As long as that mysterious strongman goes to claim the reward, the Flame Wind Pavilion will certainly know his identity," General Jiang Chengrong said. "But the Flame Wind Pavilion would not betray a client."

Commander Moli Xiao nodded: "As long as he's not standing with Shi Kingdom, it's good news for us."

Shi Kingdom often encroaches upon the neighboring areas, as Huyang City is a border city, the pressure is naturally great.

...

Inside Dream Flower Tower.

Shang Tianyan and Sang Shuiyun sat opposite each other in a hall, drinking and chatting leisurely, frequent patrons of Dream Flower Tower themselves.

"Hmm?" They too received the latest offered task sent from the Dark Hall of Flame Wind Pavilion.

"The Blood Python Leader is dead?" Shang Tianyan was surprised, "He was one of the overlords within Huyang City. I always avoided him whenever I saw him. Who could kill him?"

The dispirited winged man Sang Shuiyun was indifferent to the news, casually saying, "Since he established a Dark Force and continuously engaged in battles and killings, isn't it only natural he was killed by another strongman in the end?"

"That's true, he met a formidable opponent after killing so many," Shang Tianyan nodded with excitement. "But I am still very curious about who exactly made the move."

"Why bother wondering so much? Give it time, and we'll naturally find out," the winged man Sang Shuiyun leisurely looked at his wine cup.

...

"Who could kill the Association Leader Mu Yang of the Blood Python?" A gaunt old chef suddenly paused in his cooking, a slight upturn appeared on his lips, "Huyang City is getting more and more interesting."

...

"In the reward task, the bounty for the Blood Python Leader ranks fifth while I am ranked fourth, with even higher rewards. Could he be eyeing me next?" Puppet Shadow Master 'Chun Yuyi', who was also a leader of a Dark Force, tensed upon hearing the news.

...

At this moment, every client of the Flame Wind Association's Dark Hall in Huyang City had received the newest offered tasks. The news of the Blood Python Leader's death naturally caused an uproar throughout Huyang City.

The death of Diaorong Yan had less impact; after all, Diaorong Yan was rather weak.

But the assassination of the leader of the Blood Python Association was a significant event! After all, among those in Huyang City who could kill him, each one's slightest movement could cause Huyang to tremble.

"Who are they? Or are they new powerful arrivals?" All the forces wanted to know.

...

Chairman Zan Yun sat on the top floor of Sky Cloud Tower, holding a transmission token.

"My killer is Luo He! With an extremely powerful Mechanical Flow Secret Treasure, he killed me! His Mechanical Flow Secret Treasure greatly surpasses my 'Life Blood River', which is valued at 1.5 million Cosmic Sand. His must be worth at least 5 million Cosmic Sand!" the Blood Python Leader sent this message and a visual to Chairman Zan Yun just before his death.

The visual showed Luo Feng with six pairs of golden wings unfurling behind him, surrounded by a terrifying scene of Primal Chaos Current on both sides.

"Luo He?" Chairman Zan Yun was somewhat surprised, "Are the six pairs of wings on his body ordinary treasures or Mechanical Flow Secret Treasures?"

Mechanical Flow Secret Treasures often can be integrated into the body, invisible from the exterior.

Moreover, throughout the long history of the Land of Origin, an unknown number of Eternal Level Mechanical Flow Secret Treasures have been born. Just in Huyang City alone, the Huyang Legion boasts the Ten Great Legion's class treasures, and the Huyang Guards also have slightly weaker Legion Treasures. There are also many individual Mechanical Flow Secret Treasures.

"Able to kill the Blood Python Leader, his strength is on par with Commander Moli Xiao and Xue Yun," Chairman Zan Yun affirmed this point.

...

The Moli clan today, whose controller is 'Moli Meng', equally received the message and visual from the Blood Python Leader just before his death.

"My killer is Luo He! With an extremely powerful Mechanical Flow Secret Treasure, he killed me! His Mechanical Flow Secret Treasure greatly surpasses my 'Life Blood River', which is valued at 1.5 million Cosmic Sand. His must be worth at least 5 million Cosmic Sand!" the exact same message.

Moli Meng looked at the message and the visual of Luo Feng's Sha Wu Wings unfolding.

"Two Mechanical Flow Secret Treasures, adding up to 6.5 million Cosmic Sand. Not to mention the other treasures he carries," Moli Meng mused, "He's deliberately using me as his weapon, and I can't help but be tempted."

"But this Luo He is too mysterious; I have no idea of his background," Moli Meng shook his head lightly, "This message is not suitable to tell my father."

His father is Commander Moli Xiao.

"My father is the pillar of the Moli clan; I cannot let him take great risks," Moli Meng had decided, as if he had not seen the message.

...

Prior to his death, the Blood Python Leader used the Karmic Messenger Order to send this message to five forces within Huyang City. These five forces shared one thing in common: they all had big backgrounds, capable of summoning some terrifying fighters from elsewhere.

******

Outside Huyang City.

In the midst of endless wilderness, a pitch-black Poisonous Insect drilled out from the depths of the earth, transforming naturally into a figure—the gaunt Vice-chairman Mu Lin.

"When I refined the Poisonous Insect body, it was for its strong survival skills," Vice-chairman Mu Lin looked toward the distant Huyang City, "My Life-bound Poisonous Insect has always been

hiding outside the city."

"Indeed, Luo He is terrifying. According to the bounty mission sent by the Flame Wind Pavilion, our President also perished," Vice-chairman Mu Lin shook his head lightly.

His Life-bound Poisonous Insect carried an Ordinary Transmission Order, only able to receive Dark Hall messages when close to Huyang City. Unlike the Karmic Messenger Order, the Ordinary Transmission Order's communication range was limited and it wasn't locatable through karmic means.

Vice-chairman Mu Lin was far more cautious than his fellow clansman and President Mu Yang.

"Time to leave, stay away from Huyang City. Otherwise, if discovered by Luo He, the hard-earned multitude of poisonous insects would again turn to ashes," Vice-chairman Mu Lin was indeed afraid of Luo Feng, "Of the three major cities in Jiu Jiang Primal Chaos Prefecture, let's go to Xuyin City!"

Having made his decision, Vice-chairman Mu Lin set off toward Xuyin City.

...

Within Huyang City, city owner's mansion.

Three Divine Power Incarnations stood shoulder to shoulder, all watching the citywide monitoring.

It was precisely because of this citywide monitoring that the city owner's mansion could keep constant tabs on all the movements of the Dark Forces, coupled with 'Identity Token' position locking, to confirm which True Gods the Dark Forces killed.

Ordinary True Gods each had an Identity Token and had to regularly pay the Residence Fee, or else they would be expelled from the city.

"If the one who took action uses a minor Cosmic Domain to block detection, we won't be able to track him," a white-haired figure said.

"Let's wait and see; we might discover something," Lord of Huyang City said while observing the recorded scenes on the monitors.

Commander Moli Xiao was also silently watching.

Huyang City was built in collaboration by a large number of Mechanical Flow experts. The city's monitored scenes were preserved for at least a century. Therefore, it was possible to review some past scenes.

"Look!" the white-haired figure, Lord of Huyang City, and Commander Moli Xiao all tensed up.

Clear for all the city monitoring to see—

Luo Feng walked alone to the front gate of the Blood Python Association Headquarters after parting ways with Morosa and Moyu Qingyan. Only then did darkness suddenly materialize and completely envelop the Blood Python Association Headquarters.

"It's him," Lord of Huyang City exclaimed excitedly, "It's Luo He!"

"He didn't use any concealment to block detection; instead, he just walked openly to the front of the Blood Python Association Headquarters," Commander Moli Xiao nodded, "He did it on purpose."

Any Eternal True God was capable of using a minor Cosmic Domain to block surveillance, making it impossible for citywide monitoring to detect them.

"In all of Huyang City, only our city owner's mansion is constantly monitoring the entire city. So, he's merely not hiding from us," the white-haired figure explained, "This Luo He is showing goodwill towards our city owner's mansion."

Both Commander Moli Xiao and Lord of Huyang City nodded their agreement.

The space-time in the Land of Origin is stable; to perform space-time backtracking to see past events? No one in Huyang City could achieve that.

Therefore, only the ever-vigilant city owner's mansion was able to look back at the scene of Luo Feng arriving at the Blood Python Association Headquarters.

...

After leaving the Blood Python Association Headquarters, Luo Feng flew away, and now he could already see the distant Flame Wind Pavilion.

"The city owner's mansion monitors the entire city; they should be able to check the scene when I arrived at the Blood Python Association Headquarters," Luo Feng thought. Between the city owner's mansion and the Shi Kingdom's undercover forces, he naturally favored the city owner's mansion.

While thinking, Luo Feng had already flown over the Flame Wind Pavilion: "Time to claim the reward."

——

Thank you to the two Alliance Hierarchs for their rewards: ZY Chengfu and Mu Yi Chengzhou0919.

Chapter 30: Chapter 29 Inventory Harvest

Luo Feng flew to the main entrance of the main building of the Flame Wind Pavilion, where the attendant who had taken care of him last time was already waiting.

"Divine Monarch," the attendant immediately approached with a smile, "the Deputy Pavilion Master instructed me to invite you over."

"Deputy Pavilion Master?" Luo Feng nodded slightly, "Lead the way."

The attendant led Luo Feng away from the main building, flying into the depths of the entire structure of the Flame Wind Pavilion, and landed in front of a small building whose door was open. The attendant said, "The Deputy Pavilion Master is already waiting inside for you."

Luo Feng nodded, then walked into the small building, with the attendant waiting outside.

Inside the small building.

A figure of condensed gray mist was sitting there, its two cavity-like holes appearing to 'smile' as it watched Luo Feng.

"Lord Luo He, please take a seat," the gray mist figure offered wine personally.

Luo Feng sat opposite.

"How about tasting this wine?" the gray mist figure said.

Luo Feng picked up the wine glass and saw the liquid emanating a chill, with vague terrifying exotic beasts roaring inside; Luo Feng,

quite curious, lifted it gently and took a small sip, only to feel a coolness spreading through his soul.

"This wine is brewed using the blood of the Godly King Level Exotic Beast 'Myriad Realms Ice Wind Beast' as raw material, which nourishes the soul and can enhance cognition," the gray mist figure stated, "One cup can maintain the effect for a day."

"Enhancing cognition?" Luo Feng was surprised.

Myriad Realms Ice Wind Beast? In the Duan Dong River heritage, it was recorded that this Godly King level exotic beast was composed of ice. Its icy scales naturally nurtured numerous universes—so many that it was known as the Myriad.

The 'wind' it breathed possessed a trace of the power of the Origin Great Dao, hence it was long known as the 'Myriad Realms Ice Wind Beast.' It had not been long since it appeared in the Land of Origin when the Flame Wind Ancient Country captured it! They've been raising it and continuously extracting its body's materials to concoct various treasures and fine wines.

"When I left the Flame Wind Ancient Country, I brought some with me. I only serve it to friends whom I admire," said the gray mist figure.

"The Deputy Pavilion Master flatters me," Luo Feng indeed felt the coolness continuously spreading through his soul, significantly increasing the speed of his soul's thoughts, just as the other party had said about the enhancement of cognition.

The gray mist figure shook its head, "In a relatively remote country like Yu Kingdom, resources are ultimately limited. Being able to kill the Blood Python Association Leader one-on-one at the Eternal True God stage is quite formidable!"

Luo Feng laughed.

Indeed, the Blood Python Association Leader had deep accumulations in all aspects and used Mechanical Stream Secret Treasures, making his strength truly formidable. An Eternal True God killing him?

Indeed difficult. Figures like Xue Yun and Moli Xiao were elites nurtured by the Divine Kingdom.

"I came here today to claim the bounty," Luo Feng said.

"Before your confrontation, only you, Lord Luo He, took on the task. And soon after taking the task, the Blood Python Association Leader died," the gray mist figure stated, "However, according to the rules of the Flame Wind Association's Dark Hall, you still need to present proof of your kill."

"Since only you took on the task, simply presenting the body, or even remains of the body or his primary weapon or treasure, will suffice," the gray mist figure said.

If several powerful figures had taken on the task at the same time, the Flame Wind Pavilion's verification process would be much more stringent.

"Would this suffice?" Luo Feng flipped his hand and took out the armor left behind by the Blood Python Association Leader, which had several inconspicuous cracks and wounds. However, as an Eternal Level Armor Secret Treasure, these cracks and wounds could heal slowly with nourishment by Divine Power.

Having a glance at it, the gray mist figure smiled and nodded, "That will do!"

"Here is your bounty of 160,000 cosmic sands!" The gray mist figure waved lightly, and a jade vial appeared in front of Luo Feng.

Luo Feng took the jade vial and penetrated it with Divine Power to check, finding inside the 160,000 cosmic sands. Evidently, the Flame Wind Pavilion had prepared them well in advance.

"If Lord Luo He does not need to use the large amount of cosmic sand immediately, it can be temporarily stored at the Flame Wind Pavilion," the gray mist figure said with a smile, "It can be exchanged at any Flame Wind Pavilion across the entire Land of Origin."

"No need," Luo Feng stood up.

He knew about the storage services offered by the Flame Wind Pavilion, especially for those powerful cultivators who died without arranging for heirs. In those cases, their deposits in the Flame Wind Pavilion naturally became the property of the pavilion.

"Deputy Pavilion Master, I shall take my leave now," Luo Feng stated.

The gray mist figure stood up to see him off.

After Luo Feng departed, a muscular man suddenly appeared in the small building.

"Pavilion Master, wouldn't you want to chat with him for a bit?" the gray mist figure looked at the muscular man.

"To be able to kill the Blood Python Association Leader single-handedly, one generally has some background. Either they are elites nurtured by a Divine Kingdom, or they have had some unique adventure, undergoing numerous hardships... But this Luo He, the Flame Wind Pavilion had no prior records of him," the muscular man gently shook his head, "I feel he's like a wisp of mist."

"Uncle, don't you think he's too reckless? He walked into the Blood Python Association Headquarters in broad daylight, killed the Blood Python Association Leader. After killing, he immediately came to our Flame Wind Pavilion to claim his bounty," the muscular man frowned, "Doesn't he guess that many forces in Huyang City must be watching the doors to the Flame Wind Pavilion?

Him coming to the Flame Wind Pavilion at this time must have been noticed by many forces."

The gray mist figure nodded, "Indeed, he is quite reckless."

"It means, he didn't consider those forces worth his regard," the muscular man laughed, "But one thing is very certain, he values this bounty highly."

"Most cultivators have to struggle for resources," the gray mist figure sighed, having seen too many Eternal True Gods behave ruthlessly for wealth during his tenure at the Flame Wind Pavilion.

******

Huyang City, Primal Chaos Armor 913 Cave Mansion.

"Lord Luo Sa, I'm good just guarding here," Moyu Qingyan was meditating in a small building near the cave mansion's main gate, while Morosa also kept an eye on the main gate.

"Don't mind me," Morosa scolded.

"Oh." Moyu Qingyan immediately shut up, daring not to say more.

Morosa patiently waited.

Finally, the formation of the cave mansion operated, and the grand door naturally opened as Luo Feng flew in from the outside.

"Master." Morosa instantly darted out to approach Luo Feng, smiling ingratiatingly. Moyu Qingyan also immediately followed out and waited by the side.

Seeing Morosa's demeanor, Luo Feng laughed and said, "Don't worry, I tried my best to preserve your food."

"Thank you, Master." Morosa was overjoyed.

"Qingyan, focus and comprehend the laws deeply," Luo Feng instructed.

"Yes," Moyu Qingyan immediately responded.

Following that, Luo Feng took Morosa and went to the underground grand hall.

"Master is truly formidable, directly assaulting the headquarters of the Blood Python Association. I wonder if the leader of the Blood Python is dead or alive," thought Moyu Qingyan as he returned to the small building at the side. The stronger Luo Feng became, the more he filled with anticipation.

After all, if he passed the test, he hoped to become an apprentice.

Moyu Qingyan sat cross-legged in the small building, beginning to carefully contemplate the Ten Fundamental Laws.

...

In the underground grand hall, inside the Star Tower.

With a wave of his hand, Luo Feng threw out the corpses of Vice President Lai Mo and Association Leader Mu Yang of the Blood Python, the two massive bodies exuding a rather terrifying aura.

"Two bodies?" Morosa's eyes lit up.

"There's also a vice president whose body is of poisonous insects, transforming into millions of poisonous insects," said Luo Feng, "I destroyed the millions of poisonous insects, and he was utterly eradicated and vanished. However, I suspect he might still be alive because, with such a body, if trained sufficiently, each insect is a life. But his strength was weak, so it's not necessary to mind."

Morosa nodded, his eyes fervently fixated on the body of the Blood Python leader, "Still, the body of a powerful one is preferred. The lineage of this Blood Python leader probably reached the Tenfold Realm of an eternal true god. Moreover, the lineage he primarily cultivated is also very powerful."

"If you like it, that's good," said Luo Feng as he nodded and then went to another layer of space in the Star Tower.

Morosa then sat cross-legged, beginning to absorb the powerful lineage and various energies contained in the two bodies.

...

Luo Feng was alone in a layer of space in the Star Tower.

"Let's see how much I gained this time." Luo Feng waved his hand, taking out all the spoils of war from his trip to the headquarters of the Blood Python Association.

"Wow, how could the Blood Python leader carry so much Cosmic Sand?" Luo Feng eyed the treasures storing Cosmic Sand in front of

him and, after a brief tally, couldn't help but be astonished, "Including what the two vice presidents carried and the bounty, the Cosmic Sand amounts to over 980,000 pieces!"

This enormous amount of Cosmic Sand delighted Luo Feng.

"An eternal true god's resources are either used in cultivation or exchanged for powerful treasures," Luo Feng was surprised, "It's unexpected that the Blood Python leader carried so much Cosmic Sand on his person."

"The resources for a second body refinement should be enough," Luo happily looked towards the floating blood-colored disc, its surface glistening with a flow of light. Upon closer observation, he discovered a massive blood river flowing inside it.

Luo Feng stretched out his hand and grasped the blood-colored disc, Perfect Divine Power permeating through it.

Whumm~~~

After Perfect Divine Power was infused, it quickly refined this masterless Mechanical Stream Secret Treasure and extracted a large amount of information from it.

"An eternal true god-level individual Mechanical Treasure, 'Life Blood River'?" Luo Feng was secretly shocked, "With this mechanical treasure, one can transform their godly body into a blood river, almost flawlessly."

"Whether it's for protection, killing enemies, escaping, eroding, or creating avatars... this Life Blood River possesses Primal Chaos characteristics, very powerful."

"From value assessment, my Sha Wu Wings are valued at around 1,000,000 Cosmic Sand, while this 'Life Blood River' is valued at about 1,500,000 Cosmic Sand, even higher!" Luo Feng deduced.

An eternal true god-level Mechanical Stream Secret Treasure, commanding some power of the Primal Chaos Realm, this was already among the pinnacle in the Land of Origin. Typically valued between 500,000 to 5,000,000 Cosmic Sand, there's no essential

disparity in them.

A Mechanical Stream Secret Treasure worth 5,000,000 Cosmic Sand is more like a perfect combination of several Mechanical Stream Secret Treasures!

Whumm~~~

With a thought, Luo Feng infused a full one percent of his Divine Power into this blood-colored disc, and although he hadn't studied the 'Life Blood River' this Mechanical Stream Secret Treasure in detail, relying on Perfect Divine Power, he could crudely use it right after acquiring it.

Boom-boom-boom~~~ The blood-colored disc trembled.

The one percent of Luo Feng's Divine Power was even more massive than that of an 'unlimited godly body' eternal true god.

A blood river that seemed to sweep across and devour everything formed, as if it wanted to submerge all things and return everything to chaos, integrating into the blood river.

Watching the fearsome blood river floating in front of him, Luo Feng wore a smile.

"Such a formidable treasure was squandered by the leader of the Blood Python!" Luo Feng lamented. In terms of combating enemies, the Sha Wu Wings were not as troublesome or fearsome as this 'Life Blood River'."

—

Thank you to the two new lords who rewarded: Sanyuan, Change a New Name.

Chapter 31: Chapter 30: Mountain Sitting Guest Enters Reincarnation

"In the future, I must thoroughly study this 'Life Blood River,'" Luo Feng thought. "This could also enhance my understanding of the Primal Chaos Laws."

Comprehending the Primal Chaos Laws was difficult.

Thus, multiple pathways were needed concurrently, such as Luo Feng residing beside the Primal Chaos Ruins, observing and comprehending from close proximity, which was one route.

Cultivating some secret techniques that directly target the 'Primal Chaos Realm,' such as 'World Breaking Nine Blades,' 'Primal Chaos Great Strength Diagram,' 'Duan Mie,' 'Dong Hua,' and others, the deeper the cultivation, the deeper the understanding of the Primal Chaos Laws. Techniques like 'Duan Mie' and 'Dong Hua' were even directly aimed at the Godly King Level.

And the eternal true god level Mechanical Stream Secret Treasures 'Sha Wu Wings' and 'Life Blood River' both contained Primal Chaos Realm moves. Delicate contemplation of them could equally enhance understanding of the Primal Chaos Laws.

Multipath concurrency, and still only those with extremely high talent, hoped to become a Primal Chaos Overlord.

Luo Feng, undoubtedly, could comprehend the 'Lie Yuan Technique' and cultivate an unimaginable Perfect Divine Body, his talent so high that even Godly Kings sitting on the mountain marveled at him.

"This harvest is bigger than I anticipated." Luo Feng counted these

treasures, over 980,000 Cosmic Sand and the Mechanical Stream Secret Treasure 'Life Blood River,' valued around 1.5 million Cosmic Sand, were the biggest gains of this mission.

As for the eternal true god level armors, Weapon Secret Treasures, precious medicines, Exotic Beast Materials, and other various collections altogether, were close to 200,000 Cosmic Sand.

"This Blood Python Leader was quite wealthy!" Luo Feng was very satisfied, aware that the size of this loot also involved some luck. After all, the vast majority of powerful beings would use up their Cosmic Sand!

Cosmic Sand, left as is, was merely wealth. Spent, it could enhance one's own foundation.

"After drinking that fine wine from the Vice President of the Flame Wind Guild, my understanding seems to have improved." After storing away the treasures, Luo Feng sat cross-legged in the space inside the Star Tower and began trying to comprehend the Primal Chaos Laws.

With just a focused perception, he could sense the substantial Primal Chaos Laws that were fully manifested alongside the 'Primal Chaos Ruins.'

"As vast as a sea of smoke." Luo Feng carefully observed.

All things originated from chaos.

The difficulty of fully comprehending the 'Primal Chaos Laws' was imaginable.

...

At this moment, not too far from Luo Feng's Cave Dwelling, 'Primal Chaos Armor Number 3 Cave Dwelling' was a super large cave dwelling of the Moli Family.

"The Blood Python Leader is dead, he is really dead." Diaorong Qi, also a customer of the Flame Wind Association's Dark Hall, naturally received the news first.

The bounty task was completed, and her 40,000 Cosmic Sand reward was completely deducted.

If the task hadn't been completed, the task issuer could rescind the task, deducting a tenth of the cost and returning the rest of the reward.

"Hahaha... he's dead, he's dead." Tears were in Diaorong Qi's eyes, looking like she was both crying and laughing. After her father and clan members had died, she only had thoughts of revenge. The enemy's quick death, however, left her somewhat bewildered.

"Little Qi, before, the guards and you went to the Fire Realm Restaurant, visiting that Luo He. Could the death of the Blood Python Leader have anything to do with Luo He?" Moli Feiyun made a guess.

"It was Luo He who killed him!" A voice sounded.

Moli Feiyun and Diaorong Qi turned to look, and the one who came was Moli Meng.

"Father." Moli Feiyun exclaimed in surprise, "Was it really that Luo He who killed the Blood Python Leader?"

"Yes." Moli Meng nodded, having received a message from the dying Blood Python Leader, he looked at Diaorong Qi with mixed emotions, "I didn't expect that your visit to Luo He would actually get him to take action for you."

Diaorong Qi asked, "Is Supreme Lord Luo He alright?" She was immensely grateful to Luo Feng now, willing even to become his servant.

"Of course, he is." Moli Meng sighed, "In the whole city of Huyang, who now dares to offend him?"

"How did you get him to help?" Moli Meng asked.

Diaorong Qi shook her head, "I just explained the situation, and Supreme Lord Luo He agreed to help. He asked for nothing from me, just told me to return, and that I would receive news before nightfall."

Moli Meng, upon hearing this, mused, "Quite generous and decisive."

From these actions, Moli Meng could glimpse some of Luo Feng's temperament.

"Should I visit him to thank him?" Diaorong Qi was somewhat hesitant, "But by doing so, the outside world might guess that it was Supreme Lord Luo He who acted."

"Don't rush."

Moli Meng shook his head, "Currently, the various powers within Huyang are paying attention to him, and many wish to visit him. We can wait a bit; in a few days, I'll take you to visit him quietly."

Moli Meng, also an eternal true god with a small cosmic domain, could block surrounding prying and thus could visit quietly.

"Alright," Diaorong Qi responded.

...

Moli Meng was indeed not wrong, and there were quite a few powers within Huyang City that wished to visit Luo Feng.

Although the news that 'It was Luo He who killed the Blood Python Leader' was still relatively secretive, first, the city owner's mansion had observed the past scene and already discovered it was Luo Feng. Second, the dying Blood Python Leader had messaged five different powers.

With so many powerful beings aware, with time, the news would naturally slowly spread among the upper echelons of Huyang City.

"Lord Luo He, Zan Yun has come to visit," Chairman Zan Yun stood outside Luo Feng's Cave Dwelling, quite humbly.

"Hmm?"

Zan Yun waited for a while, but the entire cave dwelling's door remained closed with no response, finally, he reluctantly turned and left.

At that moment.

Luo Feng's Cave Dwelling.

"Is this the third distinguished guest today?" Moyu Qingyan couldn't help but say, "Are we just going to refuse everyone at the door?"

Morosa casually said, "As long as the master is in seclusion, it doesn't matter who it is, no need to mind them."

"The previous three guests were all eternal true gods..." Moyu Qingyan still felt immense pressure, as the high and mighty eternal true gods had each faced rejection.

Morosa chuckled, "Just wait and see, there will be many eternal true gods visiting today. Give it time, and you'll get used to it."

"I understand." Moyu Qingyan was also mentally adjusting, being a minor true god, he needed to get used to his master's way of handling things.

"Focus on comprehending the Ten Fundamental Laws, your understanding is too slow!" Morosa shook his head. As a Sector Beast who mastered the destruction of the origin, grasping the Ten Fundamental Laws was as easy as eating and drinking.

He just needed to grow with time, and his understanding of the Path of Destruction would deepen until the day he fully comprehended it. In his eyes, Moyu Qingyan's perceptiveness was truly mediocre.

"Oh." Moyu Qingyan obediently responded.

"Lord Luo He, Zhu You from the Zhu Clan in Huyang City is here to visit," came a voice from outside, belonging to another eternal true god from the famous Zhu Clan of Huyang City.

Moyu Qingyan ignored it and focused on comprehending the laws.

******

Hometown, Primordial Cosmos Region, inside Luo Feng's mini-universe.

On a bustling human planet, Luo Feng and Xu Xin, dressed in short sleeves and wearing straw hats they had made themselves, were leisurely sitting in the outdoor area of a restaurant, drinking beverages and chatting.

"Luo Feng, you say your son has been striving hard without any improvement in strength. Why does he still push himself so hard?" Xu Xin shook her head, "At the last family gathering, Luo Hai was the only one not there!"

Luo Feng smiled, his gaze piercing through space and time, seeing Luo Ping signing contracts and Luo Hai cultivating alone in the depths of a massive black hole.

His two sons had taken completely different paths.

Luo Ping had lost all interest in cultivation, while Luo Hai was passionate about it.

"Luo Hai has fighting spirit, and that's a good thing," Luo Feng said with a smile. "After all, with an infinite lifespan, one must have some pursuits."

"He's just a universe venerable, with universe master and true god ahead of him! Even if he breaks through, what then?" Xu Xin said, "Seeing him work so hard, I sometimes feel sorry for him."

"Don't you feel sorry for me?" Luo Feng countered.

Xu Xin glanced at him. Initially, she was always worried about Luo Feng, especially during life-and-death crises, more panicked than anyone. But as time passed, she had come to calmly face everything.

"Of course I feel sorry for you," Xu Xin said with a smile.

Only then did Luo Feng pick up his drink and blissfully sip it.

He was indeed cautious in the Land of Origin, but his 'Divine Power Incarnation' at home always had a relaxed time, often wandering the world with his wife and enjoying it immensely.

After all, inside a mini-universe a hundred billion light-years in

diameter, countless humans thrived and gave birth to a dazzling culture. Luo Feng and Xu Xin strolled from place to place, having only explored the tip of the iceberg so far.

"Ancestor." In the distant stars, a universe master respectfully said, "When passing by 'Mountain Sitting Guest's' mini-universe, I noticed that his mini-universe is expanding rapidly."

Inside Luo Feng's mini-universe, whenever 'Ancestor' was mentioned, Luo Feng would naturally pay attention.

"Mountain Sitting Guest's mini-universe, expanding rapidly?" Luo Feng was surprised.

"What's wrong?" Xu Xin sensed something was amiss.

"The teacher's mini-universe is expanding; let's go have a look." Whisking his wife Xu Xin aboard a spacecraft-like secret treasure, Luo Feng traversed space directly to where their master Mountain Sitting Guest's mini-universe was.

Being an eternal true god with a 'Perfect Divine Body', even just a wisp of divine power condensed into a Divine Power Incarnation, Luo Feng was still unrivaled by true gods.

Whoo!

The spacecraft-like secret treasure stopped in the Primal Chaos Current, where other true gods and universe masters had also arrived, all watching the expanding mini-universe.

"Ancestor."

"Ancestor."

"Lord of the Galaxy."

Upon the appearance of Luo Feng and Xu Xin, surrounding true gods and universe masters showed utmost respect.

The strong beings of the human race naturally revered him as 'Ancestor'. Currently, the human race has two ancestors, one is the

Primordial Ancestor, and the other is Luo Feng, the 'Galaxy Ancestor.' Their mini-universes, one several billion light-years and the other a hundred billion light-years in diameter, were the habitats for the reproduction and survival of the human race.

Luo Feng had resolved the Sector Beast crisis and saved the Primordial Ancestor, and since Luo Feng's mini-universe was much larger, his status within the human race was indeed higher than that of the Primordial Ancestor. The Primordial Ancestor had no objections to this, especially since his 'Nine Netherworlds' was also taught by Luo Feng.

"Hmm." Luo Feng responded, then looked distantly at the expanding mini-universe.

"Once the teacher breaks through to the true god of void space, he must venture into reincarnation," Luo Feng thought, "Is the teacher finally going to the Land of Origin?"

Five new alliance hierarchs have joined: 'Brother is a Monster', 'Wood Can Self-Ignite', 'Purple Peak of the Moonlit Night', '| Don't Ask About the Future |', 'Seeing the Wind as Rain'

Thank you all for your support!

Chapter 32: Chapter 31 Moli Meng's Reminder

As time passed, more and more powerful beings arrived here.

Incarnations of Power of Primordial Ancestor, Primal Chaos City Lord, Zhenyan, and others rushed over. The birth of a true god of void space in the Primordial Cosmos was a significant event, attracting a great many onlookers.

"Luo Feng." Hong, Thunder Lord, the two of them also arrived by Secret Treasure.

"Big brother, second brother." Luo Feng greeted them with a smile. The three of them had started their journey from Earth, so their bond was naturally extraordinary.

"Once Mountain Sitting Guest makes a breakthrough, he'll have to face the Samsara, right?" Hong said. After all, he was also a True God. Luo Feng had already asked them to wait before making a breakthrough and to first discuss it with him and the Primordial Ancestor.

Luo Feng looked into the distance, "Right, after the breakthrough, one must face the Samsara within a year."

"Brother." Luo Hua, with their father Luo Hongguo, mother Gong Xin Lan, and under the protection of 'Ximo,' also arrived here.

"Mountain Sitting Guest is your teacher. His upcoming challenge in the Samsara is a given for us to witness," Luo Hongguo said. The fact that Mountain Sitting Guest was Luo Feng's teacher was widely known in the Primordial Cosmos.

Luo Feng nodded slightly and continued to watch the expanding

miniature universe.

The expansion of the miniature universe continued for over a month, reaching a diameter of 7.2 billion light-years before stopping.

"Huff."

An elderly figure flew out from the miniature universe, it was Mountain Sitting Guest.

Luo Feng approached alone.

"Teacher." Luo Feng flew closer.

"I've been in the Primordial Cosmos for so long, it's time to return," Mountain Sitting Guest sighed. Though he had lived here for more than one Reincarnation Era, this place was ultimately not his homeland.

"Going to face the Samsara now?" Luo Feng looked at Mountain Sitting Guest.

Mountain Sitting Guest nodded, "Right now."

"How will we meet in the future?" Luo Feng asked.

After his teacher arrived at the Land of Origin, he was to undergo reincarnation. The Divine Power incarnation that remained in the Primordial Cosmos would also disperse, making it difficult to meet again.

"When it's time to meet, we will meet," Mountain Sitting Guest smiled at his disciple. "My greatest accomplishment since arriving in the Primordial Cosmos more than a Reincarnation Era ago was taking you as my disciple."

"A mediocre disciple primarily relies on his teacher's support. But a truly dazzling disciple, the teacher merely provides assistance," Mountain Sitting Guest looked at Luo Feng. "How far you can go ultimately depends on yourself."

Luo Feng nodded.

"Remember, don't rush," Mountain Sitting Guest reminded. "When you are strong enough, aiding me in my revenge is just the natural order of things. When you are not powerful enough, rashly intervening will only lead to your demise."

"I understand, I have patience," Luo Feng nodded.

Mountain Sitting Guest nodded, "I'm off to face the Samsara, no need to see me off!"

After speaking, Mountain Sitting Guest gave a slight nod to the many powerful beings in the distance and then flew toward the 'Samsara Channel' in the Tilted Peak Sector.

Luo Feng watched this scene from afar.

...

Everything went as planned. After Mountain Sitting Guest faced the Samsara and arrived at the Land of Origin, he quickly used the Reincarnation Secret Technique and was born as a native creature of the Land of Origin.

"Luo Feng." Primal Chaos City Lord hurried over.

"Teacher." Luo Feng greeted him. From starting his growth from Earth, Zhenyan, Primal Chaos City Lord, Mountain Sitting Guest, these three teachers had all provided him with great help, and he always respected these teachers.

"The miniature universe of Mountain Sitting Guest has begun to collapse!" Primal Chaos City Lord said anxiously.

Luo Feng nodded.

"He's your teacher, aren't you worried?" Primal Chaos City Lord asked in confusion. "You and many human True Gods have said that as long as one breaks through to the True God Realm before facing the Samsara, success is guaranteed. How could Mountain Sitting Guest have died?"

Primal Chaos City Lord didn't have much of a personal connection

with Mountain Sitting Guest, but he had devoted his life to the human race, so he naturally worried about the future safety of so many human True Gods.

"Teacher Mountain Sitting Guest successfully faced the Samsara," Luo Feng said. "He died after he had completed it."

Primal Chaos City Lord was somewhat puzzled, "He died after he completed it?"

"Supreme laws limit what I can say," Luo Feng said.

"I understand," Primal Chaos City Lord nodded, aware of this limitation too.

Both the Primordial Ancestor and Luo Feng had faced the Samsara, one was the teacher of Primal Chaos City Lord, the other his disciple. He was very clear about the restrictions of the supreme laws.

"As long as one breaks through to the True God Realm, it is good to be safe in the Samsara," Primal Chaos City Lord nodded. "As for Mountain Sitting Guest..."

"In the future, you will know, teacher," Luo Feng said.

******

Land of Origin, Yu Kingdom, Huyang City.

"Boom, boom, boom～～～"

The doors of the underground grand hall in the cave mansion opened, and Luo Feng exited his retreat.

"Master." Morosa swiftly came to greet him, while Moyu Qingyan also quickly arrived from afar.

"Hmm." Luo Feng nodded to them. With a step, he reached a distant mountain, sat on a large rock, and drank alone.

This scene left Morosa and Moyu Qingyan looking at each other, somewhat perplexed.

"Get on with your business," Morosa instructed Moyu Qingyan, then quietly flew closer to Luo Feng, smiling obsequiously at him.

"What's up, Master? You seem a bit down," Morosa inquired.

"Not down," Luo Feng said softly, shaking his head,. His teacher had reincarnated to prepare for vengeance, and the biggest hope for his teacher's revenge was clearly on him, his disciple. Since the Shi Kingdom had managed to invade far and wide and survive to this day, it was definitely powerful. To confront the rulers of the Shi Kingdom...

it wasn't going to be easy, and Luo Feng naturally felt some pressure.

"Not down?" Morosa observed Luo Feng closely.

"I am contemplating several formidable enemies," Luo Feng said.

"Your enemies, Master? And more than one?" Morosa asked, "Who are they? Do you need my help?"

Luo Feng eased up a bit at the sight of Morosa.

He needed to hone his will, diligently practice secret techniques, and comprehend the laws, steadily increasing his strength step by step. But Morosa only needed to eat, drink, and absorb some energy to naturally reach a level far above the Shi Kingdom in the future.

"If I need your help, I'll tell you," Luo Feng said. "I believe I should be able to deal with them."

"When the time comes, leave the corpse to me," Morosa quickly reminded.

Luo Feng smiled, "Don't worry."

"By the way, Moli Meng has passed a message through Moyu Qingyan, wishing to visit you," Morosa said.

"He passed the message through Qingyan?" Luo Feng was surprised.

"It's said that Moyu Qingyan's father, 'Moyu Hu,' has been recruited

by the city owner's mansion, and is now an official there," Morosa said with a smile.

Luo Feng had quite a good impression of 'Moyu Hu,' the first creature he had become acquainted with upon arriving in the Land of Origin. Moyu Hu would spare no effort for the sake of his three children. Just because of this, Luo Feng admired him greatly.

"Let Moli Meng come," Luo Feng said.

"Yes, I will make the arrangements immediately," Morosa left quickly.

Since the Moli Clan's cave mansion was also in the Primal Chaos Residential Area, it took only a moment for Moli Meng to arrive with Diaorong Qi for the visit.

"Lord Luo He," Moli Meng greeted with great enthusiasm.

"Supreme," Diaorong Qi, with tears in her eyes, immediately knelt down, "Thank you, Supreme, for taking action to avenge my father and the many lost lives of the Diaorong Family."

"Please, take a seat," Luo Feng said, already seated.

Moli Meng took a seat opposite Luo Feng, while Diaorong Qi sat to the side.

"I am Moli Meng, fortunate enough to serve as Deputy City Lord of Huyang City," Moli Meng said with a smile. "Hearing about Brother Luo He's slaying of the Blood Python Association Leader, I am filled with admiration and have come to visit."

The many important affairs of the city owner's mansion are decided jointly by the Five Great Families, and Moli Meng represents the Moli Clan, also serving as the Deputy City Lord.

"It's a trivial matter," Luo Feng remarked.

"It may be trivial to Brother Luo He, but to our city owner's mansion, it is certainly not. Throughout the Land of Origin, Dark Forces are innumerable and indestructible," Moli Meng said shaking his head. "Our city owner's mansion can only try to restrain them, unable to

eradicate them completely.

If we do not give them a little sustenance, Dark Forces would completely turn hostile, rampantly killing and plundering."

"Maintaining order is not easy," Luo Feng nodded.

With a wealth of intelligence information from the veins of God King Jin and Duan Dong River, he was aware of how insanely berserk some terrifying beings could be, causing mayhem and plunder, against which the weaker True Gods were utterly powerless.

The city owner's mansion attempted to maintain balance by enforcing constraints while providing some sustenance. This had become a desirable place to live for the weaker True Gods.

"The residential areas of True Gods are absolutely safe! During the bustling day and at some thriving places at night, we absolutely forbid Dark Forces from making a move," Moli Meng continued. "But if someone wanders into secluded and shadowy places and gets killed by Dark Forces, there's nothing we can do."

"This is also to give Dark Forces a slight reprieve; otherwise, if they're driven too hard, they would defect to Shi Kingdom's Forces," Moli Meng said, shaking his head. "Shi Kingdom's Forces are truly the biggest scourge for the Huyang City."

Luo Feng listened.

"Little Qi, you may leave first," Moli Meng looked over at Diaorong Qi, who respectfully bowed to Luo Feng with gratitude before withdrawing.

"Brother Luo He," Moli Meng spoke in a low voice, "I want to ask, if the city owner's mansion offers a bounty, would you be willing to take action to kill the leader of Shi Kingdom's Forces, 'Xue Yun'?"

"I've heard that the leader of Shi Kingdom's Forces, 'Xue Yun,' has had several confrontations with the city owner's mansion. Even the full mobilization of Huyang City's great formation and the personal involvement of Commander Moli Xiao haven't been enough to deal with Xue Yun?" Luo Feng said.

Acting in Huyang City, the city owner's mansion has the advantage of home ground.

Yet, Xue Yun remains at large.

"He is very strong," Moli Meng admitted.

"So, you're looking to hire me. Naturally, the price has to be higher," Luo Feng said.

Moli Meng was surprised.

He really dared to accept?

"How much?" asked Moli Meng.

"Besides the bounty offered publicly by the Flame Wind Pavilion, I'd add an extra five million Cosmic Sand," Luo Feng said. "I can give it a try, but I do not guarantee success. If I fail, I won't ask for the bounty."

Moli Meng shook his head. "That's too high. If the city owner's mansion was really willing to offer that much, we would have already publicly put up a reward of six million Cosmic Sand at the Flame Wind Pavilion. That way, some terrifying powerhouses from other places would probably come rushing over."

"How much can you offer?" Luo Feng inquired.

"The current bounty from the blood cloud at the Flame Wind Pavilion is one million Cosmic Sand; we can add another million Cosmic Sand," Moli Meng said, looking at Luo Feng.

Luo Feng shook his head. "Too little!"

"If Brother Luo He is interested, I could think of a way, but adding five million Cosmic Sand is impossible," Moli Meng said.

"You folks better find Xue Yun first," Luo Feng said no more. Before killing the Blood Python Leader, Luo Feng had thought about dealing with Xue Yun. But the biggest problem... they couldn't find him.

Moli Meng nodded: "He's hiding very carefully. Once we find him, we'll contact you."

"We'll talk about it then," Luo Feng agreed.

"Oh, by the way, Brother Luo He, the Blood Python Leader must have sent messages to several forces before his death," Moli Meng said. "I've received one."

"Oh? What message did he send before he died?" Luo Feng asked.

"Brother Luo He, give me one communication imprint, and I will send you the message in full," Moli Meng said.

Luo Feng also took out a transmission token, and both parties left a communication imprint, enabling them to contact each other.

"An ordinary transmission token?" Moli Meng recognized it.

Such ordinary transmission tokens have a range slightly larger than that of Huyang City and can even be blocked by small Cosmic Domains. However, the more powerful beings are, the more willing they are to use these ordinary transmission tokens.

"This is the message he sent me," Moli Meng immediately sent Luo Feng a copy.

Luo Feng laughed upon seeing it: "His Mechanical Stream Secret Treasure is worth 1.5 million Cosmic Sand, and mine is worth 5 million Cosmic Sand? I wasn't aware that my Mechanical Stream Secret Treasure was so expensive."

Moli Meng was secretly alarmed; this Luo He was so confident that he didn't even hide his possession of the Mechanical Stream Secret Treasure right in front of him.

Clearly, Luo He had confidence in himself.

"Brother Luo He, you must not be careless," Moli Meng warned. "Such a vast fortune could attract some terrifying powerhouses from other places to come to Huyang City to deal with you."

"Would they believe it?" Luo Feng asked.

"There may be some who do. Anyone who dares to make a move will have some sort of reliance," Moli Meng said.

Luo Feng nodded. "Brother Moli, thanks."

Deep inside, Luo Feng was quite looking forward to having some powerful beings show up; he could become even wealthier.

Thanks to the new Alliance Hierarchs for their rewards: Rapid Waters, MAOKES, Yuan Dazhuang, and Wu William.

Chapter 33: Chapter 32: The Foreign Powerhouse

Yu Kingdom, within the Yun Mao Primal Chaos State.

In the depths of an ancient mountain range, a tribe lived and thrived. The gathering place, however, was silent at the moment, as tens of thousands of creatures from the tribe lay without sound or movement.

Suddenly—

An essence flew out from the bodies of these tens of thousands of creatures. Their combined essences formed a figure clad in a gray robe, whose face was obscured by the garment.

"The minds of the tens of thousands of creatures in this tribe are too weak. My bloodline has devoured their mental consciousness, and they didn't even react," the figure in the gray robe shook his head lightly, "Devouring billions of such weak True Gods would barely benefit me at all."

"I need some precious resources. If I could absorb the essence blood of Primal Chaos Level Exotic Beasts, the help would be far greater," the figure in the gray robe mused.

"To strive toward becoming a Primal Chaos Overlord through the path of bloodline cultivation, how difficult it is."

Bloodline cultivation is easy at the beginning, but as one progresses, the need for resources increases dramatically. In the entire Land of Origin, the limit for bloodline cultivation is the 'Primal Chaos Lord Realm.' To break through to Primal Chaos Overlord, naturally, there are many barriers to overcome.

"Hmm?" The figure in the gray robe took out a Karmic Messenger Order with a flip of his hand. He wasn't worried about being locked by karma, for the high and mighty Primal Chaos Overlords hardly noticed him. As for the eternal true gods?

In his view, the eternal true gods were his prey!

"Jiu Jiang Primal Chaos Prefecture's Huyang City, Luo He? He killed a leader of a dark force within Huyang City, 'Association Leader Mu Yang of the Blood Python,' and possesses at least two Mechanical Flow treasures worth more than 6.5 million Cosmic Sand?" A flicker of interest crossed the figure in the gray robe's mind.

"When it comes to sneak attacks and assassinations, there are few eternal true gods that can survive my hands." The figure in the gray robe was very confident.

He had traversed many Primal Chaos Prefectures and was rich in experience from clashing with the powerful.

"A trip to Huyang City it is then. Once I arrive, I'll head to the Flame Wind Pavilion to gather detailed information about this Luo He, and then plan the ambush," the figure in the gray robe said as he moved and completely merged with heaven and earth, vanishing without a trace.

He was hurtling through the Void at a terrifying speed, heading straight for 'Huyang City' in the Jiu Jiang Primal Chaos Prefecture.

As for the area where he was originally located, the tens of thousands of creatures that lay motionless, their bodies had completely disintegrated.

The reason so many tribal people were eager to live in large cities was exactly because of the unpredictability of the wilderness. They could face disaster at any moment.

A terrifying Exotic Beast passing by could swallow an entire tribe in one bite.

An eternal true god passing by could, for the sake of cultivation, wealth, or simply to vent, easily destroy a tribe with a flick of their

hand.

Only by living within the city walls could they have stable lives.

******

Huyang City.

"Brother Shang, do you have time? I'm treating you at the Fire Realm Restaurant," Luo Feng contacted Shang Tianyan.

"Brother Luo He is treating? In the whole Huyang City, countless eternal true gods couldn't even beg for such an opportunity, of course I have time! I can set off right now!" Shang Tianyan replied.

"Haha, great, see you at the Fire Realm Restaurant later," Luo Feng liked Shang Tianyan's forthright nature.

After making the arrangements, Luo Feng immediately set off with Morosa and Moyu Qingyan.

Inside a Flying Boat.

Morosa spoke from the side, "Master, Shang Tianyan is just an ordinary eternal true god. Why are you giving him so much face?"

In Morosa's view, his master, Luo Feng, who could enslave Sector Beasts and himself had a Perfect Divine Body, was a genius among geniuses. Ordinary eternal true gods didn't deserve too much of his master's attention.

"Making friends is not only about the strength," Luo Feng said.

"Is that so?" Morosa didn't quite understand. In his eyes, those ordinary eternal true gods were only fit to be food.

"Moreover, my interactions with Brother Shang are actually more of me seeking his help," Luo Feng said, "I often ask him about artifact refining skills, and he has always given me guidance without reservation."

Morosa said, "When you ask for his help, Master, that is his great

fortune."

Meanwhile, Moyu Qingyan listened quietly, not daring to interject.

Sometimes he wondered; his master was indeed very powerful, yet as a servant, the true god of void space, Lord Luo Sa, spoke quite casually.

"Master is too kind, that's why he tolerates such disrespect from Lord Luo Sa," Moyu Qingyan thought to himself, as he dared not show any disrespect either.

"Qingyan," Luo Feng called out.

"Master," Moyu Qingyan replied with utmost respect.

"I hear from Moli Meng that your father, 'Moyu Hu,' has taken a position in the city owner's mansion?" Luo Feng asked.

Moyu Qingyan responded, "My father also instructed me to thank the Master once you emerged from seclusion. I was looking for an opportunity to speak of this as well."

"Thank me? Moyu Hu is quite polite," Luo Feng nodded.

"My father has always been focused on the well-being of my three brothers and me. I was fortunate to follow the Master," Moyu Qingyan said, "He also tried his best to send my elder brother to the Zhu Clan and my youngest brother to the Heavenly Flame Sect."

"Afterwards, following your killing of the Blood Python Leader, my father was recruited to the city owner's mansion, and my elder brother's position rose within the Zhu Clan; he was even taken as a disciple by an eternal true god, 'Zhu You,'" Moyu Qingyan explained.

Luo Feng was surprised, "The eternal true god 'Zhu You' from the Zhu Clan has taken your elder brother as his disciple?"

"Yes," Moyu Qingyan nodded. "My father said that both the city owner's mansion and the Zhu Clan probably want to make connections with my master. But within Huyang City, there are very few who have a relationship with my master. That's why they

bestowed favor upon my father, and my brother."

Luo Feng chuckled.

Indeed, he only had two servants, one Morosa, one Moyu Qingyan.

Other powers could only start from the Moyu Family, which indeed changed the family's fortunes significantly.

"How about your third brother?" Luo Feng asked.

"My third brother is still in the Heavenly Flame Sect, learning the basic skills," Moyu Qingyan said. "The artifact refining skills within the Heavenly Flame Sect are strict and must be learned step by step from the basics."

Luo Feng nodded, "Your father is quite the strategist, the Heavenly Flame Sect has a good reputation, and their sect leader Shang Tianyan is also a good friend of mine. The Zhu Clan is even the number one local family in Huyang City. He sent one child to the Heavenly Flame Sect and the other into the Zhu Clan, with much thought and effort."

The five great families of the city owner's mansion are not native families.

They are either branches of Godly King families or branches of Primal Chaos Overlord families.

The most powerful of the true local families rooted in Huyang City, grown over time, is the Zhu Clan. The Zhu Clan conducts their business seriously and doesn't get involved with dark forces, yet their power is extremely strong.

Within Huyang City, only a few can kill the Blood Python Leader. And the chief of the Zhu Clan, 'Zhu Hu', is one of them!

In terms of strength, none of the five great families dare say they are stronger than the Zhu Clan. Of course, in terms of background, the five great families have overwhelming support and can call upon terrifying entities at any time.

"My father has indeed tried every possible way for us three brothers. But my father being able to enter the city owner's mansion, and my elder brother being taken in by an eternal true god, it's all thanks to the master," Moyu Qingyan said gratefully.

"If you want to thank me, then master the Ten Fundamental Laws as soon as possible," Luo Feng said.

"Yes." Moyu Qingyan was very clear that he had encountered an incredible opportunity, but only if he could seize it!

Mastering the Ten Fundamental Laws was the first test of becoming a disciple. He invested over ninety percent of his time every day in contemplating the laws, daring not to slack in the slightest. He even thought of ways to coax 'Lord Luo Sa', seeking guidance from him.

...

Fire Realm Restaurant.

"Supreme!" Black Butcher was extremely excited and came out to meet him ahead of time. Over time, the news that Luo He had killed the Blood Python Leader had gradually spread from the upper echelons of Huyang City to the middle levels.

Black Butcher, who ran a restaurant, came and went and was quite well-informed, having heard the news.

Moreover, with the Blood Python Association headquarters turned to ruins, those businesses that had to pay 'tribute fees' were already discussing it.

"Hahaha..." Luo Feng looked at Black Butcher's excited demeanor and joked, "Black Butcher, has the Blood Python Association exempted your tribute fee?"

"With the Blood Python Association gone, of course there's no such thing as a tribute fee anymore," Black Butcher said gratefully. "And the other two dark forces contesting the Blood Python's territory have both come to me, saying they will excuse my Fire Realm Restaurant from tribute fees in the future."

"The two dark forces contesting the Blood Python Association's territory? Which two are they?" Luo Feng asked curiously.

"One is the Thousand Mountain Tower, the other is the Six Lords Alliance. But they've both been very friendly to my Fire Realm Restaurant," Black Butcher said gratefully. "I know all this is because of you, Supreme."

Luo Feng smiled lightly, "They do seem to know what's good for them."

"They are afraid that if they collect tribute fees, you'll go and annihilate them," Shang Tianyan commented as he came out of a distant building. "Brother Luo He, you are slower to treat than I am, huh?"

"I've come as quickly as I can," Luo Feng said with a smile as he approached, "Black Butcher, quickly prepare some food and drinks, put some extra effort into it."

"I'll do my utmost," Black Butcher said, full of enthusiasm.

Luo Feng and Shang Tianyan then entered the building together.

"You must feel that many forces in Huyang City are orbiting around you," Shang Tianyan said with a smile. "Huyang City may seem crowded with strong individuals, but in the end, it's the strongest existences that decide everything. And now, you've also become a member who influences the order, most importantly, you are unattached with no family!

Naturally, many forces want to win you over, willing to pay a high price."

"Want to win me over? The usual price is not enough to catch my eye," Luo Feng poured wine for Shang Tianyan himself, "Come, let's drink."

"Brother Luo He pouring wine himself, not many are privileged enough to taste it," Shang Tianyan said delightedly as he picked up his cup.

After a drink, Shang Tianyan looked outside in surprise.

At that moment, Moyu Qingyan was naturally standing guard outside the building, while Morosa was sitting on a large rock not far away, sipping from a wine jug and simultaneously ordering some food from the Fire Realm Restaurant.

"Your servant seems quite at ease," Shang Tianyan said.

"When I was still a true god, he followed me. He may be a servant, but he's like a brother," Luo Feng said. "By the way, I invited you today because I've encountered some difficulties with body refinement."

"Body refinement is just a branch of artifact refining, tell me any troubles you have," Shang Tianyan said, brimming with confidence when it came to artifact refining.

One asked, the other answered.

Luo Feng inquired about some perplexing points in the "Primal Chaos Great Strength Diagram" regarding the second phase of body refinement, and Shang Tianyan easily clarified these perplexities from different angles, enlightening Luo Feng.

Thanks to the five new Alliance Hierarchs who tipped: I Go Tomato, CATREN2000, Little Fish Blowing Bubbles, Lord of the Galaxy, Sacred Descend.

Chapter 34: Chapter 33 Second Body Refinement

"The Primal Chaos Great Strength Diagram" mandates three body refinement sessions at the eternal true god stage. If the "third body refinement" demands a high understanding of the mysteries of law and skills in artifact refining, then the requirements for the "second body refinement" are relatively much lower.

Luo Feng, who had grasped the essence of the laws, and with the guidance of "Shang Tianyan," one of the top artifact refining masters in Huyang City, coupled with his previous accumulations, fully comprehended the key points of the second body refinement during this meal period.

"I suppose I've got the theory down; next comes the practice," Luo Feng said with a smile.

"Theory is the foundation, but practice is the true reflection of strength," Shang Tianyan said with a laugh, "Brother Luo He, since you are refining your body, even if you fail occasionally, you can always refine it again. Body refinement is much simpler than refining artifacts."

A godly body, even if mostly destroyed, can still recover, so of course the margin for error in body refinement is extremely high! Meanwhile, forging weapons, armors, Mechanical Stream Secret Treasures, and the like have a much lower tolerance for mistakes.

"Haha, if body refinement were as difficult as artifact refining, the path of body refinement wouldn't be so prosperous," laughed Luo Feng. Many cultivate body refinement in conjunction with other practices, but very few also undertake artifact refining.

"In the end, this world respects strength above all. What's the use of

having strong artifact refining skills?" Shang Tianyan shook his head, "Against someone with greater strength, don't you still have to bow your head?"

Luo Feng nodded. His master, the Mountain Sitting Guest, could refine Godly King level weapons and had many friends, but what did that amount to?

Faced with the intimidation of the Shi Kingdom, Jin State only had the path to ruin. The Mountain Sitting Guest didn't pin his hopes on those friends but instead fled to the Universe Ocean.

Eventually, relying on others is never as good as relying on oneself!

Inside the pavilion, Shang Tianyan and Luo Feng fell silent for a moment. Shang Tianyan's eyes became distant as if visualizing the figure he longed for day and night.

…

Fire Realm Restaurant.

Suo Zi was diligently preparing dishes. Having been at this small eatery for over a century, he had gradually become adept at some of the ordinary cuisines.

"Done," Suo Zi said, waving his hand. A delicious dish was successfully plated and carried away by another attendant.

"Brother Suo Zi's culinary skills have become quite remarkable," praised the other chefs of the Fire Realm Restaurant, who were also disciples taken in by the Black Butcher and had been following him for an even longer time.

"Compared to my senior brothers, my cooking skills are still very ordinary," Suo Zi said with a smile. Being able to cook was a significant advancement for him.

"Suo Zi, Suo Zi!" Suddenly, a shout rang out.

Upon hearing this, Suo Zi excused himself, "My brother is here, I'll step out for a moment."

The other chefs paid no mind as Suo Zi was still learning and could only prepare a few relatively simple dishes, hardly a mainstay yet.

Stepping outside, Suo Zi immediately saw Suo Yun waiting for him.

"Suo Yun," Suo Zi said, somewhat surprised, "You…"

Suo Yun was full of spirit, his smile brilliant: "I've broken through. I've finally reached the Void True God Realm."

"That's great," said an excited Suo Zi. "We've been in Huyang City for over a century, and you, Suo Yun, have finally reached the Void True God Realm."

The two brothers had come to the city looking for opportunities! One became a guard for the Diaorong Family, and the other was recruited by the Fire Realm Restaurant.

"I seized the opportunity and received a few resources given to me by the young miss of the Diaorong Family. My bloodline refinement was successful, and I've broken through," Suo Yun said, looking at his brother. "Suo Zi, we were the ones with the highest talents in our tribe, and with ordinary cultivation secret techniques, we both reached the Ninth Realm of True God at a young age.

With powerful secret techniques and some resources in Huyang City... I've become a true god of void space, and you can do the same!"

Suo Zi's blood boiled at hearing this.

The two indeed had talents that were not much different from each other, and their Clan Leader thought these two young juniors could make a name for themselves in Huyang City.

"I've almost exhausted my resources and can't help you for now," Suo Yun said. "But now that I'm a true god of void space, it'll be easy to join a power and become a part of the middle ranks. When that happens, I'll bring you in! With the two of us brothers working together, I believe you'll quickly become a true god of void space as well."

"I'm doing quite well in the Fire Realm Restaurant, and my master is very good to me," Suo Zi hastily replied.

"Burying yourself as a cook, when will you be able to gather Primal Chaos Crystals?" Suo Yun turned and left, "Wait patiently. Once I'm settled in the new power, I'll pull you over."

Suo Yun, who had feared being killed or robbed, had been hiding in his dwelling to cultivate in secret, finally breaking through with the help of the resources.

Now at his most spirited, he thought his brother Suo Zi's decision to be a cook was very foolish.

"Sigh," Suo Zi watched as his brother walked away.

"Suo Zi," the Black Butcher approached.

"Master," Suo Zi greeted respectfully. Due to his consistently good performance and his relationship with Luo Feng, he had been formally accepted as a disciple by the Black Butcher.

"Your senior brother is right; accumulating resources as a chef is very slow," the Black Butcher remarked. "Even after such a long time, I have only accumulated limited resources. Perhaps following your brother will lead you to a brighter future."

Suo Zi shook his head, "Back in the tribe when hunting together, Suo Yun always liked to take risks. He's the same inside Huyang, he might succeed ten times, but if he fails just once, that's it! Previously, everyone in the Diaorong Family's cave mansion including the guards were all killed. He only survived because he was with Supreme Lord Luo He at the Fire Realm Restaurant.

I advised him but he wouldn't listen. Master, I'd rather stay and learn here at the Fire Realm Restaurant."

"If you wish to stay at the Fire Realm Restaurant, of course, I wouldn't let you down," the Black Butcher said with a smile, nodding his approval. He could cultivate this disciple with confidence since he wanted to take root in the Fire Realm Restaurant.

"I feel the culinary path suits me better," said Suo Zi. "Cooking also involves wielding Divine Power and Spiritual Will; it is a form of cultivation, too."

The Black Butcher nodded in satisfaction and then departed.

With the Pavilion Master gone, the other attendants quickly gathered around.

"Suo Zi, your brother has become a true god of void space?"

"So impressive, entering Huyang City and becoming a true god of void space in just over a century. I've struggled for thousands of years and am still just at the eightfold realm of True God."

"Brother Suo Zi was already at the Ninefold Realm in the tribe, his talent is far superior to ours."

The attendants said this with envy. Their abilities were far inferior to Suo Zi's, and most had not been formally taken in by the Black Butcher as disciples.

Suo Zi smiled, though his feelings were complicated.

In front of his master, he had been decisive, speaking his heartfelt truth. But how could he not feel some sting of challenge when his brother, who had grown up alongside him, 'Suo Yun', had become a true god of void space?

"Could it really be as Suo Yun said, that I must take risks to seize opportunities?" Suo Zi pondered, "But the clan leader said that when hunting, it's better to give up ten chances than to gamble with your life recklessly."

"The path of culinary skills may be slower, but it's surer. Given a few hundred epochs, I will definitely gather enough resources," Suo Zi thought to himself.

...

Inside the small building, Luo Feng also witnessed the encounter between Suo Zi and Suo Yun. The brothers had entered Huyang City

with Luo Feng, creating a certain bond.

"The basic true gods within Huyang City all struggle greatly," Shang Tianyan observed, gazing outside, "Most of them take desperate chances to seize opportunities, even at the cost of their lives, only to fail in their breakthroughs more often than not. Suo Yun has considerable talent to have achieved a breakthrough in one go."

Luo Feng nodded, "Both brothers are quite talented. The art of the Black Butcher's culinary skills is brilliant, on par with artifact refining and alchemy, requiring a perfect combination of divine power and spiritual will to create flavors that touch the spirit. Suo Zi's aptitude is also evident from how quickly he mastered it."

Shang Tianyan, holding his wine glass leisurely, said, "They both have talent, but among the massive quantity of true gods in Huyang City, even more lack such talent."

"Which one do you admire?" Luo Feng asked with a smile.

"If I were younger, I would have admired Suo Yun more. But now?" Shang Tianyan drank the wine in his glass, "I admire Suo Zi more."

Luo Feng nodded, his gaze sweeping across some envious attendants in the Fire Realm Restaurant.

"The road to cultivation forbids greed! Compared to the ordinary attendants of the Fire Realm Restaurant, Suo Zi is already very fortunate," Luo Feng stood up.

"Yes, forbids greed!" Shang Tianyan nodded, "It's easy to say, but how many mighty ones can achieve it? I have made greedy mistakes before. Some wrongs can be corrected. Some, once done, cannot be undone!"

Luo Feng nodded and said, "Brother Shang, I will be going into closed-door cultivation once I get back. If you have any urgent matters, you can also send a message to Luo Sa."

During closed-door cultivation, one needs to be completely invested, and the transmission token would naturally be shut off. Otherwise, messages from the Flame Wind Association's Dark Hall and some

acquaintances would disrupt Luo Feng's concentration.

As long as the message was given to Luo Sa, he could contact Luo Feng through spiritual transmission.

"Alright," Shang Tianyan nodded with a smile, "If there's an emergency, I will definitely make contact."

The two of them walked out together, and the Pavilion Master of the Fire Realm, Black Butcher, came out personally to send the two eternal true gods off.

...

Luo Feng, accompanied by Morosa and Moyu Qingyan, left the Fire Realm Restaurant and first went to the Flame Wind Pavilion to buy a large amount of materials needed for the second body refinement.

"For the first body refinement, I used about 100,000 Cosmic Sand worth of materials. According to my understanding of the second refinement, I estimate I'll need 650,000 Cosmic Sand worth of materials," Luo Feng thought, "Accounting for some losses, I should prepare a bit more and buy 700,000 Cosmic Sand worth."

The Flame Wind Pavilion, renowned throughout the Land of Origin, gathered the materials needed for 700,000 Cosmic Sand in just the time it took to drink a few cups of tea and chat.

"Since some materials are not commonly used, we had to source them from our cooperating guilds this time," the Vice President of the Flame Wind Guild said, "If Brother Luo He intends to buy more in the future, it's best to place an order through the Dark Hall in advance. We can prepare ahead of time."

They were only a branch in a large city, after all, with limited storage.

"Alright," Luo Feng picked up the Jade Vial, which contained the massive amount of materials worth 700,000 Cosmic Sand, many of which were piled up like mountains.

The Primal Chaos Great Strength Diagram did not consume many

resources, but Luo Feng's godly body was too vast!

"Next will be the third body refinement, and the materials needed will multiply many times over. I'll have to book in advance," Luo Feng thought, "However, I currently cannot afford that much material. I'm still too poor!"

After buying the materials, Luo Feng quickly left with his two servants.

Whoosh!

They flew back to the cave mansion, where Luo Feng stowed the Flying Boat and Morosa and Moyu Qingyan naturally landed beside him.

"Qingyan," Luo Feng instructed, "I am planning to enter a long period of closed-door cultivation, so you don't need to always wait in the cave mansion. You can go home and visit anytime."

"Thank you, master," Moyu Qingyan said gratefully. Since he had begun following Luo Feng, he hadn't gone back even once.

"What about me? Can I go out?" Morosa immediately asked. Last time the master was in closed-door cultivation, it lasted for more than an epoch.

"As long as you don't cause trouble, you're free to wander around Huyang City," Luo Feng said, then flew directly to the underground hall. As he entered, the doors of the underground hall thunderously closed, and the formation began to operate, isolating the inside from the outside.

Luo Feng had begun his closed-door cultivation.

"Lord Luo Sa, then I will go back first," Moyu Qingyan respectfully said.

"Go ahead, go ahead. I'm going to have a look around," Morosa said jubilantly, already flying out of the cave mansion ahead of him, "The master only goes to those few boring places. There are many fun spots in Huyang City!"

The two servants left one after the other.

The entire cave mansion was peaceful, with only Luo Feng in the midst of cultivation.

—

It has been a hundred alliances (a single-chapter order has been sent for a hundred alliances).

Here's a reminder that all alliance leaders who tip will receive an alliance leader gift box containing six merchandise items.

Alliance leaders can click 'add alliance leader QQ group' under the novel's brief introduction, join the alliance leader group, and privately message the administrator 'Hardworking Crab' with their address and telephone number, and the alliance leader gift package will be sent to them.

Thank you all for your support!

Chapter 35: Chapter 34 He's Here

More than 500 days after Luo Feng secluded himself, a figure in a grey robe entered Huyang City through the southern city gate.

"Finally, I've arrived at Huyang City." The grey-robed figure flew leisurely, habitually enveloping himself in his small cosmic domain, making him undetectable by the city owner's mansion's constant surveillance and other nearby cultivators.

Accustomed to taking on assassination missions, he was used to concealing his presence.

"This is the border of Yu Kingdom. As a border city, Huyang is much more prosperous than the average large city." The grey-robed figure, having seen and known much, noticed that in terms of size, number of cultivators, and liveliness, Huyang City ranked high among the large cities he had visited.

Suddenly—

"Boom!" A colossal flying treasure streaked across the sky at high speed, churning the air and disturbing the surroundings.

"Quick, get out of the way."

"Stay far away."

Some of the ordinary True Gods piloting flying treasures hurriedly evaded, and even some True Gods of Void Space had no choice but to dodge to the side.

"In Huyang City, those who dare to charge around so recklessly are usually descendants of powerful families with some background."

"According to the rules of Huyang City, only murder is considered a serious crime; a mere collision caused by a flying treasure… will hardly be severely punished. At most, they'll fine some Primal Chaos Crystals."

The many cultivators were helpless.

Within the colossal flying treasure were a number of guards, six merry descendants from prominent families drinking, and musicians playing music.

"How's my musician? Not inferior to those at the Dream Flower Pavilion, right?" One of the descendants laughed heartily.

At that moment—

Unseen, the Source of Law was subtly manipulated, altering the laws within the range of the flying treasure. All beings—those prominent descendants, the serving servants, the musicians, the surrounding guards—silently crumbled into dust and scattered into the world.

The colossal flying treasure, no longer steered by Divine Power, drew an arc across the sky and crashed onto the formation of a distant cave mansion. It was blocked by the formation and fell to the street outside the mansion, causing a stir among the many cultivators.

"That almost hit me." The grey-robed figure flew past, glancing at the distant colossal flying treasure, "Defying one's superiors deserves death!"

For him, snuffing out a group of weaklings was but a mere thought.

The grey-robed figure continued to fly leisurely, indifferent to the incident.

Such occurrences were common in his lengthy life. He was used to snuffing out any who slightly provoked him during his assassination missions in different cities. Since he always concealed his form and there wasn't any past interaction, it was impossible for officials to identify the murderer.

"Huff."

By the site of the crashed colossal flying treasure, patrols of Huyang Guards rushed over.

"To think these descendants of great families were killed in broad daylight?" The arriving Huyang Guards were both shocked and angry as they carefully inspected the flying treasure.

Rumble~~~ A giant scale-covered Exotic Beast with three swords on its back broke through the sky.

"Commander!" The surrounding Huyang Guards saluted respectfully.

The giant black-scaled, sword-bearing Exotic Beast bore a figure on its head, none other than 'Gaowu Shui,' the favored youngest disciple of Commander Moli Xiao. Now, Gaowu Shui had a significantly stronger aura and was already an Eternal True God.

"I received the message that, including descendants of the Qumeng Royal Family, a total of six major family descendants perished instantaneously, and all the accompanying servants and guards also died." Gaowu Shui looked down, "Have you found anything at the scene?"

"Reporting to the Commander, there's no trace, nor any energy fluctuations from an attack," reported a captain of the Huyang Guards. "To achieve this without a sound, the perpetrator must be an Eternal True God."

Gaowu Shui stood on top of the three-sword-bearing Exotic Beast, gazing at the crashed flying treasure, while his small cosmic domain naturally enveloped the area for a thorough inspection.

"Killing without a trace, yet the treasures belonging to the victims remain inside the flying boat. Clearly, the murderer looks down on these trinkets," Gaowu Shui frowned. "The one who acted must be an Eternal True God."

With a profound accumulation of experience, he had recently made a breakthrough to become an Eternal True God. Because of his master, Commander Moli Xiao's favor, he immediately became one of the top ten commanders of the Huyang Guards. Currently, he was piloting

one of the Huyang Guards' top ten Mechanical Treasures—the 'Three-Sword Sky-Splitting Beast.'

Compared to Huyang's Ten Great Legions, the overall strength of the Huyang Guards was significantly weaker, and the power of their legion-class treasures was also much lesser.

The Three-Sword Sky-Splitting Beast only required one Eternal True God and three thousand True Gods of Void Space to operate.

"The city owner's mansion has reviewed the citywide surveillance but found no trace of the murderer," Gaowu Shui shook his head. "If that Eternal True God is very cautious, the city owner's mansion won't be able to track them down."

...

"Investigate, find a way to check every trace and find out who dared to attack and kill our family's descendants!"

"Investigate, whoever dares to kill a descendant of the Jiang Clan must be thoroughly identified."

The six descendants of prominent families who died were from two of the Five Great Families, including a descendant of the Qumeng Royal Family and one from the Jiang Clan. Naturally, the city owner's mansion mobilized its best investigators to scour for clues, but in the short term, no discoveries were made.

The deaths of these family descendants mattered little, as over the long years, the members of royal families like Qumeng had become uncountable. Those in Huyang City were merely an inconspicuous branch of the 'Qumeng Royal Family.'

"It seems the descendants of prominent families I've killed were quite ordinary," the grey-robed figure flew casually within Huyang City. "So much time has passed, and still no powerful beings have tracked me down."

"Clearly, the city owner's mansion has not employed divination to find me." The grey-robed figure pondered; he was accustomed to assassinations and had tried every method to conceal the cause and

effect, making it challenging to trace him through it. Divination was a more feasible approach, albeit at a high price.

He was capricious, striking whenever he wished and had even crushed to death the child of a Primal Chaos Overlord. That incident indeed caused great trouble!

Fortunately, that Primal Chaos Overlord had over 300 children, and the death of one did not lead to a particularly strong pursuit force being sent after him. This allowed him to escape the predicament with the life-saving techniques from his legacy! And that was how he ended up fleeing to the Yu Kingdom!

In the Yu Kingdom, he remained unchanged, killing as he pleased!

"I wish to purchase all information on 'Luo He,' the Eternal True God." The grey-robed figure flew mid-air, contacting via the Dark Hall's Transmission Order.

"All information on Luo He is worth 100 Cosmic Sand, do you confirm the purchase?" the Dark Hall replied.

"Purchase," the figure in the gray robe didn't care about the price, knowing that intelligence also has its levels, with higher levels being more expensive. And 'all intelligence' is even pricier. Fortunately, the Flame Wind Pavilion didn't have much knowledge about Luo Feng, so the pricing of this intelligence was not too high.

"Ying Cang, deduct 100 Cosmic Sand. You still have 829,200 Cosmic Sand remaining in the Dark Hall," the Dark Hall responded.

"Does your Huyang City have a bounty for Luo He?" the figure in the gray robe asked, not having found any through the transmission token.

"There is no bounty," the Dark Hall responded.

The figure in the gray robe was quite displeased and turned off the transmission token.

"The intelligence from the Flame Wind Pavilion is rather detailed." The figure in the gray robe also saw an image showing Luo Feng with

six pairs of golden wings unfurled behind him, surrounded by the Primal Chaos Current.

"Based on the image, Luo He's six pairs of wings closely resemble the 'Primal Chaos Golden Wings' from the Mechanical Stream Secret Treasure! Judging from the battle traces, his clash with the Blood Python Association Leader shows he holds an absolute advantage, highly likely having grasped moves from the Primal Chaos Realm." This detailed intelligence also contained some conjectures.

The intelligence from the Flame Wind Pavilion had mostly figured it out. However, since the 'Perfect Divine Body' had not appeared in the Land of Origin before, the Flame Wind Pavilion did not consider this possibility.

Thus, naturally, there were deviations in their conjecture.

"Grasped moves from the Primal Chaos Realm?" The figure in the gray robe was unconcerned.

Among the pinnacle existences of the eternal true gods, with their innate talents and understanding of the Primal Chaos Laws, even without fully comprehending all the Primal Chaos Laws, it's possible to occasionally grasp certain killing moves.

"No matter how high the comprehension, a godly body struck by a blow must die," the figure in the gray robe pondered, "According to the intelligence, he should be in secluded cultivation within his cave mansion right now. The most cautious time is during seclusion. I must wait for the opportunity, for the moment he lets down his guard the most, to launch a surprise attack!"

…

Flame Wind Pavilion.

"Pavilion Master, Ying Cang has come to Huyang City. He just purchased the information on Luo He through the Dark Hall," the Deputy Pavilion Master walked up to the burly man.

"He's come to Huyang City? It seems that the one who murdered the six major family descendants today is this Ying Cang," the burly man

said with a smile.

"It's just a pity that this information can't be sold," the Deputy Pavilion Master also said with a smile.

The rules of the Flame Wind Pavilion were harsh.

If they learned about the secrets of a customer through other channels, they could naturally sell it as intelligence.

However, if it was information about a transaction between the customer and the Flame Wind Pavilion, it was absolutely forbidden to be leaked. For instance, the information of Luo Feng purchasing artifact refiner materials worth 700,000 Cosmic Sand a while ago, the Flame Wind Pavilion would never divulge it.

Transactions must be kept confidential!

The operation of the entire Flame Wind Pavilion was monitored by a spirit formation, and even as the Pavilion Master or Deputy Pavilion Master, they dared not break the rules.

"He purchased the information on Luo He, probably to deal with Luo He," the Deputy Pavilion Master suggested.

"I've always been unable to see through Luo He; perhaps this Ying Cang can figure out his details," the burly man stated.

******

Time passed, and before one knew it, Luo Feng had been in seclusion for over 1,200 days, with the second layer of the 'Primal Chaos Great Strength Diagram' nearly complete.

The first seclusion took more than an epoch, mainly because the growth of the godly body to its pinnacle took a long time. The actual body refinement process wasn't very long.

This second time, Luo Feng focused only on body refinement, so naturally it was faster.

At this moment, in the underground hall of the 913th cave mansion

in Primal Chaos Armor,

Within the Star Tower, Luo Feng's towering, immense godly body of 18 billion kilometers had already taken shape.

The vast materials piled in the distance began to levitate, naturally starting to melt, and then merged into the towering godly body. After fusing into the godly body, Luo Feng also dispatched numerous thoughts to record the dense formation diagrams.

"The first body refinement just barely laid the foundation; it was relatively crude in all aspects."

"Now, the Secret Treasure structure is much more refined."

Luo Feng could sense the process coming to successful completion, feeling extremely clear.

His own godly body was an ultra-large Weapon Secret Treasure! The might of a 18 billion kilometers tall Weapon Secret Treasure was imaginable. The previous body refinement was rough, relying purely on size and the principle of 'Break Laws with Force' to have such power.

But now it was much more refined, and the power of the godly body was naturally much more terrifying.

"Buzz～～～"

As the body refinement throughout was completed, Luo Feng felt an innate pleasure, each gesture and each action now possessing several times more power than before. Even flexibility and speed had undergone a qualitative improvement.

"I've arrived in the Land of Origin and am still in a period of strength improvement," Luo Feng said with a smile.

Those top-tier eternal true gods generally have cultivated every aspect to the limit, with their blood lineage reaching the Ten Stages of the Eternal Realm, and their Secret Techniques reaching the limits of the Eternal Level. For them, progress is extremely difficult.

Luo Feng's 'Primal Chaos Great Strength Diagram' at the Eternal Level consists of three stages, and he had now only finished the second. For the 'World Breaking Nine Blades' at the Eternal Level with six blade techniques, he had only mastered three.

For Godly King Level Dharma like 'Duan Mie' and 'Dong Hua', progress was even slower, and for the 'Lie Yuan Technique,' the progress was the slowest, meant to be contemplated and enhanced over epochs of time.

"I'll go out for a walk to clear my mind." His mood jubilant from the successful second body refinement, Luo Feng quickly gathered the Star Tower and left the underground hall alone.

With a single thought, Luo Feng found the cave mansion eerily quiet; Morosa and Moyu Qingyan had not yet returned.

———

Thanks to the new rewarding Alliance Hierarchs: Shen Wei Shen, Xi He, and Yong Yuan Bu Xiang.

Chapter 36: Chapter 35 Dream Flower Tower Master

Following Luo Feng's transmission, Morosa and Moyu Qingyan both quickly rushed towards the cave mansion.

"Master, your retreat this time was far too short." Morosa returned first, alighting nearby with some dissatisfaction. The carefree and comfortable days were too fleeting.

Luo Feng glanced at him, "The duration of a retreat naturally varies. Do you still have enough Cosmic Sand on you?"

"Master understands me." said Morosa, smiling generously, "Indeed I'm almost out."

"Use it sparingly." Luo Feng tossed over a Ink Jade Bottle.

Catching the Ink Jade Bottle, Morosa examined the contents and found over a hundred Cosmic Sand and several piles of Primal Chaos Crystals. His smile brightened considerably, "Master is truly benevolent. There is no one more benevolent than Master in the whole Huyang City."

"Alright, alright, no more flattery." Luo Feng smiled.

He had forbidden Morosa from causing trouble, and without any income, Morosa needed some pocket money.

At this moment, Moyu Qingyan also returned, piloting his small Flying Boat. Stowing it away, he flew swiftly to Luo Feng and bowed respectfully, "Master."

"This period must have been quite enjoyable for you as well," Morosa said from the side. "Many forces took the initiative to befriend me,

and certainly, forces have done the same with you."

"Yes."

Moyu Qingyan replied respectfully, "During Master's retreat, some powers within Huyang City were unable to visit you, Master, so they came to befriend me. I rejected and ignored many, but I dared not refuse the thirteen major forces, and I accepted the gifts they gave me. The total value adds up to about 300 Cosmic Sand!"

After all, he was just a servant, and the gifts from each power were not too costly, but given Luo Feng's status, those major forces had to give at least 10 Cosmic Sand each.

"Qingyan has gathered so much. You must have received even more, right?" Luo Feng looked at Morosa, "Just now you said you were almost out."

Morosa smiled generously, accepting the gifts, and as for the favors they requested, he pushed them all away cleanly, "You know, Master, living expenses in Huyang City are somewhat considerable."

"Did they give you these gifts under any pretense or for favors?" Luo Feng asked.

"Nothing at all." Morosa said, "I just gave them a transmission token imprint, in case of any issues, they could contact me, and I could report their requests to you, Master."

"I also didn't agree to anything. Just provided a way to send messages." Moyu Qingyan added, "However, Brother Zhu You from the Zhu Clan, an eternal true god, asked me to convey a message. He wishes to host you, Master."

Luo Feng nodded, "The Zhu Clan is indeed the largest indigenous family in Huyang City. It might be worth meeting them."

"Shall I inform Divine Monarch Zhu You?" Moyu Qingyan asked.

"Yes." Luo Feng nodded.

Moyu Qingyan immediately contacted Zhu You with the transmission

token, and soon after, said, "Master, Divine Monarch Zhu You has invited you to meet tonight at the Dream Flower Tower."

"I haven't visited the Dream Flower Tower in a while." Luo Feng nodded, "Accept his invitation."

...

While Luo Feng emerged from his retreat, Gaowu Shui went to visit his master 'Moli Xiao' in the Moli Clan.

"How have you been progressing with the 'Three-Sword Sky-Splitting Beast'?" Moli Xiao looked at his favorite young disciple.

"The Three-Sword Sky-Splitting Beast, truly an Eternal Level Mechanical Flow Secret Treasure. I've only just barely managed to perform all the maneuvers of the 'Three-Sword Sky-Splitting Beast' after my studies," Gaowu Shui replied.

Moli Xiao nodded at his reply, "Your will is extraordinary, and you are also adept at formations. Just a short while after becoming an eternal true god, you have completely mastered all the maneuvers of the 'Three-Sword Sky-Splitting Beast.' I indeed did not misjudge you!"

"Master, as a newly-promoted eternal true god, I was appointed as one of the ten commanders of the Huyang Guards. Many eternal true gods are dissatisfied with this," Gaowu Shui said in a low voice.

The ten generals of the Huyang Legion and the ten commanders of the Huyang Guards were all capable of leading a legion-level Mechanical Flow Treasure. Moli Xiao himself led one of the legions.

Thus, there were only nineteen coveted spots available.

Strength represented power, as well as resources. The competition for the nineteen lucrative positions was fierce.

Eternal true gods from the Five Great Families themselves, along with those attached to the Five Great Families, amounted to over a hundred eternal true gods! One can imagine how fierce the competition was. For Gaowu Shui, a newly advanced eternal true god, snagging one spot naturally attracted the dissatisfaction of many

eternal true gods.

"Don't bother with those losers," Moli Xiao said indifferently. "A legion-level Mechanical Flow Treasure also depends on who operates it! Like me, leading one legion, I can suppress the collective effort of the other nine legions!"

"At the level of a true god of void space, your spiritual will reached the pinnacle of an eternal true god! And you excel at formations... you're naturally suited to operate Mechanical Flow treasures. Once you've accumulated enough experience, I will find an opportunity for you to command one of the Huyang's Ten Great Legions."

"Command a Huyang Legion?" Gaowu Shui was surprised and felt the pressure.

"Huyang's Ten Great Legions are far more important than the Huyang Guards. The difficulty of controlling Mechanical Flow Treasures is even higher. You must have sufficient experience, and it would be best if your spiritual will could break through to the Primal Chaos Dominator Level. Then the entire city owner's mansion will not object to you leading a legion," Moli Xiao advised.

Gaowu Shui nodded, "I understand."

His spiritual will had reached the level of an eternal true god when he was just a true god of void space. As for the breakthrough to the level of the Primal Chaos Overlord, Gaowu Shui was indeed determined and eager.

"Go on." Moli Xiao nodded.

Out of the many subordinates and disciples he had cultivated, Gaowu Shui was the most suitable for operating Mechanical Flow treasures, which was why Moli Xiao nurtured him extensively.

Gaowu Shui respectfully excused himself.

Walking through a garden in the Moli Clan's cave mansion, where Moli Feiyun and Diaorong Qi had been waiting, they immediately intercepted him.

"Senior Brother Gaowu." Moli Feiyun called out.

Gaowu Shui had no choice but to stop, feeling quite troubled.

Having her trained as an eternal true god, he had yet to dabble in romantic relationships. Due to the bloodline cultivation system in the Land of Origin, most life forms were flesh and blood and could indeed reproduce.

However, on the Land of Origin, life forms generally had very long lifespans, with true gods living for 30,000 epochs, and those of the level of true god of void space and beyond having virtually unlimited lifespans.

They did not need to eat or drink, surviving simply by absorbing the power of heaven and earth! Many cultivators had no plans to seek partners.

Gaowu Shui was just like that!

Cultivation was filled with endless delights. Why need a wife?

"Feiyun," Gaowu Shui could only give a forced smile. He couldn't afford to neglect Moli Feiyun, given the grace his master had shown him in training.

"Today just happens to be the day I've met Senior Brother Gaowu. How about we go out and have some fun together?" Moli Feiyun's mind was all on Gaowu Shui.

"Commander Gaowu, Feiyun almost speaks your name every day," Diaorong Qi said with a laugh on the side. "In my opinion, you might as well move to the Moli Family. That way, you can see each other every day."

"Yes, yes, yes, move to our place. We have more than ten eternal true gods living in our household, plenty of room," Moli Feiyun said.

Just as Gaowu Shui was about to speak, a young member of the Moli Family flew over from a distance, scrutinizing Gaowu Shui: "Commander Gaowu Shui!"

"Young Master Moli Lian," Gaowu Shui said with a smile.

"Moli Lian, what are you here for?" Moli Feiyun asked dissatisfiedly.

Moli Lian scoffed.

The Moli Clan was also quite large, and Moli Lian was a young genius of his generation, personally mentored by Moli Xiao and was regarded as a hopeful to become an eternal true god.

But Gaowu Shui was Moli Xiao's favorite disciple.

Moli Lian had always treated 'Gaowu Shui' as a rival, and now that Gaowu Shui had become an eternal true god first and had been promoted to one of the ten commanders of the Huyang Guards, Moli Lian was naturally envious and jealous.

"Commander Gaowu Shui detests evil as if it were a personal enemy. I do admire that," Moli Lian said with a flip of his hand, tossing a golden pebble. "This Memory Stone records the evidence of the sins of 'Meiwu Qi' from the Meiwu Family. The evil of Meiwu Qi... even those Dark Forces are nowhere near his match. I wonder how Commander Gaowu Shui will deal with this monstrous criminal?"

"Moli Lian!" Moli Feiyun berated, "Meiwu Qi is an eternal true god of the Five Great Families' Meiwu Family. If there is to be a trial, it should be the Five Great Families who conduct it. There's no need for the Huyang Guards to intervene."

"According to the laws of Yu Kingdom, the Huyang Guards are responsible for dealing with illegal activities within Huyang City. I'd like to see if Gaowu Shui really detests evil as much as he claims to," sneered Moli Lian.

Gaowu Shui received the Memory Stone and investigated with his Divine Power. The information he accessed changed his expression slightly.

"Are these accusations true?" Gaowu Shui looked toward Moli Lian, "You're telling me that when the common city 'Fang Jiu City' was breached by a horde of Exotic Beasts, countless citizens died or were injured, and you say billions of true gods were taken into his 'Sinful

City'?"

Jiu Jiang Primal Chaos Prefecture had three large cities and one hundred and eighty-nine ordinary cities.

The presence of eternal true gods within ordinary cities was rare, making them much less secure.

"You've only just become an eternal true god. If you were older, you'd slowly come to know," Moli Lian shook his head. "Meiwu Qi, to show off, took many young members of the Five Great Families into his Secret Treasure 'Sinful City.' Quite a few youths from the Five Great Families have seen it with their own eyes!

The billions of true gods from Fang Jiu City… they're just a part of the 'Sinful Citizens' of the Sinful City."

"Of course, most of the citizens captured into the Sinful City have long been tortured and played to death," Moli Lian scoffed. "Such a figure of sin, Commander Gaowu Shui, what do you plan to do?"

Gaowu Shui said nothing and walked away.

"Detests evil like an enemy? I'd like to see how he really faces off against 'Meiwu Qi' of the Meiwu Family!" Moli Lian watched him leave, full of contempt.

"Moli Lian, what exactly are you trying to do?" Moli Feiyun couldn't believe it.

"Don't you see? I'm just stirring the pot, setting Gaowu Shui against Meiwu Qi," Moli Lian stated. "Whether one or the other falls, it would delight me."

"I'm going to tell Father about this," Moli Feiyun said.

"Suit yourself."

Moli Lian turned and walked away.

******

The night fell.

Luo Feng, accompanied by Morosa and Moyu Qingyan, arrived at the Dream Flower Tower.

"Brother Luo He," Zhu You had been waiting for some time.

"Brother Zhu You has arrived quite early," Luo Feng said.

"Haha, having the chance to host Brother Luo He, of course, I should come early. I have arranged everything for the banquet, please," Zhu You said with a laugh. His hair was like little snakes, his face adorned with green Secret Patterns, but his smile was brilliant.

Luo Feng and Zhu You flew together, their servants and attendants following behind.

"The Zhu Clan have been rooted in Huyang City for over a million eras, passing down from generation to generation until now. There are hardly any secrets in Huyang City that our Zhu Clan isn't aware of," Zhu You said with a smile. "In terms of being well-informed, the Flame Wind Pavilion, the city owner's mansion, Shi Kingdom's Forces...

at least within Huyang City, they probably all fall a bit short compared to our Zhu Clan."

Luo Feng nodded, this he actually believed.

The Zhu Clan was too vast, having infiltrated every industry in Huyang City, including high-ranking experts in the Huyang Legion and the Huyang Guards.

"Who within Huyang City doesn't know of the Zhu Clan's reputation?" Luo Feng remarked.

"Lord Luo He, Divine Monarch Zhu You," the Dream Flower Tower Master personally greeted them. She needed to survive in Huyang City, and she couldn't afford to offend either of the two before her.

"Shall I call for some music, Divine Monarch Zhu You?" Zhu You didn't even look at the Dream Flower Tower Master, instead, he

smiled at Luo Feng, "As long as Brother Luo He wishes to listen, I believe the Dream Flower Tower Master will definitely oblige."

"It depends on whether Lord Luo He wants to listen or not," the Dream Flower Tower Master said with a light smile.

Zhu You gave an order, and the Dream Flower Tower Master couldn't refuse.

"It's not necessary, just let Araya come," Luo Feng said.

The Dream Flower Tower Master was taken aback for a moment, then smiled, "Lord Luo He truly favors Araya."

"It's because the Tower Master's Illusion Techniques are too powerful, I can't bear them," Luo Feng said with a smile.

"Then hurry and have Araya come over," Zhu You beckoned, leading Luo Feng forward as they continued to fly.

The Dream Flower Tower Master looked on in silence.

Zhu You, though seemingly very friendly to Luo Feng, was responsible for handling many affairs of the Zhu Clan. The city owner's mansion and Shi Kingdom's Forces had to give him some face, and the eighteen Dark Forces wouldn't dare to be enemies with the Zhu Clan.

"Since that last time, Luo He has been unwilling to listen to my Illusionary Melody," the Dream Flower Tower Master felt somewhat disappointed. She longed to influence Luo He more than Shang Tianyan or Sang Shuiyun did.

Chapter 37: Chapter 36 Continue to Take on Bounty Missions

Dream Flower Tower, besides Luo Feng and Zhu You, two esteemed guests, there are two other distinguished guests tonight.

"Hmm?" Two figures looked out through the palace doors to the outside, noticing Luo Feng and Zhu You flying over from a distance.

"That must be Zhu You and Luo He," the man with blue hair exclaimed, "Luo He's name is often heard these days, he single-handedly destroyed a Dark Forces faction, killing the Blood Python Association Leader, a truly remarkable feat!"

"It's just a Dark Forces faction, after all," another young man in a purple robe scoffed, "Nineteen Dark Forces factions, they sound formidable in name. But don't they have to bow their heads obediently before our Five Great Families? Most of the Cosmic Sand they earn has to be offered to our families."

"Brother Meiwu, our family is strong, but in terms of individual strength, Lord Luo He is much stronger than we are," the blue-haired man said.

"Brother Jiang, don't flatter those idlers," Meiwu Qi said indifferently, "Even if they have intelligence, and occasionally fortune brings them substantial strength, each step forward is extremely difficult for them. Top-tier inheritances, precious resources, mentor's guidance... they have to fight for every single opportunity. How can they compare with the descendants of our great clans?

These resources are ours from birth!"

The blue-haired man gave a self-deprecating smile and raised his glass, "Born with abundant resources, we barely become eternal true gods. In terms of talent, we are far from the likes of Luo He and Zhu Hu. They still have the hope of challenging the Primal Chaos Overlord, while we can't see even a glimmer of hope."

"The limit of the bloodline path is the Primal Chaos Overlord. We must be very strong in every aspect, and that hope is beyond us," Meiwu Qi said with a laugh, "But for the likes of Luo He and Zhu Hu, even risking their lives is in vain!"

"Ah, becoming a Primal Chaos Overlord from an eternal true god is indeed very difficult," the blue-haired man admitted.

In the entire Land of Origin, there are not many Primal Chaos Overlords, and places like the Flame Wind Ancient Country and Thunder Ancient Country, along with some terrifying forces, are better at nurturing strong individuals and are more likely to produce a Primal Chaos Overlord.

In the public eye, the probability of a commoner becoming a Primal Chaos Overlord is absurdly low.

"In the Land of Origin, we of the Royal Family and the descendants of the Primal Chaos Clans, are born high above. Even when fighting to the death with Shi Kingdom's Forces, it is the so-called powerful eternal true gods like Luo He and Zhu Hu who are fighting on the front lines. If we win, we continue to rule Huyang City. If we lose, at worst we leave Huyang City," Meiwu Qi laughed heartily.

"Our Primal Chaos Clan has also produced a Primal Chaos Overlord, who props up the clan," the blue-haired man said, "Luo He, Zhu Hu, and these powerful eternal true gods, they all go to fight to the death. With many top eternal true gods weathered by such life and death challenges, ultimately new Primal Chaos Overlords will rise. But we will never have that opportunity."

"We have no hope, but they're the ones running out of life," Meiwu Qi laughed uproariously, "I've seen far too many of these powerful eternal true gods fall."

...

Luo Feng and Zhu You took their seats, while some of the servants they brought sat in a corner.

While listening to Araya's Illusionary Melody, Luo Feng naturally used the "Lie Yuan Technique's" Seven Emotions of Heart Refining Technique, thoroughly immersing himself in it. Although he usually maintained the "Great Destruction Heart Refining Technique" to toughen his will, occasionally practicing the "Seven Emotions of Heart Refining Technique" had a different flavor.

"This Luo He really enjoys Araya's Illusionary Melody. No wonder he fell out with the Blood Python Association over this little Musician," Zhu You observed from the side. After all, as an eternal true god, he wasn't much affected by the Illusionary Melody. But with Luo Feng closing his eyes and fully indulging in it, it wasn't good for him to speak.

When the performance was over.

"Excellent, excellent, excellent," Luo Feng opened his eyes; his cultivation journey had naturally left him with many regrets, but in the Illusory Realm, he could make up for them, the emotional stimulation was extremely intense.

"Supreme, you flatter me," thought Araya, feeling very grateful for Luo Feng's importance. Naturally, she performed with all her heart.

Luo Feng's esteem had caused her value in Dream Flower Tower to surge, with her performance fee being a full ten times what it used to be! And there was no one daring to harass her either, even the "Thousand Leaves Vine Clan" backing her had much easier days within Huyang City, apparently no force wished to become the next Blood Python Association!

"You've made significant progress, keep it up," Luo Feng smiled and said. With the assistance of the "Seven Emotions of Heart Refining Technique," the strength of Araya's Illusionary Melody was indeed very suitable.

"Yes, Araya will take her leave," the little Musician respectfully withdrew.

Zhu You watched the scene and said with a laugh, "Brother Luo He is indeed benevolent, taking such good care of a mere little Musician."

"Hahahaha..." Luo Feng laughed, "I was immersed in that Illusionary Melody just now, neglecting Brother Zhu You."

"I was also enjoying the Illusionary Melody," Zhu You said, "Brother Luo He, how well do you understand Huyang City?"

"Only a superficial knowledge," Luo Feng replied.

Shang Tianyan had given him an overview of all the forces in Huyang City, including introductions to a large number of eternal true gods, which was all basic information. Detailed intelligence, especially on an individual eternal true god, was extremely expensive.

"Brother Luo He, after all, has been in Huyang City for only a little more than a century, it's still a short time," Zhu You said, "Give it time, and naturally, you'll understand a lot of the secrets."

"I haven't been in Huyang City for long and have only had a conflict with the Blood Python Association; I haven't crossed paths with other strong individuals," Luo Feng said.

"You indeed had only one conflict, but it resulted in the complete annihilation of the Blood Python Association," Zhu You smiled, "Now the Five Great Families and Shi Kingdom's Forces are all eying you."

"Oh?" Luo Feng listened attentively.

"The city owner's mansion and Shi Kingdom's Forces are fiercely battling, but both sides will use other strong individuals to fight to the death for them," Zhu You said, "Offering some benefits to entice outside powerhouses to help is their common practice. Brother Luo He, with your strength, both sides will definitely want to win you over."

Chapter 38: Chapter 36 Continue to Take on Bounty Missions_2

```

"My recommendation is, help out with the easy tasks to get some benefits! But when it comes to big trouble, it's better not to get involved," Zhu You said, "Preserving oneself is more important."

"Makes sense," Luo Feng nodded.

"In the entire Huyang City, besides the city owner's mansion, the Five Great Families, and the forces of the Shi Kingdom, there are still our third-party forces," Zhu You said quietly with a smile, "In terms of the number of eternal true gods and the most top-notch powerhouses, it is our native families and local forces that are truly the strongest."

Luo Feng nodded slightly, his stance seemingly relaxed, but he acknowledged the substantial overall strength, among which many hidden dragons and crouching tigers lay hidden.

"Brother Luo He, you are not a member of the Five Great Families. Even if you align with them, you are just working for them. The Shi Kingdom's Forces care even less about the lives of their henchmen," Zhu You looked at Luo Feng, "You were born to be on our side."

"There's truth in that," Luo Feng nodded.

Zhu You laughed heartily upon hearing this: "We are the true force to reckon with! What difference does it make to us native families and native forces, no matter who rules over Huyang City?"

"To the Godly King and Primal Chaos Overlord, perhaps they care
```

deeply about the loss of offerings. But for us, it's all the same, we still have to pay a hefty fee."

"So no matter how fiercely the city owner's mansion and the Shi Kingdom's Forces fight, we all need to cherish our own lives," Zhu You shook his head, "They have never cared about our life and death."

Luo Feng nodded: "Brother Zhu You speaks wisely."

"As long as we are united enough, we will be the strongest force! Both the city owner's mansion and the Shi Kingdom's Forces can only try to bribe us, but dare not coerce us," Zhu You said with evident confidence.

Suddenly——

A powerful disturbance faintly arose from the outside world.

"What's going on?" Luo Feng and Zhu You looked through the hall doors and saw that in the distant sky appeared a Three-Sword Sky-Splitting Beast, and riding on the surface of the beast was the leader of the Huyang Guard, 'Gaowu Shui.'

...

Meiwu Qi and Jiang Chengyou arrived at the entrance of the hall with some confusion, and upon seeing the Mechanical Flow Secret Treasure 'Three-Sword Sky-Splitting Beast' descending outside the grand hall, they sensed ill intentions.

"The Dream Flower Tower is a place of enjoyment, yet Commander Gaowu has come with the Three-Sword Sky-Splitting Beast," Meiwu Qi looked at Gaowu Shui, "Commander Gaowu, what brings you here?"

"Commander Gaowu, come in and have a drink, the rest of the Huyang Guards can rest alongside, my treat," the blue-haired man Jiang Chengyou said with a smile.

Gaowu Shui spoke coldly: "Meiwu Qi, the Huyang Guard has received evidence of your crime in capturing a large number of citizens of

Huyang City, and of tormenting and murdering them! Now, you need to come with me to the Huyang Guard headquarters."

The blue-haired man was shocked.

However, Meiwu Qi's face darkened, and as his aura stirred, the night seemed to grow darker; he spoke hoarsely, "Commander Gaowu, I am Meiwu Qi of the Meiwu Family, are you sure you want to arrest me?"

"Isn't there some kind of misunderstanding?" Jiang Chengyou also chimed in.

"It is my duty as a member of the Huyang Guard to arrest you," Gaowu Shui said, looking at Meiwu Qi, "Meiwu Qi, come with me!"

"You rely on us, the Five Great Families, but now you turn against us and bite the hand that feeds you?" Meiwu Qi sneered, "Gaowu Shui, I'll report this to the city owner's mansion right now. I want to see how they deal with this."

"How the city owner's mansion deals with me is a matter for the future. Now, you need to come with me," Gaowu Shui said coldly, "I am going to count to three, and if you resist, I will have no choice but to take action by force."

"Three, two..." Gaowu Shui did not waver.

"Boom——"

A deep purple serpentine Exotic Beast wove through the Void and appeared out of nowhere above the Dream Flower Tower, causing many patrons of the establishment to exclaim in surprise.

Luo Feng and Zhu You also watched all this from afar.

"Commander Gaowu really is formidable; he's starting to arrest the eternal true gods of the Five Great Families," the deep purple serpentine Exotic Beast descended slowly, and atop the beast appeared a figure in armor.

"Even Royal Descendants and descendants of the Primal Chaos Clan must abide by the laws of the Yu Kingdom," Gaowu Shui said coldly,

"This Meiwu Qi's sins are grievous; he has wrought havoc within Huyang City for many years, harming countless citizens, and his behavior outside Huyang City has been even more unrestrained.

Just during the attack on 'Fang Jiu City' by the Exotic Beast horde, he kidnapped billions of citizens. The number of citizens he has tortured and killed tallies in the billions! How can such transgressions be taken lightly?"

"You're slandering me! As a member of the Five Great Families, how could I act so recklessly?" Meiwu Qi retorted angrily.

The armored figure chuckled lightly: "It's often that rumors and slander against the members of the Five Great Families occur. Commander Gaowu is after all new to his role as the Leader of the Huyang Guard and lacks experience."

"Whether it is slander, he first needs to come with me to the Huyang Guard headquarters, after we confirm the truth, a decision will be made," Gaowu Shui said.

The armored figure stood next to Meiwu Qi, with the serpentine Exotic Beast's figure behind him: "Commander Gaowu, all you need to do is submit the evidence to the city owner's mansion. They will naturally verify the truth of the evidence, and how to punish will also be decided by them. You need not intervene anymore."

Gaowu Shui had anticipated encountering significant resistance, but he hadn't expected that he wouldn't even be able to take the first step of 'taking Meiwu Qi away.'

```

```

"Commander Gaowu, there's no need for you to interfere with Meiwu Qi's matter any longer. Return immediately to the Huyang Guard headquarters and submit all the evidence of the crimes you've discovered," came an order from the city owner's mansion.

Gaowu Shui felt a chill in his heart and sighed inwardly.

"Even if I bring him back to the Huyang Guard headquarters, I'm afraid I won't be able to harm him in the least," Gaowu Shui thought to himself.

Without a verdict from the city owner's mansion, he dared not kill a member of the Five Great Families who was an eternal true god. If he dared to do so, even his master, Moli Xiao, wouldn't be able to protect him.

His experience in his youth indeed made him detest evil. But he would not accompany Meiwu Qi to the grave over it.

"I will submit the evidence, and I believe the city owner's mansion will deliver a fair punishment!" Gaowu Shui glanced at Meiwu Qi, then turned and flew into the Three-Sword Sky-Splitting Beast.

Whoosh!

The Three-Sword Sky-Splitting Beast immediately shot through the Void and away.

"Hahaha..." Meiwu Qi finally relaxed completely and started laughing. "This Gaowu Shui is such an idiot. He still wants to catch me?"

...

Luo Feng, watching all this from a distance, was somewhat surprised.

"Brother Zhu You, is what that Commander Gaowu just said true? Fang Jiu City was breached by a horde of Exotic Beasts, and countless citizens were captured by this Meiwu Qi?" Luo Feng asked. "He's tormented and killed a countless number of citizens?"

This number indeed shocked Luo Feng.

After all, the laws of Yu Kingdom were quite strict on the surface.

"It's indeed true. You'll know if you stay in Huyang City for a long time. Meiwu Qi is notoriously insane," Zhu You said. "In his Secret Treasure 'Sinful City,' countless innocent citizens are imprisoned and tormented to death. Over the long years, it's indeed impossible to

count."

"The Five Great Families just let him be?" Luo Feng frowned.

"The Five Great Families can restrain many Dark Forces and can be ruthless if someone crosses the line. But they can't be ruthless towards their own people," Zhu You shook his head. "The insanity of Meiwu Qi has plenty of evidence! If you don't believe me, you can buy information from the Flame Wind Pavilion."

Luo Feng was looking into the distance, where Meiwu Qi was talking and laughing with another Leader of the Huyang Guard.

"I want to buy all the evidence of Meiwu Qi's crimes," Luo Feng said through the transmission token, contacting the Flame Wind Association's Dark Hall.

"All evidence of Meiwu Qi's crimes requires one Cosmic Sand," the Dark Hall responded.

"Purchase."

After Luo Feng bought it, the Flame Wind Association's Dark Hall sent him the detailed evidence.

This evidence turned Luo Feng's face cold. Meiwu Qi was even more mad than he had imagined. He was a total lunatic with an utterly twisted and maniacal heart, tormenting those innocent citizens to create sufficiently powerful twisted souls through 'torment and trampling.'

"Using suffering to create strong twisted souls, according to the records of the Dark Hall of the Flame Wind Pavilion, he has sixteen outstanding works. Sixteen True Gods with tormented twisted souls and wills that match eternal true gods," Luo Feng said softly.

"He even once brought his works to show off in front of me," Zhu You sighed.

"The Flame Wind Pavilion also has a bounty on him," Luo Feng found out about the bounty on Meiwu Qi.

The bounty was merely 20,000 Cosmic Sands.

It was probably someone who really disliked him who spent the Cosmic Sand to offer the bounty.

"Accept the mission," Luo Feng decided, taking on the task of assassinating Meiwu Qi.

"Forget about these things. There are so many dark matters on the Land of Origin, many of which we can do nothing about," Zhu You said. "It's already not easy for our own families to survive."

Luo Feng stood up. "Brother Zhu You has family concerns, but I am unencumbered. If this matter is brought before me and I turn a blind eye, my heart won't be at peace!"

"These filths ought to be wiped clean!"

With one step, Luo Feng, whoosh, had already left the hall and was heading straight for where Meiwu Qi was.

——

Thanks to the new Alliance Hierarch for the reward: Shijia Lock.

```
```

Chapter 39: Chapter 37: How Dare You Block Me?

Zhu You was stunned; Luo Feng's actions truly exceeded his expectations. He looked horrified. "This is going to be trouble!" he muttered under his breath as he immediately rushed out.

"Divine Monarch Zhu You, don't panic, my master is not the impulsive type," Morosa said, picking up the wine jug and standing up as well, utterly calm and composed.

"What does the master plan to do?" Moyu Qingyan's heart was tense. He hadn't been following his master for long, but the experiences during this time had been overwhelmingly thrilling! He quickly followed Morosa out.

...

The guests inside Dream Flower Tower were originally watching the excitement. When Gaowu Shui rode away on the 'Three-Sword Sky-Splitting Beast', they started to head back to their respective halls, believing the 'excitement' had ended.

Meiwu Qi was also relaxed, laughing, "Such stupidity from Gaowu Shui makes him unworthy to be the Leader of Huyang Guard! The Leaders of the Huyang Guard appointed by our Five Great Families are naturally meant to protect us, yet he turned against me! When I return, I will push this issue forward, planning by all means to strip him of his leadership position."

"Such a fool, indeed unfit to be Leader of the Huyang Guard," the armored figure nodded.

"Brother Qianyu, thank you for this," Meiwu Qi said smilingly. Qianyu Chong was an eternal true god affiliated with their Meiwu

Family, and he took care of many matters for him.

Just then—

Luo Feng came walking leisurely from a distance, reaching nearby in just a few steps.

"Hmm?" Meiwu Qi, Commander Qianyu, and the blue-haired man 'Jiang Chengyou,' all noticed the black-haired, sharp-horned man approaching, as by now, Luo He's fame within Huyang City was immense!

"Lord Luo He," Jiang Chengyou called out with a smile.

As Luo Feng approached, his gaze swept over Meiwu Qi. "I just heard that you, Meiwu Qi, have tortured and killed countless citizens of Yu Kingdom, capturing several billion alone from Fang Jiu City. Such heinous crimes, according to the laws of Yu Kingdom, warrant death!"

Upon hearing this, Meiwu Qi immediately knew that the visitor had ill intentions!

"Lord Luo He, you must not spout nonsense," Meiwu Qi said coldly. "As Commander Qianyu clearly stated, these are all slanderous fibs!"

"Slanderous fibs?" Luo Feng chuckled lightly. "There's no need for such ludicrous talk in my presence. Many eternal true gods in Huyang City know of your deeds! How many eternal true gods have you personally taken to see your Sinful City?"

Meiwu Qi was shocked.

He had indeed taken many eternal true gods to tour the Sinful City and had boasted about it! He believed... even if everyone in Huyang City knew, what could they do to him?

"Moreover, evidence of your numerous crimes can be easily purchased from the Flame Wind Pavilion. What? Do you think the Flame Wind Pavilion would fabricate evidence to slander you?" Luo Feng scoffed. "If you could make the Flame Wind Pavilion disregard its reputation specifically to defame you, I actually might respect

you."

Meiwu Qi's complexion grew dark.

The Flame Wind Pavilion's business spread across a large part of the Land of Origin, and it valued its reputation highly! They wouldn't bother fabricating evidence, even of a Godly King, let alone some of Meiwu Qi's.

"Luo He! What does my matter have to do with you?" Meiwu Qi no longer tried to justify himself. "Even if I did it, it's none of your business."

"I'll interfere in affairs if I want to, and won't if I don't feel like it," Luo Feng said casually. "It just so happens today I heard about these affairs. I think I should stay true to the laws of Yu Kingdom and send you on your way!"

"Roar~~~"

The ever-vigilant Commander Qianyu was greatly alarmed as the legion-class Mechanical Treasure 'Purple Jade Gen' instantly shielded both Commander Qianyu and Meiwu Qi. Its coiling body's deep purple scales sparkled.

"Luo He, what are you trying to do! Are you planning to kill an eternal true god of the Five Great Families within Huyang City, without trial by the city owner's mansion?" Commander Qianyu bellowed in anger.

Meiwu Qi was shocked and angry; he had only thought the other was here to provoke, but Luo He had outright stated his intention.

Did he not care about the city owner's mansion's dignity at all?

"When Marquis of Jiu Jiang and Great Saint Beiyu fought, Beiyu fled, even swallowing all the creatures of the large city 'Yue Rong City' to absorb energy for regaining his strength," Meiwu Qi angrily shouted. "The beings that Beiyu swallowed in one gulp are many times more than those in my Sinful City. Why don't you meddle in Beiyu's affairs?"

Soon, more and more guests at Dream Flower Tower started paying attention to this scene.

Zhu You, Dream Flower Tower Master, and Morosa were all watching from not too far away.

"Divine Monarch Zhu You, what is Lord Luo He trying to do?" Dream Flower Tower Master was somewhat panicked.

"I don't know," Zhu You shook his head. "I can't control Lord Luo He, but I think with the Leader of Huyang Guard, Qianyu Chong, here, the situation shouldn't escalate too much!"

Dream Flower Tower Master nodded; Commander Qianyu, controlling a legion-class Mechanical Treasure, was indeed very powerful.

...

"Great Saint Beiyu is still at large, yet you come to deal with this minor issue of mine," Meiwu Qi said indignantly.

"Great Saint Beiyu is a Primal Chaos Overlord Level existence; I, an eternal true god, dare not meddle," Luo Feng said placidly. "But you, Meiwu Qi, I can still manage."

"I am an eternal true god. What's it to me if I kill some weaklings?" Meiwu Qi said desperately. "Isn't survival of the fittest seen everywhere in the world?"

"Everyone has their moments of weakness," Luo Feng shook his head. "You, Meiwu Qi, were very weak when you were born! If everyone practiced survival of the fittest, you wouldn't have grown up at all!"

Meiwu Qi was taken aback.

"Even low-intelligence exotic beast species know to protect their young, yet you loudly proclaim the law of the jungle, wantonly slaughtering the weak. You are even worse than exotic beasts." Luo Feng shook his head. "The Five Great Families will surely thank me when they learn of my actions."

As soon as he finished speaking—

"Not good." Commander Qianyu, who had been on guard, changed color. He instantly reacted, and the huge Mechanical Stream Secret Treasure 'Purple Jade Gen' expanded and rolled forward, blocking Luo Feng's strike.

Bang!!!

Luo Feng's extended palm struck the massive body of Purple Jade Gen.

Purple Jade Gen, commandeered by the top eternal true god 'Qianyu Chong' and a legion of a thousand true gods of void space, was a corps-class mechanical treasure! Though individually, Qianyu Chong was naturally inferior to Association Leader Mu Yang of the Blood Python,

aided by a thousand true gods of void space and a corps-class treasure, the power unleashed by Purple Jade Gen was by no means inferior to Mu Yang driving the 'Life Blood River.'

"Boom～～～"

The vibration caused by the collision between the palm and the scale-armored body of Purple Jade Gen made the entire Dream Flower Tower tremble slightly, but fortunately, the tower was enveloped in formations, maintaining stability and safety everywhere.

"They started!" Zhu You and the Dream Flower Tower Master were both shocked.

"My brother Luo He, even if you have to kill, can't you do it covertly? How can you strike openly under everyone's gaze?" Zhu You fretted. Their neutral faction sometimes also made dark moves, but they always did so stealthily, leaving no trace.

"The leader of Huyang Guard is right beside, and now Lord Luo He attacks the eternal true god of the Five Great Families?" The Dream Flower Tower Master felt her heart tremble and even feared a little. This was beyond her imagination.

"Luo He, you have lost your mind!" Commander Qianyu grabbed Meiwu Qi and instantly merged into the interior of Purple Jade Gen.

"Brother Meiwu, hide inside the Mechanical Stream Secret Treasure, he cannot hurt you," Commander Qianyu advised.

"Mad, mad, he actually attacked me openly within Huyang City." Meiwu Qi was both shocked and angry—he could not believe that there truly was an eternal true god in Huyang City bold enough to attack him openly.

The palm strike from Luo Feng was blocked by the Mechanical Stream Treasure 'Purple Jade Gen' of the Huyang Guard, and the reverberations triggered heavy force dissipation through the formation of Dream Flower Tower, causing many onlookers to retreat further away.

"Hmm?" Luo Feng looked at his own palm, then at the massive Purple Jade Gen in front of him, "Qianyu Chong, you dare block me?"

"Luo He!"

The massive Purple Jade Gen's surface revealed Commander Qianyu's face, who sternly rebuked, "I am the leader of the Huyang Guard, and I was right here watching. You dare to disregard the laws and openly attack the eternal true god of the Five Great Families. Are you intending to go against the entire city owner's mansion?"

Seeing this, the blue-haired man Jiang Chengyou spoke up, "Divine Monarchs of Luo He and Commander Qianyu, please, let's calm down and talk this through."

"Divine Monarchs of Luo He and Commander Qianyu, please, take a step back," the Dream Flower Tower Master also hastened to speak.

If this situation escalated,

a total war could break out between Divine Monarch Luo He and Huyang's 'Purple Jade Gen', which would create a tremendous disturbance, likely reducing the entire Dream Flower Tower to dust!

"Luo He, you have disregarded the laws and struck out willfully; the

city owner's mansion will surely punish you!" the face of Qianyu Chong on the surface of Purple Jade Gen scoffed coldly, "Just wait for the city owner's mansion's punishment!"

"Punish me?"

Luo Feng laughed loudly as his right arm suddenly swelled, divine power ignited, and his aura surged formidably! This made Jiang Chengyou, Zhu You, the Dream Flower Tower Master, and many guests feel an oppressive fear.

"How audacious!" Commanding the entire Purple Jade Gen, Qianyu Chong, with a thousand true gods of void space, prepared to withstand this fearsome strike.

"Puff!"

Luo Feng's arm swelled to thousands of feet, and his hand grew massive like a palm-blade, embodying the essence of the 'Blade of Life and Death,' and as the tips of his fingers touched Purple Jade Gen's purple scales, they pierced through like through mud, and instantly penetrated.

Prior to this, Luo Feng's palm had been blocked by Purple Jade Gen, causing him to recognize the might of this beast, judging it equivalent to the power of the Blood Python Association Leader.

His second body refinement of the Perfect Divine Body, wielding the Godly King Level legacy "Duan Mie" and burning divine power, was sufficient to tear apart the Purple Jade Gen barehanded.

"Whoosh."

As his palm penetrated into the body of Purple Jade Gen and retracted, Luo Feng's hand now held Qianyu Chong.

With the capture of 'Qianyu Chong,' the entire Mechanical Stream Secret Treasure 'Purple Jade Gen,' having lost its controller, naturally collapsed, scattering noisily, with Meiwu Qi and the thousand true gods of void space tumbling out.

Chapter 40: Chapter 38 Overbearing Tyranny

Thousands of true gods of void space who had fallen were somewhat panicked, seeing Commander Qianyu Chong being grasped by a palm, all they felt was trembling fear.

"How could Lord Luo He be so strong? Even with the Mechanical Flow Secret Treasure 'Purple Jade Gen,' we couldn't defeat him. Without Purple Jade Gen, it's feared that with just a breath, we would all die!" These true gods instinctively retreated towards the distance, even burrowing into groups of guests.

In the past, patrolling within Huyang City, they were the respected Huyang Guards! But now, they only hoped that Luo He wouldn't vent his anger on them!

The astonished Meiwu Qi, who had fallen out, couldn't believe: "This is one of the top ten Mechanical Flow Secret Treasures of the Huyang Guard, 'Purple Jade Gen'. How could it be penetrated by a palm?"

"It's over, it's all over."

While finding it hard to believe, Meiwu Qi didn't dare to hesitate, burning Divine Power to desperately flee for his life!

He had never run so frantically in his life.

"Huff." A gigantic palm swung by in an instant, already enveloping Meiwu Qi.

"No——"

A rod-like weapon appeared in Meiwu Qi's hand, striking with thunderous fury, trying to block that gigantic palm. But as soon as

the gigantic palm covered it and made contact, it grasped him, the rod not causing even the slightest injury to Luo Feng's palm skin.

Luo Feng stood still on the spot, both his hands had returned and shrank back to normal size. And within the palm, both Qianyu Chong and Meiwu Qi were suppressed, their bodies shrunken, appearing like two tiny toys in his hand.

At this moment, Jiang Chengyou, Zhu You, guests from Dream Flower Tower, and Luo Feng's servant Moyu Qingyan were all trembling with shock as they watched this scene, which had a tremendous impact on their minds.

"Originally, I only planned to kill Meiwu Qi, but now I've caught both." Luo Feng looked down at the two tiny figures in his hands.

"Luo He, I am the leader of the Huyang Guard! Do you intend to kill a leader of the Huyang Guard within Huyang City?" Qianyu Chong looked up at the looming figure of Luo Feng.

"Lord Luo He, I was wrong, it was all my fault!" Meiwu Qi, who was caught, was extremely terrified, pleading urgently, "I'm willing to make amends, whatever you ask I will do. Just please spare my life."

Both Qianyu Chong and Meiwu Qi were very uneasy at this moment.

...

At this moment, the city owner's mansion and the Five Great Families were equally anxious. They monitored the whole city, and since Luo Feng had not used a small Cosmic Domain to block the investigation, they could see the whole process clearly.

They saw Luo Feng's hand penetrate the Mechanical Flow Treasure 'Purple Jade Gen.'

"Well done, Luo He!"

"He can directly crush Purple Jade Gen."

"What should we do now? He has already captured Qianyu Chong and Meiwu Qi." The high-level members of the Five Great Families

also knew the situation was urgent.

"Commander Moli, please make a move..."

"It's time for you, Commander Moli, to take action to have any chance to stop Luo He."

Inside the city owner's mansion, the high-ranking officials immediately sent a message to Moli Xiao.

"I'm not suitable to take action," Moli Xiao refused bluntly.

Moli Xiao's status was too high, one of the top two figures in the entire city owner's mansion; even the City Lord could not force him to act.

The officials of the city owner's mansion had no choice but to deploy one of the Huyang Legions, the 'Heiming Legion,' to take action.

"I can move, but I have no confidence in stopping Luo He," General Qiu Yi of the Heiming Legion responded.

"Quick, quick, set out immediately!" urged the side of the city owner's mansion.

...

Over at Dream Flower Tower, many bystanders watched from afar, not daring to get involved, fearing the wrath of the Five Great Families.

In Huyang City, the Five Great Families were as good as heaven!

Luo Feng's actions at this moment had indeed provoked them.

Luo Feng looking down, holding two tiny figures in his hands: "Qianyu Chong, I've found that among the crimes of Meiwu Qi, your name has appeared many times. You've helped him capture true gods, you've helped him clean up traces, you've done too much for him."

Qianyu Chong was surprised.

As an eternal true god affiliated with the Meiwu Family, he indeed did a lot of dirty work for the Meiwu Family! He had also helped Meiwu Qi capture many true gods, because Meiwu Qi himself wasn't meticulous enough, which could lead to trouble.

"Meiwu Qi, oh Meiwu Qi, if you want to torture and kill many true gods, you should do it stealthily. Why must you bring many friends to visit Sinful City, making it known to all of Huyang City! Now it has even drawn the attention of this Lord Luo He, and even I am suffering because of it," Qianyu Chong lamented in his heart.

"As an accomplice to Meiwu Qi, according to the laws of Yu Kingdom, you too must be executed," Luo Feng said.

"Lord Luo He, I know you despise evil, I'm just a subordinate, just a servant of the Meiwu Family," Qianyu Chong said urgently, "I've grown step by step from an external tribe until now, please spare my life, I will surely no longer be an accomplice in the future, I captured those true gods only because Meiwu Qi made me do it."

"Qianyu Chong, I cannot dare to capture so many true gods openly. It's you who came up with ways, it's you who helped me. Now these sins are all being pushed onto my head," Meiwu Qi shouted, "Lord Luo He, I..."

Luo Feng, holding Meiwu Qi in his palm, permeated his Divine Power, rendering Meiwu Qi unable to speak.

"Qianyu Chong, I'm telling you this, so you can die with a clear understanding," Luo Feng said, clasping Qianyu Chong's palm slightly, and with a bit of exerted Vigor, permeated Qianyu Chong's body and destroyed his True God's Heart.

Qianyu Chong's eyes widened, at that moment feeling nothing but injustice.

He, Qianyu Chong, had struggled every step to climb to one of the top ten leadership positions of the Huyang Guard. Who would have thought he would encounter such a reckless, powerful Lord Luo He who blatantly disregarded the face of the Five Great Families? He was implicated and died here!

"Huff." Luo Feng instantly took Qianyu Chong's body into the Star Tower.

Chapter 41: Chapter 38 Overbearing Tyranny_2

The bodies still need to be collected properly, can't waste them.

From a distance, Morosa saw this scene and immediately cracked a smile, telepathically transmitting, "Thank you, Master. Please also leave Meiwu Qi's body to me. Meiwu Qi's bloodline is certainly extraordinary, the absorption effect must be very good."

Master and servant, both were very calm.

But the onlookers around them, including Meiwu Qi held in Luo Feng's other palm, were all unable to stay calm!

"He really killed him!"

"The leader of the Huyang Guard, just like that, killed?"

Zhu You, Jiang Chengyou, Dream Flower Tower Master, Moyu Qingyan, along with a large number of customers, all held their breath, and from a distance, the thousands of true gods of void space level Huyang Guards also felt their hearts tremble.

"This Lord Luo He is exceptionally tyrannical."

"Lord Luo He, indifferent to life and death, strikes as soon as he says he will!"

"I had heard that there are some fierce ones who dare to kill members of the Royal Family, the Primal Chaos Clan. Today I've really seen it."

Those who could afford to patronize the Dream Flower Tower generally had some background and came from various forces within the city. They now watched the event's development attentively and

rapidly relayed a great deal of information back to their respective places.

The onlookers each had their thoughts, but Meiwu Qi, gripped in the palm of Luo Feng, was truly panicked!

Watching his accomplice 'Qianyu Chong' die, Meiwu Qi already felt death looming. In desperation, he said, "Lord Luo He, as long as you spare me, everything can be discussed. Whatever you want, I will do."

"Boom— " Accompanied by a terrifying fluctuation descending.

Luo Feng looked up and saw in the night sky a vast spherical fortress appearing. The spherical fortress, like a black hole, was swallowing energy, also absorbing light, its might quite fearsome.

"One of the Huyang's Ten Great Legions, the Heiming Legion." Luo Feng recognized the newcomer.

The Huyang Legion was much stronger than the Huyang Guards.

The Huyang Guard 'Purple Jade Gen' that had just been killed was only on par with the Blood Python Association Leader, but a single Huyang Legion was far stronger, capable of overwhelming the Blood Python Association Leader in a head-on fight.

Overwhelming was easy, killing was difficult.

It was only because they encountered Luo Feng that the Blood Python Association Leader didn't escape.

"Lord Luo He, I ask you to stop." The surface of the spherical fortress showed a three-eyed face, "Meiwu Qi is an eternal true god from the Meiwu Family. Even if he violated the rules, he should be judged by the city owner's mansion. You can't take action."

"Can the city owner's mansion sentence him to death?" asked Luo Feng.

The three-eyed face on the spherical fortress replied, "Lord Luo He, you've blown this matter up too big, and no matter what, the city owner's mansion can't be too biased. Even if Meiwu Qi doesn't die, he

will be severely punished."

"Severe punishment won't do, he needs to die." Luo Feng's lips curved into a smile as he looked at Meiwu Qi in his palm.

"Spare me, spare me." Meiwu Qi said urgently.

"Lord Luo He, you're in the city, without the city owner's mansion's trial, you've already killed one leader of the Huyang Guard. If you openly kill an eternal true god from one of the Five Great Families, you are stepping on the face of the Five Great Families! You should consider the consequences," said the three-eyed face on the surface of the spherical fortress.

"What consequences?" Luo Feng said casually, "General Qiu Yi of the Heiming Legion, today Meiwu Qi must die. If you obstruct, then you should think about the consequences."

The three-eyed face on the surface of the spherical fortress glanced at the collapsing Purple Jade Gen from afar, understanding the result of obstruction.

Qianyu Chong had obstructed.

Qianyu Chong had died!

"This Luo He is too fierce, his strength is perhaps not inferior to Xue Yun," General Qiu Yi mused silently, having also dealt with 'Xue Yun,' the leader of Shi Kingdom's forces.

The city owner's mansion tried everything, with Moli Xiao personally intervening, and even mobilizing the great formation of Huyang City to assist, in several confrontations with Xue Yun, but they couldn't defeat Xue Yun.

And now...

General Qiu Yi felt that this Luo He should be no less formidable than Xue Yun.

Even if several legions acted together under the leadership of Moli Xiao, they might fail to capture Luo He!

General Qiu Yi mused to himself, "This Meiwu Qi is mad, committing heinous crimes and then, fearing that it wouldn't be known, drew too many eternal true gods to witness it. This led to today's catastrophe."

"General Qiu Yi, save me, save me," Meiwu Qi inside Luo Feng's palm cried out.

"He's watching you, the city owner's mansion is watching you right now," Luo Feng said to Meiwu Qi in his palm, "but no one can save you, and anyone who dares try will be killed by me. Anyone daring to save you deserves death as well."

Luo Feng spoke word by word.

All the bystanders listened, and the senior officials monitoring from the city owner's mansion heard it too; some were angry, some were as somber as still water, and some shook their heads and sighed.

But no one intervened.

"Die," Luo Feng said to Meiwu Qi, as an invisible illusory realm instantly engulfed the consciousness of the terrified Meiwu Qi.

This Illusion Technique was the forbidden move 'Nine Netherworlds Kill' that Luo Feng had learned from the 'Nine Netherworlds.' Constructed with his peak Primal Chaos Overlord-level spiritual will, this particularly ruthless forbidden move was incredibly powerful when he cast it.

Meiwu Qi, who had been bolstered by resources all the way, naturally had a rather fragile spiritual will and instantly sunk completely.

"You like to torture countless creatures, don't you? Now, experience the taste yourself; do you still like it when you are the one being tortured?" Luo Feng thought, and instantly pulled Meiwu Qi into the Star Tower.

Inside an empty space within the Star Tower...

Meiwu Qi lay there, writhing in agony, trembling, screaming in terror. Meiwu Qi's mental endurance was mediocre due to being

pampered all his life, and the Illusion Technique's forbidden move, 'Nine Netherworlds Kill,' was too strong under the control and with the construction of Luo Feng's perfect Divine Power.

In the torturous agony, Meiwu Qi's consciousness disintegrated and he died within just more than ten breaths of time.

"Such a weak spiritual will," Luo Feng said, his consciousness enveloping the space and observing everything. That Meiwu Qi was so useless was within his expectations.

...

Inside Dream Flower Tower.

"Meiwu Qi is dead," the Dream Flower Tower Master, Zhu You, and Jiang Chengyou all received the latest bounty mission pushed by the Flame Wind Association's Dark Hall.

The bounty for Meiwu Qi was only a mere twenty thousand Cosmic Sand! The Five Great Families didn't care about this small bounty either.

But now, this bounty mission was completed.

Evidently, the Flame Wind Pavilion confirmed... Meiwu Qi was dead!

"He really killed Meiwu Qi," Zhu You and the others felt a mix of emotions.

The Five Great Families, each family having about ten eternal true gods. These approximately fifty extraordinarily bloodlined eternal true gods were the core high-level individuals of Huyang City; they ruled over Huyang City.

And Meiwu Qi was one of them.

The killing of Leader of Huyang Guard by Luo Feng had a terrible impact, but killing Meiwu Qi made the other high-level individuals naturally anxious. If Meiwu Qi could be killed today, could they also be killed tomorrow?

"Lord Luo He, I can't stop you," the Three-Eyed Face that appeared on the surface of the spherical fortress in the high sky lamented, "but by killing Meiwu Qi, you've really made a mistake!"

"Tell the Five Great Families, if they want to make a move, just come; I'll take them all on!" Luo Feng said, looking up at the sky.

The spherical fortress said no more, a formless force wrapped around the disintegrating Purple Jade Gen, and after collecting it, it shifted through the Void and left directly.

Luo Feng watched this scene from afar.

"All cleaned up, I feel relieved," Luo Feng said with a smile as he walked towards Zhu You, "Brother Zhu You, do you dare to keep drinking with me?"

Chapter 42: Chapter 39 The Face of the Five Great Families

"As long as Brother Luo He is willing to drink, I am always ready to accompany him," Zhu You laughed heartily, "It is truly prestigious to be able to drink with Brother Luo He nowadays."

Although the acts Luo Feng had committed were ones that the eternal true gods within Huyang City dared not undertake due to the backing forces they had to consider,

it didn't affect everyone's admiration!

"Let's go, let's go, let's go." Luo Feng, unconcerned about what he had just done, pulled Zhu You back to the original hall.

Morosa and Moyu Qingyan followed behind.

"Hehehe." Morosa laughed as he walked, feeling very happy.

"Lord Luo Sa, the master has done such a huge thing, and yet you laugh?" Moyu Qingyan couldn't help but transmit his voice, "The Five Great Families probably won't let this go."

"And so what if they don't let it go?" Morosa looked at Moyu Qingyan.

Moyu Qingyan's expression was solemn as he transmitted his voice: "There may be a storm of blood and gore."

"It will be their blood and gore." Morosa stretched out his hand and ruffled Moyu Qingyan's head, smiling happily as he transmitted his voice, "You'll understand in time, my boy."

"Their blood and gore?" Moyu Qingyan followed behind, deep in

thought.

As Luo Feng returned to the hall to continue drinking, other guests within the Dream Flower Tower grew completely restless.

They were either fervently discussing or quickly leaving to report back to their own forces in detail. Meanwhile, the thousands of true gods of void space from the Huyang Guards discreetly took their leave.

The incidents at the Dream Flower Tower spread rapidly within Huyang City, fermenting.

...

In that hall of the Dream Flower Tower, Luo Feng and Zhu You sat opposite each other, drinking and chatting with ease and comfort.

"Brother Luo He, what you did has truly pierced the heavens in Huyang City!" Zhu You exclaimed, "The eternal true gods from the Five Great Families are like the sky of Huyang City, and you've killed one of them. They certainly won't let this go easily."

"And what can they do if they don't let it go?" Luo Feng said, holding his wine cup lightly with a smile, "I am openly in Huyang City, and I would like to see what they can do."

Zhu You could see that Lord Luo He truly wasn't afraid of the Five Great Families.

"I admire that," Zhu You sighed, "My Zhu Clan wouldn't dare to do such things."

"You have the concerns of a family, so naturally, you need to be more cautious," Luo Feng said with a smile, "I am a lone wanderer, now with just two servants by my side. I have no ties and can afford to act freely and boldly."

Zhu You nodded, "But Brother Luo He, you must be careful. Even if no one within Huyang City can harm you, they might invite strong forces from other places."

"I have given the city owner's mansion enough respect." Luo Feng poured himself another drink, "Tonight I merely killed the deeply sinful Meiwu Qi and his accomplice Qianyu Chong, and I didn't touch the other Huyang Guards. Even Purple Jade Gen I let them take away. My actions were quite restrained. Even if the news reaches the ears of the Primal Chaos Overlord, they would have to commend me."

"Commend you?" Zhu You was taken aback.

Luo Feng glanced at him, "That you wouldn't understand. The Godly Kings and Primal Chaos Overlords sit high above; their clans have proliferated over endless years, and the number of clan members is countless. They can't even settle them in their own territories and have to place a large number of clan members in other Primal Chaos Prefectures."

"For the Godly Kings and Primal Chaos Overlords, they need the massive resources provided by cities," Luo Feng said.

"Yes," Zhu You nodded.

The vast cities, the residence fees paid by countless true gods, maintained the operations of the city owner's mansion, Huyang Guards, and Huyang Legion, and the rest was almost entirely delivered to the Godly Kings and Primal Chaos Overlords.

"A single true god pays little, but the massive number of cities in the Yu Kingdom deliver much when combined," Luo Feng continued, "That's what the Godly Kings and Primal Chaos Overlords value most, and so they set laws! They ensure sufficient safety within the cities, convincing countless true gods to willingly pay the residence fees."

"But Meiwu Qi, who slaughtered millions of the city's citizens—should the Godly Kings and Primal Chaos Overlords hear of it, they'd be the first to want to kill Meiwu Qi!"

Luo Feng shook his head, "By killing Meiwu Qi, the Godly Kings and Primal Chaos Overlords would only commend me, not even punish me. Any punishment at all, and they would be mocked by other Godly Kings and Primal Chaos Overlords in the Yu Kingdom."

Zhu You's eyes brightened, "Brother Luo He, your insight is exceptional, understanding the minds of the Godly Kings and Primal Chaos Overlords. Indeed, the Primal Chaos Overlords wouldn't intervene in such matters."

"The clans of the Primal Chaos Overlords are immense; would the Primal Chaos Overlords intervene in every trivial matter? Are they their subordinates?" Luo Feng shook his head, "Without a major incident that truly enrages the Primal Chaos Overlords, they will not care."

Having the inheritances from both Duan Dong River and God King Jin, Luo Feng was well aware of some behavioral styles of the Godly Kings and Primal Chaos Overlords.

For those existing at the highest echelons of the Land of Origin, countless clan members already needed to experience trials and selections! The weak and foolish were weeded out, and only the strong and excellent remained.

Luo Feng was right.

The Primal Chaos Overlord of the Meiwu Clan, even when aware of such incidents occurring in the distant Jiu Jiang Primal Chaos Prefecture branch of their clan, would verbally commend the killings on his lips. He even sternly demanded that the clan must not commit similar acts again.

"There are also other places where lone individuals like me reside," Luo Feng said. "I consider myself someone who abides by the rules."

"Yes, I also know that some eternal true gods have passed through cities, killing at will, and the identities of the murderers could not be traced," Zhu You nodded.

While chatting casually, Luo Feng also diverted his attention to investigate the items left by Meiwu Qi.

What concerned him most was the Secret Treasure 'Sinful City'.

The Secret Treasure 'Sinful City' was indeed personally carried by Meiwu Qi.

"There are still over one hundred eighty million citizens within this 'Sinful City'?" Luo Feng, with his divine power penetrating, confirmed the number of survivors in an instant, but the scenes within Sinful City made even him shudder.

The remaining one hundred eighty million citizens, each had endured tremendous torture, many of their spirits were twisted, their auras chaotic and frenzied.

******

The cave dwellings in the 'Primal Chaos Armor Sector' within Huyang City were the most expensive, and the dwellings numbered 1 to 5 were owned by the Five Great Families.

Primal Chaos Armor No. 1 and Primal Chaos Armor No. 2 were owned by the two Royal Families.

Primal Chaos Armor No. 3 Cave Dwelling was owned by the most powerful Moli Clan.

Primal Chaos Armor No. 4 Cave Dwelling belonged to the Marquis of Jiu Jiang 'Jiang Clan,' with Jiu Jiang Primal Chaos Prefecture being the Marquis's fief. Even though Huyang City was still managed by the official authorities of Yu Kingdom, the Marquis would demand a large portion of resources and send part of his clan here also to supervise the resources.

Primal Chaos Armor No. 5 Cave Dwelling was owned by the Meiwu Clan, a prominent Primal Chaos Clan in the entire Yu Kingdom, boasting two Primal Chaos Overlords. The family branch dispatched to Huyang City could also rank among the Five Great Families.

At this moment, within the large cave dwelling of the Meiwu Clan, the family's upper echelon had already gathered.

Eight figures sat around.

"Our Meiwu family branch in Huyang City has nine eternal true gods altogether, and now only eight remain!" the leading black-haired elder, whose body was sprouting some branches and leaves, said.

"Meiwu Qi was publicly executed! Luo He simply did not regard our Meiwu family at all; he did not even use a small Cosmic Domain to cover it up, killing Meiwu Qi in broad daylight in full view. For such an insult to our Meiwu family, he must die!" said a high-ranking clan member grimly, eyes full of murderous intent.

"We should invite an expert from our ancestral land to come and kill this Luo He."

They were a branch dispatched here, but in the distant ancestral lands, that's where the core of the Meiwu family lies! Nearly ten thousand eternal true gods, nurtured over endless years, included two Primal Chaos Overlords, all resided there.

The real elites of the Meiwu family indeed had entities more formidable than Moli Xiao.

"Fools! We can't let this matter leak to the ancestral land."

"You came to Huyang City just to revel in pleasures, as foolish as Meiwu Qi! How can we inform the ancestral land about this sort of matter?"

Several high-ranking clan members immediately rebuked angrily.

The leading black-haired elder nodded and said, "Meiwu Qi massacred hundreds of millions of citizens within the city! It is an irrefutable heinous crime! God Kings and Primal Chaos Overlords have decreed that the safety of the citizens within the cities be ensured. Thus, today's matter must absolutely not be reported!"

"Many things, if not escalated, remain minor issues. If our ancestors knew, each of us would be punished."

The eight senior members of the Meiwu family also understood that they were just a very marginal branch within the entire Meiwu clan. If they angered the elders, they might all be taken away to perform laborious and exhausting tasks, and the pleasure of enjoying life in Huyang City would fall into the hands of other branches of their clan.

"Publicly, we cannot pursue this matter. But secretly, we must let the entire Huyang City know that whoever dares to slap the face of the

Five Great Families will pay a price!"

"Find a way to deal with him! Even if we can't kill him, we must force him into a miserable hiding, only lurking in the shadows, never daring to appear openly again."

"If this matter is not resolved, it's not just our Meiwu family that loses face. In the eyes of all parties in Huyang City... Luo He is seen as slapping the face of the entire Five Great Families. The other four families must also exert their effort."

As they discussed, they were engulfed in rage. After all, they had been high and mighty for too long and could not tolerate an eternal true god defying them like this.

Suddenly—

The face of the leading black-haired elder changed: "This is bad."

"What happened?" asked the other seven family seniors who were discussing.

"Luo He has gone mad!" the black-haired elder urgently said, "He has released the surviving hundreds of millions of citizens from Meiwu Qi's 'Sinful City' and set them free in Huyang City."

Chapter 43: Chapter 40 This Night

Outside the Dream Flower Tower.

"Brother Luo He, after all, the Five Great Families rule over the entire Huyang City. They will surely have some countermeasures, so you must be cautious," Zhu You advised.

"I understand," Luo Feng nodded.

Zhu You smiled and nodded, "Then, I'll take my leave."

Immediately thereafter, Zhu You and his subordinates rode a black Flying Boat and disappeared into the night sky.

Luo Feng watched as they departed.

"Master, shall we return now?" Morosa asked from the side.

"I have one more thing to do," Luo Feng instantly soared into the sky, flying high into the night, a scene that caused both Morosa and Moyu Qingyan some confusion.

Luo Feng flipped his hand, and a miniature city 'Sinful City' appeared in his palm. Looking at the densely packed population of over a hundred million citizens within the Sinful City, Luo Feng shook his head slightly; he knew his ability to help was limited.

"These one hundred and eighty million citizens, having survived torture, many are mentally twisted, chaotic, or insane," Luo Feng looked at the miniature city in his hand, "The Five Great Families knew of Meiwu Qi's evil but have always condoned it, helping to cover up his tracks. These one hundred and eighty million citizens, each one of them is a living testimony!"

Luo Feng was well aware that if the population of over a hundred million appeared in some wilderness, the Five Great Families would probably quietly eliminate them.

But if over a hundred million citizens were to appear publicly within Huyang City and were discovered by the large population of Huyang City, innumerable people would become aware, making it hard to cover up. The Five Great Families would instead have to handle the matter with utmost care, ensuring the situation was dealt with perfectly.

"Come out," with Sinful City in hand, Luo Feng released the massive population.

Whoosh whoosh whoosh~~~

Countless figures were seen being ejected from the Sinful City, landing in various places around them.

The area where the Dream Flower Tower was located happened to be a bustling district within Huyang City. There were also many Myriad Clans' Cultivators indulging in the pleasures of the city, and they all saw a large number of figures descending from the night sky.

"What's happening? These descending True Gods seem off," the surrounding Myriad Clans' Cultivators could tell at a glance that the True Gods falling from the sky had abnormal looks and auras in their eyes.

Moreover, the space-time suppression in the Land of Origin is too strong; True Gods are unable to fly on their own, and now with over a hundred million True Gods descending from the sky, attention was naturally drawn to them.

All one hundred and eighty million citizens landed, scattering over a vast area.

"Where is this?"

The over a hundred million citizens looked around in bewilderment at the bustling city, so beautiful and peaceful, countless times more so than the 'Sinful City.'

"I am Luo He! The Meiwu Qi whom you deeply despised, I have already killed," a powerful voice spread far and wide, and all one hundred eighty million citizens heard it, as did countless Myriad Clans' Cultivators in the surrounding vast areas, "Meiwu Qi tortured and killed hundreds of millions of citizens, leaving only you one hundred eighty million survivors.

As victims, I believe the city owners mansion will take care of you and make amends!"

Luo Feng's voice, empowered by Divine Power, reached a far too great area, even tens of billions of Myriad Clans' Cultivators in the surrounding districts could hear it clearly.

"Meiwu Qi is killed? Hundreds of millions of citizens were tortured to death?"

"What happened?"

True Gods from their residences stepped out of their houses, looking towards the source of the voice and also towards that figure in the distant night sky.

The figure with black hair and sharp horns was indeed Luo Feng!

This figure, remembered firmly by Sinful City's surviving population of over a hundred million and the tens of billions of Myriad Clans' Cultivators.

"Something big happened in Huyang City! There was someone named Meiwu Qi who tortured and killed hundreds of millions of Cultivators, and the remaining one hundred eighty million were saved by Lord Luo He," the ordinary True Gods were all stunned, immediately using their transmission tokens to contact their friends and discuss the matter.

Tens of billions of Cultivators spread the word, and soon the entire Huyang City would be abuzz with the news.

Luo Feng watched this scene from the night sky, observing the many survivors who were somewhat insane.

"City owners mansion and the Five Great Families, when the matter cannot be concealed, let's see how you deal with it," Luo Feng muttered silently, without the Five Great Families' indulgence, Meiwu Qi couldn't have gone this far.

Originally, Luo Feng was somewhat inclined towards the city owners mansion, but because of this incident, Luo Feng felt a disgust towards the Five Great Families as well.

A bunch of scoundrels!

"Whoosh!" "Whoosh!" "Whoosh!" "Whoosh!" "Whoosh!" "Whoosh!"

In the night sky, squads of Huyang Guards were shuttling through the Void, arriving in the blink of an eye—millions of Huyang Guards, with even more continuously on their way.

"Meiwu Qi privately abducted hundreds of millions of citizens from 'Fang Jiu City', tortured many, and was discovered by Lord Luo He and has been executed. All abducted citizens, please rest assured, the city owners mansion will make amends to each one of you!

And the city owners mansion will also hold the Meiwu Family responsible," announced a Leader of Huyang Guard in the high sky, his powerful voice spreading far and wide.

The city owners mansion, which monitors the entire city, had already locked on to every one of the one hundred and eighty million citizens released by Luo Feng.

The Huyang Guards actively went to guide them.

"The city owners mansion has already arranged residences for you; rest assured, you will be able to live in Huyang City from now on, and you will be forever exempt from the Residence Fee," these Huyang Guards were ordered to act, treating each citizen with utmost care.

"Forever exempt from the Residence Fee?" The surviving citizens who had lived through it all were somewhat taken aback.

...

Watching this unfold, Luo Feng said, "Let's go, we're heading back."

"Alrighty," Morosa's eyes lit up, anticipating the joyful moments to come!

Moyu Qingyan, who followed behind, was adjusting her emotions, "The Master I follow publicly killed a Leader of Huyang Guard 'Qianyu Chong', and also killed the eternal true god of the Five Great Families, Meiwu Qi! The Heiming Legion watched and didn't dare to intervene...

And just now, the Sinful City's over a hundred million True Gods were released by the Master, and the city owners mansion pushed the blame onto Meiwu Qi, not faulting the Master at all?"

If he passed the test, he hoped to become a disciple.

"The apprenticeship opportunity my father sought, but this future Master of mine, I find him difficult to read; I only know he is very strong and also compassionate to the weak," thought Moyu Qingyan, her admiration for Luo Feng growing even more.

...

Massive numbers of Huyang Guards shuttled through the Void to arrive, and they were all guiding those Sinful City survivors.

As one of the ten leaders of the Huyang Guard, "Gaowu Shui" was naturally present.

"I have no way to deal with Meiwu Qi, but Lord Luo He openly killed him, and not even the Heiming Legion dared to stop him." Gaowu Shui also felt a great deal of shock at this moment.

He realized the importance of strength.

"With great power, openly killing Meiwu Qi, even the city owner's mansion has to endure it."

"As a newly promoted eternal true god with weak power, even taking on the position of Leader of Huyang Guard, I need my master's help." The joy Gaowu Shui had felt at advancing to an eternal true god had

already faded.

He realized that, while they were both eternal true gods, the disparity between them was shockingly huge.

The ones standing at the very pinnacle of Huyang City were his Master Moli Xiao, the leader of Shi Kingdom's Forces, Divine Monarch Xue Yun, and this Lord Luo He...

"I am still very weak, very weak." Gaowu Shui turned his head to oversee the Huyang Guards working below him. The task of settling the hundreds of millions of citizens from Sinful City was not to be taken lightly.

******

In a short time, all the major powers within Huyang City knew what had happened.

At the very top of Sky Cloud Tower.

Chairman Zan Yun looked down upon the vast city that was shrouded in clouds and mists, flipped his hand, and took out a transmission token.

"Divine Monarch Xue Yun," Chairman Zan Yun initiated contact, with a tone somewhat humbler.

On the surface, he was just conducting regular business, not participating in any killings. Therefore, the city owner's mansion could tolerate his existence. After all, as a large border trade city, it naturally had to accommodate many business forces from the neighboring "Shi Kingdom."

Chairman Zan Yun was very clear that in the eyes of the Marquis, his role was not highly valued.

It was the super-strong like Divine Monarch Xue Yun who were the Marquis' confidants.

"Chairman Zan Yun, contacting me suddenly, do you have something to say?" Divine Monarch Xue Yun responded.

"I had visited Luo He before, and he paid little attention to me, yet he had quite a few dealings with the city owner's mansion," said Chairman Zan Yun, "But the incident tonight shows that there has been a rift between Lord Luo He and the city owner's mansion!"

Divine Monarch Xue Yun transmitted, "This Lord Luo He is a loner, with no attachments. From his actions, he shows a hatred for evil, acting immediately when provoked. With our way of doing things, he will also view us as enemies."

Chairman Zan Yun was taken aback.

Yes, the forces of Shi Kingdom acted ruthlessly – even more notorious than Meiwu Qi in causing trouble.

"Wait patiently for our opportunity, the Five Great Families of Huyang won't endure this silently," transmitted Divine Monarch Xue Yun. "And from the current intelligence, Lord Luo He is very strong, no less than me! Once they fight, it's likely they will both struggle to handle each other."

"Lord Luo He, not inferior to you, Divine Monarch Xue Yun?" Chairman Zan Yun was quite astonished, knowing full well the might of Divine Monarch Xue Yun.

In his view, one-on-one, Divine Monarch Xue Yun should be even stronger than Commander Moli Xiao.

After all, Commander Moli Xiao led legions and had the grand formation of Huyang City to bolster his strength. Despite several confrontations, he could not capture Divine Monarch Xue Yun.

"Yes, he is very powerful." Divine Monarch Xue Yun affirmed, "Defeating Purple Jade Gen is not difficult, but what's hard to believe is... his hand pierced through the body of Purple Jade Gen! And Purple Jade Gen is a legion-class mechanical treasure. Moli Xiao must have also realized the terrifying aspect of this Lord Luo He."

...

Flame Wind Pavilion.

"A single hand piercing through the body of Purple Jade Gen, such strong power," the Master of the Flame Wind Pavilion looked forward with anticipation, "Now, what I'm most looking forward to is the outcome of 'Ying Cang' going against this Lord Luo He."

A nearby figure shrouded in grey mist commented admiringly, "Ying Cang is renowned, having killed many powerful beings—even offspring of the Primal Chaos Overlord—and still lives to this day, his strength is indeed terrifying. This battle will surely be spectacular."

The Master of the Flame Wind Pavilion shook his head and lamented, "It's a pity we can't see the details of this battle."

...

Right now, Flame Wind Pavilion was the only place in the whole of Huyang City that knew Lord Luo He was about to face an assassination.

Outside Cave mansion no. 913 of the Primal Chaos Armor, in the night sky, a grey-robed figure was concealed.

Ying Cang was waiting there.

"He went to Dream Flower Tower, but in the end, he must return to the cave mansion. The moment he returns to the cave mansion is when his guard is down, and it will be the time for me to make my move," Ying Cang murmured to himself.

If one was to assassinate Luo Feng, the Flame Wind Pavilion would be commissioned for detailed intelligence.

Any movement Luo Feng made, once spotted by Flame Wind Pavilion, would be communicated to Ying Cang.

This service was expensive, but Ying Cang did not care.

"This Luo He is quite compassionate to the weak, turning against the Five Great Families of Huyang for the sake of those slaughtered weaklings," Ying Cang read the intel provided by Flame Wind Pavilion and found it amusing, "This Luo He and I have different characters. I quietly kill my targets, leaving no trace whatsoever. He,

on the other hand, is brazen!

He publicly launched his attack in front of the Huyang Legion."

"One hand pierced through the body of Purple Jade Gen? He is quite strong indeed. I wonder if he can withstand my stealth assassination," Ying Cang was unconcerned. The Mechanical Flow Secret Treasures from the Huyang Guard he simply disregarded.

He waited patiently.

Time was passing, and Ying Cang was very patient.

Suddenly—

A Flying Boat descended swiftly from high in the sky toward the cave mansion. As it neared, the door of the mansion opened automatically.

"He's back." Stowing away the Flying Boat, Luo Feng, Morosa, and Moyu Qingyan flew down together.

Chapter 44: Chapter 41 Ying Cang, Luo Feng, and Morosa

Primal Chaos Armor Chamber No. 913, this was Luo Feng's own mansion.

When Luo Feng returned to the mansion, he naturally relaxed considerably. This was a common trait among most living beings; they would relax a lot when they came home. Moreover, his absolute confidence in his own strength made Luo Feng quite at ease.

"Luo Sa, follow me," Luo Feng ordered.

"Coming!" Morosa gleefully followed by Luo Feng's side, while Moyu Qingyan obediently headed toward the small building next to the main gate, as he was to guard the door.

At this moment, Luo Feng and Morosa had no inkling of Ying Cang, who was hidden in the sky outside the mansion.

Ying Cang, skilled in stealth and assassination, became nearly indistinguishable from the surroundings when he concealed himself, as if he were a part of space itself. Even Luo Feng and Morosa, who were extremely sensitive to aura, did not notice his presence.

"Huh." Luo Feng and Morosa were just about to fly to the Underground Palace.

It was at this precise moment—

"Hm?"

Luo Feng's expression changed slightly as a figure in a grey robe appeared in front of him as if teleporting. The figure's eyes seemed like endless vortices fixated on Luo Feng, while a shadow of a blade

in his hand had already pierced into Luo Feng's body.

Indeed, at the instant Luo Feng noticed, the blade had already stabbed into his godly body.

"Die!"

The formation around the mansion was like child's play before Ying Cang; after all, the small mansion along with its formation was worth only 500 Cosmic Sand. This formation could only slightly delay an ordinary eternal true god for a short while, and it could be completely ignored in the face of an existence like Ying Cang.

"The grand formation of Huyang City is in operation, spatially sealed. Aside from the city owner's mansion's team, other powerhouses can't traverse the Void," Luo Feng thought in surprise as the blade pierced his godly body, "Yet this assassin could forcefully traverse the Void. His mastery over spatial realms is probably very high."

The spatial seal of Huyang City doesn't mean outsiders can't traverse the Void at all, such as the Primal Chaos Overlord who could forcefully do so.

This assassin, capable of moving through the Void within Huyang City, obviously had significant ability.

"Where did such a terrifying expert come from?" Luo Feng was slightly puzzled, "Even if the Five Great Families wanted to retaliate, they couldn't find such an expert in a short time."

This expert's methods didn't match those of any eternal true god within Huyang City.

"Die!" Ying Cang's murderous intent was biting.

After this stab, a phantom sword shadow directly targeted the 'soul' inside Luo Feng's True God's Heart, seeking to completely destroy the soul.

At the same time, this stab released a terrifying force inside Luo Feng's body, its destructiveness beyond belief. Even with Luo Feng's Perfect Divine Body and having undergone two rounds of body

refinement, he was still collapsing and annihilated before this horrific force; it was comparable to an ordinary move of a Primal Chaos Realm master.

This stab was the culmination of Ying Cang's achievements, targeting both the godly body and the soul!

If either defense failed, death was certain!

"This soul attack isn't very powerful!"

Star Tower protected the 'True God's Heart,' while Luo Feng's Spiritual Will counteracted the phantom sword shadow ahead of time! His Spiritual Will, having reached the Peak of Primal Chaos Overlord and constantly honed by the 'Great Destruction Heart Refining Technique,' was not the least bit afraid of external assaults.

Boom~~~

Luo Feng's Spiritual Will, like an immovable blade, collided with the phantom sword shadow, causing the latter to directly collapse.

"What strong Spiritual Will." Ying Cang was inwardly shocked by the collapse of the phantom sword shadow, "But, my stab targeted both the soul and the godly body; your godly body will still be annihilated."

Usually, even if the soul could resist, it would be affected by the shock, leading to vulnerabilities in the godly body's defense. Even if one didn't die after being stabbed once, Ying Cang's next two or three stabs would usually suffice.

"The soul attack is negligible," Luo Feng thought as he felt the stab's destruction of his godly body, "But the damage to the godly body is quite severe. This one stab has destroyed about one ten-thousandth of my godly body."

Luo Feng was still shocked.

After all, as a being with a Perfect Divine Body, the reservoir of his Divine Power was frighteningly vast to be able to destroy one ten-thousandth of his godly body with a single stab was indeed a

fearsome attack.

"After all, I've only recently made the breakthrough to eternal true god, and I haven't even completed three rounds of the standard Body Refining Secret Technique 'Primal Chaos Great Strength Diagram,' and my understanding of the Primal Chaos Laws is still rather shallow." Faced with this attack, Luo Feng immediately realized his accumulations were still relatively weak.

He was merely withstanding it by virtue of his Perfect Divine Body.

"Hmph."

With a single thought from Luo Feng, a small Cosmic Domain descended, and darkness immediately enveloped the area surrounding the mansion.

At the same time, Luo Feng stretched out his hand, instantly igniting Divine Power, and his arm swelled as his palm crushed down with an unmatched might.

Whoosh.

In the face of this palm, Ying Cang dared not resist, knowing it could penetrate the body of 'Purple Jade Gen.' He didn't think his own body was as strong as a Mechanical Flow Treasure, so he instantly transformed into a mist, flickering away and avoiding the terrifying palm strike from Luo Feng.

"Such a peculiar movement technique," Luo Feng remarked as a dazzling set of golden armor appeared on his body, and pairs of resplendent golden wings unfurled.

Six pairs of golden wings spread out from Luo Feng's back.

Luo Feng looked at Ying Cang as the forces of heaven and earth condensed into Primal Chaos Currents, rich and abundant Primal Chaos Power filled every space, also suppressing and constraining Ying Cang.

"Control Primal Chaos?" Ying Cang appeared not far away, "His control of Primal Chaos is nearly akin to that of a real Primal Chaos

Overlord. Under this suppression, I can't even traverse the Void."

"And he was unharmed after being struck by my sword?"

"It could also be that he's pretending to be unharmed. With a few more strikes, he might die," Ying Cang, with his rich experience, was very confident in his killing moves.

```

His sword was a single-entity mechanical treasure, the "Sword of the World's Core", which excelled at condensing divine power to a high intensity.

Sha Wu Wings could also condense and transform divine power, but its formidable strength came from Luo Feng's overpowering Perfect Divine Power. Once condensed and transformed, it could rival the divine power of a Primal Chaos Overlord.

Ying Cang's divine power, however, was significantly inferior to Luo Feng's. It was only by relying on the "Sword of the World's Core" that he could condense his power to a level nearly on par with the Primal Chaos Overlord's divine power.

This sword had only one function, "Condensing Primal Chaos Divine Power", and because of this, it was valued at more than a million Cosmic Sand!

As for the killing move he executed just now, it was something Ying Cang had comprehended on his own.

It was quite normal for eternal true gods of formidable strength to devise one or two Primal Chaos Realm moves. Only when they comprehended many moves and accumulated deeper knowledge could they aspire to master the complete "Primal Chaos Laws" and become a Primal Chaos Overlord.

"Hmph!" Ying Cang turned into a wisp of mist and, in a flash, pressed in on Luo Feng.

Luo Feng's Sha Wu Wings unfolded, controlling the Primal Chaos to suppress the area around him. Ying Cang was unable to penetrate the
```

Void, but his agility and speed in flight were still superior to Luo Feng's.

"Pfft."

Ying Cang closed the distance in an instant, with a shadow of his sword striking swiftly.

Luo Feng tried to block with his hands, unleashing Sha Wu Wings that lashed out like wing blades—a power at the eternal true god stage... possibly even stronger than the Bloodshadow Knife.

Despite his hands and wings, Luo Feng could not touch Ying Cang.

Ying Cang's sword was unpredictable and mysterious, seemingly traversing the Void even under the suppression of the Primal Chaos currents, occasionally leaving a sword mark on Luo Feng's body.

Each strike was less powerful than the initial sneak-attack move but still destroyed and obliterated vast amounts of Luo Feng's divine power.

"His accumulated knowledge at the eternal true god stage is too profound; his realm of techniques is higher than mine," Luo Feng thought, relying entirely on his Perfect Divine Body acquired from his second body refinement and burning his divine power, allowing him to crash through.

But his techniques were indeed crude.

"The formidable opponents I've encountered before were all very close to my own realm. After a failed sneak attack, it was hard for me to land additional blows. This Lord Luo He... his techniques are so rough I can strike freely!"

To be considered a formidable opponent by him, one generally had to have deep accumulations at the eternal true god stage, and might even comprehend Primal Chaos Realm moves.

Luo Feng had only deciphered three out of the six World Breaking Nine Blades moves on the eternal level, indicating that his accumulation was still relatively shallow.

"Had I known his realm was so weak, I could have killed him straightforwardly," Ying Cang thought. "In this brief engagement, he's been struck by my sword twelve times already; his godly body should almost be at its limit."

"Forget it, fighting you doesn't help my blade technique," Luo Feng suddenly shook his head and sighed.

When the skill disparity was too great and one-sided, there was no effect from sharpening one's skills.

Luo Feng waved his hand.

Boom~~~~

A mighty blood-colored river spread out, engulfing the entire cave mansion in an instant, as well as Ying Cang.

Luo Feng's second Mechanical Flow Treasure—the Life Blood River—was obtained from the Blood Python Association Leader.

Sha Wu Wings and Life Blood River, as eternal mechanical flow singular treasures, contained Primal Chaos Realm moves.

Since his own realm was not sufficient, he might as well wield the 'Primal Chaos Realm moves' inside the Mechanical Flow Treasures.

Merely using one percent of his own divine power to control the 'Life Blood River', it was already vast and overwhelming, covering Ying Cang and naturally starting to suppress, restrain, erode, and destroy Ying Cang's godly body.

"Why is the Life Blood River so powerful?" Ying Cang's complexion changed.

Under the guidance of Luo Feng's Perfect Divine Power, the Mechanical Flow Treasure in his hands naturally unleashed its formidable might.

The 'Control Primal Chaos' of Sha Wu Wings and the erosion and destruction of the Life Blood River doubled down to suppress Ying Cang, who then sensed the threat of death!

"Not good, I need to get out of here fast!" In an instant, Ying Cang deployed his escape Mechanical Flow Treasure. Having taken assassination missions for so long and still being alive, his abilities to save himself were extraordinary.

Whoosh!

In an instant, Ying Cang transformed into a streak of Liu Guang, tearing through the raging Blood River and breaking through the Primal Chaos obstruction, attempting to escape.

"What a waste of my time, all for nothing," thought Ying Cang escaping, as he flashed past Morosa and Moyu Qingyan, who were trembling in fear at a distance in a small building.

"Luo He only has two servants; let both the servants die," Ying Cang was always one to kill as he pleased, and his escaping light naturally swept across that small building—

"Whoosh~~~"

Standing at the edge of the small building, Morosa, with a terrified expression, suddenly opened his mouth, which became enormous, spanning half the cave mansion and swallowed the Liu Guang that Ying Cang had become.

"Get out of here!!!" A roar came from within the mouth as Ying Cang fought back frantically.

"Gulp."

Morosa swallowed hard, completely ingesting it; he grinned at Luo Feng from a distance: "Master, he happened to rush right to my mouth."

Thank you to the two Alliance Hierarchs for their rewards: Xiao Jinyu and Guan Fu.

```
```

Chapter 45: Chapter 42: One's Own Weaknesses

Sha Wu Wings unfolded behind Luo Feng. As he stepped along the rolling Blood River and saw this scene, he originally planned to execute the "Lie Yuan Technique," but upon seeing Morosa's gaping maw, Luo Feng stopped as well.

"Without the 'Lie Yuan Technique,' I'm indeed much weaker than Morosa," Luo Feng acknowledged upon witnessing this scene.

"I have a Perfect Divine Body, and so does he! But in terms of realm, he is much higher than I am. Just this one swallow... It seems simple, but in reality, it approaches the Primal Chaos Realm. With a surprise attack, even that assassin couldn't escape."

Luo Feng was very clear about the strength of the assassin.

Under the suppression of controlling Primal Chaos, even with both hands and the Wings employing Blade Technique, he couldn't touch the assassin.

Yet, with just an open mouth and a swallow, Morosa caught the assassin who couldn't dodge.

"And Morosa's Perfect Divine Body is even more resilient! The assassin's sword could pierce my godly body, but when it reached Morosa's mouth… Morosa's mouth was undamaged."

From just this one swallow, Luo Feng saw a lot.

Morosa, who possessed the Great Dao of Destruction Origin, would grow stronger with each swallow, his comprehension of the 'Great Dao of Destruction Origin' deepening until the moment he fully mastered it. Even with talent like Luo Feng's, he felt the gap between

them.

"Morosa is a Perfect Life Form by nature, while I've cultivated myself into one."

"As a Sector Beast, he naturally possesses 'destruction of the origin,' his life essence equivalent to the Primordial Cosmos. I am somewhat weaker; I need to cultivate and comprehend step by step."

"Of course, I am his master."

Luo Feng revealed a smile.

Morosa took only two steps to reach Luo Feng's side. Seeing his master's smile, he felt somewhat anxious and quickly said, "Master, I didn't go against your orders. The moves I used were all normal ones."

"I'm not blaming you," Luo Feng said with a smile.

When he first arrived at the Land of Origin, Luo Feng strictly ordered that even if it meant death, Morosa must not reveal his Sector Beast identity. If exposed, it would attract the attention of the truly terrifying beings of the Land of Origin, and that would be the end.

The power Morosa wielded was normal Divine Power, and the moves he exhibited were also typical. Naturally, Luo Feng would not blame him.

"Is the assassin dead?" Luo Feng asked.

"Once I swallowed him into my body, he was dead," Morosa nodded.

With an equally Perfect Divine Body, Morosa utilized it more perfectly, unleashing a more terrifying strength.

"He carried a Karmic Messenger Order. Did he have time to transmit my strength before he died?" Morosa suddenly worried.

"Did he say you're also a powerful eternal true god?" Luo Feng shook his head, "Don't worry. Even if it's revealed, it's no big deal."

Super-strong eternal true gods are not rare. Every large city can find a few, and their number across the whole Land of Origin is even larger. Even if the outside world learns that both master and servant are powerful eternal true gods, it's just a trivial matter.

"I acted very quickly, and at that time, all he wanted was to survive, struggling with all his might. He died the instant I swallowed him, so he probably didn't have time to transmit a message," Morosa said. "These are all his remaining possessions, including the Cosmic Sand."

With a wave of his hand, Morosa made a pile of items appear beside him, including the Sword of the World's Core from before.

This time, unable to withstand the impulse to act, Morosa worried his master would blame him, so he didn't dare to keep any of the spoils of war to himself.

"If you need anything while following me, just tell me," Luo Feng didn't refuse and accepted all the treasures. After all, Morosa would naturally grow stronger, so being poor wasn't an issue; Luo Feng himself was the one most in need of resources.

Only if he became strong enough could he protect this Sector Beast in the Land of Origin someday.

"Then I'll go into seclusion first, to assimilate this," Morosa said.

"Mm," Luo Feng beckoned, collecting Morosa into the Star Tower.

Inside one floor of the Star Tower's space.

Looking at the corpses of the two eternal true gods, Commander Qianyu Chong and Meiwu Qi, lying before him, Morosa couldn't help but smile, "The master also cares a lot about me, purposely preserving the bodies of these eternal true gods."

If Luo Feng hadn't deliberately preserved them, their bodies would have long since turned to ash.

...

Luo Feng still maintained his small Cosmic Domain, enveloping the

entire Cave mansion. He glanced at the damaged mansion and the scene within the small Cosmic Domain shifted, rocks and soil consolidating to begin repairing the mansion.

"Qingyan, you can come out now," Luo Feng called out.

As a True God, Qingyan had been hiding in a small building, terrified. Barely touched by that skirmish, he would have been no more.

Therefore, when Luo Feng employed the small Cosmic Domain, he also deliberately protected Moyu Qingyan! Of course, Moyu Qingyan did not witness the ensuing confrontation.

Under the cover of the small Cosmic Domain, if Luo Feng didn't want him to see, he wouldn't be able to.

"Master," Moyu Qingyan ventured out of the small building and looked around before asking, "Master, where is Lord Luo Sa?"

During this time, the master hadn't instructed him. But Lord Luo Sa often gave him guidance, and Moyu Qingyan was very grateful to Morosa. Now, not seeing Morosa, Moyu Qingyan worried... Had Lord Luo Sa been affected and died?

"Rest assured, he's in seclusion," Luo Feng said, "The battle is over, don't think too much, and go on with your cultivation."

After speaking, Luo Feng flew toward the pavilion atop the high mountain.

"Yes, master," Moyu Qingyan respectfully complied. He was indeed unsettled by the harrowing experiences of late.

******

Flame Wind Pavilion.

The gray misty figure and the Master of the Flame Wind Pavilion sat opposite each other, both guessing that with Luo Feng coming out of seclusion, the long-awaited Ying Cang would nine times out of ten make a move.

"There's a result." The figure in the grey mist looked at the message before him. "Ying Cang actually died; he was famously known for his strong survival skills. Not only did the assassination attempt on Lord Luo He fail, but he also lost his life."

"Uncle, are you sure Ying Cang is dead?" The Master of the Flame Wind Pavilion was somewhat surprised.

Even with his unlimited godly body, he dared not claim he could completely kill Ying Cang.

Defeating was easy, killing was hard.

"His karma has completely dissipated. Through the Karmic Messenger Order, we could lock onto his position. When he died, he was in the cave mansion where Lord Luo He was." The figure in the grey mist said.

This was also the reason why Luo Feng had always avoided using the Karmic Messenger Order. Some powerful forces were able to use the Karmic Messenger Order to lock onto positions.

Without using the Karmic Messenger Order, those major forces, even if they deduced some vague karmic ties of Luo Feng, could only determine whether the karma existed or not, but would find it difficult to lock onto his position.

"The karma has dissipated, and it's within Lord Luo He's cave mansion." The Master of the Flame Wind Pavilion nodded. "This Lord Luo He is unfathomable!"

Even he, a scion of Emperor Chu's lineage from the Flame Wind Ancient Country, possessing unlimited godly bodies and profoundly deep accumulations at the eternal true god tier, and cultivating the very top inheritances of the Land of Origin, felt wary of Luo Feng.

"This Lord Luo He is either of very high realm or has an extremely formidable killer move." The figure in the grey mist also speculated.

...

Luo Feng sat in a pavilion atop a high mountain, drinking alone.

As he drank, he reflected on this exchange.

"The strength of the assassin, the strength of Morosa, it all proves one point...my weakness in the realm aspect." Luo Feng pondered.

Godly body, will, and realm—these three aspects.

His godly body was a Perfect Divine Body, undeniably strong, which was his absolute advantage. That was why he was willing to use a lot of resources for Body Refinement, further increasing this advantage.

Will, at the pinnacle of Primal Chaos Dominator Level! Luo Feng had never slacked off in that regard. He spent most of his time cultivating the Heart Honing Secret Method within the Lie Yuan Technique.

As for the realm, it was relatively weak. The realm was the most important of the three aspects. To step into the Primal Chaos Lord Realm, to reach the Godly King tier, one must attain a sufficiently high level in the realm.

"Once the recent trivial matters are resolved, I need to calm down and focus on comprehending the Primal Chaos Laws," thought Luo Feng, "But those Five Great Families probably won't let things go easily."

"Hmm?"

Having just experienced a great battle, Luo Feng was on high alert. He sensed a presence arriving outside of his cave mansion, and upon close inspection, he saw Moli Meng retracting the Flying Boat, landing in front of the mansion's gate.

"Brother Luo He, I'm right outside the main entrance of your cave mansion," communicated Moli Meng politely.

The main gate opened, and the Formation revealed a passage.

Moli Meng flew in and immediately noticed some geographical changes within the entire cave mansion; some old buildings were gone, and a few new constructions had appeared.

Whoosh.

Moli Meng flew to the top of the high mountain and saw Luo Feng sitting there drinking.

"Brother Luo He," Moli Meng said with a smile.

"I just went through a big battle and did some repairs on this cave mansion," Luo Feng sat on top of the mountain with a puzzled look towards Moli Meng. "I just offended the Five Great Families at the Dream Flower Tower, and upon returning to my mansion, I immediately faced an assassination. Was the assassin sent by your Five Great Families?"

Why the assassin came and who the assassin was, Luo Feng still didn't know.

"No, it wasn't our Five Great Families," Moli Meng replied anxiously. "The city owner's mansion monitored that there was an ultra-strong energy fluctuation at Brother Luo He's mansion. The intensity of the fluctuation was even stronger than when you killed the Blood Python Leader. The Five Great Families were also worried about misunderstandings, so they asked me to come explain."

"Explain?" Luo Feng continued drinking, letting Moli Meng stand there. "Then explain to me, how did the assassin come so quickly and with such prowess, if not sent by you, then who sent him?"

"We of the Five Great Families are very clear about your strength, Brother Luo He. Within a short time, no one in Huyang City could have been hired to dare confront you," explained Moli Meng.

Luo Feng listened.

"In my opinion, it could be one of your past enemies or maybe a message sent by the Blood Python Leader before his death that attracted some strong outsider," Moli Meng suggested. "In any case, it's unlikely anyone from Huyang City would make a move."

Luo Feng looked at him. "Is that all you've come to explain?"

Moli Meng chuckled. "I trust Brother Luo He has his own judgment."

"If there's nothing else, you may leave," Luo Feng urged, without a

hint of politeness.

The act of the Five Great Families allowing Meiwu Qi to massacre billions of civilians had made Luo Feng quite displeased with them.

"Brother Luo He, my Moli Clan has no intention of being your enemy," Moli Meng shook his head. "My father, Moli Xiao, has long issued an order forbidding conflict with you, Brother Luo He."

Luo Feng listened.

"But the other families are used to being high and mighty!" Moli Meng shook his head. "You directly publicly killed one of their members, and they simply cannot tolerate it. I do have a method. Brother Luo He, if you would condescend to become the Vice Commander of the Huyang Legion!

In this way, you'd become one of the high-ranking members of Huyang City, as well as part of our Five Great Families..."

"You can get out now!" Luo Feng's voice was cold.

Moli Meng was taken aback, could only stand up to bow. "Brother Luo He should understand, some of the Five Great Families purely seek pleasure, some are here to get things done. Our Moli Clan is one that works hard. We don't wish to be your enemy, but if you do not budge, I can tell you they will not let things rest. I know their temperament very well."

Luo Feng smiled faintly, a coldness in his smile.

Seeing that smile, Moli Meng felt a sudden chill, as if he glimpsed a river of blood.

"I will try my best to mediate the matter, and should there be any special circumstances, I will also communicate and notify Brother Luo He," Moli Meng said before turning to leave by himself.

Chapter 46: Chapter 43: The Status of Lord Luo He

At this moment, within the city owner's mansion.

Five Divine Power Incarnations sat in a great hall, the leaders of the Five Great Families.

"Moli Meng has already left Luo He's cave mansion." Commander Moli Xiao sat there, his purple horn-shaped crown like a king's crown, his face somewhat aged, and his eyes calm, "Luo He has just been the target of an assassination. He suspects that it was an assassin sent by us and has rejected the position of 'Deputy Commander of the Huyang Legion'."

"We sent Moli Meng over to explain, already conceding face to Luo He," the Lord of Huyang City frowned slightly, "Offering him the position of Vice Commander of the Huyang Legion is the highest rank we can offer. Higher positions such as the City Lord and Commander are directly appointed by the Royal Capital."

The rank they offered was equivalent to the third highest within Huyang City, and higher? The Five Great Families had no right to appoint such positions privately.

It was their utmost sincerity.

"We gave him a chance to calm down, and he rejected it," a figure with white hair shook his head gently.

"We took the initiative to compromise, and yet he still refused," a figure cloaked in blood-colored scales said with a cold gaze, "Our Five Great Families consist of two Royal Families and three Primal Chaos Families. We suppressed the dissent within our families and took a step back first, but he was unwilling to accept our kindness."

As the leader of the Wu Clan branch that had come to Huyang, Brother Wu naturally bore arrogance. They were willing to step back only because Luo Feng was powerfully strong.

All the leaders of the Five Great Families knew that no matter how significant the background, respect for the opponent's strength was a must.

"We backed down, but this Luo He refuses to," said the leader of the Meiwu Clan, his body adorned with leaves and branches, emanating a rich aura of life, he leisurely said, "We can recognize the big picture, but many eternal true gods among our Five Great Families cannot swallow this affront."

Everyone present understood this point.

As the leaders of the family branches in Huyang City, they were quite competent. However, the many family members under them were quite ordinary; years of indulgence had accustomed these family members to lofty statuses, and they found it even harder to tolerate the defiance of Lord Luo He.

The leaders of the Five Great Families also had to consider the emotions within their families.

"We gave him an opportunity, and he didn't want it! Then let's spend some price and get rid of him," the figure in blood-colored scales spoke indifferently, "Even if we can't kill him, we must make him stay hidden forever, just like Xue Yun, never daring to show his face."

Xue Yun, the leader of the Shi Kingdom's Forces had been hiding all along. If he were to expose himself, he would immediately be attacked by the Five Great Families.

Inside Huyang City, the Five Great Families had the advantage of the terrain, and Xue Yun could only stay hidden.

"Brother Wu, I've said it before, hire an outsider strong enough to eliminate him," the leader of the Meiwu Family also said with a smile, "The lands of the Yu Kingdom are vast and brimming with strong individuals, certainly some are stronger than Xue Yun,

stronger than River God Luo He."

"I do not agree with this matter," Commander Moli Xiao stated coldly.

"Moli, you can endure this?" the figure in the blood-colored scales scoffed, "You may endure it, but my Wu Clan cannot."

The Wu Clan, being of a Godly King lineage, naturally had extraordinary pride.

"Xue Yun is the leader of the Shi Kingdom's Forces, our sworn enemy. But Luo He is merely a leisurely eternal true god, there really is no need to drive him into opposing us," Commander Moli Xiao calmly stated, "Even if we do invite an outsider strong enough, you all know very well that it's easy to defeat him, but hard to kill!

If Luo He survives the assassination attempt, he will only harbor deeper hatred towards us. Having a formidable enemy in the shadows all the time... is not something favorable."

"We don't care about the Shi Kingdom, are we afraid of a Luo He?" the figure in the blood-colored scales snorted coldly, "Lord Qumeng, what do you think?"

"We stepped back, he disregarded it. For the sake of stability within the Five Great Families, I think it's time to take action," said the Lord of Huyang City.

Commander Moli Xiao shook his head slightly.

The white-haired figure also said, "I think we should think it over."

"We two have decided, so this matter can be settled," the figure in blood-colored scales stated.

"If the City Lord and Brother Wu agree, then I agree too," the leader of the Meiwu Family said with a smile, "There is no need to argue over this matter anymore."

The Lord of Huyang City was from the Royal Family's Qumeng Clan.

The figure in blood-colored scales, Wu Qulou, was the leader of

another Royal Family, the Wu Clan. The stature of these two Royal Families' branches in Huyang City was slightly higher than that of the three great Primal Chaos Families, less tolerant of provocations.

"Then I'll begin preparing for this matter," the leader of the Meiwu Family said, as he also purchased all the information on Lord Luo He from the Flame Wind Pavilion. Since they were going to make a move, naturally, they needed to thoroughly understand the opponent's background.

Information, with time, changes. Therefore, they had to buy the most recent information.

"In the future when there's trouble, they'll only hide behind," Commander Moli Xiao said resignedly. With the two Royal Families making this decision, and the Meiwu Family supporting it, he and the Jiang Family were powerless to stop it.

"Something is strange!" the leader of the Meiwu Family expressed some doubt.

The other four leaders looked at him.

"I tried to purchase the latest information on Lord Luo He from the Flame Wind Pavilion. His information actually costs a full 5000 Cosmic Sands," the leader of the Meiwu Family said somberly, looking at his four companions, "Just one piece of information, selling for so expensive?"

"When he made a move on Qianyu Chong and Meiwu Qi, I bought his information. It only cost 100 Cosmic Sands at that time," the white-haired figure exclaimed in surprise, "Not even a night has passed, and the price of his information has skyrocketed this much?"

"My entire information also only costs 500 Cosmic Sands," Commander Moli Xiao said incredulously, "Xue Yun's entire information, likewise, is 500 Cosmic Sands. But this Lord Luo He... it costs 5000 Cosmic Sands?"

They were well aware that the Flame Wind Pavilion's pricing system was systematic, a complete structure established by the Flame Wind

Ancient Country, never arbitrary.

"Try buying it to see what's the situation," the Lord of Huyang City instructed.

Five thousand Cosmic Sands, they did not care about the cost.

What they cared about was... just one piece of information selling for so high, making the leaders of the Five Great Families a bit nervous.

"Alright," the leader of the Meiwu Family immediately purchased the information.

Unable to believe what he saw, the leader of the Meiwu Family said, "The information from the Flame Wind Pavilion states that a very powerful eternal true god 'Ying Cang', just tonight, died within Luo He's cave mansion."

The customers' transaction information with the Flame Wind Pavilion would not be sold by the pavilion.

But through the Karmic Messenger Order, determining Ying Cang's death was a capability of the Flame Wind Pavilion itself.

Any customer holding a Karmic Messenger Order, upon death, the Flame Wind Pavilion could instantly confirm it and even pinpoint the location.

Even without a Karmic Messenger Order, unable to pinpoint the location, as long as there had been an interaction, a karmic connection would arise, the Flame Wind Pavilion could also judge whether the karma existed or not. If it existed, it meant they were alive. If it disappeared, it signified death.

"Ying Cang, he died inside Lord Luo He's cave mansion?" Everyone present turned pale.

"Ying Cang's strength is beyond doubt; he possessed not just one Mechanical Flow Secret Treasure but also deduced several Primal Chaos Realm moves on his own. And his ability to escape is even more formidable," Commander Moli Xiao said. "He once killed a child of the Primal Chaos Overlord in the Shi Kingdom, which enraged the

Primal Chaos Overlord greatly.

Elite troops were sent to pursue and assassinate him. It is said he survived several assassination attempts and ultimately managed to flee into our Yu Kingdom."

After all, since there was conflict between the Yu Kingdom and the Shi Kingdom, the elite troops of the Primal Chaos Overlord were reluctant to brazenly continue the assassination within the Yu Kingdom.

The Primal Chaos Overlord had over three hundred children and was already of the mind to toughen, screen, and eliminate them. The death of one didn't warrant a strong pursuit, which was also a reason Ying Cang managed to escape.

If it had been one of those Primal Chaos Overlords with only a few children, killing their child would likely have led to personal pursuit, even enlisting friends' help—that would truly leave nowhere to run.

Even so, the fact that Ying Cang survived made his reputation soar.

"He could survive under the pursuit of the elite troops sent by the Primal Chaos Overlord, yet he died inside Lord Luo He's cave mansion?" The leaders of the Five Great Families felt a chill in their hearts.

...

Luo Feng leisurely sat in a pavilion at the peak of the mountain, drinking. Life wasn't just about cultivation.

After the great battle, all Luo Feng wanted was to relax and reflect on himself.

"Hm?" Luo Feng looked towards the entrance of the cave mansion with curiosity. "Moli Meng left not long ago; why has he returned?"

It was still Moli Meng's Flying Boat.

Whoosh whoosh whoosh.

Three figures flew down: Moli Meng was accompanied by an older man with a similar appearance but thinner and a three-eyed man with a tail of purple-gold scales.

"Commander Moli Xiao and the City Lord are here?" Luo Feng was surprised.

The Commander and the City Lord were the two highest officials in Huyang City.

"Qingyan, go and open the door," Luo Feng instructed from afar.

"Yes." Moyu Qingyan immediately went to open the main door and upon seeing the three figures outside, he couldn't help but be startled: "Commander Moli Xiao and the Lord of Huyang City?"

As the only current doorkeeper in the cave mansion, Moyu Qingyan had already received information from his master and was familiar with all the eternal true gods in Huyang City. With such visitors, he at least could recognize them.

"The master asks you to come in," said Moyu Qingyan, suppressing his nervousness. He, a mere True God, when had he ever interacted with a Commander and a City Lord?

"They don't come out to greet us in person but only send a servant to open the door, it seems there is still some dissatisfaction," the Lord of Huyang City communicated to his companions telepathically.

"If I had his strength, I would be even more dissatisfied!" Commander Moli Xiao sent back through telepathy.

The City Lord and the Commander flew together towards the pavilion on the high mountain, with Moli Meng following behind.

Inside the pavilion.

Luo Feng sat there, drinking, with several wine jars by his side, clearly having consumed quite a bit.

"For both the City Lord and the Commander to come together, you truly honor me," Luo Feng said with a smile that was not quite a

smile as he looked at them. "Please, have a seat."

From beginning to end, Luo Feng remained seated.

Thinking of how they condoned Meiwu Qi's massacre of millions of citizens, Luo Feng didn't feel like standing up.

"Lord Luo He," lamented the Lord of Huyang City, "the matter with Meiwu Qi is indeed our fault. As the City Lord, while I have a say within the family, I still can't completely control those eternal true gods within my clan. Your intervention this time was a good thing. It can make them truly fear."

"The Five Great Families should indeed thank Lord Luo He," said Commander Moli Xiao. "We'll still say within the Five Great Families that the Lord did well by acting. If such things are found in the future, you can continue to kill. We believe this will better deter the eternal true gods of the Five Great Families."

Luo Feng was surprised.

The Five Great Families had conceded?

"This is our Five Great Families' way of making amends," the Lord of Huyang City proactively stepped forward with a Jade Vial. "It contains some items to aid in cultivation, we hope it can resolve the enmity between the Lord and our Five Great Families."

Luo Feng, with a sweep of his Divine Power, was somewhat astonished.

Within the Jade Vial was a pond-like pale white liquid, the so-called 'Blood of Ye Beast' from within the Yu Kingdom, well-known for its reputation. Consuming it was like merging with the primal chaos, extremely beneficial for deciphering the Law of Primal Chaos.

Just this one vial, Luo Feng estimated, was worth about a million Cosmic Sand.

"Lord Luo He, we mean what we say. If the eternal true gods of the Five Great Families in Huyang City commit such acts again, please feel free to punish them according to the laws of the Yu Kingdom. We

will only support the Lord," Commander Moli Xiao stated.

"You both have me somewhat confused," Luo Feng said. "Before now, more than one person told me that the Five Great Families would not let things go."

Moli Meng beside him felt somewhat embarrassed.

He was the one who had said that, very familiar with the Five Great Families, that they would not let things go.

"Ultimately, this world respects power," said Commander Moli Xiao. "Now, complete information on Lord Luo He costs as much as 5000 Cosmic Sand at the Flame Wind Pavilion. We of the Five Great Families naturally have to respect your strength."

The moment they knew of his strength,

The leaders of the Five Great Families understood one thing.

Within Huyang City, the city owner's mansion and the Shi Kingdom's Forces represented two extremes; they clashed fiercely. Previously, there was one faction within Huyang City that was very transcendent, neither the city owner's mansion nor the Shi Kingdom's Forces dared to disturb it – that was the Flame Wind Pavilion!

Now in Huyang City, standing apart from these two extremes, in addition to the Flame Wind Pavilion, was another, Lord Luo He!

——

Thank you to the new Alliance Hierarch for the reward: Suddenly looking back, that person is in the dim light, loitering passersby02

Chapter 47: Chapter 44: The Passage of Time

"My complete intelligence report is being sold for 5,000 Cosmic Sand at the Flame Wind Pavilion?" Luo Feng was very surprised.

Moli Meng said, "Through causality determination by the Flame Wind Pavilion, it was confirmed that tonight, a supremely powerful eternal true god, 'Ying Cang,' died within your cave mansion, Lord Luo He."

"The assassin tonight was called Ying Cang?" Luo Feng muttered to himself in a low voice, he genuinely didn't recognize the name. After all, since he had entered the cycle and came to the Land of Origin, the only large city he had lived in was Huyang City.

Luo Feng only purchased some basic intelligence about the vast endless world outside of Huyang City, so naturally, he didn't recognize Ying Cang.

"This is the intelligence on Ying Cang." Moli Meng sent a detailed intelligence report through the transmission token.

Upon reading it, Luo Feng understood that Ying Cang was on par in strength with Moli Xiao and Xue Yun, but most importantly… his survival skills were extremely strong. He had managed to survive despite being hunted by an elite squad dispatched by the Primal Chaos Overlord.

"To think that killing an assassin would cause the price of my intelligence to skyrocket," Luo Feng shook his head and sighed, "If I'd known he was Ying Cang, I'd have taken the bounty on him from the Flame Wind Association's Dark Hall, what a pity to miss out on a fortune."

Luo Feng generally only looked at the bounties within Huyang City.

Bounties from other cities? There were countless.

At the same time as Ying Cang's death, the Flame Wind Pavilion also revoked the bounty mission for 'Ying Cang,' with the original reward being deducted by ten percent, and the rest returned.

"It's merely some bounty, insignificant for Lord Luo He," said Commander Moli Xiao.

The Lord of Huyang City also said, "As a frontier metropolis, Huyang City is the front line of conflict with the Shi Kingdom's forces. Commander Moli Xiao and I are also under great pressure, and we need to focus on dealing with the forces of the Shi Kingdom. If Lord Luo He is willing to help, he could easily earn a large sum of bounty."

"The three of you may leave now," Luo Feng said, not wishing to speak with them any longer.

"We won't disturb you any further," the Lord of Huyang City, Moli Xiao, and Moli Meng all stood up.

Soon, the three of them took their leave.

As the gate of the cave mansion closed, Moyu Qingyan watched with a trembling heart, "The Lord of Huyang City and the Commander came together, and the master didn't even go out to greet them. When they left, the master didn't see them off either… and not even the Lord of Huyang City seemed upset over this."

"In their interactions, the master was clearly more dominant," Moyu Qingyan also grew excited internally, "What great fortune have I, Moyu Qingyan, stumbled upon that I may have the chance to take the master as my mentor! I must work hard and first comprehend the Ten Fundamental Laws!"

The unfathomable strength of the master made Moyu Qingyan all the more determined.

...

"The Five Great Families and the forces of Shi Kingdom, as long as they don't act foolishly, won't provoke me," Luo Feng thought, "I can

take this opportunity to focus on my cultivation for a while."

Luo Feng took a few steps and entered the underground hall.

Inside the underground hall, he released the Star Tower. Currently, Morosa was in one of the tower's levels, digesting food, while Luo Feng went to another level.

With a wave of his hand, the many spoils of war appeared in front of Luo Feng.

"This harvest is not considered significant," Luo Feng glanced at it.

"Qianyu Chong, no matter that he was a leader of Huyang Guard, the treasures he left behind were worth only about 200,000 Cosmic Sand in total. Meiwu Qi left behind treasures worth about 300,000 Cosmic Sand upon his death. Neither of them was particularly wealthy," Luo Feng shook his head.

This was to be expected, as these members of the great families, these ordinary eternal true gods, despite their noble status, had big expenses. And how much could they save from the Cosmic Sand allocated to them by their families? In terms of individual wealth, they were not as rich as the Blood Python Association Leader.

"Ying Cang was the wealthy one," Luo Feng looked at the other large quantity of spoils of war, "The most valuable items Ying Cang had on him were two solo-type Mechanical Stream Secret Treasures, the other possessions he carried with him were average in value. All of his left treasures were worth about 3.5 million Cosmic Sand."

"Compared to his status, it's still a little less, he probably invested his accumulated wealth into his own cultivation," Luo Feng understood.

Bloodline cultivation consumed a vast amount of resources.

An enormous amount of resources are poured in hoping for the bloodline to evolve to become more powerful, and it is an abyss with no end. Many powerful beings invest tremendous resources and yet cannot become a Primal Chaos Overlord.

"The two Mechanical Flow Secret Treasures, one is the Sword of the

World's Core, possessing only one move, 'Condensing Primal Chaos Divine Power,' valued at about 1.5 million Cosmic Sand.

The other is the 'Myriad Realms Escape Command.' It was with this that Ying Cang could move instantaneously within Huyang City, and even under the suppression of my 'Control Primal Chaos,' this treasure still allowed him to outpace me."

Wielding the Sha Wu Wings and using Control Primal Chaos, Luo Feng's power was terrifying; the Blood Python Association Leader was so suppressed he couldn't even put up a fight.

Ying Cang resisted such suppression and still managed to outpace Luo Feng... this was not something that could be achieved solely by one's realm, but rather with a powerful escape-class Mechanical Flow Treasure.

"Mechanical Stream Secret Treasures are quite helpful to me now. But in the future, the help will become less and less significant," Luo Feng understood this point.

A Perfect Divine Body refined for the second time, even if it is lower in realm and simple in techniques, can already rival the power of Mechanical Stream Secret Treasures.

Purple Jade Gen was also effortlessly pierced through with a single strike in front of Luo Feng.

"As my realm advances, the power wielded by my Perfect Divine Body will become stronger. If I refine it a third time... there will be a substantial improvement. Mechanical Flow Secret Treasures will become even less significant to me," Luo Feng reasoned.

The Perfect Divine Body and willpower are his true reliance.

Luo Feng closed his eyes and began to focus on sensing the Primal Chaos Laws from the 'Primal Chaos Ruins' nearby, tangible as if real, immersing himself in cultivation.

...

Within Huyang City, the various powers all assumed that the Five

Great Families would not let things rest and were keen to see the upcoming conflict between the Five Great Families and Lord Luo He.

But the result was... the Five Great Families backed down!

At first, everyone believed that the Five Great Families were secretly hiring experts, which might take some time to arrive at Huyang City. But as time passed, everyone began to understand the situation clearly.

As for the news of "Ying Cang being killed by Lord Luo He," after all, it's intelligence worth 5000 Cosmic Sand. Very few forces who had purchased the information would be willing to let it leak out.

Why should other families easily obtain the intelligence that one's own family had paid a great price to acquire?

As time elapsed, those within Huyang City who knew of "the news that Lord Luo He killed Ying Cang" remained only the few top forces within the city, and these forces naturally grew increasingly wary of Luo Feng.

******

Cultivation time, like running water, passed by unnoticed for more than two decades.

Huyang City, within a dark and gloomy hall.

The figure in a white robe wearing a red mask stood there, looking at the speck of blood-red flame in midair, the flame emitting an aura of disaster and darkness.

"Marquis," the white-robed figure greeted respectfully.

"Xue Yun, you've been in Huyang City for quite some time now," the voice came from the blood-red flame, "Yet to this day, you've not accomplished the task I gave you."

Divine Monarch Xue Yun replied with utmost respect, "Marquis, I dare not slack off, and I've tried every possible method to track down the complete Formation Diagram of 'Huyang City.' But the Huyang

City Formation has been so extensively modified and supplemented over generations that it has become incredibly complex. The Array Masters who personally repaired it...

only know a small area of the Formation they were responsible for. It's impossible to understand the entire grand formation."

"I only want results," the blood-red flame replied coldly, "I will give you one last era to obtain the complete Formation Map of Huyang City. I will send two experts to assist you. If you are still unable to do so within an era, you may as well come back! I will make other arrangements for the matter of Huyang City."

Divine Monarch Xue Yun was taken aback.

If he could not succeed within an era, would the affairs of Huyang City no longer be his responsibility?

As the leader of the Shi Kingdom's forces within Huyang City, although it was quite dangerous, the Shi Kingdom would continuously provide him with resources. Many of these resources ended up in Divine Monarch Xue Yun's own hands.

Divine Monarch Xue Yun, with a desire to become a Primal Chaos Overlord, naturally needed a vast amount of resources.

If he were to be recalled, coupled with the failure of the mission, the resources he would receive in the future would be greatly reduced.

"Marquis, within an era, I will spare no effort to seize the complete Formation Diagram of Huyang City," Divine Monarch Xue Yun said respectfully.

"I've arranged your assistants, and you haven't been shorted of resources. I hope that this time... you won't disappoint me again!" The blood-red flame's voice was ice-cold, and it gradually extinguished.

Only then did the exceedingly respectful Divine Monarch Xue Yun relax.

Even as powerful as he was, he dared not show the slightest

disrespect before the Marquis, an ancient Primal Chaos Overlord who has journeyed through the long years. After all, even the most powerful eternal true gods would be effortlessly crushed by the Marquis.

"The Marquis is losing patience," Divine Monarch Xue Yun pondered, "He's so urgent, it seems the Marquis must have some significant action planned."

"I wonder how strong the two assistants sent by the Marquis will be." Divine Monarch Xue Yun was patient, planning to wait for the arrival of the two formidable assistants before deciding on the plan to capture the Formation Diagram of Huyang City, "Within an era, even if I cannot get the complete Formation Diagram of Huyang City, I must earn sufficient merit points.

Otherwise, the Marquis will not spare me!"

Having taken a large amount of resources, naturally, corresponding merits were expected.

...

Snowflakes were swirling down, the world blanketed in white.

The snow of Huyang City was extremely cold, each snowflake like a glittering gem.

Luo Feng sat on the peak of his cave mansion, stretching out his hand to catch the falling snowflakes, each snowflake's structure extremely intricate, like a Formation Diagram.

"Comprehending the laws is also getting slower," Luo Feng thought, "I've been in the Land of Origin for twenty-seven eras already. I made rapid progress in the early stage, but now my advancement is slowing down."

This was normal, as his realm could be considered at the pinnacle level of an eternal true god.

To thoroughly integrate a multitude of scattered insights, and to comprehend the complete 'Primal Chaos Laws,' was certainly not an

easy task.

"Hm?" Luo Feng looked down the mountain, seeing his servant 'Moyu Qingyan' also deep in contemplation.

"Is comprehending the laws so difficult for you? You still haven't grasped the Ten Fundamental Laws," Morosa said while gnawing on meat, shaking his head.

Moyu Qingyan couldn't help saying, "Lord Luo Sa, it took me just over two decades to grasp eight of the Basic Laws, which is already quite fast. My father even says that my comprehension speed is very quick."

"Too slow! With my teaching, not having comprehended the Ten Fundamental Laws by now means you're dull," Morosa said disdainfully, "Comprehending the laws is a very simple matter. You need to understand that these laws don't exist in isolation; they are interconnected."

"It's due to the combination of different laws that all things operate," Morosa explained, "I've said it before, you need to consider their interconnections to think about their essence."

"I don't understand," Moyu Qingyan shook his head.

"Alas, both the eldest and third of the Moyu family have become true gods of void space, only leaving you as the lone True God. Put some effort into it; your weakness is embarrassing, even to me!" Morosa shook his head, "Both your master and I progressed much faster when we were cultivating!"

Moyu Qingyan kept quiet, as he still wanted Morosa's guidance and dared not talk back, and he had to think of ways to appease him.

Whoosh!

Luo Feng landed beside them.

"Master," Morosa and Moyu Qingyan immediately stood up.

"Come with me on a trip," Luo Feng instructed.

Chapter 48: Chapter 45: The Master and Disciple of Fire Realm Restaurant

The Fire Realm Restaurant was bustling under the flurry of snow, with many guests present.

Inside the kitchen pavilion, Suo Zi was focused on cooking. Over two decades had passed, and he had already become one of the main chefs at the Fire Realm Restaurant. After all, the owner, "Black Butcher," rarely cooked, leaving the main chefs and many disciples to handle the cooking.

"Okay, serve it all now," Suo Zi finished preparing a Fire Realm Feast.

"Yes," an attendant who was waiting nearby immediately delivered the renowned 'Fire Realm Feast' to the guests.

Suo Zi then relaxed.

As a main chef, he needed to prepare some important dishes himself, while ordinary dishes could be delegated to his junior brothers and sisters.

"Having become a head chef, I've earned quite a few more Primal Chaos Crystals. After a few more decades, I'll be able to purchase enough resources to try for a breakthrough," he thought every time he counted his increasing savings, filled with anticipation for the future.

"Brother Suo Zi, your brother has come. He's calling you over," a voice came from outside the kitchen pavilion.

"Okay." Suo Zi walked outside, where being a head chef meant he

wasn't too busy.

Familiarly, Suo Zi walked into a hall, where dozens of guests were seated apart from each other, with Suo Yun sitting in the primary seat.

"Suo Zi," Suo Yun called out.

Suo Zi walked over.

"Today I'm hosting a feast for many brothers in the tower," Suo Yun laughed heartily, "You must cook personally! Your skills are much loved by our Thousand Mountain Tower brothers."

"The skills of the tower master's brother, we are all well aware," someone commented.

"It's tough on Brother Suo Zi!" the numerous guests around laughed. Almost all those invited by Suo Yun were from the Void True Gods of Thousand Mountain Tower.

Suo Zi smiled amicably, familiar with handling guests over the long years, "I'll make sure everyone is satisfied. I'll go cook now."

"Go ahead with your work, and come join us for a drink afterward," Suo Yun instructed.

"Okay." Suo Zi then left the hall.

"Tower Master Suo Yun, why don't you bring your brother to join us at Thousand Mountain Tower?"

"Lord Qiu, you don't know, my brother wants to stay with his master and learn the art of cooking. He really doesn't want to come to Thousand Mountain Tower," Suo Yun was one of the thirty-nine tower masters of Thousand Mountain Tower, which clearly spoke of his high status as he chatted and dined with the members.

Suo Zi returned to the kitchen pavilion and received a detailed menu via a transmission token. Some simple dishes were delegated to his junior brothers and sisters, but many main dishes required his personal attention.

"Arriving in Huyang City over two decades ago, Suo Yun has completely changed," Suo Zi had grown up with Suo Yun in the tribe, and he could sense the changes in Suo Yun within Huyang City, "Now, I find it hard to tell whether his words are true or false."

"He frequents the Fire Realm Restaurant not because of me but to chance upon Lord Luo He," Suo Zi knew this very well, "He was recruited by the Dark Forces of Thousand Mountain Tower and promoted to tower master because of Lord Luo He."

Over the past two decades, Suo Zi had seen numerous guests come and go, sensing the intangible influence of Lord Luo He.

Because of Lord Luo He, many eternal true gods were willing to come to the Fire Realm Restaurant.

Because of Lord Luo He, the Fire Realm Restaurant had expanded its premises several times over, greatly improving business.

Because of Lord Luo He, Suo Zi himself had received vigorous cultivation from the owner.

"Lord Luo He has arrived," suddenly, the attendants at the Fire Realm Restaurant all perked up, passing the message around.

"Lord Luo He has arrived?" Suo Zi also looked outside the pavilion, instantly spotting the figures of Luo Feng, Morosa, and Moyu Qingyan approaching in the distance, with the owner "Black Butcher" already moving forward to greet them.

...

"Supreme," the Black Butcher was extremely enthusiastic and respectful.

He too had struggled to get to the Land of Origin by passing through cycles of reincarnation, and his days had improved significantly only because Luo Feng enjoyed visiting the Fire Realm Restaurant. It was during these past two decades that he was able to quickly accumulate resources.

He did not mind being humble, what he feared was the absence of

hope. Previously, while operating the restaurant for many long years and being oppressed by dark forces, he hardly made much profit, sometimes even operating at a loss.

These past two decades of good days had amassed more wealth than he had accumulated in all the preceding years combined, naturally enabling him to buy resources to aid his cultivation.

"Black Butcher, your Fire Realm Feast is getting better and better. If I don't come for a while, I start craving it," Luo Feng said with a smile.

"It's my honor that the Supreme enjoys it. I will get to the kitchen now and strive to do even better," the Black Butcher grinned broadly, his smile genuine, "Supreme Shang and the others are at the old place."

Luo Feng nodded and flew towards the familiar hidden pavilion.

During the flight, when some of the Fire Realm Restaurant attendants and many guests saw Luo Feng, they showed great respect, including the overly respectful 'Suo Yun.'

"This is Suo Yun, joining the dark forces. His and Suo Zi's paths are completely different," Luo Feng noted all the faces effortlessly.

For Suo Zi and Suo Yun, Luo Feng was still quite concerned.

After all, they were among the first creatures he saved upon his arrival in the Land of Origin and had also arrived in Huyang City at the same time as him; Luo Feng was quite interested in their future development.

However, joining the dark forces was something Luo Feng did not quite appreciate.

"Sigh."

Luo Feng approached the secluded small building.

"Brother Luo He," Shang Tianyan and another eternal true god, Sang Shuiyun, were already at the door to meet him.

Moyu Qingyan was standing guard outside the little building.

Meanwhile, Morosa relaxed and walked to a small building nearby, instructing the Black Butcher, "Arrange some food and drink, you know my taste."

"Don't worry, I understand," responded the Black Butcher, who immediately set things up. After spending so much time together, he could sense that the servant 'Luo Sa' had an unusual relationship with Lord Luo He.

Right after, the Black Butcher, filled with fighting spirit, began to adjust his mindset, dedicating himself fully to preparing a Fire Realm Feast. After all, 'Lord Luo He' was his most important guest, and he had to be well attended to.

From a distance, Suo Yun watched Luo Feng enter the building and narrowed his eyes in thought.

"Lord Suo Yun, is that Lord Luo He?" Lord Qiu looked from afar, his eyes filled with envy and reverence. As a core member of the Dark Forces' Thousand Mountain Tower, Lord Qiu was well aware... Lord Luo He was a top-tier figure in Huyang City, even the Five Great Families had to restrain themselves in front of him.

"Yes, it was Lord Luo He who saved my life. If it weren't for the divinity, my brother and I would have died long ago," Suo Yun exclaimed.

...

Inside the secluded building.

Luo Feng, Shang Tianyan, and Sang Shuiyun sat down.

Shang Tianyan chuckled, "Brother Luo He, when you called for me, I just happened to be at this Fire Realm Restaurant with Sang Shuiyun."

"You two really have a close relationship, always coming and going together," Luo Feng teased.

In the entire Huyang City, there were only two eternal true gods infatuated with the Dream Flower Tower Master, precisely Shang Tianyan and Sang Shuiyun. Though they were considered rivals in love, they actually got along quite well.

"Initially, Brother Shang and I were both loners in Huyang City, free from any attachments. That's when we got acquainted," Sang Shuiyun shook his head. "And now, I am still carefree without any ties, but look at him, establishing the Heavenly Flame Sect, tirelessly mentoring a whole bunch of disciples, acquiring a bunch of burdens, making him strain himself as well."

Sang Shuiyun had wings and always carried an air of decadence, as well as a somewhat reclusive nature.

"I have spent countless heart force on artifact refining, I have to pass it on," Shang Tianyan remarked.

"Why do you absolutely have to pass on your skills? In the whole Land of Origin, there are many artifact refining masters stronger than you. The loss of your artifact refining skills would just be a trivial matter," Sang Shuiyun said. "Don't overestimate yourself, we are just insignificant little waves in the Land of Origin."

"Even a little wave has its moment to ripple. With your decadence, you can't even count as a wave, just dust," Shang Tianyan replied.

"I am dust, and you are a wave," Sang Shuiyun shook his head. "Actually, even if you want to pass on your skills, taking a few disciples would have been enough. Establishing a sect and having all those sect concerns mean you can never truly be free. Luckily, you met Lord Luo He and for the past two decades or so, you've been relatively at liberty."

"Haha, I should thank Brother Luo He," Shang Tianyan looked at Luo Feng. "In the past, there were many things I couldn't extricate myself from, having to consider the whole sect. Now, the various powers hardly dare to go too far."

Luo Feng said, "Brother Shang, if you didn't care about the sect, didn't care about the disciples, you could be as carefree as Sang Shuiyun."

Sang Shuiyun nodded, "He's just foolish."

"If you can't speak nicely, then keep quiet. I need to discuss important matters with Brother Luo He now. You might as well leave," Shang Tianyan urged.

"I'm off," Sang Shuiyun said simply, standing up and leisurely leaving.

Luo Feng watched Sang Shuiyun go.

He could feel Sang Shuiyun's reclusiveness; in this world, it seemed like there was nothing Sang Shuiyun truly cared about, as if he were merely a passerby in the world.

"Sang Shuiyun's temperament, and you actually became friends with him," Luo Feng remarked.

"He and I are quite similar," Shang Tianyan said.

"Quite similar?" Luo Feng was surprised.

To him, Shang Tianyan and Sang Shuiyun seemed to have completely different temperaments, one loved making friends, and took great care in teaching disciples, managing the sect. Yet the other was extremely reclusive, caring about no one.

"In Huyang City, I understand him the best, and he understands me the best," Shang Tianyan smiled. "Perhaps that's why both of us are enamored with the Dream Flower Tower Master."

"I don't understand you two," Luo Feng shook his head.

More than two decades had also made Luo Feng's relationship with Shang Tianyan very good, and they were congenial in temperament. Luo Feng had compassion for the weak, and Shang Tianyan was also naturally compassionate towards the weaker ones, otherwise, why would he painstakingly teach his disciples?

They chatted over food and drinks, relaxed and at ease.

Suddenly—

"Buzz."

A small cosmic domain appeared in the Fire Realm Restaurant.

Luo Feng and Shang Tianyan turned their heads to look, their gaze piercing through the walls, seeing the restaurant owner 'Black Butcher,' who had just finished preparing the Fire Realm Feast. He had a sudden epiphany while fully committing to the feast and broke through the final barrier.

The Source of Law he mastered naturally formed a domain.

"I didn't expect this Fire Realm Restaurant's owner to have broken through, becoming an eternal true god," Shang Tianyan marveled.

"Preparing a Fire Realm Feast for us, and he actually broke through to become an eternal true god. This feast must be delicious," Luo Feng was somewhat greedy.

Chapter 49: Chapter 46: Siblings of Shi Kingdom

Before long, the "Fire Realm Feast" that led the Black Butcher to his epiphany and breakthrough was served.

"Mm!" Luo Feng devoured the feast, his eyes lighting up with excitement. He was a regular at the Fire Realm Restaurant, but today's banquet with large chunks of meat meticulously refined his godly body and stimulated his soul.

The soul stimulation was tenfold greater than before.

"Good, good, good." Luo Feng praised repeatedly. The Fire Realm Restaurant's fare already suited his taste, but now, after the Black Butcher's culinary skills had broken through to the Source of Law realm, Luo Feng was becoming infatuated with the Fire Realm Feast.

It was simply delightful!

The completely transformed Fire Realm Feast was the top delicacy Luo Feng had ever tasted within Huyang City.

"This flavor..." Sang Shuiyun, who was tasting beside him, also seemed excited, "I've lived in Huyang City for so long, and the Black Butcher's cooking skill can now be considered the best in Huyang City."

There were indeed several eternal true gods in Huyang City who loved cooking, but the Black Butcher was the only one who had stepped into eternity through the art of cooking.

Having fully comprehended the essence of the Source of Law as a cultivator of the Law Lineage, his culinary arts were naturally even more extraordinary.

"This Fire Realm Feast, I feel, greatly benefits my cultivation," Luo Feng could feel that the transformed "Fire Realm Feast" was even more effective than many auxiliary cultivation items.

"Brother Luo He, why not take the opportunity to understand the mysteries of artifact refining?" Sang Shuiyun suggested.

"Good idea, I certainly have some confusions," Luo Feng mused as he ate and drank, contemplating the numerous intricacies of the Primal Chaos Great Strength Diagram for his third body refinement.

With more than two decades of cultivation experience, he had accumulated a great depth of knowledge.

Thinking all the while, Luo Feng also discussed with Sang Shuiyun. His insights seemed heightened by the soulful stimulation from the delectable food. Some perplexities cleared up after just a few words from Sang Shuiyun.

...

After the Black Butcher's enlightenment of the Source of Law, his small cosmos back in his homeland began to expand.

"With Lord Luo He present, my transformation within the Fire Realm Restaurant is actually the safest," the Black Butcher suppressed his excitement and meditated in the small building, patiently waiting for the expansion of his small cosmos to complete.

In his home region of the Primordial Cosmos, time flowed 10081 times faster than in the Land of Origin.

So, just in the time of a chat and drinks, his small cosmos back home had completed its transformation! The Black Butcher's "True God's Heart" had fully transformed, and his entire godly body began evolving to a higher level.

An endless stream of Divine Power transmitted from his distant homeland through the "True God's Heart" to his whole body.

"I've finally broken through to the Eternal True God Realm," the Black Butcher was overwhelmed with emotion, having waited far too long

for this day! In Huyang City, he had seen guests come and go, always greeting them with a smile.

He had even maintained a smiling face under the pressure of the dark forces.

At last, he had made his breakthrough! He had fully entered the ranks of the powerful in Huyang City!

"Even though I've broken through, I'm just a newly advanced eternal true god. Within Huyang City, I still need to tread carefully. The most important thing for me is to maintain my relationship with Lord Luo He," the Black Butcher was very clear about this.

He immediately left the small building and headed straight to where Luo Feng and Sang Shuiyun were.

Moyu Qingyan did not stop the Black Butcher, allowing the restaurant owner to go in.

"Black Butcher, congratulations," Luo Feng said with a smile.

"My achievements today are all thanks to the Divine Monarch," the Black Butcher bowed deeply in respect, "Without your protection, how could I have amassed such resources over these two decades and achieved today's breakthrough? For this great kindness, I do not know how to repay you."

Luo Feng laughed, "When I visit your restaurant in the future, just give me some discount. Now that your culinary skills are renowned as the best in Huyang City, the prices are sure to rise a hundredfold. I'm going to feel the pinch."

"Divine Monarch, from now on, your meals at my restaurant will always be free," the Black Butcher declared generously.

Luo Feng looked at the Black Butcher and said, "Then it's a deal! I won't pay with Primal Chaos Crystals anymore."

The Black Butcher was somewhat excited by this and repeated, "It would be my honor."

"Black Butcher, you're really lucky," Sang Shuiyun remarked as he looked at the Black Butcher.

At their level, they wouldn't really take advantage of petty benefits from eating and drinking.

By saying this, Luo Feng was expressing an attitude — the Fire Realm Restaurant was his place!

After all, the strongest eternal true god of Huyang City who specializes in cooking may face many involuntary situations. With Luo Feng's protection, the Black Butcher, a newly advanced eternal true god, could truly stand firm in Huyang City.

No choice, too many powers lurk in Huyang City, and a newly advanced eternal true god who doesn't rely on a major power will encounter plenty of troubles. Unless one is unattached like Sang Shuiyun.

"I'll go down and cook a few more dishes for the Divine Monarch," the Black Butcher said with a laugh before excusing himself.

Inside the small building.

"Brother Luo He, are you going to protect the Black Butcher from now on?" Sang Shuiyun asked in surprise.

"In all of Huyang City, I like his cooking the best, and his temperament is also good," Luo Feng said with a smile, "By protecting him, I'm also protecting my gastronomic pleasure."

"You're too kind, willing to help the weak," Sang Shuiyun said, "Sometimes, being kind and benevolent can be costly in this world."

Luo Feng looked at him, "My kindness depends on who the recipient is."

"By the way, since you're studying key skills in body refinement, are you interested in learning artifact refining?" Sang Shuiyun asked, "I know a bit about weapons, armors, and Mechanical Flow Secret Treasures. Although I've taken many disciples, in terms of talent in this area, you are far stronger than any of them."

"I'm not interested for now," Luo Feng replied, "When I am, I'll ask you for guidance."

"Alright, whenever you want to learn, I'll teach you," Sang Shuiyun was still willing to teach.

Actually, in terms of inheritance in artifact refining, his master Mountain sitting guest was a Godly King in the artifact refining lineage, so Luo Feng naturally had access to this system of inheritance. It's just that understanding it was quite esoteric – having Sang Shuiyun's guidance could save him from taking many detours.

The two of them talked about artifact refining and the situation in Huyang City. Only after they finished eating, drinking, and discussing, did they part ways.

"Let's go."

Luo Feng, carrying Morosa and Moyu Qingyan, left when the entire Fire Realm Restaurant was in a celebratory mood.

"Master has become an eternal true god."

"Master has made a breakthrough."

The many disciples of the Black Butcher, including Suo Zi, were wildly excited.

Previously, they were just disciples of a true god of void space! But now, they had ascended to heaven... each one of them had become a disciple of an eternal true god! Their status within Huyang City had greatly risen.

Under normal circumstances, how difficult it was to take an eternal true god as a master! And the price was even more exorbitant!

They were all from the lower echelons of Huyang City, merely learning from a true god of void space. Now, happiness had descended from the heavens, their master had broken through by himself! Naturally, each of these disciples was thrilled.

"Suo Zi, congratulations, you've really hit the jackpot, becoming a

disciple of an eternal true god straight away," Suo Yun, who had grown accustomed to looking down on his brother over the past two decades or so, said.

His brother was content to be a chef, something Suo Yun looked down upon, thinking him fearful, incompetent, and lacking in ambition.

Wanting to become powerful in a place like Huyang City, how could one not fight recklessly? Not take risks? Not seize every opportunity? If it weren't for the frequent encounters with Lord Luo He, Suo Yun would have been too lazy to have too much to do with his brother.

But who would have thought fate could be so magical!

Suo Zi had actually become a disciple of an eternal true god.

"It's the master's greatness; we're just lucky," Suo Zi said, filled with joy at the moment.

Meanwhile, Luo Feng, Morosa, and Moyu Qingyan had already left on the Flying Boat.

...

Standing in the cabin of the Flying Boat, Luo Feng looked outside at the endless Huyang City covered in snow, so beautifully enshrouded in mist—Huyang City had completely turned into a city of ice and snow.

He really liked this city!

Coming to the Land of Origin, choosing to live in Huyang City. One reason was he wanted to see more of the world; another was to avoid the Primal Chaos Overlords and the Godly Kings. That's why he chose this frontier metropolis 'Huyang City'.

"Before becoming a Primal Chaos Overlord, it's better to stay hidden here," Luo Feng understood that he was still weak and not fit to clash with Primal Chaos Overlords.

"It's time to prepare for the third body refinement," thought Luo Feng.

After today's conversation with Shang Tianyan, mastering the three body refinements of the Primal Chaos Great Strength Diagram was only a theory.

Those who could complete the three body refinements were considered skilled in the field of artifact refining. Luo Feng's progress was so rapid that even Shang Tianyan wanted to teach him more artifact refining skills.

"The third body refinement requires materials estimated to be worth 3.6 million Cosmic Sand," Luo Feng frowned slightly, "I only have just over a million Cosmic Sand, quite a bit short."

"I'll have to sell one of my Mechanical Flow Treasures."

Luo Feng thought.

Of the four Mechanical Stream Secret Treasures currently in his possession, the Sha Wu Wings with 'Control Primal Chaos' and 'Wing Blade' were useful. The super-wide Primal Chaos Domain was still of great use to Luo Feng. Moreover, Sha Wu Wings held special significance to Luo Feng; naturally, he couldn't sell it.

His primary method of combat relied on the Perfect Divine Body! The Myriad Realms Escape Command, a Mechanical Stream Secret Treasure, was of great help to him.

The Life Blood River was less important compared to the Myriad Realms Escape Command.

The Sword of the World's Core, which only had the effect of 'Condensing Primal Chaos Divine Power', was of no use to Luo Feng, as his Perfect Divine Power, with the aid of Sha Wu Wings and Life Blood River, transformed and condensed power no less than Primal Chaos Divine Power.

"Within Huyang City, there are mainly three forces: the city owner's mansion, the Shi Kingdom, and the third local force," Luo Feng considered, "Let the city owner's mansion and the local force make an offer."

"Whoever offers more, I'll sell to them."

Luo Feng made his plan and immediately sent a message to Moli Meng and Zhu You, informing them that he intended to sell the Mechanical Stream Secret Treasure 'Sword of the World's Core'.

******

The Sword of the World's Core held little attraction for Luo Feng.

But for eternal true gods with higher realms and those who had mastered moves of the Primal Chaos Realm, it was very attractive! Their Divine Power was not as pure as Luo Feng's. Possessing the Sword of the World's Core could significantly boost their strength.

'Ying Cang' relied on the Sword of the World's Core for such terrifying assassination power.

While the city owner's mansion and local forces were all focused on the Sword of the World's Core, an ordinary-looking dark red Flying Boat arrived at Huyang City.

Inside the dark red Flying Boat.

Two figures stood in the cabin, looking out at the city.

"It seems the Marquis is ready to act, to fully seize Huyang City," a female figure with an icy body said, "That is why he sent the second brother here to join forces with Xue Yun."

"Behind Huyang City stands the Marquis of Jiu Jiang," the burly figure stood firm as if he himself were an unshakable world, "Although Marquis of Jiu Jiang has quite a reputation, he is still a notch below the Marquis compared to our superior."

The icy-bodied female nodded in agreement.

Though both were venerable Primal Chaos Overlords, fame was built over long years through strength. The 'Marquis Liu Yin' of their backing, Shi Kingdom, indeed had a greater reputation than the Marquis of Jiu Jiang.

"Our siblings, as well as Xue Yun, together, are enough to turn Huyang City upside down!" the burly figure declared, "It's just that

this Xue Yun is too cautious, unwilling to take risks, and hasn't made big gains in Huyang City. When I see him later, I'd like to compare our strength... if he's less powerful than me, he'll have to listen to me."

"This Xue Yun, although he is from an older generation, is probably not a match for my second brother," said the icy-bodied female, well aware of her second brother's strength.

"We'll know after we compare," said the burly figure.

The dark red Flying Boat moved quietly forward to meet with Divine Monarch Xue Yun.

——

Thanks to the two new Alliance Hierarchs who have given rewards: Zhi Liao. Lord of Lei Jiao Mountain

Chapter 50: Chapter 47: Competition

A moment later, inside an underground hall of what seemed to be an ordinary cave mansion.

A figure clad in a white robe and wearing a red mask greeted two guests, saying with a smile, "I've long heard of the fame of the 'Five Gods of Yutian' of the Yutian Clan. I never expected that the Marquis would send the two strongest among you here."

"My second brother is the strongest in our family. I pale in comparison; I'm not even in the top three in our clan," said a woman with a body of icy coldness, as she chuckled softly, naturally emitting a chill that greatly reduced the temperature of the entire hall.

"So you are Xue Yun?" said the burly figure looking at Divine Monarch Xue Yun, "Wearing a mask and disguising your aura, you don't even dare to show your real face?"

Divine Monarch Xue Yun continued to smile at the two, "After all, I need to stay undercover within the Yu Kingdom for a long time, so it's better to be cautious."

"Hmph."

The burly figure indifferently said, "The Marquis should have already told you about our coming to Huyang City."

"Yes, sending you two to assist me is for the purpose of seizing the complete Formation Map of Huyang City," said Divine Monarch Xue Yun.

"The three of us acting together must have a defined leader. The Marquis didn't specify who should take command. In my view, we

ought to have a trial to decide," said the burly figure.

Divine Monarch Xue Yun looked at the brother and sister, nodding lightly, "I have long heard of the fame of Yutian Xu and Yutian Yi, and I would also like to test you. You two can join forces."

"Join forces?" Both the burly figure and the woman of icy coldness changed their expressions slightly.

They were both very proud.

Two against one? This was an insult to them.

"I alone am enough to deal with you," said the burly figure.

"If you can defeat my second brother, we siblings will naturally obey you," said the woman with the icy cold body.

"Very well, I have heard that the strongest of the Yutian Clan, 'Yutian Xu,' has awakened a special bloodline and has refined his Body Refinement Secret Technique to an unimaginable extent," Divine Monarch Xue Yun looked at the burly figure, "Today, I shall test that."

As he spoke, Divine Monarch Xue Yun released a large boat Secret Treasure, placing it at the center of the hall.

"Please."

Divine Monarch Xue Yun, Yutian Xu, and Yutian Yi all entered the interior of the large boat Secret Treasure; after all, the commotion from a clash at their level was too great. Fighting inside the Secret Treasure could ensure the battle did not get exposed.

The three strongest forces of Shi Kingdom's Forces in Huyang City, at this moment, began their trial inside the large boat Secret Treasure, the outside world none the wiser.

A moment later, three figures flew out.

"Within Huyang City, everyone regards Lord Luo He's godly body as extraordinary, who alone can pierce through the Mechanical Stream Secret Treasure, 'Purple Jade Gen.' But in my view, Brother Yutian

Xu, your godly body is probably even stronger than that of Lord Luo He," praised Divine Monarch Xue Yun, "Even the legendary unlimited godly bodies might find it hard to surpass yours.

With Brother Yutian Xu's help, our chances of capturing the Huyang City Formation Map have greatly increased."

"My second brother's godly body can be said to be the pinnacle of bloodline cultivation path among the eternal true gods," Yutian Yi looked at Divine Monarch Xue Yun in surprise, "I didn't expect that he would still lose to a Divine Monarch."

This exchange had made the siblings aware of just how deeply hidden Divine Monarch Xue Yun was.

Divine Monarch Xue Yun, concealing his true identity all this while, wasn't very famous, but his strength exceeded their expectations.

"To this day in my cultivation, you are the eternal true god I've seen with the deepest accumulation," Yutian Xu also expressed some admiration, "In our fight, you used five moves from the Primal Chaos Realm. Having deduced so many moves from the Primal Chaos Realm, you must be a step into the Primal Chaos Realm, right?"

"I don't know."

Divine Monarch Xue Yun shook his head, "I've always been accumulating, feeling that I'm getting closer and closer to the Primal Chaos Realm, but as the years pass, I still find myself stuck as an eternal true god."

"Divine Monarch Xue Yun, have you also studied the Law Lineage?" asked Yutian Yi.

"Yes."

Divine Monarch Xue Yun admitted, "Being stuck in a bottleneck for a long time, I tried comprehending laws. As my understanding of laws improved, I could more effectively tap into the potential of my bloodline. The two cultivation systems are not contradictory, but rather, they complement each other."

"Divine Monarch Xue Yun, your understanding is indeed much stronger than mine," Yutian Xu conceded, "This time, I am convinced by my defeat, and for this operation, both my sister and I will follow your lead."

Yutian Yi also nodded on the side.

Looking at the pair of siblings, Divine Monarch Xue Yun secretly sighed in relief, finally having convinced them.

"Inside Huyang City, the city owner's mansion's greatest advantage is the 'geographical advantage,' which in fact refers to the grand formation of Huyang City," said Divine Monarch Xue Yun, "The Huyang City Formation has been continuously improved by masters through generations. Once its numerous capabilities are unleashed, our strengths will also be significantly suppressed."

Yutian Xu and Yutian Yi both nodded in agreement.

"The Formation Map is the core of Huyang City, guarded most strictly," said Divine Monarch Xue Yun, "Speaking of the most strictly guarded place in Huyang City, it is undoubtedly the city owner's mansion, and I guess... the Formation Map is inside the city owner's mansion."

"Knowing that, what can we do?" both Yutian Xu and Yutian Yi also felt troubled, "Are we supposed to just storm in?"

The city owner's mansion's defenses were too strong, akin to a super-large Mechanical Flow Secret Treasure, full of dangers.

"No hurry. The Marquis gave us a century's time, we have plenty of time," said Divine Monarch Xue Yun, "The first step is to capture all the experts who have repaired the Huyang City Formation—since they have repaired the formation, they must have some understanding of it."

"Collect as much information about the Huyang City Formation from them first; they might know the location of the complete Formation Map," said Xue Yun.

"How many experts who have repaired the formation are there in

Huyang City?" Yutian Xu and Yutian Yi were not aware.

"Historically, there have been many who repaired it, but there are nine who are still in Huyang City!" said Xue Yun, "One has already pledged allegiance to us, but the other eight are somewhat troublesome."

"Capture eight eternal true gods?" For the Yutian siblings, this was no pressure.

With a wave of his hand, Divine Monarch Xue Yun conjured the detailed information of seven eternal true gods in midair, "Our targets are these seven eternal true gods."

"Seven? Wasn't it eight?" Yutian Xu and Yutian Yi were puzzled.

"The person responsible for repairing the formation of Huyang City was named Shang Tianyan," Divine Monarch Xue Yun explained. "He is skilled in artifact refining and belongs to the Mechanical School, ranking as one of the top artifact refining masters within Huyang City. However, he is the best friend of Lord Luo He in Huyang City.

If we were to capture Shang Tianyan, it might easily provoke Lord Luo He."

"Lord Luo He?" Yutian Xu sneered. "Before my siblings and I came to Huyang City, we gathered intelligence on all the eternal true gods here, and it's said that Lord Luo He hardly ever makes a move."

"He has killed Association Leader Mu Yang of the Blood Python, pierced through the 'Purple Jade Gen' of the Huyang Guards' Mechanical Stream Secret Treasure with a single hand, and it's likely that Assassin Ying Cang was killed by him too," Divine Monarch Xue Yun nodded. "Indeed, he seldom takes action."

"He fought with Assassin Ying Cang—who has seen it, who can say for sure that it was he who killed him?" Yutian Xu shook his head. "Even if he did kill Ying Cang, Ying Cang was just an assassin, known for sneak attacks, assassinations, and using escape to preserve his life. No one has ever said he had a powerful godly body."

"With an ordinary godly body, once he fails, he could easily die,"

Yutian Xu said. "In my opinion, his strength might not be that great; it was probably just a good match against Ying Cang."

"None of the forces within Huyang City have seen Lord Luo He and Ying Cang fight, and yet they are this frightened?" Yutian Yi also shook his head. "In my view, since he is an eternal true god, he shouldn't be much stronger than us. My second brother and you, Divine Monarch Xue Yun, are both considered at the pinnacle of the eternal true gods, so how much stronger can this Lord Luo He be?"

"Perhaps you are right."

Divine Monarch Xue Yun nodded, "But our mortal enemy is the city owner's mansion! The city owner's mansion's mortal enemy is us! At this time, neither of us wants to provoke unnecessary trouble or gain an uncontrollable opponent. Since Lord Luo He, not vying for power or benefits, there's really no need to provoke him."

"For the mission, let's ignore him for now."

Yutian Xu and Yutian Yi were also aware of what was more important."

"Our first step in the plan is to capture these seven eternal true gods; we must plan meticulously," Divine Monarch Xue Yun said.

"Mhm," replied Yutian Xu and Yutian Yi. They had some doubts about Lord Luo He's strength, but they were very wary of the city owner's mansion because behind it stood the ancient Marquis of Jiu Jiang and many Godly Kings of Yu Kingdom.

To deal with Lord Luo He, the city owner's mansion could not transfer some strong forces from higher up.

But when dealing with forces from Shi Kingdom, the city owner's mansion could legitimately request support.

******

Under the night sky enveloping Huyang City, Luo Feng sat at the peak of a high mountain in his own cave mansion, drinking while contacting Moli Meng and Zhu You.

"Ten days have passed, you must have thought it over," Luo Feng messaged them separately. "The Mechanical Stream Secret Treasure 'Sword of the World's Core,' you have also experienced its power in my cave mansion."

"Make your offers. There will be competition from many parties, and the highest bidder will win."

Luo Feng had actually only contacted these two parties.

But Moli Meng and Zhu You did not know how many forces Luo Feng had really contacted.

"1.5 million Cosmic Sand," Moli Meng offered.

"1.3 million Cosmic Sand," Zhu You also stated his price.

Luo Feng responded, "The current price is 1.5 million Cosmic Sand."

In fact, these past few days, Luo Feng had also visited the Flame Wind Pavilion to inquire, and the Flame Wind Pavilion was willing to buy it for 1.4 million Cosmic Sand. However, Luo Feng did not want to sell to them because for the Flame Wind Pavilion, whose commercial network nearly spans the Land of Origin, what treasures have they not seen?

They were only willing to offer a relatively low price.

"1.55 million Cosmic Sand," Zhu You messaged. At that moment, a gentle woman was sitting beside him.

"Lord Wei, the bidding is very competitive. Lord Luo He has raised the price to 1.65 million Cosmic Sand," Zhu You said to the gentle woman beside him.

This gentle woman, a formidable figure hidden within Huyang City.

Even the Zhu Clan was wary of her.

"Increase by 50,000 Cosmic Sand each time," the gentle woman instructed.

"It's now 1.75 million Cosmic Sand."

"1.9 million Cosmic Sand," Zhu You noted each price while watching the woman's reactions.

"Tell that Lord Luo, 2 million Cosmic Sand is my final offer. Any higher, forget it," the gentle woman said.

Zhu You nodded.

Once the final price was stated.

Zhu You waited a moment before showing joy, "2 million Cosmic Sand, the Sword of the World's Core, belongs to Lord Wei."

"2 million Cosmic Sand is a reasonable price to pay, especially since we don't know when we might encounter another Mechanical Stream Secret Treasure capable of condensing Primal Chaos Divine Power," the gentle woman smiled.

"Lord Luo He will come to the Zhu Clan soon to personally deliver the Sword of the World's Core. Would you like to meet Lord Luo He?" Zhu You asked.

"I am not suited to show face," Lord Wei shook her head.

Zhu You understood.

…

Meanwhile, several Divine Power Incarnations gathered at the city owner's mansion.

"2 million Cosmic Sand? Did Luo He intentionally inflate the price? How can a single Sword of the World's Core be priced so high?" a white-haired elder frowned. "The price is too high, we're not buying."

"If the price was inflated, this Lord Luo He will lower it and come back to us," a companion commented.

Moli Meng was responsible for communicating with Luo Feng.

"The final price for the Sword of the World's Core is 2 million Cosmic Sand. It has been sold," Moli Meng looked around at his companions.

"It sold?" the white-haired elder was startled.

Chapter 51: Chapter 48 Formation Masters

Luo Feng brought Morosa to the Zhu Clan's cave mansion, after all, they were both in the "Primal Chaos Armor Sector", so the distance was close.

"As expected of the Zhu Clan, just the cost of this formation alone is quite high," Luo Feng said, looking at the grand formation in operation. The power of the formation was the strongest he had seen within Huyang City.

With such a terrifying formation, Assassin Ying Cang wouldn't be able to kill his way inside.

After more than two decades of cultivation, Luo Feng had made significant advancements, yet even so, he might have hopes of tearing through the formation and killing his way in only by burning Divine Power.

"Nearly all the core members of my Zhu Clan live here; we can't afford to be careless," Zhu You explained with a smile as he accompanied Luo Feng, "For this formation, my Zhu Clan also exhausted a great amount of karmic luck."

Luo Feng nodded. Unlike the five great families, which were only branches, the Zhu Clan was rooted here, so naturally, they fortified their cave mansion as impregnable as a fortress.

Soon, Luo Feng saw a thin old man with green secret patterns on his skin. The old man looked at Luo Feng with a smile, "Lord Luo He."

"Patriarch Zhu Hu," Luo Feng said courteously. In terms of renown within Huyang City, Patriarch Zhu Hu was on par with Moli Xiao and Divine Monarch Xue Yun.

"Please," Patriarch Zhu Hu led the way into a small building.

Zhu Hu, Zhu You, and Luo Feng each took their seats, as exquisite food and fine wine were served.

"It is only today that I have the opportunity to meet with Lord Luo He," Patriarch Zhu Hu said, looking at Luo Feng with admiration, "Although the god has not been in Huyang City for long, his fame is now the greatest in the city."

"That's just an empty reputation," Luo Feng remarked.

"Lord Wei, you flatter me," Patriarch Zhu Hu gestured, and a green jade vial flew towards Luo Feng, landing on the table in front of him, "Two million Cosmic Sands, god, you can verify."

Luo Feng checked it with his Divine Power and indeed, it was exactly two million Cosmic Sands, not a grain less. This made Luo Feng inwardly marvel at the strength of the native forces represented by the Zhu Family, so easily parting with such a massive amount of wealth.

"This is the Sword of the World's Core," Luo Feng handed over the Mechanical Stream Secret Treasure 'Sword of the World's Core' to Patriarch Zhu Hu.

Patriarch Zhu Hu briefly checked it before storing it away.

With the transaction complete, the atmosphere became even more congenial.

After they had eaten and drunk their fill, Luo Feng took his leave from Patriarch Zhu Hu, with Zhu You personally seeing him out.

"There's no need to see me out."

Outside the main entrance of the Zhu Clan's cave mansion, Luo Feng, accompanied by Morosa, piloted the Flying Boat and left.

Patriarch Zhu Hu stood in front of the small building, watching the Flying Boat disappear into the distance.

A gentle-looking woman appeared beside him.

"Lord Wei, here's your Sword of the World's Core," Patriarch Zhu Hu handed the sword to the woman, "Lord Wei, have you been able to discern anything real about this Lord Luo He from your secret observations?"

"He gives me a very unique feeling," the gentle woman said with interest, "I left the Royal Capital to travel around the cities of Yu Kingdom, and I feel that this Lord Luo He is the most stunning person I've ever seen."

Patriarch Zhu Hu was surprised, "The most stunning person?"

"It's just a feeling," the gentle woman immediately replied, "I bothered Patriarch Zhu Hu for this transaction. Now that I have acquired the Sword of the World's Core, I shall take my leave."

"It's but a trivial matter," Patriarch Zhu Hu was still very eager to help. In terms of power, he was no less than Lord Wei. But with Lord Wei's vastly superior background compared to the five great families, he naturally had to treat her well.

...

In the following days, Luo Feng sold off some of the 'spoils of war' he had acquired to various trade associations within Huyang City, exchanging them all for Cosmic Sands.

"I now have 3.3 million Cosmic Sands, and the estimated cost for three body refinement sessions is 3.6 million Cosmic Sands worth of materials. Plus some additional losses during refinement, I should prepare a bit more," Luo Feng thought, "Still short of over 300 thousand Cosmic Sands. What should I do?"

He was reluctant to sell the two Mechanical Stream Secret Treasures, the Life Blood River and the Myriad Realms Escape Command, just yet.

He also had some Eternal True God Level armor, weapons, Exotic Beast Materials, and so on, which all together were worth about thirty to 400 thousand Cosmic Sands.

He had more than half of the 'Blood of Ye Beast' left, which was also worth 500 to 600 thousand Cosmic Sands. But Luo Feng didn't particularly want to sell that either.

"Short of over 300 thousand Cosmic Sands, I'll just take on another bounty mission," Luo Feng nodded lightly. "It's been so long since I've made a move, I'm afraid it won't deter those ferocious characters."

"Choose one that deserves to be killed." Luo Feng began scouring the Flame Wind Association's Dark Hall for assassination tasks, choosing carefully.

Suddenly—

"Brother Luo He, you must hurry to the Heavenly Flame Sect," Moli Meng transmitted to Luo Feng.

"What happened to the Heavenly Flame Sect?" Luo Feng was puzzled; the Heavenly Flame Sect was the Artifact Refining Sect created by his good friend 'Shang Tianyan'.

"Shi Kingdom's Forces have captured several Formation Masters, and it's very likely they will also capture Shang Tianyan," Moli Meng transmitted.

Luo Feng's heart tightened.

Over these past two decades, Brother Shang had been forthcoming with all the enigmas of body refinement he faced. And through their interactions over so long, Shang Tianyan had become his only good friend in Huyang City.

As for Black Butcher, Moyu Hu, and others, the relationships weren't as equal, so naturally, they were some distance from 'good friends'.

"Qingyan, you stay and guard the cave mansion," Luo Feng instructed, then took Morosa with him on the Flying Boat, quickly leaving the cave mansion.

"What's going on?" Moyu Qingyan looked on from afar, "The master seems a bit anxious?"

…

Heavenly Flame Sect.

"Brother Luo He." Shang Tianyan approached with his imposing figure to greet Luo Feng and Morosa as they emerged from the Flying Boat.

"Moli Meng has contacted me and said you were in danger?" Luo Feng said.

Shang Tianyan shook his head, "Just tonight, within Huyang City, eight Formation Masters were captured at the same time by a mysterious force. All of these Formation Masters are eternal true gods, and none could resist."

"Captured at the same time?" Luo Feng was surprised. It was not easy to capture an eternal true god alive. To do so simultaneously, dividing forces across eight routes with each one succeeding in capturing an eternal true god, indicated a very powerful entity.

"Yes, most of these eight Formation Masters were in their own cave mansions." Shang Tianyan nodded, "They were all captured alive and taken away, and the city owners' mansion can't even track their whereabouts. With this kind of strength and the will to act in such a way, it must be the Shi Kingdom's Forces."

"Why did they capture them?" Luo Feng pressed for answers.

Shang Tianyan replied, "The formation of the entire city of Huyang City is vast, formed by a perfect combination of numerous arrays, and many Formation Masters have repaired it over the long years. There were nine who did the repairs and still lived within Huyang City; tonight, eight were captured! I am the last one."

"They captured eight and let me go." Shang Tianyan shook his head, "The city owners' mansion might even suspect that I am colluding with the Shi Kingdom's Forces."

Luo Feng understood, "Those eight Formation Masters, all in service to the city owners' mansion, isn't the mansion making efforts to rescue them?"

"I have already inquired with the city owners' mansion." Shang Tianyan looked up at the night sky, sighing, "Their response was that at the moment the eight Formation Masters were captured, their Karmic Messenger Orders were destroyed, preventing any lock on the whereabouts of the eight Formation Masters."

"The city owners' mansion should have the Karmic Mark of these eight Formation Masters, " Luo Feng said, "With these Karmic Marks, they should be able to deduce the locations of the eight Formation Masters."

"Merely with the help of Karmic Marks, to deduce locations?" Shang Tianyan shook his head, "That's a method only the Primal Chaos Overlord would have, isn't it?"

"Flame Wind Pavilion can do it," Luo Feng stated.

"For Flame Wind Pavilion to deduce using Karmic Marks, it requires one million Cosmic Sand," Shang Tianyan shook his head, "The city owners' mansion wouldn't be willing to do that. Based on past experiences, once taken away by the Shi Kingdom's Forces, life and death... are then decided by the Shi Kingdom's Forces."

Luo Feng nodded slightly.

"That's why one must not get involved in their struggles; getting involved means you could be crushed at any moment," Shang Tianyan shook his head, "But those of us adept in formations were ordered by the city owners' mansion to repair some of the damaged formations. We have no right to refuse."

Shang Tianyan looked at Luo Feng, "I have no collusion with the Shi Kingdom, and by not capturing me this time, I guess... they do not want to offend you."

"Of the nine, only I was spared," said Shang Tianyan, "Those eight who were captured were all my good friends. We often discussed formations together. I don't know if they will survive this time."

******

Inside a Secret Treasure space.

Divine Monarch Xue Yun, Yutian Xu, and Yutian Yi, along with more than ten eternal true gods, were interrogating in separate spaces.

The Shi Kingdom's Forces had two teams within Huyang City, a weaker team led by Chairman Zan Yun and a stronger team under the command of Divine Monarch Xue Yun! Chairman Zan Yun could only contact Divine Monarch Xue Yun and not the numerous subordinates of Divine Monarch Xue Yun.

"Answer obediently, and you can live. If you don't tell us, you'll have to die, and your clan will be destroyed too," threatened the eternal true gods.

They had many methods of threat, which could make these Formation Masters neither able to live nor die as they wish.

Soon, all the captured Formation Masters confessed.

What they understood was only the tip of the iceberg when it came to the Huyang City Formation.

"Of these eight Formation Masters, one was already on our side, and the other seven have now finally confessed," Divine Monarch Xue Yun said with a smile.

"How shall we deal with these Formation Masters?" Yutian Xu asked.

"Release five, kill three," Divine Monarch Xue Yun said carelessly, "First, to let all sides of Huyang City know that serving the city owners' mansion leads to a bad end. Second, to show them that we, the Shi Kingdom, are merciful after all and will spare some obedient eternal true gods."

Yutian Xu furrowed his brow, "We should just fulfil our task, in my opinion, kill them all."

"Do as I say," Divine Monarch Xue Yun glanced at Yutian Xu and then finalized the list of the five to be spared, including the Formation Master who had sided with them.

That night.

The five surviving Formation Masters were released and sent back.

…

Inside the Heavenly Flame Sect.

Luo Feng and Morosa sat opposite each other, drinking.

Shang Tianyan drank his wine, looking up at the night sky, quite anxious. Suddenly, his expression changed as he took out his Karmic Messenger Order.

"What happened?" asked Luo Feng.

"Three of the eight friends who were captured have just had their karmic ties suddenly severed," Shang Tianyan looked at his Karmic Messenger Order, "With the karmic ties gone, all three of them are dead. They clearly had no power to resist, yet the Shi Kingdom's Forces still killed them."

Chapter 52: Chapter 49 Eating Up and Wiping Clean

At the city owner's mansion, five incarnations of Divine Power had assembled and seated themselves.

"To capture eight Formation Masters alive at the same time, the forces of Shi Kingdom must have dispatched a group of top eternal true gods," said Moli Xiao. "According to the five surviving Formation Masters, the Shi Kingdom's forces are investigating all information pertaining to the 'Huyang City Formation Map'."

"The Formation Masters are only responsible for repairing very small areas; they know little about the complete formation map," stated the Lord of Huyang City. "Such a large commotion cannot be just for that bit of information."

Wu Qulou, a figure clad in blood-colored scale armor, spoke indifferently, "The Formation Masters know little about the complete formation map, but they are well aware of the general layout of Huyang City's formation map."

Everyone present agreed.

Like Shang Tianyan and other Formation Masters, who could repair small areas of the formation, their mastery of formations was profound, from a point to extrapolating the whole face... They would have a general guess about the layout of the entire Huyang City formation map.

"They must have plans for the grand formation of Huyang City," declared the leader of the Meiwu Clan solemnly.

"Xue Yun is very restrained; it's been a long time since they made such a big move," said Moli Xiao. "I think we can report to the

Marquis and request support."

"Agreed."

"The Shi Kingdom's forces capturing the Formation Masters is just the beginning. Once they really show their fangs, we might not be able to hold them off."

"Let's report to the Marquis."

Everyone agreed.

They were too late to even cover up the incident of 'Meiwu Qi slaughtering hundreds of millions of civilians within Huyang City', so naturally, they did not dare to ask for help.

Yet, in dealing with the forces of Shi Kingdom, their request for help was completely justified.

******

Luo Feng, who did not fully understand the subtle strife between the city owner's mansion and the forces of Shi Kingdom, temporarily resided in the Heavenly Flame Sect.

This was also a public declaration—Shang Tianyan, I've got your back!

Two days had passed in a blink of an eye.

Luo Feng was walking around inside the Heavenly Flame Sect, watching the disciples refine Secret Treasure Weapons.

"Supreme." Moyu Liuxing, the third of the Moyu Family, who was instructing juniors, spotted Luo Feng and promptly greeted him with respect.

He also had a talent for Artifact Refining, and with sufficient resources, had already advanced to a true god of void space. Among the three Moyu brothers, both the eldest and the third were true gods of void space, only 'Moyu Qingyan', who followed Luo Feng, was still a True God.

"Moyu Liuxing," Luo Feng smiled at him. "I hear you've gotten married?"

"Yes, she is a senior sister I met after joining the Heavenly Flame Sect," said Moyu Liuxing, his face revealing a hint of happiness as he spoke of his wife.

"It seems the Heavenly Flame Sect suits you well," Luo Feng chuckled.

In the Land of Origin, countless creatures rarely marry in their lifetimes, as they live infinitely long and have no need to reproduce. Finding a beloved one and getting married is quite rare in the Land of Origin.

Some extremely powerful beings, with extraordinary bloodlines, reproduce offspring primarily to pass on these bloodlines.

"The Heavenly Flame Sect is indeed a good fit for me, and our master gives us careful guidance," Moyu Liuxing remarked.

Suddenly—

Shang Tianyan hurriedly approached from afar, reaching Luo Feng in just two steps.

"Brother Luo He," Shang Tianyan said urgently.

Luo Feng waved to Moyu Liuxing, who then respectfully withdrew.

"What's the matter?" Luo Feng asked.

"Among the eight Formation Masters who were captured earlier, three have been killed," Shang Tianyan said. "Their families might face some troubles after their deaths, so I'm also keeping an eye on their situations."

Shang Tianyan, who liked making friends, counted all three as his close friends since they all belonged to the same circle.

"Of these three families, two were silently devoured by Cloud Treasure Tower, which has branches in many major cities of Yu Kingdom, mainly selling mid to low-end Secret Treasure Weapons,"

continued Shang Tianyan. "Branches like the one I founded, Heavenly Flame Sect, and other Artifact Refiners' shops are just small time. Cloud Treasure Tower, those are the major trading powers."

Luo Feng listened.

Selling Secret Treasure Weapons to eternal true gods, how many could one sell in an era?

Selling to True Gods and true gods of void space, that's where the real profit lies. Given the incredibly large numbers, it accumulates into staggering wealth.

"Normally, Cloud Treasure Tower wouldn't stoop to plundering local families, but this time they did," Shang Tianyan fumed. "It must have been some eternal true gods at Cloud Treasure Tower's Huyang City branch who coveted the assets and swallowed up those two families."

"In front of Cloud Treasure Tower, these two families couldn't resist at all. In silence, all their long-accumulated resources, materials, and shops were snatched away," Shang Tianyan said angrily. "That would have been manageable, but Cloud Treasure Tower is too strong.

They didn't go on a killing spree; the two families, although completely ruined, at least kept their lives, with not many relatives killed over the disputes."

"But it's grim for the Qifeng Family. They were targeted by the Dark Forces, the Six Lords Alliance. Core members of the Qifeng Family perished in great numbers, the vast majority of their resources were forcibly looted, and two children of the eternal true gods were taken to the headquarters of the Six Lords Alliance by the Thousand-eye Lord," explained Shang Tianyan.

"It's likely to force those two to hand over the inheritances."

"Brother Luo He, Lord Qifeng is my good friend. Half of his family members have died, and I want to save his two children," Shang Tianyan looked at Luo Feng. "The Six Lords Alliance won't consider my feelings, so I'm asking you, Brother Luo He, to help."

Luo Feng frowned upon hearing this: "The city owner's mansion just

watched all this happen? Those three Formation Masters were initially brought in to repair the city's formation, which led to their dire fates!"

"The majority of eternal true gods in Huyang City had served the city owner's mansion, and when did the city owner's mansion ever care about the lives and deaths of those eternal true gods?" Shang Tianyan shook his head, "Unless you completely surrender and become a vassal, the city owner's mansion won't intervene."

"Leave this matter to me," Luo Feng nodded and soared towards the distance, glancing at Morosa, who was happily eating and drinking.

With one look, Morosa understood.

"Master." Morosa immediately flew over.

"We're going out for a bit," Luo Feng, piloting the Flying Boat, took Morosa and headed straight for the headquarters of the Six Lords Alliance.

...

There were eighteen dark forces in Huyang City, of which the Six Lords Alliance was one. The headquarters of the Six Lords Alliance was perennially gloomy, with a faint mist swirling around, and many internal members were busy with their respective tasks.

Inside one of the halls of the headquarters.

The siblings from the Qifeng Family sat there, fearfully watching the woman in the red robe in front of them.

"Your father is dead, and carrying treasures is not a good thing for you; it's a bad thing," the woman in the red robe sat there, softly laughing, "Previously I instructed your clan to willingly transfer the family resources, and they were actually reluctant? The result of their reluctance...is that most of your clan is now deceased."

"Now it's your turn," the woman in the red robe looked at the siblings, "Lord Qifeng had only you two children, he must have arranged a way out for you, probably left some resources for you in

the Flame Wind Pavilion."

"Do as I say, immediately contact the Flame Wind Pavilion, transfer all the resources to me. Then you can live. Otherwise, you also have to die, and if you die, everything becomes void," the woman in the red robe looked at the two fat sheep.

As one of the leaders of the dark forces, she was continually hunting for fat sheep.

After the death of Lord Qifeng, his two children naturally became big fat sheep.

Like after Diaorong Yan's death, his daughter 'Diaorong Qi' was also considered a fat sheep, but she had been staying in the Moli Clan's cave mansion, so she avoided trouble.

"It's fortunate I acted quickly; otherwise, if I was a bit slower, others from the dark forces might have snatched them," the woman in the red robe, the Thousand-eye Lord, thought to herself.

At this moment, Luo Feng had already arrived at the headquarters of the Six Lords Alliance with Morosa, piloting the Flying Boat.

Whoosh.

After storing the Flying Boat, Luo Feng and Morosa appeared at the main entrance of the Six Lords Alliance headquarters.

"Master? Shall we storm in?" Morosa was eager to move.

Yet Luo Feng had already taken a step forward.

Boom~~~

Without permission, trespassing into the Six Lords Alliance headquarters naturally triggered the headquarters formation's retaliation. The somber formation's might erupted and pressed down on Luo Feng, intent on tearing him apart.

"What's happening?" many members of the Six Lords Alliance headquarters, including the eternal true gods present, were somewhat

surprised.

Luo Feng, with Morosa stepping into the headquarters, naturally formed an invisible force around his body that could crush the formation's power.

As they entered the headquarters, Luo Feng instantly locked onto the Thousand-eye Lord and also spotted the siblings from the Qifeng Family next to the woman in the red robe 'Thousand-eye Lord'! Shang Tianyan had naturally provided Luo Feng with information about this pair of siblings beforehand.

"Lord Luo He!" the 'Lord Bai Wu' of the Six Lords Alliance called out from a distance.

Boom!

Luo Feng took a step and, along with Morosa, thundered through numerous obstacles, breaking through building walls, and directly arrived inside the hall, appearing in front of the Thousand-eye Lord.

The Thousand-eye Lord was shocked to see Luo Feng and the broken building stones around her, and even managed a smile as she greeted, "Thousand-eye has seen Lord Luo He."

"Lord Luo He." The other two eternal true gods inside the headquarters, 'Lord Bai Wu' and 'Captive Wind Lord,' quickly flew over, very polite and humble, not daring to offend in the slightest.

Luo Feng looked at the woman in the red robe 'Thousand-eye Lord',"Is it you who acted against the Qifeng Family?"

The woman in the red robe instantly made a guess and spoke hastily, "I was protecting the two children of Lord Qifeng, it wasn't me who killed those members of the Qifeng Family."

"It was her who killed them!" In the corner of the hall, one of the siblings, the elder brother despite being terrified, still gritted his teeth and shouted out those words.

The woman in the red robe looked at the siblings in shock and anger.

"Lord Luo He, I—" The woman in the red robe was about to defend herself when she saw that Lord Luo He in front of her had already reached out!

She didn't hesitate further, instantly manifested her true body in an attempt to save her life. A huge twisted entity appeared, its surface dotted with eerie eyes, indeed she had over a thousand eyes, capable of damaging an enemy's soul.

Spurt~~~

What seemed like an ordinary stretch of Luo Feng's hand pierced through that massive entity, crushing a True God's Heart.

Only the twisted manifestation of the true god's body fell apart, and with a wave of his hand, Luo Feng collected the corpse.

Seeing this scene, both Lord Bai Wu and Captive Wind Lord were somewhat stunned. Although the Thousand-eye Lord wasn't as powerful as the Blood Python Association Leader, she was still an extremely formidable eternal true god, but she had no chance to resist in front of Lord Luo He.

"Do the numerous deaths within the Qifeng Family have anything to do with you two?" Luo Feng looked at them.

Lord Bai Wu and Captive Wind Lord hastily shook their heads.

They knew a wrong answer might mean their own deaths!

Chapter 53: Chapter 50: The Overbearing Lord Luo He

The members of the headquarters of the Six Lords Alliance could vaguely see the figures of Luo Feng, Lord Bai Wu, and Captive Wind Lord through the damaged building, with each of the ordinary members trembling at heart and daring not come closer.

Both Lord Bai Wu and Captive Wind Lord were in utter panic, fearing they would end up the same as Thousand-eye Lord.

"It has nothing to do with us," Lord Bai Wu said urgently.

"That was Thousand-eye Lord's prey; she would never allow us to intervene," Captive Wind Lord added, "and we even advised her, after all, it was the family of an eternal true god; it shouldn't look too ugly. She just wouldn't listen!"

Lord Bai Wu also said, "Most of the eternal true gods within Huyang City know each other; we also need to restrain ourselves a bit in our actions. But Thousand-eye Lord was just mad, acting recklessly and wantonly..."

Luo Feng slightly frowned.

Lord Bai Wu and Captive Wind Lord immediately fell silent.

"The intelligence I understand also said it was Thousand-eye Lord's doings. So you might escape this disaster," Luo Feng said coldly.

Lord Bai Wu and Captive Wind Lord let out a silent sigh of relief. Only when facing Lord Luo He could they feel the suffocating pressure. They did not doubt that if they disagreed, Lord Luo He would crush them to death.

"I killed Thousand-eye Lord who took direct action. Regarding you five, well, I'll just fine you 300,000 Cosmic Sand. Spare your lives," Luo Feng said indifferently.

"300,000 Cosmic Sand?" Lord Bai Wu and Captive Wind Lord looked at each other, and they immediately contacted the other three companions via the transmission token.

They feared Lord Luo He.

But 300,000 Cosmic Sand was indeed a significant fortune; splitting it, each of the five of them had to produce 60,000 Cosmic Sand! They also needed to consume a large amount of resources for cultivation and to purchase inheritances, Secret Treasure Weapons; most of them couldn't afford so much.

"Lord Luo He, we have already contacted the other three companions," Lord Bai Wu said ingratiatingly. "But we ourselves consume a lot of resources and can't produce much Cosmic Sand."

"If you can't produce it, you can go die," Luo Feng said as he looked at them, having no sympathy for the eternal true gods of the Dark Forces.

"No no..." Captive Wind Lord explained, "We can gather some Cosmic Sand by selling Secret Treasure Weapons. In these past twenty-some years, we have never offended a divine monarch. We took no part in the Qifeng family affair; we are quite wronged. Can your divinity perhaps pity us, reducing some of the punishment? 300,000 Cosmic Sand is a great pressure on us."

"You Dark Forces have started reasoning now?" Luo Feng looked at them with a smile that wasn't a smile, "Aren't you always hunting? Indiscriminately selecting numerous preys within your own territories and wantonly killing them—did those preys provoke you?"

Lord Bai Wu and Captive Wind Lord were silent.

"As beings who plunder the masses for their own benefit, none of you who are killed are innocent! It's just that the Land of Origin is everywhere, a small eternal true god like me can't manage it all.

But when you offend me, I can kill or punish you—do you have an objection now?" Luo Feng looked at them, "Since you're bargaining, the price of your lives has now changed; it's become 500,000 Cosmic Sand."

"The five eternal true gods from your Six Lords Alliance, bring out 500,000 Cosmic Sand, and you can live. If not, go die," Luo Feng said leisurely, "I'll give you one day to get ready."

"500,000 Cosmic Sand?" Lord Bai Wu and Captive Wind Lord trembled.

"Any more objections?" Luo Feng looked at them.

"No objections, no objections," Lord Bai Wu and Captive Wind Lord immediately shook their heads, no longer daring to reason.

"Oh, and please relay a message to the three eternal true gods of the Cloud Treasure Pavilion," Luo Feng instructed, "just say they've swallowed the resources of two great families, but seeing as they haven't indulged in massacres, their fine will be the same as your Six Lords Alliance, also 500,000 Cosmic Sand. Give them one day to prepare."

"The fine for Cloud Treasure Pavilion is also 500,000 Cosmic Sand?" Lord Bai Wu and Captive Wind Lord somehow felt much better.

It seems they weren't the only unlucky ones from the Six Lords Alliance.

"We will certainly deliver the message," both Lord Bai Wu responded in unison.

"You only have one day."

After Luo Feng spoke, he gathered the siblings of the Qifeng Family who had been trembling and hiding in the corner and left with Morosa.

Sigh.

Within a few steps, they had already left the headquarters of the Six

Lords Alliance and then boarded the Flying Boat and shot through the sky.

Lord Bai Wu and Captive Wind Lord watched the scene in silence.

"Even the City Owner's Mansion bowed down before Lord Luo He in the end. We have no way to resist," Captive Wind Lord sighed deeply.

"Thousand-eye Lord is such a fool. I had always said not to prey on the forces of the eternal true gods—trouble with no end. She wouldn't listen. Her death aside, it has caused each of us to owe 100,000 Cosmic Sand."

"Lord Liu An is also a fool. He made us talk with Lord Luo He, and that talk only increased the price—from 300,000 Cosmic Sand to 500,000 Cosmic Sand," Captive Wind Lord said, gritting his teeth in frustration.

"Since Lord Luo He asked us to deliver the message, we might as well pass it on to the Cloud Treasure Pavilion," Lord Bai Wu immediately took out the transmission token and began to relay the message.

...

The Cloud Treasure Pavilion in Huyang City is garrisoned by three eternal true gods.

With the backing of the Primal Chaos Overlord, even just a branch office in Huyang City was given respect by all parties and was not easily provoked by anyone. Even the forces of Shi Kingdom would not lightly clash with a major power's branch.

"What?" The Pavilion Master and both deputy masters of the Cloud Treasure Pavilion were somewhat dazed upon receiving the message.

"This Lord Luo He has quite the nerve! Demanding us to pay 500,000 Cosmic Sand?"

"Our Cloud Treasure Pavilion was founded by 'Heavenly Treasure Marquis'. He actually dares to bully our Cloud Treasure Pavilion like this?"

All three of them were respected figures in Huyang City; who didn't give them some face?

Although their branch was not as highly positioned as the 'Flame Wind Pavilion branch', they still frequently interacted with the Five Great Families.

"What should we do?" The Pavilion Master asked, surrounded by swirling black mist and a huge, angry eye.

"Lord Luo He is excessive, but we cannot report this matter to the Marquis. Firstly, because it's a matter of us reaping private benefits secretly, the Marquis would severely punish us if he knew.

Secondly, the Cloud Treasure Pavilion has business across most cities in the Yu Kingdom and with countless city affairs adding up, the Marquis really wouldn't bother with such trivial matters," he explained.

Because the Marquis couldn't be bothered and only cared about the final accounts, they dared to reap benefits under the 'Cloud Treasure Pavilion' name.

If they were ordinary eternal true gods who swallowed the assets of two families of Formation Masters, there would be significant backlash. Even a person like Thousand-eye Lord had to rely on 'killing' to coerce the transfer of resources.

But with the name of the Cloud Treasure Pavilion, they could intimidate all parties and quietly clean up their affairs.

Over the long years, they had become very efficient at these kind of operations.

Relying on the income issued by the Cloud Treasure Pavilion was really too meager. This kind of private benefit was where they made their real earnings.

"500,000 Cosmic Sand is just too much," the Pavilion Master said. "I'll go visit Lord Wei. If Lord Wei is willing to help, he should be able to resolve this matter."

The two deputy masters nodded.

"Yes, Lord Wei."

"If Lord Wei is willing to help, this is but a trivial matter."

500,000 cosmic sand, for them, meant having to sell the armor and weapons they wore, practically squandering half of their lives, so naturally, they sought to stall.

The Heavenly Treasure Marquis wouldn't bother with such trifles, and they dared not speak up, so they had to come up with a solution themselves.

After much contemplation, the Five Great Families dared not provoke Lord Luo He and could only hope for Lord Wei's assistance.

"I will go now." The Cloud Treasure Pavilion Master could not afford any delay and immediately visited Lord Wei.

...

Soon after.

The Cloud Treasure Pavilion Master returned.

"How did it go?" Both deputy masters felt uneasy, suspecting that if there had been good news, he might have informed them in advance.

The huge single eye of the Cloud Treasure Pavilion Master showed frustration: "Lord Wei refused, even reprimanded us, and demanded that we obediently hand over 500,000 cosmic sand. She believes that if we don't comply, Lord Luo He might take action."

"Would Luo He dare to kill us?" one deputy master panicked.

"He dares to kill the Five Great Families, what do you think? Alas, the Marquis won't intervene in these disputes among eternal true gods." The Cloud Treasure Pavilion Master shook his head, "Just endure that Luo He. His arrogance will bring about his downfall."

"Killing the Five Great Families, threatening us, such arrogance will

backfire eventually." The two deputy masters felt a pang of pain for the cosmic sand.

"The three of us should each take out a portion of the 500,000 cosmic sand," said the Cloud Treasure Pavilion Master.

"When reaping the benefits previously, you took half, and we two shared the remaining half. It should be the same this time; you provide 250,000 cosmic sand, and we two together contribute 250,000," the two deputies, much poorer than the master, stood united.

"I can't produce 250,000 cosmic sand right now."

"You can sell treasures or borrow."

...

"Is Luo He truly asking the Six Lords Alliance for a whole 500,000 cosmic sand?" The Six Lords Alliance too struggled to gather 500,000 cosmic sand.

That day.

Luo Feng's forceful intrusion into the headquarters of the Six Lords Alliance didn't go unnoticed, naturally fermenting within Huyang City. The leaders of the Six Lords Alliance and the Cloud Treasure Pavilion were seeking to sell treasures to raise the necessary cosmic sands, and the news gradually spread.

Killing the Thousand-eye Lord and demanding each of the Six Lords Alliance and Cloud Treasure Pavilion to pay 500,000 cosmic sand?

This news caused various forces within Huyang City to take note, and after quiet decades, Luo He's brash temperament remained unchanged.

"Lord Luo He."

Lord Bai Wu and the Cloud Treasure Pavilion Master jointly visited Luo Feng at the Heavenly Flame Sect!

Luo Feng's temporary residence at the Heavenly Flame Sect was no secret to the eternal true gods of Huyang City.

"Within a day, they arrived." Luo Feng stood up, with Shang Tianyan and Morosa beside him watching.

"We acted rashly and angered your divine highness, we beg for your forgiveness," Lord Bai Wu respectfully offered a jade vial, "Here is 500,000 cosmic sand, all gathered."

"Please quell your anger, divine one." The Cloud Treasure Pavilion Master, not daring to show any arrogance, similarly offered a jade vial, "Here is 500,000 cosmic sand, and we have also properly settled those two families."

Shang Tianyan watched the scene, reflecting inwardly.

Shang Tianyan's disciples and those siblings from the Qifeng Family rescued were all watching from a distance.

The respectful visit of two major powers within Huyang City, handing over 500,000 cosmic sand, dared to show no resentment. The sight was profoundly impactful for the disciples and the Qifeng siblings.

"Alright, you can leave now." Luo Feng took the two jade vials, a sweep of divine power assured him that not a single grain of cosmic sand was missing.

Lord Bai Wu and the Cloud Treasure Pavilion Master bowed and quickly took their leave.

Once they had left, the distant onlookers among the disciples began buzzing with talk.

"Did you see the might of Lord Luo He?" A woman beside Moyu Liuxing exclaimed, "Liuxing, I heard you had a chance to follow Lord Luo He before? Did you give up on that opportunity?"

"I chose not to risk it." Moyu Liuxing smiled at his wife, "Though I gave it up, it was my elder brother who ended up following him and I also met you, senior sister, here at the Heavenly Flame Sect."

The woman smiled gently, expressing regret, "But indeed, you missed a great opportunity." She felt a bit sorry for her husband.

The path of cultivation, she knew well how important a great opportunity could be.

...

Shang Tianyan and Luo Feng walked together within the Heavenly Flame Sect.

"One day's time, one million cosmic sand, and they willingly complied. This has certainly been an eye-opener," Shang Tianyan exclaimed.

"The three eternal true gods who had died, their families will likely face hard times ahead." Luo Feng mentioned, "I know you will look after them, but since I gained wealth because of them, I must show some generosity."

Luo Feng handed a jade vial to Shang Tianyan, "Not much here, just 30,000 cosmic sand—you can use it to care for those three families."

"30,000 cosmic sand is quite a lot, ordinary eternal true gods would not have as much even if they sold all their treasures," Shang Tianyan said, "It's just for settling the families, no need for too much."

"You see to the arrangements." Luo Feng placed the jade vial in Shang Tianyan's hands.

Shang Tianyan no longer refused.

Luo Feng looked toward the distant night sky: "Next I plan to enter seclusion for a while, you should be careful yourself."

The wealth was sufficient for the third time of body refinement.

—

Thanks to the new Alliance Hierarch: Troublesome Life's Vent

Chapter 54: Chapter 51: Three Body Refinements

Shang Tianyan laughed, "Because you killed the Thousand-eye Lord and forced the Six Lords Alliance and Cloud Treasure Tower to obediently offer compensation, who else would dare to target me?"

Luo Feng smiled.

When Shi Kingdom's forces were capturing several Formation Masters, they specifically let Shang Tianyan go, which in itself was a statement.

"This Shi Kingdom's forces keep trying to befriend me," Luo Feng thought to himself. Chairman Zan Yun also visited me several times, and this time they let go of Shang Tianyan, clearly placing great importance on me.

But, in the end, I am bound to stand against Shi Kingdom.

In the feud between my master and Shi Kingdom, I would definitely stand by my master, the Mountain Sitting Guest.

"Then I'll be leaving first. Contact me if there's anything you need," Luo Feng said, "If I'm in seclusion and you have an urgent matter, you can contact Luo Sa."

"Alright." Shang Tianyan nodded.

Soon, Luo Feng, accompanied by Morosa, quietly left the Heavenly Flame Sect and headed for the Flame Wind Pavilion.

Whew.

Inside a small building in the Flame Wind Pavilion, the Master of the

Flame Wind Pavilion personally received Luo Feng.

"Brother Luo He has really stirred up a storm today, forcing the Six Lords Alliance and Cloud Treasure Tower to compensate with a whopping million Cosmic Sand," said the Master of the Flame Wind Pavilion, his voice cheerful, "Probably every power within Huyang City is discussing this matter."

"It's a trivial matter," Luo Feng said, "I'm here today to reserve a batch of Artifact Refiner Materials."

"Reserve?" The Master of the Flame Wind Pavilion and the figure in the gray mist, the 'Deputy Pavilion Master,' were somewhat surprised. The Flame Wind Pavilion's inventory was extensive, and they could also transfer goods from other businesses within the city, so reservations were generally unnecessary, as materials could be brought over in just a few words.

Luo Feng nodded and sent a detailed order using the Dark Hall's Transmission Order.

"According to our Flame Wind Pavilion's pricing, such an order would require 3.65 million Cosmic Sand!" the Deputy Pavilion Master said with surprise, "These Artifact Refiner Materials are rarely precious, most are common materials, but the sheer quantity indeed exceeds what the entire Huyang City can mobilize from its stores."

The inventory of Huyang City's many businesses was indeed vast. But Luo Feng only needed a minority of the material types, yet it still amounted to 3.65 million Cosmic Sand.

"How long will it take?" Luo Feng asked.

"Our Flame Wind Pavilion delivers every ten days," the Deputy Pavilion Master explained with a smile, "The next delivery is in two days. It will directly be teleported in space-time to our pavilion."

The Master of the Flame Wind Pavilion also said, "Brother Luo He, your order is special; the volume is too large and not suited for local supplies. Space-time delivery is the most convenient."

"Alright, here are the 3.65 million Cosmic Sand." Luo Feng took out a

jade vial he had prepared in advance, thankful he had obtained the funds from the Six Lords Alliance and Cloud Treasure Tower, or else he wouldn't have been able to afford it.

The Deputy Pavilion Master took it and said, "I will personally deliver the materials to Brother Luo He's cave dwelling in two days."

"Thank you, Deputy Pavilion Master," Luo Feng nodded.

An order of a few million Cosmic Sand was nothing significant to the headquarters of the Flame Wind Pavilion, not to mention dealings that reached over a hundred million or even ten billion Cosmic Sand, to them it was all small business.

As the Mountain Sitting Guest was a Godly King skilled in Artifact Refining, naturally, he had some transactions with the Flame Wind Pavilion, dealings on the Godly King level, much larger than what Luo Feng had just placed.

Therefore, Luo Feng was very straightforward with the reservation payment.

After paying, Luo Feng took his leave.

"An Eternal True God, purchasing such a large quantity of Artifact Refiner Materials?" the Deputy Pavilion Master wondered aloud, "Despite being well-experienced, I can't understand what Lord Luo He really wants to do."

The Master of the Flame Wind Pavilion also puzzled, "All these materials piled up would be several times bigger than my Unlimitable Godly Bodies; could it be that he wants to refine a super large Mechanical Stream Secret Treasure?"

"He and Shang Tianyan are close, maybe he's also a master of Artifact Refining, potentially focusing on the path of Artifact Refining to ascend to the Primal Chaos Overlord?" the Deputy Pavilion Master speculated, "Does he need to refine a large number of Secret Treasures to accumulate a foundation?"

Artifact Refining, alchemy, formation, illusion technique... each different path could lead to becoming a Primal Chaos Overlord.

Luo Feng's orders for materials were vast and exceeded by far what any normal body refinement would require, naturally leading to much speculation from the Master and Deputy Master of the Flame Wind Pavilion.

"Marquis Liu Yin of Shi Kingdom sent Yutian Xu and Yutian Yi to Huyang City," the Master of the Flame Wind Pavilion stated, "Now in Huyang City, Shi Kingdom has three strong powers gathered: Xue Yun, Yutian Xu, and Yutian Yi. Them being together, they surely won't sit idly; there must be a major plan in motion."

"Capturing eight Formation Masters was just the beginning; the conflicts will only intensify from here," said the Deputy Pavilion Master, "But it's clear, Shi Kingdom's forces are reluctant to provoke Lord Luo River."

"I hope the struggle between Yu Kingdom and Shi Kingdom in Huyang City doesn't destroy it," the Master of the Flame Wind Pavilion sighed, "A fight between two powerful nations could cause countless casualties with just a ripple of their conflict."

"The River of Time flows ceaselessly forward," the Deputy Pavilion Master remarked, "every moment countless creatures are born, and countless die. When you step out of the river and stand peacefully on the bank, you see everything."

"Uncle, stop trying to talk like the elders of our clan," the Master of the Flame Wind Pavilion said with a laugh, "You're just an Eternal True God."

The Deputy Pavilion Master made a face and moved aside, continuing to review the pavilion's business.

...

Two days later.

The Deputy Pavilion Master personally visited and delivered the material worth 3.65 million Cosmic Sand.

"Thank you for your efforts, Deputy Pavilion Master," Luo Feng sent him off.

"Lucky there's such a super-sized commercial house as the Flame Wind Pavilion. If we had to rely on those smaller businesses, gathering 3.65 million Cosmic Sand's worth of various materials would probably be a thousand times more troublesome," Luo Feng thought to himself.

The matter of the Flame Wind Pavilion was a piece of cake, but even a small business association would likely struggle with it for an entire era.

Merely the "space-time transport of goods" allowed direct delivery of goods from the Flame Wind Ancient Country to the Huyang branch. This space-time transport was locked to each branch. Only two ancient countries in the Land of Origin had the capability to perform this task.

At that moment, Morosa was teaching Moyu Qingyan to comprehend the laws, when Luo Feng approached.

"Master," both Morosa and Moyu Qingyan greeted respectfully.

"I am preparing for a closed-door meditation for some time," Luo Feng said.

"Closed-door meditation?" Morosa and Moyu Qingyan felt a burst of joy secretly, as it meant they would be free while Luo Feng was in seclusion.

"During my meditation, I will cut off all communications and not allow any disturbances. If there really is something extremely urgent, Luo Sa, then you may notify me," Luo Feng instructed.

"Yes, Master," Morosa replied. He was Luo Feng's spiritual servant, able to communicate through telepathy.

Having said that, Luo Feng entered the underground hall alone, released the Star Tower, entered the tower's space, and began his third session of body refinement.

******

As time passed, the situation within Huyang City became increasingly

turbulent, with conflicts erupting continuously. The various forces in Huyang City realized that this time the conflict between the city owner's mansion and Shi Kingdom's forces was different from the past.

One day, Moli Meng personally came outside the main entrance of Luo Feng's cave dwelling.

"Deputy City Lord Moli, as I've said before, the master is in closed-door meditation and is not seeing anyone," Morosa, who had just woken up, said. Now that Moyu Qingyan had gone home, he had to answer the door himself.

"I have something urgent. Is it possible to contact your master?" Moli Meng asked continuously.

"How urgent?" Morosa asked, "Is Shang Tianyan about to die? Is Huyang City going to be destroyed?"

"It's the city owner's mansion that wants to meet Lord Luo He and seek his help," Moli Meng said.

Morosa shook his head repeatedly, "The master has instructed not to disturb him unless it's a matter of utmost urgency."

A request for help from the city owner's mansion? Such a trivial matter, he dared not disturb his master.

Moli Meng looked at Morosa.

Morosa looked innocently at Moli Meng.

"Well," Moli Meng had no other options, as in the case of seclusion, only this servant could contact Lord Luo He. Not even the other servant, Moyu Qingyan, could make contact.

"Just make sure to contact me as soon as your master emerges from seclusion," Moli Meng said.

"You can rest assured on that point. I will immediately inform my master of this matter once he is out of seclusion," Morosa promised.

Moli Meng could only leave helplessly.

…

No matter how tumultuous the outside world was, Luo Feng focused solely on body refinement.

The Primal Chaos Great Strength Diagram's highest level of the Eternal True God tier third body refinement utilized many mysteries of laws, posing an extremely high demand on the cultivator's realms. It was not only body refinement but also a form of cultivation.

Luo Feng also prepared tens of thousands of Cosmic Sand materials as practice.

Once fully prepared, Luo Feng officially began his third body refinement.

Luo Feng's godly body… was akin to a super large Weapon Secret Treasure! The immense power of this super large secret treasure was primarily due to its massive size, and its intricacy was quite ordinary actually.

Now, Luo Feng was like drawing on a needle, further perfecting the entire super big Weapon Secret Treasure, where originally one formation diagram was present, Luo Feng might need to supplement several formation diagrams to make it operate more perfectly.

The process was all clear, but it still required step-by-step patient refinement.

Body refinement was extremely tedious! Mainly because Luo Feng's Perfect Divine Body was so large, the work involved was exponentially more complicated.

Luo Feng continued for over thirty thousand days before it was successfully completed!

A day in the Land of Origin spans about the duration of one Earth year. On Earth, it would equate to over thirty thousand years of continuous body refinement. That was with Luo Feng's strong will and high efficiency, otherwise, it would have taken much longer,

showcasing the grand scale of body refinement!

"It's done."

Luo Feng looked at his own godly body. After three rounds of body refinement, in terms of intricacy, it now rivaled some ordinary eternal true god Secret Treasures. But this was a weapon secret treasure that stood 18 billion kilometers tall! With just a clench of his fist, a terrifying aftershock rippled through this space.

"Even without igniting Divine Power, I could easily tear apart a Huyang Legion with my bare hands," Luo Feng reflected inwardly. "Reaching this step has truly unearthed the potential of the Perfect Divine Body at the Eternal True God tier."

As for more powerful body refinement? That would be at the Primal Chaos Realm tier.

This was something that eternal true gods couldn't possibly achieve. They might occasionally realize one or two powerful moves, but Primal Chaos tier body refinement required extremely high realm specifics. Even mastering the Primal Chaos Laws and receiving inheritance necessitated careful contemplation to learn.

"How strong would my godly body be once I use 'Duan Mie' and ignite Divine Power?" Luo Feng wasn't quite sure himself.

Having been on the Land of Origin for over twenty eras, 'Duan Mie' had also progressed significantly.

"Looking at the entire Land of Origin, at the Eternal True God tier, there are likely few who can rival me," Luo Feng thought. There might be some with a higher realm than his, but his advantage in terms of the godly body was indisputable.

Chapter 55: Chapter 52 Hiring at the City Owner's Mansion

"As for my godly body, I have no way to progress any further at the moment," Luo Feng thought. "Moving forward, on one hand, I need to cultivate the 'Lie Yuan Technique' and strive to make a breakthrough in willpower as soon as possible. On the other hand, it's time to deepen my understanding of the laws, starting with comprehending a few Primal Chaos Realm techniques."

Understanding the Primal Chaos Laws is not something that can be achieved overnight.

It requires continuous accumulation, first by comprehending some Primal Chaos Realm techniques and then through a lengthy period of accumulation until one day, there is a moment of enlightenment, and the complete Law of Primal Chaos is understood.

"The path of cultivation through bloodline progression allows one to reach the Primal Chaos Realm with the help of Bloodline Transformation," Luo Feng contemplated. "But for me, the only way forward is 'comprehending the Primal Chaos Laws'."

"I have already perfected the cultivation of the three secret techniques 'Primal Chaos Great Strength Diagram,' 'World Breaking Nine Blades,' and 'Nine Netherworlds' at the level of an eternal true god. 'Dong Hua' and 'Duan Mie' at the eternal true god level still have some parts I haven't fully grasped, and there's even more room for progress with the 'Lie Yuan Technique.'"

With a single thought, Luo Feng continued to maintain the 'Great Destruction Heart Refining Technique' to further hone his will. This seemingly painful process had long since become something his spiritual will could handle.

"Sigh."

While maintaining the honing of his will, Luo Feng's godly body returned to normal, and he then exited the Star Tower.

Boom, boom, boom~~~

As the underground palace doors opened, Morosa and Moyu Qingyan, who were inside the cave mansion, immediately came to greet him: "Master!"

Luo Feng's Perfect Divine Body could perfectly conceal all aura. Neither Morosa nor Moyu Qingyan could perceive any change in Luo Feng.

"Qingyan, haven't you been at home accompanying your father?" Luo Feng asked with a smile.

"As soon as you went into seclusion, he went back home, to accompany his father, to accompany his two brothers. But it wasn't long before he escaped back here," Morosa said with a laugh.

"Escaped back?" Luo Feng was surprised.

Moyu Qingyan could only explain, "My eldest brother also got married recently. With both my eldest brother and third brother married, they tried to play matchmaker, and many female cultivators took the initiative to visit. I was so overwhelmed that I had no choice but to flee back here."

"Many female cultivators took the initiative to visit?" Luo Feng laughed, "How many is 'many'?"

"Quite a few, actually. Even a few bold female cultivators came right up to the entrance of your cave mansion," Morosa chuckled. "Later, Qingyan asked me to step in and scare those female cultivators away."

"I have no interest in matters of the heart; I only wish to understand the Ten Fundamental Laws as soon as possible," Moyu Qingyan declared.

Luo Feng nodded and smiled, "That's also true. Once you become a true god of void space, you will have endless life. There's indeed no need to rush things when it comes to matters of the heart. When you meet someone you truly like, your heart will tell you."

Moyu Qingyan listened, but it was evident that he was firmly resolute and unwilling to get involved in matters of love.

Luo Feng then inquired, "Has anything significant happened in Huyang City while I was in seclusion? Shang Tianyan didn't run into any trouble, did he?"

"His days have been carefree, of course no one would go after him," Morosa replied. "But there has been quite a shake-up within Huyang City, with the city owner's mansion and Shi Kingdom's forces clashing several times, many died or were injured."

Luo Feng nodded.

"The biggest commotion involved Gaowu Shui. That Leader Gaowu Shui actually turned against his own family," Morosa said with a smile.

"What happened to him?" Luo Feng was curious.

Gaowu Shui was Moli Xiao's favourite protégé and had once attempted to capture Meiwu Qi. Luo Feng had a rather good impression of Leader Gaowu Shui.

"Gaowu Shui, originally just an ordinary member of the Gaowu Family, had long been marginalized. He later joined the Huyang Legion on his own as a common soldier and attracted the attention of Commander Moli Xiao, who thoroughly supported his growth, enabling his rapid ascent to eternal true godhood," Morosa explained.

"Not long ago, the Gaowu Family's Clan Leader 'Gaowu Wei' hosted a banquet for Gaowu Shui, but Gaowu Shui turned on them during the meal, calling in the Huyang Guards to seize the Gaowu Family's Clan Leader and other core members, including his own father!"

"To seize his own family's upper echelons and publicly declare that Gaowu Wei had sided with Shi Kingdom's forces," Morosa expressed

with a sense of amazement. "Treason! Gaowu Shui clearly wanted these high-level members of the Gaowu Family to die. In fact, soon after the clan leader was captured, he was executed."

Luo Feng nodded, "Gaowu Shui left his family at a young age, so his bond with them was very weak."

"Even so," Morosa added, "the fact that he could carry out such harsh actions against his own family came as a shock to everyone in Huyang City. They suspect that Gaowu Shui deliberately pinned the crime on them."

"You seem to know quite a lot," Luo Feng teased.

"I hear a lot when I'm out eating and drinking," Morosa replied. "By the way, Deputy City Lord Moli paid a visit during your seclusion and asked that you contact him as soon as you emerged."

"Moli Meng?" Luo Feng nodded and immediately sent a message to Moli Meng.

...

It was just a short moment.

Moli Xiao and Moli Meng arrived together, paying a personal visit to Luo Feng.

"Please, have a seat," Luo Feng said inside the mountain summit pavilion, sitting there while Moyu Qingyan helped pour the wine, and an array of exotic fruits was already set out.

"Lord Luo He must already know that Shi Kingdom's forces have been stirring up trouble within Huyang City," Commander Moli Xiao began from his seat. "Our city owner's mansion is also troubled by this, and today, as a representative of the city owner's mansion, I am here to request Lord Luo He's assistance."

"You're asking for my help?" Luo Feng shook his head, "I have no grievances with Shi Kingdom's forces, so why would I get involved?"

Moli Xiao nodded, "I understand. Most local families in Huyang City

don't want to get involved for fear of reprisal from the Shi Kingdom. But Lord Luo He, you're merely with two servants and have no attachments, why fear the Shi Kingdom's forces? Since you are an eternal true god, the Primal Chaos Overlord of Shi won't possibly bully the weak...

Just facing some eternal true gods, Lord Luo He, surely you wouldn't care."

"Not fearing them doesn't mean I want to engage them in a battle to the death," Luo Feng refused.

"If we ask for Lord Luo He's help, naturally, we come with sincerity," Moli Xiao said. "Lord Luo He, you just need to garrison a location. The garrison will not exceed one era, and we are willing to offer one million Cosmic Sand."

"Garrisoning for one era?" Luo Feng shook his head, "That's too long."

One million Cosmic Sand was something he could obtain himself; it wasn't very appealing.

"It's not necessarily for an entire era. If Shi Kingdom makes a move, just help us defend the crucial location, and the mercenary task will be deemed complete," Moli Xiao stated.

Luo Feng replied, "You should know that one million Cosmic Sand doesn't mean much to me."

"Yes, Brother Luo He managed to pressure the Six Lords Alliance and Cloud Treasure Tower into paying one million Cosmic Sand within a day," Commander Moli Xiao said. "However, the resources our city owner's mansion can mobilize are limited."

"I need a portion of 'Black Marsh Poison,'" Luo Feng said. "If you're willing, I'll help. Otherwise, you had better find someone more capable."

"Black Marsh Poison?" Commander Moli Xiao was surprised. "Brother Luo He actually knows about the 'Black Marsh Poison' produced by Yu Kingdom?"

"I've heard a little about it," Luo Feng said.

The information provided by his master, Mountain Sitting Guest, and the intelligence from the Duan Dong River lineage allowed Luo Feng to have an understanding of the vast majority of ancient existences within the Land of Origin. He also knew that some of Yu Kingdom's special products, among which 'Black Marsh Poison', were very suitable for him.

The Black Marsh Poison contained terrifyingly potent venom, but if a very small amount was ingested, it could be used to hone the Spiritual Will.

A portion of Black Marsh Poison, as a product of Yu Kingdom, came at a relatively low cost since it was supplied to the offspring of major families on the Land of Origin. It rarely ended up in large cities.

If Luo Feng wanted to pay extra to buy it, he'd generally have to pay several times the going rate to get it.

"I will discuss it with the city owner," Commander Moli Xiao said, his Divine Power Incarnation at the city owner's mansion having a discussion about the matter with his companions.

It wasn't long.

"The Black Marsh Poison is indeed a specialty of the Qumeng Royal Family. The city owner promises that he can apply for a portion of 'Black Marsh Poison'," Commander Moli Xiao said.

"Good," Luo Feng nodded. "Where do I need to garrison?"

Commander Moli Xiao showed a smile.

With conditions met, this Lord Luo He could indeed be recruited.

"I'll take you there," Commander Moli Xiao nodded, and Moli Meng also smiled beside him.

...

Within the city owner's mansion.

The Lord of Huyang City, an elderly man with white hair, the Divine Power Incarnation of Commander Moli Xiao, and a man with a single horn sat separately.

"This Luo He isn't afraid of our Five Great Families, nor has he ever feared the forces of Shi Kingdom. Such a detached and powerful individual is easy to hire," the Lord of Huyang City said with a smile. "But the fact that he knows about 'Black Marsh Poison' suggests he is quite knowledgeable."

"With such strength, naturally, he has had some extraordinary encounters," the elderly man said. "With him joining, our defensive force in the three forbidden lands will be quite sufficient, with no weaknesses."

"No one saw how he killed Ying Cang, so his strength might not be as high as you all imagine," the single-horned man said indifferently. "In my opinion, there's no need to involve this Luo He. The city owner's mansion might be somewhat inferior in strength, but it's more reliable!"

Commander Moli Xiao explained, "We have studied Luo He's temperament, and he is indeed trustworthy. Moreover, all three forbidden lands, not one can afford to be lost!"

"Enough," the single-horned man said. "After all, you Five Great Families are responsible for Huyang City. Once this matter is resolved, I will return to the Royal Capital."

"Your efforts are appreciated, General Yong," the Lord of Huyang City, the elderly man, and Commander Moli Xiao all said politely.

Among the ancient Royals of Yu Kingdom, the single-horned man was in command of an army, much stronger than Commander Moli Xiao at the level of an eternal true god. Since even a Godly King would have a hard time mobilizing a Primal Chaos Overlord, when dispatching subordinates, it's generally someone like 'General Yong', a supremely strong eternal true god.

"If it weren't for having to deal with the forces of Shi Kingdom, I really would have liked to test Luo He's strength," the single-horned

man murmured before leaving with a laugh.

"Fortunately, General Yong understands that the task is of greatest importance," the Lord of Huyang City said, shaking his head with a sigh. "Otherwise, before clashing with the forces of Shi Kingdom, if he started a fight with Lord Luo He, it would have been a joke."

"General Yong, valued by the Godly King, naturally knows what matters most," the elderly man said with a smile.

...

In a vital location within Huyang City, one of Huyang's Ten Great Legions, the 'Jin Xiao Legion', was garrisoned.

A Flying Boat landed inside a building of the legion's camp, and five figures stepped out. It was Commander Moli Xiao, Moli Meng, Luo Feng, and two servants.

"The camp of the Jin Xiao Legion?" Luo Feng was surprised. "Is this where I need to garrison?"

"Yes."

Commander Moli Xiao said, "This appears to be just a campsite, but it is actually one of Huyang City's forbidden lands. On the surface, it's guarded only by one legion, but in reality, two Huyang Guards teams are also hidden here. With your help, Brother Luo He, it is enough to secure this place."

Luo Feng looked at the building in front of him and could sense that deep within the building, the atmosphere was much heavier.

Whoosh whoosh whoosh!

Three figures hurried over, none other than the General of the Jin Xiao Legion and the two Leaders of the Huyang Guard.

"Commander," General Jin Xiao and the two Leaders of the Huyang Guard saluted respectfully. They also noticed Moli Meng, Luo Feng, and the two servants.

"From now on, Lord Luo He will also be stationed here," Commander Moli Xiao said. "Carry on with the previous plan; Lord Luo He is free to move about in the camp."

"Yes," the three of them responded.

Luo Feng observed them, his gaze lingering on one of the Leaders of the Huyang Guard, who was precisely Gaowu Shui. He and this Gaowu Shui seemed to have quite a fate.

"Deliver what you've promised as soon as possible, or I will leave," Luo Feng urged.

"Don't worry, what's due to you will not be short," Commander Moli Xiao assured with a smile.

The nearby General Jin Xiao and the two Leaders of Huyang Guard inwardly marveled; the highest commander of the Huyang Legion was usually very stern, but now he was exceedingly polite and friendly towards Lord Luo He.

They all understood that even the combined strength of the Jin Xiao Legion with the two Huyang Guard teams was probably no match for a single Lord Luo He. Lord Luo He was indeed the most important defensive force of this place.

Chapter 56: Chapter 53: Attack in the Night

Commander Moli Xiao instructed, "The news that Lord Luo He is garrisoning this place must be kept secret by you three."

"Yes," General Jin Xiao and the two leaders of Huyang Guard respectfully replied. They had been positioned here because they were highly trusted.

"Brother Luo He, I have also arranged a residence for you early in this military camp," Commander Moli Xiao led the way, leaving the building and going to a nearby elegant cave mansion.

After all, a Huyang Legion contained more than twenty million True Gods, so the military camp was naturally vast.

The ordinary soldiers only knew this place as a military camp and were unaware of its true significance.

"Not bad," Luo Feng admired the cave mansion before him. To arrange such a mansion within a camp spanning hundreds of millions of kilometers was quite rare; the living conditions for the soldiers were much poorer, as they stayed inside the Legion Mechanical Secret Treasure when on duty.

"If there's anything you need, just command, Brother Luo He," Moli Xiao said. "But you must not leave the camp, as Shi Kingdom's forces could attack at any time."

"Rest assured, I will keep my promise," Luo Feng nodded.

"Then we will take our leave now."

Moli Xiao said with a smile, then left with Moli Meng.

Luo Feng looked at the cave mansion, only ten thousand kilometers in length and width. Though not large, it was quite exquisite, "From today, we three will live here."

"Yes, Master," Morosa and Moyu Qingyan responded.

...

Five days later, Moli Meng brought the Black Marsh Poison.

"Lord Luo He, this Black Marsh Poison is a deadly poison produced by a Primal Chaos Level Exotic Beast. If you intend to consume it yourself, you must be careful, start with no more than one drop at a time," Moli Meng handed a flask of Black Marsh Poison to Luo Feng, solemnly saying, "Consuming too much could very likely be fatal."

Now that the city owner's mansion was employing Lord Luo He, it would be a joke if he poisoned himself to death using the Black Marsh Poison.

"Rest assured." Luo Feng, having inherited two lineages, was very clear on the usage of the Black Marsh Poison. According to his estimation, his Perfect Divine Body's soul was already strong, and his Spiritual Will was far superior to that of a normal eternal true god. He feared that taking too little of the Black Marsh Poison would barely affect him.

******

From then on, Luo Feng secluded himself within the Jin Xiao Legion's camp.

The Jin Xiao Legion and the two Huyang Guard troops continued their normal rotations; the ordinary members were entirely unaware of the site's significance. Only the army's general and deputy general, and the leaders and deputy leaders of the Huyang Guard knew the secrets.

"Sigh."

Gaowu Shui drove the Flying Boat back to his family's cave mansion and rested there, naturally with a deputy leader on guard duty.

"Clan Leader."

"Clan Leader."

Inside the Gaowu Family mansion, numerous family members saw Gaowu Shui and were extremely respectful.

Gaowu Shui, being the only eternal true god in the family currently and ruthless and brutal, had almost completely wiped out the previous senior members of the family; his deterrence within the family was evidently formidable.

In the entire family, who wasn't afraid of him?

Gaowu Shui with a stern face went to a prison deep underground in the family domain, where the guards were extremely respectful.

"Leave," Gaowu Shui instructed.

The guards withdrew.

"Commander Gaowu, you actually deign to visit me?" the man chained in the prison laughed loudly, "You killed the clan leader and many elders, so why not kill me too? Do you still have any regard for the so-called father-son relationship?"

"Imprisoning you till now, and you still haven't figured it out, truly disappointing," Gaowu Shui said coldly.

"What are you disappointed about? You want me, your father, to kneel and beg you?" the man's expression was fierce, "Without the family, there is no you, you traitor to the family!"

"You had one hundred and nine children," Gaowu Shui said calmly, "And I, merely a descendant left behind after a passionate encounter between you and a maid. I never saw you once after I was born, and later I left the family alone to venture out, then joined the Huyang Legion; it was my master who took notice and took me as his disciple!

After my master accepted me as a disciple, you, my so-called father, saw me for the first time."

"That was our first meeting," Gaowu Shui scoffed, "Only then did you know about the suffering I had undergone in the family, only then did you know about my mother, who had died silently within the family as a maid. Where were you when I was young? Where were you when my mother died? You dare talk about a father-son relationship?"

"I am still your father!" the man's expression was fierce, "Without me, there would be no you!"

"All my growth has been fostered painstakingly by my master. And what you contributed... was merely a moment of passion," Gaowu Shui said. "When I became an eternal true god, the family indeed knew to please me."

"You became an eternal true god. The family treated you well, did they not?" the man angrily said, "The clan leader was quite respectful when meeting you, right? But what did you do?"

"Respect me?" Gaowu Shui shook his head, "At first, they put on an act, but at that banquet, he actually wanted me to be an inside man for Shi Kingdom! I never expected the clan leader, a mere eternal true god... to have colluded with Shi Kingdom."

"You are slandering!" the man retorted.

"At this moment, I am not interested in slandering," Gaowu Shui said, "By wanting me to be an inside man, they didn't care whether I lived or died. Moreover, I would rather die than betray my master."

"Since they wanted me to be an inside man and didn't care about my life, all those in the family who colluded with Shi Kingdom must die!" Gaowu Shui said. "And you, Gaowu Quyi, you survive because you were oblivious, and because you are my father, you have the privilege to cling to life."

"If you don't confess your errors willingly, then you can stay in this prison forever," Gaowu Shui sneered.

"No matter which side the family allies with, you should not have betrayed the family," Gaowu Quyi said.

"Betray the family?"

Gaowu Shui sneered, "Now, I am the Clan Leader, the sole eternal true god of our family! As long as I live, our family will continue to exist. If I die, the family will immediately crumble and be ravaged by various forces. You claim loyalty to the family, then you should be loyal to me."

"I am your father!" Gaowu Quyi couldn't bear his son's attitude.

"In this world, my mother gave birth to me, my master devoted his energy to raising me. And you, what are you worth?" Gaowu Shui turned and walked away.

…

Within Huyang City, a hidden underground hall in an ordinary cave mansion.

Xue Yun, Yutian Xu, and Yutian Yi gathered here.

"We have tried every means to gather information on the three forbidden areas," Xue Yun said, "but the city owner's mansion has tightened information. Those guarding the forbidden areas are their core members and are very hard to buy."

"It's easy to buy over 'Gaowu Wei' from the Gaowu Family, but he did such a poor job that not only did he fail to persuade Gaowu Shui, but he also lost his own life," Yutian Xu shook his head.

"A waste dying is just that, he died," Yutian Yi said. "Divine Monarch Xue Yun, we've also collected information for so long, when do we act?"

"We've prepared for so long, it's time to make a move," said Xue Yun.

Yutian Xu and Yutian Yi's eyes lit up.

"How do we act?" Yutian Xu pressed.

"Our target is the three restricted areas," Xue Yun said. "The city owner's mansion evidently has only one Moli Xiao, they may have

hidden forces. But the three of us together are not afraid of the city owner's mansion at all. If we can infiltrate and destroy one forbidden area, the overall power of the Huyang City array will drastically decrease."

There are many critical nodes in the Huyang City array; damage to ordinary nodes has little impact on the array.

But the three forbidden areas are the core.

"I will tell you the detailed plan of action on the day we move," Xue Yun said.

"Good, we will follow Brother Xue Yun," both Yutian Xu and Yutian Yi were confident.

Yutian Xu, because of awakening a special bloodline, his godly body was considered the pinnacle of eternal true god within the bloodline cultivation pathway. Xue Yun, who had seen much and was knowledgeable, thought that Yutian Xu's godly body was possibly comparable to unlimited godly bodies.

Of course, unlimited godly bodies had great potential both in the Primal Chaos Realm and at the Godly King Level, playing a significant role. But the 'bloodline cultivation pathway,' once breaking through to Primal Chaos Overlord, reached its limit, and had much less potential.

However, this did not hinder Yutian Xu's extraordinary current strength.

And Yutian Yi, as one of the Five Gods of Yutian, was also on the same level as Commander Moli Xiao.

Three strong allies together naturally had great confidence.

******

Within a refined cave mansion inside the vast camp of the Jin Xiao Legion,

Luo Feng held a flask of wine.

"Gulping." He drank a couple of sips and immediately felt the poison permeating his soul, making his spiritual will waver. Luo Feng was also practicing the Great Destruction Heart Refining Technique, repeatedly trying to erode his own will.

"Duan Dong River lineage has a tradition of tailoring 'Black Marsh Poison,' making the effects of the Black Marsh Poison even stronger," thought Luo Feng. Using Black Marsh Poison as the base, adding some ingredients and blending it into fruit wine, he could concoct a uniquely flavored wine. It was even more effective for cultivating spiritual will.

"My soul is too strong, and my spiritual will even stronger. Relying purely on poison is too consuming," Luo Feng thought, "Black Marsh Fruit Wine combined with the Great Destruction Heart Refining Technique gives the best results, and also saves on Black Marsh Poison."

Such cultivation, for normal cultivators, would be unbearably painful. But Luo Feng's will had been honed by numerous trials, especially the excruciating pain of accepting the Star Tower as his master, which was far beyond his current pain.

After all, no normal refining method could reach the level of pain experienced during the Star Tower acceptance.

Thus, to Luo Feng, this bit of pain was rather enjoyable, even a fun part of his cultivation.

"Master, are we going to stay here for an Era?" Moli Meng came over, somewhat reluctantly, "As your servant, it doesn't matter much to me; can I perhaps go out for a while?"

Previously often indulging in pleasures in the city, now staying long-term in the military camp, Moli Meng was getting a bit restless.

"Look at you," Luo Feng shook his head, "You can't even muster this bit of patience; your spiritual will is really quite average."

"I am just enjoying life timely; what does that have to do with spiritual will?" Moli Meng retorted.

"I, the master, am staying here guarding, and you, the servant, want to go out and enjoy?" Luo Feng looked at him, "Don't you think you're being a bit unreasonable?"

Moli Meng looked down.

"Just wait, until Shi Kingdom's Forces attack, or until a full Era passes," Luo Feng said.

Suddenly—

Without warning, a dreadfully cold chill descended, in an instant covering the entire area of the Jin Xiao Legion's camp. During this night, the vast camp, spanning hundreds of millions of kilometers, was completely covered in frost.

"Has it come so soon?" Luo Feng looked up, surprised.

"Finally, it's here!" Moli Meng exclaimed with joy.

Chapter 57: Chapter 54 Unscrupulous

"Protect Qingyan," Luo Feng instructed as he stepped out of the cave mansion with a wine pot in hand.

"Don't worry, Master," Morosa said, standing beside Moyu Qingyan and looking up at the frost covering the sky. The formation of the cave mansion operated on its own, sheltering both Morosa and Moyu Qingyan.

Moyu Qingyan was somewhat nervous, "Lord Luo Sa, shouldn't I hide inside the Flying Boat?"

"When the critical moment comes, I will take you into the Flying Boat's secret treasure. As for now? Just watch the battle at ease," Morosa said with a smile, gazing into the distance, "Shi Kingdom's forces are attacking, and this great battle is indeed spectacular."

Moyu Qingyan glanced at Morosa beside him, feeling uneasy. Lord Luo Sa was merely a true god of void space. If they were affected by the imposing might of the Shi Kingdom's forces, both of them would likely turn into ashes.

"Since Master has arranged it this way, he must trust Lord Luo Sa," Moyu Qingyan felt helpless and could only anxiously watch the battle, silently hoping they would not be affected.

At this moment, Luo Feng reached a core building nearby in just a few steps.

This building's deep underground was the entrance to the forbidden land.

"As long as I guard this entrance, no one shall pass," Luo Feng stood

at the entrance of the building, watching as billions of snowy white threads descended in the night sky. Countless threads intertwined, forming a heavenly net that instantly bound three giant mechanical treasures soaring into the sky.

The Jin Xiao Legion was the largest in size, taking on the form of the 'Jin Xiao' exotic beast. When enveloped by the snowy heavenly net, it too tried to tear the net apart.

The two mechanical stream secret treasures controlled by Huyang Guards were the Three-Sword Sky-Splitting Beast and the Sabre-Winged Devouring Insect. Although slightly less powerful, they were equally fierce.

"Rustle, rustle, rustle~~~"

Bound by the snowy heavenly net, the three giant mechanical treasures clearly had their strength greatly diminished.

"What a heavenly net," Luo Feng took a small sip of wine at the entrance, feeling increasingly stimulated, "Such a binding move is enough to defeat the Blood Python Association Leader. The expert who deployed this must be not much different from Moli Xiao."

Underneath the immense snowy heavenly net, a figure condensed into existence—a woman with a frost body.

Her body was made of solid ice, and her gaze was even colder.

"Jin Xiao Legion and the two divisions of Huyang Guards, you dare to stop me?" Yutian Yi's voice echoed everywhere, "Attack!"

"Kill."

"Destroy this place."

With thunderous roars, four figures had already charged into the camp.

"Presumptuous!"

The gigantic Jin Xiao, still frighteningly powerful even while tangled

by the heavenly net in the sky, bellowed. It triggered the might of the Huyang City Formation; above the camp, mysterious formations began to appear.

Luo Feng looked up and saw layers of formations materialize in the sky. Some flickered with golden light, some churned with black energy, and some radiated purple glows. Many formations complemented each other perfectly, as if they formed an abyssal vortex.

This vast abyssal vortex formation descended, covering the entire camp and causing the powerful heavenly net to shrink involuntarily.

"The formation of Huyang City is indeed tricky. Under its suppression, I've lost 30% of my strength, and other eternal true gods have suffered even greater losses," Yutian Yi immediately felt the terrifying power of the formation.

Aided by the formation, the might of the gigantic Jin Xiao and both the Three-Sword Sky-Splitting Beast and the Sabre-Winged Devouring Insect greatly surged as they attacked Yutian Yi in mid-air.

"Relying on mechanical stream secret treasures for such power, yet your moves are quite crude," Yutian Yi looked on with disdain. With a stretch of her arms, giant cold ice-blade edges began to condense in mid-air.

"Kill!"

Through the long years, she crafted her blade technique. Nine giant cold ice blades tore through the sky, attacking the gigantic Jin Xiao, Three-Sword Sky-Splitting Beast, and Sabre-Winged Devouring Insect from all sides.

These cold ice blades were fearsomely powerful, with techniques that were exceedingly intricate.

"She is Yutian Yi from the 'Five Gods of Yutian' of the Yutian Clan," General Jin Xiao communicated to the leaders of the Huyang Guard, "She has already grasped primal chaos blade skills. And with the mechanical treasure, she's refined a 'Frost Body.' Even if we join

forces, we can't defeat her; we can only seek self-preservation! Guarding the forbidden land is now Lord Luo He's responsibility."

"Yutian Yi?" The two leaders of the Huyang Guard also felt immense pressure.

The Jiu Jiang Primal Chaos Prefecture of Yu Kingdom bordered the Liu Yin Primal Chaos State of Shi Kingdom.

Liu Yin Primal Chaos State was the Marquis Liu Yin's fief! Among the marquis's renowned eternal true gods, numbering just over ten, the Five Gods of Yutian were included, and each of them was difficult to handle, capable of overpowering several legions on their own.

...

Within the core 'city owner's mansion' of Huyang City.

Lord of Huyang City, Moli Xiao, a white-haired old man, and the one-horned man 'General Yong'—all four incarnations of divine power—were present, observing the scenes monitoring the entire city.

"Several ordinary residential areas throughout the city have been attacked," Lord of Huyang City observed the monitors, where numerous eternal true gods hiding their presence were rampaging through the residential areas, wantonly slaughtering.

Those ordinary residential areas were inhabited by true gods, residing free of charge. Each true god's living area was generally not wider than a kilometer! Merely tens of thousands of kilometers in scope could house over a hundred million citizens, showing the high density of residents.

These regular residential areas, although protected by formations, could not withstand the onslaught of these top eternal true gods. The formations were rapidly breached, and the true gods living within stood no chance of resistance, turning directly to ashes and smoke.

Boom~~~~

The wanton destruction within the city made the faces of the Lord of Huyang City and his companions turn ugly.

"We have already dispatched the Huyang Guards," Moli Xiao said, "They are intentionally causing destruction within the city to force us to deploy the Huyang Guards and thus spread our forces thin."

"The Shi Kingdom really has no bottom line," the one-horned man said coldly, "They do not care about slaughtering the city's inhabitants to achieve their goals."

"We must protect the city's inhabitants," the Lord of Huyang City said, "The residential areas are too densely populated. Such rampant slaughter will cause panic within the city, and if the Marquis hears of it, he will punish us severely!"

In the past, Meiwu Qi's massacre of hundreds of millions was atrocious, but his most substantial abduction happened when the regular city 'Fang Jiu City' was breached by exotic beasts. The inhabitants were about to flee in all directions, allowing him to capture hundreds of millions in one fell swoop.

Although he also committed atrocities within Huyang City, he was much more cautious, abducting only a small number each time, sometimes even requiring the Leader of Huyang Guard 'Qianyu Chong' to assist, precisely to keep it discreet and avoid causing panic.

Such rampant slaughter by the Shi Kingdom's forces, if too many were killed, would cause panic among the city inhabitants. Many would flee the city, unwilling to reside there any longer, affecting the collection of 'Residence Fees'!

Both the Marquis of Jiu Jiang and the God Kings would not allow such things to happen.

"All three forbidden areas have been attacked. The forces dispatched by the Shi Kingdom this time are indeed formidable, including Xue Yun, Yutian Xu, and Yutian Yi!" The Lord of Huyang City turned to the three individuals beside him, "I will garrison the city owners mansion, the forbidden areas are up to you now."

"The city owners mansion is the most critical," the one-horned man stated indifferently, "You need not worry about the three forbidden areas."

...

Luo Feng was originally holding a wine jar, standing guard in front of the forbidden area's palace, leisurely watching the fight between the three Mechanical Flow Secret Treasures and the experts from Shi Kingdom high above.

But when the Huyang City Formation erupted with terrifying power, out of the five eternal true gods from Shi Kingdom that came attacking, only Yutian Yi and one who wielded thunder continued trying to head towards the forbidden area. Meanwhile, the other three eternal true gods from Shi Kingdom retreated explosively, fleeing to the regular residential zones next to the military camps.

They instantly acted to tear apart the formations protecting the residential areas.

"Deserve to die!" Luo Feng's expression turned cold, and the wine jar in his hand disappeared.

At this moment, the three eternal true gods who fled outside the camp moved apart, and they were also quite far away from Luo Feng.

Whir!

Standing at the doorway of the hall, Luo Feng suddenly donned a golden armor. Pairs of golden wings unfolded behind him, and at the same time, under the drive of his Perfect Divine Power, the might of the Sha Wu Wings had already stirred up Primal Chaos.

The Primal Chaos Realm technique of Sha Wu Wings, "Control Primal Chaos"!

At this moment, Luo Feng was not being conservative with his Perfect Divine Power. He wildly transformed and consumed energy, causing the scope of Control Primal Chaos to be exceptionally vast! The power of chaos descended within tens of billions of kilometers around him. A vast amount of matter and energy began disintegrating back into Chaotic Power.

"Hmm?" Yutian Yi, who was originally alone in besieging the three gigantic Mechanical Flow Secret Treasures, perceived a change in her

face as she noticed the forces of heaven and earth reverting to primal chaos around her.

The thick Primal Chaos Current was incredibly heavy.

"Such a powerful Primal Chaos Domain, not good!" Yutian Yi realized the danger. Her Frost Body naturally did not fear such restraints, but her subordinates would likely suffer in the face of such might.

The three eternal true gods who fled to the regular residential district, intending to carry out a massacre to force the Jin Xiao Legion and Huyang Guards to stop them, suddenly discovered that the forces of heaven and earth around them were reverting to primal chaos.

Endless Primal Chaos Currents surrounded them.

The Primal Chaos Currents seemed sentient as they bound and squeezed them.

"No, no——"

These three eternal true gods had their own strengths, and in terms of power, they were not inferior to Hei Duomo. If they could amass enough Merit Points, there was hope that the Marquis would award them a Mechanical Flow Secret Treasure.

It's easy to obtain Merit Points in enemy cities, but it requires taking risks!

After taking risks too many times, death is a possibility.

"Pfft, pfft, pfft!" Under the terrifyingly oppressive Primal Chaos Currents, the three top eternal true gods shattered to pieces in their terror.

Standing before the hall, Luo Feng frowned slightly, "Of these three eternal true gods, my Control Primal Chaos only managed to crush two True God's Hearts; the body of the other eternal true god did not contain a True God's Heart."

Luo Feng knew well that some eternal true gods who possessed the

'Source of Law' were somewhat special, or their inherited cultivation was special, allowing them some life-saving secret techniques.

The life-saving secret law 'Undying River' of the Duan Dong River lineage was even more impressive. However, as the Perfect Divine Body Luo Feng, he did not need such techniques.

"Pity I couldn't eradicate evil thoroughly, killing only two," Luo Feng's gaze swept over to Yutian Yi in the air and the other thunder-wielding eternal true god who was being suppressed.

"Lord Luo He!" Yutian Yi's eyes sparkled with fighting intent. Merely a domain couldn't intimidate her.

Thanks to the new Alliance Hierarch: Watcher-Crab No. 1.

Chapter 58: Chapter 55: Bounty

Luo Feng was originally enjoying the battle while drinking wine, as there might be conflicts between Shi Kingdom's forces in the future due to his master, the Mountain sitting guest. However, he had no significant hostility towards other cultivators from Shi Kingdom.

But when they began slaughtering the weak True Gods, Luo Feng's killing intent surged.

"It's each to their own when nations battle, but to slaughter the weak… what a bunch of scum!" Luo Feng's eyes grew cold as he started searching for 'Yutian Yi's' bounty in the Flame Wind Association's Dark Hall.

The bounties in Huyang City listed were all from the Flame Wind Association's Huyang branch! Other large cities or even other nations would not actively send bounties to all clients.

"Yutian Yi's bounty amounts to 500,000 Cosmic Sands?" Luo Feng instantly looked it up and immediately accepted the bounty.

Not everyone could have a bounty, for even the lowest reward required "ten thousand Cosmic Sands." If the mission wasn't completed, the bounty would have to remain with the Flame Wind Pavilion. Thus, the vast majority of eternal true gods had no bounty at all.

Up till now, Luo Feng had no bounty on him.

"This Lord Luo He, just with his domain moves, could kill a top-level eternal true god. Is his Mechanical Stream Secret Treasure quite special?" Yutian Yi speculated.

Some composite Mechanical Stream Secret Treasures could refine Divine Power to match the Primal Chaos Divine Power, and when

deploying the Primal Chaos moves, they could display such might.

"Before his death, the Blood Python Association Leader transmitted a message saying that Luo He's Mechanical Stream Secret Treasure is worth at least five million Cosmic Sands—perhaps it's true," Yutian Yi thought, which stirred her interest.

Yutian Yi glanced below, where at this moment, she only had one subordinate left alive, which was the eternal true god who controlled thunder.

This eternal true god, who possessed the Mechanical Stream Secret Treasure 'Core of Thunder,' had cultivated it through long years to reach an extremely high potential.

In terms of strength, he was not inferior to the Blood Python Association Leader.

But now, with the Huyang City Formation suppressing him and being oppressed by the Primal Chaos Domain of Sha Wu Wings, he fell to the ground, bound and compressed by the Primal Chaos currents, unable to move.

"Lord Yutian, save me!" the eternal true god cried out for help through mental transmission.

Whoosh!

Streams of snow-white silk threads condensed in the void, wrapping around the eternal true god and swiftly flying him away.

"You go first; I'll try this Lord Luo He," Yutian Yi, with her Frost Body, stood in mid-air and transmitted from afar.

"Be careful, Lord Yutian," the fleeing Thunder eternal true god sighed in relief.

"Escape?"

Luo Feng, standing at the temple door, moved. With just one step, using the 'Myriad Realms Escape Command' he had obtained from Ying Cang, he instantly teleported through the void emerging near

the Thunder eternal true god wrapped in abundant snow-white silk threads.

"No—" The Thunder eternal true god couldn't believe that Luo Feng had suddenly appeared beside him.

"Hmph!"

Luo Feng extended his hand, his five fingers sharp as blades, piercing through the wrapped snow-white silk threads and directly into the chest of the eternal true god, seizing his True God's Heart.

Thump!

The True God's Heart shattered!

Luo Feng also collected the corpse and leftover items, with the snow-white silk threads naturally dissolving into nothingness.

Then, Luo Feng looked towards Yutian Yi in the distance.

Yutian Yi didn't care about the death of her subordinate. She stared at Luo Feng and said, "Traversing the void? Does the city owner's mansion trust you that much to give you the power to traverse the void?"

Even when hiring strong warriors, the city owner's mansion usually remained cautious to prevent the hired from turning against them at the last moment!

"Yutian Yi, are you ready to die?" Luo Feng said.

"I haven't met an eternal true god who can kill me yet!" Yutian Yi sneered as she suddenly erupted with numerous Cold Ice Blades around her, blasting the massive Jin Xiao, the Three-Sword Sky-Splitting Beast, and the Sabre-Winged Devouring Insect away.

"I heard your blade technique has reached the level of the Chaos Realm? Conveniently, I also know a few blade techniques," Luo Feng said.

"You know blade techniques too?" Yutian Yi, with a flash, had

already thrown off the massive Jin Xiao, the Three-Sword Sky-Splitting Beast, and the Sabre-Winged Devouring Insect.

This left Jin Xiao, Gaowu Shui, and others feeling somewhat exhausted as, even with controlling legion's Mechanical Stream Secret Treasures, they were still comprehensively outclassed by such a powerful eternal true god.

Three against one, even with the help of Huyang City Formation, they were suppressed! Now, shaking them off was also effortless.

"Die!"

Yutian Yi rushed to attack, concentrating nine Cold Ice Blades in front of her; the nine blades, seemingly able to cleave heaven and earth, enveloped her with an unrivaled might.

"Hmm?"

Luo Feng felt that the space around him was completely sealed; with the nine blades before him, there was no escape!

"Regarding sneak attacks and assassinations, Ying Cang has an advantage, but in a head-on battle, Yutian Yi is even more formidable," Luo Feng thought. Unable to avoid the confrontation, he didn't even try to, judging the opponent's momentum through the sensation of the Primal Chaos Domain.

Only when the nine Cold Ice Blades approached did Luo Feng suddenly charge upward, his eyes flashing fiercely, "Ten Directions Infinite!"

Facing the assault of the nine incoming Cold Ice Blades, Luo Feng used his godly body as a blade, executing the only purely defensive blade technique from 'World Breaking Nine Blades' called 'Ten Directions Infinite Blade'!

"Buzz buzz buzz～～～" Luo Feng's entire godly body was like a blade, horrific vigor circulating on the surface forming thick layers of blade shadows.

The blade shadows layered heavily, making Luo Feng's figure appear

blurry!

"Hmph."

Yutian Yi was confident in her strength, and the nine Cold Ice Blades aimed to slice through everything, chopping down on Luo Feng!

As these blades cut through the layers of blade shadows, their power was significantly reduced, and when they finally struck Luo Feng's godly body, the skin of his thrice-refined Perfect Divine Body showed only some marks, which disappeared almost instantly, leaving no trace of any wounds.

"Using the physical body to execute Ten Directions Infinite Blade, to withstand her blade techniques, it still broke the skin a bit," Luo Feng thought.

After over two decades of cultivation, Luo Feng was much stronger than when he had first encountered Ying Cang. Thus, he did not use the 'Duan Mie' to burn Divine Power, merely displaying the capabilities of his thrice-refined Perfect Divine Body.

This scene made Yutian Yi, who had been attacking fiercely, suddenly stop, somewhat shocked, "What kind of protective maneuver is this? The heavy blade shadows protecting him, my proud ultimate move, couldn't even injure him?"

"Ten Directions Infinite Blade is still not strong enough," Luo Feng thought.

'World Breaking Nine Blades' eternal level six blades became increasingly complex the further one progressed; apart from the earlier Blade of Life and Death, Return to Ruins Saber, and Reincarnation Blade which were relatively simple, the subsequent 'Three Aspects Shadow Blade,' 'Heavens Split in Five Directions Blade,' and 'Ten Directions Infinite Blade' all involved multiple integrations of concepts, deepening Luo Feng's understanding of the Laws of Primal Chaos.

But it was still far from the true Chaos Realm Saber Technique.

"Luo He, it seems you have a set of combined Mechanical Stream

Secret Treasures, adept in domain, protection, and fleeing…" Yutian Yi sneered coldly, "What skill is there in relying on treasures? I'm not playing with you today."

Whoosh!

Yutian Yi immediately soared into the sky!

"Thinking of leaving?" Luo Feng instantly traversed the Void, suddenly appearing right in front of Yutian Yi as she flew.

"I knew you would traverse the Void!" Yutian Yi was well-prepared; at a thought, countless snow-white threads interwoven into a vast net-like trap enveloped Luo Feng, trapping him while she swiftly flew toward the distant night sky.

A blade suddenly appeared in Luo Feng's hand, the endless might contained within his thrice-refined body fully infused into this emperor-level Blade Embryo.

Blade light flashed!

A blade light that seemed to tear the heavens and the earth emerged, ripping apart the snow-white net and aiming to tear through the fleeing Yutian Yi! With a nimble dodge, Yutian Yi barely avoided most of it, but her arm was merely grazed by the blade light and was instantly annihilated.

The might of this blade shocked Yutian Yi, "How can it be so powerful? He seems even more fierce than my second brother!"

Luo Feng followed the blade light, his thrice-refined Perfect Divine Body providing terrifying speed, coupled with the Myriad Realms Escape Command's control over space, he rapidly closed the distance, Yutian Yi couldn't evade!

"This is bad!" Yutian Yi felt an unstoppable terrifying figure crashing into her!

Bang!!!

The Frost Body was smashed apart, completely shattering. Luo Feng

moved through her exploded body before finally stopping, his brow slightly furrowed as he looked around.

"She crafted a Frost Body to come and assassinate me. Her true body isn't actually here," Luo Feng carefully sensed all directions, "Moreover, she is not within my Primal Chaos Domain."

Her true body hiding away, the one coming to battle was merely a body condensed from the Power of Frost, making it too difficult to kill her.

This was merely a maneuver by an eternal true god.

Those ancient Primal Chaos Overlords would spend much thought on life-saving secret laws and even reincarnation techniques.

Even a Godly King wouldn't dare claim they could completely kill a Primal Chaos Overlord. They might seem dead on the surface, but could resurrect somewhere, or maybe even reincarnate.

Like Master Mountain sitting guest, who chose reincarnation, severing karma through reincarnation. Unless he exposed himself, no one would recognize him. Thus, the rulers of Shi Kingdom have a formidable hidden enemy!

Invading and annexing other Divine Kingdoms come with many problems. Choosing this path, Shi Kingdom must be prepared to deal with these 'problems.'

"This time, out of the five eternal true gods from Shi Kingdom, only three were killed," Luo Feng landed, "Truly killing them is indeed not easy."

"Lord Luo He."

"The attacking forces of Shi Kingdom are completely routed," the giant Jin Xiao, Three-Sword Sky-Splitting Beast, and Sabre-Winged Devouring Insect arrived excitedly, truly deserving of the title Lord Luo He, utterly overpowering with just one move.

Luo Feng wasn't very excited, having accepted Yutian Yi's bounty, still unable to deal with her effectively.

"Such a powerful battle fluctuation." Luo Feng sensed other terrifying fluctuations erupting far from Huyang City, "Especially the one southwest, there must be a battle between two supremely powerful beings. Without burning Divine Power, I might fall short of them."

The terrible confrontation in that southwest area exceeded the level of Yutian Yi and Ying Cang.

"Moli Xiao, I sense intense fighting in the southwest area of Huyang City, do you need my help?" Luo Feng transmitted, "I've already routed Shi Kingdom's forces here."

Chapter 59: Chapter 56 General Yong and Divine Monarch Xue Yun

```

"Lord Luo He, please continue to garrison the forbidden area. Shi Kingdom's forces may return to launch a sneak attack at any moment," Moli Xiao responded. "Now that Huyang City is under attack from various factions of Shi Kingdom, once the city calms down, Lord Luo He will have completed his employment."

"Understood," Luo Feng replied.

He understood that, on one hand, the city owner's mansion had a detailed plan, and the defending force was sufficiently strong, so his help was not required. On the other hand, as a hired cultivator, he knew the trust the city owner's mansion had in him was limited.

"I had hoped to exchange blows with a few more masters, what a pity," Luo Feng stepped back to the entrance of the forbidden area and took up his post, beginning to reflect on the previous battle.

The Divine Power of Yutian Yi was far inferior to his, and even the 'Power of Frost' unleashed by the Mechanical Flow Secret Treasure was not as good as his Perfect Divine Body.

"Her blade technique..." Luo Feng recollected, "has a profound influence on space, fundamentally different from the effects of the Myriad Realms Escape Command on space."

Luo Feng pondered and understood.

The path to the Primal Chaos Laws was not easy; Luo Feng, who had
```

been an eternal true god for just over two decades, did not have as much realm accumulation as Yutian Yi, Yutian Xu, Xue Yun, and the others.

Luo Feng would learn from his opponents, allowing himself to grow faster.

"We've won this forbidden area! The other two areas are still in the midst of battle." The Jin Xiao Legion, the Three-Sword Sky-Splitting Beast, and the Sabre-Winged Devouring Insect were also communicating, feeling much at ease.

"Lucky for us to have Lord Luo He, otherwise, just us alone would likely have needed to call for reinforcements."

"Lord Luo He truly holds to his promises, even going so far as to kill several eternal true gods of Shi Kingdom!"

"That eternal true god who wielded thunder, likely had a Mechanical Flow Treasure, which also ended up in Lord Luo He's hands."

"Earning a couple of million Cosmic Sand for Lord Luo He really seems like a trivial task."

They conversed through voice transmission, quite envious.

Although the side of the city owner's mansion thought it highly unlikely for Lord Luo He to betray them, they still took precautions! Should Lord Luo He betray them, the city owner's mansion would immediately mobilize forces to support them.

...

"Boom!" "Boom!"

In the night sky, two towering figures collided and battled each other.

One was Moli Xiao controlling the Legion Mechanical Secret Treasure 'Six-Armed Divine Owl', and the other was the towering true body of Yutian Xu, who had already started burning Divine Power, wielding a long staff.

With each collision, their might seemed to make heaven and earth tremble.

"This Yutian Xu truly deserves to be the head of the Five Gods of Yutian! His godly body has been cultivated to an inconceivable extent; perhaps not even the unlimited godly bodies can compare," Moli Xiao was shocked. "I'm controlling the legion, and even with the aid of the Huyang City Formation, I can only barely injure him!"

Yutian Xu did not bother defending, attacking with each move as if causing a great collision between heaven and earth, ferociously and violently! Those light injuries would be instantaneously recovered by his godly body.

Moli Xiao was also quite troubled for a while.

```

"Facing me, Divine Monarch Xue Yun only has a realm advantage and poses no threat to my godly body," Yutian Xu said confidently. As one who possessed a godly body considered among the most formidable at the eternal true god level, and having also cultivated his Divine Power Dharma to an extremely high level, Yutian Xu feared nothing once he unleashed his full strength.

"Yutian Xu, retreat," Divine Monarch Xue Yun suddenly messaged.

"Retreat?" Yutian Xu questioned, replying through messaging, "Why retreat?"

"Yutian Yi has failed on her end, and over here I've encountered 'Great General Yong Hu' from the Royal Capital of Yu Kingdom. I need to flee too. If you don't retreat... you might be surrounded and attacked. Retreat quickly," Divine Monarch Xue Yun responded.

...

Although Divine Monarch Xue Yun served Marquis Liu Yin of Shi Kingdom, he had never really fought for his life in Huyang City! He had only ever used a fraction of his strength—five parts perhaps—which was enough to intimidate Huyang City and to demand an abundance of resources from Marquis Liu Yin.
```

"With the conflict between the two kingdoms, their backing powers are endless. The more I reveal, the heavier the responsibilities I will have to shoulder, and the stronger the opponents I will encounter. Who knows, I may even die one day."

"By hiding some of my strength, I can live longer! My goal isn't to fight to the death for Shi Kingdom, but to gain resources for a breakthrough into the Primal Chaos Realm," Divine Monarch Xue Yun was very clear about what he wanted.

In the Land of Origin, generally, each large city is home to several incredibly strong eternal true gods! But Divine Monarch Xue Yun didn't take them seriously, for his realm cultivation had already reached unfathomably deep levels.

Even Yutian Xu and Yutian Yi believed that... he should be one step into the Primal Chaos Realm.

"I cultivate both my bloodline and laws, and furthermore, I've deduced nine moves from the Primal Chaos Realm. Looking at all the eternal true gods in the whole of Shi Kingdom, it's hard to find one with a higher realm than mine.

Yet even so, I have still not made a breakthrough," Divine Monarch Xue Yun stared at the formidable being before him, "This time in Huyang City, I finally encountered someone whose strength is not inferior to mine."

The three forbidden lands were guarded by Luo Feng, Moli Xiao, and an old man with white hair.

Great General Yong Hu was a hidden strength. After the three forbidden lands were attacked, Great General Yong Hu chose to assault 'Divine Monarch Xue Yun,' because this time Divine Monarch Xue Yun's unleashed strength was somewhat frightening and threatened the forbidden lands.

"You won't escape today!" Great General Yong Hu was filled with a killing intent.

He had cultivated unlimited godly bodies and was an eternal true god

with exceptional talent throughout the entire Yu Kingdom, highly valued by the Godly King! He had also learned many skills and laws from the Godly King, his cultivation in the realm had already reached a very high level, and he had also comprehended moves from the Primal Chaos Realm.

With unlimited godly bodies, the Godly King's legacy, realm, will, and treasures, General Yong had no weaknesses.

"This Xue Yun's godly body is not as good as mine," General Yong thought intensely with killing intent, "But his accumulated realm cultivation is even above mine, using various moves in an unpredictable and enigmatic manner. Thankfully, the Huyang City Formation is aiding me, and today I finally have the chance to kill him."

If it weren't for the assistance of Huyang City Formation, General Yong would not be able to do anything to his opponent.

"General Yong, you're just taking advantage of the Formation," Divine Monarch Xue Yun said with a slight smile, and suddenly his body transformed into rolling Blood Waves, sweeping over a vast area in an instant.

Luo Feng, with the help of the Mechanical Flow Secret Treasure 'Life Blood River,' could also turn into a stretch of blood river.

But Divine Monarch Xue Yun had combined several Primal Chaos Realm moves, allowing his godly body to be completely transformed into an endless Blood Wave, which was far more exquisite in application than Luo Feng's mere driving of the Mechanical Flow Secret Treasure.

"Hmm?" General Yong was startled.

"Suppress!"

With a shout from General Yong, a gigantic, illusory stamp descended in the night sky, slamming down on the Blood Wave beneath, causing parts of the Blood Wave to be annihilated.

The remaining vast majority of the Blood Wave spread in all

directions, instantly engulfing a range of billions of miles! It devoured all life within those billions of miles, whether it was those living true gods or the true gods of the void space, swallowing everything, with the expanse of the Blood Wave still expanding.

"Insolence." General Yong's expression changed as the single wave of the Blood Wave devoured more than a billion creatures.

"General Yong, I admit you have more treasures than me and have formations to aid you. If we keep this up, I won't be able to escape. But when you finally kill me, how many creatures do you think I can massacre? Five hundred billion, a thousand billion?

Haha, massacring so many creatures, can you handle the consequences?" Divine Monarch Xue Yun's voice boomed and echoed through every part of the Blood Wave.

As the giant illusory seal crushed the Blood Wave, the rolling waves continued to sweep across regions.

"No."

"Save me."

"What's happening?"

Countless creatures faced sudden calamity, vanishing in an instant within the Blood Wave.

"Get lost." General Yong's face darkened as the illusory seal in the sky retracted and fell into his palm, and the might of the formation was also withdrawn.

"Haha, General Yong is truly wise." The rolling Blood Wave scattered and disappeared without a trace.

General Yong remained in place, quite unwilling to let it go.

"General Yong." An elder with white hair approached him.

"To kill an eternal true god of Shi Kingdom by sacrificing tens of billions, or even hundreds of billions of creatures is simply not worth

it." General Yong shook his head, "If he really massacred that many, not just me, but all five great families will be held accountable!"

"How could Divine Monarch Xue Yun be so powerful?" the white-haired elder could hardly believe it, "Through the long years until now, he has never revealed such strength."

Both sides had been fighting for a long time, with Divine Monarch Xue Yun's side even at a disadvantage.

"Without the Huyang City Formation, I can't even handle him." General Yong was indeed a bit agitated, his renown being what it was, and with the cultivation bestowed by the Godly King! This Divine Monarch Xue Yun, not very famous, had accumulated a higher realm than him.

General Yong silently sighed.

Status doesn't equate to strength.

Even some reclusive cultivators can have extremely high realms and it's also possible for a Primal Chaos Dominator to emerge among them.

"Never underestimate any opponent." General Yong scanned the surroundings.

The residences of the true gods in Huyang City were separated into different areas, but even so, the endless Blood Wave affected too vast an area, affecting tens of billions of creatures in just a few clashes.

"About eighty billion creatures died at the hands of Xue Yun," said the white-haired elder with an ugly expression, "Such a huge loss must be reported to the Marquis, reported to the Royal Capital."

"We did our best." General Yong turned to leave.

Though the clashes between Primal Chaos Dominator-level beings could, with a mere opening of the mouth, swallow an entire large city and obliterate all creatures within it!

Still, the conflict at the level of eternal true gods, counting tonight's

destruction and massacre in Huyang City, with nearly a hundred billion creatures perishing at once, still caused significant headaches for the city owner's mansion. Such public killings were impossible to hide.

...

In front of the Forbidden Land's palace gate, Luo Feng sat cross-legged, with Morosa and Moyu Qingyan standing guard next to him.

"Brother Luo He, your task is complete," Moli Xiao messaged Luo Feng, "Shi Kingdom's forces have completely retreated; they won't make a move easily again."

With General Yong's presence, the forces of Shi Kingdom were naturally wary.

This time Divine Monarch Xue Yun was able to threaten and force General Yong to withdraw by slaughtering countless creatures.

"Good." Luo Feng stood up and messaged back, "How's the situation this time?"

"Not good; many citizens in the city died," Moli Xiao transmitted, "Details will probably spread soon."

Moli Xiao was quite aware of how informed various factions within Huyang City were; such a big incident couldn't be kept secret, especially since the Flame Wind Pavilion was extremely adept at gathering intelligence; in many respects, they were stronger than the city owner's mansion.

Luo Feng glanced at Morosa and Moyu Qingyan, "We can go back now."

"Lord Luo He, we owe you a great deal for this time," General Jin Xiao and the two leaders of Huyang Guards came to see them off.

"A small matter." Luo Feng nodded, then led Morosa and Moyu Qingyan onto the Flying Boat and left.

The General Jin Xiao and the two leaders of Huyang Guards watched

the scene.

"Our own losses are negligible, but the other two forbidden grounds have suffered considerably," General Jin Xiao spoke, "Especially Divine Monarch Xue Yun, he has massacred too many creatures this time."

"After we defeated Yutian Yi, if we had immediately sent Lord Luo He to support the other forbidden grounds, the outcome might have been different," Gaowu Shui said.

"That was not for us to decide." The other leader of the Huyang Guard also shook his head.

The affairs of Huyang City were decided by the core figures of the city owner's mansion.

Their role was to follow orders.

******

Luo Feng, accompanied by Morosa and Moyu Qingyan, steered the Flying Boat, still on their return journey.

"Brother Luo He, a major incident has occurred," Zhu You messaged Luo Feng, "'Yong Hu,' the Great General of Yu Kingdom's Capital, appeared within the city and moved to exterminate Divine Monarch Xue Yun. Divine Monarch Xue Yun unleashed strength far beyond the past, resulting in the slaughter of more than eighty billion creatures, which forced Great General Yong Hu to retreat."

"What's the situation?" Luo Feng frowned slightly.

From the information passed by his master Mountain Sitting Guest and the Duan Dong River lineage, he already knew about the cruelty of the Land of Origin; not to mention the clashes between Primal Chaos Dominators and Godly Kings, even conflicts among the über powerful eternal true gods could still affect an astronomical number of creatures.

"I'll send you the details." Zhu You immediately sent a complete report, "This is the latest intelligence collected by the Flame Wind

Pavilion, very detailed."

Luo Feng immediately checked the detailed report; before this, he had not known about 'Great General Yong Hu' being in the city, and in more than two decades, he had never once found Divine Monarch Xue Yun.

Chapter 60: Chapter 57 Shang Tianyan's Decision

Inside the Flying Boat.

Luo Feng watched the entire intelligence report in detail. The report contained a rather detailed introduction about 'Great General Yong Hu' and even covered the entire process of the Shi Kingdom's forces' attack! As a Guardian of a forbidden land, Luo Feng knew less than what was in this report.

"General Yong from the Yu Kingdom's Capital, cultivating unlimited godly bodies, has unfathomable strength. I didn't expect that even with the help of the grand formation in Huyang City, he was unable to kill Xue Yun," Luo Feng marveled internally.

After this battle, Divine Monarch Xue Yun's fame greatly increased.

Whether it was the Yu Kingdom or the Shi Kingdom, they would both value Divine Monarch Xue Yun even more! The next time Yu Kingdom made a move, they would only send a force stronger than 'General Yong'. The Shi Kingdom would also make even more effective use of Divine Monarch Xue Yun.

That was something Divine Monarch Xue Yun did not want to see, as his tasks would only become more burdensome and the dangers greater.

"On the side of the Shi Kingdom's forces, Xue Yun, Yutian Xu, Yutian Yi, all three of them are still alive. With the Shi Kingdom's style of doing things, they won't let this rest," Luo Feng immediately steered the Flying Boat straight to where General Yong and Xue Yun had clashed.

"Master, where are we going?" Morosa sensed that their course had

changed.

"To where General Yong and Xue Yun clashed," Luo Feng said, while Morosa appeared thoughtful.

A moment later.

The Flying Boat soon reached the site of the battle. Luo Feng saw that a large number of Huyang Guards had gathered and already sealed off the area, preventing other citizens inside the city from approaching this place.

"Please leave immediately." Seeing a Flying Boat approaching, the Huyang Guards immediately came over to drive it away.

Luo Feng retracted the Flying Boat, his invisible Domain protected Moyu Qingyan, and naturally, Morosa did not need his protection.

The Huyang Guard squad preparing to drive them away was startled when they saw Luo Feng.

"Lord Luo He," the Huyang Guards were all quite respectful. They knew basic intelligence about all the eternal true gods in Huyang City, so they could recognize him at a glance.

When patrolling the whole city, they did not dare provoke eternal true gods. Otherwise, an eternal true god could use a small-scale Cosmic Domain to hide and silently eliminate them, and the city owner's mansion could not identify the murderer without paying a high price.

"I'll just take a look here," Luo Feng said. The Huyang Guards did not dare to speak further and immediately withdrew.

Luo Feng looked ahead.

Within the vast area sealed off by the Huyang Guards, there were many densely populated residential zones and some family cave mansions, but now the inside was desolate! All dead, without a single survivor!

Thick resentment gathered in this area. Over eighty billion True Gods

were instantly killed, and the anger, unwillingness, despair, and hatred at the moment of their death... All kinds of intense will entangled together, forming a terrible malice.

With such resentment, the Huyang Guards only dared to seal off the outer perimeter. There would be eternal true gods to come and deal with this malice.

"This kind of thing is happening everywhere in the Land of Origin. Not just me, even a Godly King cannot change all this. This is the law of the survival of the fittest!" Luo Feng silently watched this scene.

Although there are laws, the restraining power of the laws is ultimately limited. Like when Primal Chaos Overlords devour the creatures of an entire large city, aren't they still at ease?

Even a Meiwu Qi who massacres citizens could escape the strict punishment of the laws if Luo Feng did not intervene.

"Brother Luo He," a tall figure flew over from afar.

Luo Feng turned to look, and the person approaching was Shang Tianyan. Usually full of enthusiasm, Shang Tianyan now had a trace of sorrow.

"You're here too," Luo Feng said to him.

"I'm here to bid farewell to my disciples," Shang Tianyan looked at the area where resentment soared to the sky, sighing, "Tonight, 8,039 of my Heavenly Flame Sect disciples died. They were living in this area."

Luo Feng was taken aback. After all, the Heavenly Flame Sect, established by Shang Tianyan over the long years, had numerous disciples, and it was normal to have over eight thousand in this area.

He had also lived in the Heavenly Flame Sect for a period of time, and maybe among these 8,039 disciples were some who had seen him from a distance.

"Most of these disciples were quite mediocre, but they were still very hard-working, trying to seize every opportunity," Shang Tianyan

lamented, "In my Heavenly Flame Sect, as long as someone can pass the strict tests, anyone has the chance to become my Direct Disciple."

"Among these 8,039 disciples, there was one who was my Direct Disciple, named Meng Shi. Meng Shi lost his parents when he was just a child. He joined the Heavenly Flame Sect when he grew up, working extremely hard.

He learned every aspect of Artifact Refining diligently and finally became my Direct Disciple after passing the strict tests," Shang Tianyan recounted, "Who would have thought that tonight, he would be caught in the crossfire and die."

Luo Feng silently looked at the vast area now only filled with malice.

"I received intelligence that Shi Kingdom's leaders this time, Xue Yun, Yutian Xu, and Yutian Yi, are all still alive?" Shang Tianyan looked at Luo Feng, "The report states that Brother Luo He, you also took action this time?"

"I clashed with Yutian Yi; he is quite powerful. Yutian Xu will be even stronger!" Luo Feng said, "Especially Xue Yun, he's much stronger than what the previous reports stated."

"And he's much crazier than before!" Shang Tianyan looked at the area ahead, "In the past, he was very restrained and never carried out such indiscriminate slaughtering. But this time, it affected over eighty billion! And all three of them are still alive; I'm afraid there will be other actions!"

"The struggle between the Shi Kingdom and the Yu Kingdom will continue for a long time," Luo Feng said.

"Yes, it will continue indefinitely. This is my homeland, I really don't want to see it destroyed by the conflicts between the two countries," Shang Tianyan looked at the area.

Luo Feng and Shang Tianyan stood shoulder to shoulder, looking at the vast expanse.

After a long while, they parted and went their separate ways.

Not only Luo Feng and Shang Tianyan came here, but eternal true gods from all sides of Huyang City were shocked by this conflict! After all, while conflicts had always existed over the long term, they had never been so intense.

The appearance of General Yong and the strength and madness of Divine Monarch Xue Yun both made the various forces within the city tremble.

******

The Heavenly Flame Sect.

Shang Tianyan had returned, and he summoned an old servant.

"Sect Leader," a metallic life-form greeted with respect.

"Uncle Qiu," Shang Tianyan smiled at him, "I need your help with something."

"Sect Leader, you always insist on being so courteous," Uncle Qiu grinned broadly, his golden face beaming with a smile.

Shang Tianyan looked at Uncle Qiu.

When he first returned alone to his hometown of Huyang City, he scoured the entire city, only to find his former family servant, Uncle Qiu. Later on, when he established the Heavenly Flame Sect, Uncle Qiu became the one he trusted the most, handling all sorts of big and small matters for the sect.

"This secret letter I've given you, once my cause and effect dissipates, you must immediately pass it on to the five individuals listed," Shang Tianyan said.

"Cause and effect dissipates?" The metallic life-form Uncle Qiu paused and looked at Shang Tianyan, "Sect Leader, you've always enjoyed teaching those disciples, always enjoyed making friends, this world is still wonderful and interesting, don't give up..."

"I'm not seeking death, I'm just preparing to do something quite dangerous," Shang Tianyan said.

"Dangerous? Sect Leader, must you do it?" Uncle Qiu looked at him.

"This matter is very meaningful," Shang Tianyan said with a brilliant smile, "After I returned to Huyang City, I hoped that every day henceforth would be meaningful. This matter, I must do it."

Having said that, Shang Tianyan turned and left.

"Sect Leader." Uncle Qiu watched the departing figure of Shang Tianyan, tears streaming down.

...

Dream Flower Tower.

Shang Tianyan had come here.

"Tianyan, why have you come?" Dream Flower Tower Master came to see him with a smile. As one of the two eternal true gods who were most infatuated with her in the entire city, the Dream Flower Tower Master still cared a lot about Shang Tianyan.

"Just wanted to see you," Shang Tianyan looked at the Dream Flower Tower Master.

The godly body of the Dream Flower Tower Master contained the Source of Law that she had comprehended. In her presence, one could naturally see the figure that most desired to be seen in their heart.

In Shang Tianyan's eyes, the Dream Flower Tower Master had already taken on the appearance of his wife, with the breath and smile of his wife.

"Just staring at me like this?" Dream Flower Tower Master laughed, "Shall I join you for a few drinks?"

"Sure," Shang Tianyan nodded with a smile.

"Do you know what happened tonight? That Divine Monarch Xue Yun slaughtered over eight billion creatures within Huyang City," Dream Flower Tower Master said in surprise, "It's really terrifying. The days

to come in Huyang City will probably not be peaceful."

"It is terrifying," Shang Tianyan raised his glass, "Let's drink."

So they chatted intermittently, drinking wine.

Time passed without knowing how long, and Shang Tianyan bid his farewell and left.

The Dream Flower Tower Master personally saw him off.

"Strange."

Dream Flower Tower Master watched as Shang Tianyan disappeared into the night sky, slightly puzzled, "Shang Tianyan today, his words are different from usual." Then she thought no more of it and returned to her Dream Flower Tower.

...

Flying in the night sky.

Shang Tianyan looked at the bustling city, a place filled with many beautiful memories for him.

"All the treasures and Cosmic Sand I have in the Dark Hall, if I should die, please pass them to Lord Luo He," Shang Tianyan said upon seeing a distant ordinary cave mansion, immediately contacting the Flame Wind Association's Dark Hall.

Long ago, he had placed all his precious treasures and Cosmic Sand in the Flame Wind Association's Dark Hall.

Whoosh.

Shang Tianyan flew to the front of that cave mansion.

"Open the door," Shang Tianyan urged.

The door to the cave mansion opened, and Shang Tianyan flew in.

In the ordinary cave mansion, in front of a pavilion, Sang Shuiyun was sitting there, despondently drinking alone.

"You've come," Sang Shuiyun looked at him.

In the entire Huyang City, only Shang Tianyan could easily enter Sang Shuiyun's mansion.

"Hmm," Shang Tianyan also sat down next to him.

"Join me in a drink," Sang Shuiyun tossed a wine flask over.

Shang Tianyan caught the wine flask and looked at it, "Brother Sang, back then you and I were both alone in Huyang City. Seeing you, I feel as if I'm looking at my own shadow. You, like me, are infatuated with the Dream Flower Tower Master. You, like me, are unattached to anything..."

"No, you have attachments. You established the Heavenly Flame Sect and trained a large number of Artifact Refining Disciples," Sang Shuiyun said.

"I always thought you were just like me," Shang Tianyan looked at Sang Shuiyun.

"We are indeed the same; you are also my only friend in Huyang City," Sang Shuiyun looked at him, "Even considered my only friend in this world."

"Actually, you and I are different," Shang Tianyan said softly, "I gradually realized that you are indifferent to everything. You wouldn't care even if the world was destroyed. Even if it came to me, if you wanted to kill, you would not hesitate."

Sang Shuiyun frowned as he looked at him, "Brother Shang, what are you talking about?"

"In the entire Huyang City, the only one you can't fool is me," Shang Tianyan looked at Sang Shuiyun, "I really didn't want to expose you if you hadn't started to go mad."

Sang Shuiyun fell silent as he looked at him, his eyes growing cold.

"Divine Monarch Xue Yun, I'm not mistaken, am I?" Shang Tianyan looked at him.

Chapter 61: Chapter 58 Shang Tianyan's Arrangements

Sang Shuiyun watched him, yet a series of powers escaped into the depths of the earth, swiftly leaving the cave mansion.

"Brother Shang, I never expected you to think of me this way." Sang Shuiyun's voice was deep, "I do have some secrets, and you have secrets too! I thought... that we understood each other, that neither of us would probe into the other's secrets. I never imagined you'd be investigating me, even suspecting that I might be Divine Monarch Xue Yun.

Do you really think a lonely cultivator like me could possess such strength?"

Shang Tianyan looked at him, "Are you still denying it at this time?"

"You really have it wrong." Sang Shuiyun looked at him.

"If I'm wrong, then why has your True Body already fled?" Shang Tianyan looked at him.

Sang Shuiyun was silent.

"Brother Shang, it seems you are stronger than I expected, able to detect my escape technique." Sang Shuiyun exclaimed with a sigh. His escape technique incorporated three Primal Chaos Realm moves and was silent; an ordinary eternal true god would never detect it.

"I'm not particularly good at anything, I just know a bit about Artifact Refining." Shang Tianyan said, "But upon returning to Huyang City, I have no inclination to compete. It's only the outside world that says my Artifact Refining is among the top within Huyang City."

"Top tier without competing?" Sang Shuiyun looked at him, "I've known all along you and I are the same."

"You and I are not the same." Shang Tianyan looked at him, "Both of us are very lonely in this world, with few attachments. But I am grateful for the experiences of this life, I watch the wonders of the world, the cultivators each with their own pursuits, their own loves... just like you and I used to be, full of fighting spirit and desire."

"The world is wonderful, so why must you destroy it all?" Shang Tianyan looked at him, "By destroying everything, what is it for?"

"As long as I can become stronger, it's worth the sacrifice of anything!" Sang Shuiyun's eyes were cold and fierce, "Even if countless creatures perish, so what? I, Sang Shuiyun, will surely become the Primal Chaos Overlord, and in the future even ascend to Godly King!"

"What's the point of becoming a Godly King?" Shang Tianyan looked at him, "Even after becoming a Godly King, there are still ancient forces like Flame Wind Ancient Country, Thunder Ancient Country that are far beyond you. In the vast Land of Origin, there will always be those stronger than you."

Sang Shuiyun said coldly, "In this world, I am alone; now I only wish to cultivate and grow even stronger!"

"To become stronger for the sake of becoming stronger?" Shang Tianyan shook his head, "You truly are different from me."

"Of course we're different!" Sang Shuiyun said, "You are but a tiny, unnoticeable wave in the Land of Origin, while I... will be like the vast heavens and earth, dominating all things! The countless creatures of the Land of Origin will be influenced by me; my will shall determine the life and death of countless beings."

Shang Tianyan looked at him, "Then are you happy?"

Sang Shuiyun was startled.

"No matter how powerful you are, no matter how many creatures' lives and deaths you decide, ask yourself, if you're still lonely and in

pain, then this path you're treading is one of suffering." Shang Tianyan looked at Sang Shuiyun, "Our paths have crossed in life, and I only hope that you can walk a path that brings relief and joy to your heart, a path where you can face earnestly the one you once cherished."

"Regardless of the changes in the external world, the true feelings in your heart are what matter." Shang Tianyan looked at Sang Shuiyun.

"Hahaha, you actually try to change me?" Sang Shuiyun looked at Shang Tianyan, "We've known each other for too long, I see through your thoughts at a glance."

"Yes, I am trying to change you, I know, I can't stop you. Even the Yu Kingdom might not be able to kill you. A cultivator as sinful as you is truly likely to become the Primal Chaos Overlord and even ascend to Godly King. I only hope that a peerless strong person in the future... faces this world with benevolence, not malice." Shang Tianyan looked at Sang Shuiyun.

"Hahaha..." Sang Shuiyun's eyes were filled with madness, "You have your path, I have mine! What is good and evil? My will is the will of the heavens and the earth, the will of all creatures!"

Shang Tianyan gently shook his head.

"Since you have come, you must have left yourself a way out." Sang Shuiyun looked at him, "What's your backup plan? Currently, no one in Huyang City can kill me, not even General Yong, as he's worried about affecting countless creatures. So your backup plan, did it rely on external powers?"

"Very smart." Shang Tianyan said.

"What backup plan did you arrange?" Sang Shuiyun stared at him, "Tell me, and I might spare your life."

"You guess." Shang Tianyan smiled, "My backup plan, I can't say for sure that it will kill you, but it should have a ninety percent chance."

"What exactly is the backup plan?" Sang Shuiyun's eyes were filled with madness.

"Let's test your strength! The strength of Divine Monarch Xue Yun!" Shang Tianyan suddenly threw a punch.

He was barehanded, and just one punch carried a might that made the heavens and earth tremble! Sang Shuiyun stood still, letting the punch pierce through his chest; his entire body flowed like the Blood Wave.

An invisible Domain enveloped the entire cave mansion, and Sang Shuiyun, who was transformed into the Blood Wave, stared at Shang Tianyan, "Refining your own godly body as if it's a Mechanical Stream Secret Treasure? Brother Shang, your Artifact Refining Skills truly far surpass those in the entirety of Huyang City.

You shouldn't have to die like this, so tell me, what backup plan do you really have?"

Knowing the backup plan would help him deal with it better.

He knew Shang Tianyan very well! Shang Tianyan seemed to make numerous friends with passion, treating countless disciples of his sect kindly, but when it came to scheming, he was certainly not inferior to him, Sang Shuiyun.

The two of them, they understood each other very well!

"Do you think I would tell you?" Shang Tianyan shook his head.

"Then I have no choice but to personally send you on your way!" Sang Shuiyun's body transformed into the Blood Wave, completely enveloping Shang Tianyan.

Shang Tianyan, enveloped by the Blood Wave, turned his head to look at this world, "The world is so marvelous, yet you want to wreak mindless slaughter and destruction, all for a mere glimmer of hope for breakthrough..."

Whoosh!

The Blood Wave eroded, and Shang Tianyan's body quickly melted away, the True God's Heart annihilated.

Sang Shuiyun stood silently in place, Shang Tianyan was dead; the only friend he had in this world was killed by his own hands.

"Those who block my path should die." Sang Shuiyun was expressionless, he looked all around, "It appears there are no ambushes after all, it seems you didn't place your hopes on the strong within Huyang City. Was it to borrow outside forces to kill me?"

This force of the Blood Wave also quietly escaped underground.

This place, after such a battle, was no longer suitable for inhabitation.

```

...

In an ordinary residence.

Metallic life form Uncle Qiu stared into the night sky, anxiously waiting when suddenly, the cause-and-effect within his Karmic Messenger Order dissipated for Sect Leader 'Shang Tianyan'.

"Sect Leader," Uncle Qiu's heart trembled, knowing that the Sect Leader had ultimately died.

Without hesitation, following the Sect Leader's previous arrangements, Uncle Qiu immediately dispatched the secret letter to five targets.

Indeed, Shang Tianyan was not absolutely certain that Sang Shuiyun was Xue Yun; confirmation was needed! He worried that he might not have the chance to pass on the message before he died while confirming it. Therefore, he had Uncle Qiu help spread the secret letter too.

In reality, Shang Tianyan had also used the Karmic Messenger Order to pass on a more definitive message.

...

At the city owner's mansion, Moli Meng was handling the aftermath.
```

After all, Divine Monarch Xue Yun had slaughtered over eighty billion creatures, which would greatly impact the entire Huyang City. One wrong move could potentially cause widespread panic.

"Hmm?" Moli Meng first received Shang Tianyan's message, followed by the secret letter from Uncle Qiu.

"The true identity of Divine Monarch Xue Yun is 'Sang Shuiyun'?" Moli Meng's face lit up with delight, "This Sang Shuiyun has lived in Huyang City for too long. I have encountered him many times at the Dream Flower Tower. Wherever he went, he must have left traces, and the more traces there are, the more we might try to deduce the secrets of heaven and trace his footsteps… Hmm?"

Moli Meng finished reading Shang Tianyan's complete secret letter.

"What a masterful move by Shang Tianyan; he actually had a Karmic Tracing Order, and within it was contained the cause-and-effect of Sang Shuiyun? With this Karmic Tracing Order, we can trace the whereabouts of Sang Shuiyun?" Moli Meng was overjoyed, "This just got easier. With the ability to track his location, the Marquis can meticulously plan and eradicate him in one fell swoop."

Even if his power rivaled that of General Yong!

But as long as the location was confirmed, and with adequate preparations, it was entirely possible to mobilize sufficiently powerful forces to annihilate him in one stroke.

"Shang Tianyan, you truly have made a great contribution," Moli Meng was excited when suddenly, he noticed the cause-and-effect of Shang Tianyan in the Karmic Messenger Order had dissipated.

"He died?" Moli Meng's heart quivered.

"His Karmic Tracing Order is stored in the Flame Wind Association's Dark Hall, and only my father Moli Xiao can go and retrieve it?" Moli Meng didn't dare to hesitate and immediately went to report this intelligence.

This was the intelligence Shang Tianyan left behind with his life.

In fact, Sang Shuiyun was very cautious. Even though he and Shang Tianyan were close friends, he never left behind anything like blood that could allow Shang Tianyan to lock onto his cause-and-effect.

However, Sang Shuiyun didn't understand the methods of an Artifact Refining Master. Their long-lasting interaction naturally created cause-and-effect entanglement! Utilizing their mutual cause-and-effect, Shang Tianyan was able to imprint it onto the 'Karmic Tracing Order' and thus, trace Sang Shuiyun's location.

In Shang Tianyan's eyes, as long as Divine Monarch Xue Yun caused disaster, Yu Kingdom might tolerate it once, but not twice or thrice.

Once Yu Kingdom decided to kill a Divine Monarch Xue Yun, and with the Karmic Tracing Order to confirm the location, the chances of success were greatly increased.

But Shang Tianyan also understood there were too many uncertainties in the future; he could only do his utmost.

...

The Dream Flower Tower Master was playing a tune alone in a pavilion when suddenly, she received a message.

"Hmm?" The Dream Flower Tower Master checked the message.

"The true identity of the Shi Kingdom's Forces leader 'Divine Monarch Xue Yun' is Sang Shuiyun! At this moment, the top few powers within Huyang City are all aware of this news! But don't worry, the city owner's mansion owes me a lot, and I have asked them to take care of you. Also, the top powers within the city have quite a relationship with me, so I believe they won't trouble you.

Should you truly face great danger in the future, other powers may be unreliable, but Lord Luo He can help you."

"I know his temperament, and in my regard, he will help you once. But you must not trouble him too much, as he dislikes being bothered! Once he feels aversion towards you, he will no longer care about your life or death."

"No need to worry about Sang Shuiyun; he won't come to Dream Flower Tower again."

"Dream Flower, your Illusion Technique is really mediocre; among those who are skilled in Illusion Techniques, you are at the bottom tier. You must cultivate diligently in the future. In this world, in the end, you have to rely on yourself."

This secret letter left the Dream Flower Tower Master dumbfounded.

Shang Tianyan and Sang Shuiyun, the two eternal true gods who were enamored with her.

"Tianyan is dead?" The Dream Flower Tower Master discovered the cause-and-effect of Shang Tianyan had dissipated within the Karmic Messenger Order. She stood there, stupefied, feeling her mind thundering with too many thoughts to remain calm.

...

Inside the cave mansion, at the peak of a high mountain.

Luo Feng sat cross-legged, quietly cultivating.

He didn't use the Karmic Messenger Order and thus did not receive its messages, but he did receive the news from the Flame Wind Association's Dark Hall.

"Lord Luo He, Shang Tianyan is confirmed dead. In accordance with his last wishes, the over three million Cosmic Sand and all treasures including a secret letter he left in our Flame Wind Association's Dark Hall, are to be handed over to you. Please come personally to retrieve them from the Flame Wind Association's Dark Hall."

This message left Luo Feng stunned.

Shang Tianyan, confirmed dead?

—

Thanks to the new sponsor: Cat Ben.

```
```

Chapter 62: Chapter 59 My Only Friend

"Brother Shang is dead?" Luo Feng murmured softly.

Luo Feng had witnessed too much life and death on his journey. Back on Earth, he had seen many heroes give their lives for the planet. Later, he also watched as numerous figures, including the Founder of the Giant Axe, perished one after another during the rise of the human race in the Primordial Cosmos.

Having experienced so much, Luo Feng's spirit had long since become incredibly resilient.

"How did Shang Tianyan die?" Luo Feng transmitted to the Flame Wind Association's Dark Hall.

"This piece of information is worth one Cosmic Sand." The Flame Wind Association's Dark Hall responded, because the information was rapidly spreading and the price they were selling it for was relatively low.

"I'll buy this piece of information." Luo Feng replied.

"Tonight, Shang Tianyan went to observe the battleground where General Yong and Divine Monarch Xue Yun fought. Afterwards, he returned to the Heavenly Flame Sect to arrange some affairs, and then he went to meet the Dream Flower Tower Master. Following that, he went alone to see Sang Shuiyun! And at Sang Shuiyun's residence, a battle broke out.

During the fight, he sent out a message using the Karmic Messenger Order, confirming that Sang Shuiyun was Divine Monarch Xue Yun! The battle lasted only a moment; Shang Tianyan died, and Sang Shuiyun fled and disappeared." Information came through from the

Flame Wind Association's Dark Hall.

Luo Feng understood.

"Brother Shang, you didn't tell me about this because you were worried about involving me?" Luo Feng murmured to himself, "That Divine Monarch Xue Yun couldn't have threatened me, I could have killed him!"

It had been more than twenty eras since he arrived in the Land of Origin.

Shang Tianyan was his only friend!

Although he knew many Eternal True Gods, they were nothing more than acquaintances. The only one he respected and acknowledged as a true friend… was Shang Tianyan.

He remembered the first time they met; he was a nobody in the Dream Flower Tower without any reputation. The more famous Eternal True Gods couldn't be bothered with him, but only Shang Tianyan took the initiative to befriend him enthusiastically.

He didn't care about his strength, he was just enthusiastic to befriend him. During their first meeting, he presented Luo Feng with information about Huyang City, warning him of its dangers.

Over the long span of more than twenty eras, it was always him asking Shang Tianyan for help! Asking him for guidance on the mysteries of body refinement.

The only time Shang Tianyan urgently made a request was when he hoped Luo Feng could save his friend's children.

"You never asked me for help for your own sake." Luo Feng looked into the distance, his gaze catching the attention of Morosa, who immediately sensed something was amiss.

"Come with me." Luo Feng ordered.

"Yes." Morosa, perceiving the unusual look in his master's eyes, understood that in all their time on the Land of Origin, his master

had never shown such an expression before.

Whoosh.

Steering the Flying Boat, Luo Feng took Morosa and headed straight to the Flame Wind Association's Dark Hall.

...

Inside the city owner's mansion.

Moli Xiao, the Lord of Huyang City, and an elderly man with white hair were gathered together.

As the highest commander of the Huyang Legion, Moli Xiao had the ability to traverse the Void directly, and had already made a trip to the Flame Wind Pavilion to collect the Karmic Tracing Order.

"This is the Karmic Tracing Order left by Shang Tianyan." Moli Xiao said, holding a token, "With this, one can pinpoint the location of Divine Monarch Xue Yun."

"Shang Tianyan has made a great contribution." The Lord of Huyang City said.

"It's a pity he's already dead." the elderly man shook his head.

Moli Xiao spoke calmly, "Now, we just wait for the arrangement from the Marquis."

"Divine Monarch Xue Yun's strength is too great; without leveraging the grand array of Huyang City, even General Yong could not do anything to him." The Lord of Huyang City said somberly, "With such power, killing Divine Monarch Xue Yun is extremely difficult."

"Indeed," nodded the elderly man, "in all of Jiu Jiang Primal Chaos Prefecture, none under the Marquis can match General Yong."

"The most terrifying of the Eternal True Gods of Yu Kingdom almost all follow the five Godly Kings." Moli Xiao stated, "Without a special reason, who would come to a place like Huyang City?"

The resources that a Godly King can provide naturally far exceed those from a Primal Chaos Overlord.

Thus, under the banners of the five God Kings, they attract a sufficiently vast number of powerful beings! Those of General Yong's caliber naturally prefer to follow a Godly King.

"Yes, if the Marquis needs to mobilize forces, he probably needs to borrow experts from other places," the Lord of Huyang City agreed, "It's not something that can be resolved quickly."

The conflicts between the two big Divine Kingdoms are also tacitly understood.

In a normal conflict, no matter how many Eternal True Gods die, it's blamed on insufficient strength, and this is considered a lower intensity conflict.

If one day a Primal Chaos Overlord were to take to the field, the intensity of the war would escalate terribly, and a single ripple of aftermath could mean countless lives lost. The Eternal True Gods dare not get involved; whichever Primal Chaos Overlord wins, will naturally claim victory.

As for the Godly Kings, their intervention is highly unlikely.

Should they act, the impact would be profound! Even the major Divine Kingdoms of the Land of Origin would pay attention, and could possibly intervene.

God Kings do not enter the fray when they are not certain of victory.

These ancient beings also vie for cultivation resources, and without confidence, they will not fight to the death.

Like when the Shi Kingdom annihilated the Jin State, once they made a move, they didn't give the God King Jin any chance to resist! They completely eradicated all the strong in the royal capital of Jin State, with only God King Jin escaping in disgrace into the Universe Ocean.

"The Marquis has sent an order," the white-haired elder's eyes lit up. As the leader of the Jiang Clan in Huyang City, he naturally received

the command.

"What is it?" asked the Lord of Huyang City, Moli Xiao.

"The Marquis has only one order, to increase the bounties for Divine Monarch Xue Yun, Yutian Xu, and Yutian Yi," the white-haired elder said.

The Lord of Huyang City nodded in understanding, "It seems we're pinning our hopes on the bounty to attract some fearsome powerhouses to make a move."

"Mobilizing forces also takes time, and if a powerhouse takes up the bounty and kills Divine Monarch Xue Yun and the others, that would also be good," Moli Xiao said. "I've heard that the two ancient countries and some of the mysterious major forces from the Land of Origin also have elite followers roaming around. If they discover a high bounty, they might come to Huyang City."

"How much is the bounty?" the Lord of Huyang City asked further.

"The Marquis instructed that the bounty for Divine Monarch Xue Yun be raised to 10 million Cosmic Sand! Yutian Xu's bounty is increased to 2 million, and Yutian Yi's to 1 million," the white-haired elder stated.

Moli Xiao and the Lord of Huyang City were taken aback.

True to the Marquis' style! His actions are indeed generous!

The Marquis has the entire Jiu Jiang Primal Chaos Prefecture as his fief, with three large cities and one hundred eighty-nine ordinary cities. The residents all have to pay a 'Residence Fee.' While each resident pays very little, the accumulated amount is enormous. After deducting the operation costs for the cities and part of what is handed over to the God Kings and the Marquis of Jiu Jiang,

Just one era is enough for the entire Jiu Jiang Primal Chaos Prefecture to amass a considerable fortune.

About ten million Cosmic Sand? Indeed, it's a trivial amount for the Marquis of Jiu Jiang.

He would rather spend some Cosmic Sand on a bounty than trouble a God King over such a trivial matter.

"In my Yu Kingdom alone, there are more than ten individuals who openly possess strength comparable to General Yong, and three to four others even more dazzling," the white-haired elder said. "Not to mention the elites nurtured by some major forces in the Land of Origin. With millions of Cosmic Sand... I believe that within one era, we will surely attract powerhouses strong enough!"

...

Luo Feng steered the Flying Boat towards the Flame Wind Association's Dark Hall.

"Brother Luo He," the Vice President of the Flame Wind Guild personally received him, "These are all the items left by Shang Tianyan for you."

With that, he handed over a Jade Vial.

Luo Feng took it and saw inside over three million Cosmic Sand, a large amount of materials, Weapon Secret Treasures, and most conspicuously, a letter.

"Brother Luo He, by the time you read this letter, I should already be dead. You need not grieve for me; in fact, when I returned to my hometown of Huyang City alone, I had no intention to survive. Later, it was the young ones in the city who moved me. I thought to myself, pretend I'm already dead! Spend the rest of my days doing something meaningful, making each day count a little more."

"I've left all the resources I've accumulated in my lifetime for you. I ask nothing in return because you detest evil and are willing to help the weak, which is all I could hope for."

"Having known so many friends since returning to Huyang City so long ago, the one I admire the most is you, Brother Luo He."

"The path of cultivation is arduous, so you must take good care of yourself. If you face a great enemy, bowing your head and being cautious isn't a disgrace—the key is to survive because survival gives

you the opportunity to kill your enemies. Sometimes... surviving is harder than dying."

"My life has ended! I wish for you, Brother Luo He, my friend, to achieve your desires, and feel that every day henceforth is well spent."

The letter was filled with an old friend's ramblings, but Luo Feng's heart ached even more.

"Brother Shang, you were the only friend I made since coming to the Land of Origin," Luo Feng murmured solemnly, "and the only one I truly admired. Rest assured, you exposed Divine Monarch Xue Yun's identity with your life. I promise you... he will surely die! He won't escape!"

Luo Feng turned and left.

The Vice President of the Flame Wind Guild watched the scene: "This Lord Luo He had an unusual relationship with Shang Tianyan, but Divine Monarch Xue Yun is not to be trifled with either."

"Huh."

After leaving the Flame Wind Pavilion, Luo Feng, accompanied by Morosa who was waiting outside, immediately steered the Flying Boat away.

"Master," Morosa addressed Luo Feng.

Luo Feng, looking at the vast Huyang City enshrouded in the night, said, "I remember you being able to track any life form you have sensed before. We have met Sang Shuiyun not just once! Can you find him?"

Morosa communicated telepathically, "Don't worry, Master. As long as he is not a Perfect Divine Body, which can completely isolate his aura, I will definitely be able to lock on to his presence once we're near."

"Let's start by searching the entire Huyang City then!" Luo Feng said. "I'll steer the Flying Boat while you carefully sense and track."

"Yes," Morosa responded.

Luo Feng promptly steered the Flying Boat, flying swiftly over areas of Huyang City, with Morosa carefully sensing each region.

Chapter 63: Chapter 60: Just you alone?

While Luo Feng quietly searched the entire city, various powers in Huyang City were shaken. Whether they were local families, Dark Forces, major power branches, or reclusive and idle eternal true gods, they were all somewhat shocked when they received the news.

"General Yong Hu, from the Yu Kingdom's Capital, personally took action against Divine Monarch Xue Yun and was unable to subdue him. Xue Yun affected eight billion creatures and escaped?"

"Sect Leader Shang Tianyan of the Heavenly Flame Sect sacrificed himself to reveal the true identity of Divine Monarch Xue Yun as none other than Sang Shuiyun?"

"The bounty on Divine Monarch Xue Yun has reached 10 million Cosmic Sand, Yutian Xu's bounty has reached 2 million Cosmic Sand, and Yutian Yi's bounty has reached 1 million Cosmic Sand?"

Each of these three pieces of news was explosive.

Huyang City hadn't been this stirred up in a very long time!

A figure like General Yong, when looking at the entirety of the Yu Kingdom's eternal true gods, was considered prominent! Yet Divine Monarch Xue Yun could match him? Two such powerful existences converged in the small city of Huyang in a short period of time?

"A bounty as high as 10 million Cosmic Sand! This already proves the strength of Divine Monarch Xue Yun." All sides exclaimed in amazement, their eyes filled with greed but not one dared to entertain the notion of claiming this bounty.

...

The Heavenly Flame Sect.

Countless disciples were summoned and gathered in the open square.

"Among you, those who are well-informed must already know, the Sect Leader is dead," said Uncle Qiu, the metal life form, looking at the multitude of disciples. "According to the arrangements made by the Sect Leader before his death, the Heavenly Flame Sect is officially disbanded. At the latest, you must leave the sect by tomorrow daytime."

Whoosh—

The multitude of disciples was in an uproar.

"Master."

"Sect Leader."

Many disciples immediately broke into tears.

The Sect Leader provided opportunities to many weaker true gods, allowing them to join the Heavenly Flame Sect as long as they passed the test. In the Sect, regardless of their status, they had to go through rigorous learning, training, and selection processes. Only those who passed all the tests could become Direct Disciples.

Even so, the Sect Leader held over three hundred Direct Disciples under his command! This was extremely rare among the eternal true gods.

The Sect Leader never held back and would impart all his knowledge to those who were able to learn.

"Master!" Some disciples were overwhelmed with emotion and could not accept all this. In this world, many of them were struggling to survive. Later, after joining the Heavenly Flame Sect, the master did not discriminate against them and treated everyone equally, giving them the opportunity to learn Artifact Refining Skills, thus completely changing their destinies.

For many disciples, the master was the kindest person in the world

toward them.

"How did the master die?"

"Who killed the master?"

"Vengeance, we must have vengeance."

Many disciples were agitated.

Uncle Qiu, the metal life form, said to the many disciples, "The Sect Leader exposed the identity of Divine Monarch Xue Yun at the cost of his life and was killed by Xue Yun. As of now, not even the city owner's mansion can do anything about Divine Monarch Xue Yun, with his bounty amounting to 10 million Cosmic Sand."

All the disciples fell silent.

10 million Cosmic Sand?

Residing within Huyang City, a true god only needs to pay a Primal Chaos Crystal per epoch. Many true gods only earn enough for the Residence Fee and no longer venture out, generally accumulating just two or three Primal Chaos Crystals.

Even true gods of void space, generally only have a few tens of thousands of Primal Chaos Crystals saved up. Even for lofty eternal true gods, besides the resources used for their Cultivation, their personal treasures are generally also only worth around ten to twenty thousand Cosmic Sand.

A precious Mechanical Flow Treasure is worth around one million Cosmic Sand, enough to create a terrifying existence like the Blood Python Association Leader.

Just the bounty alone amounts to a whopping 10 million Cosmic Sand! This demonstrates the deterrent power of Divine Monarch Xue Yun! Such a huge fortune, if offered to some eternal true gods, would be too dangerous to accept, as it would bring great disaster upon them!

"Alright, hurry up and pack up, and leave as soon as possible," Uncle

Qiu turned and left.

The multitude of disciples remained silent.

Sorrow, unwillingness, helplessness! Many of them were very grateful to the Sect Leader. If they could avenge him, they would be willing to risk their lives. But... the enemy was too terrifying and strong, making these disciples despair.

"Master is dead." Moyu Liuxing's eyes were filled with tears. During the time he spent in the Heavenly Flame Sect, he truly admired and revered his master, Shang Tianyan.

Mo Youshang, who was beside him, was in immense pain, having followed the master for even longer.

"I have no master, I have no master," Mo Youshang murmured softly.

A mournful atmosphere enveloped the entire square, where countless disciples lingered for a long time without leaving.

******

Luo Feng piloted the Flying Boat, flying at high speed in the night sky over Huyang City, while Morosa carefully sensed the surrounding space. The Sector Beast is a very special life form; on one hand, it is a Perfect Life Form, and on the other, it naturally contains the Great Dao of Destruction Origin, with a life level comparable to the Primordial Cosmos.

Inside the body of the Sector Beast, it is possible to nurture a large number of warriors with various unimaginable capabilities, these are natural talents it possess.

It was only because of Luo Feng's requirements that Morosa transformed all its power into Divine Power and never used the Sector Beast's methods outside the Star Tower.

"Presence..."

Morosa's tracking and detection of presence were much stronger than Luo Feng's.

At its core, Luo Feng was just one of the many eternal true gods. But Morosa was just the Power of Sector Beast pretending to be Divine Power! Morosa was extremely sensitive to all external Divine Power presences.

"Master," Morosa suddenly spoke, "to the front left, I have detected the presence of Yutian Yi and her subordinates. The last time Yutian Yi brought four subordinates to attack the forbidden ground, I firmly remember their presence."

"Yutian Yi and her subordinates?" Luo Feng nodded slightly, "There's no rush, continue the full city search! Capturing Divine Monarch Xue Yun is the top priority."

Moving against Yutian Yi now might alert the enemy.

"Yes," Morosa nodded, continuing the search and tracking.

Time slowly passed.

As Luo Feng piloted the Flying Boat, he also used the Flame Wind Association's Dark Hall to gather intelligence.

"The bounty is quite high, raising it to ten million bounties indicates that Yu Kingdom won't immediately send masters over," Luo Feng understood this point; if a group of top experts were to come after him, there'd be no need to increase the bounty by so much.

Luo Feng took the bounties on Divine Monarch Xue Yun, Yutian Xu, and Yutian Yi, and from the bounty could somewhat deduce the extent of their strength.

Time passed.

"I've visited every part of Huyang City," the Flying Boat stopped, Luo Feng looked at Morosa, "Still no sign of Sang Shuiyun?"

"No," Morosa shook his head in confusion, "I've sensed many places more than once, there are no dead angles in the entire city. Unless he's constantly moving at high speed, and we just happened to miss each other. Otherwise... there's only one possibility, he's not within Huyang City."

Luo Feng frowned slightly.

Not within Huyang City? This is troublesome!

"This Sang Shuiyun is really cautious," Luo Feng muttered to himself, realizing that killing Sang Shuiyun wouldn't be easy.

This leader of the Shi Kingdom's forces who had always kept a low profile hidden within Huyang City had concealed most of his strength over the long years! His identity had always been a mystery until Shang Tianyan made a move and revealed his real identity.

Upon exposure, did he actually flee outside Huyang City immediately?

"Let's deal with Yutian Yi first," Luo Feng said, "Starting with her might lead us to Sang Shuiyun."

"The three of them have an unusual relationship; they are the core powerhouses of the Shi Kingdom's forces and should have a way to contact each other," Morosa nodded in agreement.

Whoosh!

The Flying Boat traced an arc in the sky, racing towards the place where Yutian Yi's presence had previously been detected.

...

Inside a very ordinary cave mansion, Yutian Xu, Yutian Yi, along with three eternal true gods were gathered.

"Who would have thought that Divine Monarch Xue Yun's real identity is Sang Shuiyun," Yutian Yi said softly with a laugh, "Even we didn't know his identity, but this time it was exposed by Shang Tianyan."

"Marquis of Jiu Jiang is really angry, raising Xue Yun's bounty to ten million Cosmic Sand, while mine is only two million Cosmic Sand," Yutian Xu shook his head, "The difference between him and me, it's not that big. By the way, little sister, your team encountered Luo He, and even your Frost Body was destroyed by him?"

"Yes," Yutian Yi nodded, "I feel his strength is slightly stronger than mine, but with the suppression of the city's great array, I could only exert a portion of my strength, naturally, I was no match for him."

Suddenly—

Boom~~~~

The entire hall they were in crumbled to pieces.

Yutian Xu, Yutian Yi, and the three eternal true gods looked up to see a figure with six pairs of dazzling golden wings. The material around them was crumbling into primal chaos currents, and these currents were spreading everywhere, suppressing all five of them.

"It's Luo He!" Yutian Yi exclaimed in shock.

"Luo He is here? Could General Yong have arrived too?" Yutian Xu also panicked, confident as he was, he knew he could not outmatch the renowned General Yong. Especially within Huyang City, he had no confidence to confront him.

The moment Luo Feng appeared, he executed Sha Wu Wings, controlling primal chaos!

"Morosa, I'm out in the open, you stay hidden! Not one of these eternal true gods is allowed to escape!" Luo Feng sent a mental message.

"Don't worry, master," Morosa hid in the shadows.

With a single step, Luo Feng was already closing in on Yutian Xu, Yutian Yi, and the three eternal true gods.

Yutian Xu and the others were also surveying their surroundings.

"Just you?" Yutian Xu asked in confusion, still warily observing the area, afraid that Great General Yong Hu might suddenly appear!

"I alone am enough," Luo Feng's gaze swept over the five of them, "I ask you, where is Xue Yun?"

"Who gave you the courage to come here alone?" Yutian Xu scoffed coldly; throughout Huyang City, only General Yong was a concern to him. He truly didn't take other eternal true gods seriously.

Yutian Yi stood there, her whole body spreading limitless icy cold, her vast frost power began to resist the Primal Chaos Domain. In terms of domain power, Yutian Yi was equally proficient and could even be a match for the Primal Chaos Domain.

"Whoosh whoosh whoosh～～～" With a wave of Luo Feng's hand, a surging wave of blood swept in all directions.

Using Perfect Divine Power to manipulate the Mechanical Stream Secret Treasure 'Life Blood River,' Luo Feng unleashed endless waves of blood, which combined with the power of the Primal Chaos Domain, instantly overpowered the vast frost forces, completely enveloping Yutian Xu, Yutian Yi, and the three eternal true gods.

"What is this?" Yutian Xu and Yutian Yi were greatly alarmed.

This boundless wave of blood, though not as profound as Divine Monarch Xue Yun's technique, was of comparable power.

The Primal Chaos Domain and the endless wave of blood overlapped, greatly suppressing the powers of Yutian Xu and Yutian Yi.

"Huff huff huff." As for the three pitiable eternal true gods, they were immediately swept up by the wave of blood to Luo Feng's side; Luo Feng looked at them.

"Spare our lives," they had no power to resist; even the Blood Python Association Leader had been completely suppressed under Luo Feng's Primal Chaos Domain—let alone these three facing dual suppression; how could these top eternal true gods resist?

"Tell me, where is Xue Yun?" Luo Feng looked at them.

"Divine Monarch Xue Yun has always been very cautious; he only summons us when there's action. We can't find him at all otherwise," one eternal true god spoke eagerly.

"Yes, we only found out today that the Divine Monarch's real identity

is Sang Shuiyun. We knew nothing before."

"Where the Divine Monarch is now, we have no clue. He wouldn't tell us."

The three eternal true gods were clearly terrified.

Listening to them, it would be strange if the three subordinates could find Divine Monarch Xue Yun given his cautious nature.

"Then you are of no use," Luo Feng stated.

The three eternal true gods swept up in the wave of blood suddenly showed terror as the blood seeping into their bodies shattered their True God's Hearts, and then their three corpses were collected into the Star Tower.

Luo Feng then turned to Yutian Xu and Yutian Yi, "What about you, do you know where Divine Monarch Xue Yun is?"

**

Tonight at 12 o'clock, the novel will officially go VIP, and there will also be an update of one chapter.

The new book is up for sale, please give it lots of support!

Chapter 64: Chapter 61: The Whole City Trembles

As two of the formidable "Five Gods of Yutian" under the command of Marquis Liu Yin of Shi Kingdom, Yutian Xu and Yutian Yi had gone through many life-and-death battles and had extensive experience. Sensing the Primal Chaos Domain and Life Blood River's dual suppression, they knew they had encountered a formidable enemy!

"I created a Frost Body with my Mechanical Flow Secret Treasure, and the Power of Frost can rival Primal Chaos Divine Power. Combined with the Primal Chaos Realm techniques I have comprehended, that's why I possess such power," Yutian Yi transmitted, "This Luo He, with his Domain and the terrifying Blood Wave, is he also proficient in numerous Primal Chaos Realm techniques?

Is his strength a match for Divine Monarch Xue Yun?"

Divine Monarch Xue Yun was adept in utilizing numerous Primal Chaos Realm techniques, and when multiple techniques were combined, a qualitative change naturally occurred.

"We will give it our all," Yutian Xu transmitted, "We must act swiftly to break him and leave this place at once. If we delay too long, General Yong will likely rush here."

"Indeed." Yutian Yi understood this as well.

General Yong's deterrence was much more terrifying, and he could even command the grand formations of Huyang City!

"Attack!" Yutian Xu and Yutian Yi were still quite confident, their individual strength formidable enough, and even more terrifying

when they joined forces.

"Swoosh swoosh swoosh~~~" Yutian Yi's body was encased in gathering frost, releasing countless threads of frost. If each strand was magnified a thousandfold, they were in fact ropes formed by the Power of Frost, with Secret Patterns flowing on their surfaces.

Countless sharp and condensed frost ropes penetrated through the blocking Primal Chaos Domain and Blood Wave, enveloping Luo Feng from all directions.

"It seems he doesn't want to talk." Luo Feng extended his right hand and a blade appeared in it, the Godly King Level Blade Embryo "Bloodshadow Knife."

"Boom!"

Luo Feng's Divine Power within burned fiercely as he cast the Godly King Level Dharma "Duan Mie", the raging vigor around his godly body turning violent and fierce. This vigor naturally circulated according to the "Ten Directions Infinite Blade", layer upon layer of blade energy surrounding his godly body.

The countless frost ropes tried to bind Luo Feng, but once they touched the Protective Blade Energy surrounding his godly body, they were unable to bind him any longer.

"He can't be bound, they can't even touch his godly body!" Yutian Yi was shocked. She had never encountered such a powerful opponent. Even the terrifying godly body of her second brother could only withstand being entangled and fight her.

Not like Lord Luo He, whose Protective Blade Energy could not be broken by the frost threads.

"Heavenly Collapse!" Yutian Xu's Divine Power burned fiercely as he swung his long stick, splitting the earth in two with its powerful might that even astonished Luo Feng.

More than two decades ago, when he underwent his second Body Refinement, his full power burst was probably about as powerful as this!

"Indeed mighty," Luo Feng muttered to himself.

But tonight, he was not in the mood to enjoy the battle, nor to hone his Blade Technique!

"Facing such a ferocious stick technique, even Divine Monarch Xue Yun would have to win over me with the subtlety of his techniques," Yutian Xu confidently believed. Once his godly body was cultivated to such a realm, he became accustomed to brute force techniques. In terms of violent force, perhaps only those with unlimited godly bodies could compare with him!

Suddenly—

Luo Feng stood in place with six pairs of golden wings on his back, his Divine Power surging and burning fiercely, his domineering Protective Blade Energy resisting the myriad frost threads.

Faced with the terrifying strike from the long stick, Luo Feng finally drew his blade!

"What is that!!!" Yutian Xu saw it, the inconceivable terrifying Blade Light that forcibly tore through space—a very fine black crack appeared in the extremely stable space of the Land of Origin due to that blade strike.

This black crack sent shivers through Yutian Xu.

What had he seen?

A tear in space?

Could an eternal true god really do this?

Legends spoke of ancient Primal Chaos Overlords clashing and destroying the heavens and the earth, their techniques creating dark space cracks where everything they touched would be annihilated.

"Bang!"

The Blade Light struck Yutian Xu's fiercely formidable long stick, flipping it backward. In a life-and-death moment, Yutian Xu

instinctively erupted with Divine Power, the speed of his burning Divine Power accelerating instantly by more than a hundredfold.

He gripped the long stick with both hands and was pushed deep into the earth, landing in a huge crater. Fortunately, due to the repression of the Primal Chaos Domain and the Blood Wave, the force did not spread further.

When Luo Feng acted this time, he enveloped the area with the Primal Chaos Domain, confining all fluctuations so that the outside world detected nothing.

He and Morosa were more than enough! There was no need for the city owner's mansion to interfere!

"He withstood it?" Luo Feng watched Yutian Xu, who was still gripping the long stick and sinking in the pit, his Divine Power burning extremely fiercely, his aura surging.

Burning Divine Power also varied.

Certain forbidden techniques might consume a third to half of one's Divine Power Reserve in a single move.

As for Luo Feng's "Duan Mie," a technique for burning Divine Power, there were different levels of burning intensity. He was burning Divine Power rather quickly at the moment, which, for his Perfect Divine Body, was a negligible consumption.

"This…" Yutian Yi was also trembling with fear.

Whether it was the black space crack that appeared with the slash or the fact that her famously fierce and domineering second brother, 'Yutian Xu,' was actually struck into the earth, Yutian Yi felt bewildered. If her brother had not burnt his Divine Power to the limit, he might not have been able to withstand a single blow!

"Run!" Yutian Xu's face was grim as he glanced at Yutian Yi, "He is even more terrifying than Yong Hu!"

"Flee!" Yutian Yi instantly split into two figures, both Frost Bodies tearing through the Blood Wave and Primal Chaos Domain's

obstruction like blade light, quickly fleeing into the distance.

Chapter 65: Chapter 61: The Whole City Trembles_2

At this moment, Yutian Yi deeply regretted.

When she attacked the forbidden land, she was very cautious, remotely controlling a Frost Body to attack while her true body stayed hidden far away.

But once she returned to base and was with her second brother, she relaxed, and her true body was also here. After all, remotely controlling a "Frost Body" consumed a lot of Heart Force. Naturally, she needed to relax and rest after returning to base.

Who would have thought that Lord Luo He could find this base.

"Die!" Yutian Xu, burning with Divine Power, charged at Luo Feng again, hoping to disrupt him and give Yutian Yi a chance to escape.

His fierce long stick instantly stirred the Primal Chaos, jabbing at Luo Feng! The stick pierced through the Primal Chaos Domain, the rolling Blood Wave, and even pierced through Luo Feng's body's Protective Blade Energy, landing on Luo Feng's chest.

Luo Feng's skin was tough, not even breaking. He didn't even glance at Yutian Xu; his attention was on the fleeing Yutian Yi.

Whoosh! Whoosh!

Luo Feng's blade flashed out instantaneously, the Blade Light so fast that Yutian Yi saw two blades of light engulf her in despair.

"Can't block it." Yutian Yi condensed Cold Ice Blades in an attempt to defend, but the two blades of light were unleashed by Luo Feng burning Divine Power with his Bloodshadow Knife, even carrying a

trace of black space rifts.

Just by looking, one knew it was impossible to block!

One Frost Body directly shattered.

The other Frost Body fell to the ground, the outer ice shattered, revealing Yutian Yi's true body, a woman who bore some resemblance to Yutian Xu. However, there was a blade wound on her chest; her True God's Heart had already shattered.

Yutian Yi was dead!

"Whir." The rolling Blood Wave swept over, collecting the body inside the Star Tower.

Luo Feng turned his head toward Yutian Xu who'd taken the hit. To Luo Feng, it was nothing but a tickle.

At that moment, Yutian Xu could feel death creeping closer, pleadingly saying, "I can find Divine Monarch Xue Yun!"

Luo Feng's killing intent lessened upon hearing this.

"Are you sure?" Luo Feng looked at him.

Yutian Xu wanted to live!

He was not ready to die! His cultivation period was still short, nowhere near the length of old fellows like Divine Monarch Xue Yun or Moli Xiao. It was his high bloodline talent and godly body that allowed him to reach this realm. If he could comprehend a Primal Chaos Realm move, he could be on par with General Yong.

With further realm advancements, his bloodline might even transcend, reaching the Primal Chaos Realm.

His future was still full of endless possibilities.

"I'm sure, I can find Divine Monarch Xue Yun," Yutian Xu hastily said, "As long as Lord Luo He assures my safety, I will definitely help find Divine Monarch Xue Yun."

As long as he was alive, he couldn't care less about Xue Yun's fate.

"How will you find him?" Luo Feng inquired.

"Lord Luo He must first ensure my safety," Yutian Xu said as he looked at Luo Feng.

"If you can lead me to Divine Monarch Xue Yun, I can spare your life," Luo Feng declared, "Speak, how will you find him? If you're just making things up, then you can forget about living."

Yutian Xu trembled inside.

He had clashed with Divine Monarch Xue Yun before, but Xue Yun's pressure wasn't as terrifying as this.

"The Marquis ordered us three to act together; I'm supposed to rendezvous with him, he should not refuse," Yutian Xu stated.

"Try it then," Luo Feng looked at him, "During your contact, I'll be watching the whole process."

"Alright."

Yutian Xu had no choice; this was the only hope he saw for survival, so he took out a transmission token.

"Is this a Karmic Messenger Order?" Luo Feng observed.

"This is specially bestowed by the Marquis; only the Marquis can use it to locate our positions," Yutian Xu explained, "And we, the users, can't locate our companions at all."

Luo Feng nodded; he could tell this was not a standard Karmic Messenger Order, but one specially concocted by certain forces with hidden constraints.

"Xue Yun, Yutian Yi and I have been hunted by the city owner's mansion. Yutian Yi is dead... I managed to escape!" Yutian Xu reached out with the transmission token, "Where are you now? I need to meet up with you."

"Who killed Yutian Yi?" A cold voice came through.

"Luo He did it, collaborating with the city owner's mansion! I barely escaped!" Yutian Xu replied.

"You don't need to meet up with me, just head back to Shi Kingdom," the cold voice answered.

Yutian Xu was stunned, angrily saying, "The Marquis commanded us to act together."

"I'll report directly to the Marquis; I trust he'll understand my decision," the cold voice cut off the communication, Divine Monarch Xue Yun being such a force, the Marquis would not blame him but rather value him even more.

Divine Monarch Xue Yun, now exposed with his true power, although in a more perilous situation, was undeniably regarded as the strongest eternal true god under Marquis Liu Yin's command.

Yutian Xu held the transmission token, trying to contact again, but Divine Monarch Xue Yun no longer paid him any attention.

"Knowing Xue Yun's caution and cunning, how could he possibly agree to meet up with you?" Luo Feng looked at him, "Do you have another way to find him? If not, you will have to die."

Yutian Xu became anxious.

He had never thought so desperately for a solution, but he couldn't find one. Lord Luo He clearly wasn't willing to give him any time to stall.

"With Xue Yun's caution, it's not your fault for being useless," Luo Feng remarked but still advanced with his knife.

"Luo He!" Yutian Xu's aura surged fiercely, wielding dual sticks trying desperately to defend, "You are not giving me a way out!"

Boom~~~

In a terrifying clash, Yutian Xu felt a blade slash that sent his entire

body trembling and reeling. As he was sent flying backward, his godly body twisted and split apart in an instant, separating into nine flesh avatars.

Nine avatars, each identical, all burning with Divine Power, fled in terror in all directions.

Chapter 66: Chapter 61: The Whole City Trembles_3

"If I can escape, when my strength breaks through, I will make Luo He regret it deeply!" Yutian Xu's nine avatars were all terrifyingly powerful, tearing through the Primal Chaos Current and creating rolling Blood Waves.

Luo Feng stood in his original spot, but he had already drawn his blade.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

Whoosh! Whoosh! Whoosh!

The sound of nine blade lights was very faint, like nine shadows, terrifyingly fast, sweeping across the nine major avatars of Yutian Xu as they fled.

This move was the "Three Aspects Shadow Blade" from the "World Breaking Nine Blades"! It was Luo Feng's quickest Blade Technique, especially since Luo Feng's Perfect Divine Body, burning Divine Power, was inherently very fast. The speed of the Three Aspects Shadow Blade could only be imagined.

Although the power of the blade shadows was weaker, Luo Feng's presence had already reached an unimaginable level, and even weaker, it was still terrifying.

"No—"

The nine avatars of Yutian Xu, each wielding a long staff to block, were all slain and fell, except for one avatar whose might was quite strong and managed to block the blade shadow.

This was his true body!

As he blocked the blade shadow, he used the impact to fly farther away, seeking to escape from the heavily obstructed Primal Chaos Domain.

Suddenly, a huge bloody maw appeared out of nowhere amid the rolling Blood Waves, instantly enveloping Yutian Xu and swallowing him whole.

Luo Feng did not pursue; he just watched the scene.

"Master." Morosa emerged from the rolling Blood Waves, waved his hand, and some Weapon Secret Treasures fell aside, "These are all treasures carried by Yutian Xu." He left only some Cosmic Sand for consumption.

As for the other Weapon Secret Treasures, legacies, resources, he did not care for any of them.

To Morosa, as long as there was enough to eat, he could eventually grow to the pinnacle.

"Mm." Luo Feng nodded and with a wave of his hand, he dismissed the rolling Blood Waves and collected all the treasures.

After such a battle, this cave mansion had already been completely obliterated, leaving only a large pit.

"Master, what shall we do next?" Morosa asked.

"The forces of Shi Kingdom are both overt and covert; on the surface, it's Chairman Zan Yun making contact, in the shadows, it's Xue Yun," Luo Feng said, "Let's go find Chairman Zan Yun, he must know the realities."

"This Xue Yun, too cunning and cautious," Morosa said, "He even guards against his companions from Shi Kingdom's Forces."

"He trusts no one," Luo Feng replied, "Let's go."

The two of them quietly left on the Flying Boat.

The Primal Chaos Domain also withdrew, leaving only a pit behind.

...

In the night sky, just after Luo Feng left the battlefield on his Flying Boat, he received a message.

"Luo He, did you kill Yutian Xu, Yutian Yi?" the Vice President of the Flame Wind Guild contacted Luo Feng, who had just killed, and the Flame Wind Guild had already determined the life and death situation.

And Divine Monarch Xue Yun, Yutian Xu, Yutian Yi, had just been increased in their bounty tonight. Within Huyang City tonight, only Luo Feng had taken up this bounty.

The Vice President naturally guessed it was Luo Feng who had done it!

"It was me," Luo Feng responded.

"Tonight you are the only one who took up the bounty, and besides General Yong within Huyang City, only you have the strength to do it, so I guessed it was you," the Vice President replied, "Then I'll wait for you, Luo He, to come and claim the bounty."

"Still one more, Xue Yun, do you guys have a way to find him?" Luo Feng asked further, as the Flame Wind Guild had many means, perhaps they had a way to find Xue Yun.

The Vice President was secretly astonished.

Goodness, this Lord Luo He still wants to hunt down Xue Yun?

"As long as you can pay the price, the Flame Wind Guild can do it," the Vice President responded, "Sang Shuiyun has lived in Huyang City for too long; Huyang City's past and present have too many traces of him, my Flame Wind Guild can deduce the celestial secrets to lock his position. To deduce once requires ten million Cosmic Sand."

"Ten million Cosmic Sand?" Luo Feng was momentarily speechless.

"If you have his blood, hair, or Divine Power, deducing it once only requires one million Cosmic Sand," the Vice President added.

"I'll think of another way," Luo Feng didn't chat further, he drove the Flying Boat straight to Chairman Zan Yun's place.

Meanwhile, the bounty mission in the Flame Wind Association's Dark Hall also changed, and it automatically sent the latest bounty situation to all clients within Huyang City!

Within Huyang City, anyone with any status generally was a client of the Flame Wind Association's Dark Hall.

They all received the news at the same time: the assassination mission of Yutian Xu and Yutian Yi had been completed!

This news, like a thunderclap, shook Huyang City.

There will be a second chapter update this noon, on the first day of the new book launch. Those who have a monthly vote, please vote to support it.

Chapter 67: Chapter 62 General Yong and Luo Feng

Chapter two today!

——

Inside the cave mansion of the Zhu Clan, the most powerful native family in Huyang City, Zhu Hu was quite surprised, "During the direct conflict between the Shi Kingdom's Forces and the city owner's mansion, Xue Yun, Yutian Xu, and Yutian Yi were all alive and well. After the conflict ended, Yutian Xu and Yutian Yi were killed?"

"Their strength is almost equal to mine," Zhu Hu thought to himself, "Who in the entire Huyang City could kill them?"

At that moment, Zhu Hu thought of two individuals.

One was naturally the famous General Yong! The other was the mysterious Lord Luo He.

"After the large-scale conflict ended, the Huyang City Formation hadn't unleashed its power again. If General Yong had made a move, he would probably have used the Formation... So, the most likely possibility is that Lord Luo He made his move?" Zhu Hu guessed silently.

Since arriving in Huyang City, Luo Feng acted only a few times, each time decisive.

Ying Cang attempted to assassinate Luo Feng, only to lose his own life instead!

The Five Great Families, Luo Feng didn't even take them seriously.

All this made it difficult for everyone to grasp how strong Luo Feng really was.

"There's a seventy percent chance it was Lord Luo He who acted. And a thirty percent chance that it was General Yong and the others setting up a trap," Zhu Hu thought to himself, "If it was indeed Lord Luo He who killed them, then Lord Luo He is much more terrifying than expected."

...

Within a small restaurant, Lord Wei was leisurely enjoying a sumptuous feast.

"Two of the Five Gods of Yutian are dead?" Lord Wei recalled at that moment the man she found astonishing, "This doesn't seem like Yong Hu's style. I guess it must be this Lord Luo He who acted."

Coming from the same Royal Capital of the Yu Kingdom, Lord Wei was quite familiar with General Yong.

"His origins are mysterious. Does he come from one of the two Ancient Countries? Or is he raised by some secret forces?" Lord Wei knew very well how deep the waters of the Land of Origin were.

...

At this moment, all factions throughout the city, including members of major powers, were shocked. The ability to kill strong figures like Yutian Xu and Yutian Yi within Huyang City was a rarity across the entire Yu Kingdom.

Publicly within the city, only General Yong had such ability.

All core members of the Five Great Families were engaged in heated discussions, and although they were well-informed, they hadn't heard any news about the city owner's mansion taking action.

"The city owner's mansion did not take action," Moli Meng, as the Deputy City Lord, was naturally clear on this, "Then, the most likely possibility is that Lord Luo He acted."

"He and Shang Tianyan were close friends; Shang Tianyan died, so did Lord Luo He act out of anger?" Moli Meng didn't hesitate; he immediately took out the transmission token to contact Luo Feng.

"Brother Luo He," Moli Meng asked directly, "Were Yutian Xu and his sister killed by you?"

"It was me," Luo Feng replied, "Does your city owner's mansion have any thoughts?"

Moli Meng was shocked.

It really was Lord Luo He! His father, Moli Xiao, commanding the troops with the aid of the Huyang City Formation, had an advantage over Yutian Xu but couldn't do anything to him.

This Lord Luo He, relying solely on his own power, silently killed Yutian Xu and his sister! This strength was too terrifying!

"Do you intend to kill Divine Monarch Xue Yun?" Moli Meng followed up.

"I'm searching for him throughout the city, but unfortunately, I can't find him," Luo Feng responded, "Do you have a way to find him?"

"I need to report to the city owner's mansion; please wait for my message," Moli Meng didn't dare say more, as the Karmic Tracing Order was the only temporary way to find Divine Monarch Xue Yun, and he didn't have the authority to give it directly to Luo Feng.

"What I need most now is Xue Yun's location," Luo Feng responded.

"Once there is news, I'll inform you immediately, Brother Luo He," Moli Meng became even more humble. General Yong, with the aid of Huyang City Formation, let Divine Monarch Xue Yun escape, and this Lord Luo He dares to chase after him?

This confidence was enough to make Moli Meng's heart tremble.

...

Luo Feng, maneuvering the Flying Boat, felt a glimmer of hope after

communicating with Moli Meng.

"There might be some way with the city owner's mansion," Luo Feng didn't fully rely on Moli Meng, as he looked ahead into the distance.

"Master, Chairman Zan Yun is within that cave mansion, I can lock onto his aura," Morosa was absolutely certain.

"Good," Luo Feng nodded slightly.

This ordinary cave mansion ahead of them was never publicly acknowledged by Chairman Zan Yun. Knowing of Yutian Xu and Yutian Yi's death, he immediately hid in this cave mansion.

He was currently extremely nervous.

"You don't know either? Aren't you members of the Five Great Families? You don't know who killed Yutian Xu and Yutian Yi?" Chairman Zan Yun urgently transmitted, "Whenever you ordered me to do things, I have never refused, doing all the dirty work for you, and now you must help me!"

However, the reply was a sudden cessation of the transmission.

"I knew it. These useless members of the Five Great Families can't be relied upon at critical moments," Chairman Zan Yun was extremely nervous, "Who exactly killed Yutian Xu and his sister? Could it implicate me?"

"Xue Yun has also cut off transmission and is not contacting me at all."

"When disaster strikes, everyone runs their own way! I'll wait for daylight when countless Cultivators come and go from the city, and I'll take the opportunity to leave the city," Chairman Zan Yun thought to himself, feeling panicky, suspecting that something was not quite right this time.

Boom—

Chairman Zan Yun looked up in horror, only to see the raging Primal Chaos Current tearing apart the small building he was in, as well as

the Formation. The Primal Chaos Current spread everywhere, directly enveloping him.

"No good, it's Lord Luo He," Chairman Zan Yun felt a chill in his heart, "It seems that the one who killed Yutian Xu and Yutian Yi is Luo He."

Chairman Zan Yun couldn't struggle at all, as he was caught up in the Primal Chaos Current and carried out. He saw a Flying Boat descending from the night sky, and Luo Feng along with Morosa flew out from it.

Behind Luo Feng, six pairs of golden wings spread out, as he wielded the Primal Chaos.

"Lord Luo He, you've come?" Chairman Zan Yun, bound and ensnared, was extremely ingratiating, "If there's anything you need, just give the word, there's no need for you to come personally."

Chapter 68: Chapter 62 General Yong and Luo Feng_2

"Where is Xue Yun?" Luo Feng asked.

Chairman Zan Yun hastily shook his head, "I have no contact with him."

"Shi Kingdom's forces in Huyang City are overt and covert, with you, Chairman Zan Yun, in charge on the surface, and Xue Yun controlling things from the shadows." Luo Feng looked at him, "This is an open secret in Huyang City, denying it in front of me is pointless."

"Yes, I serve the Marquis," Chairman Zan Yun straightforwardly said, "But I've been in Huyang City for so long, Divine Monarch Xue Yun has never even met me. It was only after Shang Tianyan exposed his identity that I learned he is Sang Shuiyun. He has always been wary of me, and now he has severed all communication, I truly cannot contact him."

"Then you are of no use to me," Luo Feng shook his head.

"No—" Chairman Zan Yun wanted to argue, but the Primal Chaos Current instantly infiltrated his godly body, shattering his True God's Heart.

In the moment of death, Chairman Zan Yun deeply regretted.

He knew that accepting the mission to come to this large city in the enemy 'Yu Kingdom' was dangerous. Yet, for the sake of merit points, for the resources bestowed by the Marquis, he still came.

He had always been cautious, even secretly befriending some members of the Five Great Families, fearing that he might be killed.

The Five Great Families indeed accommodated him, after all, killing Chairman Zan Yun would just mean there would be another in charge of the intelligence.

But this time, he ultimately fell.

Luo Feng, because of the nearly ten billion affected creatures, because of his friend Shang Tianyan, was filled with a dense killing intent and easily crushed him to death.

"Huh." Luo Feng waved his hand and collected his body.

"Master, what do we do now? Xue Yun is too cautious and careful, his tracks cannot be found," Morosa said. Both he and Master Luo Feng were confident in their ability to kill Divine Monarch Xue Yun.

The only problem was how to find him.

"The few leaders of the Shi Kingdom's forces in the city, Yutian Xu, Yutian Yi, including the intelligence head Chairman Zan Yun, all cannot contact him," Luo Feng shook his head, "Now we can only hope for good news from the city owner's mansion; otherwise, killing Xue Yun... won't be a matter that can be settled quickly."

...

Inside the city owner's mansion.

Lord of Huyang City, Commander Moli Xiao, the white-haired elder, General Yong, and Moli Meng—these five were all gathered here.

"The one who killed Yutian Xu and Yutian Yi, is actually this Luo He?" General Yong exclaimed, "Even I wouldn't dare say for sure I could kill the Yutian siblings, one against two, without using Huyang City's great formation."

"He is still tracking Xue Yun's whereabouts," Moli Xiao said, "Knowing full well Xue Yun's strength, yet daring to continue the pursuit, shows his confidence.

"Outside the city, I can do nothing to Xue Yun. Yet he dares to hunt him down... Is he arrogant, or is his true strength actually above

mine?" General Yong felt very complicated, as he was also very confident and proud.

After all, to walk the path of laws, to cultivate unlimited godly bodies! With the instruction of a Godly King, now having mastered Primal Chaos Realm techniques, one could imagine his talent.

Looking across the entire eternal true gods of Yu Kingdom, there are hardly any stronger than him.

"Having killed Yutian siblings, probably he is not arrogant," said the white-haired elder.

"No wonder before, he did not take your city owner's mansion seriously," General Yong laughed, "With his true strength, even if all Ten Great Legions were to come out together, using Huyang City's great formation... They wouldn't threaten him."

Lord of Huyang City said, "When Ying Cang tried to assassinate him and ended up dying instead, we knew he was not to be messed with."

"Moli Meng, contact Luo He quickly," General Yong said, "It's just a single Karmic Tracing Order, you can't request the presence of such a powerful being. Since he took the initiative, we must seize the opportunity!"

"Make contact," Moli Xiao ordered.

They hesitated very little; Luo He had killed Yutian siblings, making him completely trustworthy.

"Good," Moli Meng nodded.

"Brother Luo He, our city owner's mansion has a Karmic Tracing Order left by Shang Tianyan. It can be used to lock onto Divine Monarch Xue Yun's location," Moli Meng communicated, "Shall I bring it to your cave mansion now?"

"I will come to the city owner's mansion right now; we'll meet outside the mansion gate," Luo Feng, piloting the Flying Boat and accompanied by Morosa, made a beeline for the city owner's mansion.

...

Outside the city owner's mansion.

An unseen Domain spread out, and ordinary cultivators could not clearly see the five figures standing there—Lord of Huyang City, Moli Xiao, the white-haired elder, General Yong, and Moli Meng—all waiting for Luo Feng's arrival.

"I have never met this Divine Monarch Luo He," General Yong said, quite curious about this Divine Monarch Luo He.

"Divine Monarch Luo He is quite merciful, only when someone provokes him does he become ruthless," Moli Meng commented on the side.

"Such strength, yet still merciful, a rarity," General Yong approved.

Suddenly —

A Flying Boat descended from the night sky, with Luo Feng and Morosa, the master and servant, flying out of it. Luo Feng also put away the Flying Boat.

"Brother Luo He, this is General Yong," Moli Meng introduced.

Luo Feng recognized everyone present except for General Yong, whom he truly had not met before.

"I hear that Lord Luo He plans to pursue and kill Xue Yun?" General Yong smiled and said, "Are you confident?"

"Seventy percent confident," Luo Feng said.

Upon hearing this, General Yong and the others were secretly shocked. Without even a fight, he dared to say he was seventy percent confident? That was exceedingly bold.

"Do you need my help?" General Yong asked.

"No need; I'm used to acting alone," Luo Feng responded.

"Admirable," General Yong looked at Luo Feng with great approval, "I truly did not expect such a powerful being like Lord Luo He in Yu Kingdom's territory. I'm sure after this matter is settled, the five Godly Kings will send their subordinates to invite Lord Luo He."

Such a powerful being, even if he couldn't become a Primal Chaos Overlord, was still a great general.

"Do you have the Karmic Tracing Order?" Luo Feng asked, unwilling to chat much.

"This was left to the city owner's mansion by Shang Tianyan, with the hope that the mansion could dispatch enough power to pursue and kill Xue Yun," Commander Moli Xiao said from the side, "With the Karmic Tracing Order, we can lock onto Xue Yun's position at any time."

"If you succeed in killing Xue Yun, that's fine, but if Brother Luo He fails, please return the Karmic Tracing Order," the Lord of Huyang City said as he handed over a peculiar token to Luo Feng.

"Rest assured," Luo Feng took it.

He said seventy percent confident merely to avoid too much astonishment.

If he and Morosa, the two of them working together with the "Lie Yuan Technique," let Xue Yun escape, that would be the real disgrace.

"Hum." Divine Power flowed from Luo Feng into the Karmic Tracing Order, and immediately created a connection that sensed a location incredibly far outside the city. That was where the target was.

"As expected, he did leave the city," Luo Feng said to the five in front of him, "Gentlemen, I will now go and pursue Xue Yun. I take my leave first."

"Please."

The Lord of Huyang and the others watched as Luo Feng and Morosa boarded the Flying Boat and rapidly disappeared into the night sky.

"What do you think, will Luo He succeed?" the Lord of Huyang City inquired.

"I believe the chances are quite high," General Yong said, "Have you noticed? For such a major event as pursuing Xue Yun, Luo He still brings his servant with him."

"Right, his servant is just a true god of void space, and would only be a burden, so why bring him along?" Moli Meng wondered in surprise.

General Yong nodded: "I've heard that in the Land of Origin, when some great forces train their elites, they usually assign a Protector to ensure their safety. This Lord Luo He and his servant, with their secretive origins and such tremendous strength, could possibly come from some great force."

The Lord of Huyang, Commander Moli Xiao, and the others were startled.

"Of course, this is just my speculation. Whether true or false, you must not reveal it to outsiders and disrupt such a being's journey of Cultivation," General Yong advised.

"We understand," all four nodded in agreement.

No matter whether right or wrong, the power of Lord Luo He had indeed made them feel wary and tremble.

...

"Huh."

Amidst the night, a Flying Boat swiftly flew out from the east gate of Huyang City.

Luo Feng gazed towards the northeast and, with the help of the Karmic Tracing Order, could remotely lock onto the target's location.

"Brother Shang, I never thought I'd end up joining hands with you in the end, to pursue and strike down that Xue Yun," Luo Feng looked at the Karmic Tracing Order in his hand, then the Flying Boat traversed the Void, rushing towards the northeast.

Chapter 69: Chapter 63: Stomping Down

In the high sky far from Huyang City, Divine Monarch Xue Yun was leisurely navigating the Void.

"There are always some fools in this world," thought Divine Monarch Xue Yun, "who pity the weak, even to the extent of fighting desperately with me for their sake? Brother Shang, you lack the spiritual will necessary to become a peerless powerhouse."

"A peerless powerhouse should be cold and ruthless!"

"For the sake of one's own path, even if it means sacrificing tens of billions of creatures, there should be no hesitation."

"Seize every opportunity! Sacrifice everything that can be sacrificed, even if it's… sacrificing one's own loved ones! Only with absolute sincerity towards 'cultivation' can one achieve great accomplishments."

"In this vast world, with its numerous major powers and countless geniuses, to aspire to become the Primal Chaos Overlord, one must endure what innumerable cultivators cannot, must do what innumerable cultivators cannot do, must have a determination to risk everything."

Divine Monarch Xue Yun, facing someone like Shang Tianyan, felt a bit of heartache, but more a sense of looking down.

He disdainfully viewed these fools.

He was the true elite among the cultivators, possessing an unyielding determination!

"Yutian Xu and Yutian Yi were killed, but I don't know by whom," thought Divine Monarch Xue Yun, "As long as it wasn't the Primal Chaos Overlord who took action, there is no threat to me."

"Now that my strength is revealed, I might as well proceed as if it's been exposed, which, although more dangerous, also allows me to gain more resources," Divine Monarch Xue Yun set off towards Shi Kingdom.

Originally, he thought of remaining hidden and low-key to live longer.

Divine Monarch Xue Yun knew well that to become the Primal Chaos Overlord, the first rule was to survive long! Resources were only secondary.

But now at the climax of crisis, with his reputation known, he could no longer lie low; he had to strive for more resources.

Huh!

He traveled through the Void, moving swiftly.

...

In the night sky.

Luo Feng utilized the Mechanical Flow Secret Treasure "Myriad Realms Escape Command" to instantly navigate the Void on his Flying Boat, covering an incredibly long distance.

The "Myriad Realms Escape Command" had reached the level of the Primal Chaos Realm in terms of space traversal. That is, within Huyang City, due to the suppression of spacetime by the city's formation, the Myriad Realms Escape Command could only teleport short distances. But the situation was different outside the city.

Outside the city, one could freely navigate the Void. The assistance of the "Myriad Realms Escape Command" sped up the journey even more.

Hu hu hu!

"This Xue Yun keeps fleeing towards the direction of Shi Kingdom; he's really fast. Fortunately, with the Myriad Realms Escape Command, we can still catch up," said Luo Feng.

"Is he planning to flee back to Shi Kingdom?" Morosa couldn't help but speak, "This Xue Yun is really cautious, escaping right after his strength is exposed."

"He's the craftiest opponent we've encountered on the Land of Origin; his godly body is not that strong, but his strength is comparable to General Yong. This shows that his realm surpasses General Yong's," Luo Feng solemnly said, "Such a high-level being, with unpredictable methods, we must not be the slightest bit careless."

"How do we deal with him?" asked Morosa.

"At that time, you disguise yourself as a strand of Primal Chaos Current and blend into my Primal Chaos Domain," said Luo Feng, "A perfect life form's disguise, flawless. He will not detect it."

"Don't rush to make a move. Wait until I've driven him into a desperate situation, at the most critical moment; then you deliver the fatal blow," Luo Feng said.

"Okay," Morosa nodded.

The more intense Luo Feng's murderous intent became, the calmer he was. Luo Feng was clear that, given Divine Monarch Xue Yun's extreme caution and the great efforts he made for self-preservation, it was never too much to plan carefully.

Xue Yun must die!

******

Divine Monarch Xue Yun kept on his journey.

"My identity has been exposed, I left too many traces in Huyang City, and if they are willing to pay the price, they can use these many traces to deduce the secrets of heaven and determine my location. But I am constantly moving!

By the time they come after me, I will have already reached another place… They will have to deduce the secrets of heaven over and over again, a cost they can't afford," Divine Monarch Xue Yun thought.

Suddenly his expression slightly changed as he looked ahead.

In front of him in the Void, a figure appeared, a figure with six pairs of golden wings; Primal Chaos Current instantly enveloped a vast area around him! Without the suppression by the Huyang City Formation, the Primal Chaos Domain could expand much farther.

Amid the Primal Chaos Current, Luo Feng stepped forward, looking coldly at Divine Monarch Xue Yun: "Xue Yun, you cannot escape."

"Luo He?"

Seeing Luo Feng, Divine Monarch Xue Yun fully understood, "It seems it was you who killed Yutian Xu and Yutian Yi, the various forces of Huyang City underestimated you before. How did you track me down? To catch up this fast, it must be through cause and effect."

"Marquis won't betray me, is it Shang Tianyan? He has been with me for too long, and his Artifact Refining Skills have far exceeded my expectations, I must have stumbled in this aspect," Divine Monarch Xue Yun speculated.

Luo Feng looked at him and said, "You killed Brother Shang without a second thought. Even I was deceived. I thought you and Brother Shang were very close before."

In more than two decades, Luo Feng had seen Sang Shuiyun more than once.

But he never saw through his real face.

"Anyone who obstructs my path to cultivation shall die," said Divine Monarch Xue Yun calmly, "The so-called feelings cannot affect me. Luo He... I couldn't fight with all my strength in Huyang City. But now, I can truly have a battle with you."

"I just hope you are strong enough to put enough pressure on me! To temper my path, and to help me achieve the Primal Chaos Realm,"

Divine Monarch Xue Yun stared at Luo Feng, "Don't be too weak, it would be meaningless then."

"Big talk, let's hope you're still this confident later," Luo Feng waved his hand, and a torrent of blood waves surged out, affecting all around and also enveloping Divine Monarch Xue Yun.

"Utilizing a Mechanical Flow Treasure?" Divine Monarch Xue Yun stood there, shaking his head slightly, "Truly crude and clumsy."

As soon as he finished speaking.

Boom~~~~

Divine Monarch Xue Yun instantaneously dispersed like cloud mist, transforming into massive surging blood waves, which spread in all directions and naturally formed a profound and immense array. The array managed to repel Luo Feng's Life Blood River, and even the Primal Chaos Domain struggled to suppress it.

Primal Chaos Domain and Life Blood River couldn't surpass this great formation!

"All the Primal Chaos Realm moves that I have come to understand till now are integrated into the 'Blood Cloud Great Array.'" Within the surging blood wave, a figure of Divine Monarch Xue Yun formed, stepping across the waves.

The blood wave was vast, and the formation was operating, affecting the surroundings.

"Various Primal Chaos Realm moves are integrated into the formation?" Luo Feng was secretly shocked, no wonder there was a clear gap in godly bodies, yet he matched General Yong.

Luo Feng withdrew the Life Blood River, but the Primal Chaos Domain still spread out, offering suppression and many other wondrous uses besides.

"Luo He, let me see your strength." The moment Blood Cloud Great Array enveloped Luo Feng, he realized the terrifying aspect of the blood wave, indeed far surpassing his Life Blood River.

In terms of power, it was just slightly stronger. But from afar, it looked like water waves, yet up close, it felt like mist.

When it contacted his 'Ten Directions Infinite Blade Force' on his body's surface, he felt a dark chill, and even more, toxins penetrated the blade force, seeping into his godly body. These Toxins of Law was also a Primal Chaos Realm level move, weak godly bodies would die upon contact.

Luo Feng instantly utilized the Body Refining Method of "Duan Mie," burning Divine Power, and his godly body's power surged, naturally blocking the corrosive penetration of this blood mist.

"You have unlimited godly bodies?" Divine Monarch Xue Yun stood amid the rolling blood waves, somewhat surprised, but he didn't care, as it was normal for those who dared to hunt him to possess unlimited godly bodies.

"This Blood Cloud Great Array of yours, its power is average." Luo Feng produced a Bloodshadow Knife in his hand, immediately slashing down with it.

A terrifyingly brilliant blade light appeared, where the blade light passed, even black spatial cracks formed.

The immense force tore the Blood Cloud Great Array wide open, and many blood waves were directly annihilated.

This move also shocked Divine Monarch Xue Yun.

"A Single Slash Cleave Through Space?"

"The Primal Chaos Realm moves you've realized, do they prioritize power? Coupled with the advantage of unlimited godly bodies, you can actually cleave space with one stroke? You are indeed stronger than Yong Hu, very good!" Divine Monarch Xue Yun became more excited.

The entirety of the Blood Cloud Great Array that was split open instantly closed up, and this time, within the Blood Cloud Great Array, three blood swords containing countless Secret Patterns were naturally nurtured, each sword's might was quite terrifying.

Luo Feng instantly struck with his blade, three blade shadows flashed, cutting through the heavy blood waves, sweeping past those three blood swords.

Within the rolling blood waves, the three blood swords vanished like phantoms, reappearing in the rolling blood waves behind Luo Feng.

Boom, boom, boom!!!

At an extremely close distance, the three blood swords truly stabbed into Luo Feng's back, puncturing the Ten Directions Infinite Blade Force, and on Luo Feng's back they forcefully stabbed three wounds, barely breaking the skin! The skin wounds healed instantly, though.

This scene left the originally confident Divine Monarch Xue Yun somewhat stunned: "His blade technique is extremely powerful, how can his godly body's defense also be so strong?"

"Unlimited godly body, to withstand my Blood Cloud Great Array attacks, and only scratch the skin?" Divine Monarch Xue Yun wasn't inexperienced with fighting unlimited godly bodies, General Yong was an unlimited godly body, and Yutian Xu's godly body was also on par with unlimited godly bodies.

None were so unshakable.

Luo Feng stood there, his Blood Cloud Great Array attack had merely scratched his skin, how could he fight?

"He must have cultivated an emperor level Body Refining Method and his protective blade technique must also be at the Primal Chaos Realm level, that's why he is so unshakable." Divine Monarch Xue Yun felt the pressure too.

Luo Feng also felt discomfort.

This Blood Cloud Great Array was mysteriously unpredictable; his blade technique tore and destroyed, merely annihilating a few blood waves.

"Roar~~~" Suddenly, Luo Feng shook his body, and his godly body abruptly enlarged a billion times.

"This?" Divine Monarch Xue Yun was astounded.

Looking at an incredibly majestic giant divine spirit standing between heaven and earth, he was trillion kilometers tall, the surrounding mountains barely reached his toes, and even Huyang City in front of him would seem petite.

"Unlimited godly body, can expand or contract, the larger the body, the greater the world compression it needs to withstand. To be able to expand to such a size, to what extent has his unlimited godly body's refining reached?" Divine Monarch Xue Yun was alarmed.

Luo Feng looked down.

Trillion kilometers was not his limit, he could grow even larger, but it was enough.

From Luo Feng's perspective at this moment, the majestic Blood Cloud Great Array seemed like a small puddle, even smaller than his foot. After all, Divine Monarch Xue Yun's godly body was only so large, thereby limiting the range of the Blood Cloud Great Array he could maintain.

"Boom!"

According to the Body Refining Method "Duan Mie," Luo Feng's Divine Power suddenly burned to its limit, maintaining such a vast godly body already rapidly depleted Divine Power, and burning to the limit, he was consuming about one ten-thousandth of his Divine Power Reserve every breath, naturally increasing his strength multiple times.

This was his most frantic state.

"Die!" Luo Feng stomped his foot, "Heavens Split in Five Directions!"

His five toes were like five pillars, and his sole like an infinite world, slamming forcefully downward towards that small puddle!

"How so terrifying?" Blood Cloud looked up at this scene, terrified, and the entire Blood Cloud Great Array instantly merged into the ground, escaping deep into the earth. Escaping into the ground was

also his specialty.

"Roar~~~"

One stomp!

Even in the robust Land of Origin, this stomp forcefully created a hundred trillion kilometers deep imprint, it just went past his ankle.

Chapter 70: Chapter 64 Lie Yuan Technique

"Boom～～～" At this moment, Divine Monarch Xue Yun felt as if an immense world was bearing down on him, the soil and rocks from all directions instantly crushed and annihilated, engulfed by an endless destructive force.

No differentiation in coverage! The range was too wide!

He exerted his utmost to perform the Earth Escape Technique, but under the envelopment of the Primal Chaos Domain, his escaping speed was slower than usual. Instantly, the entire Blood Cloud Great Array had escaped to a depth of tens of billions of kilometers, yet it was still completely enveloped by an unimaginably huge foot!

The Blood Cloud Great Array instantly dispersed like mist, crushed to a depth of hundreds of billions of kilometers by the gigantic foot, such fierce stomping utterly annihilated many blood mists.

"Swoosh." Deep beneath Luo Feng's foot, wisps of blood mist began to condense out of thin air, forming a body of blood mist.

"He's still alive?" The towering Luo Feng looked down from above, his foot having left an imprint billions of kilometers in size, and he was surprised that Divine Monarch Xue Yun was still alive.

"How is it possible that one stomp destroyed more than eighty percent of my godly body?" Divine Monarch Xue Yun was frightened, truly terrified.

He didn't want to die!

He could sacrifice everything just for his own cultivation, but if he himself was gone, what would all the endless years of effort amount

to?

He cherished his own life, his life was the most precious! Only by living could he reach the true pinnacle!

"Huff." Divine Monarch Xue Yun reluctantly condensed his godly body and quickly performed the Earth Escape Technique again.

"Escaping?"

Luo Feng instantly shrunk his body to a height of two hundred billion kilometers, and then began to traverse the Void with the aid of the Myriad Realms Escape Command, the 'Void Escape Technique' being much stronger than the Earth Escape Technique, as earth, water flows, mountains, cities were all part of the Void and could all employ the Void Escape Technique.

But just as the earth was thick, even with the aid of the 'Myriad Realms Escape Command', the distance travelled was relatively short.

Whoosh!

Luo Feng instantly moved to a location hundreds of billions of kilometers deep underground, the moment he appeared, he felt himself pushing apart countless soil and rocks. But these thick soils and rocks also brought pressure! This was also why Luo Feng had shrunk his stature.

Even with all his strength, his foot had only stomped to a depth of hundreds of billions of kilometers, having estimated how strong the pressure from the soil and rocks could be, the compression formed by a height of two hundred billion kilometers underground... had a relatively small impact on his strength.

"Morosa, be ready to strike at any moment!" Luo Feng naturally carried the Primal Chaos Current, constantly teleporting toward the depths of the earth, chasing after the severely injured Divine Monarch Xue Yun.

"So fast." Divine Monarch Xue Yun noticed Luo Feng chasing after him, "Primal Chaos Domain combined with spatial traversal is indeed very suitable for chasing. But underground, everywhere is filled with

extremely thick soil and rocks."

Bang!

A gigantic hand carrying the power to destroy heaven and earth tore apart countless soils and rocks, as well as the position where Divine Monarch Xue Yun was.

Divine Monarch Xue Yun saw a huge hand instantaneously rolling towards him, frightening him so much that his body voluntarily dispersed.

At this moment, Luo Feng was two hundred billion kilometers tall, but his hands had become enormous, each hand measuring a hundred billion kilometers in length! Swinging these hands like giant shields, each strike employed the 'Heavens Split in Five Directions Blade', and each was a maximal combustion of Divine Power.

Boom! Boom! Boom! Boom! Boom! Boom!

Luo Feng gave chase, relentlessly attacking with his palms, his five fingers like five blades, leaving black spatial cracks wherever they passed, destroying everything, including Divine Monarch Xue Yun's godly body.

No matter how unpredictable his godly body shifted and how adept his escaping skills were, facing Luo Feng's extensive coverage attack, he could only endure the terrifying onslaught repeatedly.

"This Divine Monarch Xue Yun seems to have some extremely powerful life force. Clearly, he is already much weakened, and my palms have obliterated him into nothingness, yet he can still condense out of the void?"

"As I suspected, he excels in preserving his life," Luo Feng muttered to himself patiently, and as his godly body considerably reduced in size, even the extreme burning of Divine Power significantly decreased with each expenditure.

Now dozens of palms had only used the energy equivalent to one foot stomp of his previous massive form!

"Earth Rebirth!" Seemingly obliterated into nothingness, yet a trace of blood mist congealed, forming the figure of Divine Monarch Xue Yun.

"In the earth, I can continuously draw power. But the speed at which he destroys my power surpasses my recovery," Divine Monarch Xue Yun thought, having never imagined being pushed to this point.

He used to believe that without the grand array of Huyang City, no eternal true god in the Yu Kingdom could kill him in a true one-on-one fight.

Yet, in front of that boundless, towering godly body and those devastating expansive attacks, Divine Monarch Xue Yun felt powerless.

"So this is what maximizing the 'Size at Will' and 'Divine Power Reserve' advantages of the unlimited godly bodies can do; it's terrifying. I must find a way out soon, or I might be completely obliterated," Divine Monarch Xue Yun thought, still calm and looking for an opportunity, even at this moment.

Luo Feng pursued as Divine Monarch Xue Yun continued to escape deep into the earth.

As they went deeper, the oppressive force from the earth grew more terrifying, forcing Luo Feng to reduce his size along with his palms.

"Now's the time!"

A dazzling blood light suddenly erupted.

In that instant, Divine Monarch Xue Yun frantically burned his Divine Power, and his originally ephemeral 'Blood Mist Body' transformed into a dazzling streak of blood light, escaping through the earth at a speed far surpassing any before.

During the chase, Luo Feng consistently deployed the Heavens Split in Five Directions Blade, spreading the Primal Chaos Domain everywhere, with endless Primal Chaos Currents flowing throughout the vast area.

"Take action!" Luo Feng, sensing that Divine Monarch Xue Yun was

desperately burning his remaining Divine Power, immediately communicated telepathically with Morosa.

Morosa's strand of Primal Chaos Current had already been moved by Luo Feng below where Divine Monarch Xue Yun was heading deep beneath them.

Whoosh!

Divine Monarch Xue Yun was indeed diving deeper into the earth, a skill he was adept in, and the deeper under the earth, the greater his chances of survival.

"Whoosh~~~"

Suddenly, an immense gaping maw appeared before him, so vast it seemed like a bottomless, dark abyss. It enveloped with endless terrifying suction power, engulfing the escaping Divine Monarch Xue Yun below.

"Not good!" Divine Monarch Xue Yun was jolted by fear, even more startled than when he had seen Luo Feng's towering form.

In this extremely deep part of the underground, how could there be such a massive gaping maw?

Under the engulfing power, Divine Monarch Xue Yun realized he couldn't resist at all!

"Die." Morosa emerged from the underground with an imposing stature, especially his head which was immensely huge. He actively met the attack with his gaping maw. The prey had already reached his mouth, and his gaping maw suddenly snapped shut!

With his mouth closed, Divine Monarch Xue Yun only felt surrounded by a dark red world; death had already enveloped him.

"No——"

Death had never been so close, and Divine Monarch Xue Yun felt as though he had gone mad.

After endless years of lurking and cultivating at all costs to reach this point, he could not accept death! He wanted to live! To survive!

"Boom!" The dazzling blood light, already extremely fast in escape, suddenly vanished into thin air from Morosa's mouth, reappearing behind him, and continued to burrow deeper into the underground.

"What?" Morosa was baffled.

The thing swallowed into his mouth could actually disappear?

The escaping streak of blood light, Divine Monarch Xue Yun, was now in utter ecstasy!

"Hahaha, hahaha, I knew it, I knew it! I was lacking enough trials, a true battle on the edge of life and death, finally allowed me to take the last step."

"My bloodline has finally transformed."

"Bloodline transformation, I have now mastered the complete Law of Primal Chaos!" Divine Monarch Xue Yun was extremely excited. At that moment, it was with the transformed bloodline talent that he traversed the chaos; even Morosa's mouth couldn't trap him.

"I will spare Luo He for now; I need time for my small universe to transform, I need more time for my godly body to transform. Once my strength is completely solidified, I will then kill him. This life-and-death enmity isn't about bullying the weak!" Divine Monarch Xue Yun felt incredibly exhilarated.

The path of bloodline cultivation's 'Bloodline Transformation' was just the beginning of entering the Primal Chaos Realm.

Just like the path of laws, after comprehending the 'Law of Primal Chaos', one also needs the small universe to expand and transform, the Divine Power to transform, consolidating a more powerful godly body of the Primal Chaos Realm's hierarchy. Even afterward, one needs to cultivate corresponding hierarchy secret techniques... It takes enough time to solidify one's strength.

Now, Divine Monarch Xue Yun, though still weak in Divine Power,

merely grasping the Law of Primal Chaos allowed him to come up with brilliant tricks effortlessly, unlike the arduous nine combinations he had previously.

"Luo He, I still have to thank you for giving me enough pressure—" Divine Monarch Xue Yun, escaping, was filled with unprecedented joy.

The pursuit of endless years had finally been rewarded.

"Hmm?" Divine Monarch Xue Yun suddenly 'saw' a pair of eyes; those were Luo Feng's eyes.

At that moment everything else disappeared. Divine Monarch Xue Yun couldn't even sense his own power or bloodline anymore. In his perceptual world, there was only that pair of immensely terrifying eyes.

"Boom!"

Those eyes, immensely dense, seemed like endless majestic stars bearing down and instantaneously crushed Divine Monarch Xue Yun.

The vast disparity left him with no ability to resist.

A clash of wills!

Luo Feng, who had long reached the Peak of Primal Chaos Overlord in willpower, combined with the unique Lie Yuan Technique from the Land of Origin, while Divine Monarch Xue Yun's will had only just barely reached Primal Chaos Dominator Level.

Instant annihilation, not a trace left.

The escaping streak of blood light naturally transformed back into a true body; a true body corpse just lay there deep underground, with the True God's Heart seemingly intact, yet without consciousness anymore.

"To think it really forced me to use the 'Lie Yuan Technique.'" Luo Feng's godly body returned to normal size, appearing beside the corpse.

The origin of the 'Lie Yuan Technique' was significant, unique in the Land of Origin. Although onlookers would hardly recognize it, Luo Feng still preferred not to deploy it lightly; he was still too weak. If some ancient existence could see through some reality, it would lead to great trouble for him.

Moreover, always relying on the Secret Technique of Willpower could affect his own cultivation path.

To reach a higher life form level through cultivation depends on the laws! That is the foundation!

"He actually managed to escape from my mouth just now." Morosa also appeared at the side, looking at Sang Shuiyun's corpse and couldn't help but drool, "Master, I feel a great attraction to him! Even greater than Yutian Xu's corpse attracted me!"

Morosa didn't know that in the last moments, Xue Yun's bloodline had already transformed, which naturally made the corpse unusually significant to him.

"Don't worry, this corpse will be given to you." Luo Feng extended his hand and pierced through the corpse's chest, removing the True God's Heart, "But first I need the body to collect the bounty."

The body intact, True God's Heart intact, would make the Flame Wind Pavilion see the problem.

So removing the True God's Heart, just in case! After all, catching True God's Heart, all forces in Huyang City had already been familiar with it for a long time.

"Sigh."

Taking away the corpse, Luo Feng, together with Morosa, traveled through the Void back to the surface.

"Rumble~~~~"

Luo Feng disrupted the massive footprint with the Primal Chaos Domain, looking up at the night sky, where stars twinkled brightly.

"Xue Yun is dead, one of the stars in the sky must have dimmed, but it's unnoticeable." Luo Feng said.

"Every moment, countless stars twinkle, many of them dim. Unless it's the brightest ones, who would care if an ordinary star dims?" Morosa said carelessly, "We are still too weak."

This attempt at intervention had failed, also making Morosa feel his own weakness.

Luo Feng looked at the Karmic Tracing Order in his palm, finally not letting down Brother Shang's efforts, then put it away,

"Let's go, back to Huyang City." Luo Feng immediately took Morosa aboard the Flying Boat, traveling through the Void, heading straight for Huyang City.

Chapter 71: Chapter 65 Marquis of Jiu Jiang Bestows Grace

Luo Feng had not yet returned to Huyang City, but news of "Xue Yun's assassination" had already reached Huyang City ahead of him.

Inside the entire Huyang City, all clients of the Flame Wind Association's Dark Hall received a message: The assassination task of Divine Monarch Xue Yun had been completed!

Inside the city owner's mansion.

"It's done?" Moli Meng exclaimed.

"This... this..." Wu Qulou, although also anticipating this outcome, still couldn't believe it when the news from the Flame Wind Association's Dark Hall came in, "They really killed Xue Yun!"

The Lord of Huyang City remarked, "Initially, we even thought about teaching Luo He a lesson, looking back now, it's fortunate we did not act!"

"Luo He's strength is indeed above mine," said General Yong seriously from the side, "Looking across all the eternal true gods in the entire Yu Kingdom, only a few could compare with him. As for surpassing him? The Yu Kingdom... has no stronger eternal true god than him now!"

The leaders of the Five Great Families were all shocked.

These branches of great clans that had come to Huyang City held a lower status within their respective clans.

One of the pinnacle eternal true gods in the entire Yu Kingdom? That was a presence cherished by the Godly Kings, nurtured with ample

resources, bright and shining! How could these family branches compare?

"Xue Yun is not an unlimited godly body, but his realm was immensely high. I really didn't expect Luo He could actually kill him." General Yong had confronted Xue Yun before and was well aware of Xue Yun's strength.

"Should we go outside the city to meet him?" Moli Meng suddenly asked.

"Of course we should greet him!" the Lord of Huyang laughed loudly, "From now on, Lord Luo He will be the most important friend of our city owner's mansion."

"I will also go to greet him," said General Yong, who admired the strong.

"Let's go."

The leaders of the Five Great Families, General Yong, and Moli Meng, seven individuals in total, immediately left the city owner's mansion and used void shuttling to arrive directly at the East City Gate, patiently waiting for the soon-to-return Lord Luo He

...

At this moment, the hearts of all eternal true gods within Huyang City were passionately stirred.

In the Liu Yin Primal Chaos State of Shi Kingdom, two of the 'Five Gods of Yutian'—Yutian Xu, Yutian Yi—had been assassinated one after another, impacting over eighty billion creatures. Now, the 'Divine Monarch Xue Yun', with a bounty as high as ten million cosmic sand, was also killed, all on this very night!

"Ten million cosmic sand!"

"Who could have killed Xue Yun? A strong figure from the city owner's mansion, or some mysterious strong figure?"

"The bounty just increased tonight, and Xue Yun, Yutian Xu, Yutian

Yi, the three of them are all dead. The reward really works indeed."

"It seems that Huyang City harbors a terrifying being, someone who can be motivated to act if there's enough reward."

All the eternal true gods were astonished and also filled with reverence! They would have to act more carefully in Huyang City from now on, not be too reckless. If they inadvertently offended the terrifying being who killed Xue Yun, they feared they wouldn't withstand even a single move.

...

Inside the Heavenly Flame Sect, many disciples were still grieving in the square, lamenting their powerlessness and mourning the unshakable 'Divine Monarch Xue Yun'. As their sorrow had not yet subsided, good news arrived.

The Divine Monarch Xue Yun, with a bounty of ten million cosmic sand, was killed!

"Xue Yun is dead?"

"Haha... That old demon finally died!"

"Master, Xue Yun is dead!"

"Master, fellow brothers and sisters, your vengeance has finally been avenged!"

The entire Heavenly Flame Sect was exhilarated, and some disciples who had been packing their belongings returned to the square, overwhelmed with excitement.

"Sect Leader, Xue Yun is dead." Uncle Qiu knew the news and also cried excitedly, well aware of what the sect leader had sacrificed his life for.

The efforts of the sect leader had paid off!

...

"Sang Shuiyun is dead?" The Dream Flower Tower Master sat alone in her small tower, her expression complicated.

This night was too dreamlike.

Shang Tianyan and Sang Shuiyun, who had been infatuated with her, were both dead.

******

A Flying Boat arrived near the East City Gate of Huyang City.

"Here they come." The seven figures from the city owner's side had long been waiting.

"Hmm?"

Luo He, alongside Morosa, disembarked from the Flying Boat.

"Lord Luo He," the Lord of Huyang approached enthusiastically, "In one night, you have killed two of the Five Gods of Yutian and also Divine Monarch Xue Yun, resolving a major disaster for our Huyang City."

Luo Feng said, "Thanks to the Karmic Tracing Order left by Brother Shang, otherwise, Xue Yun would have fled to Shi Kingdom long ago."

"Xue Yun was indeed cunning," Moli Xiao added, "He had been hiding his strength all along, and as soon as his identity was exposed, he immediately sought refuge. Fortunately, Lord Luo He took action and completely eliminated him."

"Brother Luo He, with your success this time, I too consider my mission accomplished," General Yong said smilingly, "After returning to the Royal Capital, I will surely report Brother Luo He's achievements to the Godly King." Of course, when he reported the news, he had no idea when the Godly King would respond.

"We have already reported Brother Luo He's significant achievements to the Marquis," the Lord of Huyang City said, "I believe the Marquis will definitely reward him generously."

Huyang City lies within the territory of the Marquis of Jiu Jiang.

"Thank you all," Luo Feng said.

If he could gain some benefits from the Godly King of Yu Kingdom or the Marquis of Jiu Jiang, Luo Feng naturally would not refuse as he, currently weak... needed all resources to grow as swiftly as possible.

"It's all part of our duty," the Lord of Huyang City said, "Whenever you need anything in Huyang City in the future, Brother Luo He, just send a message."

"Brother Luo He, if you are seeking cultivation resources or some opportunities, you should head to the Royal Capital," General Yong said.

"Thank you, General Yong," Luo Feng felt the goodwill from the other.

But he had no intention of cultivating right under the eyes of a Godly King while he was weak. Once Morosa's identity was exposed, he would immediately become the public enemy of the entire Land of Origin, so it was wise to be cautious during his weaker phase.

"Gentlemen, I will make a trip to the Flame Wind Pavilion first, so I'll take my leave now," Luo Feng said.

"Please."

All seven of them were quite enthusiastic, including the leaders of the Meiwu Family and the Wu Royal Family who did not mind the past conflict that arose from the killing of Meiwu Qi.

When one's strength was sufficient, even smashed teeth had to be swallowed.

They were well aware that in the eyes of the Godly Kings and Primal Chaos Overlords, the value of Divine Monarch Luo He far exceeded all their border branches combined.

...

Inside a cultivation chamber within Jiu Jiang City of Jiu Jiang Primal Chaos Prefecture.

"In my territory, such a formidable eternal true god has emerged," the Marquis of Jiu Jiang sat on the floor, with silver hair draped over his shoulders, each strand faintly encompassing endless Void, causing the surrounding Void to twist completely.

"Marquis Liu Yin is closing in step by step, and the Huyang City, which is closest to the border, is likely his first target. Luckily, Luo He has appeared at this time," Marquis of Jiu Jiang contemplated.

He too was a Primal Chaos Overlord who had cultivated for extended eons and had comprehended the supreme rules of the Origin Great Dao. Although he was still far from reaching a 'Godly King', he nonetheless had deep accumulations and terrifying strength.

But Marquis Liu Yin, ranked among the top five Primal Chaos Overlords within the Shi Kingdom, indeed had an edge over him, naturally putting him under great pressure.

"This Luo He has accomplished such great feats in my territory; I naturally have to reward him heavily. And I must also report to the Monarch," thought the Marquis of Jiu Jiang, "The Monarch has always liked to nurture the younger generations. Because of my report... Luo He will receive the Monarch's cultivation, and he should remember this favor."

The Marquis of Jiu Jiang was well aware that such a level of eternal true gods, even if they were to follow someone, would definitely choose among the five Godly Kings of Yu Kingdom. Only a fool would choose him, the Marquis.

Whether in terms of heritage, resources, or backing, a Godly King was a whole major level stronger than a Primal Chaos Overlord.

To make Luo He grateful and willing to help him protect Huyang City, he naturally had to bestow favors!

There were three large cities in the entire territory, and the continuous 'residence fees' and other resources from a large city were

very important to the Marquis of Jiu Jiang.

"Monarch," the Marquis of Jiu Jiang immediately contacted the Monarch of Yu Kingdom.

Though Yu Kingdom had five Godly Kings, only the one who established Yu Kingdom was referred to by the Primal Chaos Overlords as 'Monarch of Yu Kingdom'. With Shi Kingdom's nature of encroachment, they had never initiated a Godly King-level confrontation because the Monarch of Yu Kingdom was too terrifying.

"Jiu Jiang, why have you contacted me?" A voice came from afar, and a vague figure covered in hair directly appeared in the Marquis of Jiu Jiang's mind.

The Marquis of Jiu Jiang was much more respectful.

The Monarch of Yu Kingdom, viewed across the entire Land of Origin, was an extremely terrifying existence.

"Monarch, I've discovered a young fellow named Luo He in my territory of Huyang City," began the Marquis of Jiu Jiang, his high status allowing him direct contact with the Monarch.

******

Luo Feng was unaware that the Marquis of Jiu Jiang was planning benefits for him; he, along with Morosa, had already arrived at a small building within the Flame Wind Pavilion.

"Brother Luo He, I admire you greatly," the Deputy Pavilion Master said, his eyes, formed of condensed mist, looking at Luo Feng with a grin. The Master of the Flame Wind Pavilion also spoke, "Brother Luo He, did you bring any proof of killing Xue Yun?"

Luo Feng extended his hand, holding the corpse of Xue Yun.

The master and deputy master of the Flame Wind Pavilion closely examined the body, from which many details could be discerned. A hole was present in the chest of the body, and the True God's Heart was missing.

"Again, he seized the True God's Heart. Does he have some Void-class killing move that can directly extract the heart?" These two descendants of the Emperor Chu lineage from the Flame Wind Ancient Country, experienced and knowledgeable, speculated wildly.

"That should prove it, right?" Luo Feng said.

"Of course it does," the deputy master chuckled, "Yutian Xu and Yutian Yi's bounties—are you taking them together?"

"Of course," Luo Feng took out Yutian Xu's weapon and Yutian Yi's Mechanical Flow Secret Treasure.

"Here is thirteen million Cosmic Sand." The deputy master took out the bounty that had been prepared earlier, which the task setters had deposited at the Flame Wind Pavilion.

Luo Feng received the jade vial, feeling the massive amount of Cosmic Sand inside, and knew he could be more extravagant in his upcoming days of cultivation.

After collecting the bounty, Luo Feng planned to leave.

"Brother Luo He," the Master of the Flame Wind Pavilion began with a smile, "Allow me to introduce myself. I come from the Emperor Chu lineage of the Flame Wind Ancient Country, named 'Emperor Chu Yu'. Meeting Brother Luo He in Huyang City of Yu Kingdom is also a kind of fate."

"The Emperor Chu lineage of the Flame Wind Ancient Country?" Luo Feng, not just any ignorant cultivator, possessing inheritance from two lineages, was very aware of what the Emperor Chu lineage from the Flame Wind Ancient Country represented.

Chapter 72: Chapter 66 Marquis Liu Yin (End of this series)

In the vast Land of Origin, there are countless forces, and it is quite remarkable for any of them to establish a Divine Kingdom. The strength of these nations varies greatly; countries like Yu Kingdom and Shi Kingdom are considered second-tier nations, significantly weaker than the Mountain Sitting Guest's Jin State, which is a real fringe small country.

Like the legendary Tianmu Kingdom, which possesses a Sector Beast, its strength far surpasses that of the Shi Kingdom, Yu Kingdom, and other countries, rightly claiming the status of a first-class nation.

Yet… the Flame Wind Ancient Country and the Thunder Ancient Country surpass all other nations.

"According to the information described in the legacy, the most powerful in the Flame Wind Ancient Country is the Imperial Clan! The Imperial Clan is fiercely competitive internally, divided into thirteen branches, each of which is eligible to vie for the throne.

Emperor Chu's Lineage is one of these thirteen branches!" Luo Feng finally understood the grand origin of the Master of the Flame Wind Pavilion.

"I never expected to meet His Highness Emperor Chu Yu in this small border city," Luo Feng said politely.

"I am not entitled to be called 'Your Highness'; I am just an eternal true god. You can simply call me Chu Yu," Emperor Chu Yu said with a smile. The other descendants of the Imperial Clan usually put on quite a show outside, but he had no regard for his kinsmen.

To Emperor Chu Yu, anyone who lacked strength was merely a waste

within the Imperial Clan.

Why else would the Imperial Clan allow thirteen branches to compete, if not because there were too many incompetents?

Emperor Chu Yu generally didn't reveal his identity while wandering outside, for the name 'Emperor Chu Yu' was enough for anyone slightly knowledgeable to guess his connection with Emperor Chu's Lineage. Usually, he just went by 'Chu Yu.'

"Brother Luo He, you were able to slay Xue Yun, which clearly shows that in all aspects like godly body, realm, and willpower, you have reached an extremely high pinnacle. Within Yu Kingdom, there are very few who could compare to you," Emperor Chu Yu said with a smile, "If you can comprehend the Primal Chaos Laws and become a Primal Chaos Overlord, I can help by recommending you.

I dare not promise anything else, but becoming a Guest Elder of Emperor Chu's Lineage should not be difficult."

"A recommendation to Emperor Chu's Lineage of Flame Wind Ancient Country?" Luo Feng couldn't help but ask, "Brother Chu Yu, you think so highly of me?"

The more he knew, the more he understood how strict the two great ancient countries were in recruiting Guest Elders.

His mentor, Mountain Sitting Guest, wanted to enter the core of the two great ancient countries, but neither would entertain him. To them… a regular Godly King held no significance for the ancient countries.

"Even if you become a Primal Chaos Overlord from the Law Lineage, my Emperor Chu's Lineage generally would not recruit you. But I am willing to recruit you," Emperor Chu Yu said, looking at Luo Feng, "I don't care about your strength; I care about your character."

"You have been in Huyang City for over two decades, and I have seen clearly. Compassion for the weak, deep hatred for the evil, for the sake of your friend Shang Tianyan, you relentlessly pursued Yutian Xu, Yutian Yi, and Xue Yun in anger," Emperor Chu Yu said smiling,

"You deeply value loyalty and righteousness, and naturally, I am willing to befriend you.

Nowadays in the Land of Origin, some mighty individuals possess high talent but are selfish and ruthless, who knows when you could be betrayed."

Luo Feng understood.

It turns out that everything he had done had made the Imperial Clan of the Flame Wind Ancient Country admire him.

"Of course, the premise for the recommendation is that I must become a Primal Chaos Overlord, and then I'll be qualified to recommend Guest Elders. Of course, you must also be of the Law Lineage in the Primal Chaos Realm, which is already the lowest threshold for recruiting Guest Elders," Emperor Chu Yu said.

The Deputy Pavilion Master laughed and said, "Luo He, remember never to fully align yourself with Yu Kingdom just in case you can't break free later. Such remote small countries ultimately have too few opportunities."

"The Monarch of Yu Country is just a Guest Elder of my Flame Wind Ancient Country," Emperor Chu Yu said, "Some remote small countries can't access the real secrets of the Land of Origin, not to mention top-level resources."

"It's the same with the Master of the Shi Kingdom, who because of his skill in cuisine, is favored by the high echelons of the Flame Wind Ancient Country, which is why his influence is so extensive," the Deputy Pavilion Master also said.

Luo Feng was secretly shocked.

The Master of the Shi Kingdom skilled in cuisine? Favored by the high echelons of the Flame Wind Ancient Country? There was even this layer of relationship, something his own collected intelligence did not record.

"Today is just a preliminary conversation; everything must wait until both you and I reach the Law Lineage Primal Chaos Realm," Emperor

Chu Yu said.

"Thank you, Brother Chu Yu," Luo Feng was very grateful to him.

Soon, Luo Feng took his leave and left.

"You're recruiting Luo He so early?" the Deputy Pavilion Master laughed.

"Once I achieve the Primal Chaos Realm and get cultivated by our clan, it will be too late to recruit," Emperor Chu Yu said, "While I am still relatively free now, I should look for a few suitable assistants."

"You seem very confident," the Deputy Pavilion Master said.

"I have completely mastered the nine moves of the Primal Chaos Realm as recorded in the secret tome, which complement each other well. I feel I am very close to the complete Primal Chaos Laws," Emperor Chu Yu said.

The Deputy Pavilion Master was very pleased: "A Primal Chaos Overlord with unlimited godly bodies from the Law Lineage? Hahaha, once you succeed, a massive amount of resources from within our clan will be utilized on you. It turns out I made the right choice in helping you!"

In the Land of Origin, there were quite a few with unlimited godly bodies who became Primal Chaos Overlords from the Law Lineage, but the two great ancient countries did not care about them.

However, if such a genius existed within the Imperial Clan, that would be different, naturally they would fully cultivate them!

"Uncle, you have helped me too much; I remember it all," Emperor Chu Yu said.

...

Primal Chaos Armor Cave Mansion No. 913.

Moyu Qingyan was waiting alone there.

"Yutian Xu, Yutian Yi and even Xue Yun have all been killed; according to what my father said, it's very likely it was the master who did it?" Moyu Qingyan thought about how the master had not returned all night and felt it was very possible.

"Divine Monarch Xue Yun's bounty was a full ten million Cosmic Sand, within Huyang City, even the city owner's mansion could do nothing about him. Could my master really have killed him?"

Moyu Qingyan was alone in the cave mansion, lost in wild thoughts, following his master over these years, he found his master unfathomable.

Whoosh—

The main gate of the cave mansion suddenly opened, and a Flying Boat entered, Luo Feng and Morosa alighted from the Flying Boat.

"Master," Moyu Qingyan immediately greeted them.

"In the coming times, I will have quite a few visitors," Luo Feng said, "Besides a very select few important guests, all others must be refused outright."

"Yes, Master," Moyu Qingyan, having been in service for so long, clearly understood who the important guests were.

Moreover, from his master's words, Moyu Qingyan also realized that it was likely his own master who had killed Xue Yun.

"Stop guessing, Yutian Xu, Yutian Yi, and Xue Yun were all killed by the master," Morosa said directly, "This news won't take long to spread throughout the city."

Luo Feng nodded.

He had killed several strong individuals from the Shi Kingdom mercilessly, and those from the Shi Kingdom must have had a chance to send out a message before dying.

Moreover, the city owner's mansion was also aware that he was the one who had acted.

With so many aware, it was bound to become widely known soon enough.

"Master is formidable," Moyu Qingyan felt honored.

"You should concentrate on your cultivation, you haven't even mastered the Ten Fundamental Laws yet," Morosa urged, "Considering I taught you personally, it's quite a disgrace."

"I will certainly focus," Moyu Qingyan responded immediately.

"Morosa and I are going to seclude ourselves now," Luo Feng declared, and then he led Morosa to the underground hall.

In the underground hall.

He first released the Star Tower, and both Luo Feng and Morosa entered it.

"I've given you your food." Luo Feng placed all the corpses of eternal true gods in one of the layers of the Star Tower's space, "You can digest it slowly on your own."

"Thank you, Master. I have a feeling that this time my strength will increase significantly, maybe enough to reach the Primal Chaos Realm," Morosa said excitedly.

Among the various foods this time, the first was the corpse of Yutian Xu, whose bloodline was extraordinary, and his godly body was comparable to the unlimited godly bodies, the assistance provided by devouring this godly body... far exceeded ordinary godly bodies.

And the corpse of Xue Yun was even more attractive to Morosa than that of Yutian Xu.

This was indeed an unprecedented feast!

Immediately, Morosa dived into his designated layer in the Star Tower and started to enjoy the sumptuous meal.

"Morosa's strength is increasing rapidly, maybe he will reach the Primal Chaos Realm before me," Luo Feng thought, "Unfortunately,

any normal cultivator understanding the 'Law of Primal Chaos' has to accumulate it slowly."

Even Emperor Chu Yu, of the imperial family of the Flame Wind Ancient Country, also had to wander through various places in the Land of Origin, enduring long years of arduous cultivation.

Comparing cultivation speeds with Morosa was indeed asking for self-punishment.

"My spiritual will should be sufficient now," Luo Feng considered.

Even when he was still a True God, his spiritual will had reached the peak of Primal Chaos Overlord!

Lately, he broke through from True God to eternal true god in a short time! His godly body was much stronger, and his soul was much more powerful as well.

Although a weak soul can also have strong will,

the soul is the bearer of will; the weaker the soul, the more difficult it is to enhance will.

"My soul now is much stronger than when I was a True God, and having cultivated the Great Destruction Heart Refining Technique and the Seven Emotions of Heart Refining Technique from the Lie Yuan Technique for over two decades, I feel that I have been making slow progress, but there has been no qualitative change yet."

Will, transitioning from the Primal Chaos Realm to Godly King, is indeed a fundamental transformation and quite challenging.

"The resources I've gained this time are plentiful enough that I need to acquire some treasures specifically for will cultivation," Luo Feng firmly decided, "With the bounty this time and numerous spoils of war, nearly 30 million Cosmic Sand. Plus what Brother Shang gave, accumulating just over 30 million Cosmic Sand. I must transform these resources into strength!"

Being so wealthy, it was natural to accelerate his own cultivation pace.

...

Shi Kingdom, Liu Yin Primal Chaos State, within a secluded hall.

A figure in dark red armor sat there, his eyes two blazing orbs of crimson flame, spreading an aura of dark calamity.

"Yutian Xu, Yutian Yi, and Xue Yun, all dead?" Marquis Liu Yin whispered softly, "This Luo He, a close friend of Shang Tianyan, went on a vengeful killing spree after Shang Tianyan's death?"

"His nature of detesting evil makes it difficult to use him for my purposes," Marquis Liu Yin realized.

He reached out to touch a crystal sphere in front of him.

This crystal sphere was a complete universe personally crafted by a Godly King, with an internal space of trillions of light-years in diameter, teeming with countless creatures living and cultivating.

He cherished this crystal sphere, for the universe had nurtured some of his subordinates and even produced hundreds of eternal true gods, all small feats in his eyes.

What he loved most... was the feeling of controlling the entire evolutionary process of the universe and the lives of countless creatures, which was also a form of cultivation for spiritual will.

"With Luo He in Huyang City, the original plan is no longer suitable," Marquis Liu Yin thought, "Well then, let's concede some resources of Huyang City and have the Heartshadow Sect make a move."

(End of this chapter)

The first episode 'Arrival' ends. Update on the second episode 'Blade Light Chilling' tomorrow.

Chapter 73: 2 Blade Light - Chapter 1 Heartshadow Sect

The Shi Kingdom, Liu Yin City, within a colossal cave mansion measuring hundreds of millions of kilometers, lies the stronghold of a sect called the Heartshadow Sect.

A three-eyed man draped in a grey robe sat on the mountaintop, his three eyes gazing into the vast night sky, yet feeling somewhat lost inside.

"The Land of Origin is boundless and endless, but there's no place for my Heartshadow Sect to take root," the three-eyed man sighed silently, "All the grand states and many powerful forces have long taken up every piece of land. Even the most marginal and dangerous areas are occupied by those ancient natives of the Land of Origin."

"Our Heartshadow Sect only needs a large city to establish a stronghold in."

"But within a state, every Primal Chaos Prefecture has its master, how can they possibly just give us a large city?" the three-eyed man felt pretty helpless.

"The foundation of a sect relies on the 'Primal Chaos Ruins'; only near the Primal Chaos Ruins does the sect disciples have a sliver of hope in becoming Primal Chaos Realm. Otherwise, there's no hope at all.

Moreover, the large number of disciples in the sect consumes too much, only the endless resources of a large city can support the development of the sect," the three-eyed man was very troubled, "But without hope for a long time, the Heartshadow Sect will only grow weaker, and more disciples will leave."

"As the master of the Heartshadow Sect, I'm only commanding less

than twenty percent of the full complement of disciples from the sect's heyday," the three-eyed man felt powerless too.

He was still upholding the true lineage of the Heartshadow Sect.

Those that had split off had long since formed their own factions, even changing their names.

"My Heartshadow Sect was a grand faction established by a Godly King, even after the Godly King's fall, before the split there were three Primal Chaos Overlords within the sect," the three-eyed man just felt sad, "But with one dead and two escaped... the Heartshadow Sect, without the protection of the Primal Chaos Realm, kept splintering and losing disciples."

"Even I have to rely on the protection of Marquis Liu Yin to maintain the 'Heartshadow Sect' name," the three-eyed man silently said.

Marquis Liu Yin is very powerful.

Among all the Primal Chaos Realm masters in the Shi Kingdom, he is a terrifying existence that can be ranked in the top five.

The Heartshadow Sect indeed has a formidable enemy! It led to the death of one and the escape of two among the three Primal Chaos Realm masters of the sect; however, with Marquis Liu Yin merely protecting a group of Heartshadow Sect disciples below the Primal Chaos Realm, that formidable enemy of the Heartshadow Sect could only tolerate it.

"Hm?" The three-eyed man sensed something, looking to his side as the figure of a blood-red fiery silhouette materialized out of thin air.

"Marquis," the three-eyed man immediately stood up, showing his utmost respect.

Marquis Liu Yin looked at him and said, "Every large city within the territory of the Shi Kingdom has its masters, and there are even branches of great clans and the Royal Family involved in each of them. I'm unable to secure a foundation for your sect."

"Just for Marquis Liu Yin's protection, we at the Heartshadow Sect

are already endlessly grateful," said the three-eyed man with utmost respect.

"Now I'm giving you an opportunity to secure a foundation for your sect," stated Marquis Liu Yin.

The three-eyed man's eyes brightened, "Marquis, please command me!"

He had been waiting for this day!

Without the nod from a Godly King or Primal Chaos Overlord, the Heartshadow Sect did not dare to forcefully occupy any large city.

"There are three large cities in the adjoining 'Jiu Jiang Primal Chaos Prefecture' to my fief," said Marquis Liu Yin, "They are Huyang City, Xuyin City, and Jiu Jiang City. Among them, the Marquis of Jiu Jiang lives in Jiu Jiang City. I need your Heartshadow Sect to help me capture Huyang City and Xuyin City! As for Jiu Jiang City... there's no need for you to make a move."

"Capture two large cities?" The three-eyed man felt the pressure too, "If we attack the Marquis of Jiu Jiang's fiefs, the Marquis of Jiu Jiang will likely take action."

After all, if they attack the fief of a Primal Chaos Overlord, it would be natural for the opposite party to react.

"I will bestow upon you a space-time treasure," said Marquis Liu Yin, "If the Marquis of Jiu Jiang takes action, I will utilize this treasure to traverse space-time and arrive directly. I will personally deal with the Marquis of Jiu Jiang."

The three-eyed man breathed a sigh of relief.

"Rest assured, there is a tacit understanding in the conflict between the Shi Kingdom and Yu Kingdom, and eternal true gods will fight each other, but Primal Chaos Overlords won't easily step in. The Marquis of Jiu Jiang will do everything possible to mobilize eternal true gods.

Unless driven to desperation, it's unlikely for him to take action

personally," said Marquis Liu Yin, "Even if pushed to the brink, and we fully occupy the entire Jiu Jiang Primal Chaos Prefecture, I doubt he would dare to make a move."

The three-eyed man nodded, "Facing Marquis Liu Yin, the Marquis of Jiu Jiang is naturally no match."

"I'm actually somewhat looking forward to his intervention," Marquis Liu Yin commented with anticipation.

At their level, they follow strict rules.

After all, both the Shi Kingdom and the Yu Kingdom are powerful states. The Master of the Shi Kingdom has a special relationship with the Flame Wind Ancient Country, but the Monarch of Yu Country is also a Guest Elder in the Flame Wind Ancient Country; both sides have connections.

That is why when Mountain Sitting Guest first fled the Land of Origin, the Shi Kingdom and Yu Kingdom were situated side by side.

Now, as Mountain Sitting Guest has returned and Luo Feng has penetrated the cycle of reincarnation, the Shi Kingdom and Yu Kingdom are still neighbors, with only minor changes in the borderlands.

The two great nations dare not easily break the rules, because the price for breaking them would be very, very high.

"I will give you detailed intelligence on Jiu Jiang Primal Chaos Prefecture, with a specific emphasis on an eternal true god called Lord Luo He," said Marquis Liu Yin.

"Yes," the three-eyed man replied, asking, "Marquis, after capturing the two large cities, where will the Heartshadow Sect be stationed?"

"Huyang City will be given to you," Marquis Liu Yin said. "You only need to give me twenty percent of the residence fee collected from the citizens of Huyang City every century, and another twenty percent to the God Kings. You can keep the remaining sixty percent, and the entire Huyang City... the Royal Capital won't send a manager, the entire city will be managed by you."

"Yes," the three-eyed man said, somewhat excited.

Apart from having to pay forty percent of the residence fee every century, the entire Huyang City would now belong to the Heartshadow Sect, thus providing a solid foundation for its long-term development.

A large city with a vast population was a source of unending resources. Even though the residence fee was the most important, there were also plenty of other resources to be had.

"The prerequisite is that you must capture Huyang City and Xuyin City," Marquis Liu Yin said. "You need to prepare well, and it would be best to call back some disciples who have left. Jiu Jiang Primal Chaos Prefecture is not that easy to deal with."

"I understand," the three-eyed man was very aware of the situation. Although Marquis Jiu Jiang had Marquis Liu Yin to contend with, the large group of eternal true gods under Marquis Jiu Jiang's command, as well as the elite forces they could muster, were not to be trifled with.

They must call back the disciples who left! To make the Heartshadow Sect strong enough! To form a power that overwhelms the opposition! He did not want to capture two large cities only to be severely weakened afterward.

Marquis Liu Yin nodded.

"After all, the Heartshadow Sect was established by a Godly King and even now there are two Primal Chaos Realm fugitives outside, with deep-rooted influence. They should be able to capture Jiu Jiang Primal Chaos Prefecture," Marquis Liu Yin thought to himself.

He would leave such a tough job to the Heartshadow Sect. If a bunch of disciples from the sect died, Marquis Liu Yin would not feel a thing.

…

In Huyang City, within Cave Mansion 913 of the Primal Chaos Armor Sector, this mansion was one of the smaller ones in the sector,

inconspicuous, but it had now become one of the most prestigious within the whole of Huyang City. It had many visitors, yet none could even see a glimpse of Lord Luo He.

Underground in the ceremonial hall within Star Tower.

Morosa was naturally absorbing and digesting the godly body; Luo Feng, through the Flame Wind Association's Dark Hall, was gathering intelligence, comparing it with information from the God King Jin lineage and the Duan Dong River lineage to decide what treasures to buy.

"As for the Primal Chaos Laws, I still need more time to accumulate. But in terms of willpower, I should be close to making a breakthrough."

"I'll buy a strange treasure that aids in willpower cultivation first," Luo Feng resolved to himself.

If his own willpower could break through to the Godly King Level, then his ability to deal with danger would greatly increase.

"Treasures that assist in cultivating willpower are all incredibly expensive," Luo Feng lamented. No option, because his own will was at the peak of Primal Chaos Overlord; common strange treasures could be ignored for his purposes.

He had to buy a treasure used by Primal Chaos Overlords; naturally, every single one was very expensive.

"I can only afford one of the cheaper ones," Luo Feng immediately contacted the Flame Wind Association's Dark Hall. "I would like to purchase a 'Calamity Beast Diagram.'"

"Lord Luo He, the Calamity Beast Diagram is personally rendered by an ancient being of the Flame Wind Ancient Country. Even just looking at a corner of the Calamity Beast Diagram requires a willpower of the Primal Chaos Realm level. If your willpower is below that of the Primal Chaos Realm, even catching a glimpse of a corner would drive you completely mad," the Dark Hall responded.

"Are you sure you still want to purchase it?"

"I need to buy it," Luo Feng was adamant. Such an expensive item he had already verified through gathering information.

"Our Flame Wind Association publicly sells each copy of the Calamity Beast Diagram for a fixed price of 15 million Cosmic Sand," the Dark Hall replied. "You just need to pay the fee at any of our Dark Hall branches, and within ten days, the Calamity Beast Diagram will be delivered to you."

Luo Feng felt the pain in his wallet.

Fifteen million Cosmic Sand for one diagram.

But there was no choice, out of the willpower cultivation treasures that Primal Chaos Overlords often used, the Calamity Beast Diagram ranked in the top three in terms of cost-effectiveness. This top three—the cheapest was the Calamity Beast Diagram.

Cheap, effective, with a lower degree of risk.

To Primal Chaos Overlords, indeed this price was considered very cheap. Some more expensive treasures could even cost over a hundred million Cosmic Sand! For Primal Chaos Overlords, who owned a fiefdom and had a constant supply of residence fees, even a treasure costing upwards of a hundred million Cosmic Sand was within their means, albeit with some gritted teeth.

"With my current wealth, this is the best willpower treasure I can afford," Luo Feng felt that compared to Primal Chaos Overlords, he was still too poor.

…

Meanwhile, under the cover of night, an emissary from Marquis Jiu Jiang had already arrived in Huyang City.

"Brother," the white-haired elder greeted warmly a white-haired youth. "To think that Marquis personally sent you on this mission."

"The Marquis indeed places great importance on this matter; he instructed me personally, so I had to rush here as quickly as possible," the white-haired youth, Jiang Yuyou, said. "Big brother, where is

Lord Luo He right now?"

The white-haired elder answered: "He's in his cave mansion. After killing Yutian Xu, Yutian Yi, and Xue Yun, he first went to collect the bounty at the Flame Wind Pavilion. After that, he returned to his mansion and has refused all visitors."

"I'm here on behalf of Marquis to meet with him; he won't refuse to see me," Jiang Yuyou asked, "It would be embarrassing to be turned away at the mansion gate."

"Don't worry, I've asked Moyu Hu to contact his son, Moyu Qingyan, first to make sure everything is in order before we pay a visit," the white-haired elder explained.

Chapter 74: Episode 2 Chapter 2 Gift

Luo Feng was sitting in front of the pavilion on the mountaintop, drinking the highly toxic "Black Marsh Fruit Wine" while simultaneously practicing the "Great Destruction Heart Refining Technique." Only with this practice could he achieve a considerable effect on honing his will.

"This Black Marsh Fruit Wine, the more I drink it, the more I enjoy its taste." Luo Feng liked the sensation that influenced his entire godly body and even his soul. There was no helping it, his godly body had grown increasingly terrifying after three Body Refinements.

Whoosh! Moyu Qingyan soared up the mountain and said respectfully, "Master, the city owner's mansion has sent a message. Marquis of Jiu Jiang has dispatched an envoy who wishes to visit you."

"An envoy from the Marquis of Jiu Jiang?" Luo Feng was surprised.

"Master, do you wish to see him?" Moyu Qingyan asked.

"Of course, I should. Your master isn't so arrogant as to snub a marquis," Luo Feng said with a smile. "Tell the city owner's mansion that my place welcomes the envoy at any time."

Indeed, many had come to visit him tonight, and Luo Feng had refused all of them before.

Within Huyang City, there was a mix of dragons and fish—so many eternal true gods from various powers that Luo Feng actually looked down upon. However, many of these powers had branches in Huyang City affiliated with the great forces of the Land of Origin.

Behind these forces might be entities at the Primal Chaos Realm or even Godly Kings.

Therefore, Luo Feng did not want to involve himself too deeply with the branches of these great forces. Getting too involved often meant losing control of one's own fate! The best way was to keep a distance from them right from the start.

These branch's eternal true gods held low status and couldn't offer good conditions; besides, there would be many affairs to deal with!

Emperor Chu Yu held a high status and could offer sufficiently attractive conditions, which moved Luo Feng. Of course, only after Emperor Chu Yu and Luo Feng had both advanced to the Primal Chaos Realm through the Law Lineage would Emperor Chu Yu's invitation become a possibility.

"Personal talent is important, but external resources are equally vital," Luo Feng was clear on this. Even for him, he might not have reached where he was today without the resources given by his mentor, the mountain-sitting guest.

In the Land of Origin, the most precious resources were controlled by the two ancient countries.

With the assistance of Imperial Clan resources of the Flame Wind Ancient Country, I could grow even higher! Only then could I be more confident about helping my mentor deal with great enemies!

...

Moli Meng, accompanied by the silver-haired young man 'Jiang Yuyou,' came to visit Luo Feng, and among the Five Great Families, Moli Meng was the most familiar with Luo Feng.

"Please." Inside the pavilion atop the mountain, Luo Feng, Jiang Yuyou, and Moli Meng took their seats.

"Commander Jiang is one of the four trusted aides of the marquis and holds a position in Jiu Jiang City that is above many generals," Moli Meng introduced from the side.

Luo Feng nodded: "I have heard of Commander Jiang's name even here in Huyang City."

He did not wish to live under the Primal Chaos Overlord's scrutiny, but he was familiar with the basic information about Jiu Jiang City.

The core military forces of Jiu Jiang City were commanded by four trusted aides and sixteen generals, making it much stronger than the forces of either Huyang City or Xuyin City.

"Compared to Brother Luo He, I fall far behind," the silver-haired young Jiang Yuyou said with a smile. His strength was comparable to that of Moli Xiao, both far from the likes of General Yong or Xue Yun.

"In the entire Yu Kingdom, there are few who can compare to Brother Luo He," Moli Meng also flattered.

"Commander Jiang, you've come in such a hurry tonight?" Luo Feng asked him.

Jiang Yuyou replied, "Brother Luo He, your defeat of Yutian Xu, Yutian Yi, and Xue Yun was reported to the marquis, who was overjoyed. He immediately ordered me to rush to Huyang City overnight and hand this list to Brother Luo He, from which you may choose any one item."

As he spoke, Jiang Yuyou took out a scroll, which flew in front of Luo Feng.

Unfolding the scroll, Luo Feng took a glance.

"'Void Nine Refinements Secret Manual' First Volume, Godly King level inheritance."

"'Seven Meteor Killing Method,' a complete Primal Chaos Realm inheritance."

...

There were descriptions for nine inheritances in total.

Aside from the first one, 'Void Nine Refinements Secret Manual' First

Volume, which was a Godly King level inheritance, the rest were all Primal Chaos Realm inheritances.

Luo Feng marveled inwardly, for the Marquis of Jiu Jiang had indeed been generous. After all, even the Duan Dong River Lineage only had a total of three Godly King level inheritances. The Marquis of Jiu Jiang himself likely mastered several Godly King level inheritances. Of those available for him to impart... perhaps this was the only one.

"This 'Void Nine Refinements Secret Manual' First Volume, just from the name, one could infer it's related to the 'Great Dao of Void Origin', which isn't very suitable for me," Luo Feng thought to himself.

As one who inherited two lineages, Luo Feng was very clear on this matter.

Primal Chaos Realm sovereigns mastered the Law of Primal Chaos.

To become a Godly King? One must comprehend the 'Origin Great Dao' contained within supreme rules, like the Sector Beast Morosa who was born with the Great Dao of Destruction Origin. Luo Feng had not studied the Void lineage in depth and did not plan on pursuing that path.

"Among these nine inheritances, you, Brother Luo He, may choose anyone. Each one is of immense value, especially the 'Void Nine Refinements Secret Manual' First Volume. That is a Godly King level inheritance, truly a rare opportunity," Jiang Yuyou said. "The marquis values Brother Luo He greatly and is willing to nurture you with all his might.

If you choose none of these inheritances, you can also select ten million Cosmic Sand."

After thinking for a moment, Luo Feng said, "Ten million Cosmic Sand then."

Jiang Yuyou seemed slightly startled.

He chose neither the Godly King level inheritance? Indeed, as the marquis had speculated, such an impressive eternal true god must

already possess a powerful inheritance.

"Alright, the marquis will personally deliver the ten million Cosmic Sand to you through the Flame Wind Pavilion," Jiang Yuyou said.

"Please thank the marquis on my behalf," Luo Feng said.

"The marquis also personally contacted the Monarch of Yu Country about you," Jiang Yuyou mentioned. "The Monarch was also pleased that Yu Kingdom has such an outstanding talent like you, Brother Luo He. He said it won't be long before an opportunity arises, and at that time, the Monarch will send an envoy with it for Brother Luo He."

Luo Feng promptly rose to his feet: "Please convey my thanks to the marquis and to the Monarch!"

Without the Marquis of Jiu Jiang pushing the matter, it might have taken some time for conflicts involving eternal true gods to reach the Monarch. With the marquis reporting personally, for the sake of giving face to his subordinate in the Primal Chaos Realm, the Monarch of Yu Country would surely make some kind of gesture.

So for this, I really must thank the Marquis, as well as the Monarch of Yu Country.

The good intentions of a Godly King cannot be ignored by Luo Feng as if he were an uninvolved deity.

"Brother Luo He has contributed so much to Huyang City, receiving these rewards is only natural. The Marquis has always been this way; whoever earns merit points, the Marquis will never let them go unrewarded," said Jiang Yuyou. "However, the Marquis Liu Yin of Shi Kingdom will probably not let this go. If Huyang City encounters trouble again, I'm afraid we'll still need Brother Luo He's help."

Luo Feng smiled and said, "How much can the effort of one person affect the situation? In the end, it still depends on the city owner's mansion."

"Please rest assured about the conflicts between Shi Kingdom and Yu Kingdom, Brother Luo He. The Eternal True Gods will not bully the weak in their struggles in the Primal Chaos Realm," Jiang Yuyou

explained. "Otherwise, if both sides were to bully the weaker ones, they would have already fought to the point of causing the sky to collapse and the earth to crack."

"I understand," Luo Feng nodded.

This was an unspoken rule, not just in Yu Kingdom and Shi Kingdom, but across the entire Land of Origin.

An Eternal True God, unless unprovoked, the Primal Chaos Overlord, for the sake of face, would not target the weak.

But in cases like Ying Cang's, where one has killed the offspring of a Primal Chaos Overlord, it would be normal for the outraged Primal Chaos Overlord to take action personally.

Or when Primal Chaos Overlords kill each other in battle, one of them, in a bid to save their own life, naturally can do anything! Slaughtering innocents to force the opponent to stop, swallowing a large city whole to restore Divine Power—in the face of survival, no amount of face matters anymore.

...

Having received ten million Cosmic Sand from Marquis of Jiu Jiang, Luo Feng felt his hands were a little freer. Five days later, the 'Catastrophe Beast Diagram' he purchased arrived.

"Deputy Pavilion Master." Luo Feng received him politely.

The figure enshrouded in grey mist, the Deputy Pavilion Master, walked in and handed a scroll shimmering with starlight to Luo Feng: "Luo He, this is the Catastrophe Beast Diagram. Since you dared to buy it, you should already know about some taboos related to comprehending the Catastrophe Beast Diagram."

"Yes," Luo Feng nodded. As a well-known treasure for Will cultivation, both of his inherited lineages had detailed introductions to it.

Moreover, having reached the Pinnacle Will of Primal Chaos Realm, the dangers of comprehension had already been greatly reduced.

"The Catastrophe Beast Diagram was personally drawn by an Emperor of the Flame Wind Ancient Country. The imperial clansmen understand very well how to comprehend the Catastrophe Beast Diagram," the Deputy Pavilion Master said with a smile.

"Normally, the secret techniques for comprehension are only passed within the large families of the Flame Wind Ancient Country and are not easily spread to smaller nations."

"This is a 'Void Diagram' that complements the Catastrophe Beast Diagram. When combined with the two diagrams and used in conjunction with the Secret Technique, the effects of Will cultivation are the best," the Deputy Pavilion Master said as he took out another scroll of the Void Diagram.

Even when the Void Diagram was rolled up, it seemed to contain boundless space and time.

"This Void Diagram..." Luo Feng was amazed.

"The Void Diagram, only members of the Imperial Clan may apply to purchase. It was the Pavilion Master who bought it for you, and quite cheaply at that, only one million Cosmic Sand," the Deputy Pavilion Master said with a smile. "You must use the Void Diagram to comprehend the Secret Technique for it to be effective."

Luo Feng's transmission token also received a copy of the Secret Technique.

"The Void Diagram and the Secret Technique for comprehension are gifts from the Pavilion Master to you," said the Deputy Pavilion Master.

"Please thank the Pavilion Master for me," Luo Feng said gratefully. The Catastrophe Beast Diagram was not restricted from being sold to outsiders, but the matching Void Diagram was only available to imperial clansmen, greatly restricting the distribution range.

In this world, in the end, it's still about strength.

Having shown sufficient strength, both the clansmen from Yu Kingdom and the imperial clansmen of Flame Wind Ancient Country

extended olive branches to him.

...

After the Deputy Pavilion Master left, Luo Feng immediately went into closed-door cultivation to comprehend the 'Catastrophe Beast Diagram' inside the Star Tower.

Whoosh!

Both the Catastrophe Beast Diagram and the Void Diagram floated in the air, with the Void Diagram perfectly superimposed on the 'Catastrophe Beast Diagram'.

"Based on the information I had before, to comprehend the Catastrophe Beast Diagram, one should start from the edges and gradually expand the area of comprehension until eventually taking in the entire scroll," Luo Feng looked at the Catastrophe Beast Diagram before him. "But the method used by the imperial clan of the Flame Wind Ancient Country is to combine it with the Void Diagram."

"Covering the Catastrophe Beast Diagram with the Void Diagram reflects it across Three Thousand Layers of the Void, creating different scrolls for different layers."

"After comprehending the 'Three Thousand Void Catastrophe Beast Diagram,' comprehending the complete Catastrophe Beast Diagram will yield much stronger effects."

Luo Feng observed the first layer of the Void Diagram which reflected the Catastrophe Beast Diagram.

The first layer showed a fierce and terrifying Exotic Beast undergoing countless calamities. With each calamity that befell it, the beast continually transformed. After passing through numerous calamities, the fierce and terrifying Exotic Beast became dazzlingly brilliant, even producing a light so bright it shone like the sun.

This light was the Light of the Spirit, shining upon Luo Feng's own spirit.

Just this first layer of the scroll already required the Will of the Primal Chaos Realm to withstand.

As Luo Feng watched, he felt as if he himself had become the Exotic Beast, enduring the calamities.

The portrayal of the Catastrophe Beast in the drawing and the actual calamities were worlds apart, and after being reflected across three thousand layers by the Void Diagram, it was weakened by billions of times. By the time it reached Luo Feng's spirit, it had already become very weak, merely allowing Luo Feng to savor a taste of it.

By the time he had experienced the entire first layer of the scroll, it was already daylight outside.

"Is this the fundamental sentiment of the Catastrophe Beast Diagram? To let me understand in advance?" Luo Feng immediately began to comprehend the scroll of the second layer of the Void that was being reflected, which was enveloped by an endless sense of death.

The Three Thousand Void Catastrophe Beast Diagram allows understanding of the Catastrophe Beast Diagram from different angles.

The first layer: the fundamental sentiment layer.

The second layer: the despair layer of endless death.

The third layer: the calm nightmare layer.

...

Fortunately, Luo Feng's own Spiritual Will was strong enough that he could immerse himself in comprehending each layer one by one. He felt as if he had transformed into a Catastrophe Beast, going through the trials of each layer.

Chapter 75: Volume 2 Chapter 3 Will Transformation (Part 1)

Luo Feng sat alone at the peak of the cave mansion, watching the fine rain drizzle between heaven and earth.

The Three Thousand Void Calamity Beast Diagram had immersed Luo Feng so deeply that he had only reached the eighth level before temporarily stopping, partly because his spirit felt tired and needed rest, and partly because he needed to pause and ponder carefully.

"The experience of a Catastrophe Beast differs from that of normal cultivators," Luo Feng reflected. "From the moment of its birth, it faces relentless calamities, each designed to drive it to total despair and utter destruction."

The world of cultivators still had order.

But what the Catastrophe Beasts experienced was endless 'calamity.' If at any moment they gave up in despair, they would die.

Only with an 'Heart of Eternality' can one survive the endless calamities!

"Each disaster forges them anew; having survived one, they face another... Such seemingly endless calamities, just understanding the essence makes me shudder," Luo Feng thought to himself.

He, too, had undergone trials and tests of life and death, but not as many as those experienced by the Catastrophe Beast.

"Each calamity seemed to be ordained by some high and mighty law," Luo Feng mused, sensing this high law was different from the highest laws.

"The spirit appears to be the most fragile,"

"Once the spiritual will shatters, even if one possesses a powerful divine body and powerful secret treasure weapons, one cannot exert one's full strength."

"But if the spirit is strong, just by sheer willpower, enemies can be swept away."

"The heart is a weakness, but it can also be the most powerful weapon."

At that moment, Luo Feng also felt some admiration for the Catastrophe Beast; having survived so many dreadful calamities, it finally reached the other shore, completely transforming itself.

Suddenly—

Luo Feng felt that inside his body, the Star Tower, Morosa was asking to come out.

"Master! Master, let me out," Morosa communicated telepathically.

Upon Luo Feng's intention, Morosa appeared out of thin air beside him. Morosa lay down contentedly as he watched the drizzle outside, comfortably rubbing his belly.

"The corpse of Xue Yun is still in the Star Tower; how come you're resting?" Luo Feng looked at him, fully aware of everything inside the Star Tower.

"I'm a bit over full," Morosa lied comfortably, communicating telepathically, "I first absorbed other eternal true god corpses, which were only marginally helpful. But Yutian Xu's corpse is too strong and its bloodline so special that I'm stuffed and can't digest it right away."

Even a Sector Beast could become over full if it ate too rapidly.

The fact that Yutian Xu could cultivate to make his divine body comparable to unlimited divine bodies testified to the terrifying nature of his bloodline.

"You can get stuffed too?" Luo Feng teased telepathically.

"I feel that if I digest for a while, even without absorbing any more divine bodies, I could suffice to reach the Primal Chaos Realm for dozens of eras," Morosa excitedly stood up, transmitting, "Master, if I continue to absorb the Divine Body of Xue Yun after some days... I believe I could directly enter the Primal Chaos Realm after completely absorbing it."

Luo Feng was astonished.

"So soon you want to enter the Primal Chaos Realm?" Luo Feng looked at him.

"Yutian Xu's divine body, comparable to the unlimited divine bodies, is just smaller in size, yet his bloodline is extraordinary. The Divine Body of Xue Yun… attracst me even more than Yutian Xu's," Morosa telepathically communicated. "I am certain, once I have absorbed the Divine Body of Xue Yun, I will certainly achieve the Primal Chaos Realm."

"Master, when will you achieve the Primal Chaos Realm?" Morosa telepathically communicated, deliberately asking.

Luo Feng looked at him, "How are your will cultivation techniques coming along? Later on, inside the Star Tower, how about we spar and test out the Secret Technique of Willpower?"

Morosa gamely grinned.

"Go and teach Qingyan; that kid has yet to grasp even the Ten Fundamental Laws," Luo Feng urged.

"Yes, yes," Morosa didn't boast, instantly transforming into a shadow and flying towards the mountain base to find Moyu Qingyan.

Luo Feng slightly shook his head.

...

Days passed, and Luo Feng, aside from resting every few days, spent his time on understanding the Calamity Beast Diagram.

Suddenly one day.

"Master! Master," Moyu Qingyan urgently transmitted.

"What is it?" Luo Feng was currently inside the underground hall of the Star Tower, delving into the Calamity Beast Diagram; he knew Moyu Qingyan wouldn't disturb him lightly.

"There's a letter for you, said to be a personal letter from the Marquis of Liu Yin," Moyu Qingyan felt pressured, as a personal letter from a Primal Chaos Overlord naturally couldn't be ignored by the master.

Boom—

The door of the underground hall opened.

Luo Feng walked out, his figure flashing, and he soon arrived at the main entrance of the cave mansion.

"Lord Luo He," standing at the cave mansion's main entrance was a rock creature who smiled accommodatingly, "I am 'Chen Shijiu' from Qian Shi Commerce Association, entrusted by the Marquis of Liu Yin of Shi Kingdom to deliver this personal letter to you."

The Qian Shi Commerce Association was also a major commerce association spread across multiple nations, backed by several Godly Kings, and likewise had a branch in Huyang City.

"Thank you, Chairman Chen," Luo Feng knew the other's identity.

"Just delivering a letter, so I'll take my leave now," the rock creature said with a smile; as the chairman of the Qian Shi Commerce Association branch in Huyang City, his status and influence were top-tier within the city, but he remained very humble in front of Luo Feng.

Luo Feng took the letter and watched the other leave.

The door closed, and Luo Feng's figure flashed as he already reached the top of the mountain; he immediately began to examine the letter.

As he peeled away the outer layer of the seal...

Hum!

The letter burst into flames, burning into a mass of blood-red fire, startling Luo Feng slightly.

"A Divine Power Incarnation?" Luo Feng naturally realized that a strand of terrifying divine power was hidden within the letter, which was triggered as he opened it.

The blood-red flames coalesced into a figure clad in dark red armor, vaguely emitting an aura of dark disaster, smiling at Luo Feng with eyes that were two blazing orbs of blood-red flames.

Even as he smiled, Luo Feng still felt an ominous terror, carrying a strong threat.

"Marquis Liu Yin?" Luo Feng was also somewhat familiar with simple information about Marquis Liu Yin.

"It is I," Marquis Liu Yin nodded with a smile, "I heard about a remarkable eternal true god in Huyang City, and I came to meet him in person."

"The Marquis flatters me. Compared to you, we eternal true gods are not worth mentioning," Luo Feng immediately replied.

"Today you are an eternal true god, perhaps in the future, you will also be a Primal Chaos Overlord, a peer of mine," Marquis Liu Yin stood atop a mountain looking at the vast city, "Huyang City, a beautiful city indeed. I intend to make it part of my fiefdom. What do you think?"

Luo Feng immediately said, "The conflict between Liu Yin Primal Chaos State and Jiu Jiang Primal Chaos Prefecture is not something an eternal true god like me can decide."

Marquis Liu Yin gazed at the vast heaven and earth, sighing, "In the Land of Origin, powers are mixed, every resource has its master! Even Godly Kings often have no chance to intervene in the most precious resources."

"Those of us who want to ascend the path of cultivation, evolving to

higher levels of life. Personal cultivation is one part, resources are another," Marquis Liu Yin looked at Luo Feng, "The fiefdom of a Primal Chaos Overlord can produce resources endlessly. Unfortunately, I only have one Primal Chaos State as my fiefdom, too small!"

Luo Feng listened.

"According to the rules of Shi Kingdom, a Primal Chaos Overlord has only one Primal Chaos State as a fiefdom. Want something bigger? You have to conquer it yourself," Marquis Liu Yin commented, "Jiu Jiang Primal Chaos State adjacent to mine is my perfect target."

"For my path of cultivation, I need to expand my fiefdom," stated Marquis Liu Yin, "No one can stop me, for stopping me is to obstruct my path of cultivation."

The voice of Marquis Liu Yin carried an unshakable will.

"If the Marquis of Jiu Jiang obstructs me, I will handle him personally," Marquis Liu Yin looked at Luo Feng, "And at the level of an eternal true god, your single-handed power can surpass the entire army of Huyang City. I hope you do not intervene in this matter."

"If you do not intervene, I will send you a gift, and we can also be friends."

"If you intervene, messing up my plans..." Marquis Liu Yin looked at Luo Feng, "Think about it, is it worth it to risk your life for an unrelated Marquis of Jiu Jiang?"

After finishing, the figure of Marquis Liu Yin dissipated.

Knowing Luo Feng's intelligence after understanding his loathing of evil and that he was difficult to use, Marquis Liu Yin decided to intimidate him a bit, a retreat on Luo Feng's part would naturally be good. Even if unsuccessful there was no loss for him.

"This Marquis Liu Yin seems very intent on seizing Jiu Jiang Primal Chaos Prefecture," Luo Feng slightly frowned, clearly even Primal Chaos Overlords cared greatly about the continuous resource output of their fiefdoms.

"I should still act with caution in my future actions," thought Luo Feng.

In fact, Luo Feng had never truly intended to risk his life for the Marquis of Jiu Jiang! Whether it was the regular conduct of the Five Great Families of the city owner's mansion or preparing himself to cope with the future kings of Shi Kingdom, there was no need to put himself in jeopardy.

"Marquis Liu Yin coming to see me personally, this Huyang City and even the entire Jiu Jiang Primal Chaos Prefecture, might be about to face a war," Luo Feng thought for a while, then returned to the underground hall.

The ownership of Jiu Jiang Primal Chaos Prefecture should worry the Marquis of Jiu Jiang, the Godly Kings of Yu Kingdom, not himself. How many benefits were there really, to warrant risking his life?

Inside the Star Tower.

Luo Feng sat cross-legged, gazing at the Three Thousand Void Calamity Beast Diagram floating in midair.

"At the 533rd layer, the Catastrophe Beast faced battle after battle, during which it also encountered some companions," Luo Feng could see on the reflected Void Diagram, besides the Catastrophe Beast, there were some similar Catastrophe Creatures, "but its companions fell one by one, some even killed by the Catastrophe Beast itself."

...

"At the 679th layer, the Catastrophe Beast had no more companions, at this moment it was even more lonely, yet even more powerful. Its Spiritual Will grew more terrifying, solving all the calamities it faced..."

Luo Feng vaguely sensed a path of telepathic cultivation, belonging to the Catastrophe Beast's Telepathy Method.

At over six hundred layers, the Catastrophe Beast's Spiritual Will had grown terrifyingly, far surpassing Luo Feng at that moment, capable of causing the vast heaven and earth to vanish and the intangible

laws of calamity to collapse with just a thought.

A whisper of realization from Luo Feng made him feel his own spirit also slowly transforming.

...

"At the 852nd layer, the Catastrophe Beast encountered the most terrifying calamity ever, another similar Catastrophe Beast, the two beasts fought a battle to the death."

"This terrifying battle lasted a long time, until the 873rd layer in the Void Reflection Diagram, the Catastrophe Beast finally triumphed, undergo a significant transformation during this victory."

Luo Feng, just by observing the Three Thousand Void Calamity Beast Diagram, and from the imageries of these scrolls, felt as though he was growing alongside the Catastrophe Beast, and he gained a lot from it.

"A heart, can be large or small; large enough to be an enemy of the supreme laws, small enough to merge with countless lesser beings."

"After merging with numerous lesser beings, it can match the highest supreme."

At the 873rd layer, as the Catastrophe Beast triumphed and transformed completely, Luo Feng perceived more of the Catastrophe Beast's method of telepathic cultivation, his own spirit also slowly transforming.

"Boom~~~"

Long since an eternal true god, he had been at the peak of a Primal Chaos Overlord's will.

Nurtured in a formidable godly body, honed under the Secret Technique of L...

Chapter 76: Volume 2, Chapter 4: The Transformation of Will (Part 2)

Spiritual Will had at that moment entirely stepped into a new realm.

If before Luo Feng's Spiritual Will was 'tenacious and indestructible, not shaken even if the world ends, can cut through all obstacles on the path', then at this moment Luo Feng's Spiritual Will had gained an additional layer of nuance—'Spiritual Will, when gathered, can be as unstoppable as the heavens and earth. When divided, it can branch into billions, endlessly bursting with vitality'.

Even if Luo Feng's Spiritual Will was subjected to a terrible attack, as long as a trace remained, it could rapidly recover to its pinnacle.

This was the 'Heart of Eternality' that Luo Feng had comprehended from the Calamity Beast Diagram—possessing the Heart of Eternality was the key to overcoming countless calamities and reaching the final shore, to truly transform oneself.

"My Spiritual Will had long ago reached the peak level of a Primal Chaos Overlord. Yet even becoming an eternal true god, with a godly body a hundred billion times stronger, and after cultivating the Lie Yuan Technique for more than two dozen eras, I still hadn't made a breakthrough. It was all because I lacked an essential understanding."

"Without an essential understanding, one can only rely on the passage of time to refine oneself. I'm afraid that only after several thousand or even tens of thousands of eras of refining the Lie Yuan Technique can the breakthrough to a Godly-King's Will occur," Luo Feng suddenly had this enlightenment.

Time is indeed magical.

With long periods of refinement, there will eventually be rewards.

But the fact that I could make a breakthrough in such a short time owes much to the Three Thousand Void Calamity Beast Diagram, which has transformed my understanding of Spiritual Will.

"I've only grasped the mere basics of the Calamity Beast Diagram, and yet I've transformed. How terrifying must the actual Calamity Beasts be?" Luo Feng wondered.

"With this transformation of will, my strength has finally increased significantly. Facing a Primal Chaos Overlord, I now have means to respond," Luo Feng felt considerably more at ease.

In the past, it was the Pinnacle Primal Chaos Will combined with the Lie Yuan Technique, but the ancient Primal Chaos Overlords possessed a variety of inheritances, all with rather formidable Secret Techniques of Willpower, and even those with exceptional talent could comprehend the Origin Great Dao to create their own Secret Technique of Willpower.

Their will, even if not reaching the Pinnacle of Primal Chaos, generally would not differ by much.

Therefore, once they engaged in battle, if the gap in willpower was not significant, then merely relying on the advantage of the Lie Yuan Technique would make it difficult to defeat the opponent.

An injured Primal Chaos Overlord could still launch a frenzied counterattack!

"According to my master's intelligence, amongst the Primal Chaos Overlords, only a few have Spiritual Wills that have broken through to the Godly-King level," Luo Feng thought, "Below the level of a Godly-King's Will, it's likely that none can match me."

A Godly-King's Will and the Pinnacle Primal Chaos Will are fundamentally different.

With the advantage of the Lie Yuan Technique, I would be more than sufficient to sweep through most of the Primal Chaos Realm!

"As my strength increases, the advantage of the Lie Yuan Technique will also diminish," Luo Feng understood this point, "According to my master's information, Yuan in the Land of Origin is a legend who has escaped the braided cage. He has also guided many juniors and left behind some inheritances. The Lie Yuan Technique is just one among them."

The inheritances left by Yuan indeed caused a scramble among the various forces in the Land of Origin, with the majority ultimately being controlled by the two Ancient Countries.

"Moreover, my master suspects that there must also be some ancient beings in the two Ancient Countries who have broken free from the Braided Cage, because those countries are far too strong compared to others, with many mysterious and powerful inheritances," Luo Feng mused.

"For instance, the emperor of the Flame Wind Ancient Country who painted this drawing. I've only grasped a bit of the fundamentals, and yet I've made a breakthrough."

"And he, had watched the Calamity Beasts and personally painted many Calamity Beast Diagrams."

Luo Feng had some understanding that these Calamity Beast Diagrams were sold to outsiders for 15 million Cosmic Sand each. But to that emperor of the Flame Wind Ancient Country, he probably didn't care about the Cosmic Sand at all. What he cared about were the repeated drawings of the Calamity Beast Diagrams.

Each time he drew, it must have been an act of spiritual Cultivation.

"That emperor who drew the Calamity Beast Diagrams, to what realm has his Spiritual Will reached?" Luo Feng could sense, even from just a part of the Three Thousand Void Calamity Beast Diagram, how vast the gap between himself and the painter was.

My Spiritual Will has just entered the threshold of a Godly King's level.

And what about him?

"The Flame Wind Ancient Country is indeed unfathomable. If one emperor is so terrifying, there are probably more than one of such beings." The higher Luo Feng's strength rose, the more serene he became.

He had not a hint of arrogance, knowing there were many stronger than him. But he also had not a trace of inferiority, for even at the stage of an eternal true god, he possessed a Godly King's Will; when he becomes a Godly King in the future, to what realm will his Spiritual Will reach?

Sigh.

Luo Feng glanced at the Three Thousand Void Calamity Beast Diagram floating in the air and with a single thought, he left the Star Tower.

...

When Luo Feng exited the underground hall, he saw Morosa leisurely eating and drinking at the foot of the mountain.

"It's been so long, and you're still not done digesting?" Luo Feng took a step and approached Morosa.

Morosa smiled naively: "I can't waste the effects, I need to fully digest them. I guess in a few more days, I can go into seclusion again."

Luo Feng nodded in understanding.

Going into seclusion again meant that it was time for Morosa to consume the Divine Body of Xue Yun to achieve the Primal Chaos Realm.

"When the time comes, my realm will also breakthrough, and I'll master several Innate Secret Techniques," Morosa communicated through his spirit, "I can also show the master the complete Law of Primal Chaos."

"Let's see your performance," Luo Feng smiled faintly.

The higher Morosa's realm, the more mysteries of destruction's origin

he could show to Luo Feng, which naturally included the Law of Primal Chaos.

The Law of Primal Chaos is magical, the foundation of any Origin Great Dao.

The Sector Beast is indeed the favored child of the highest rules, naturally mastering the origin of destruction and, with growth, would ultimately fully control the Great Dao of Destruction Origin, possessing inconceivable abilities.

"Master, I feel you're a bit different today," Morosa observed Luo Feng, for as a soul-enslaved servant, with their spirits connected, he could faintly sense the changes in his master.

"I've had some realizations in my Cultivation," Luo Feng said, "You go ahead and eat slowly."

Luo Feng flashed and was already at the mountain peak.

Morosa glanced over and muttered under his breath, "Some insights? Keep having insights, but I've already become Primal Chaos Realm... " The taste of being stronger than his own master, Morosa found it particularly exhilarating.

******

Hometown, Luo Feng's small universe.

Luo Feng and his wife, Xu Xin, were leisurely exploring; their small universe had a diameter of a hundred billion light-years, and human civilization was extremely flourishing.

Although Luo Feng could sense countless planets within the small universe with a thought, that would make it boring. He chose not to deliberately probe, and instead enjoyed touring different places with his wife, discovering fresh new experiences.

"Luo Feng, let's go! Accompany me to see the Divine Tree on this planet. Just one planet, and yet over 70% of it is made up of a single Divine Tree, it's so interesting," Xu Xin said.

"You go ahead," Luo Feng said. "I have something to do today."

"I should go first?" Xu Xin was startled. "Can't you just send a Divine Power Incarnation to handle your affairs? You don't have the energy to accompany me?"

Her husband's realm was so high, he could manage many Divine Power Incarnations simultaneously with a single thought.

"Today is different," Luo Feng shook his head. "Even my True Body at the other end of the Samsara Channel needs to rest and give this my all."

"What is it?" Xu Xin asked curiously.

"Dealing with the Primordial Cosmos," Luo Feng said.

Xu Xin was shocked. "Dealing with the Primordial Cosmos?"

"Yes, I need it to completely open up the Source Ground of the Primordial Cosmos to me," Luo Feng said. "During the last Reincarnation Era, when the Primordial Cosmos was destroyed, I entered the Source Ground of the Primordial Cosmos. Back then, the Primordial Cosmos only allowed me into a small corner of the Source Ground."

"Now, I want it to open up every part of the Source Ground of the Primordial Cosmos to me, without any hidden areas," Luo Feng continued. The information from the master, from the Duan Dong River lineage, and even some information circulated on the Land of Origin all had records about the Primordial Cosmos.

The Primordial Cosmos, with its three thousand dimensions, allowed strong beings who braved the cycle of reincarnation to arrive on the Land of Origin a chance if their will was strong enough to seize control of the Primordial Cosmos.

However, the will of the Primordial Cosmos was generally very strong; it often required a Primal Chaos Level will, and possibly even a Godly King Level will to be successful.

Thus, those who successfully seized control were still few and far

between.

But for every successful individual, the benefits for their cultivation were substantial! It's individuals like the Mountain Sitting Guest, who were already Godly Kings, that didn't have much ambition to seize control of the Primordial Cosmos.

"Completely opens up every part of the Source Ground?" Xu Xin didn't quite understand, but she knew from listening that it was extraordinary.

"In that situation, the life and death of the Primordial Cosmos's will would be in my hands," Luo Feng explained. "I could erase its will at any time, replacing it with my own, and control the entire Primordial Cosmos. So... the will of the Primordial Cosmos won't agree to it easily."

"I never thought about having to erase its will; I'll give it a chance to live, provided it opens up the Source Ground to me completely," Luo Feng said.

This was the biggest opportunity for every strong being that came to the Land of Origin through the cycle of reincarnation.

"Are you confident?" Xu Xin asked.

"I wasn't in the past, but now I am," Luo Feng said.

According to the information, even if the naturally born will of the Primordial Cosmos used the cosmos as its vessel, it couldn't contend with a Godly King Level will.

"Be careful," Xu Xin knew the importance of her husband's task.

"The one that needs to be careful is the Primordial Cosmos," Luo Feng said with a slight smile.

...

At this moment, a strand of Divine Power Incarnation had already left the small universe and was traveling through the void, heading straight for the Primordial Cosmos.

At this moment, Luo Feng's True Body and other incarnations were resting, with almost all of his consciousness focused on this strand of Divine Power Incarnation, making its consciousness exceptionally vast.

"Boom~~~" This strand of Divine Power Incarnation had barely approached the Primordial Cosmos when an invisible wave of Spiritual Will crushed down.

One was a weak Divine Power Incarnation.

The other was the immeasurably vast Primordial Cosmos.

Without the constraints of the supreme laws, when Luo Feng's Spiritual Will collided with the Primordial Cosmos, the will of the Primordial Cosmos began to tremble.

A vibration came through, inquiring about Luo Feng's purpose.

"Will of the Primordial Cosmos, you should know that, as a creature born from the Primordial Cosmos, being powerful enough gives me the right to control it. This is an opportunity for cultivation granted to me by the supreme laws," Luo Feng's thoughts conveyed.

The will of the Primordial Cosmos sent back vibrations, a mix of annoyance and urgency.

"You understand, you can't threaten me," Luo Feng continued to convey his thoughts. "I give you two choices, one is to open up the Source Ground of the Primordial Cosmos to me completely, leaving no secrets from my sight. Your will would still exist and could still control the Primordial Cosmos.

The other option is to refuse me, and my will would invade the Primordial Cosmos, even into the Source Ground. Then, I will erase your will and completely control the Primordial Cosmos."

The will of the Primordial Cosmos sent out waves, it was negotiating.

The Source Ground was very important to it, just as the True God's Heart was to a True God; if completely opened, Luo Feng could erase it at any moment, and it would be powerless to resist.

It only wanted to open up a part, unwilling to expose its most core areas.

Chapter 77: Episode 2, Chapter 5, The Primordial Cosmos Will Bows Down

The Primordial Cosmos Will wanted to negotiate, and in response, Luo Feng sent forth his spiritual will with a single thought, "Boom～～～" The formidable might of the Godly-King's Will made the Primordial Cosmos Will considerably wary.

"I'm not here to negotiate with you, the Source Ground of the Primordial Cosmos must open up to me completely." Luo Feng conveyed his thoughts, "Will you agree, or will you refuse?"

The Primordial Cosmos Will sent out fluctuations.

It had the entire Primordial Cosmos as its carrier, and the Source Ground possessed extremely strong protection, it was capable of resistance.

"I admit, you can marshal forces to fight back, and perhaps this Divine Power Incarnation of mine will collapse," Luo Feng gazed upon the vast and boundless Primordial Cosmos, thoughts transmitting, "But if one of my Divine Power Incarnations collapses, I will immediately send out a second one, a third one, endlessly... In this confrontation, your defeat is certain!"

The Primordial Cosmos Will fell silent.

Originally, the Primoridal Ancestor attempted to replace the Primordial Cosmos Will with his own, using the 'Virtual Universe' to cover the entire Primordial Cosmos, launching an internal attack suddenly, posing a greater threat. Yet once he failed, he was suppressed by the Primordial Cosmos.

It was Luo Feng who later resolved the catastrophe of the Sector Beast, convincing the Primordial Cosmos to release the Primoridal Ancestor.

As for Luo Feng's Divine Power Incarnation attacking from the outside, the demand on will was higher, yet it was also safer.

"While it's difficult for the will to invade the Primordial Cosmos from outside," Luo Feng's thoughts transferred, "I have endless opportunities. How many times can you stop me?"

"Hum～～～" The Primordial Cosmos Will transmitted information.

It had multiple dealings with Luo Feng and wanted to persuade him.

"Indeed, we have some connections, so I am giving you a chance. If you won't even grant me the opportunity for comprehension... you can't blame me," Luo Feng's eyes turned cold as his will became more terrifying, surging massively already invading the Primordial Cosmos.

Luo Feng's will, dispersed into billions infiltrating everywhere, yet also formed into a cohesive oppression, making it very hard for the Primordial Cosmos Will to withstand.

There was a vast gap between their realms.

"So be it, perhaps the Primordial Cosmos Will is not willing to yield. Then, I can only take action," Luo Feng shook his head, humans needed meat to eat, and for cultivators facing opportunities bestowed by heaven and earth, they could not afford to miss them.

Seizing the chance to control the Primordial Cosmos was the greatest opportunity for those braving the Reincarnation Era, its value on par with the Lie Yuan Technique.

Once obtained, one foot was already stepping into the Godly-King level.

But of course, securing this opportunity was extremely difficult! The chances of an eternal true god successfully soul transferring were rather low, although Primal Chaos Overlords stood a much better chance.

However, the powerhouses of the three thousand Primordial Cosmoses started from too low a point and had to follow the path of laws, making it incredibly difficult to become eternal true gods, let alone Primal Chaos Overlords.

Moreover, if their growth was too slow, they would face the catastrophe of the Sector Beast!

The Sector Beast could devour Primordial Cosmoses, which still had the opportunity to grow anew. However, the small universes of the eternal true gods had no means to withstand a grown Sector Beast.

This showed how incredibly difficult it was to take control of the Primordial Cosmos!

With the opportunity before him, how could Luo Feng let it slip by?

"Boom～～～" Luo Feng's spiritual will had already struck into the Primordial Cosmos, wherever the Primordial Cosmos Will tried to defend, it crumbled away.

"Hum." Suddenly, the Primordial Cosmos Will sent out a message.

Luo Feng was surprised for a moment, then laughed, "I thought you truly wouldn't yield."

At this moment, the information conveyed by the Primordial Cosmos Will was clear: It conceded, bowed down, willing to completely open the Source Ground of the Primordial Cosmos. Its only request was to hope not to be erased.

It had wisdom; it too wanted to live.

"Rest assured, I keep my word," Luo Feng responded to it.

Immediately, Luo Feng stepped forth and entered into the Primordial Cosmos, the vast dark region ahead naturally formed into a wormhole passage leading to a place of mystery.

"When I resolved the catastrophe of the Sector Beast, I felt the great destruction of the Primordial Cosmos in one corner of the Source Ground," Luo Feng reflected silently, "But now, before the strength on

display, the Primordial Cosmos Will has yielded, allowing me to comprehend the operations of the Primordial Cosmos Laws at my leisure."

Following this natural wormhole passage, Luo Feng arrived at a vast and mysterious space.

This immense space was impossible to find with ordinary senses.

It drifted with countless specks of light.

These countless specks were scanned over by Luo Feng with a thought. Some seemed minuscule but contained immensely vast energy. Others, however, were filled with a great deal of information.

"The Primordial Cosmos underwent great destruction and then began anew, flourishing and declining, only to be destroyed again in a continual cycle," Luo Feng mused, "The Source Ground keeps records of information from cycle to cycle in the Reincarnation Era."

Information of various civilizations, of powerful secret techniques.

But for Luo Feng, these meant little. After all, the creatures living within the Primordial Cosmos were too weak.

"Whoosh." The Primeval Space enveloped Luo Feng in colorful radiance, as if he were clothed in a robe of colors.

At that moment, Luo Feng's will extended instantly.

At that moment, the Primordial Cosmos was like a physical body, his will fused with it as one.

He himself was the Primordial Cosmos!

At that moment, Luo Feng could feel himself embodying the Primordial Cosmos, breathing in, drawing in endless energy from the Universe Ocean, transforming into endless life energy stored within the Primeval Space, while also exhaling a large amount of harmful substances.

But even the Primordial Cosmos, in its operation, would gradually

decline and inevitably move towards ultimate destruction; only through destruction could it welcome new life.

"Truly wonderful," Luo Feng felt.

The countless celestial bodies within the Primordial Cosmos, or even a grain of sand, a wisp of air, all were incarnations of Luo Feng.

Luo Feng could feel their lifecycles. Some flowers, grasses, and trees might have extremely short lifecycles, while celestial bodies could last much longer. Even galaxies and starfields have lifecycles.

Galaxies and starfields do not possess conscious life.

However, flesh-and-blood life, plant life, and so forth, can indeed gain consciousness and embark on the path of evolution.

"All this is the influence of the laws in operation," Luo Feng observed, and his understanding of the functioning of laws also deepened.

From a macro perspective, the operation of the laws in the Primordial Cosmos guides the evolution of the entire cosmos. But on a micro level, the operation of many laws leads to changes in everything, even brimming with infinite possibilities.

The entire human race, including Luo Feng himself, is the result of these laws in operation.

"An invisible hand guides the evolution of all things. And this invisible hand is the operation of the cosmic laws," Luo Feng felt keenly, knowing that the Ten Fundamental Laws were only the most superficial aspect.

It's like "One begets two, two begets three, three begets everything."

The Ten Fundamental Laws are merely 'three', it's their ability to create everything that fascinates Luo Feng.

…

On a planet within Luo Feng's miniature universe.

Xu Xin wasn't in the mood to watch the planet's tree, instead staying by her husband's side as Luo Feng sat cross-legged under the tree with his eyes closed.

"I wonder how Luo Feng is faring against the will of the Primordial Cosmos." Xu Xin was very worried, as that was the will of the Primordial Cosmos, after all. Suddenly, she noticed Luo Feng opening his eyes.

"How is it?" Xu Xin asked immediately.

"The will of the Primordial Cosmos has yielded," Luo Feng said with a smile, "It has opened up the Primeval Space to me, indeed a great aid to cultivation."

"That's good to hear," Xu Xin said happily.

She had always been worried about her husband's days on the other end of the Samsara Channel, after all, his True Body was there, and if he died, it would be a true death! She couldn't help much, so seeing her husband gain a great opportunity naturally made her happy.

"Is it very dangerous on the other side of the Samsara Channel?" Xu Xin asked.

"It's alright," Luo Feng replied with a smile, "Your husband I keep a low profile and don't cause trouble, and even if there are some, they're just small issues."

The Land of Origin is said to be dangerous, naturally hiding endless perils.

If not deemed dangerous, and one keeps a low profile and doesn't provoke terrifying existences, it can still be managed quite comfortably.

…

At the Source Ground within the Primordial Cosmos, Luo Feng immersed in comprehension for a long time before finally stopping.

"When the Ten Fundamental Laws are completely merged into one, it

forms the Law of Primal Chaos," Luo Feng murmured, "And the operation of the Primordial Cosmos Laws is far more vast than the Law of Primal Chaos."

"Merging with the Primordial Cosmos, feeling its breath, its movements, has greatly aided my comprehension of the laws."

Luo Feng looked into the distance.

The vast space wherein the Source Ground was located, extremely large, also concealed a true core. This was also recorded in the intelligence from his master, Mountain sitting guest, and from the Duan Dong River lineage.

The will of the Primordial Cosmos didn't dare to be evasive. Once it said it would open up completely, it had to be complete.

If it was evasive, the consequences would likely be very serious. It was well aware of Luo Feng's temperament.

Hu.

With a step, Luo Feng had already arrived at the true core of the Source Ground.

"Hmm?" As soon as he arrived, Luo Feng saw the substantial manifestation of an immense 'Dao'.

At first glance, it seemed like an endless, winding dragon with twenty-four claws, each dragon scale containing endless information, and each of the twenty-four claws contained information far beyond the Law of Primal Chaos.

Its vastness and depth were indescribable. His Perfect Divine Body was strong, but in front of it, as fragile as floating dust.

Its size was infinite. It was hidden within the Source Ground of the Primordial Cosmos, but its vastness, Luo Feng felt, transcended the Primordial Cosmos—it was boundlessly immense.

Merely by watching, Luo Feng naturally received a great deal of information.

"Is this the legendary core of the Primordial Cosmos—the Great Dao of Life Origin?" Luo Feng looked up at it, so astounding.

At first glance, it is a serpentine dragon.

On closer inspection, it resembles a river that runs through past and future; time and space cannot erode it—it is an eternal existence.

And yet another look, it is an endless magnificent godly body! Luo Feng had once seen the imposing corpse of God King Jin with his own eyes, and compared to what he now saw, it was utterly insignificant. That seemed to be the ultimate pursuit of his 'Perfect Divine Body'.

From different angles come different views.

It is the origin of countless lives.

It even represents the very concept of life itself.

"The Great Dao of Life Origin." Luo Feng murmured, "A complete Origin Great Dao, without any concealment, right before my eyes."

"This is the greatest opportunity to control the Primordial Cosmos!"

Chapter 78: Episode 2 Chapter 6 Confronting Life Origin

In the heart of the Source Ground of the Primordial Cosmos, Luo Feng was gazing up at the majestic and vast 'Great Dao of Life Origin' before him.

Previously in cultivation, Luo Feng had scarce resources, far less than the elites nurtured by the Shi Kingdom and Yu Country, let alone compared to the elites of the two Ancient Countries. The 'Calamity Beast Diagram' that excited him was merely a cheap resource sold externally by the Flame Wind Ancient Country.

The so-called 'Void Diagram paired with Calamity Beast Diagram' was also circulated among the descendants of the big families in the Flame Wind Ancient Country.

Clearly, in the eyes of the Flame Wind Ancient Country, such resources were trifling.

Yet with just these resources, Luo Feng's will broke through to the Godly King level.

"The Great Dao of Life Origin is right in front of my eyes, and Morosa can also demonstrate some mysteries of the 'Great Dao of Destruction Origin' for me. At least with these two Dao of Origin, my cultivation will be much smoother," thought Luo Feng.

There are many types of Origin Great Dao.

Great powers cultivating their descendants can choose a suitable path according to what they are good at and equip them with corresponding resources.

Luo Feng had fewer choices available to him.

Given the possibility to choose... Luo Feng was already very grateful.

"What I comprehend most deeply is the 'Source of Life and Death,' both the Life Origin and Destruction Origin are quite suitable for me," Luo Feng was quite satisfied.

"According to the information left by my master, the Primal Chaos Overlord, upon comprehending the threshold of the Origin Great Dao, one can become a Godly King. Upon becoming a Godly King, one can then begin to glimpse some of the aspects of the Origin Great Dao they are comprehending."

Before becoming a Godly King, the Origin Great Dao is invisible and intangible.

Naturally, there are indirect methods, such as a Godly King personally displaying the Dao to a disciple, or some rare treasures that can manifest parts of the 'Dao.' Owning the Primordial Cosmos allows one to see the 'Great Dao of Life Origin.'

"The Dao is before my very eyes, but to comprehend it, I must rely on myself," Luo Feng was very clear on this.

The two Ancient Countries had numerous opportunities, but how many could become a Godly King? Even Emperor Chu Yu was at the stage of eternal true god now.

Regardless of how abundant the resources are, it still depends on the individual!

The Calamity Beast Diagram was openly sold throughout the Land of Origin, but how many have a will at the Godly King level?

"Life Origin…" Luo Feng, sitting cross-legged in the Void, watched the Great Dao of Life Origin before him. Just by watching, a wealth of information surged into his mind.

This serpentine dragon before him, each of its scales imprinted vast amounts of information into Luo Feng's consciousness, and those twenty-four claws were even more so, constantly inundating him with vast information, with a swarm of information about the 'Great Dao of Life Origin' being too vast and complex, flooding in all at

once.

As the massive information surged in, Luo Feng's past understanding of the laws seemed superficial.

The information from the 'Life Origin' carried a supreme beauty with each piece, naturally changing many aspects of Luo Feng's cognition.

"This isn't right."

Luo Feng had only comprehended for a moment before he immediately woke up, and in an instant, he dispersed this incarnation of Divine Power.

...

In the Land of Origin, Yu Kingdom, Huyang City.

Luo Feng was also in seclusion in the underground hall, and at this moment, he felt a sense of fear.

"So, facing the complete Life Origin directly is so dangerous?" Luo Feng was secretly alarmed, "No wonder soul transferring the Primordial Cosmos requires a high level of will. If the will is too low... facing the Life Origin directly can easily lead to complete loss of self."

One's own understanding can be completely altered by the impact of more profound 'Dao' information.

It could even drive one completely insane, which is entirely possible.

"What I control is truly mine."

"I must take it step by step, absorbing what I need, discard what is currently unsuitable for me, establishing the foundation of my own Dao," Luo Feng understood that there was nothing wrong with the massive information, but his own realm was too low.

It's like asking an elementary school student on Earth, who had just learned addition, subtraction, multiplication, division, and some basic equations, to immediately face a deluge of higher mathematics

information. Most importantly, this influx was chaotic!

The best approach should be from low to high, from shallow to deep, evolving gradually.

Every step of the foundation must be solid to have the hope of fully analyzing the entire Life Origin.

If one were to absorb all the information, it would only contaminate one's cognition.

"Fortunately, I have reached the Godly King's will and can maintain absolute clarity," Luo Feng knew that face-to-face with Life Origin was an opportunity not less than the 'Lie Yuan Technique,' but the prerequisite was to be able to grasp it.

If not able to grasp it, it can be harmful rather than beneficial.

"Starting with my original cognition as the core, I began to absorb what is useful to me," Luo Feng segmented his memory.

The memories before watching the Life Origin were one part, the memories contacted after watching the Life Origin were another part, and he began selectively absorbing information from the latter part, temporarily sealing away what was momentarily useless.

At Luo Feng's level, memory control was quite an easy task.

"First sort through the information, slowly integrating it into myself," Luo Feng calmed down to cultivate, only after sorting out, researching, reflecting, summarizing, and absorbing all the information from this observation could he proceed to watch the Great Dao of Life Origin again.

******

Time passed, and Luo Feng temporarily stopped comprehending the 'Three Thousand Void Calamity Beast Diagram,' focusing on the comprehension of laws, as the taste of continuous slow improvements was indeed wonderful.

This was much more efficient than the comprehension he had done

over the past two decades.

"Master, master," Morosa came to the door of the underground hall, conveying through the mind, "I've digested it all, you can let me in now."

Morosa also found this somewhat strange.

In the past, the master often came out to rest, but this time the comprehension session was quite long.

"Buzz." The doors to the underground hall opened, and when Morosa saw Luo Feng, a knot formed in his heart. Could it be that his master was not too pleased?

After all, Luo Feng was immersed in the comprehension process, and Morosa had suddenly interrupted him, leaving his thoughts still afloat.

"Hurry up," Luo Feng beckoned and sent Morosa into his exclusive layer of space within the Star Tower, then continued to comprehend the Mysteries of Law.

Arriving at his own layer in the Star Tower, Morosa sat cross-legged in front of the corpse of Divine Monarch Xue Yun, immediately beginning to absorb. The Divine Monarch's body started to disintegrate, and the dissolving Divine Power and bloodline surged toward Morosa.

A smile of satisfaction appeared on Morosa's face as he began to absorb the essence.

"This bloodline of Xue Yun, could it be of the Primal Chaos Realm level?" Morosa could tell the difference as soon as he began absorbing it. Even if Yutian Xu's bloodline was special, it was fundamentally different from that of Xue Yun's corpse.

Before his death, Xue Yun had undergone a Bloodline Transformation, resulting in a Primal Chaos Realm bloodline.

"This is a huge gain," exclaimed Morosa joyfully, and he immediately began absorbing and assimilating continuously.

In another layer of the Star Tower space, Luo Feng was sitting cross-legged.

The Divine Power Incarnation in the Source Ground of the Primordial Cosmos was facing the Great Dao of Life Origin for the ninth time, naturally receiving a wealth of Dao information. In just over an hour, Luo Feng stopped.

He began to digest the information about the Dao he had received this time.

Over the prior lengthy period, Luo Feng's realm had reached the pinnacle of an eternal true god! However, having faced the Great Dao of Life Origin just nine times, Luo Feng had advanced further in all aspects of comprehension.

"I originally thought that the transition from the pinnacle of an eternal true god to the Primal Chaos Realm, even with my Godly-King's Will and highly efficient comprehension, would require a long time to accumulate."

"But now, facing the Great Dao of Life Origin, the speed of accumulation is much faster," Luo Feng mused to himself.

Of course, that was just the way it was!

The Great Dao is laid out before him, but it must still be comprehended selectively and progress must be made step by step.

Just like the tangible manifestation of the Primal Chaos Laws in the Primal Chaos Ruins, how many can comprehend the Law of Primal Chaos?

...

Huyang City was bustling as usual; the countless citizens inside did not care about the conflict between the Shi Kingdom and Yu Country, as such strife had already continued for an endless expanse of time, longer than the lifespan of a True God; they were long accustomed to it.

Luo Feng and Morosa, master and servant, were both in seclusion.

Inside the cave mansion, only Moyu Qingyan was left to guard alone.

Finally, one day,

In Morosa's dedicated layer of the Star Tower space, he sat cross-legged where the Divine Body of Xue Yun had long been absorbed.

"Hmm?" Suddenly, Morosa's body trembled, and a terrifying aura was released from his figure, sweeping across that layer of the Star Tower space. This aura, full of destructive and murderous intent, even startled Luo Feng from his lengthy meditation.

"What's going on?" Luo Feng sensed the entire Star Tower naturally, and with a thought, he was already in that layer of space.

Luo Feng looked at Morosa in front of him. Morosa was still sitting cross-legged, but was engulfed by the grandiose, turbulent, and terrifying aura of destruction that unceasingly swept the entire space.

Merely facing this terrifying aura, Luo Feng's body naturally exerted Blade Technique Domain as protection, resisting this terrifying aura.

"The Sector Beast's breakthrough to the Primal Chaos Realm is indeed terrifying," Luo Feng said inwardly.

After the unstable aura of destruction wreaked havoc for a long time, Morosa's body also began to transform, effortlessly taking on his truest form—a high and perfect life form appeared, surpassing the beauty of any species. This beauty even contained the supreme mysteries.

Luo Feng understood that the Sector Beast was born from the Great Dao of Destruction Origin, and its body naturally reached the perfect limit of every realm.

A full day passed before Morosa slowly opened his eyes.

"Master, the Domain within me has completely transformed into the Primal Chaos Realm," Morosa looked at Luo Feng and said, "Now my body also needs to transform into the Primal Chaos Realm."

"You don't need to worry about me, just focus on your breakthrough,"

Luo Feng watched from the side.

Morosa nodded.

Boom~~~

Morosa's body began to evolve, transforming from the Eternal Realm to the Primal Chaos Realm, every bit of strength reaching a new level. In just a moment, his body had completely transformed.

Watching Morosa now, Luo Feng felt that, in a head-on clash, the Primal Chaos Realm Morosa might be able to completely shatter him with a single slap.

Both being Perfect Life Forms, the gap between the Primal Chaos Realm and the Eternal Realm was too great.

"Master, my body has already transformed, and my Divine Power is a hundred times purer, which is why my frame has decreased substantially," Morosa reverted to his simple appearance and said, "I need to absorb energy continuously, to supply my body's growth. This process might last for about one Era."

"The growth of the body is always slow," Luo Feng nodded. The first lengthy seclusion he had undergone upon coming to the Land of Origin had allowed his godly body to grow to its limit.

"Your godly body at the True God level had a maximum height of 18 billion kilometers just like mine," Luo Feng asked, "At the Primal Chaos Realm level, how high do you estimate you can grow?"

"The information transmitted by the destruction of the origin lets me understand that my maximum height at the Primal Chaos Realm should exceed a trillion kilometers," Morosa replied.

Chapter 79: Episode 2, Chapter 7, The First Move of Primal Chaos Realm

Measuring over a trillion kilometers tall, with a hundredfold more refined strength, the energy required is naturally immense. It's quite normal that it took nearly one era for his body to grow to its limit, especially since Morosa made a comprehensive breakthrough and greatly increased the efficiency of absorbing energy from heaven and earth.

The same is true for Luo Feng's future. Even with the comprehension of Primal Chaos Laws, it would take a long time for the godly body to grow to its limit.

"Take it slow, there's no rush," Luo Feng said.

The advantage of a Perfect Life Form is indeed considerable, and that's just for a Primal Chaos Realm Sector Beast. What about at the Godly King Tier? How terrifying would it be? It's feared that with one breath, Huyang City would be reduced to ashes.

No wonder the Pinnacle Sector Beasts have such strong deterrence in the Land of Origin, enabling Tianmu Kingdom to become a first-rate nation in one go.

It's precisely because of the fear of Pinnacle Sector Beasts that the various forces in the Land of Origin will eliminate all weak Sector Beasts, giving them no chance to grow.

"Even after becoming a Primal Chaos Realm being, outside of the Star Tower, you still must not reveal any Sector Beast abilities," Luo Feng reminded.

"Don't worry, Master, I understand," Morosa nodded. The more he understood, the deeper he realized the waters of the Land of Origin were.

His current target is the Sector Beast from Tianmu Kingdom.

To learn from the senior! To bide one's time until the pinnacle!

Fortunately, his master is also a Perfect Life Form. Believing that they would be stronger together in the future than the 'Purple Wood Godly King and Sector Beast' union of Tianmu Kingdom.

"Master, before Xue Yun's death, his bloodline had completely transformed." Morosa explained, "By absorbing his godly body, I've also grasped more of the power of the destruction origin. Would you like me to show it to you now?"

"Sure," Luo Feng nodded, "Show me."

Whether it's the Destruction Refinement Method or the Integration of Life and Death, Luo Feng attaches great importance to the destruction origin.

With just a thought from Morosa, the profound mysteries of the destruction origin unfolded before him. After seeing the complete picture of the Great Dao of Life Origin, what Morosa showed was something Luo Feng could now watch calmly.

After all, in terms of power and level, what Morosa showed was far too weak.

"Hmm?" As Luo Feng watched, he became absorbed in it.

The Great Dao of Destruction Origin that Morosa displayed might be limited, but it also included the complete Primal Chaos Laws and some shallow-level mysteries of the destruction origin. These shallow levels, which came naturally with Morosa's ascent to the Primal Chaos Realm, far surpassed Luo Feng's current tier.

Despite the Great Dao of Life Origin being quite complete, Luo Feng's realm is too low, and he needs to carefully select and selectively absorb insights, fearing contamination and distortion of his own path

of cultivation.

The mysteries of the destruction origin shown by Morosa might be weaker, but they are still a full tier higher than Luo Feng's, making them incredibly suitable for Luo Feng to grasp! No need for selection, just comprehension without fear of twisted understanding.

"Morosa, your progress is substantial. The mysteries of the destruction origin you have shown are much stronger than before," Luo Feng said as he contemplated, offering praise.

"I am now of the Primal Chaos Realm; my comprehension of the destruction origin is naturally higher," Morosa eagerly demonstrated his grasp of the destruction origin, also hoping his master would grow quickly.

Luo Feng contemplated for a day, then stood up: "Morosa, continue your cultivation at your own pace."

"After only one day, you're not watching anymore?" Morosa felt one day was too short; in the past, contemplating for dozens of days or even longer was quite normal.

"No need for now," Luo Feng had already returned to his own space in the Star Tower.

...

Sitting cross-legged, Luo Feng's mere day of observing the destruction origin was because a spark of inspiration emerged in his mind.

"Destruction origin... Life Origin..." Luo Feng had watched the Great Dao of Life Origin many times and now, after viewing a lot of destruction origin information, the understanding of the two Great Daos naturally corroborated each other.

As time passed by day by day.

The insights continually fused, and that spark in Luo Feng's mind became clearer.

The world of cultivation is full of endless possibilities and

temptations! A so-called opportunity might attract cultivators to another path, or they might be trapped at a bottleneck, unable to break through in their lifetime.

The path of cultivation is like advancing through a fog!

You wouldn't know you've taken a wrong turn even if you had.

"I understand now." Luo Feng faintly saw a blurred path appear amidst the fog of cultivation.

The Great Dao of Life Origin and the Great Dao of Destruction Origin are utterly different paths, yet Luo Feng grasped the slight connection between them, forming this vague path.

This path is destined to be difficult.

After all, merging the two Great Daos is bound to be challenging.

"Life and destruction should be one and the same!" Luo Feng said softly, the words uttered within the confinement of the Star Tower bearing an unwavering resolve, coming from the depths of his heart.

"Without life, everything is but dead matter, what point then would destruction serve?"

"With the concept of life, the notion of destruction becomes meaningful."

"As a living being, the stronger I am, the more powerful my destructive force can be. They naturally complement each other!"

At this moment, Luo Feng felt that a pure Life Origin was too fragile, lacking the necessary aggression and deterrence to protect life.

The path of pure destruction origin is too extreme.

To pursue destruction single-mindedly, like the Sector Beasts, is to naturally invite pursuit and interception from all quarters!

Like the Sector Beast of Tianmu Kingdom, which now has an owner and no longer works solely towards 'destruction,' it has become

tolerable to the various forces of the Land of Origin.

"Pure destruction is not the right approach. Even as I follow the Dao of Destruction, I do so for the lives that matter to me, for those I wish to protect in my heart."

"Destruction is for the sake of life."

"At least, that's how I see it."

Luo Feng felt that life and destruction were two origin great daos that could perfectly integrate. He faced a vast comprehension of the 'Great Dao of Life Origin' and observed the many insights into the destruction origin demonstrated by Morosa; the combination came naturally.

With new understandings rising in his mind, Luo Feng felt his heart brimming with joy.

There is an old Earth saying in our hometown, "Hearing the Dao in the morning, one can die in the evening without regret."

The joy one feels when seeing one's own 'Dao' is a joy that spreads through the entire soul.

It is the path one has chosen with certainty and the path one delights in from the heart.

"The path I shall take is one that combines the origins of life and destruction, which may be called 'Dao of Life and Death.' I hope that one day I may be worthy to be referred to as the 'Great Dao of Life and Death,'" Luo Feng thought.

With many insights blossoming in his heart, Luo Feng naturally extended his hand, his fingertips lightly tracing a path that made visible spatial scars within the space of the Star Tower.

This one stroke!

It was like cleaving an ox with a chef's knife or opening up the void with a blade.

It was as though a paintbrush was making strokes across the sky and earth, leaving traces imprinted on the void.

It contained an incomparable sharpness; Luo Feng had not even ignited his godly body but merely traced with his finger, and it was enough to rival the full-power strike he used against Xue Yun while burning Divine Power.

It also contained Luo Feng's spiritual will, what he cared about the most on his journey of cultivation were those he needed to protect, his own family, his own people. After coming to the Land of Origin, he was cautious because if he were to die, without him, the countless humans in his tiny cosmos wouldn't survive. Without him, what would become of his family, the fate of his human race?

The talent of a Primordial Ancestor is good, but having arrived at the Land of Origin, he had yet to become an eternal true god. This shows that talent pales in comparison to personal effort.

To protect his family and the human race, the best way is to rely on oneself.

"This is my Dao," Luo Feng said as he looked at the traces in the half-sky.

Luo Feng was very pleased; he had found his Dao.

As many cultivators grow stronger, they generally choose to focus on one Origin Great Dao for their cultivation.

But Luo Feng, before reaching the Primal Chaos Realm, chose from his heart a path that merged two daos, believing that 'pure destruction origin' and 'pure life origin' didn't align with his true nature.

"In terms of realm, this move can be considered a Primal Chaos Realm technique; it's also the first Primal Chaos Realm technique I've realized," Luo Feng casually made another slight movement, causing spatial scars to appear in the usually stable space of the Star Tower, "This move shall be called 'Heart Honing.' The path of cultivation is arduous, and I hope that after enduring a thousand trials and

tribulations, I can still remain true to my original intent."

Luo Feng was also reminding himself.

For he had seen many powerful beings change themselves along with their cultivation; there were many in his original Primordial Cosmos and on the Land of Origin. Take Xue Yun, for instance, who once had a loved one but, in the end, was willing to sacrifice everything for the sake of becoming stronger.

"Cultivation is also about honing the heart," Luo Feng seated himself cross-legged and began to focus on his cultivation again.

The insights of the Life Origin and the Destruction Origin were still gradually merging, and Luo Feng was very clear that he was still weak and needed to move forward with devotion and step by step.

Just regarding the realm, with only one realized Primal Chaos Realm technique, he still had a gap compared to the former Xue Yun.

A nine-layered tower starts from the accumulation of soil.

A thousand-mile journey begins under one's feet.

...

At the mansion of the Lord of Huyang City, an armor-clad woman with hundreds of braids led a group of guards and was respectfully welcomed by the leaders of the Five Great Families.

"Your Highness," the five leaders looked at the armor-clad woman respectfully.

The armor-clad woman stood there, with waves of water surging around her, emanating an intangible yet terrifying might.

She was 'Yushui Tianyu,' one of the thirty-five children of the Monarch of the Yu Country and was quite outstanding among them.

The armor-clad woman laughed heartily, her voice hearty: "I heard from Father King that Huyang produced a very remarkable eternal true god named Luo He, with strength even better than Yong Hu's,

right?"

The Lord of Huyang City replied respectfully, "In terms of strength, among the eternal true gods of the Yu Kingdom, there are very few who could stand shoulder to shoulder with Lord Luo He. Probably none are stronger."

"Then I've come to the right place," the armor-clad woman nodded with satisfaction, "It's no wonder Father King has put so much thought into arranging an opportunity for him. He might even become my senior apprentice brother."

"The Monarch intends to take him as a disciple?" The leader of the Wu Clan, 'Wu Qulou,' asked.

"That's not so easy. Even with high talent, one must go through trials to have the hope of becoming Father King's disciple," the armor-clad woman said, "Alright, hurry up and arrange for me to meet this Lord Luo He immediately."

"Yes, Your Highness," the leaders of the Five Great Families responded respectfully.

Chapter 80: Episode 2 Chapter 8 The Gift of the Monarch of Yu Country

Huyang City, Primal Chaos Armor 913 Cave Mansion.

Luo Feng specially invited the eternal true god 'Black Butcher' to personally cook a sumptuous banquet in order to treat the Monarch of Yu Country's daughter, 'Yushui Tianyu.' Considering Yushui Tianyu's noble status, as well as representing the Godly King, Luo Feng naturally had to be sufficiently formal.

"The delicacies of Huyang City have their own unique flavor," Yushui Tianyu, clad in armor and her luxuriant hair braided into hundreds of plaits, remarked while feasting on a large piece of meat that Black Butcher excelled at preparing. "Lord of Huyang City, I think the food here at Lord Luo He's is even better than what's offered at the city owner's mansion."

"Hahaha…" The Lord of Huyang City, who accompanied them, laughed. "In the entire Huyang City, only Black Butcher of the Fire Realm Restaurant has achieved the status of eternal true god through his culinary arts. Your Highness, your visit to the city owner's mansion was so sudden, there was no time to invite Black Butcher in advance."

Luo Feng nodded: "Black Butcher's cooking skills are indeed not bad."

"It suits my taste very well, it's particularly satisfying to eat," Yushui Tianyu looked at Luo Feng. "Lord Luo He, could you invite Black Butcher over?"

"Of course," Luo Feng nodded and immediately sent a message for Black Butcher, who had finished cooking in the mansion and was

resting, to come over.

In the pavilion, there were only Luo Feng, Yushui Tianyu, and the accompanying Lord of Huyang City—three of them. Black Butcher was also a bit restrained when he entered since he was well aware of the status of the guests at today's banquet.

That was the daughter of the Monarch of Yu Country!

The Monarch of Yu Country, having established a powerful kingdom on his own, is considered a second-tier power in the entire Land of Origin, which is indeed quite formidable. In terms of individual strength, he was also one of the very formidable figures in the Land of Origin.

The status of his daughter was noble enough to rival the high echelons of some major clans in the Flame Wind Ancient Country. Even for some Primal Chaos Overlords, it would be inappropriate to slight Her Highness Yushui Tianyu.

"I've seen all of you," Black Butcher said respectfully.

"You're Black Butcher?" Yushui Tianyu's eyes lit up. "Your culinary skills are quite impressive; I really like them. Would you be willing to go to the Royal Capital and be a chef in my residence?"

Black Butcher was taken aback.

He was invited to the Royal Capital by the daughter of the Monarch of Yu Country, just for helping Lord Luo He with a banquet?

"Lord Luo He, you wouldn't mind if I took your chef, would you?" Yushui Tianyu looked at Luo Feng.

"He owns the Fire Realm Restaurant; he is not my chef," Luo Feng said with a smile. "If he could go to the Royal Capital, it would mean a broader future for him, which is a good thing. How could I mind?"

In recent times, Luo Feng had been immersed in cultivation and had not visited the Fire Realm Restaurant nor the Dream Flower Tower for quite a while.

"In my residence, there is only one main chef currently, and you will be the second chef I have invited. Rest assured, once you are there, you will have a separate cave mansion, and the cultivation resources you receive will far exceed what you had in Huyang City," Yushui Tianyu said nonchalantly.

As the daughter of the monarch, the gifts given to her by her father far exceeded the imagination of many eternal true gods.

"It is an honor to be invited by Your Highness; I am naturally willing," Black Butcher decided after some thought.

Since his struggle to get to the Land of Origin, this opportunity lay before him like a vast heaven.

With the recent intensifying conflict between Shi Kingdom and Yu Kingdom, as Huyang was a border city, Black Butcher was somewhat worried about becoming involved. Having the chance to go to the Royal Capital, he naturally wished to take it.

"Black Butcher, congratulations," Luo Feng said with a smile.

"It's thanks to you, Lord, that I have this opportunity," Black Butcher was grateful, and he was also very aware of the gap between himself and Lord Luo He. He seized the opportunity to become the chef for Her Royal Highness the Princess, while Lord Luo He... was the one Her Royal Highness personally visited.

Yushui Tianyu laughed heartily: "Indeed, I should thank Lord Luo He for allowing me to discover Black Butcher. Get ready quickly, Black Butcher, I will leave Huyang City for the Royal Capital when the day comes."

"Yes," Black Butcher responded respectfully and then excused himself to leave.

"Congratulations, Your Highness, for discovering this great chef in Huyang City," the Lord of Huyang City said.

"There are some who have achieved eternal true god status through culinary arts; finding one who suits my taste is rare," Yushui Tianyu said while eating meat, feeling quite gratified.

As for those more powerful, who could become a Primal Chaos Overlord through culinary arts? It's not possible for them to be a chef for Her Royal Highness the Princess. After all, any Primal Chaos Realm deserves a certain respect from the Godly King.

"Let's talk business," Yushui Tianyu said, looking at Luo Feng. "Lord Luo He, my father was very pleased when he heard about you, as it's not often that such a potential eternal true god emerges within our Yu Kingdom's territory. And since the Lord has helped our Yu Kingdom by killing some of Shi Kingdom's minions, my father instructed me to bring a gift for you."

"Thank you, Your Highness, and please convey my thanks to the Godly King as well," Luo Feng said in gratitude.

Yushui Tianyu flipped her hand over and took out a dark purple wooden box, which then flew toward Luo Feng.

"Lord, please open it and see," Yushui Tianyu said.

Luo Feng opened the box and saw a pale green leaf inside it, with numerous veins and a surface sheen that was subdued but radiant. It even made the surrounding void ripple and twist.

"Hurry and close the box," Yushui Tianyu said. "This is a freshly matured 'Void Proliferation Mother Tree' leaf. The box itself is specially crafted to preserve the leaf for a longer period. Left in the outside world, I fear that within one era, the leaf will completely dry up and lose its effectiveness. In the box, however, the preservation period can be extended many times over."

"A leaf from the Void Proliferation Mother Tree?" Luo Feng was moved; he had learned about it from his master's information and from the Duan Dong River lineage reports.

Of course, such a rarity was not something one could buy anywhere; it was all snapped up by the top existences of the Land of Origin.

"Whenever the leaves of the Void Proliferation Mother Tree mature, some are sent to my father," Yushui Tianyu said with a smile. "My father would bestow them upon Primal Chaos Overlords and his

subordinates. And this leaf that was brought today is freshly matured, offering the longest usage time."

"Lord, are you aware of how it's used?" Yushui Tianyu asked.

"I've heard it's related to the Primal Chaos Layer? I don't know much," Luo Feng replied.

Yushui Tianyu explained: "Space is profound, and even powerhouses capable of tearing and cutting space are generally only scratching the surface."

"Space is profoundly deep, containing hundreds of layers. To completely break through all layers of space is to escape the braided cage," Yushui Tianyu said. "Among the many layers of space, there is one that is the Primal Chaos Layer."

"The Primal Chaos Layer contains boundless Chaotic Power. The so-called 'Primal Chaos Ruins' is the connection between the Primal Chaos Layer and the space where we normally live," Yushui Tianyu explained.

Luo Feng listened.

"You only need to take out the Void Proliferation Mother Tree Leaf and wear it on your person, and you can go against the current through the Primal Chaos Ruins to reach the Primal Chaos Layer," Yushui Tianyu said, "Ordinary cultivators are repelled, but with the Void Proliferation Mother Tree Leaf, you can roam freely within the Primal Chaos Layer."

"Cultivating there will greatly aid you in comprehending the Primal Chaos Laws," Yushui Tianyu said with a smile, "You have deep accumulations in many aspects. Cultivating in the Primal Chaos Layer, you might just comprehend the Primal Chaos Laws."

"Thank you for the guidance, Your Highness," Luo Feng said.

"This leaf is not only a token of my father's appreciation for you, but also a reward for your previous slaying of Shi Kingdom's minions," Yushui Tianyu said, "My father also intends to take you as a disciple. If you are willing, you can go to the Royal Capital to undergo the

tests. If you pass the three tests, you can become a disciple."

"Congratulations, Brother Luo He, this is an incredible opportunity," the Lord of Huyang City immediately said.

Members like them on the fringe of the Royal Family naturally did not have the same status as a Direct Disciple of the Monarch of Yu Country.

"Every disciple my father takes has to pass through three tests," Yushui Tianyu said, "If you successfully become a disciple, the resources you'll get will far surpass this Void Proliferation Mother Tree Leaf. If you become a Primal Chaos Realm cultivator in the future, my father might even help you with your Body Refinement."

Luo Feng listened.

It was like his own three body refinement processes. In reality, body refinement was similar to forging Weapon Secret Treasures; if you particularly trust someone, you can let them refine your godly body. For example, if the Monarch of Yu Country took action, he could naturally make a godly body incredibly powerful.

"I'll think about it," Luo Feng said, "And thank you, Your Highness. Thank you, Godly King."

Yushui Tianyu frowned slightly, then smiled: "It seems that Lord Luo He has another mentor."

In the Land of Origin, the mentor-disciple relationship is no less important than that of father and son.

After all, a mentor imparts lineage, provides resources, and gives guidance, leading all the way. This is even more heartfelt than what a father does.

In the same vein, a disciple also has to reciprocate to the mentor! If a disciple betrays their mentor, it causes public outrage and is scorned by all forces.

"Brother Luo He, you can't miss this opportunity," the Lord of Huyang City reminded.

"There's no need to force it; it's just my father's appreciation for talent," Yushui Tianyu said. For the Monarch of Yu Country, having a few more or fewer disciples made no significant difference.

"I must still thank Your Highness," Luo Feng raised his cup.

Yushui Tianyu also smiled and raised his cup to drink. Even if they couldn't become mentor and disciple, they could still be friends. With such a cultivator of great potential, who knew when he might become a Primal Chaos Realm cultivator? Yushui Tianyu was still willing to make friends.

After the banquet ended, Yushui Tianyu and the Lord of Huyang City departed, and Luo Feng personally saw them out of the cave mansion.

"Become a disciple? If I become a disciple, I'll be tied down completely," Luo Feng understood this very well. The Vice President of the Flame Wind Guild had repeatedly instructed him not to side with Yu Kingdom, to prevent any issues with leaving in the future.

The wooing of the Monarch of Yu Country, the wooing of Emperor Chu's Lineage from the Flame Wind Ancient Country, anyone with a bit of insight knew how to choose.

As long as one becomes a Primal Chaos Realm cultivator, most rulers would be willing to recruit them. However, ordinary Primal Chaos Realm cultivators would not be able to become a Guest Elder for Emperor Chu's Lineage in the Flame Wind Ancient Country.

"If I go to Yu Kingdom's Capital, to the Monarch of Yu Country, I can be had or not had."

"In the future, if I go to the Flame Wind Ancient Country, to Emperor Chu Yu, I will be his important aide."

Luo Feng looked at the wooden box in his hand.

"Still, I have to thank the Monarch of Yu Country," Luo Feng was quite pleased; this Void Proliferation Mother Tree Leaf was indeed very helpful to him.

...

That very night, Luo Feng left behind a Divine Power Incarnation, entrusted things to Morosa and Moyu Qingyan, and then went alone to the 'Primal Chaos Ruins' at the Lord of Huyang City's mansion.

"Brother Luo He, this is the Primal Chaos Ruins," the Lord of Huyang City personally led him.

Luo Feng looked ahead.

Before them was a distorted void hole, like flowing water pouring down, with boundless Chaotic Power streaming out. Upon coming out, it naturally began to condense into Primal Chaos Crystals, even permeating some of the surrounding mud and rocks, forming Primal Chaos Stones.

"The boundless Chaotic Power of the Primal Chaos Layer, once it comes to the world where we normally live, will solidify," the Lord of Huyang City said, "Thus we have Primal Chaos Crystals and Primal Chaos Stones."

Luo Feng nodded: "Indeed miraculous."

Around the Primal Chaos Ruins, some true gods of void space were responsible for the cutting work, cutting into uniform sizes of crystal blocks. Piles of Primal Chaos Crystals were stacked up, and at this moment they all noticed Lord Luo He, who was accompanied by the Lord of Huyang City.

"It's Lord Luo He."

"Lord Luo He has arrived." These true gods of void space all knew that currently, the most formidable in Huyang City was this Lord Luo He.

"Thank you, City Lord," Luo Feng said with a smile, "Then I will directly enter the Primal Chaos Layer."

"After entering, remember the path so you can return the same way," the Lord of Huyang City said with a smile, "I have also instructed that from now on, the Godly King can enter the Primal Chaos Ruins at any

time."

"Thank you," Luo Feng nodded, then flew straight towards the void hole, moving against the surging Chaotic Power, and entered the void hole.

Chapter 81: Season 2, Episode 9, Primal Chaos Layer

The flow of time in the Land of Origin was very slow, and the space was also very stable. When Luo Feng was pursuing Divine Monarch Xue Yun, burning Divine Power to wield his Blade Technique and tear through the shallowest layer of space.

The Primal Chaos Layer lay deep within the layers of space.

To enter the Primal Chaos Layer on one's own was a feat most Primal Chaos Overlords found unattainable.

The simplest method was to travel upstream through the 'Primal Chaos Ruins' to reach the Primal Chaos Layer directly.

"Boom～～～"

An endless surge of Chaotic Power stretched as far as the eye could see.

As Luo Feng ascended upstream through the void rift, the space around him was initially narrow, but as he continued to fly upstream, it became more and more spacious, until it was completely boundless! Luo Feng understood, "This must be the Primal Chaos Layer."

"Such a dense concentration of Chaotic Power spread everywhere." Looking around, Luo Feng felt as if the Primal Chaos Layer was like an infinite ocean with Chaotic Power acting as the seawater, and he was a fisherman venturing out into the sea for the first time.

"The leaf of the Void Proliferation Mother Tree is indeed miraculous." Luo Feng glanced at the leaf he carried with him, which constantly emitted an invisible force of void fluctuations, naturally enveloping

Luo Feng within its scope.

Within this range, the Primal Chaos Layer did not reject Luo Feng at all.

"This leaf, carried with me, will completely wither in about an epoch, which is plenty of time." Luo Feng was quite satisfied as he observed the Primal Chaos Layer with the curiosity of a child.

Chaotic Power surged endlessly, with various manifestations of the Primal Chaos Laws materializing throughout the layer, adding to its splendid brilliance.

"These randomly manifesting Primal Chaos Laws are all distinct," Luo Feng noted. "The dazzling and bright Primal Chaos Laws emitting golden light, the icy, pale-green Primal Chaos Laws, even the silver-white Primal Chaos Laws... As the manifestations of the Primal Chaos Laws slightly vary, their outer appearances differ."

Chaos possesses infinite possibilities.

A slight transformation could result in various manifestations like 'Primal Chaos Gold,' 'Primal Chaos Fire,' 'Primal Chaos Thunder,' and more.

Once one masters the Primal Chaos Laws, one can proceed towards any Origin Great Dao.

"The essence is singular, the manifestations myriad," Luo Feng thought. "Countless cultivators, regardless of the system they practice or the techniques they realize, are ultimately converging towards the Primal Chaos Laws."

Luo Feng flew slowly around, observing the randomly materializing Primal Chaos Laws and trying to comprehend them deeply.

Each manifestation brought Luo Feng different insights.

Just as Luo Feng was intently comprehending, suddenly—

A fiery red streak of light emerged from the Primal Chaos Current and charged straight towards Luo Feng.

"Huh?" Luo Feng was startled, and in an instant, ignited his Divine Power and reached out to grab it, capturing the fiery red streak of light.

The fiery red streak of light struggled and twisted in Luo Feng's palm.

Yet under Luo Feng's burning Divine Power, the force unleashed by his Perfect Divine Body was enough to surpass those newly advanced cultivators within the Bloodline Cultivation System of the Primal Chaos Realm. Of course, if the Primal Chaos Realm cultivators had cultivated for extended years and enhanced themselves in all aspects, their power would be incomparable to Luo Feng's.

At that moment, simply catching a small creature, Luo Feng found it quite effortless.

"What is this?" Luo Feng looked at his palm, where he was holding a fiery red bug with a shell that looked like red-glazed crystal. It seemed very small, but its struggling force was strong, comparable to the Vice President Lai Mo of the Blood Python Association.

"Is this a Primal Chaos Layer Creature?" Luo Feng was already aware from the intelligence he had received that the Primal Chaos Layer, with its endless Chaotic Power, naturally gave birth to some unique creatures.

These creatures had extremely low intelligence, purely acting on instinct, and were incapable of communicating.

"As recorded in the information from my master, the creatures of the Primal Chaos Layer feed on Chaotic Power, acting purely on instinct. Their bodies contain varying degrees of Primal Chaos Laws. Due to their low intelligence, their strength generally rests at the Eternal Realm level.

It's incredibly rare for any to reach the 'Primal Chaos Realm,' and those that do typically have very unique body structures and have long been captured alive by the major powers of the Land of Origin," Luo Feng looked at the fiery red bug in his palm and thought.

"It's said that if it can't consume Chaotic Power, it will starve to death

and its body will completely disintegrate, returning to the cosmos."

Starve to death?

In the Land of Origin, even the weakest cultivators could absorb the energy of heaven and earth, making it impossible to starve to death.

But these Primal Chaos Layer creatures, whose strength ranged from the 'Eternal Realm to Primal Chaos Realm,' had to feed on Chaotic Power or they would starve, their bodies disintegrating and returning to the cosmos.

"Throughout the entire Primal Chaos Layer, it's impossible to find Primal Chaos Layer creatures with 'Primal Chaos Realm strength' because they are too precious and have been captured long ago," Luo Feng looked around.

For him, the Primal Chaos Layer was fascinating.

Yet, for the topmost beings of the Land of Origin, sweeping through the Primal Chaos Layer was a simple task, which is why they would allow their younger disciples to come here to cultivate without worrying about encountering danger.

The eternal true gods who could come to the Primal Chaos Layer were elites cultivated by major forces, with deep accumulations in all aspects, managing to realize at least a few Primal Chaos Realm techniques as a base, and their strength generally reaching the levels of General Yong and Divine Monarch Xue Yun.

For them, the Primal Chaos Layer creatures with 'Primal Chaos Realm strength' being captured meant that the rest, though stronger than them, posed no threat to their safety with their instinct-driven actions.

"Snap." With a slight exertion of force, Luo Feng crushed the continuously struggling bug within his palm.

The body shattered into dozens of pieces, each one still struggling to merge back together.

"Such tenacity in life," Luo Feng noted as he observed, Divine Power

infiltrating the broken parts, he could sense traces of Primal Chaos Laws.

"Within the Primal Chaos Layer, Primal Chaos Laws might materialize substantively at any moment, each occurrence differing from the last. Perhaps at some moment, it would form a small creature. These Primal Chaos Layer creatures could be considered solid manifestations of Primal Chaos Laws," Luo Feng mused.

...

Huyang City, city owner's mansion.

The many eternal true gods from the Five Great Families gathered to see Her Royal Highness Yushui Tianyu off.

"Your Highness, Luo He followed the Primal Chaos Ruins into the Primal Chaos Layer and has not returned yet," the Lord of Huyang City said softly.

Previously, Yushui Tianyu had said she would set off the next day, which was actually giving Luo Feng an opportunity! Before her departure, Luo Feng could still find the princess.

But once she returned to the Royal Capital and reported to her father, if Luo Feng wanted to turn back and ask to become her disciple again, it would be too late! Given the status of the Monarch of Yu Country, would he offer a second chance after being refused once?

Yushui Tianyu gently shook her head: "It seems that he truly has no intention of becoming a disciple. With such strength, he must already have a formidable legacy, perhaps being a disciple cultivated by a major power."

The Lord of Huyang City nodded in agreement.

In the Land of Origin, it was common to have multiple teachers. When weak, one might be apprenticed to an eternal true god, and once strong, to a figure of the Primal Chaos Realm or even a Godly King! This was all very normal.

Luo Feng's refusal to take the Monarch of Yu Country as his master

naturally led to many speculations among them.

"Let's go, there's no need to see me off any further," Yushui Tianyu said with a wave of her hand. A massive boat appeared in the sky, and she immediately led her subordinates to fly towards it. This group of subordinates also included the Black Butcher and his disciples.

The Black Butcher brought a total of nine disciples and some family servants this time. After all, in the future while following Her Royal Highness the Princess, it was not possible to prepare every meal personally. For common guests, it would suffice for the disciples to cook.

The nine disciples were all ones the Black Butcher trusted and liked, among them was Suo Zi.

"I never thought I would be going to the Royal Capital," Suo Zi still felt a surge of emotions and could hardly calm down even now. The previous night, his master had suddenly returned and immediately convened his nine most valued disciples, asking them if they were willing to go to the Royal Capital together, mentioning that it was in the company of Her Royal Highness the Princess.

The nine disciples were somewhat stunned, but without any hesitation, they all chose to go.

To the Royal Capital! Following Her Royal Highness the Princess? How could they possibly miss out on this?

"Brother Suo Zi."

In the distance, there was also Suo Yun who came to see him off.

Ever since the Black Butcher became an eternal true god, Suo Yun treated Suo Zi much more warmly, and now he was tearfully saying goodbye to his brother.

Suo Zi flew towards the Flying Boat and saw Suo Yun below, sending him off, and he nodded slightly.

No matter what barriers lay between them, in the end, they had

grown up together in the tribe. Now they were completely parting ways, and it was likely they would find it difficult to see each other in this life.

"Suo Zi, we are going to the Royal Capital."

"I never imagined that I, a true god from the lower echelons of Huyang City who learned culinary arts from the master, would first become a true god of void space and now am on my way to the Royal Capital," the other disciples of the Black Butcher were also incredibly excited.

Two of these disciples brought their families, and Her Royal Highness the Princess had already granted the Black Butcher a cave mansion, making it quite easy to accommodate some family servants.

"Whoosh."

Accompanied by the massive Flying Boat traversing time and space, it completely disappeared from the skies above Huyang City, and the crowd that had come to say farewell began to disperse.

Suo Yun silently watched this scene, with the departing group.

"I did everything possible, even risking my life to seize every chance, and am still only a mid-level figure in Huyang City's dark force 'Thousand Mountain Tower'.

Yet Suo Zi just followed the Black Butcher in learning culinary arts, and now he's going to the Royal Capital, and can follow Her Royal Highness the Princess," Suo Yun couldn't understand why there was such a vast difference in their destinies.

Is it really just fate?

...

Within the Primal Chaos Layer.

Days passed, and Luo Feng wholeheartedly studied the manifestation of various Primal Chaos laws, also encountering numerous attacks from Primal Chaos Layer creatures. Despite only retaining their

primal instincts, each one of these creatures was extremely aggressive.

Luo Feng also captured many Primal Chaos Layer creatures, and even dissected their bodies to examine them closely. But as soon as he let go, the bodies of these creatures would merge and flee in terror. Clearly, their instincts also knew fear.

On this day, Luo Feng was as usual attentively observing the manifestation of Primal Chaos laws, contemplating and pondering.

Suddenly—

A streak of silver light emerged from the Primal Chaos Current and shot past Luo Feng like a flash of silver Blade Light.

Luo Feng, as usual, burned Divine Power and reached out to grab! His seemingly simple action was infused with profound meanings, and the clumsy streak of silver light could not avoid it and was directly caught by Luo Feng.

"Hm?" Luo Feng only felt a pain in his right palm, and the streak of silver light had already darted out to a distance and stopped.

Luo Feng looked at his palm in surprise; his palm had actually been cut open, revealing a bloody wound. Both the skin and muscle layers were partly sliced through, with blood flowing freely.

"It can actually injure me? Its strength is not inferior to Xue Yun's, I suppose," Luo Feng said, somewhat astonished.

—

Thank you to the new Alliance Hierarch 'Aishe Zhang' for the reward.

Chapter 82: Season 2 Episode 10 - The Passing Years

Luo Feng gazed at the silver light hovering in the distance, which was, at the moment, restlessly observing him.

"This Primal Chaos Layer Creature, being of low intelligence, is less cunning than Xue Yun in tactics; however, in terms of pure power, it surpasses it by a notch." Luo Feng, thrilled by the hunt, had initially dominated Xue Yun and now, having realized a Primal Chaos Realm technique, his strength had increased once again.

"Whoosh."

Suddenly, the silver light flashed, tracing an arc that instantly extended over tenfold, like a spectral silver thread that swept past Luo Feng.

"Hm?" Luo Feng, seeing the thread sweep by his body, reached out to grasp it again.

Though Luo Feng's grasp might have seemed ordinary, the ghostly elusive silver thread could not escape and was once again caught by him. At the instant he caught it, Luo Feng felt the silver thread in the palm of his hand was too slippery.

Unbelievably sharp and smooth.

It slipped out of his palm instantly, leaving behind a deep wound on Luo Feng.

"Whoosh, whoosh, whoosh." The silver light around Luo Feng flickered repeatedly, sometimes as silver threads, sometimes as blade lights, sometimes as silver spikes—all incredibly fast. Luo Feng struggled to catch it, but ended up with several bloody wounds.

"Interesting." Luo Feng smiled as he watched it. "Without showing some skill, it seems I can't capture it."

Whoosh!

The silver light aimed for another attack on Luo Feng.

This time, Luo Feng also extended his hand, but his five fingers, like massive pillars of heaven, covered a corner of the void space and instantly enveloped the silver light. The light appeared to be trapped in a cage with no gaps to escape through.

It was a move Luo Feng had newly mastered called 'Five Directions Heavenly Seal.'

Having contemplated the Life Origin and Destruction Origin, plus his understanding gained in the Primal Chaos Layer, besides that one Primal Chaos Realm technique, Luo Feng had also realized several standalone techniques, each more powerful than the first six strikes of the 'World Breaking Nine Blades.'

This technique, 'Five Directions Heavenly Seal,' carried a portion of the essence of 'Heavens Split in Five Directions Blade,' merged with Luo Feng's understanding of the Law of Primal Chaos. If 'Heavens Split in Five Directions Blade' intended to split heavens, shredding everything to pieces,

Conversely, Five Directions Heavenly Seal employed the essence of the five directions to seal Heaven and Earth, used to trap enemies!

The casual grasp earlier could not catch the silver blade light.

Now, deploying the 'Five Directions Heavenly Seal,' he had completely trapped the silver light. As his five fingers clenched, they naturally entwined around the silver light.

"Buzzing~~~" The silver light, long and struggling, attempted to escape.

However, being entangled between Luo Feng's five fingers, it couldn't break free.

"I really want to see what this little creature's body is made of, so small yet so powerful." Luo Feng deployed the 'Duan Mie' Dharma, instantly burning his Divine Power to the limit.

"Split."

Luo Feng's power burst forth, his five fingers exerting a sudden force, far stronger than before, attempting to tear open the body of the silver light creature.

"Hmm?" This exertion left Luo Feng utterly astonished; he felt the silver light creature was incredibly tough, impossible to tear apart.

"Even with my Divine Power burned to its limits, I can't tear its body?" Luo Feng was surprised. "Luckily I've realized a Primal Chaos Realm move, or else I'd really be at a loss with it."

This Primal Chaos Layer creature, having only instinct, without even a consciousness, made Luo Feng's Secret Technique of Willpower useless.

With one hand holding the silver light creature, the index finger of Luo Feng's other hand burned with Divine Power. He deployed the only Primal Chaos Realm technique he mastered, 'Heart Honing.' His finger gently swooped like dissecting the void, crossing over the tip of the silver light creature's body.

Crack!

The body of the silver light creature immediately fractured, splitting in two.

As Luo Feng's finger crossed, he could feel the toughness of the silver light body. After it fractured, the toughness of the silver light body dramatically decreased, and its luster dimmed considerably. Luo Feng grabbed each half of the silver light body with his left and right hands, exerting a sudden force.

Bang! Bang!

The two halves of the silver light body completely shattered, turning into a cluster of silver droplets.

"One hundred and nine silver droplets?" Luo Feng carefully examined the silver droplets in front of him; they tried to merge back together, but once split into basic silver droplets, each one's force became very weak.

Luo Feng's Divine Power enveloped them, preventing them from merging.

"These silver droplets..." Luo Feng scrutinized them; in his eyes, each silver droplet magnified a billion times, resembling a colossal star.

Magnified billions of times, the silver droplet maintained a perfect spherical shape with an immensely smooth surface. On its surface, traces of Primal Chaos Law could be vaguely seen, and these traces also permeated inside the silver droplets.

Luo Feng's finger swept across a silver droplet, which instantly disintegrated into silver mist and the substance of the Primal Chaos Laws became visibly materialized.

Luo Feng peered intently.

As the silver mist dissipated, the materialized Primal Chaos Laws also dispersed. This droplet of silver water was completely annihilated.

"No wonder it's so slippery." Luo Feng observed, "Each silver droplet actually contains a complete 'Law of Primal Chaos,' incorporating features of Primal Chaos Gold and Water of Primal Chaos."

"Of all the Primal Chaos Layer creatures I've observed and studied, the previous ones only contained partial Primal Chaos Laws. However, this silver light creature possesses a complete Primal Chaos Law," Luo Feng realized.

Containing partial Primal Chaos Laws versus a complete Primal Chaos Law, there was obviously a huge difference in strength.

"Collect." With a thought, Luo Feng gathered the remaining 108 silver droplets into the Star Tower.

One of the space layers within the Star Tower spontaneously filled with these 108 silver droplets, naturally separated by the space.

Luo Feng brought two of the silver droplets closer, and they naturally merged.

Each droplet merged, and upon merging ten droplets, they could form a silver thread, already quite potent.

Once a hundred droplets merged, they formed that streak of silver light.

Even when combined entirely, the Silverlight Creature's prowess did not increase significantly.

"The more Silver Droplets there are, the stronger its power, but clearly a certain threshold must be reached for a qualitative change to occur," Luo Feng thought to himself, "This is merely just over a hundred droplets. What if it were ten thousand, or a million? That would probably amount to Primal Chaos Realm strength."

Luo Feng closely observed this streak of silver light that was kept within the Star Tower.

"Swoosh, swoosh, swoosh." The silver light swiftly move through this level of the Star Tower space, yet it couldn't escape at all.

"I heard that Primal Chaos Layer creatures feed on Chaotic Power," Luo Feng thought, tossing several Primal Chaos Crystals toward the Silverlight Creature.

The silver light quickly flew to the Primal Chaos Crystals, coiling around them and began to slowly gnaw.

"The strength of a Primal Chaos Layer creature is related to the Primal Chaos laws within its body," Luo Feng thought regretfully, "It's a pity that I cannot see those creatures who possess Primal Chaos Realm strength."

According to the intelligence.

All the Primal Chaos Layer creatures with the strength of a Primal Chaos Overlord had been captured and taken away. They were all very attractive to the Godly Kings.

"These rare and very powerful Primal Chaos Layer creatures could rather be captured and kept over a long period," Luo Feng thought, gleaning some special applications of the Primal Chaos laws from them.

…

His hometown, Luo Feng's microcosm.

Beneath a large tree, its canopy covered a vast area.

"Primordial Ancestor, it is rare for you to visit me," Luo Feng personally poured fruit wine for the Primordial Ancestor, "Try this. I collected various fruits within the microcosm and tried several wine-making experiments; the taste is quite good."

"Mm," the Primordial Ancestor picked up the wine glass and tasted a sip, appreciating it, "The flavor is delightful. I didn't expect you to be a wine-making expert, Luo Feng."

"Just a small hobby," Luo Feng also picked up his glass and tasted.

"I came this time also to thank you," the Primordial Ancestor said pensively, "Fortunately, with the Nine Netherworlds inheritance you gave, having cultivated in the Land of Origin until now, I have finally broken through to the Eternal True God Realm."

"Broken through?" Luo Feng was thrilled, feeling happier as the human race grew stronger.

After all, the Land of Origin was fraught with dangers; if one day he fell, it would still be the Primordial Ancestor protecting the human race.

"The Land of Origin clarifies the understanding of laws so much clearer, and with the inheritance, I achieved breakthrough today," the Primordial Ancestor said with a smile, "The Law Lineage is indeed challenging. After this breakthrough, my days in the Land of Origin will be much better."

Luo Feng nodded, "It has been a well-deserved reward after a long ordeal."

In the Land of Origin, the life between a true god of void space and an eternal true god was starkly different.

"Primordial Ancestor, has your microcosm not expanded?" Luo Feng asked.

"No rush, only you know that I have divined the Source of Law. Neither my microcosm nor godly body is in a rush to break through," the Primordial Ancestor looked at Luo Feng, "Once my godly body breaks through, I will no longer be able to hide my strength and will need to face some choices.

I am hesitating whether to join the official ranks of Flame Wind Ancient Country or to remain a solitary cultivator."

"The official ranks," Luo Feng said, "Flame Wind Ancient Country has an unfathomable foundation, it is more suitable for you to join there. Although a solitary cultivator enjoys more freedom, it is also much more dangerous. Moreover… in the future, I should also go to the Flame Wind Ancient Country."

"You are also going to the Flame Wind Ancient Country?" the Primordial Ancestor showed delight.

"It will still take a considerable amount of time," Luo Feng explained, both he and Museum Master Emperor Chu Yu needed to reach the Primal Chaos Realm; only then Emperor Chu Yu would recruit him. Currently, both were still at the Eternal True God level.

It would also take him a long time to reach the Primal Chaos Realm, not to mention Emperor Chu Yu.

"I will follow your advice and join the official ranks," the Primordial Ancestor no longer hesitated.

He knew very well that Luo Feng had received the inheritance of Duan Dong River Lineage, making him more understanding of the top powers of the Land of Origin than he was.

Moreover, during his days in the Land of Origin, the Primordial Ancestor had seen that new Eternal True Gods still had to live cautiously. Joining the official ranks would greatly increase his safety

with the official layer of protection.

"This is the latter half of the Nine Netherworlds, containing many secret techniques for the Eternal True God level," Luo Feng handed a Memory Stone to the Primordial Ancestor.

"You don't need to practice illusions just for me," the Primordial Ancestor immediately said, worried it might affect Luo Feng's cultivation path.

"I practice various Dharma, all as a foundation for reaching the Primal Chaos Realm," Luo Feng smiled.

"Thank you," the Primordial Ancestor then took the Memory Stone and received the information from the latter half of the Nine Netherworlds.

Receiving this inheritance, the Primordial Ancestor grew even more aware of the gap between himself and Luo Feng.

He had just become an Eternal True God.

Whereas one of the illusions Luo Feng practiced was already at the pinnacle of the Eternal True God level. His actual strength, however, was likely even more formidable and terrifying.

"Then now, I will go and break through completely," the Primordial Ancestor stood up.

Luo Feng also stood up to see him off.

…

In the days that followed, Huyang City experienced a rare calm.

The Heartshadow Sect was also gathering some sect elites previously dispersed across various regions of the Land of Origin; after all, aiming to attack a Primal Chaos Prefecture, the more powerful the better. If they could form an overwhelming momentum, it would be most ideal.

Only, some sect elites were too far from Shi Kingdom; even with

Marquis Liu Yin's help, it wasn't a short journey to return.

Additionally, persuading some sect elites to join the battle was a notably difficult task.

Luo Feng, meanwhile, was immersed in cultivation.

Life Origin, destruction of the origin, Primal Chaos Layer cultivation, Three Thousand Void Calamity Beast Diagram… Luo Feng felt himself making slow progress every day.

Time passed, unbeknownst to him, five eras had elapsed!

Chapter 83: Episode 2 Chapter 11 Let Huyang City Tremble with Fear!

Huyang City, Dream Flower Tower.

Luo Feng arrived here with his two servants, Morosa and Moyu Qingyan.

"Lord Luo He has come."

"It's Lord Luo He."

The entire Dream Flower Tower was abuzz; whether it was other patrons of the tower or the internal members, all attention was on Lord Luo He. After all, the battle five eras prior had proven his terrifying strength—invincible below the Primal Chaos Realm—with the lives of "Divine Monarch Xue Yun, Yutian Xu, Yutian Yi".

"Dream Flower has seen the Divine Monarch," Dream Flower Tower Master approached with the young Musician, 'Araya,' and greeted Luo Feng with a radiant smile, "Divine Monarch, the usual place?"

"The usual place," Luo Feng smiled in reply.

"Please," Dream Flower Tower Master led the way.

Soon, they arrived at the Orchid Star Hall.

Nowadays, the Orchid Star Hall was exclusively for Lord Luo He's use, and any other distinguished guests could only visit other halls.

Ever since Black Butcher took his apprentices and followed Her Royal Highness Princess 'Yushui Tianyu' to the Royal Capital, Luo Feng,

even when enjoying fine food, generally came to the Dream Flower Tower. He seldom went anywhere else.

"Divine Monarch, please," the Dream Flower Tower Master personally poured him wine and accompanied him at his side.

"You flatter me, Tower Master. Have you composed any new pieces lately?" Luo Feng asked with a smile.

"Knowing that the Divine Monarch enjoys listening to music, I have indeed composed more than a dozen new pieces," the Dream Flower Tower Master replied.

"Then I must have a good listen later," Luo Feng was quite polite towards Dream Flower Tower Master.

On one hand, because of his good friend Shang Tianyan's relationship with the Tower Master, he felt he should show some consideration.

On the other hand, ever since his Spiritual Will had broken through to the Godly King Level, within Huyang City, even when using the "Seven Emotions of Heart Refining Technique," only the Tower Master's music could immerse him fully.

"Araya, begin your performance," the Tower Master nodded towards her.

Luo Feng watched with appreciation.

The young Musician 'Araya' concentrated on playing the music. Her Illusion Technique had become much stronger over the past thirty some eras, but since Luo Feng's will had reached the Godly King Level, Araya's Illusion Technique had a much weaker effect on him, serving merely as a simple entertainment while he ate and drank.

"Araya's Illusion Technique has become even more impressive," Luo Feng complimented after Araya had finished playing.

"Thank you, Divine Monarch," Araya respectfully bowed, though she felt a bit dejected inside. She could see that once, Lord Luo He would immerse himself completely in her Illusion Technique, even to the point of being moved to tears.

But now? He only listened with a smile.

"My skills are still too weak; it has become very difficult to please the Divine Monarch." Araya too had worked hard, but her Illusion Technique had already peaked at the pinnacle of the true god of void space, and she saw no hope of reaching the eternal true god realm.

Araya stepped aside to retreat.

The Dream Flower Tower Master sat there, surrounded by floating petals, with snowflakes naturally forming around her. Music spontaneously arose—with the natural world as her instrument, her Illusion Technique carried a magical enchantment.

The power of an Illusion Technique from an eternal true god was immense. Luo Feng willingly applied the "Seven Emotions of Heart Refining Technique" to enhance the magic of the music immeasurably so that he could be absorbed into it.

As the most important guest of the Dream Flower Tower, the Tower Master knew well Luo Feng's preferences. The pieces she composed were all capable of evoking deep emotional responses within Luo Feng.

"Just a few pieces of music and the master enjoys them that much?" Morosa, not far away, ate and drank heartily, mumbling to himself.

After more than a dozen pieces had concluded.

Luo Feng's emotions slowly calmed down.

"Good, Tower Master, these new pieces are very nice," complimented Luo Feng.

"Thank you for your compliment, Divine Monarch." The Dream Flower Tower Master had been quite nervous after the deaths of Shang Tianyan and Xue Yun, but then she discovered that Lord Luo He started to enjoy her Illusion Technique.

This thrilled her.

She even began to speculate, "In the past, Lord Luo He enjoyed

Araya's Illusion Technique, and he ignored me for over twenty eras. Shortly after the death of Shang Tianyan and Xue Yun, however, he began to like my music. Could he be pretending, just like Shang Tianyan and Xue Yun were?"

The pretense of Shang Tianyan and Xue Yun shattered all confidence of the Dream Flower Tower Master.

What power does Lord Luo He have? Invincible below the Primal Chaos Realm, would he really be captivated by her illusion? She lacked confidence.

"Lord Luo He is compassionate and loyal; perhaps, it's because of his brotherly bond with Shang Tianyan that he keeps coming to the Dream Flower Tower," the Dream Flower Tower Master theorized, "No matter, as long as the outside world believes... that Lord Luo He really enjoys my Illusion Technique, that's enough."

The Dream Flower Tower Master was also very grateful to Lord Luo He.

For this reason, she used every means possible to regularly compose new pieces for Lord Luo He.

"The contemplation of the Three Thousand Void Calamity Beast Diagram exhausts the spiritual will. Listening to the Illusion Technique with the 'Seven Emotions of Heart Refining Technique' allows me to completely relax and cleanses my spirit, washing away all exhaustion," Luo Feng still highly valued the Dream Flower Tower Master.

Long periods of cultivation can lead to weariness and numbness.

Seven Emotions of Heart Refining bring back the touch of one's own heart.

"I have completely mastered the full Catastrophe Beast Diagram," Luo Feng thought silently, "Yet every contemplation still brings me new insights."

These five eras were a period of rapid progress for Luo Feng.

Often facing the Great Dao of Life Origin, with Morosa having reached the Primal Chaos Realm and often displaying the destruction of the origin, Luo Feng's long-term contemplation and deep accumulation naturally far surpassed that of five eras ago.

He had long ago mastered the Catastrophe Beast Diagram. Now he was revisiting it over and over.

He also occasionally visited the Primal Chaos Layer, capturing more than a dozen creatures imbued with complete Primal Chaos laws, such as the 'Silverlight Creature'. As his strength increased, capturing these creatures became easier.

"Without these opportunities, even five hundred eras of cultivation wouldn't compare to these five," Luo Feng mused. The assistance of several major fortuitous encounters was indeed significant.

Just the Great Dao of Life Origin alone had allowed him to make rapid progress.

"As for realm accumulation, I am still above Xue Yun," he thought.

"Yet, I still have not deciphered the Primal Chaos Laws!" Luo Feng frowned. "The Law Lineage is indeed more difficult than the Bloodline Lineage."

Xue Yun, with his accumulation, transformed to the Primal Chaos Realm in life-and-death struggles.

Whereas to comprehend the Primal Chaos Laws, he indeed required a much deeper accumulation of knowledge.

...

The city of Huyang was at its most bustling and prosperous during the daytime, with dense crowds of cultivators entering the city from various gates.

A Flying Boat was soaring through the skies above Huyang City.

Inside the Flying Boat.

There stood nineteen figures, led by a man with three eyes.

The three-eyed man, donned in a grey robe, looked through the walls of the Flying Boat at the vast Huyang City and smiled, "This is Huyang City, where the foundation of our Heartshadow Sect will be established for many years to come."

"Our Heartshadow Sect will finally have its foundation," said the other eighteen figures with mixed emotions.

Most of them had once left the Heartshadow Sect and taken root elsewhere.

However, this time the Heartshadow Sect was determined to firmly establish its foundation. At the call of the sect, and with the support of two Primal Chaos Overlords in the shadows, these elite members of the sect had come one after another, forming what was now the Eighteen Elders of the Heartshadow Sect.

The Eighteen Elders, each one of them formidable, and some even surpassing the Sect Leader in strength!

The Heartshadow Sect had undergone several declines and was already divided from within. Although the return of some sect elites from the Land of Origin strengthened the overall power, it also intensified the internal fragmentation.

But, when it came to claiming their foundational territory, they were united.

Even the two covert Primal Chaos Overlords demanded they seize the foundational territory. Once the two Primal Chaos Overlords achieved a breakthrough and no longer feared powerful enemies, they too would return to the sect.

"No one in the entire Jiu Jiang Primal Chaos Prefecture can stop us," the three-eyed man declared with confidence. "Even if the Marquis of Jiu Jiang himself appears, Marquis Liu Yin will personally deal with him. All we need to do is sweep away all the eternal true gods."

"Even in its current weakened state, our Heartshadow Sect can easily sweep away the eternal true gods of a Primal Chaos Prefecture," a

figure formed of flowing water said leisurely.

"I've heard that the most formidable in Huyang City is Lord Luo He," said a blind figure. "I wish to personally test his strength."

"Elder Hearteye, Lord Luo He is extremely strong, and I'm afraid only you have the power to fight him," another elder replied.

"Without Elder Hearteye, we would likely rely on formations to confront Lord Luo He," the rest of the elders chimed in.

There was a hint of fear towards Elder Hearteye among them.

When the Heartshadow Sect was whole, he was the most powerful. After the sect's decline and split, he left to traverse various parts of the Land of Origin, honing himself. It took extensive efforts by Marquis Liu Yin to personally coax him back this time.

"My friends..." the three-eyed man swept his gaze over the eighteen elders, "Let Huyang City fear the name of our Heartshadow Sect!"

"Yes."

"Haha..."

The Eighteen Elders were all filled with fighting spirit, and under their command were countless eternal true gods, true gods of void space, and true god disciples.

Hum~~~~

The Flying Boat suddenly grew immensely larger, and at the same time, around it materialized numerous other massive Flying Boats. In the blink of an eye, more than a thousand large Flying Boats appeared, suspended high above Huyang City.

This scene caught the attention of many cultivators within Huyang City and also drew the notice of the city's officials.

Boom! Boom! Boom! Boom! Boom! Boom!

One after another, super-large legion treasures appeared out of

nowhere.

"Hahaha..."

"We've waited far too long, and finally, today has come."

They took various forms: colossal humanoid creatures, immense exotic beasts, strange lakes, super-large plants, a giant golden eye, and a hunched creature carrying a sword...

139 super-large legion treasures appeared all at once.

Each of these legion treasures of the Heartshadow Sect was operated by at least ten eternal true gods and tens of thousands of true gods of void space. There were no mere true gods.

Unlike the Huyang Legion, which typically had only one eternal true god, tens of thousands of true gods of void space, and millions of true gods in operation, the Heartshadow Sect didn't need any true gods and instead boasted more eternal true gods, making it even more formidable.

Inside the thousands of large Flying Boats, there were also a vast number of disciples.

After all, they were once a large sect that boasted three Primal Chaos Overlords. Having called scattered disciples from all around after five eras, they now possessed nearly forty percent of their former strength.

"Whoosh, whoosh, whoosh." The Huyang Guard arriving through the void looked at the 139 large legion treasures with awe and fear, as well as the enormous Flying Boats, each exuding a terrifying aura.

"What is your purpose in coming to Huyang City?" a Leader of Huyang Guard asked nervously.

Chapter 84: 2 12 Panic at the City Owner's Mansion

The Huyang Guards were all very tense and fearful, the leading commander, although he was an eternal true god, could not help but feel his heart tremble in fear instinctively at the sight of 139 super-large Legion Treasures. He was afraid too!

"What is our purpose in coming to Huyang City, hahaha..." Among the many super-large Legion Treasures, one super-large plant-based treasure burst into laughter, its rolling laughter generating terrifying sound waves that swept over the Huyang guards.

The Huyang guards were all blown far away by the impact, the leading commander too was sent flying, utterly unconcerned about losing face.

"This is a serious situation now! The visitors mean harm!" As he was thrown, the commander also realized the peril Huyang City was in, "Merely relying on Huyang Legion, in front of 139 super-large Legion Treasures, we stand no chance! Such a powerful force coming over, and not fearing the deterrence of the Marquis of Jiu Jiang, is probably sent from Shi Kingdom."

Anyone with a bit of insight could guess that.

A powerful force forcibly entering a Primal Chaos Prefecture, the Godly Kings of Yu Kingdom would be furious! An active invasion of their territory could powderize them within a day.

That's also why, previously, the Heartshadow Sect couldn't find a foothold in the Land of Origin! The land of the entire Land of Origin had already been divided among various Divine Kingdoms and major powers.

Only representing Shi Kingdom, would Heartshadow Sect's invasion into Jiu Jiang Primal Chaos Prefecture represent a conflict between two countries!

...

At the city owner's mansion, there was, however, panic at the moment.

"Bad."

"It's the Heartshadow Sect!"

"The visitors mean harm, they are likely to attack the city owner's mansion!"

The Divine Power Incarnations of the leaders of the Five Great Families gathered here, looking at the scene monitoring the whole city, they also saw the entire imposing army of the Heartshadow Sect.

"Originally, the Heartshadow Sect offended the Great Saint Jiuyuan, who personally went to the Heartshadow Sect's gates. Three Primal Chaos Realms from Heartshadow Sect resisted the Great Saint Jiuyuan using the formation, that battle... one of the Heartshadow Sect's three Primal Chaos Realms was killed, the other two fled.

Even now, they can only hide in the shadows, not daring to appear publicly," Commander Moli Xiao grimaced, "Since then, the Heartshadow Sect has been in complete decline, even splitting apart."

The Lord of Huyang City nodded, "The declining Heartshadow Sect was then recruited by Marquis Liu Yin, and has been under his protection until today. Their coming here today undoubtedly means that Marquis Liu Yin is behind it!"

Marquis Liu Yin, in the entirety of Shi Kingdom, was one of the strongest few in the Primal Chaos Realm, his path of growth already one of blood and fire, and that of dark catastrophe. Never fearing strong enemies. Protecting the weakened Heartshadow Sect was something even the Great Saint Jiuyuan did not bother about.

The Great Saint Jiuyuan was mild-tempered, unwilling to initiate a

life and death battle if not provoked.

"The message has already been reported to the Marquis," an elderly man with white hair said, "The Marquis instructed us to first hold the city owner's mansion."

"Hold the city owner's mansion?"

"Only by relying on the city owner's mansion, can we hold off for a while."

They all felt bitterness in their hearts.

The whole of Huyang City, just like a super-large Mechanical Treasure, its core being the city owner's mansion! Even the likes of Xue Yun, Yutian Xu had never thought to breach into the city owner's mansion.

Depending on the uniqueness of the city owner's mansion, they had the confidence to hold for some time.

Outside of the city owner's mansion... they had absolutely no confidence in resisting the Heartshadow Sect.

"Let the core of the Five Great Families first retreat into the city owner's mansion."

"Heartshadow Sect might directly start the battle."

The Five Great Families were very anxious.

Even with the help of the city owner's mansion, they only dared to say 'hold on'; the power difference between the two sides was too great.

******

Thousands of large Flying Boats had a terrifying presence, along with 139 super-large Mechanical Secret Treasures flying in the air, their might deterred the Huyang Guards from approaching, causing not a single unit from Huyang's Ten Great Legions to dare intercept.

Whoosh! Whoosh!

Suddenly, two Divine Power Incarnations descended, it was the Lord of Huyang City and Commander Moli Xiao themselves.

At that moment, the many super-large Mechanical Secret Treasures, all focused on the two of them, along with the thousands of Flying Boats, the numerous eternal true gods inside, and a multitude of true gods of void space all looking over, this invisible pressure startled the Lord of Huyang City, Commander Moli Xiao.

"True to being a sect founded by a Godly King, even in decline, they still have thousands of eternal true gods," the Lord of Huyang City inwardly gasped.

He wasn't surprised, Heartshadow Sect in its completeness, guarded by three Primal Chaos Realms, had tens of thousands of eternal true gods, its faction's foundation covering three Primal Chaos Prefectures, firmly rooted with treasures left by a Godly King. Only afterward, having offended the Great Saint Jiuyuan, did they split and decline.

Despite that, no one dared to underestimate Heartshadow Sect.

Because the two Primal Chaos Realms in hiding might breakthrough in strength someday, no longer fearing the Great Saint Jiuyuan, and at that time Heartshadow Sect could rise again.

"Members of Heartshadow Sect," the Lord of Huyang City spoke.

A man with three eyes flew out from a Flying Boat, showing himself and smiling, "Heartshadow Sect 'Feng Yuqi' greets the Lord of Huyang City, Commander Moli Xiao."

"So, it's the Sect Leader of Heartshadow Sect," the Lord of Huyang City said, "With such a grand presence, what does Heartshadow Sect plan to do in Huyang City?"

"Sigh."

The three-eyed man sighed softly, "My Heartshadow Sect, in such decline, has searched the world, yet it's hard to find a founding place for our sect. We came to Huyang City just seeking a temporary place

to settle."

At this moment, 139 super-large Mechanical Secret Treasures looked down upon the Lord of Huyang City, Commander Moli Xiao.

Even if the three-eyed man sounded pitiful, the Lord of Huyang City, Commander Moli Xiao couldn't trust him.

Merely seeking a place to settle, why such a grand scale?

"Please constrain your disciples, Sect Leader of Heartshadow, so as not to affect Huyang City," the Lord of Huyang City said.

"I will do my best to restrain my disciples," the three-eyed man smiled, "I won't accompany the two of you anymore; I still need to arrange for my disciples. After all, with so many disciples of Heartshadow Sect, the arrangement is troublesome."

Chapter 85: Volume 2 Chapter 12 Panic at the City Lord's Mansion_2

He spoke and then directly returned to the large Flying Boat nearby.

The Lord of Huyang City and Commander Moli Xiao looked at each other, only able to temporarily dissipate this Divine Power Incarnation.

Inside the Flying Boat.

The three-eyed man, with an indifferent expression, sent a telepathic order, "Proceed with the plan."

"Yes."

Thousands of large Flying Boats and numerous super-large Mechanical Treasures moved at once, their might terrifying.

"Sect Leader, I had felt from the beginning that we should attack the city owner's mansion with the force of thunder," an Elder communicated telepathically, each of the Eighteen Elders already controlling a super-large Legion Mechanical Treasure.

"A large city has been built over endless years; the most central part is the city owner's mansion. It's not so easy to conquer," said the three-eyed man. "Even if we conquer it, I fear the Heartshadow Sect will also suffer some casualties.

Our opponent in this great battle is not the more than a hundred eternal true gods from the five great families of the city owner's mansion at this moment, but rather the large armies under the Marquis of Jiu Jiang."

"What the Sect Leader said is wise," another Elder agreed. "We must conserve enough strong forces; the stronger our forces, the more the Marquis Liu Yin will rely on us. And if we are significantly weakened in the fight with the large army of Marquis Jiu Jiang, our position under Marquis Liu Yin will also be lowered."

"Exactly."

The three-eyed man continued, "The strongest army in Jiu Jiang Primal Chaos Prefecture is not in Huyang City, but in Jiu Jiang City. Moreover, Marquis Jiu Jiang might also call upon some powerful eternal true gods from other parts of Yu Kingdom. Thus, we must act cautiously."

"Sect Leader," a cold voice came. "War, sometimes, requires a thunderous strike, instilling fear in them. Sufficient deterrence is needed to make the armies under Marquis Jiu Jiang truly wary. You may not want the sect's disciples to suffer too many casualties, but when vying for our sect's foundation, we cannot be tender-hearted and soft-handed!"

"Our Heartshadow Sect has reached this stage; we must be cautious and united at every step," the three-eyed man expressed his headache over the strongest 'Elder Hearteye,' who did not share his view.

"I am just speaking privately to the Sect Leader," said Elder Hearteye, clearly disagreeing with the Sect Leader.

Given his temperament,

he would have destroyed the city owner's mansion at the first chance, willing to bear some casualties to completely occupy Huyang City first.

If Marquis Jiu Jiang dared send a large army, then slaughter! Slaughter until Marquis Jiu Jiang hesitates, slaughter until Marquis Jiu Jiang feels the pain!

As for the casualties of sect disciples? For the future of the sect, it's all worth it!

"Since the two venerable ancestors stand with the Sect Leader, it's

fine; this Feng Yuqi may be tender-hearted and soft-handed, but he is also wholeheartedly devoted to the sect," Elder Hearteye, constrained by the instructions from two Primal Chaos Realm ancestors, could only hold it in.

...

Luo Feng, who was inside Dream Flower Tower, also received a continuous stream of messages.

At this moment, every faction within Huyang City was somewhat panic-stricken, feeling that the entire city could face significant upheaval.

"Heartshadow Sect's large army has arrived at Huyang City? With 139 super-large Legion Mechanical Treasures? With thousands of eternal true gods?" Luo Feng was stunned as he heard this, and he immediately called to his servant nearby, "Luo Sa, let's go out and take a look."

"Has something big happened?" Morosa, still eating meat, reluctantly stopped to follow his master outward.

Moyu Qingyan, Dream Flower Tower Master, also went out together.

Whoosh!

Soaring into the sky, Luo Feng looked from afar and, despite the Huyang City Formation's influence, could still see through the air and spy on the thousands of Flying Boats and numerous super-large Legion Mechanical Treasures of the Heartshadow Sect.

"Impressive force," Luo Feng admired. "Worthy of a sect established by a Godly King; decayed to this day, it remains so formidable."

The Heartshadow Sect is a standard Godly King Sect; at its peak, it was also regarded as a significant power with countless disciples.

The Duan Dong River lineage, perhaps the ancestors found training disciples too troublesome, since it was transmitted from one to the next, with the previous Duan Dong River dying in the Universe Ocean. Fortunately, Luo Feng succeeded and continued the lineage,

becoming the 193rd Duan Dong River.

"Heartshadow Sect has come; Huyang City is likely to undergo a significant change," the Dream Flower Tower Master was somewhat anxious.

"Their first target would also be the city owner's mansion," Luo Feng observed from a distance when suddenly his expression changed, "This is bad."

"Master, what's the matter?" Morosa asked, and Moyu Qingyan, along with Dream Flower Tower Master, were also puzzled.

"The Heartshadow Sect's army is heading straight for the center of Huyang City, and they're currently invading the 'Primal Chaos Armor Sector's cave mansions,'" Luo Feng said urgently. "Come on, let's hurry back. Don't let them occupy my cave mansion."

"Occupying cave mansions?" Morosa was startled.

Immediately, Luo Feng, along with Morosa and Moyu Qingyan, boarded the Flying Boat and traveled through the Void towards his own cave mansion.

Within the bounds of Huyang City, traveling short distances through the Void was not a difficult task for Luo Feng.

...

At this moment, the entire city owner's mansion at the center of Huyang City was in chaos. The elites of the Five Great Families had already retreated to the city owner's mansion.

"The Heartshadow Sect is attacking?" Moli Feiyun and Diaorong Qi were among the hustling core group of the Five Great Families. The sisters looked outside, only aware of the dire situation.

"Father, Senior Brother Gaowu and the others are preparing for battle," Moli Feiyun said, worried.

"Don't worry, the city owner's mansion is not so easily conquered," Diaorong Qi reassured.

At this moment, the elite of the Five Great Families, including the Huyang Legion and Huyang Guards, had mostly retreated to the city owner's mansion, with only a few still garrisoning the three major sacred areas.

"The Heartshadow Sect claimed they were looking for a foothold, yet now they are headed straight for the city owner's mansion," an old man with white hair observed from afar.

"Is a battle about to start?" the clan leader of the Meiwu Clan said worriedly.

"All we can do now is face it," the lord of Huyang City declared.

As branches of great families, they came to Huyang City to lead comfortable lives. Who would want to fight to the death?

Yet, entangled in a conflict between two nations, they dared not surrender.

On the side of the city owner's mansion, whether it was the direct descendants of the Five Great Families who were eternal true gods or the numerous vassal eternal true gods, there were only about a hundred eternal true gods in total. Even with the unique advantages of the city owner's mansion, whether they could hold it was uncertain.

The lord of Huyang City, Commander Moli Xiao, and others looked on from afar, only to see the troops of Heartshadow Sect moving decisively towards the cave mansions in the neighboring 'Primal Chaos Armor Sector.'

"This cave mansion now belongs to the Heartshadow Sect."

"Move out quickly."

"This cave mansion, we, the Heartshadow Sect claim it."

One after another, the cave mansions were directly occupied.

Among them, the cave mansion belonging to the Zhu Clan covered a vast area, ranking among the top few super-large cave mansions in

the Primal Chaos Armor Sector, much larger than Luo Feng's smaller cave mansion. Originally, it was formed by purchasing multiple cave mansions together.

"Esteemed members of the Heartshadow Sect, this is the ancestral land of the Zhu Clan," the clan leader "Zhu Hu" personally stepped forward, followed by five eternal true gods who were quite pleasing and respectful. "My Zhu Clan is willing to offer treasures in exchange for preserving our ancestral land."

"What of the ancestral land?" Suddenly, a massive golden eye descended, its voice thunderous. The giant golden eye fixed on Zhu Hu, causing him to tremble with fear; he felt a threat of death.

"Move out quickly, or none of the Zhu Clan will be spared," the massive golden eye declared. "And about your so-called offering of treasures? Let me see them. If the treasures are not precious enough, you don't need to move out. Just die here instead."

The frail old Zhu Hu's face, marked with green secret patterns, twisted. Behind him, the five eternal true gods of his clan felt somewhat desperate.

"Fine, we will move out immediately," Zhu Hu could only endure, not daring to resist in the slightest, while also obediently offering the treasures.

...

"Whose cave mansion is that?" A super-large legion mechanical treasure looked towards Luo Feng's smaller cave mansion.

"Master Uncle, that is the cave mansion of Lord Luo He," a disciple reported.

Chapter 86: Episode 2 Chapter 13 Hiring Lord Luo He?

"Lord Luo He of the River God?" The super-large Legion Mechanical Treasure observed the inconspicuous small cave mansion with a bit of wariness.

"Uncle-Master, the Sect Leader has long since ordered that Lord Luo He's cave mansion must not be touched," a disciple said.

"I know."

Though the Heartshadow Sect's army seemed to march with unstoppable force, wantonly seizing one cave mansion after another.

Before they left the Shi Kingdom, they had thoroughly investigated the details of Huyang City. They were crystal clear about the owner of every cave mansion in the Primal Chaos Armor Sector. Cave mansion No. 913 of the Primal Chaos Armor had long been marked on their list as one not to be seized!

"I am the Cloud Treasure Pavilion Master of the Huyang City branch; you want to seize my cave mansion?" The Cloud Treasure Pavilion Master, with a huge solitary eye, rebuked the disciples of the Heartshadow Sect who descended upon the place.

A super-large Mechanical Treasure patrolling high in the sky immediately turned its attention towards him, and a cold voice rang out, "Cloud Treasure Pavilion Master of the Huyang City branch, if you don't want to die, scram quickly!"

The Cloud Treasure Pavilion Master looked up, locked eyes with the super-large Mechanical Treasure, and involuntarily trembled, only to reluctantly lower his head, "Fine, I'll move."

With a wave of his hand, he quickly gathered some commonly used items from within the cave mansion and took two old servants with him before leaving indifferently. The rest of his subordinates were also scared and quickly fled the cave mansion.

"I am Vice Chairman 'Chou Shisan' of the Qian Shi Commerce Association's Huyang City branch." A stern-looking elder surveyed his surroundings, "Are you even going to seize my cave mansion?"

"Vice Chairman Chou." A super-large plant lifeform slowly descended, its voice much gentler, "Please don't make it difficult for us! If you continue to live here, once war breaks out, you will also be easily affected, don't you agree?"

The stern-looking elder eyed the other party.

In terms of background, within Huyang City, the only one that surpassed Qian Shi Commerce Association was the exceedingly aloof Flame Wind Pavilion.

"We will not disrupt the business of the Qian Shi Commerce Association, but your eternal true gods at the Qian Shi Commerce Association should not get involved in this war either," the super-large plant lifeform continued to persuade patiently.

The stern-looking elder understood that if the branch of the commerce association were to be destroyed, headquarters might be enraged. But the seizure of cave mansions belonging to their eternal true gods would be considered trivial, not even worthy of being reported to headquarters.

The Qian Shi Commerce Association's business spreads across numerous kingdoms. A branch in a large city is very inconspicuous.

Moreover, the Godly Kings backing the Qian Shi Commerce Association were also unwilling to get involved in the dispute between the Shi Kingdom and Yu Kingdom easily.

"Fine, I'll move," the stern-looking elder could only swallow his pride.

...

Luo Feng, carrying Morosa and Moyu Qingyan, quickly returned to his cave mansion.

"Wow, it's quite lively here." Morosa stood atop the mountain, looking around at the surroundings, and with his strength, he could naturally see every cave mansion in the Primal Chaos Armor Sector without being affected by the grand array of Huyang City, "Heartshadow Sect is frantically seizing cave mansions."

Luo Feng was also at the mountaintop with the leisure to look around, "Whether it's the local families, Dark Forces, or the divisions of major powers with a background, all the cave mansions in the Primal Chaos Armor Sector have been taken."

"Master, they haven't taken our cave mansion," Moyu Qingyan noted the massive Flying Boat and the super-large Mechanical Treasures in the distance, feeling quite tense.

Morosa curled his lips: "Don't be impressed by their bluster; they're actually quite smart to know who not to provoke."

"Don't boast; Heartshadow Sect is not an easy rival," Luo Feng said with a smile.

The conflict between Marquis Liu Yin and Marquis of Jiu Jiang.

There was no need for him to get involved.

To him, growth was of the utmost importance!

The three most ancient Masters of the Shi Kingdom were his true enemies!

"Brother Luo He." The Lord of Huyang City contacted Luo Feng using the transmission token.

"City Lord, you're contacting me for a matter?" Luo Feng took out the transmission token with a flip of his hand.

"Brother Luo He must've seen it too, the sudden arrival of Heartshadow Sect in Huyang City. They are too strong, and my city owner's mansion can't withstand them," the Lord of Huyang City

communicated, "The Marquis will soon dispatch reinforcements, but what's imperative now is to defend the city owner's mansion. The city owner's mansion... is the core of the entire Huyang City."

The three forbidden lands are critical as they are tied to the grand array of Huyang City.

But the city owner's mansion is truly the core of the 'super-gigantic mechanical city' of Huyang and can unleash terrifying power.

Even if the Heartshadow Sect, with such strength, were to forcefully attack the city owner's mansion, it would result in some casualties.

"City Lord, with my lone power, how could I possibly resist a vast sect like Heartshadow Sect?" Luo Feng communicated back, "I'm not strong enough."

"No eternal true god in Yu Kingdom has the power to resist the entire Heartshadow Sect alone. But if you come to the city owner's mansion, with your help, we will definitely be able to hold the city owner's mansion securely," the Lord of Huyang City communicated.

"To hide with you in the city owner's mansion?" Luo Feng communicated, "I'm just an independent eternal true god, really unwilling to get completely entangled in this. As an eternal true god, if I get involved in the strife between Marquis Liu Yin and Marquis of Jiu Jiang, who knows when I might die."

"You need not worry, the Primal Chaos Overlord will not bully the weak during the conflict between two countries," the Lord of Huyang City communicated, "As long as you are willing to help, any condition can be discussed."

"Any condition can be discussed?" Luo Feng asked, "How about one billion Cosmic Sand? Name your price to hire me, and I'm naturally willing to help."

"One billion Cosmic Sand?" The Lord of Huyang City was somewhat startled, this Lord Luo He was truly audacious.

Such a vast fortune would surely make the Primal Chaos Overlord flinch. Despite having a territory that ensured a steady income, the

Primal Chaos Overlord also needed to maintain a large number of subordinates, nurture the younger members of his clan, and spend on personal cultivation. They generally would not keep an excessive reserve of assets.

It was fundamental to expend savings on enhancing one's own strength.

Being able to carry several billion Cosmic Sand was already quite good. Some Primal Chaos Overlords who lived hand to mouth, spending nearly all their income, would struggle to immediately produce even one billion Cosmic Sand.

"This price is not at all expensive," Luo Feng stated.

"I must report to the Marquis first," the Lord of Huyang City dared not agree on his own; the previous bounty for Divine Monarch Xue Yun was just ten million Cosmic Sand.

Thirty to fifty million Cosmic Sand was enough to summon the strongest eternal true gods of the Yu Kingdom to join the battle, which was the normal going rate. Of course, it also depended on whether the other party had enough time and was willing to come.

"You go report to the Marquis first," Luo Feng said, then cut off the transmission.

"This price isn't high at all; my strength could be even stronger than the strongest eternal true gods of the Yu Kingdom," Luo Feng mused quietly.

```

Of course, it was only slightly stronger.

Although he possessed a Perfect Divine Body, Luo Feng only planned to exert the strength close to the limit of the 'unlimited godly body.' This conformed to normal logic. After all, there had been no cultivators with a Perfect Divine Body in the Land of Origin before.

If the strength he revealed totally exceeded the Eternal True God Domain, much stronger than the prodigies from the two great ancient
```

countries, it would likely raise suspicions among some ancient beings.

"My strength must appear normal,"

"It must align with logical normalcy," Luo Feng cautioned himself. He bore the hope of revenge from his mentor, the Mountain Sitting Guest, and carried the future of the Human Race. Inside his small universe alone, countless humans lived and procreated.

He had to be careful, never careless with each step.

"Master, nearly all the cave mansions around have been taken over," Morosa observed the surroundings. "Only the Five Great Families' mansions and the Master's remain. The Heartshadow Sect does act quite domineeringly."

"Marquis of Jiu Jiang won't just stand by and watch," Luo Feng said.

...

In the original mansion of the Zhu Clan, this location served as a temporary gathering place for the higher-ups of the Heartshadow Sect.

The Sect Leader and the Eighteen Elders congregated here.

"Sect Leader, in the Primal Chaos Armor Sector, only the mansions of the Five Great Families and the small mansion of Lord Luo He remain," one Elder spoke. "Should we make a move on the mansions of the Five Great Families?"

"There's no hurry."

The man with three eyes surveyed the Elders. "Right now we need to first appease the two major threats within Huyang City. One is the Flame Wind Pavilion, and the other is Lord Luo He."

The Eighteen Elders all listened.

"The Flame Wind Pavilion is established by a coalition of the strongest forces of the Flame Wind Ancient Country. No matter how the war unfolds, we must maintain respect for the Flame Wind

Pavilion. We cannot give them any reason to intervene," the three-eyed man said.

"Understood."

"We would be insane to provoke the Flame Wind Pavilion."

All of the Eighteen Elders were well aware that although the Flame Wind Pavilion did not interfere in the conflicts of other nations, it also did not tolerate provocation. Those who dared to provoke would face consequences far more terrible than provoking the Great Saint Jiuyuan.

Having affronted Great Saint Jiuyuan before, Heartshadow Sect saw three of its Primal Chaos Realm members—one dead, two fled—and the sect declined.

Provoking the Flame Wind Pavilion would leave no escape! The Master of the Shi Kingdom might personally take action, capturing them alive to present to the Flame Wind Pavilion for disposal.

"I will personally visit the Flame Wind Pavilion," the three-eyed man declared. "The Flame Wind Pavilion has the most terrifying background within the city, and the strongest within the city is Lord Luo He. According to the plan, Elder Hearteye will visit."

"Leave it to me," Elder Blind said calmly.

Just as deep in their respective realms, Elder Blind's numerous inheritances were certainly much stronger than those of Divine Monarch Xue Yun.

"Remember, do not make enemies," the three-eyed man instructed Elder Blind.

"Don't worry, I know what to do," Elder Blind nodded.

There was no choice.

The other Elders among the Eighteen Elders simply didn't dare to visit Lord Luo He! They feared that a disagreement might lead to being killed by Lord Luo He!

If they merely sent a Divine Power Incarnation for the visit, it would seem disrespectful.

Thus, sending Elder Hearteye was the most appropriate!

When Heartshadow Sect was at its peak, ruling over three Primal Chaos Prefectures, Elder Hearteye was the most powerful Eternal True God. After the decline of the sect, Elder Hearteye traveled and cultivated throughout the Land of Origin up to the present, accumulating even greater depth.

...

Soon, Elder Blind, accompanied by two disciples, made a secret visit to the exterior of Luo Feng's cave mansion.

"Primal Chaos Armor Sector 913." Elder Blind looked at the mansion.

One disciple beside him knocked on the door. As the knock resounded, an invisible fluctuation spread outward, and the disciple also spoke up, "Representative of the Heartshadow Sect, 'Elder Hearteye' has come to visit Lord Luo He."

The door quickly opened.

Moyu Qingyan smiled, "My Master has been awaiting you."

Elder Blind looked up, sensing the terrifying presence not far from the mountain peak.

"Indeed, an unlimited godly body," Elder Blind could feel the immense and boundless aura, as if it were never-ending. Every time he faced an unlimited godly body, Elder Blind's emotions were complex.

Coming from humble origins, he began his cultivation path through bloodline methods.

Even though he later showed dazzling talent, his godly body was no match for the 'unlimited godly body.' Even with Heartshadow Sect's nurturing and biased allocation of resources, and his bloodline becoming sufficiently mighty, it was still a notch below the unlimited

godly body.

It was quite rare for individuals like Yutian Xu, who had bloodline-based godly bodies, to be comparable to unlimited godly bodies.

"What of the unlimited godly body? More than one with such a body has fallen to my hand," Elder Blind took a stride and, whoosh, was already at the mountain peak, with his two disciples swiftly following.

Luo Feng sat in front of the pavilion at the mountain's summit, leisurely drinking, watching as a blind man with two disciples approached.

"Hm?" Luo Feng could sense that the blind man's aura was restrained, the hidden boundless sharpness somewhat startling Luo Feng, "His hidden boundless sharpness actually threatens my Realm of Life and Death."

The Realm of Life and Death was Luo Feng's combination of three moves from his pathway of life and death in the Primal Chaos Realm, forming an invisible domain.

"Elder Hearteye, honored to meet Lord Luo He," Elder Blind spoke, his two disciples respectfully following suit.

"I have long heard of Elder Hearteye's great name. Please have a seat," Luo Feng said with a smile. "Qingyan, serve the wine."

```
```

Chapter 87: Season 2, Episode 14: Sparring

Elder Blind sat down, while his two disciples stood behind him.

Moyu Qingyan personally served up fruit and fine wine.

"Please," Luo Feng said, holding up his wine glass.

Elder Blind also poured himself a drink. For powerful cultivators, eyes could be trained to be very strong, but even blindness wouldn't affect their observation of their surroundings.

Indeed, many cultivators do not even have eyes in their godly bodies or gaseous or liquid forms.

"Please," Elder Blind also raised his glass, and after drinking a cup, he smiled and said, "Before coming to Huyang City, I had already heard of the great name of Lord Luo He. General Yong Hu of Yu Kingdom's Capital relied on the Huyang City's formation and still couldn't hold Divine Monarch Xue Yun. But...

Lord Luo He, you managed to slay Yutian Xu, Yutian Yi, and the escaping Divine Monarch Xue Yun outside the city, all in one single night. Your strength is indeed above that of General Yong Hu."

"General Yong Hu was only concerned about the civilians within the city and afraid of causing too many casualties, which is why he let Xue Yun escape," Luo Feng said.

"The battle between Yong Hu and Xue Yun at the Flame Wind Pavilion is available for sale to the public," Elder Blind said, "Anyone can see that Xue Yun's strength is profoundly unfathomable, which makes us at Heartshadow Sect admire Lord Luo He even more. The Sect Leader had already ordered that upon coming to Huyang City,

we must not offend the Lord."

"The Sect Leader is too kind," Luo Feng said with a smile.

Moyu Qingyan, who was standing by serving, pricked up his ears to listen carefully.

Not offend the master? The Heartshadow Sect surely fears the master.

"This time Heartshadow Sect came to Huyang City to seek a place to survive," Elder Blind sighed, "For a sect to survive, it's very difficult."

Luo Feng was listening.

"For survival, our disciples of the Heartshadow Sect are willing to spare no expense," Elder Blind said, "I hope the Lord can understand the Heartshadow Sect and not interfere with the matters here."

"Haha..." Luo Feng laughed, "I'm not an official of Yu Kingdom, nor am I from your Shi Kingdom. I'm just an independent cultivator! As to whom I help? Alas, we independent cultivators are all desperately fighting for resources. If there are enough resources to hire me, how could I refuse?"

Luo Feng understood what the other party meant.

They hoped for Luo Feng's commitment not to interfere in the conflict in Huyang City.

"Enough resources to hire?" Elder Blind asked, "How much would it take to hire Lord Luo He?"

"I treat all equally. Yu Kingdom has already given me quite a bit, and I haven't even agreed to help them," Luo Feng said. "If Heartshadow Sect wants to hire me, two billion Cosmic Sand will suffice."

"Two billion Cosmic Sand?" Elder Blind's face twitched.

That's a bold price.

Watching from the side, Luo Feng remembered that the Monarch of Yu Country had gifted him a leaf from the Void Proliferation Mother

Tree and Marquis of Jiu Jiang had also presented him with ten million Cosmic Sand as a token of gratitude. That was all about relationships.

Giving a quote of one billion Cosmic Sand to Yu Kingdom was a friendly price.

Offering two billion Cosmic Sand to Heartshadow Sect was also justified. If Heartshadow Sect agreed to such a high price, and the news spread, Yu Kingdom would have nothing to say. After all, Luo Feng was giving them a half-price deal.

"I'm just an independent cultivator. Whoever gives the resources, I help them. I believe Elder Hearteye can understand," Luo Feng looked at the other party.

The conversation between Luo Feng and Elder Blind

made the two disciples behind Elder Blind and Moyu Qingyan tremble with the thought of two billion Cosmic Sand. What a colossal fortune that was.

"Understood, even for disciples of our sect, obtaining resources is not easy," Elder Blind said, "I have traveled the world challenging many mighty ones. With such strength as yours, I wonder if we could have a sparring match?"

"A sparring match?" Luo Feng nodded, "Sure."

Elder Blind sensed the confidence in the other party and immediately nodded: "I'll arrange a more spacious place."

"Let's just do it in my cave dwelling," Luo Feng said, "It's just a sparring match, this place is big enough."

"I'm afraid that might damage your cave dwelling," Elder Blind added.

"No need to compensate if it gets damaged," Luo Feng said with a smile as he got up.

"The Lord is truly magnanimous," Elder Blind also stood up, and his

two disciples and Moyu Qingyan at the side all became somewhat nervous.

...

In an open area of Luo Feng's cave dwelling, Luo Feng and Elder Blind stood opposite each other at a distance. Morosa, Moyu Qingyan, and the two disciples of Heartshadow Sect watched from the corners of the cave dwelling.

"Please," Luo Feng said with a smile, looking at the opponent.

Elder Blind flipped his hand, and a black spike appeared. At first glance, the black spike looked quite ordinary, with a subdued luster, and no secret patterns could be seen.

Since it was just a sparring match, neither side was burning their divine power, and their auras were very restrained.

"This Lord Luo He still wants to waver between the two forces, asking for two billion Cosmic Sand right off the bat? If he realizes the gap in our strength, he will be much more compliant," Elder Blind thought to himself.

"Be careful, Lord," Elder Blind said, as he thrust the black spike forward.

With that thrust, he activated the 'Realm of Life and Death' that was already spread around them. Luo Feng's Realm of Life and Death enveloped the entire cave dwelling, and as Elder Blind thrust his spike, the Realm heavily obstructed his attack.

The Realm of Life and Death, a combination of three Primal Chaos Realm techniques, appeared like a vast Tai Chi cloud formation upon manifestation, its rotation far more powerful than that of pure 'Control Primal Chaos.'

Rip!

Elder Blind's thrust forcibly penetrated the Realm of Life and Death, tearing through it and sending shockwaves rolling, with the spike already reaching Luo Feng's robe.

Luo Feng still stood unmoved, his robe surface displaying a layer of murky protecting robe, a synergy of the Realm of Life and Death condensed with two techniques from the Law of Primal Chaos. These five techniques combined to form the chaotic protective robe.

Though not as intricate as Divine Monarch Xue Yun's creation of the Blood Cloud Great Array from nine techniques.

But the Realm of Life and Death, the chaotic protective robe, were just some of the techniques Luo Feng had managed to comprehend in the span of the Five Eras.

"Puff!" The thrust, surprisingly, penetrated the murky protective robe on Luo Feng's skin. His skin, refined three times to achieve the Perfect Divine Body, was finally pierced, showing a speck of blood.

```

"Hmm?" Elder Blind retreated instantly, somewhat in disbelief.

"Amazing, amazing. With just a casual stab, Elder Hearteye managed to break through my domain and protective robe, even wounding me," Luo Feng exclaimed.

Elder Blind felt the pressure.

"I have cultivated the Godly King Level inheritance 'Six Extremes of Destruction,' which utilizes seven Primal Chaos Realm techniques. According to the inheritance, only after a complete integration can this stab be formed," Elder Blind was shocked internally. "I have encountered those with unlimited godly bodies before, and this stab would have seriously wounded them.

But facing Lord Luo He, it barely broke the skin?"

What seemed like a normal stab was indeed one of Elder Blind's lethal moves, famous in many regions.

"Divine Monarch, please try this move of mine," Elder Blind said, and right after speaking, his figure blurred in an instant.

Swoosh, swoosh, swoosh, swoosh!!
```

In a blink, he split into thirteen figures, each making a strike, each seeming terrifyingly powerful, but when the thirteen strikes merged, that's when the power truly shook the heavens and the earth.

"Boom~~~" This congealed black strike surprised even Luo Feng, "Indeed a disciple of a Godly King Sect, the technique is truly profound, forming a formation from numerous techniques to converge into a single, powerful strike? Relying on just a protective robe to withstand it isn't enough, I need to show some real skills now."

Faced with this earth-shattering strike, Luo Feng extended his left hand.

Boom!

His arm expanded rapidly, and his palm grew even larger, as though covering the sky, with each of Luo Feng's five fingers containing dual-colored vortices, the entire palm like a chaotic universe.

Boom~~~

The frightening strike collided with Luo Feng's palm, their forces annihilating and mercilessly grinding against each other.

One side is Godly King Level techniques recorded in the inheritance, the disciples merely need to cultivate step by step to continuously build their foundations and draw closer to the Primal Chaos Realm.

The other side, however, directly encountered the Great Dao of Life Origin and the Mysteries of Destruction's Origin, fusing both and integrating the understanding of Primal Chaos; this was also one of Luo Feng's six major killing techniques, the 'Ten Directions Annihilation Palm.'

If the 'World Breaking Nine Blades' of the past was purely for defense.

Then this 'Ten Directions Annihilation Palm' was for offense, and it involved combining ten Primal Chaos Realm techniques into one strike executed with a hand that had undergone three body refinements to attain a Perfect Divine Body. One of Luo Feng's true killing techniques. Luo Feng still had to hold back his strength—too

much, and it would exceed the 'Eternal True God Domain.'

Luo Feng had long set standards for himself, not needing to hide his realm's accumulation since the outside world already considered him very close to the 'Primal Chaos Realm.' Still, the power of the perfect godly body needed to be restrained.

Even reined in to the strength of an 'unlimited godly body,' he was still suppressing Elder Blind.

The Ten Directions Annihilation Palm, despite merging ten techniques still being somewhat rough, was no less formidable than Elder Blind's killing formation.

"Boom～～～"

That dreadful strike, under the crush of Luo Feng's massive palm, ultimately shattered and was completely obliterated.

This scene shocked Elder Blind.

"This Luo He is an unlimited godly body of the Law Lineage. And his realm's accumulation even surpasses mine," Elder Blind confirmed this instantly. "If he were part of the Bloodline Cultivation System, such accumulation might have already led him to the Primal Chaos Realm."

"Elder Hearteye's formation technique is quite powerful," Luo Feng praised, "I was even forced to use my ultimate technique. Elder Hearteye, do you have any more moves?"

"No need to continue comparing, I'm indeed inferior to Lord Luo He," Elder Blind spoke, "This sparring truly broadened my horizons. Lord Luo He, I shall take my leave first. And I will relay the hiring price you mentioned to the Sect Leader."

"Alright," Luo Feng nodded with a smile.

Elder Blind turned and swiftly left with two disciples.

This battle had kept the cave dwelling encapsulated by the Realm of Life and Death, and since Elder Blind had not burned his Divine

Power and had intentionally restricted the range, the cave mansion was still in relatively good condition. Only the empty space where the fight took place had pits and uneven ground.

"Sigh." With a thought, the ground quickly repaired itself.

"Master, this Elder Hearteye is quite strong," Morosa spoke, "Should be somewhat stronger than Xue Yun."

"Mhm, Xue Yun's formations are rather rough, whereas Elder Hearteye's moves are more naturally powerful and superior," Luo Feng nodded, "Unmistakably a Godly King Tier sect."

Although he himself had inheritances from two Godly King lineages.

Unfortunately, his master, Mountain Sitting Guest, was an Artifact Refining Godly King and did not leave him any suitable Godly King inheritances. The third-generation forefather of the Duan Dong River lineage did leave behind three supportive Godly King Level inheritances, "Duan Mie," "Dong Hua," and "Undying River."

No way around it; both his master and the third-generation forefather had just stepped into the Godly King Tier. This is why they met such fates—one fleeing into the Universe Ocean, the other dying completely.

Power is the foundation!

...

"Elder Hearteye, how did it go with your visit to Lord Luo He?" asked the Master of the Heartshadow Sect, who had just returned from visiting the Flame Wind Pavilion, "I heard that you sparred with him?"

"I asked him not to interfere, and he asked for a hiring price of two billion Cosmic Sand," Elder Blind frowned as he spoke, "So we had to go with the backup plan, sparring to put some pressure on him. But in this exchange... his godly body is stronger than mine, and even his realm is stronger."

Master Feng Yuqi of the Heartshadow Sect couldn't help saying, "Both

of our forefathers said that with your deep accumulation, Elder Hearteye, just a little chance could lead to a breakthrough. His realm is actually higher than yours?"

"While it's somewhat higher, ultimately, it's within the same tier," said Elder Blind, "Once I command the disciples and wield the Mechanical Flow Secret Treasure 'Heart Devil Kite,' I can match that Luo He."

Originally, the Divine Monarch who established the Heartshadow Sect crafted thirteen Mechanical Flow Secret Treasures according to their inheritances, to serve as hereditary treasures of the sect.

But over the long years, only seven of these Mechanical Heritage Secret Treasures remain, with the Heart Devil Kite being one of them.

A Divine Monarch establishing a sect left many means behind. But with continual decline, the Heartshadow Sect's methods are becoming fewer.

"This was just a spar, I didn't use my Secret Technique of Willpower 'Shadowless Stab,' which is my strongest move!" Elder Blind said, "Once it's used, it's no longer a spar but a fight for life and death."

Thank you to the new Alliance Hierarch "Lord Luo City_" for the reward; that name does have some domineering presence~~

```
```

Chapter 88: Volume 2 Chapter 15 Undercurrents Surge

The Master of the Heartshadow Sect and Elder Blind met, and soon the meeting of elders was convened.

"I brought gifts to visit the Master of the Flame Wind Pavilion, and everything went smoothly," Feng Yuqi, the Heartshadow Sect Leader, said with a radiant smile. "The Flame Wind Pavilion has always acted consistently; as long as they are not offended, they won't intervene in war."

This was within their expectations; not intervening in the conflicts of various nations was a rule set by the headquarters of the Flame Wind Pavilion, and branch leaders would not dare to breach it lightly.

If the Flame Wind Pavilion were to intervene, there must be a sufficient reason, and it must be confirmed by the headquarters.

"How did it go when Elder Hearteye visited Lord Luo He?" an elder asked, which was their most pressing concern. "Did he agree not to intervene?"

"He did not agree," Elder Blind said.

"He did not agree?"

The other elders were somewhat annoyed.

"We have already shown him enough respect, and he's still ready to take action against us at any moment?"

"This Luo He is a variable. I think we should join forces to deal with Luo He before the army of the Marquis of Jiu Jiang arrives," another elder suggested.

"It's easy for our entire sect to defeat him, but an eternal true god of his realm is unfathomable and has extremely strong survival skills. He might slip away quietly. Once he escapes... he really becomes a deadly enemy! Instead, we would be pushing him to the side of the Marquis of Jiu Jiang!"

The elders discussed animatedly.

Elder Blind nodded and added, "The power of our Heartshadow Sect is enough to defeat any eternal true god, but we're not sure we can kill him."

"Then what do we do?"

"Just watch? If a war really breaks out in the future, his involvement will be a big problem."

The elders were also worried; a stab in the back from him at a critical moment would be a major issue.

"This Lord Luo He said he's a freelance cultivator, and he will help whoever hires him," Elder Blind stated. "But he's very greedy; he has quoted a mercenary price of a full 200 million Cosmic Sand."

"Two hundred million Cosmic Sand?"

"He's crazy."

"Who does he think he is?"

The elders could not accept such a price.

Elder Blind continued, "Since he's asking for such a high price from us, he must have also quoted the Marquis of Jiu Jiang a high price. That's probably why the Marquis has not agreed to it yet. If he had, he would have likely entered the city owner's mansion already."

The Sect Leader of Heartshadow smiled,"Rest assured, everyone, such a greedy person will not make a move easily without a sufficient price. Even if he does make a move in the future, Elder Hearteye leading our disciples to control the Heart Devil Kite is enough to deal with him."

"Controlling the Heart Devil Kite is enough to handle him," Elder Blind agreed.

He admitted that Luo He's realm was slightly higher than his, but he practiced the Godly King level Dharma "Six Extremes of Destruction," and coupled with the Mechanical Flow Secret Treasure the 'Heart Devil Kite,' he could easily handle Lord Luo He after a full-powered boost.

"That's good to hear."

"As long as Elder Hearteye controls the Heart Devil Kite and entangles Luo He, there will no longer be any powerful individuals under the Marquis of Jiu Jiang for us to be wary of," the elders were quite confident.

After all, in the Yu Kingdom, there were only a handful of eternal true gods on par with Lord Luo He.

"Knowing that Lord Luo He hasn't sided with the Marquis of Jiu Jiang for now is good news," said the Sect Leader of Heartshadow. "Now let's move on to the next step of the plan."

...

In Huyang City, above the Primal Chaos Armor Sector, several huge Flying Boats and numerous super-large Mechanical Stream Secret Treasures suddenly headed towards the cave mansions of the Five Great Families.

"What's happening?"

"The Heartshadow Sect has arrived."

The members of the Five Great Families had already been uneasy, but the core members of the families had already moved to the city owner's mansion as the first action, only leaving behind a large number of ordinary family members of lower status. These ordinary family members accounted for over ninety-nine percent of the family population, making it troublesome to relocate.

Even when the family leaders gave orders, the execution would be

sluggish.

"The cave mansion of the Qumeng Clan now belongs to our Heartshadow Sect," boomed a powerful voice from ten super-large Mechanical Secrets Treasures hovering in the air, sweeping over the entire cave mansion. "All creatures inside the cave mansion must leave; after one hundred breaths, any creature still inside will not be spared!"

"We are part of the Royal Family."

"How dare you seize the cave mansion of our Qumeng Clan." Some of the family members were used to arrogance and dared to berate even the Heartshadow Sect.

But the vast majority of family members quickly packed up some belongings and frantically rushed out of the cave mansion.

In a conflict between two nations, who would care about the insignificant members of the royal family's fringe branches?

"The Moli Clan, move out quickly."

"The cave mansion of the Jiang Family now belongs to our Heartshadow Sect."

"The Wu Family..."

"The Meiwu Clan..."

The Heartshadow Sect did not care about the backgrounds of the others; they seized the cave mansions directly. The fact that they didn't proceed to slaughter was already showing restraint.

Under the threat of death, the Five Great Families almost completely evacuated their cave mansions within one hundred breaths, save for a very few foolish and stubborn individuals who still remained inside.

"I am a member of the Royal Family; how dare you, Heartshadow Sect, kill me?" Those few foolish and arrogant individuals silently turned to dust under an invisible force, and none was spared!

The descendants of the Royal Family had proliferated for countless years and had become too numerous to count. Many branches were settled in remote cities, and their status was not as elevated as they believed.

In the Land of Origin, only the core and elite members of some big clans held a higher status.

"The members of the Five Great Families have all come to the city owner's mansion," the Lord of Huyang City said, looking at the other four clan leaders. "The city owner's mansion needs to reserve a large space for war, and cannot accommodate so many family members."

"For the time being, let them stay temporarily in the cave mansions and secret treasures," Moli Xiao suggested.

"We have no other choice," agreed the leaders of the other three great families.

A comfortable residence for the core members of the family is enough, while common clansmen may first take shelter in the cave mansions' secret treasures.

Thus, the common clansmen of the five great families, having just entered the city owner's mansion, were ordered to enter the cave mansions' secret treasures according to their ranks to temporarily reside there. They had no choice but to obey the orders from the family's higher-ups.

"Now, in the entire Primal Chaos Armor Sector, only Lord Luo He's cave mansion remains unoccupied," said the Lord of Huyang City, "and not long ago, we detected powerful energy fluctuations coming from Lord Luo He's cave mansion."

"Did the Heartshadow Sect recruit Luo He?" the leaders of several families worriedly inquired.

"Hiring Luo He is very expensive," the Lord of Huyang City immediately reached out to contact Luo Feng.

...

Luo Feng sat atop a mountain within the cave mansion, leisurely drinking wine, observing the ever-changing situation in the Primal Chaos Armor Sector.

The once high and mighty Five Great Families had now been forcibly evicted from their cave mansions, and the few clansmen who dared to stay had been reduced to dust.

"When your background matters, your background is of use. When it doesn't, what can you do?" Luo Feng pondered.

The so-called background, the so-called dignity, ultimately needed to be supported by strength.

Like the Flame Wind Pavilion, even a minor branch would cause two warring nations to make way.

"Brother Luo He," the Lord of Huyang City suddenly reached out.

"City Lord, what brings you to contact me all of a sudden?" Luo Feng replied.

"Recently, powerful energy fluctuations were detected from Brother Luo He's cave mansion. Did the Heartshadow Sect visit you?" asked the Lord of Huyang City.

Lord Luo He's strength.

The difference between being recruited by the Heartshadow Sect or the city owner's mansion was significant. It could mean the equivalent of having two Lord Luo He's.

"It was Elder Hearteye from the Heartshadow Sect who came to visit, and we briefly sparred," Luo Feng communicated.

"Oh, and how did the spar go?" The Lord of Huyang City was very interested, as he was well aware of Elder Hearteye's strength.

"He is indeed quite strong," Luo Feng communicated, "stronger than Xue Yun."

The Lord of Huyang City's interest piqued, sensing Luo Feng's

implication, and responded, "Brother Luo He can kill Xue Yun, so if it's one-on-one, could you also kill this Elder Hearteye?"

"I hear he can control one of the Heartshadow Sect's thirteen Mechanical Treasures, the 'Heart Devil Kite'. If he operates it, I can only suppress him at most, and will not be able to kill him," replied Luo Feng.

The Lord of Huyang City was inwardly shocked.

Elder Hearteye controlling the Heart Devil Kite, yet Luo He claimed he could suppress it? Didn't it mean that he could restrain even more of the Heartshadow Sect's forces?

"The Heartshadow Sect visited me because they too wish to hire me," Luo Feng communicated, "you know, a free cultivator like me cares most about resources. But I also have a deep bond with Yu Kingdom, so I quoted a hiring price of two billion Cosmic Sand."

"Brother Luo He is truly forthcoming, the price you've given us is far lower than what the Heartshadow Sect offered," lauded the Lord of Huyang City.

Even if he thought the price of one billion Cosmic Sand was high, he still flattered Luo Feng.

At this time, whichever side Lord Luo He supports would greatly influence the battle situation.

"I will report this to the Marquis, and I believe there will be a result from his end very soon," the Lord of Huyang City also soothed Luo Feng.

After the communication ended.

Luo Feng held his wine jug.

"It seems my quote was a bit high, both sides haven't agreed," Luo Feng thought, "this spar should have proven my worth."

Whether Marquis of Jiu Jiang or Marquis Liu Yin rules the Primal Chaos Prefecture, they must ensure the safety of the city's citizens.

Thus, the citizens would continually pay the 'Residence Fee'.

Who wins, who loses? Luo Feng couldn't care less. Unless the offer was abundant.

"If I could get one billion Cosmic Sand, that should help me reach the Primal Chaos Realm faster," Luo Feng thought. The children of big families would naturally have resources poured into them if they were sufficiently talented.

He had no choice; he had to earn every resource himself.

...

Inside a hall in Jiu Jiang City,

Marquis of Jiu Jiang sat alone on his throne, his silver hair cascading over his shoulders, each strand causing disturbances in the Void.

"Marquis Liu Yin actually sent assassins from the Heartshadow Sect. Even if he manages to take away my Jiu Jiang Primal Chaos Prefecture... he'll have to share a portion with the Heartshadow Sect," the Marquis of Jiu Jiang's gaze grew even colder, "It seems he's determined to take Jiu Jiang Primal Chaos Prefecture this time."

"This is my fiefdom!"

"My cultivation resources!" The space around Marquis of Jiu Jiang twisted as he continued, "You, Marquis Liu Yin, are hell-bent on seizing my fiefdom? Judging from all sides, your strength is indeed greater than mine."

"But the real fight is not determined by superficial information."

The Marquis of Jiu Jiang had been very patient. The two neighboring Primal Chaos Prefectures were constantly provoked by Marquis Liu Yin's side, and he had been enduring.

But now the enemies had sent the Heartshadow Sect to invade the large city, 'Huyang City', and if he continued to endure, aside from Jiu Jiang City, he feared that the rest would be occupied.

"I have summoned all the elite forces of Jiu Jiang Primal Chaos Prefecture to Huyang City, but my elites alone are no match for the Heartshadow Sect," Marquis of Jiu Jiang was well aware of this.

At the level of eternal true god, his forces indeed could not compare with the Heartshadow Sect.

In terms of numbers, they were close; but in quality, they were significantly weaker.

After all, the majority of eternal true gods in Jiu Jiang Primal Chaos Prefecture cultivated much inferior Dharma compared to those of the Heartshadow Sect. Plus, various sect-defending treasures left by the Godly King of the Heartshadow Sect also significantly enhanced the disciples' strength.

"That Luo He wants one billion Cosmic Sand? He sure dares to ask," Marquis of Jiu Jiang was also troubled, "Let's first try to get a few eternal true gods from the Royal Capital. As for Luo He, let's wait and see how the situation unfolds."

He had already prepared one billion Cosmic Sand, actively inviting the strongest eternal true gods from the Royal Capital, but it was uncertain how many would come.

Chapter 89: Episode 2, Chapter 16: The Curator Breaks Through to the Primal Chaos Realm

After arriving at Huyang City, the Heartshadow Sect moved very quickly.

First, they occupied the majority of cave mansions in the Primal Chaos Armor Sector, then they paid visits to the Master of the Flame Wind Guild and Lord Luo He to soothe the two major sources of threat. After that, they began the most crucial step of their plan—

taking real control over the entire city!

While they occupied the cave mansions of the Five Great Families, they had already dispatched their subordinates to seize the three major forbidden areas within the city.

"Boom boom boom～～～" Five super-large Mechanical Secret Treasures had already flown to one of the forbidden areas, from which the Huyang Legion had already retreated, leaving only some Huyang Guards still defending it.

"What are you trying to do?" the Huyang Guards asked nervously as they watched the five super-large Mechanical Secret Treasures.

"Surrender unconditionally, or die," a voice came down from above as the imposing presence of the five super-large Mechanical Secret Treasures enveloped the entire forbidden area.

The Huyang Guards looked at each other.

The generals and commanders had already retreated to the city owner's mansion. The defenders of the forbidden area were just

ordinary Huyang Guards. The city owner's mansion had no expectation that these ordinary guards could hold the forbidden area; they only hoped to confuse the enemy.

"We are all just true gods of void space and ordinary true gods; resisting would be a death sentence."

"There's no way we can resist."

The gap was too great, so these ordinary Huyang Guards obediently surrendered.

Sigh.

Soon, this group of Huyang Guards was captured and taken inside a spatial secret treasure, and the five super-large Mechanical Secret Treasures shrank down and swiftly drilled into the interior of the forbidden area. With their combined strength, they quickly broke through the layers of protections of the forbidden area.

"The base of the formation in the forbidden area had already been dismantled; the city's grand formation can now only maintain the most superficial power," they said.

"We haven't even attacked yet, and the Five Great Families had already dismantled the core of the grand formation." The five super-large Mechanical Stream Secret Treasures went in to investigate and found that everything that could be dismantled by the city owner's mansion had been dismantled.

With the three major forbidden areas prematurely dismantled, only the ordinary formations integrated throughout the city were still operational, leaving the Huyang City's grand formation with only a mere ten to twenty percent of its power.

"Set up the Sect Great Formation as quickly as possible."

"Quickly."

From inside the five super-large Mechanical Secret Treasures, eternal true gods immediately flew out, rapidly setting up the formation according to the plan.

The Heartshadow Sect had many Sect Great Formations. As a former sect of Godly King level, their formations were much more mysterious than the Huyang City's grand formation, and the most top-notch formations even required a Primal Chaos Overlord to activate.

However, at this moment, what they set up were three simpler ones, which could be deployed in a short amount of time.

Movable formations generally have less power than fixed formations.

These three Sect Great Formations overlaid together were only slightly stronger than the fixed Huyang City's grand formation. However, once a great battle occurs, the impact of the formations, aiding in battle, is still significant.

The three sets of Sect Great Formations needed seven locations to set up the formations. These forbidden areas had sufficient space and were thus utilized for this purpose.

...

The Primal Chaos Armor Sector of Huyang City resembled a huge ring surrounding the city owner's mansion.

At this moment, all of the ring, except for a very small point— 'Lord Luo He's cave mansion,' had become the encampment for the Heartshadow Sect.

"Sect Leader, the Five Great Families had prematurely dismantled the core of the three major forbidden area formations. Our sect disciples are currently setting up the formations at full speed, and it won't be long before the setup is successful," an elder responsible for the formation placement immediately reported.

"It must be fast." The Master of the Heartshadow Sect stood atop the highest mountain in Primal Chaos Armor Sector, looking around, "Elder Yun Yi, take immediate control of the city gates. From this moment, strictly prohibit entry and exit."

"Yes."

Several elders were nearby, each leading a group of disciples.

With a command, eight super-large Mechanical Secret Treasures immediately flew towards the city gates. During their flight, they even repeatedly forced their way through the void. Clearly, as the power of the Huyang City's grand formation weakened, the spatial seals were also greatly reduced.

"The entire Huyang City could turn into a battlefield at any time; we need to leave quickly."

"Let's leave this dangerous place first."

Many cultivators sensed the danger and were rushing towards the city gates.

Unfortunately, even with only ten to twenty percent power in Huyang City's grand formation, there were very few eternal true gods who could force their way through the void on their own. They had to fly slowly, and it would take some time to reach the city gates.

"Huff, huff, huff."

Continuously, cultivators left.

Suddenly, two super-large Mechanical Secret Treasures traveled through the void and arrived at the East City Gate.

"Seal the city gate!" A terrifying power enveloped the entire East City Gate, and a swath of darkness descended, directly capturing the guards at the gate.

"Bad, they're sealing the city gates."

Cultivators still on their way, who hadn't reached the gates yet, saw this scene from afar and felt a chill in their hearts.

Meanwhile, the cultivators who had already reached the outside of the city breathed a sigh of relief.

"They're taking action so quickly?" Outside the city, the Clan Leader of the Zhu Clan, 'Zhu Hu,' looked at the scene from afar, "I brought

out fifty percent of our clan at top speed. But the remaining clan members... that's a bit troublesome."

The Zhu Clan has been rooted in Huyang City for too long, with numerous family members infiltrating every industry in the city.

Whether it's the Huyang Guards or the Huyang Legion, even members of many other forces, there are descendants of the Zhu Clan.

Even if they wanted to escape, Zhu Hu could only take the numerous family members who were already in the family's cave mansion directly into the mansion's secret treasure. As for those scattered throughout the city, he had no time to gather them anymore.

"Of the Zhu Clan's eternal true gods, only two are in the city. Zhu You and Zhu Fuqing, both of who have wide connections and are members of a major force's branch. They should be able to protect themselves," thought Zhu Hu. "With them here, they should be able to protect more of our clansmen."

After all, fifty percent of the clan members, many of whom are elites, are indispensable to the Zhu Clan.

"It's all up to Zhu You and Fuqing, these two kids," Zhu Hu sighed, the thin old man feeling unprecedented weakness.

Against the Heartshadow Sect, they had no capacity to resist.

"Such a powerful sect, even Yu Kingdom's strongest eternal true gods could only try to save their lives," Zhu Hu immediately traveled through the void, quickly leaving, heading toward neighboring Primal Chaos Prefecture.

...

Eight super-large mechanical secret treasures hurried to the four city gates to prevent entry and exit!

Once the sect's great formation was completely set up, the dark formation enveloped the entire Huyang City, sealing it entirely, leaving no dead angles, neither in the sky nor beneath the ground.

The original four city gates were also enveloped and sealed by a dark light, no longer allowing passage.

"We've succeeded."

"We can go back now," Looking up at the vast sect great formation, the eight super-large mechanical secret treasures guarding the four city gates began to depart.

The sect's great formation sealed everywhere; there was absolutely no way out.

Want to break out by force?

Possibly in the whole city, only Lord Luo He would have the strength to do so.

The Heartshadow Sect was even hoping that Lord Luo He would leave on his own!

"This isn't Huyang City's formation."

"The Heartshadow Sect set up a formation, enveloping the whole city?"

All the eternal true gods within Huyang City sensed the change in the formation, and with their knowledge, they could immediately tell the difference between this dark great formation and the original Huyang City Formation.

"Things are getting more interesting." Flame Wind Pavilion, Master Emperor Chu Yu watched the scene leisurely.

During his travels across the Land of Origin, he had witnessed various conflicts.

The conflict in Huyang City was merely a small ripple in his cultivation life.

"My Flame Wind Pavilion remains neutral among all parties, and it's also not easy to interfere in wars," said the deputy pavilion master, a figure shrouded in grey mist.

"If every branch could interfere in wars at will, the Flame Wind Pavilion could not remain neutral," Emperor Chu Yu said.

"Master, with the Heartshadow Sect just arriving, you've deciphered the Law of Primal Chaos. It seems the Heartshadow Sect is still your lucky star," the deputy pavilion master laughed.

"Hahaha..."

Emperor Chu Yu's laughter was hearty and joyful.

"After enduring long years, guided even by secret tomes, it took me until today to reach the Primal Chaos Realm," Emperor Chu Yu reflected. "For a Law Lineage to reach the Primal Chaos Realm, it's very difficult."

His cultivation technique was a secret passed down by the imperial family of the Flame Wind Ancient Country, much more powerful than the common Godly King level inheritances.

From eternal true god to Primal Chaos Overlord, the usual method of inheritance is continuous accumulation, eventually making a sudden breakthrough. But in the imperial family of the Flame Wind Ancient Country, there are detailed guides that lower the difficulty of breakthroughs significantly when followed step by step.

Unlike Luo Feng, who has been accumulating aimlessly. He possessed the will of a Godly King, a Perfect Divine Body bringing immense soul power, and studied both the Great Dao of Life Origin and the Mysteries of Destruction's Origin.

He grasped more techniques in the Primal Chaos Realm than Emperor Chu Yu, yet still couldn't break through.

"I have the guidance of the secret tome, combined with the complementary nine techniques of the Primal Chaos Realm and numerous resources assisting me, only then did I break through today," Emperor Chu Yu said. "I wonder when Luo He will be able to break through."

Reaching the Primal Chaos Realm in the Law Lineage is the minimum threshold for becoming a Guest Elder in Emperor Chu's Lineage.

"He has also accumulated quite deeply, but breaking through to the Primal Chaos Realm also requires some chance," said the deputy pavilion master, "By the way, Master, when are you going back? When are you going to report your breakthrough to the clan?"

"No rush," Emperor Chu Yu said, "I've already reported to the great ancestor, who asked me to keep it a secret for now. He will send resources over, and once my godly body is fully grown and my strength completely consolidated, then I'll go back."

The deputy pavilion master showed a pleased expression: "Whatever the great ancestor instructs you to do, just do it."

In the imperial clan of the Flame Wind Ancient Country, those who cultivated 'unlimited godly bodies' were elite members, too. In Emperor Chu's Lineage, after countless ages, there were almost a hundred people with unlimited godly bodies, each of whom could directly contact the great ancestor.

The deputy pavilion master, in contrast, had a relatively lower status within the clan. After all, even as eternal true gods in the Bloodline Cultivation System who were very powerful, the imperial clan had numerous such members, naturally not eligible to contact the great ancestor.

The great ancestor of Emperor Chu's Lineage was one of the emperors of the Flame Wind Ancient Country, known as 'Emperor Chu'!

"The unlimited godly body in the Primal Chaos Realm, is more majestic in size and slower in growth. Additionally, I also need to practice secret techniques to consolidate my strength," Emperor Chu Yu said, "I hope that before I leave, Luo He can break through. Then I can take him back with me."

"Within one or two eras, you should be able to fully consolidate, Master. How could Luo He break through so quickly?" the deputy pavilion master said. "Being stuck at a bottleneck for a few thousand or even tens of thousands of eras is quite normal."

"Once my strength is consolidated and if he hasn't broken through, I'll leave him a talisman, and we'll go back first," Emperor Chu Yu looked

at the chaos within the city, then stepped into the small building.

Chapter 90: Season 2 Episode 17: Pillaging the Entire City

The master of the Heartshadow Sect stood atop the mountain, gazing at the vast expanse of Huyang City.

Upon seeing the dark grand array enveloping the entire city, the master of the Heartshadow Sect's eyes were icy cold as he indifferently said, "Begin the pillaging plan, let's earn a fortune from Huyang City."

"Yes."

The three elders behind him excitedly complied and immediately left to carry out the pillaging plan.

The master of the Heartshadow Sect looked at the city and murmured, "Ever since we lost our sect's foundation, my Heartshadow Sect has been cut off from income. All this time, we've been depleting the sect's past savings."

A powerful sect, with thousands of eternal true gods, a massive number of true gods of void space, and countless disciples of true gods, the expenditure of each era was enormous.

They could withstand the drain for a short period, but as time went on and resources were depleted, the Heartshadow Sect would have to continue splintering.

"A city as big as Huyang, pillage it thoroughly once, and it's worth collecting residence fees over dozens of eras," the master of the Heartshadow Sect pondered, "Although there's a good chance of victory in this war, if the Marquis of Jiu Jiang calls for strong enough reinforcements, my Heartshadow Sect could still possibly be defeated."

In terms of power under the Marquis of Jiu Jiang's command alone, it certainly wasn't a match for the Heartshadow Sect.

But if a Godly King from the Yu Kingdom sent elite forces to aid the Marquis of Jiu Jiang, that would be a significant problem.

"Preserve the elites of the Heartshadow Sect, then pillage thoroughly once more. Even if we are defeated, we'll still come out ahead," the master of the Heartshadow Sect thought.

In times of weakness for the sect, he didn't care if mediocre disciples died.

The death of mediocre disciples would, after all, save on expenses.

"I wonder how much we can pillage from the entire Huyang City," the master of the Heartshadow Sect's eyes filled with anticipation.

...

The sight of nine super-large Mechanical Secret Treasures bearing hundreds of large Flying Boats arrived in a bustling commercial district of Huyang City where large forces had branches, weapon secret treasures, Bloodline Exquisites, and other major shops, as well as numerous places of pleasure.

"Exclude the eight major force branches and the cave mansion of Lord Luo He. Do not spare any eternal true gods or true gods of void space," a voice commanded, "Anyone who dares to resist, kill!"

"Yes." The numerous disciples aboard the hundreds of large Flying Boats were thrilled.

They knew well that while true gods seemed to be the most numerous in the city, the true gods were actually the poorest, unwilling to risk their few Primal Chaos Crystals and would only try to earn more once they'd spent them all.

To pillage the true gods of the entire city? Firstly, there were too many, making the pillage very troublesome. Secondly, the gains from such pillaging would be minimal; on average, each true god might only possess a few Primal Chaos Crystals. Thirdly, the Heartshadow

Sect might have future plans to rule over Huyang City! The countless true gods of Huyang would be their subjects.

For these reasons, they refrained from laying hands on the true gods.

But excluding the eight major force branches and the cave mansion of Lord Luo He, the Heartshadow Sect would not let any other eternal true gods or true gods of void space escape.

The majority of a city's wealth was in the hands of the eternal true gods and true gods of void space.

"Seal everything." A large number of disciples swiftly sealed off a major force branch 'Cloud Treasure Tower', which spanned a large area, its many pavilions displaying a multitude of treasures.

"What are you doing?"

"We are the Cloud Treasure Tower's Huyang City branch, are you going to take action against us?"

In the Cloud Treasure Tower branch, there were three eternal true gods and numerous members who were true gods of void space, all shocked by the sight of the many disciples of the Heartshadow Sect surrounding the place.

"Cloud Treasure Tower branch?" A blood-robed lady from the Heartshadow Sect walked in and sighed, "My Heartshadow Sect has been too poor for too long, so please, Cloud Treasure Tower, lend a hand. All treasures of the Cloud Treasure Tower branch, including all the treasures on your persons... hand them all over."

Her voice was soft and sinister, but what she said made the owner of the Cloud Treasure Tower, the deputy owners, and all the other members feel a chill in their hearts.

"Not a single Primal Chaos Stone can be spared," the blood-robed lady said indifferently, "A thorough search by our Heartshadow Sect is necessary, opposition will be met with death!"

Upon hearing this, the owner of the Cloud Treasure Tower, the two deputy owners, and numerous members who were true gods of void

space felt a tremble of despair.

They worked for Cloud Treasure Tower to accumulate resources.

Now all their resources were to be pillaged?

"The Cloud Treasure Tower branch belongs to my lord Marquis," the owner of the Cloud Treasure Tower said anxiously, his large single eye filled with urgency, "Lord Marquis will surely come to know of this."

"Your lord Marquis, once he knows, will surely understand the Heartshadow Sect's position," the blood-robed lady replied.

"Demanding all treasures to be handed over? Isn't keeping not a single Primal Chaos Stone too excessive?" A true god of void space couldn't help but speak up, as they'd accumulated over long years, and now it was all to be claimed?

They were all entertaining thoughts of desperate resistance.

Upon one glance from the blood-robed lady, that area's group of true gods of void space disintegrated silently into dust; each met their death, leaving behind their weapons and treasures.

"A true god of void space dares to speak up?" The blood-robed lady looked towards the three leaders of the Cloud Treasure Tower, "Or do you wish to resist as well?"

"I'll hand it over," one of the deputy owners immediately said eagerly, "Can we avoid a body search?"

"The search is mandatory," the blood-robed lady addressed the three of them, "Those who resist will still die!"

The so-called body search was an intrusion by Divine Power to thoroughly inspect the body, including the 'True God's Heart', completely trusting one's life to another—not many eternal true gods would be willing to do so.

Yet, faced with the threat of death, the three leaders of the Cloud Treasure Tower eventually bowed their heads.

...

"A mandatory search?" An elderly man of simple appearance looked at the disciples of the Heartshadow Sect in front of him and then looked up at the super-large Mechanical Treasure in the sky, "I willingly offer all my accumulated treasures, isn't that enough?"

"The search is mandatory," an eternal true god of the Heartshadow Sect said to him.

If it were based on voluntary compliance, they feared the vast majority of cultivators would hide their treasures, and it would be good enough if even half were surrendered.

Chapter 91: 2 Chapter 17 Plundering the Entire City_2

"Sigh, I just wanted to live peacefully in my hometown, but you forced my hand," the plain elder sighed, instantly transforming into a black shadow that swept past. Wherever he passed, including an eternal true god, dozens of disciples died instantly.

"Hmm?" The super-large mechanical secret treasure in the sky immediately panicked, "Kill him!"

"Buzz!"

Dark formations in the high sky had already erupted, covering the black shadow with terrifying dark forces.

"Heartshadow Sect, during my travels across the Land of Origin, nobody has ever searched me!" the plain elder said wildly. With his voice echoing everywhere, the black shadow had already disappeared.

"He escaped? I didn't expect that aside from Lord Luo He, there would be another expert hidden within Huyang City." The super-large mechanical secret treasure, unable to locate its target, immediately contacted the Master of the Heartshadow Sect, "Master, a formidable enemy spotted, we need causality tracking to lock onto the perpetrator."

The Heartshadow Sect sprang into action, beginning their pursuit of the plain elder. Having established such causality and locked by the sect's great formation, it was quite easy for Heartshadow Sect to trace causality.

Just a moment later.

The Elder-led super-large mechanical secret treasure—a massive plant life, waving countless vines, and those vines, like a Heavenly Net, strangled the fleeting black shadow, who struggled and resisted with difficulty.

"So be it, to die in my hometown. To have killed thousands of Heartshadow Sect disciples before dying isn't a loss," he said.

In the end, the black shadow was completely obliterated, leaving behind only some treasures.

"Hmph, not everyone is qualified to challenge the Heartshadow Sect." The massive plant life, brimming with murderous intent, wielding the power of a super-large mechanical secret treasure, was now as formidable as Elder Hearteye, one of the Eighteen Elders.

...

Dark Forces' 'Thousand Mountain Tower' headquarters.

"All our treasures have to be given to you?" Faced with two super-large mechanical secret treasures, suspended in mid-air, and surrounded by many disciples of the Heartshadow Sect, the seven masters of the Thousand Mountain Tower and many true gods of void space were utterly furious.

As a dark force, they were only used to looting; when had they ever been looted like this?

"Hand everything over, and we will search you as well," said a man in green clothes.

"Search us too?" the seven masters exclaimed angrily, "Even if the Five Great Families govern the entire city, they still show us some respect."

"In the future, Huyang City will be ruled by my Heartshadow Sect. In place of the Heartshadow Sect, no dark forces are needed," the man in green clothes said indifferently.

Cities ruled by the Heartshadow Sect.

Apart from major force divisions, all other commercial and local family forces were established by disciples of the Heartshadow Sect!

Entities like the Black Butcher, the Dream Flower Tower Master, and the Zhu Clan, which could be somewhat independent, cannot exist on Heartshadow Sect's turf. The Heartshadow Sect's control over a city far exceeds that of the city owner's mansion.

The seven masters of Thousand Mountain Tower looked at each other.

"We are willing to hand it over, but we won't allow you to search us," one master said.

The man in green clothes smiled faintly, glancing to the left where a large group of Thousand Mountain Tower members were reduced to dust, including Suo Yun.

"I—" Suo Yun, careful among the group of Thousand Mountain Tower members, felt the True God's Heart disintegrating as the man in green clothes glanced over, realizing at that moment he was about to die.

He didn't even have time to think further before he completely perished.

A weakling, he had not said a word nor resisted, and just like that, he was caught up and killed.

Initially, when he and Suo Zi left their tribe, they were rescued by Luo Feng, which allowed them successfully to reach Huyang City. Within Huyang City, he and Suo Zi took different paths; he did everything possible to seize all opportunities, even stepping over boundaries and risking his life.

Meanwhile, Suo Zi learned the culinary arts in peace at the Fire Realm Restaurant and, five eras earlier, followed his teacher, the Black Butcher, who was taken to the Royal Capital by Her Royal Highness Princess Yushui Tianyu.

And today, Suo Yun died quietly.

No one even cared.

"You..." the seven masters of Thousand Mountain Tower exclaimed in shock and anger.

"This is a warning. Say another word, and the seven of you are dead," the man in green warned as he gazed at them.

The seven masters of Thousand Mountain Tower could only endure it.

"Fine." The seven masters could only lower their heads, allowing the disciples of the Heartshadow Sect to search their bodies, taking all their treasures, leaving not a single Primal Chaos Stone behind.

******

In the entirety of Huyang City, aside from the city owner's mansion, the eight major forces' branches, and Luo Feng's cave mansion, all eternal true gods and true gods of void space in other locations were being pillaged, not one could escape.

Facing such a pillage, those who resisted out of anger all ended up dead. The vast majority could only endure being pillaged, as the disparity in strength was too great.

"What is happening?" Luo Feng, sitting on the peak of his cave mansion, also noticed that disciples of the Heartshadow Sect were dispersed throughout the city, several large Flying Boats, and numerous super-large secret treasures were in action.

"Lord Luo He." Suddenly, the Dream Flower Tower Master contacted him, "The Heartshadow Sect has blockaded the Dream Flower Tower, intending to completely pillage it and even search my body."

"A body search?" Luo Feng was surprised.

Searching the body of an eternal true god, naturally, they would search for the True God's Heart.

"First mention my name, delay them for a while," Luo Feng messaged, "and if it really can't be helped, don't resist. I'll head over right now."

"Okay." At this moment, the Dream Flower Tower Master could only

hope for help from Lord Luo He.

He practiced the Seven Emotions of Heart Refining Technique, needing the Dream Flower Tower Master's musical illusion techniques. Furthermore, since he and Shang Tianyan were friends, he also needed to help the Dream Flower Tower Master.

"Master, master."

Moyu Qingyan rushed to the mountain peak in a flash, his eyes red with desperation, "Master, my brother Moyu Liuxing is dead."

"Dead?" Luo Feng was surprised. Among the three brothers of the Moyu family, the one called 'Moyu Liuxing,' whom he had also met at the Heavenly Flame Sect, had a talent for artifact refining.

Over the long years, the oldest and youngest brothers of the Moyu family had also occasionally come to visit with gifts, so Luo Feng was quite familiar with the three brothers of the Moyu family.

"The Heartshadow Sect arbitrarily slaughters former disciples of the Heavenly Flame Sect, forcing other true gods of void space to obediently search their bodies and hand over their treasures. My brother merely spoke out, and he was instantly killed," Moyu Qingyan was bewildered at this moment.

The three brothers had grown up in Huyang City. Now, his brother was just gone like that?

Although aware of the many dangers on the path of growth, when his brother was truly gone, Moyu Qingyan felt like something was missing from his world, feeling hollow and empty.

"Lord Luo He." Luo Feng received another plea for help.

"Elder Qiu?" Luo Feng knew that Uncle Qiu was an old servant of Shang Tianyan, who handled many affairs of the Heavenly Flame Sect.

"Lord Luo He, I beg you, save the disciples of the Heavenly Flame Sect." Uncle Qiu has always been reluctant to bother Lord Luo He, but he was desperate this time, "When the Heavenly Flame Sect

disbanded, many disciples went their separate ways, among them some established Artificing Shops, the largest of which are the nine major shops."

"This time, the Heartshadow Sect is pillaging all true gods of void space, sparing none. And the slightest dissatisfaction leads to slaughter; many disciples have been killed," Uncle Qiu urgently said, "I know it's hard for the Divine Monarch, but I only ask that you save those nine Artificing Shops."

Whoosh!

Morosa suddenly appeared beside them, looking at Moyu Qingyan: "What did you say, your brother is dead? Is it that little guy who came to deliver food last time?"

"Killed by the Heartshadow Sect," Moyu Qingyan nodded, still unable to accept it.

"Master, what are we waiting for!" Morosa looked towards Luo Feng.

Chapter 92: Episode 2 Chapter 18 Blade Light Cleaves the Sky

Luo Feng was not surprised; he had long known that the Land of Origin was a very cruel world, where tribes living in the wilderness might disappear without a trace one day. And when Primal Chaos Overlords or ancient Godly Kings took action, it resulted in destruction of both heaven and earth.

No matter what level of cultivator they were, some were merciful, some indifferent and solitary, and some slaughtered creatures solely for their own...

This was the natural order of the world, where the weak were prey to the strong.

"Those cultivators who slaughter creatures just for themselves are despicable scum that deserve to die! Exterminating these scums is also part of the natural order," Luo Feng thought, "It's just that my abilities are limited."

Even ancient Godly Kings couldn't affect the order of the Land of Origin.

At that moment, Morosa and Moyu Qingyan were both waiting for Luo Feng to make a decision.

"Qingyan," Luo Feng looked at Moyu Qingyan, "where are your other family members?"

"My father is inside the city owner's mansion; the mansion is now sealed off, so he can't return," Moyu Qingyan explained. "My eldest brother's family is currently at home, and my younger sister-in-law is pregnant, so she's resting at home."

"Given the current dire situation, I plan to leave the city," Luo Feng said. "Is your family willing to leave the city with me?"

"Of course we're willing," Moyu Qingyan nodded. "I've already messaged my father, and he said that we'll listen to the master's decision."

"Hmm," Luo Feng looked toward Morosa, "Luo Sa, you now go to Dream Flower Tower and rescue the Dream Flower Tower Master, Araya, and their companions."

Morosa's eyes lit up, and he immediately sent a telepathic message: "Master, if we take action in the city, the Heartshadow Sect and the city owner's mansion will notice. How much of my power should I reveal?"

"Show strength comparable to Elder Hearteye, but your methods can be more severe. However, control the extent of your power," Luo Feng telepathically communicated. The outside world had long suspected that he was an elite cultivated by a major force.

Especially since he had rejected the recruitment by the Monarch of Yu Country, it led to further speculation about his powerful mentorship, and that Morosa was his Protector.

Let the world's speculations come true then!

"Understood." Morosa had been eager to act, and now that his master had permitted it, he could reveal some of his fangs.

"Start the action," Luo Feng gestured and took Moyu Qingyan with him.

In an instant, Luo Feng and Morosa both vanished in a flash.

...

Inside the city owner's mansion.

Moyu Hu was alone in a room.

"My third child," Moyu Hu felt as though his heart was being sliced

by knives when he received the news. After the death of his wife, his three children were what he cared about the most in this world, valuing them even more than his own life.

His relationship with Luo Feng, including the treasures he had acquired, were all exchanged for opportunities for his children.

But now, his third child was gone.

"I knew that this world was like this," Moyu Hu also harbored deep hatred, "But I can't avenge."

"That's the Heartshadow Sect! An entity that not even the entire Jiu Jiang Primal Chaos Prefecture can contend with," Moyu Hu felt helpless and in pain, while the high-and-mighty Marquis of Jiu Jiang was currently trying to marshal forces. As a mere true god of void space, what could he do?

"My greatest fortune was being able to meet Lord Luo He back then," Moyu Hu thought. "I hope Lord Luo He has a successful journey, bringing Liefeng, Qingyan, and all of them out of Huyang city."

******

In the Moyu Family's cave mansion.

"Heartshadow Sect!" Moyu Liefeng stood by the lakeside, tears in his eyes and a ferocious expression on his face, "For killing my brother, I, Moyu Liefeng, swear to seek vengeance at all costs! Even if it takes tens of thousands of years, I will never give up!"

Among the three brothers, the eldest, Moyu Liefeng, was the one with the highest talent. He was also the most fierce and bloodthirsty.

The youngest brother was the most reserved, simply wanting to quietly pursue cultivation, yet he was the first to go.

In this world, wishing to cultivate quietly didn't mean one would be allowed the peace to do so.

Suddenly—

A figure in a black robe stepped out from the ripples in the void and appeared above the cave mansion.

Upon seeing who it was, Moyu Liefeng immediately paid his respects reverently, "Divine Monarch! We are all ready!"

Luo Feng nodded and with a wave of his hand, gathered up all of the Moyu Family's creatures and structures.

"Next up are the nine artifact shops. Brother Shang, this is all I can do for you," Luo Feng thought.

Whoosh.

With a single step, Luo Feng vanished into the void.

Although the Heartshadow Sect's dark array posed a stronger suppression on space, Luo Feng's current understanding of space was profound. Especially since he possessed the 'Void Proliferation Mother Tree Leaf,' it allowed him to be more in synergy with space. Moreover, the frequent observation of this leaf also led to further insights for Luo Feng.

...

When the Heavenly Flame Sect disbanded, its disciples went their separate ways.

Some joined other forces; others set up their own artifact shops. Among them, the largest were the nine artifact shops. Moyu Liuxing and his wife Mo Youshang established 'Moyu's Artifact Shop' which had quite a reputation and spanned tens of millions of kilometers.

The Moyu Family had a considerable foundation in Huyang city as well: father followed Deputy City Lord Moli Meng, the Mo Family eldest was a direct disciple of the eternal true god of the Zhu Clan, 'Zhu You,' and the Mo Family's second brother was a servant of Lord Luo He, one of the mere two servants by Luo He's side.

Therefore, many Heavenly Flame Sect disciples followed 'Moyu Liuxing, Mo Youshang.'

"Take all the treasures with you."

In Moyu's Artifact Shop, whether it was the weapons and secret treasures on display for sale, or the storages of various secret treasures and materials, the disciples of the Heartshadow Sect were now moving everything out.

Moreover, many of the artifact refiners in the shop were being searched, and all of their treasures were taken, not even a single Primal Chaos Stone was left.

"Huff."

A figure flashed and had already arrived at the artificing shop, it was Luo Feng arriving through traveling the void.

"Who dares to barge into the forbidden area of the Heartshadow Sect?" The disciples of the Heartshadow Sect who were guarding the surroundings were immediately alarmed, and the three super-large mechanical treasures hovering in the sky all looked over.

Luo Feng, however, ignored them and instead gazed at the many artifact refiners, apprentices, and customers in the artificing shop, who all stood still, not daring to move.

"Lord Luo He." Most of these artifact refiners and apprentices were from the Heavenly Flame Sect and naturally recognized Luo Feng.

"How did Moyu Liuxing die?" Luo Feng asked.

"Who are you?"

A shout of rage came from outside.

"Shut up quickly, that's Lord Luo He!" The previously bustling disciples of the Heartshadow Sect soon fell silent.

But Luo Feng didn't pay attention to the outside and continued to look at the artifact refiners.

One burly artifact refiner immediately said, "Divine Monarch, today the disciples of the Heartshadow Sect suddenly arrived and without a

word, just pointed their fingers, and many artifact refiners, a large number of apprentices, and numerous customers died instantly, frightening everyone in the artificing shop into silence.

Only then did the Heartshadow Sect say that all treasures and materials of the artificing shop belonged to the Heartshadow Sect, and all eternal true gods and true gods of void space had to hand over their treasures and even be searched."

"As the owner of the Artifact Shop, Moyu Liuxing only said, 'We're willing to hand over the treasures, can we avoid being searched..." The burly artifact refiner said with grief and indignation.

"He had barely started speaking when the leading disciple of the Heartshadow Sect pointed his finger again, and Moyu Liuxing, along with the surrounding artifact refiners, apprentices, and customers, were all annihilated."

"You really dare to speak out!"

At that moment, three figures walked in from outside. The one in the lead was clad in a purple robe, underneath which seemed to be a godly body formed of black liquid, with an expression cold as ice. He looked at Luo Feng and saluted, "Disciple 'Chan Wuqi' of the Heartshadow Sect greets Lord Luo He."

"You pointed your finger twice and massacred a great number of creatures in the artificing shop, did you?" Luo Feng stared at him.

"It was me." Chan Wuqi said, "My Heartshadow Sect is merciful. This time we were only collecting war contributions from eternal true gods and true gods of void space. To make the collection go more smoothly, it's natural to intimidate."

"It was him. He killed Moyu Liuxing." The eyes of the burly artifact refiner were frenzied.

"Indeed, it was me."

Chan Wuqi nodded, "I was dealing with things, and he dared to speak out of turn. He was asking for death!"

Chan Wuqi felt it was completely justified.

To slaughter a few true gods of void space and true gods was merely a matter of a breath, no big deal.

"So this was the reason." Luo Feng understood.

Luo Feng also extended his hand and lightly pointed.

Hum!

An invisible blade light descended, instantly eradicating Chan Wuqi's godly body; even as Chan Wuqi died with his eyes wide open, he couldn't believe it: "This Lord Luo He actually dares to kill an eternal true god of my Heartshadow Sect in public; does he wish to be completely at odds with my Heartshadow Sect?"

This scene stunned the other disciples of the Heartshadow Sect, who were frightened and immediately rushed out of the artificing shop.

Before coming to Huyang City, they knew of Lord Luo He's renown, which was not something ordinary disciples could withstand.

"Huff."

Luo Feng waved his hand and took all the creatures in the artificing shop with him, including the customers.

At the critical moment, Luo Feng didn't have time to ask for their opinions. If they wanted to return, he would personally take them back after the war was over.

...

In this commercial district, with three super-large mechanical treasures floating in the sky and nineteen large Flying Boats hovering above, many disciples of the Heartshadow Sect were looting various commercial powers. With Luo Feng's arrival, all disciples of the Heartshadow Sect became nervous on the spot.

"Lord Luo He is here!"

"Uncle Chan Wuqi has been killed!"

The disciples of the Heartshadow Sect were somewhat panicked.

The three super-large mechanical treasures in the high sky also approached the Moyus' Artificing Shop, and they too were shocked that Lord Luo He had taken action directly!

After all, the Heartshadow Sect had always shown respect for Lord Luo He. Lord Luo He and his two servants were not to be offended by the Heartshadow Sect.

But...

The friends and relatives of the servants?

The friends that Lord Luo He had made?

Luo Feng had lived in Huyang City for over thirty eras, met too many friends, most of whom were eternal true gods. Some he had good relations with, others he had merely chatted with a few times. The Heartshadow Sect couldn't possibly let them all go. As for the friends and relatives of the servants, the Heartshadow Sect would care even less.

"Lord Luo He, you dare to kill our disciples of the Heartshadow Sect at will..." One of the super-large mechanical treasures, covered in dark cyan scales, almost humanoid with eight arms, said.

"Whoosh!"

A dazzling and terrifying blade light instantly tore through the sky, breaking space itself with a pitch-black crack, and directly swept past the super-large mechanical treasure. This caused the super-large treasure to shatter, and the disciples within were mostly killed or injured instantly. Among them, the eleven eternal true gods in command of the super-large mechanical treasure all perished.

This scene left many disciples of the Heartshadow Sect frozen and chilled to the bone.

"Quick, escape." The shattered super-large mechanical treasure's

remaining disciples were so terrified that they immediately flew away. The fastest to flee, however, were the two other super-large mechanical treasures.

Luo Feng stepped out of the artificing shop, looked up at the sky, and said coldly, "I'm dealing with things, and you also dare to speak up? You are truly seeking death."

The words of Luo Feng echoed mightily through the void, clearly heard by the escaping disciples of the Heartshadow Sect.

As he watched the falling super-large treasures break apart in the high sky, Luo Feng waved his hand to collect them. He then stepped forward and teleported through the void to the next artificing shop.

Chapter 93: Volume 2, Chapter 19: Cause and Effect

Within the city owner's mansion, the eternal true gods remained vigilant at all times, fearing an attack from the Heartshadow Sect.

"Make your move!"

"Luo He has made his move. He killed an eternal true god of the Heartshadow Sect."

"Another strike, he killed a super-large mechanical treasure with one slash! Just like that! That's his true strength. Far more frightening than General Yong!"

The entire Huyang City, akin to a super-large mechanical fortress, was centered around the city owner's mansion, which could always understand the happenings within the city. Especially when Luo Feng took action, there was no hiding it! The city owner's mansion could see everything clearly.

The divine power incarnations of the leaders of the Five Great Families gathered together to watch the scene just recorded from the encounter.

"Lord Luo He's slash tore such a long space rift! The might is too terrifying. No wonder he could kill Xue Yun," Moli Xiao said in amazement, as his own strength was much lesser than that of Xue Yun.

This slash was even beyond Xue Yun!

"Lord Luo He, in the outskirts of the city, probably could have killed Xue Yun with just a few slashes!" the Lord of Huyang City exclaimed in astonishment.

"Incredible, absolutely incredible," the leader of the Wu Family also exclaimed excitedly, "Lord Luo He has now turned against the Heartshadow Sect, which is great for us, it's a huge support."

"Luo He turning against the Heartshadow Sect doesn't necessarily mean he will help us," the leader of the Meiwu Clan remarked, "Remember, he had previously asked for an employment price of one billion cosmic sand."

"Regardless, just turning against the Heartshadow Sect is good for us," the white-haired elder mentioned.

"City Lord, quickly contact Luo He and see if he needs help," Moli Xiao reminded.

The Lord of Huyang nodded and immediately contacted Luo Feng.

"Brother Luo He, you've turned against the Heartshadow Sect, and your situation is very dangerous. You can now escape to the city owner's mansion here. Once you enter the mansion, with your help, the Heartshadow Sect won't be able to breach it," the Lord of Huyang conveyed the message, "You can also escape the city. There are elite troops sent by the Marquis outside who will come to your aid too."

"No need, the Heartshadow Sect can't do much to me," Luo Feng responded.

The Lord of Huyang transmitted, "I know Divine Monarch's strength is extraordinary, but the Heartshadow Sect is still the foundation of a Godly King level sect. Even in decline, it should not be underestimated."

"If I need help, I will speak up," Luo Feng transmitted.

"Alright, just give the word! The elite outside the city will immediately take action and rescuing Brother Luo He won't be difficult," the Lord of Huyang transmitted.

After ending the transmission with Luo Feng, the Lord of Huyang looked toward his four companions.

"What's the situation?" The four companions were unaware of the

communication.

"Luo He said he doesn't need our help," the Lord of Huyang lamented, "He even said that the Heartshadow Sect can't bother him."

"He doesn't even consider the Heartshadow Sect a threat?" the leader of the Meiwu Clan couldn't help but remark, "No wonder he never cared about us Five Great Families before."

"With his strength, unless someone from the Primal Chaos Realm makes a move, who could threaten him?" Moli Xiao shook his head.

"One-on-one they can't bother him, but the Heartshadow Sect has many methods. No eternal true god can withstand an assault from the Heartshadow Sect," the Lord of Huyang commented, "Lord Luo He probably also only has a chance to escape."

"Being able to escape under an assault from the Heartshadow Sect is quite impressive," Moli Xiao said.

"I've also shared this intelligence with the elite outside the city," the Lord of Huyang said, "If Luo He truly falls into a dire situation, the elite will act immediately to rescue him. At that point, Luo He will owe a life-saving favor!"

The leaders of the Five Great Families were watching the surveillance of the entire city, observing how the situation developed.

...

Seven Fire Tower, one of the nine artifact shops established by the disciples of the Heavenly Flame Sect, was founded by seven outstanding direct disciples under the sect. Among the nine artifact shops, it was the strongest and had the most apprentices.

"Bang." "Bang." "Bang."

Three eternal true gods leisurely walked in, each either pointing with a finger or waving a hand, causing the artifact refiners, apprentices, and customers in three different areas of the Seven Fire Tower to be directly reduced to dust, leaving only the remnants of their items.

"Hand over all treasures, those who resist will die!" The eyes of the three eternal true gods swept across the entirety of the Seven Fire Tower. Many cultivators inside were extremely shocked and angry because among those who had died were their relatives and friends.

However, facing the might of the Heartshadow Sect, rashly charging forward was nothing but a death sentence.

Seeing that no cultivators dared to resist, the three eternal true gods then turned their heads contently and walked towards another trading power nearby: "Let's move to the next one."

"Junior Brother Chang, there's no need for random slaughter, those true gods of void space wouldn't dare to resist anyway," said a figure in gray robes patrolling outside.

"Senior Brother Qiu, instilling terror through slaughter makes pillaging faster. Furthermore, to comprehend the Path of Destruction, one must often engage in slaughter to experience the heart of destruction," said the smallest of the three eternal true gods, "Our Heartshadow Sect's foundational teachings are based on the Path of Destruction."

"Both of us haven't even reached the Primal Chaos Realm, and you're already thinking about the Path of Destruction?" the gray-robed figure shook his head.

"With a heart of destruction, comprehending our sect's teachings yields better results."

"Senior Brother Qiu, if you are reluctant to slaughter, just watch from the side," they said dismissively as they walked away.

The figure in gray robes watched the scene.

"Legends say that the Sector Beast born from the Path of Destruction knows only destruction and was eventually besieged and killed by forces from all over the Land of Origin. Only the Sector Beast of Tianmu Kingdom, which became a servant and dared not kill indiscriminately, survived," Qiu Yi sighed inwardly, "The Heartshadow Sect acts recklessly and wildly.

Last time, they mistakenly killed the progeny of the Great Saint Jiuyuan, provoking the Great Saint's wrath and leading to the sect's total decline…"

"To this day, the Heartshadow Sect hasn't learned its lesson, refusing to repent."

"Indeed, even the ancestor who established the Heartshadow Sect comprehended the Path of Destruction. The five emperor-level inheritances he left all embody the Path of Destruction," the grey-robed figure shook their head gently, "But the ancestor himself is long dead!"

"Rampant destruction will eventually lead to self-annihilation."

"My master has been immensely gracious to me. Without him, I wouldn't be who I am today. That's why I crossed the domains of five Divine Kingdoms to hurry back, just to help establish a foundational territory for our sect," the figure in gray robes looked around, "But really, I don't like the environment of the Heartshadow Sect."

"Once the sect's foundational territory is established, I will have repaid my debt of gratitude and won't need to return," the figure in gray robes murmured quietly.

Suddenly—

The pupils of the figure in gray robes shrank as they saw a cold, black-robed figure appear.

As this figure appeared, an invisible aura of blade energy naturally spread, engulfing the heavens and the earth!

"Is that Luo He, one of Yu Kingdom's top eternal true gods?" the figure in gray robes trembled inwardly, "Indeed, he is stronger than me."

Qiu Yi was confident,

but upon seeing Lord Luo He, he knew he was no match.

After Luo Feng emerged from the Void, his gaze swept across the

surroundings, causing all disciples of the Heartshadow Sect to tremble.

"Lord Luo He." The artifact refiners and apprentices of the Seven Fire Tower were excited, almost all of them recognized Luo Feng as disciples of the Heavenly Flame Sect.

"Has the Heartshadow Sect been slaughtering?" Luo Feng's gaze swept across, immediately noticing many scattered storage devices and Weapon Secret Treasures on the ground.

"They indeed carried out a massacre," an artifact refiner immediately spoke up, as his Divine Power manifested the scene of the three eternal true gods committing the slaughter. "As soon as the three of them arrived, they started slaughtering without a word."

Luo Feng looked at the displayed massacre scene and nodded, "I understand."

His Realm of Life and Death had already enveloped a vast area, covering the three eternal true gods within its range.

Luo Feng had a thought.

"Boom."

The three eternal true gods were bound, still caught off guard, and were forcibly moved to the interior of the Seven Fire Tower.

The three of them looked around in astonishment at the artifact refiners, apprentices, and guests of the Seven Fire Tower and saw Luo Feng in a black robe.

"Lord Luo He, Lord Luo He, we of the Heartshadow Sect hold you in high regard," the three eternal true gods said ingratiatingly.

Suddenly—

Inside Huyang City, all disciples of the Heartshadow Sect received a message.

"All disciples heed my command, Lord Luo He has destroyed one of

our super-large Mechanical Treasures of the Heartshadow Sect and has become our great enemy! If you see Lord Luo He, flee immediately!" The order had been conveyed.

The highest echelons of the Heartshadow Sect reacted quickly, knowing that ordinary disciples would be delivering themselves to death in front of Lord Luo He, so they only instructed them to flee.

"Run, run, run."

"Hurry and escape," numerous disciples from the surrounding Heartshadow Sect ran away frantically.

But the three eternal true gods bound in midair were filled with despair: "It's over!"

"Lord Luo He…" They still wanted to say more, hoping that Lord Luo He would spare them.

Luo Feng looked at them and couldn't be bothered to say more.

"Hum."

The power of the Realm of Life and Death flowed, transitioning between creation and destruction. The three eternal true gods seemed to be crushed by a Taiji grinding disc, ground into dust, and instantly killed.

The artifact refiners, apprentices, and guests who witnessed this scene became excited.

"Well killed."

"They deserved to die."

They had long been filled with hatred.

"Let's go," Luo Feng waved his hand, gathered up the numerous cultivators of the Seven Fire Tower, took a step, and traversed the void toward the next artifact shop.

After Luo Feng left, the distant disciples of the Heartshadow Sect

finally breathed a sigh of relief, and the fleeing super-large Mechanical Treasure also stopped.

"Is this the power of Lord Luo He?" These disciples trembled in their hearts.

In the distance, a seemingly inconspicuous man in gray robes, Qiu Yi, watched the scene: "Junior Brother Chang, I have long advised you not to slaughter indiscriminately. This world operates on causality; to every action, there is always an equal reaction."

…

Primal Chaos Armor Sector, headquarters of the Heartshadow Sect.

The Sect Leader of the Heartshadow Sect and the Eighteen Elders gathered. They were either in their True Bodies or incarnated as Divine Power.

"Sect Leader, that Luo He has now taken action against our Heartshadow Sect. In the Moyu Artifact Shop, he killed a total of twelve eternal true gods," an elder said urgently. "At this point, can we still endure it?"

"Why did he suddenly make a move?" the Sect Leader of the Heartshadow Sect asked urgently.

"The Moyu Artifact Shop was established by Lord Luo He's servant 'Moyu Qingyan's' brother, Moyu Liuxing," an elder explained. "Our Heartshadow Sect disciple, Chan Wuqi, went there to collect treasures and killed a group of cultivators from the Moyu Artifact Shop, including Moyu Liuxing."

"The servant's brother?" the Sect Leader of the Heartshadow Sect frowned. "To fall out with us over a servant's brother?"

Many elders also felt that Lord Luo He was too reckless.

"After arriving at the Moyu Artifact Shop, Luo He first killed Chan Wuqi. The super-large Mechanical Treasure 'Black Fire Beast' nearby merely spoke to inquire, and Luo He destroyed the Black Fire Beast with one strike, killing eleven eternal true gods and a large number

of disciples inside. He even remarked—'How dare you speak when I am acting?

Truly seeking death.' Luo He is indeed too reckless," an elder spoke up.

The other elders were also very angry; Lord Luo He's actions showed he had no regard for them.

The Sect Leader of the Heartshadow Sect was still hesitant.

"I will contact Luo He," the Sect Leader of the Heartshadow Sect said.

"Contact for what?" Elder Hearteye spoke up. "At this point, do you still want to continue enduring, Sect Leader?"

"Luo He has made another move!"

As the Sect Leader of the Heartshadow Sect and the Eighteen Elders watched the scene monitored by the sect's grand array, Luo Feng appeared in the Seven Fire Tower and killed three eternal true gods of the Heartshadow Sect.

"He's so openly killed three of our eternal true gods in the Heartshadow Sect! Do you still want to endure this, Sect Leader?"

"Sect Leader, you might be able to endure it, but I cannot anymore!"

"Sect Leader!"

The elders felt a burning rage in their hearts, unwilling to continue tolerating it.

The Sect Leader of the Heartshadow Sect watched this scene and called back the disciples scattered outside. The internal structure of the Heartshadow Sect was already disjointed, held together merely for the purpose of establishing a foundational territory for the sect.

If they were to endure Lord Luo He's public and repeated killings, it would likely cause even more dissent among the disciples of the Heartshadow Sect.

"If we do not act now, the disciples of the Heartshadow Sect might lose all their motivation," he thought.

"Fearing just one Lord Luo He, how can we fight against the armies of the Marquis of Jiu Jiang?"

Most of the elders were unwilling to endure any longer.

The Sect Leader of the Heartshadow Sect sighed internally.

It was beyond his power to stop it now.

"Fine!" The three-eyed Sect Leader of the Heartshadow Sect, filled with a killing intent, declared, "We have given Lord Luo He enough respect, but he has trampled on the dignity of our Heartshadow Sect. We can't be blamed for this."

"Before the great battle, let's use Luo He for practice. This time, we must kill him! Do not let him escape!"

"Yes!"

All eighteen elders responded in unison.

Even though a few elders had doubts, with the Sect Leader's order, all the elders set aside further thoughts. At this moment, the entire Heartshadow Sect had only one option— to unite and eliminate this arrogant Lord Luo He.

Chapter 94: Volume 2 Chapter 20 Siege (Part 1)

```

After leaving the Dream Flower Tower, Morosa merely used void shuttling twice to arrive above an ordinary cave mansion in the Snow Winter District of Huyang City, where creatures of the Thousand Leaves Vine Clan resided.

"Divine Monarch, Araya has told us everything, we voluntarily follow you to the outside of the city," a true god of void space from the Thousand Leaves Vine Clan said respectfully as he performed a ritual bow.

Although a small number of the clan's members were not present in the cave mansion, there was clearly no time left, and it was already fortunate to be able to take away the vast majority.

"Good," Morosa, who appeared rather honest and simple, nodded and with a wave of his hand directly collected all the creatures and buildings of the entire cave mansion. Only the bare ground and the lakes were left.

While rescuing the Thousand Leaves Vine Clan, Morosa also transmitted his thoughts to Luo Feng: "Master, I have already rescued the Dream Flower Tower Master as well as Araya, and nearly all creatures of the Dream Flower Tower. Araya asked for my help, so I conveniently saved the Thousand Leaves Vine Clan as well."

"Is everything going smoothly?" Luo Feng asked.

"Fairly smoothly, the Heartshadow Sect knows I am the master's servant and did not dare to act against me. Although they wanted to stop me from saving the cultivators of the Dream Flower Tower, I
```

ignored them," Morosa transmitted back.

"The disciples of the Heavenly Flame Sect have established nine artificing shops, and of these, I will need your help rescuing the cultivators from these three," Luo Feng transmitted back, and sent Morosa the detailed addresses of the three artificing shops, "I have already clashed with the Heartshadow Sect, and if they see you again, they might act against you. You need to be careful."

"Haha, it would be better if they act," Morosa said excitedly.

"We must act quickly. I suspect that the Heartshadow Sect has started to gather forces to deal with me now and we cannot delay for long," Luo Feng transmitted.

"Don't worry," Morosa said confidently.

It had been five eras since he reached the Primal Chaos Realm and he had already passed the most vulnerable stage. His godly body had grown to its limits! And his understanding of the Great Dao of Destruction Origin was getting deeper and deeper.

Even if he suppressed his strength to a level comparable to Elder Hearteye, his methods could be much more enigmatic. If he wanted to leave, the Heartshadow Sect couldn't stop him at all.

Morosa naturally did not take the Heartshadow Sect seriously, but what he was afraid of was being pursued and killed by the ancient Godly Kings of the Land of Origin, so he had to do everything according to the master's command, perfectly acting the role of a "protector."

"Sigh." Although Morosa could have arrived at another artificing shop in one step, he still used three void shuttles to finally arrive at one.

...

The Master of the Heartshadow Sect and the Eighteen Elders gathered, some in their true bodies and some as Divine Power Incarnations.

They all watched the scenes revealed by the Sect Great Formation. In

one scene, Luo Feng went to an artificing shop and boldly killed some eternal true gods who had slaughtered others and took away all the cultivators from the shop. In another scene, Morosa was also rescuing cultivators from an artificing shop, and upon discovering the slaughterers, he too took action and killed them.

"The servant of Lord Luo He, called Luo Sa, had always disguised himself as a true god of void space. But according to information, Lord Luo He took his servant Luo Sa with him to hunt down Divine Monarch Xue Yun! We have long suspected that this Luo Sa was no ordinary being," they discussed.

"Even under the suppression of the Sect Great Formation, this Luo Sa can easily shuttle through the void! Relying on Mechanical Flow Secret Treasures is one thing, but if it's based on his own strength, he may well surpass most of the elders."

"One Luo He, one Luo Sa. With such strength and yet Luo Sa willingly serves as a servant, he could possibly be a protector sent by a great power. Their strengths should complement each other," they deduced.

These elders were extraordinarily insightful.

They were well aware that two extremely powerful eternal true gods skilled in the ways of the Primal Chaos Realm would likely specialize in different directions. But once they work together, they could make up for each other's shortcomings and confront most dangerous predicaments.

"Once they join forces, it will be even harder to kill them," some of the elders began to worry.

"The force we've sent out is powerful enough," the Master of the Heartshadow Sect said calmly and confidently.

```

Suddenly—

"Sect Leader, I heard that Luo He's servant 'Luo Sa' is also very strong. Do you need me to take action?" a message was sent to the Sect
```

Leader.

"Qiu Yi, you are the hidden power of our Heartshadow Sect, and it is time for you to act when we battle with the great army of the Marquis of Jiu Jiang," the Master of the Heartshadow Sect responded, "To deal with Luo He and Luo Sa this time, we can only use some of our public power.

"I have dispatched the Heart Devil Kite, the Six Shadows Killing Formation, and the Great Destruction Ultimate Formation. These already account for fifty percent of the Heartshadow Sect's power, which should be enough to deal with them," the Master of the Heartshadow Sect responded.

"Alright," Qiu Yi did not say more.

The Master of the Heartshadow Sect thought of the disciple Qiu Yi from his sect and felt somewhat relieved.

He had not expected that assembling the disciples scattered across the Land of Origin would yield such a pleasant surprise. Initially, Qiu Yi, who could only be considered a somewhat excellent Eternal True God, had grown to a point close to that of Elder Hearteye.

The most important thing was that Qiu Yi had cultivated the Godly King Level inheritance "Heartshadow Secret Art" to an exceedingly profound extent and could even control one of the sect-protecting Mechanical Treasures, the 'Demon General of Heartshadow'.

The Heartshadow Sect had a total of five Godly King Level inheritances, and any Eternal True God Level disciple who passed the test could learn parts of the Godly King Level inheritance.

Among these five inheritances, the "Heartshadow Secret Art" was held in the highest regard and was also the most difficult to cultivate. The entire name of the Heartshadow Sect was derived from the "Heartshadow Secret Art."

Once Qiu Yi managed to control the sect-protecting treasure 'Demon General of Heartshadow', he would be even more difficult to deal with than Elder Hearteye's Heart Devil Kite.

"This Qiu Yi is quite arrogant and unwilling to interact much with the other Elders. With his strength, he is fully capable of taking on the position of an Elder. It's a pity that once this war is over, he will leave," the Master of the Heartshadow Sect was helpless, "Not just him, even Elder Hearteye will leave after the war."

They had come back this time, either because of the gratitude for the teachings of the sect or because of the orders from the Primal Chaos Realm.

Even more than half of the disciples of the Heartshadow Sect, who had already taken root in many places across the Land of Origin, ignored the summoning of the Heartshadow Sect.

"This Luo He is really ruthless and vicious."

"The disciples of the Heartshadow Sect that were found and slaughtered were killed effortlessly."

The Sect Leader and Eighteen Elders watched anxiously.

"Elder Hearteye, have you not arrived yet?" They looked towards the Divine Power Incarnation of Elder Hearteye.

"Just by controlling the Heart Devil Kite, I am only on par with him. I cannot stop him at all. Once I appear, he might directly flee," Elder Hearteye spoke, "I am waiting for the 'Six Shadows Killing Formation' to join up. Then I, along with the Six Shadows Killing Formation, will trap him. After that, when the Great Destruction Ultimate Formation is activated, we can completely annihilate him."

The Great Destruction Ultimate Formation, which required three hundred sixty Eternal True Gods to operate, was one of the genuine killing moves of the Heartshadow Sect.

...

"Lord Luo He and his servant Luo Sa have both taken action, and they are rescuing the disciples of the Heavenly Flame Sect who established the Artificing Shop."

"Both of them are quite ruthless when they take action."

"This Luo Sa's power seems to be not less than that of Divine Monarch Xue Yun," the leaders of the Five Great Families in the City Owner's Mansion watched the monitored scene with some surprise.

Luo Feng's strength being considerable was normal, but the strength of his servant Luo Sa was somewhat surprising to them.

"When Her Royal Highness the Princess came on behalf of the nation's ruler to recruit Luo He, Luo He refused. He really does have an important background," said the Lord of Huyang City. "This servant Luo Sa keeps a low profile, yet his strength is close to matching Luo He's."

"Haha, the stronger the two of them are, the better."

"With Lord Luo He and his servant assisting, the help in the war will be tremendous." The leaders of the Five Great Families felt their hopes for victory rise significantly.

After all, an eternal true god of such caliber is equivalent to an elite army. Not to mention that two had appeared all at once.

...

At the Flame Wind Pavilion, Pavilion Master Emperor Chu Yu was also watching the progress of the civil war within the city.

"This Luo He really does have some background," Emperor Chu Yu watched and said with a smile.

"No matter what background, it is not comparable to that of Emperor Chu's lineage," the Deputy Pavilion Master said.

The Imperial Clan of Flame Wind Ancient Country is recognized as the most substantial support in the Land of Origin! The only ones who could match them were the Imperial Clan of Thunder Ancient Country!

Of course, if the legendary 'Yuan' were willing to take disciples, the attraction would naturally be even greater. But Yuan was not the type to take leisure in teaching disciples earnestly; to gain an opportunity left by him was already extraordinarily fortunate.

"Judging by his moves, his accumulation of realm mastery is profound, but somewhat chaotic," Emperor Chu Yu observed. "His Primal Chaos Realm technique contains the flavor of both the Great Dao of Life and the Path of Destruction. And moreover, it's a mixture of both."

Emperor Chu Yu shook his head slightly, "From this, it can be seen that his background inheritance is quite ordinary, probably just a regular Godly King at best."

"Yes."

The Deputy Pavilion Master nodded, "The supreme laws contain the Origin Great Dao, and each and every Origin Great Dao provides a clear direction. To mix the two... indicates that there is no direction at all, only groping in the dark. Progress will be very difficult."

These imperial clansmen are very clear, one must not be greedy in cultivation! By focusing on a single path and having a complete inheritance and clear Origin Great Dao guidance, one can naturally progress much more smoothly.

Merging different Great Daos?

Without an inheritance or clear guidance, the difficulty can increase by more than a hundredfold!

"No matter, once he returns to the Ancient Country and receives part of Emperor Chu's lineage inheritance, he will know how to cultivate properly," Emperor Chu Yu said.

******

Luo Feng directly collected all the artifact refiners, apprentices, and customers in every Artificing Shop he passed, and wherever he knew there was an eternal true god of the Heartshadow Sect committing slaughter, Luo Feng also casually killed them.

"Strange, why is the Heartshadow Sect moving so slowly?" Luo Feng had long been prepared, but he had yet to encounter any powerful killing moves of the Heartshadow Sect.

Luo Feng had already taken over the fifth Artificing Shop.

"Lord Luo He," the artifact refiners and apprentices of the Artificing Shop were all excited. As for the surrounding disciples of the Heartshadow Sect, they scattered and fled without hesitation upon seeing Luo Feng.

"Hmm?"

Luo Feng's Realm of Life and Death sensed something, and he immediately first swept up the many cultivators from the Artificing Shop with a wave of his hand, then looked up into the distance.

In the distance, a black avian-shaped Mechanical Treasure appeared, along with six super-large Mechanical Secret Treasures forming a formation.

"Heart Devil Kite!" Luo Feng recognized it at a glance, one of the Heartshadow Sect's renowned Sect-Protecting Treasures—the Heart Devil Kite.

The Heartshadow Sect's Sect-Protecting Treasures were all very strong, containing many mystical aspects. However, throughout the long years, some were lost, and the remaining treasured treasures... the Heartshadow Sect mostly could not utilize them.

The threshold for wielding Sect-Protecting Treasures was extremely high.

"Morosa, another Artificing Shop will be left to you as well," Luo Feng transmitted another address to Morosa.

Out of the nine Artificing Shops, he had collected five, with the other four having to be left to Morosa.

"Don't worry, master, leave it to me," Morosa was still quite relaxed, as he had not encountered any significant resistance.

"Luo He!" this massive black avian, with eyes emitting a blood-red gleam, declared, "My Heartshadow Sect has shown you respect, yet you act so recklessly; you are truly seeking your own death."

"Spare me the nonsense." Luo Feng was disinclined to waste words, as the longer time passed, the stronger the forces that the Heartshadow Sect could mobilize would be.

Boom!

Luo Feng shot up into the sky in an instant.

Hum~~~~ From the high in the sky, the dark great formation unleashed its full might, engulfing and binding with its vast dark vortex. Meanwhile, the Heart Devil Kite and the 'Six Shadows Killing Formation' both moved at the same time.

"Hmph." At this moment, Luo Feng ignited his Divine Power, burning it as he deployed the Realm of Life and Death.

A vast domain that seemed like a Taiji cloud spread in all directions, directly crushing the dark vortex!

After all, this was a super large-scale Sect Great Formation, which, in targeting an individual, had only a bit more power than the original formation of Huyang City, far inferior to Luo Feng's Realm of Life and Death.

The enormous Taiji cloud raged in all directions, with Luo Feng standing in the center, holding the Bloodshadow Knife in hand.

"Seal."

Six gigantic, blurred shadows stood in six directions, as if they trapped this domain of heaven and earth, imprisoning Luo Feng as well.

The Heart Devil Kite let out a piercing screech, lunging to attack Luo Feng.

This screech struck directly at Luo Feng's will!

"Die." While launching a will attack, the Heart Devil Kite fiercely struck at Luo Feng, its claws tearing through space, causing rifts in the void.

"Boom!!!!"

Under the will attack,

It was as if a fragile egg, carrying an unstoppable will, fiercely smashed into a mountain!

Chapter 95: Volume 2 Chapter 21: Siege (Part 2)

"Die!"

Within the Heart Devil Kite, led by Elder Hearteye with twelve eternal true gods as support, there were also over ten thousand true gods of void space under his command.

This was not just any super-large mechanical secret treasure, but one of the sect-protecting treasures specially designed by the god king who established the Heartshadow Sect, based on the Godly King inheritances from the "Six Extremes of Destruction." The threshold for control was extremely high.

Nowadays, within the entire Heartshadow Sect, apart from the apparent Elder Hearteye, only the hidden Qiu Yi could control the sect-protecting treasure.

The sect-protecting treasure completely unified the power of all manipulators! It even unified spiritual wills!

"Yo～～～" Along with a harsh screech, Elder Hearteye commanded all his subordinates to merge their wills and launched the attack.

Elder Hearteye was very confident.

His own will had reached the level of an ordinary Primal Chaos Realm, and by controlling the sect-protecting treasure, the Heart Devil Kite, and unifying spiritual wills, the will attack he unleashed had already reached the order called 'Pinnacle Will of Primal Chaos'!

"The will attack is strong enough to harm Luo He, greatly reducing his strength, and then completely suppress him in one fell swoop," Elder Hearteye hadn't hoped that the Secret Technique of Willpower

could kill Luo Feng.

In fact, aside from the "Lie Yuan Technique," normal collisions of will, unless the difference in willpower was outrageously wide, would at most result in the will being damaged, impacting the strength it could exert.

To look and the enemy dies?

It was very rare in the Land of Origin; such were only possible when the difference was outrageously large.

Just like at this moment, Luo Feng's Godly-King's Will, aimed at the disciples of the Heartshadow Sect, could kill with a glance nine out of ten times even without resorting to the "Lie Yuan Technique." Only Elder Hearteye, Qiu Yi, the sect leader, and fewer than ten others could survive.

"Boom."

Luo Feng was somewhat surprised as he felt his will was attacked. He hadn't planned to deploy a very strong will technique, especially since a mere glance would kill Elder Hearteye, a scene too terrifying to behold.

It would likely immediately attract the attention of the God Kings from Yu Kingdom and Shi Kingdom.

He was already very close to the Primal Chaos Realm; just a little more endurance, and he would reach it.

It would be fairly normal to exhibit a Godly-King's Will at the Primal Chaos Realm as there were some Primal Chaos Overlords who could do it. Moreover, his ability to protect himself would also greatly increase. His ability to handle risks would improve significantly.

"I've always planned to keep my strength just beyond the greatest eternal true god of the Yu Kingdom. But to think that you would initiate an attack," Luo Feng felt helpless.

Boom!

This fiercely intense will attack, however, caused all creatures within the Heart Devil Kite, whether they were Elder Hearteye or the other eternal true gods, or the tens of thousands of true gods of void space, to feel as though their consciousness was tearing apart; all experienced immense agony.

"Not good." The originally lunging Heart Devil Kite suddenly drew back sharply.

Fortunately, this was just 'rebound damage'; they could still retain some clarity.

"This Luo He must possess the Pinnacle Will of Primal Chaos! His Secret Techniques of Willpower are also quite extraordinary!" Elder Hearteye immediately transmitted a message, "Six Shadows Killing Formation, all retreat! The will of this Luo He is too terrifying!"

"What?" The six super-large mechanical secret treasures forming the Six Shadows Killing Formation were somewhat perplexed.

They had the formation set up, trapping Lord Luo He; why suddenly retreat?

"Since my will's strength has been detected, I might as well reveal it a bit," Luo Feng moved yet remained fully reserved, whether his godly body or will. Either bursting forth could sweep through the Heartshadow Sect, drawing the attention of the ancient God Kings.

Thinking positively, a powerful presence might foster Luo Feng.

Thinking negatively, death, enslavement, and control were all possibilities.

Luo Feng did not want to leave his fate in the hands of a God King's conscience.

Master Mountain Sitting Guest had also advised him to be patient and keep a low profile, for the waters of the Land of Origin were too deep.

"Swoosh."

Luo Feng swung the Godly King Level Blade Embryo 'Bloodshadow Knife' in his hand, a blade light dazzlingly brilliant, like a chef slicing meat, it cut through the void, cutting everything, and also aimed at the retreating Heart Devil Kite.

Puff~~~

When this blade struck the Heart Devil Kite, Luo Feng immediately felt the toughness of the Heart Devil Kite! The toughness of the Heart Devil Kite was comparable to a Primal Chaos Realm Weapon Secret Treasure! Luo Feng's blade could not cut through it.

But there were energy effects that permeated, and moreover, a will similar to blade light, slicing into the interior of the Heart Devil Kite. All creatures inside the Heart Devil Kite, with their unified will, stiffly endured this spiritual will of the blade!

This move was the first Chaos Realm Saber Technique 'Heart Honing' that Luo Feng had grasped.

Only five eras had passed, and this move 'Heart Honing' had also evolved into multiple versions.

Now, this strike of Heart Honing combined six Chaos Realm moves into one, and it also naturally fused the Secret Technique of Willpower that Luo Feng had comprehended from the Calamity Beast Diagram.

Five eras before, Luo Feng had possessed Godly King Level will. At that time, he had only studied a small part of the 'Three Thousand Void Calamity Beast Diagram.' As he gradually comprehended, Luo Feng's understanding continued to accumulate, especially after viewing the complete Calamity Beast Diagram.

While his will slowly improved, Luo Feng also grasped a suite of Secret Techniques of Willpower from the diagram.

This set of Secret Techniques of Willpower, for now, comprised three moves.

The first move was integrated into the 'Heart Honing' blade technique, aiming to destroy the enemy's godly body and also slash

apart the opponent's spirit.

"Ah." The Heart Devil Kite was cleaved flying backward, and its internal manipulators felt like their spiritual will was slashed by a blade once more, tremendously painful.

Fortunately, Luo Feng only used a wisp of will, greatly limiting the power, and they felt pain only.

"Swoosh~~~~"

This blade sliced through the chaos, brushed past the Heart Devil Kite, and also passed over the Six Shadows Killing Formation.

The Six Shadows Killing Formation was formed by six super-large mechanical secret treasures together, and these ordinary super-large mechanical secret treasures could not achieve 'unity of spiritual will'; their controlling was done by the leader's spiritual will.

"Aaaahhh~~~"

Luo Feng had merely employed a strand of his willpower, which was immensely restricted in might, and it was also a secret technique of willpower he had devised himself.

Under the strike of this Heart Honing Blade, the leader of the six super-large mechanical secret treasures immediately saw five of their willpowers collapse into unconsciousness, with only one painfully keeping consciousness and hastily fleeing.

...

A mere brilliant strike!

The Heart Devil Kite retreated explosively, and the Six Shadows Killing Formation collapsed! One super-large mechanical secret treasure fled, while the others were directly split open by the blade light.

When the leader fell unconscious, the defensive ability of these super-large mechanical secret treasures greatly diminished, and they were easily split apart.

"Not good, run!"

The five collapsing super-large mechanical secret treasures had an advantage in not having their spiritual will combined! The consciousness of the leader controlled the entire secret treasure, and after taking a strike, the leader fell unconscious. The ordinary members, still conscious, were scared into scattering and fleeing.

"Huff."

Luo Feng waved his hand, collecting the five falling, split-open super-large mechanical secret treasures.

...

"How is this possible?"

The Master of the Heartshadow Sect and the Eighteen Elders gathered, watching the battle scene with shock and anger.

"He possesses the Pinnacle Will of the Primal Chaos Realm, and under the secret technique of willpower, the Six Shadows Killing Formation simply cannot withstand it," Elder Hearteye said solemnly, "Even the sect-protecting Heart Devil Kite, with its spiritual will combined, cannot match him."

"Such a strong spiritual will exists."

"An Eternal True God possesses the Pinnacle Will of the Primal Chaos Realm, just what major power cultivated him?"

They had never considered that Luo Feng could be of the Godly King's Will.

In the Land of Origin, there are quite a few who, being Eternal True Gods, possess the will of the Primal Chaos Realm like Divine Monarch Xue Yun, Moli Xiao, and Zhu Hu, each having the threshold will of the Chaos Realm.

Elder Hearteye and Qiu Yi, who cultivate Godly King level legacies, also possess ordinary Primal Chaos Realm will.

In the Ancient Countries, some major powers nurture elite Eternal True Gods that reach the Pinnacle Will of the Primal Chaos Realm.

But to skip two levels, for an Eternal True God to have the will of a Godly King? In the Land of Origin, this is also an occasional occurrence!

"The Great Destruction Ultimate Formation, developed personally by a Godly King, involves 360 Eternal True Gods in coordination with the formation diagram, uniting power and spirit, and this is our Heartshadow Sect's trump card," the Sect Leader and Eighteen Elders remained confident.

The Great Destruction Ultimate Formation was now the strongest measure the Heartshadow Sect could mobilize.

Under such an ultimate formation...

No Eternal True God could withstand it!

******

"Too strong."

"The screech of the Heart Devil Kite is an attack of will. It pounced forward but suddenly retreated explosively—it must be due to its will being damaged."

"Look, in this Six Shadows Killing Formation, five super-large mechanical secret treasures under Luo He's blade edge offered no resistance and were simply cleaved open. Clearly, the leaders had lost their ability to resist."

At the city owner's mansion, the leaders of the Five Great Families watched with boiling blood.

Moli Xiao further described the key points: "In regular combat, the Heart Devil Kite and the Six Shadows Killing Formation could tie down Lord Luo He. But in the clash of wills, Lord Luo He's will clearly has the upper hand. The Heart Devil Kite, with only three to four tenths of its strength, could not exert its full power.

The Six Shadows Killing Formation was even deprived of its ability to resist..."

"With such a significant advantage in will, Lord Luo He's will must have reached the Pinnacle of the Primal Chaos Realm."

"This information must be reported to the Marquis immediately."

"An Eternal True God with the Pinnacle Will of Primal Chaos, even the elite Eternal True Gods of the Two Ancient Countries could probably do no better."

They increasingly felt their chances of victory in this battle were growing.

...

"This blade strike by Luo He, it cleaved both body and will," said Emperor Chu Yu at the Flame Wind Pavilion, overseeing the battle scene. He had already advanced to the Primal Chaos Realm. Observing from a close distance, he naturally discerned more truths and falsehoods, "But the advantage isn't quite significant.

It's very normal for the Heart Devil Kite to escape, especially since it is one of the Heartshadow Sect's sect-protecting treasures. But it's surprising that one of the Six Shadows Killing Formation also got away."

Emperor Chu Yu asked himself, had he been in that situation in his Eternal True God stage, none from the Six Shadows Killing Formation would have escaped.

"I guess Marquis Jiu Jiang and Marquis Liu Yin also sent Divine Power Incarnations around Huyang City, probably also realizing this battle," the Deputy Pavilion Master smiled, "Marquis Liu Yin must be getting anxious now."

******

Luo Feng had just collected the five super-large mechanical secret treasures, the Heart Devil Kite, and another super-large mechanical secret treasure had already fled far away.

"Huff." A brawny figure traversed the void space, now close by, it was Morosa.

"Master, I have completed the task you assigned," Morosa said excitedly, "and also casually slaughtered some Heartshadow Sect's Eternal True Gods. They were cruel, massacring indiscriminately, I know you dislike that."

"Well done," Luo Feng praised.

Upon hearing the praise, Morosa couldn't help but beam with pleasure.

Luo Feng suddenly looked toward the distant sky, where a massive and imposing grand formation obscured half the sky, already looming over them, which even Luo Feng found somewhat startling.

"What a powerful killing formation," Luo Feng remarked.

Chapter 96: Episode 2 Chapter 22 Marquis Liu Yin and Marquis of Jiu Jiang

"""

"A Killing Formation of the Great Dao of Destruction Origin?" Morosa watched excitedly. After all, he had reached the Primal Chaos Realm and had a deep understanding of the 'Great Dao of Destruction Origin.' He instantly perceived the many intricacies of this terrifying formation.

"The creator of the formation must be the Godly King who established the Heartshadow Sect. His realm is indeed much higher than mine," observed Morosa carefully, "Integrating thirty-six destruction moves into a perfect formation and even using a Formation Diagram to allow three hundred and sixty eternal true gods to form it. Impressive! Extremely impressive!"

If they fought individually, even three thousand eternal true gods would not be a match for this single Killing Formation.

"Master, if we get caught in this Killing Formation, trying to break out… we'll have to reveal some abnormal strength," Morosa communicated through spiritual will. "Of course, this great formation has a significant flaw; it can't move through the void. This group of eternal true gods is already struggling to use the Formation Diagram to enact such a formation.

If they were to traverse the void, the formation would definitely collapse."

"If the entire formation could chase enemies through the void, there would be no escape," Luo Feng communicated back. "The

Heartshadow Sect doesn't have such a fearsome formation yet."

If a group of enemies appeared through the void and the formation already covered a vast area, indeed, there would be no escape!

Throughout the entire Land of Origin, it was exceedingly difficult for eternal true gods to set up such a formation. Neither Yu Kingdom nor Shi Kingdom had ever heard of such a formidable Killing Formation.

"Boom~~~"

The massive formation obscured half the sky and rapidly enveloped the area. Within it, the three hundred and sixty eternal true gods felt anger as well as unwillingness.

"If Elder Hearteye and the others can trap Luo He, delaying him just a little! Our Great Destruction Ultimate Formation will completely cover him, ensuring his utter demise."

"Now, he wouldn't be foolish enough to be trapped by the formation," the disciples of the eternal true gods from the Heartshadow Sect were all too aware of this.

In the distance, Luo Feng suddenly swung his blade.

Three continuous strikes!

The first strike, dazzling and bright, sliced through the void, leaving behind a pitch-black rift. This brilliant strike naturally fell upon the vast formation. Named 'Heart Honing,' this blade also severed spiritual will.

However, with the three hundred and sixty eternal true gods united by the Formation Diagram, although their souls felt pain and discomfort from the strike, they still endured, perfectly maintaining the formation.

The second strike swept through the boundless primal chaos, stirring up dual-colored vortices in the chaos. This sweeping blade, with its mighty force, struck the large formation, causing it to tremble slightly.

The third strike was silent and invisible. As the blade swung out, it vanished. By the time it reappeared, it had already struck one of the eternal true gods within the formation. That eternal true god was somewhat startled, his body shrouded in the luminescent flow of the formation, he managed to withstand Luo Feng's stealthy and terrifying blade.

Three strikes made, and the formation withstood them all.

"Direct attacks, attacks on the spiritual will, individuals involved in the formation… no flaws. Worthy of the Heartshadow Sect's strongest level of Killing Formation, impressive!" As Luo Feng watched the formation approach, he immediately communicated through spiritual will, "Morosa, let's go."

"Okay," Morosa nodded.

Whoosh.

The two instantly traversed the void, forcibly breaking through the spatial constraints and bypassing the obstacles of the dark grand formation in the high skies, leaving the area of Huyang City.

The grand Great Destruction Killing Formation also halted, and the three hundred and sixty Heartshadow Sect's eternal true god disciples atop the ethereal Formation Diagram appeared somewhat helpless. This was all within their expectations.

Since Elder Hearteye and the others were unable to entangle Luo He, it meant this plan had largely failed. Unless Luo He was arrogant enough to venture into the formation on his own.

...

"He's escaped." In the gathering place of the Heartshadow Sect Leader and the Eighteen Elders, they observed the battle scene displayed by the Sect Great Formation.

Elder Blind frowned and spoke, "Luo He's spiritual will has reached the Pinnacle of Primal Chaos level. Coupled with his extremely deep realm accumulation… we simply cannot find any weakness in him. Our Heartshadow Sect alone cannot detain him."

Under the siege of the Heartshadow Sect, any eternal true god would be unable to resist.

However…

The most terrifying individual eternal true gods, if they truly wished to flee, even the Heartshadow Sect had no certainty of stopping them.

The power that Luo Feng displayed made the Heartshadow Sect helplessly unable to contend with him.

"This time, because of Luo He, we've lost six super-large Mechanical Secret Treasures, and scores of eternal true gods have perished," the elders lamented.

"No need to ponder further," the Sect Leader said, "Our enemy isn't him, but the army under the Marquis of Jiu Jiang! When the great army goes to war, the fight will be fierce, and it comes down to head-on strength. With our many great formations exploding together, he can only flee far away."

"And as an independent cultivator, he demands an exorbitant hire price; Marquis of Jiu Jiang might not be willing to pay it," added the Sect Leader.

"Right."

"Luo He quoted us two billion Cosmic Sand. Even if he gives Marquis of Jiu Jiang a discount, it's likely to be an extremely high price. He probably won't appear on the battlefield."

These elders truly did not wish to encounter Lord Luo He on the battlefield.

The Sect Leader ordered, "No need to ponder. Stick to the original plan and quickly plunder the entirety of Huyang City."

The number of eternal true gods and true gods of the void space in Huyang City was vast. How many had Luo Feng and Morosa managed to save? They also had no choice, managing to save the inhabitants of nine Artificing Shops was already a joint rescue effort.

If time dragged on, the Heartshadow Sect would likely set up multiple traps, such as moving numerous true gods of the void space into a certain Killing Formation. If Luo Feng and Morosa stumbled into it, escaping would be quite troublesome.

Luo Feng was willing to save some creatures, but the prerequisite was to ensure his own safety.

...

Luo Feng's conflict with the Heartshadow Sect had been witnessed by some of the eternal true gods within the city.

"If I had the power of Lord Luo He, what would the Heartshadow Sect matter? My Zhu Clan is still too weak!" Zhu You watched from afar. The Zhu Clan, with more than twenty eternal true gods known publicly and privately combined, was the strongest family in Huyang City.

Yet in the face of the Heartshadow Sect, only Zhu You and Zhu Fuqing, two eternal true gods, remained in the city to find ways to protect their many clan members.

"""

"Huh." Zhu You took a silent step and left; by this time, his appearance had already changed, and his aura was merely maintained at the standard level of a True God. In terms of preserving life and concealing presence, Zhu You was the strongest in his family.

******

Outside the city.

A figure clad in dark red armor, emanating a dark aura, looked at Huyang City from a distance, his eyes like two burning blood-red flames.

"Luo He's strength is stronger than I anticipated. I didn't expect his spiritual will to be so formidable." Marquis Liu Yin was very calm, even though this was just a Divine Power Incarnation of his; his

realm was simply too high.

His eyes, as if merging with the dark side of the world, naturally observed every corner within the city.

Inside the city, except for some areas sealed by formations or repelled by domains, he could observe almost everything.

"A lone Luo He can't change the outcome of the battle."

"The Heartshadow Sect only revealed a portion of their power this time, and just one Killing Formation forced Luo He to flee," Marquis Liu Yin looked forward with anticipation. "On the frontal battlefield, when thousands of eternal true gods from the Heartshadow Sect explode with power and numerous formations coordinate, what can Marquis of Jiu Jiang use to resist?"

It was worth it to have the Heartshadow Sect take action in exchange for a large city within the future territory.

"Marquis of Jiu Jiang, do you have the guts to personally join the battle?" Marquis Liu Yin's gaze was ice-cold.

A dispute over territory is not an ordinary fight.

To join the battle is to gamble with life and death.

...

Luo Feng, accompanied by Morosa, had just reached the outskirts of the city in a wasteland when he saw a familiar figure with white hair appearing in front of them.

"Lord Luo He," the white-haired young man said with a smile, "we meet again."

Luo Feng naturally recognized him.

The last time he visited on behalf of Marquis of Jiu Jiang, it was this Jiang Yuyou, one of the four trusted aides and commanders under Marquis of Jiu Jiang.

"Commander Jiang," Luo Feng said.

"The Marquis wishes to see you," the white-haired young man said with a smile. "Would you follow me? Don't worry, the Marquis is in a camp not far from here."

Luo Feng was surprised, "The Marquis is here?"

"It's the Marquis's Divine Power Incarnation," Jiang Yuyou explained.

"Please lead the way," Luo Feng replied promptly, following Jiang Yuyou through the Void Space with Morosa in tow.

After only about a dozen traverses through Void Space, they arrived at a small city floating above a lake's surface, occupying tens of billions of kilometers—more aptly described as a 'super-large cave mansion.'

Huh.

Jiang Yuyou led Luo Feng and Morosa into the small city.

Inside a pavilion, the Marquis of Jiu Jiang was already seated, waiting while drinking.

"Marquis, Lord Luo He and his servant have arrived," said Jiang Yuyou, entering the pavilion with Luo Feng and Morosa.

This was Luo Feng's first time meeting the Marquis of Jiu Jiang, who wore loose robes with silver hair, each strand affecting the endless Void. His appearance was quite handsome.

If Marquis Liu Yin carried blood and fire, darkness and disaster, weighty and terrifying, then Marquis of Jiu Jiang appeared like a traveler walking through heaven and earth.

"Luo He," Marquis of Jiu Jiang said with a smile, looking at Luo Feng. "Please take a seat."

Luo Feng was quite surprised to hear the polite invitation.

This Marquis of Jiu Jiang, didn't put on any airs of someone from the

Primal Chaos Realm.

Luo Feng immediately took his seat, with Morosa standing by his side, looking utterly loyal.

"Your servant Luo Sa may also sit," Marquis of Jiu Jiang said. "Here with me, there's no need to be overly formal."

"Thank you, Marquis," Luo Feng replied.

Only then did Morosa take a seat to the side, still maintaining a mannerly demeanor.

"I've just personally witnessed your encounter with the Heartshadow Sect," Marquis of Jiu Jiang remarked. "In terms of strength, I'm afraid there's not a single eternal true god in the entire Yu Kingdom that can compare with you, Luo He."

One-on-one, he overwhelmed Elder Hearteye's control of the Heart Devil Kite.

Indeed, in the whole Yu Kingdom, only Luo Feng could accomplish this feat.

"You flatter me, Marquis," Luo Feng said.

"An eternal true god holds a will on par with the Pinnacle of Primal Chaos, which is truly impressive," Marquis of Jiu Jiang mused. "It's not an overstatement. Within the entire Yu Kingdom, apart from you, there's no second eternal true god who has achieved this."

Listening, Luo Feng didn't continue with modesty.

"No wonder you dared to ask for a hiring price of 100 million Cosmic Sand; you do have the necessary strength," Marquis of Jiu Jiang smiled at Luo Feng. "I'm willing to offer 100 million Cosmic Sand to invite you to join my side's army, to help us resist the invasion of Marquis Liu Yin's forces. Would you be willing to accept?"

Chapter 97: 2 23 Patience

```

Luo Feng was somewhat surprised. The Marquis of Jiu Jiang had always been reluctant before; could it be that the methods Luo Feng had displayed in the confrontation with the Heartshadow Sect had finally moved him? Such a large amount of Cosmic Sand was still very important to him.

"If Marquis is willing to offer one hundred million Cosmic Sand, Luo He is naturally willing to join Marquis's army," Luo Feng said.

"Hahaha, good," the Marquis of Jiu Jiang nodded in satisfaction, "This one hundred million Cosmic Sand, do you want it transferred to your account at Flame Wind Pavilion, or handed to you in person?"

"Handing it to me is fine," Luo Feng replied.

"Alright, I will personally deliver it to you within three days," the Marquis of Jiu Jiang said and, raising his glass to look at Morosa, proclaimed, "Let's drink together!"

Luo Feng and Morosa both raised their glasses and drank together.

"As for this employment, it will be considered over once Heartshadow Sect completely gives up, right?" Luo Feng followed up with another question, knowing that Marquis Liu Yin's territory bordered the Marquis of Jiu Jiang's and, even if they failed this time, there might second and third provocations in the future.

"The employment will end once Heartshadow Sect completely gives up. The employment period will not exceed ten eras," the Marquis of Jiu Jiang promised.

Luo Feng understood and raised his glass, "To the Marquis."
```

The Marquis of Jiu Jiang was also in high spirits.

Though he had given up some wealth, it indeed greatly strengthened the power of his forces.

After the banquet had dispersed, the Marquis of Jiu Jiang ordered a servant, "Take Luo He and his servant to their residence."

"Yes," the servant complied.

Luo Feng and Morosa stood up and, led by the servant, proceeded to their temporary residence in the small town.

In the pavilion, only the Marquis of Jiu Jiang was left sitting alone.

"Father," a figure in blue clothing emerged from one side, a young man who bore a strong resemblance to the Marquis of Jiu Jiang. He couldn't help but speak up, "Hiring this Luo He at the cost of one hundred million Cosmic Sand seems too much. We spent only sixty million Cosmic Sand to hire General Yue."

The Marquis of Jiu Jiang glanced at his son and shook his head, "The strength Luo He had previously displayed indeed wasn't worth it. But in this battle, the Primal Chaos Pinnacle Will he revealed is extremely useful on the battlefield."

"With him present, those more than a hundred super-large mechanical treasures were mostly rendered useless, hardly daring to rampage around. After all, if they encountered Luo He, even if those super-large mechanical treasures formed an array, it would be tantamount to suicide," the Marquis of Jiu Jiang explained.

Upon hearing this, the young man nodded in realization, "That makes sense. The previous Six Shadows Killing Formation consisted of six super-large mechanical treasures working together; it had the strength for a head-on fight sufficient to entangle Luo He.

But under the assault of the Spiritual Will, at that time, five of the super-large mechanical treasures lost their ability to resist and were easily swept away by Luo He."

"Spiritual Will, in the face of group tactics, has a miraculous effect,"

the Marquis of Jiu Jiang remarked, "An eternal true god possesses Primal Chaos Pinnacle Will. It's truly incredible! Your father, despite cultivating for endless ages, has only reached Primal Chaos Pinnacle Will."

The young man nodded, "With Luo He present, those super-large mechanical treasures can only hide within the Killing Formation, significantly reducing the threat."

"Let's not forget, he also has a servant. If the master is in danger, how could the servant stand by and do nothing?" the Marquis of Jiu Jiang said with a smile, "Hiring one, but getting another as a bonus."

The young man nodded in agreement.

Seeing it this way, one hundred million Cosmic Sand was indeed well spent.

"Father, when do we make our move?" the young man asked.

"Our strength is still insufficient for now, let's wait a little longer," the Marquis of Jiu Jiang said, his Divine Power Incarnation having gone to the Royal Capital to ask for assistance early on.

Originally, the power difference between Liu Yin Primal Chaos State and Jiu Jiang Primal Chaos Prefecture wasn't too great.

But with Heartshadow Sect entering the war, being a Godly King level sect, it greatly upset the balance. The Marquis of Jiu Jiang had to find a way to gather reinforcements, solely relying on Luo He and his servant would not be enough.

...

The cave mansion where Luo Feng and Morosa were temporarily staying spanned over an area of more than a hundred thousand kilometers and was considered quite exquisite.

In the meditation chamber of the cave mansion, Luo Feng sat cross-legged.

Inside the Star Tower within his body.

A Divine Power Incarnation of Luo Feng descended.

"Lord Xie," greeted the many Cultivators gathered there, who had been rescued by Luo Feng.

"Everyone," Luo Feng looked at them, "Brother Shang and I have a deep friendship. This time, Uncle Qiu asked for my help, and I only had enough time to rescue Cultivators from nine Artificing Shops. I couldn't do anything for the rest of the disciples of the Heavenly Flame Sect."

The disciples of Heavenly Flame Sect were numerous and scattered everywhere, so only the nine largest Artificing Shops could be saved.

"Just saving nine Artificing Shops is something for which all disciples of my Heavenly Flame Sect are immensely grateful," the Silverlight creature, Uncle Qiu, said excitedly, feeling that Lord Luo He had made a great sacrifice for them.

"And there are also many guests from the Artificing Shops," Luo Feng addressed them, "During the previous battles, to prevent any harm to you, I had to take you out of Huyang City. If you wish to return to Huyang City, I will send you back once this war is over."

"We are not in a hurry."

"We are willing to follow the God," they responded.

"God has shown great kindness to us," they added.

These guests, consisting of True Gods of Void Space and even more so, numerous True Gods, already found survival in Huyang City challenging. Being associated with Lord Luo He was considered a stroke of good fortune.

After soothing these Cultivators, Luo Feng met with Dream Flower Tower Master, Araya, and the Moyu Family.

"Dream Flower is grateful for God's life-saving grace," the Master of Dream Flower Tower expressed her thanks.

"It wasn't really life-saving," Luo Feng said with a smile,

"Heartshadow Sect probably wouldn't have killed you."

The Dream Flower Tower Master shook her head, "If not for the God's help, all treasures this time would have been plundered. Even I, only skilled in music and Illusion Techniques, would probably have been caught by the higher-ups of the Heartshadow Sect, to be used as a musician, or even worse, as a plaything."

If she had been willing to be a musician or plaything, she would not have come to establish the Dream Flower Tower in Huyang City. Many powerful families and sects would welcome an Eternal True God level musician like her.

```

"Then you must cultivate diligently. Only by relying on yourself can you endure in the long run," Luo Feng said.

"Cultivate? How easily said than done?" The Dream Flower Tower Master shook her head, while Araya by her side listened with even more complex feelings. As a true god of void space from the Thousand Leaves Vine Clan, she was still far behind in music and Illusion Techniques compared to the Tower Master.

"As long as you keep accumulating, there will eventually be a harvest. Araya, you must also work hard," Luo Feng said with a smile, glancing at Araya.

"Okay," Araya nodded.

Luo Feng looked towards the Moyu Family to his side, Moyu Qingyan, the family of Moyu LieFeng, and the pregnant Mo Youshang.

"Lord Xie has saved our Moyu Family," Moyu LieFeng said gratefully.

Luo Feng said with emotion, "Moyu Liuxing was very smart; it's a pity that he encountered this catastrophe."

Mo Youshang was the most saddened at the moment.

Like a family member, her master 'Shang Tianyan's' death was a huge
```

blow to her. Now that her husband, Moyu Liuxing, had also died, she was fortunate to still have the child in her belly. This was the only thing she cared about in the world now.

"Thank you, Lord Xie, for avenging Liuxing," Mo Youshang said with gratitude.

...

Another space within the Star Tower.

Throughout the long years of Luo Feng's cultivation journey, he had seen much joy and sorrow, unions, and partings. Even he found himself powerless many times.

"Swoosh." "Buzz." "Whoosh."

One could see distant Primal Chaos Layer Creatures flying cheerfully. These were fifteen creatures that Luo Feng had captured alive in the Primal Chaos Layer during the last five eras, each harboring complete Primal Chaos laws within.

Fifteen Primal Chaos Layer Creatures, comprising six species.

For instance, the Silverlight Creatures, Luo Feng had caught three of them, each formed from 108, 397, and 1091 Silver Droplets, respectively.

The other species each had their own characteristics.

By studying these creatures, Luo Feng's understanding of the Primal Chaos laws deepened as well.

"Up till now, I've deduced up to sixteen Primal Chaos Realm techniques. And I can combine these Primal Chaos Realm techniques," Luo Feng thought to himself. Just like some precious Mechanical Treasures, which may contain several Primal Chaos Realm techniques that can be combined with each other, significantly enhancing the strength they can unleash.

"Despite such accumulation, I still have not deduced the Law of Primal Chaos," Luo Feng felt rather tormented.

It was as if the Law of Primal Chaos was right before him, clearly visible.

But when he tried to touch it, it was like grasping at air. No matter what, he couldn't comprehend it fully, always just a bit short.

"Just a bit short."

"When I deduced ten Primal Chaos Realm techniques, I felt like I was just a bit short of mastering the Law of Primal Chaos. Now after figuring out sixteen techniques, I'm still just a bit short," Luo Feng mused.

Luo Feng was exceptionally talented, possessing a vast godly body that far surpassed historical figures, which gave him a powerful soul! Coupled with Godly King Level will, his efficiency in comprehension was naturally extremely high.

Yet even so, comprehending the Law of Primal Chaos felt arduous.

Always feeling just a bit short.

"As long as you keep accumulating, there will eventually be a harvest," Luo Feng sat cross-legged and began to concentrate on comprehension.

******

Time passed day by day.

Huyang City gradually returned to calm, except the true gods of void space and the eternal true gods within were almost completely looted. The Heartshadow Sect had indeed made a killing.

At the highest peak within the Primal Chaos Armor Sector,

the Master of the Heartshadow Sect and the Eighteen Elders gathered, all looking in the direction of the city owner's mansion.

"Sect Leader, shall we not pay a price in casualties to take down this city owner's mansion?" the One-eyed Elder proposed.

"What's the rush?"

The Master of the Heartshadow Sect looked towards the distant city owner's mansion, "We have completely sealed off the city owner's mansion now, they can't come out, and they pose no threat to us."

"The city owner's mansion is, after all, the core of Huyang City. This super-large mechanical city has been built over generations by controllers, making it a formidable super-large Mechanical Secret Treasure," the One-eyed Elder commented, "Once this super-large mechanical city falls into the hands of an Array Master, it can play a powerful role."

"Marquis Jiu Jiang will probably send an Array Master to enter the city owner's mansion," the Master of the Heartshadow Sect observed, "All we need is to wait patiently, seize one, and we kill one."

By retaining the city owner's mansion, they could intercept all reinforcements.

"We have indeed set up a Great Formation in advance, completely trapping the city owner's mansion. Any supporting Array Master who comes, we can intercept and kill. But… I think we should conquer the city owner's mansion beforehand. That way, Marquis Jiu Jiang won't be able to control Huyang City," the One-eyed Elder said.

Elder Hearteye spoke up, "I agree with the Sect Leader. The key is to kill the Array Masters! We've taken Huyang City this time, next we might have to attack Xuyin City. In the future, we might even be forced to assault Jiu Jiang City!"

"There are three large cities, and top-notch Array Masters aren't easy to come by. Marquis Jiu Jiang inviting outsiders might be lucky to get one. Killing an Array Master is far more important than taking the city owner's mansion," Elder Hearteye reasoned.

"Without an Array Master, the three large cities won't pose much of a threat," said the Master of the Heartshadow Sect.

Large cities were perfected over generations, and even before the Yu Kingdom, Divine Kingdoms had reinforced them.

As a result, each large city had extremely complex formations.

The deeper the understanding of formations, the greater the might that could be unleashed from the large city. Potentially in terms of potential, it surpasses the Heartshadow Sect's 'Great Destruction Ultimate Formation'.

Chapter 98: Volume 2 Chapter 24 The Battle Begins

Lord Luo He and the Master of the Heartshadow Sect fought a great battle more than ten days ago.

In a wilderness outside Huyang City, two figures appeared out of thin air.

"We've arrived," the two of them confirmed their bearings and after only a few steps, found the military camp town of the Marquis of Jiu Jiang through traversing the Void. Commander Jiang Yuyou had been waiting outside the encampment.

"Two Divine Lords, you have finally arrived, the Marquis has been awaiting you," Jiang Yuyou greeted them proactively while also observing the two figures.

One of these figures was the horned man 'Great General Yong Hu' who had recently visited, while the other was a thin man clad in a loose robe, whose fame in Yu Kingdom far surpassed that of Yong Hu.

Jiang Yuyou looked at the thin man with respect.

"Please lead the way, Commander Jiang," the thin man said with a smile.

"To guide General Yue and General Yong is my honor," Jiang Yuyou said, leading the two to meet the Marquis.

Within the main building of the Marquis of Jiu Jiang's residence in the military camp town.

The Marquis of Jiu Jiang sat leisurely, observing the two figures approaching.

"Marquis, General Yue and General Yong have arrived," Jiang Yuyou respectfully announced.

After these two figures entered and noticed the Marquis of Jiu Jiang, they too showed immense respect and bowed, "We pay our respects to the Marquis."

The two had long followed a Godly King, and clearly understood that the Godly King and Primal Chaos Overlords were the higher beings of this world. Even the Godly King showed certain respects to these Primal Chaos Overlords.

Being in a cooperative relationship, the Marquis of Jiu Jiang and his allies aimed to gain opportunities from the Godly King, and hence had to make their own contributions.

If the Primal Chaos Overlords acted as subordinates, devotedly following the Godly King, they would receive substantial support from him.

"No matter what, the Primal Chaos Overlords are much more esteemed than us eternal true gods," General Yong had long aspired to reach the Primal Chaos Realm, but still fell short in terms of accumulation.

"Please have a seat," the Marquis of Jiu Jiang watched them with a smile, "This time, with the support from both of you in the conflict against the forces of Marquis Liu Yin, things will be much easier."

"It's mainly thanks to Brother Yue, I'm just helping out," General Yong remarked.

General Yong was very willing to participate in the struggles across various Primal Chaos Prefectures, which also served as a good method for accumulating resources. His junior brother, General Yue, was quite difficult to request because he didn't lack resources; the Monarch of Yu Country would proactively bestow resources on him.

"I still need elder brother to support me," the thin man said with a smile, "By the way, Marquis, you mentioned another formidable ally, known as Luo He?"

"I have already dispatched Yuyou to invite him; he should be arriving soon," the Marquis of Jiu Jiang replied.

The Marquis of Jiu Jiang was very courteous.

To Luo He, General Yong, and General Yue, the Marquis of Jiu Jiang valued Luo He and General Yue the most.

"Both Yuewu and Luo He are likely candidates for the Primal Chaos Realm," the Marquis of Jiu Jiang was aware that these two might be stuck at a bottleneck for a long time, yet in the future, they should exist on the same level as himself.

...

"General Yuewu and General Yong Hu?" Luo Feng, accompanied by Morosa, attended the banquet.

"General Yuewu is now the strongest eternal true god openly known in Yu Kingdom," Jiang Yuyou explained, "Most remarkably, General Yuewu's godly body is quite ordinary, his cultivation is in the Law Lineage! With just an ordinary godly body, coupled with unimaginably profound accumulation in his realm, he even surpasses General Yong Hu and others."

"General Yuewu is extremely proficient in formations. Once a formation is set, any eternal true god who enters it would likely be unable to escape," Jiang Yuyou said.

"In Yu Kingdom, the top formation master below the Primal Chaos Realm is General Yuewu," Jiang Yuyou said admiringly, "The Marquis said that with General Yuewu's accumulations, he is almost certain to reach the Primal Chaos Realm."

Luo Feng listened in admiration.

The Land of Origin was vast, indeed hosting many astonishing beings. General Yuewu, like Xue Yun, also possessed an ordinary godly body, yet General Yuewu's strength was even more formidable, highly esteemed by the Godly Kings.

"To become the strongest eternal true god in Yu Kingdom without

unlimited godly bodies is impressive," Morosa also praised.

Jiang Yuyou looked at Luo Feng and smiled, "That is only in Yu Kingdom. If it were in the two ancient countries... the most dazzling eternal true gods are definitely those with unlimited godly bodies."

The most radiant eternal true gods across the entire Land of Origin had no shortcomings.

Like Luo Feng, who even surpassed historical limits. His godly body and Spiritual Will were both extraordinary. Initially, when the Lie Yuan Technique spread among many major powers of the Land of Origin, only Luo Feng managed to master it, which was quite revealing.

With his godly body and Spiritual Will both surpassing historical limits, the Mountain Sitting Guest, knowing this, felt hopeful for revenge.

"Marquis," Luo Feng and his servant entered the building.

"Take a seat," the Marquis of Jiu Jiang introduced warmly, "Luo He and his servant have directly confronted the Heartshadow Sect within Huyang City; even with the Heartshadow Sect's all-out efforts, they could not overcome Luo He and his servant."

"The information about Lord Luo He in Huyang City had already spread throughout Yu Kingdom," the thin General Yue marveled, "An eternal true god possessing the Primal Chaos Pinnacle Will, impressive. Having such Spiritual Will, Lord Luo He must have undergone extraordinary experiences."

Luo Feng smiled.

Creatures from the Primordial Cosmos, starting from the very bottom and climbing step by step, found achieving immortality incredibly difficult. In a whole era of reincarnation within the Primordial Cosmos, those who became true gods were few.

Thus, every true god emerging from the Primordial Cosmos, in terms of Spiritual Will, far surpassed the true gods of the Land of Origin.

As for Luo Feng...

He was the most dazzling existence through many eras of reincarnation in his home, the Primordial Cosmos.

"General Yue's formations are unbreakable by anyone below the Primal Chaos Realm. I truly admire that," Luo Feng stated.

"Divine Lord, we meet again," General Yong Hu greeted warmly.

"General Yong," Luo Feng nodded with a smile.

Sitting at the head, the Marquis of Jiu Jiang spoke, "With General Yue and General Yong here, we just need to practice the formation a bit more and, once fully prepared, we can make our move."

"We will follow the Marquis's orders," declared General Yue, General Yong, and servants of Luo Feng.

...

A vast formation spreading mists of water covered a broad area.

General Yuewu sat at the center of the formation, surrounded by six puppet creatures, controlling the entire formation.

At the forefront of the formation, Luo Feng and Morosa stood, feeling surrounded by endless streams, the might terrifying.

"Lord Luo He, you and your servants are the strongest. When you encounter strong enemies, it will be up to you and your servants to deal with them," Yuewu's gentle voice resonated in Luo Feng and Morosa's ears.

"Rest assured," Luo Feng nodded.

Having received a hundred million Cosmic Sand, he of course had to do enough work.

"Senior Brother Yong, if you encounter some troublesome opponents, you'll need to entangle them," Yuewu transmitted his voice.

"Alright." General Yong nodded, possessing unlimited godly bodies and an inheritance at the Godly King Level!

Although he couldn't handle Xue Yun, whether it was burst power or the toughness of his godly body, he surpassed Xue Yun. In terms of realm, he had also discerned several Primal Chaos Realm techniques, albeit rougher than those of Xue Yun.

The unlimited godly body allowed him to withstand many dangers, making General Yong willing to accept employment from all quarters!

He had no choice, the resources bestowed by the Godly King were limited, he needed to strive on his own.

"Generals and commanders, when the time comes, you just need to act as I command, and we shall start with six simple cooperation drills," Yuewu transmitted to the more than three thousand eternal true gods within the formation.

This time, the Marquis of Jiu Jiang had mobilized over ninety-five percent of the eternal true gods from the entire Jiu Jiang Primal Chaos Prefecture!

This battle, they must win!

Not only had he deployed a Divine Power Incarnation, but his true body had also arrived, because even if defeated, he had to protect these eternal true gods under his command.

"Yes," the more than three thousand eternal true gods commanded their armies, forming several super-large Mechanical Secret Treasures.

Although originally disorganized, within Yuewu's formation, their powers naturally cooperated.

The combined power of the many Mechanical Secret Treasures was terrifying, greatly boosting the confidence of the eternal true gods.

"Impressive."

Luo Feng also saw the prowess of an Array Master.

"This Array Master is worth it."

From within the military camp, Marquis of Jiu Jiang nodded as he watched the scene from a distance, "An Array Master can double the strength of an entire army, at the very least."

The Array Master had cost sixty million Cosmic Sand.

Great General Yong Hu had cost twenty million Cosmic Sand.

Lord Luo He was the most expensive.

"Lord Luo He can deter many eternal true gods of the opposing side," Marquis of Jiu Jiang was well-aware of the advantages a terrifying vanguard that was invincible on the battlefield brought.

"This battle, I must win." Marquis of Jiu Jiang was confident, then immediately winced with a headache, "But this time, I've spent a total of one hundred and eighty million Cosmic Sand, while Marquis Liu Yin hasn't contributed anything, probably just a promise."

Marquis Liu Yin had promised the Heartshadow Sect, but if defeated, Marquis Liu Yin still wouldn't need to pay anything.

A mere empty promise had the Heartshadow Sect fighting a deadly battle.

"I've held off this time, but what about next time?" Marquis of Jiu Jiang was also considering the future.

With two adjacent fiefs, Marquis Liu Yin wouldn't easily give up.

...

Having an Array Master made the drilling easy, patiently conducted for three days, Marquis of Jiu Jiang also felt thoroughly prepared.

"Gentlemen, once we breach the Heartshadow Sect and recapture Huyang City, I will celebrate for you all," Marquis of Jiu Jiang looked at the densely packed over three thousand eternal true gods in front

of him, with General Yue, General Yong, and servants Luo Feng clearly standing in the front row, "Now, set out!"

The many eternal true gods all flew into a large Flying Boat.

"Boom!"

The large Flying Boat had already traversed the Void.

In just a few traverses, the large Flying Boat was already above Huyang City; it was very precisely over the 'City Owner's Mansion', just separated by a dark formation.

The sudden appearance of the large Flying Boat immediately caused a stir among the many disciples of the Heartshadow Sect within the city.

"Not good."

"The army of Marquis Jiu Jiang."

"They've come."

Some disciples scattered throughout the city were somewhat panicked.

High in the sky, the more than three thousand eternal true gods in the large Flying Boat also observed some of the conditions within Huyang City, seeing some scattered Heartshadow Sect disciples.

They hadn't worried about the scattered Heartshadow Sect disciples due to detailed pre-battle planning.

"The scattered disciples outside are common disciples of the Heartshadow Sect, responsible for controlling this city! They are also bait, attracting the army of Marquis Jiu Jiang to attack," Luo Feng watched.

"Attack."

Along with Yuewu's command, billowing mist instantly enveloped the sky; the large Flying Boat vanished, and Luo Feng and others

naturally were within the formation.

Rumble~~~

The gargantuan water mist formation suddenly burst into flames, like an immense fireball, violently slamming into the dark formation! The dark formation covering Huyang City was instantly torn apart. The super gigantic fireball, spanning billions of kilometers, directly headed for the City Owner's Mansion.

"Here it comes."

In the Primal Chaos Armor Sector, the Master of the Heartshadow Sect and eighteen Divine Power Incarnations of the Elders gathered, looking up at this scene with cold eyes.

For the root ground of their sect, they must win this battle!

Thanks to the new Alliance Hierarch 'Anti-Gravity Fish'.

Chapter 99: 2nd Army, 25th Formation

The army under Marquis of Jiu Jiang, led by Yuewu, resembled a super-large fireball rolling down, with Luo Feng and his servant standing at the forefront of the giant fireball.

"It is indeed formidable," Luo Feng observed the countless flames around him. This was the power of thousands of eternal true gods summoned by the formation, "A formation can combine the power of numerous eternal true gods, even leading to a qualitative change!"

"However, such large-scale military formations only exist at the stage of eternal true gods," Luo Feng realized this fact.

A large group of Primal Chaos Overlords forming a formation? That was impossible!

After all, there were not many Primal Chaos Overlords throughout the whole Land of Origin.

In a second-tier nation like Yu Kingdom, there were only dozens of individuals in the Primal Chaos Realm, and they were almost all scattered around different places.

Those in the Primal Chaos Realm cherished their freedom. After all, cultivating for eons to become a ruler of a territory was not about serving others! Even if they were willing to follow a Godly King, it required the king to bestow substantial resources.

It was already remarkable to have several Primal Chaos Realm individuals arrange a formation together.

"Hm?" Luo Feng suddenly gasped in surprise and looked down.

There was a series of explosions below!

The Primal Chaos Armor Sector had long been equipped with the 'Dark Prison World Array.' As soon as Marquis of Jiu Jiang's army invaded, this grand formation emerged. Once it appeared, numerous cyan chains came binding from all directions.

The super-giant fireball, with its flames raging fiercely on the surface, crushed some of the chains upon collision. But more cyan chains emerged from the void, entangling this massive fireball from all directions.

"Gentlemen, this is the 'Dark Prison World Array' from the Heartshadow Sect.

Given their current strength, they can probably only set up the 'Dark Prison World Array' and 'Great Destruction Ultimate Formation,'" Yuewu sat calmly at the center of the formation, her voice spreading throughout every eternal true god in the military formation, "Combined, these are their strongest tactical measures in formations. We don't need to clash head-on.

As long as we avoid their main attacks and reach the city owner's mansion, that will suffice."

The super-giant fireball spun, resisting the numerous giant cyan chains while also moving closer to the city owner's mansion.

Inside the city owner's mansion, the leaders of the Five Great Families and eternal true gods, including Moli Feiyun, Diaorong Qi, and Moyu Hu, were all looking up at this terrifying confrontation.

"Crush them!"

As the super-giant fireball was resisting the chains, a grand formation with roiling dark clouds suddenly appeared - it was the Great Destruction Ultimate Formation.

Fog swirled, making it difficult to see the inside of the formation.

"Boom～～～"

The huge cloud mass collided with the super-giant fireball, causing countless flames to scatter, the chains shattering and then reconstituting, continuing to bind it.

"Break."

At the forefront of the super-giant fireball, Luo Feng, now towering in stature, ferociously sliced through the air with his blade, targeting the Great Destruction Ultimate Formation in front of him.

As he made this cut, General Yuewu naturally coordinated, with countless flames following the blade light. A massive super-giant 'Flame Blade Light' struck, shaking the Great Destruction Ultimate Formation, causing many arranging eternal true gods to feel soul pain.

"It's Luo He."

"Luo He leads the army formation, everyone be careful." Inside the Great Destruction Ultimate Formation, there were also many super-large mechanical secret treasures hidden, ready to strike at any moment.

But knowing Luo Feng was leading, they dared not charge.

"Heart Devil Kite and Demon General of Heartshadow, I leave them to you," the Master of the Heartshadow Sect ordered.

"Yes."

A black flying bird and a black humanoid figure simultaneously launched an attack from within the hidden formation, the 'Heart Devil Kite' controlled by Elder Hearteye and the 'Demon General of Heartshadow' controlled by Qiu Yi.

"Junior Brother Qiu Yi, Luo He's spiritual will is terrifying. Do not think of attacking actively, just defend with all your might," Elder Hearteye communicated through sound transmission. Within the sect-protecting treasures, the Demon General of Heartshadow was somewhat stronger than the Heart Devil Kite.

Elder Hearteye was surprised that a disciple could control the Demon

General of Heartshadow.

"Don't worry, Senior Brother," Qiu Yi was equally confident.

"Hm? Two sect-protecting treasures?" Luo Feng was quite startled. His towering stature was comparable to these two sect-protecting treasures, and he immediately struck with two 'Heart Honing' blades.

Two dazzling blade lights emerged, each containing a blade-sharp spiritual will.

Elder Hearteye, leading his subordinate eternal true gods and true gods of void space, combined their spiritual wills through the Heart Devil Kite, matching the top standards of the Primal Chaos Realm. The spiritual will they displayed was not much different from Luo Feng's exposed pinnacle will of Primal Chaos.

If the spiritual will was solely dedicated to defense, Luo Feng's will might be slightly suppressed at most, with minimal impact on his strength.

The last time was so dire because the Heart Devil Kite's spiritual will had rushed into Luo Feng's godly body, attacking actively! It was like an egg smashing against a mountain; all members of the Heart Devil Kite suffered severe damage to their spiritual will, which is why they fled desperately.

But now, with the spiritual will restored and focused solely on defense, they were not afraid.

"Rumble~~~"

The Heart Devil Kite and the Demon General of Heartshadow also had the support of the Great Destruction Ultimate Formation.

Luo Feng's techniques were also bolstered by the military formation, with his blade technique being either wildly fierce, silent, abyssal, or leveraging force.

"The Heart Devil Kite didn't show its strength last time, but this time I got to see it," Luo Feng's fighting spirit soared. He hadn't been able to fight freely during his five eras of cultivation. Now that he was

fighting heartily, he treated his opponents as whetstones to test the many techniques he had developed.

"Brother Luo He, just focus on defense. Our goal is to reach the city owner's mansion as quickly as possible," Yuewu communicated through sound transmission.

"Rest assured," Luo Feng responded.

Yuewu was very satisfied with the vanguard general of the army, Lord Luo He. His individual strength and spiritual will were extremely powerful, making it hard for the Heartshadow Sect to break through their formation from within.

"Hmm?" Yuewu suddenly exclaimed in surprise.

Luo Feng was equally astonished. They both noticed a super-large Flying Boat, its surface swirling with countless formation lights, its might so imposing that just seeing it sent chills down Luo Feng's spine. At this moment, the super-large Flying Boat was charging forward, creating numerous space cracks in its path.

"Crush them," commanded the three-eyed man Feng Yuqi from inside the super-large Flying Boat. The Flying Boat was manned by more than five hundred eternal true god disciples, jointly steering it.

This super-large Flying Boat's terrifying might was evident, as Luo Feng, towering and formidable, stood at the forefront of the entire Marquis of Jiu Jiang's army formation, facing the collision of the super-large Flying Boat.

"Where did this come from?" Luo Feng, eyeing the terrifying Flying Boat, immediately recalled the intelligence regarding the military of the two ancient countries, "This is a military ship from the Flame Wind Ancient Country."

The military of the Flame Wind Ancient Country, with their mechanical treasures and ships, far surpassed other Divine Kingdoms. Moreover, Flame Wind Ancient Country allowed foreign transactions, though the prices were exorbitantly high.

This ship, based on the intelligence Luo Feng had, required a

whopping five hundred billion Cosmic Sand! It likely needed several hundred eternal true gods to drive it, each operating a part.

This was much more terrifying than many formations.

Within the territory of Flame Wind Ancient Country, ordinary troubles and dangers warranted the dispatch of one warship to suppress them! A single warship could sweep through any individual below the Primal Chaos Realm.

Only if faced with greater trouble would the Primal Chaos Realm intervene.

"This is a warship of the Flame Wind Ancient Country, a moving terrifying great formation, its might even greater than the Great Destruction Ultimate Formation! Do not withstand it head-on!" Yuewu's voice broadcasted throughout the army formation as it transformed, the originally super-large fireball instantly turning into super-large water currents.

These endless water currents flowed and changed shape formlessly.

Previously, Luo Feng was engaged in combat with the Heart Devil Kite and the Divine General of Heartshadow, but with the flowing water, he instantly pulled away.

"Hmm?"

The massive warship fiercely collided, but the army's water currents were unpredictable, avoiding its sharp edges, making it impossible for the gigantic warship to touch the water.

"This—" The Master of the Heartshadow Sect exclaimed in anger.

If this warship were in Yuewu's hands, it would likely be manipulated with much more finesse. But under the control of the Heartshadow Sect, it just blindly rushed forward, unable to stop the slick army water currents.

Boom, boom, boom~~~

Instead, it was more suited for the sect's grand formations like 'Dark

Prison World Array' and 'Great Destruction Ultimate Formation' that could continually hinder and influence, but the army water currents were unwilling to engage, constantly evading smoothly.

"Whew."

It seemed like a long time, but it was just a matter of seconds. The army water currents had already surged into the city owner's mansion.

...

"Excellent!" Outside the city, the silver-haired Marquis of Jiu Jiang watched this scene with great joy, "Yuewu is indeed the top Array Master below the Primal Chaos Realm of our Yu Kingdom. He maneuvers the army formation much more exquisitely than the Heartshadow Sect. They've finally entered the city owner's mansion."

"Once inside the city owner's mansion, they can control Huyang City and utilize the city... The odds of winning are much greater," thought Marquis of Jiu Jang.

...

Marquis Liu Yin, clad in dark red armor, frowned as he watched this scene: "Inside the formation are over three thousand eternal true gods, and there are extremely powerful eternal true gods like Lord Luo He and Yong Hu. With Yuewu leading the formation, the Heartshadow Sect can't stop them."

"This time they are focused on escaping into the city owner's mansion."

"But focusing solely on escaping won't lead to victory; eventually, a direct confrontation is required," Marquis Liu Yin observed. "The Heartshadow Sect may lose many, and I don't care, but Marquis of Jiu Jiang, if your troops suffer heavy casualties, what will you do then?"

...

Emperor Chu Yu of the Flame Wind Pavilion and the Deputy Pavilion

Master were also leisurely watching the battle.

"Yuewu of the Yu Kingdom indeed possesses high prowess in formation technique," Emperor Chu Yu observed from afar. "Among our eternal true gods of Flame Wind Ancient Country, it's rare to find such strong expertise in formations."

"Even the fringe nations can produce some talented and strong individuals," the Deputy Pavilion Master remarked.

Emperor Chu Yu shook his head, "This warship, however, is a military ship from our Flame Wind Ancient Country. Despite its intricate formations and immense power, in the hands of the Heartshadow Sect, it's quite foolish, capable only of reckless charging!"

"In the Heartshadow Sect, only the leaders who control the Heart Devil Kite and the Demon General of Heartshadow are adequate; the rest are insignificant," the Deputy Pavilion Master commented. "But behind the Heartshadow Sect is Marquis Liu Yin, and I know his temperament well. Since he has decided to start a great war... this battle, for Marquis of Jiu Jiang, will be hard to win."

Even coming from the Imperial Clan of the Flame Wind Ancient Country, they both held considerable wariness towards this Marquis Liu Yin.

Marquis Liu Yin, by realm accumulation alone, was a being close to touching the threshold of Godly King.

"Marquis Liu Yin is not to be trifled with," Emperor Chu Yu observed. "Unless there's a special circumstance, Marquis of Jiu Jiang will most likely lose."

The Deputy Pavilion Master agreed.

They had traveled across many states of the Land of Origin and, well-versed and experienced, had long understood the essence of the conflict between the two Primal Chaos Prefectures: it was a struggle between two Primal Chaos figures behind the scenes.

Marquis Liu Yin had only dispatched a hired 'Heartshadow Sect' so

far, his own forces yet to move, and already forced Marquis of Jiu Jiang to pay dearly to garner support from various strong individuals.

Chapter 100: Volume 2 Chapter 26 Primal Chaos Realm (Part 1)

Huyang City, as the center of the entire fortress, resembled a miniature city itself. It occupied a vast area, far exceeding any cave mansion, and at this moment, it was heavily guarded, with colorful and flowing formations protecting the city owner's mansion.

Even if the Heartshadow Sect intended to invade the city owner's mansion, there would be some casualties.

"They've arrived." On the city owner's mansion side, the leaders of the Five Great Families, numerous eternal true gods, and a myriad of true gods of void space all looked up excitedly, watching as the vast, flowing army formation of the Marquis of Jiu Jiang surged into the city owner's mansion.

The city owner's mansion naturally did not obstruct, allowing the army formation to enter.

The army formation, including General Yuewu, General Yong Hu, numerous Mechanical Stream Secret Treasures, and a host of eternal true gods, all appeared, with Luo Feng and Morosa among them.

"Lord Luo He, General Yue, General Yong," the Lord of Huyang City and the leaders of the Five Great Families greeted them respectfully.

"Starting from now, the entire city owner's mansion is under my control," General Yuewu said.

"The Marquis had already instructed, and I will lead the way," the Lord of Huyang City replied with utmost respect.

"No need, Senior Brother Yong, follow me." Yuewu and Yong Hu instantly turned into two streaks of light, entering the depths beneath

the city owner's mansion.

When he accepted the invitation from the Marquis of Jiu Jiang, the Marquis had already handed over all the recorded Formation Diagrams of Huyang City to Yuewu! As a direct disciple of the Monarch of Yu Country and a potential being of the Primal Chaos Realm, the Marquis of Jiu Jiang had no worries that Yuewu would leak the Formation Diagrams.

Thus, Yuewu had studied the Formation Diagrams in advance and had already grasped about seventy to eighty percent of the Huyang City Formation Map; he could sense and inspect how to take control immediately.

Just a few moments passed.

"Buzz!"

Above the city owner's mansion, the previously colorful and flowing formations suddenly turned chaotic, with a significantly more terrifying might.

"I need to familiarize myself with Huyang City. If the Heartshadow Sect launches a full-scale attack, the rest of you just need to defend," General Yuewu transmitted to the numerous eternal true gods. Then he specifically transmitted to Luo Feng, "Brother Luo He, the city owner's mansion is now more secure. Under normal circumstances, the Heartshadow Sect could not possibly break through!

But should any special factors arise… it will be up to Brother Luo He to resist."

"Below the Primal Chaos Realm, none shall break through the city owner's mansion," Luo Feng transmitted back.

"Haha, good," Yuewu then devoted himself to familiarizing himself with the many formations of Huyang City; what he had previously understood were the diagrams, but now he was actually in control!

Once Yuewu took over, he discovered that the large city of Huyang, through generations of modifications, with many overlapping formations, had already become a tangled mess! Even he had to

ponder how to wield the might of Huyang City.

Inside the city owner's mansion, the many cultivators who had been worried and frightened all this while breathed a sigh of relief now.

Sigh.

"Divine Monarch," Moyu Hu saw Luo Feng and Morosa approaching and immediately saluted, "Thank Lord for rescuing us."

"The Moyu Family is all within my Spatial Secret Treasure; would you like to see them?" Luo Feng asked.

"I would be most grateful," Moyu Hu responded immediately.

Luo Feng nodded and waved, taking Moyu Hu away.

Meanwhile, Moli Feiyun, Diaorong Qi, Gaowu Shui, and others were also watching this place. When Diaorong Qi saw Luo Feng's gaze sweeping over, she immediately saluted.

Luo Feng nodded slightly.

He and this Diaorong Qi also had some connections.

"Morosa, you help keep an eye on the Heartshadow Sect. If any danger arises, notify me immediately," Luo Feng transmitted mentally, knowing that as a Primal Chaos Overlord, Morosa's observatory capabilities were stronger than his own.

"Don't worry, Master," Morosa immediately responded.

Sigh.

Luo Feng, along with Morosa, swiftly moved to a spot on the city walls and calmly observed the outside.

"That's Lord Luo He."

"The thirteen Sect-Protecting Treasures of the Heartshadow Sect are widely renowned. Any one of these treasures is nearly invincible below the Primal Chaos Realm. Yet, even the combined forces of the

'Heart Devil Kite' and 'Demon General of Heartshadow' are merely on par with Lord Luo He."

"Yes, if it weren't for Lord Luo He blocking them, with the Heart Devil Kite and the Demon General of Heartshadow bringing the Great Destruction Ultimate Formation to kill their way in, and leaving us to resist? That would have resulted in severe casualties."

The eternal true gods all felt very fortunate.

...

On the city walls of the city owner's mansion, Luo Feng and Morosa sat there leisurely sipping wine and observing the outside.

"So-called military confrontations are ultimately just cannon fodder on the Land of Origin." Luo Feng was well aware of this; in a conflict between two countries, the upper echelons would not easily descend to the battlefield, fearing it would escalate the situation drastically.

"Nowadays, earning a billion Cosmic Sand is already so difficult."

"To gain more resources, one must step into the Primal Chaos Realm!" Luo Feng mused, as an eternal true god, earning a billion Cosmic Sand was considered a miracle. But if he became a being of the Primal Chaos Realm, hiring one for battle? Ten billion Cosmic Sand would seem too little!

Beside him, Morosa somewhat puzzledly looked at Luo Feng, "Master, what are you thinking about?"

"Thinking about when I can become a Primal Chaos Realm being," Luo Feng whispered, "to ascend to the Primal Chaos Realm within the Law Lineage is really uncertain about when it will happen."

"Just accumulate slowly," Morosa consoled his master.

Morosa himself didn't feel the difficulty, having naturally advanced by just eating and drinking.

Luo Feng glanced at Morosa and ignored him.

******

Deep beneath the city owner's mansion.

Yuewu was familiarizing himself with the formations of Huyang City, with Yong Hu guarding by his side.

"The strength of the Heartshadow Sect is formidable, but the battleship of the Flame Wind Ancient Country is somewhat clumsy, posing little threat. However, the Heart Devil Kite and the Divine General of Heartshadow... Without Luo He obstructing, we would not have won this battle," said Yuewu.

"Indeed, Elder Hearteye's strength is close to mine; once he controls the Heart Devil Kite, I too cannot overcome it," admitted Yong Hu, "but Lord Luo He can take on two opponents by himself."

"Your realm accumulation is too weak," Yuewu commented, "From what I see, Luo He's realm accumulation is no less than mine."

Yong Hu was astonished, "Brother, even the Monarch believes you will certainly reach the Primal Chaos Realm! Could it be that Luo He will also reach the Primal Chaos Realm?"

"Yes, he will also reach the Primal Chaos Realm," Yuewu replied, "And unlike me, he has unlimited godly bodies! The formidable nature of a godly body will allow him to rapidly grow strong after becoming the Primal Chaos Overlord. With some cultivation over time, he could rival the Marquis of Jiu Jang."

Unlimited godly bodies, in terms of the purity of Divine Power and the massive reserve brought about by their immense size.

Make the Primal Chaos Realm of the 'unlimited godly bodies' much more advantageous than the ordinary godly bodies' Primal Chaos Realm.

"You must seize the opportunity, while he is still an eternal true god, to form a good relationship with him," Yuewu advised, glancing at Yong Hu.

"In the future, brother, I will also be in the Primal Chaos Realm,

following you will be the same," Yong Hu ingratiatingly smiled. After all, the Monarch of Yu Country held too high a status and did not care much for these eternal true god disciples.

Yuewu was the only one in whom the Monarch of Yu Country seemed to show special interest.

Yuewu smiled; over the long years, Senior Brother Yong had been most attentive, doing many things for Yuewu. Although the other sect members also greatly respected Yuewu, none could lower themselves as much as Yong Hu!

Yuewu also acknowledged Yong Hu's determination in cultivation. For resources, Yong Hu took on tasks across various regions of the Yu Kingdom.

"In the future, if I can help senior brother, I will," Yuewu nodded and promised.

Of course, the precondition was his breakthrough into the Primal Chaos Realm.

The Monarch and other Godly Kings all said that Yuewu's accumulation was profound and that he was certain to reach the Primal Chaos Realm.

Yet I still haven't broken through. Is reaching the Primal Chaos Realm of the Law Lineage really so difficult?" Yuewu wondered, a trace of confusion in his eyes, but he immediately focused and delved into learning the Huyang City Formation.

...

At the Heartshadow Sect.

The Sect Leader and Eighteen Elders gathered, with Qiu Yi's Divine Power Incarnation also appearing.

"We originally intended to use the city owner's mansion as bait to kill the Array Master. But what happened? We allowed the Marquis of Jiu Jang's army to enter the city owner's mansion, and we couldn't even threaten that Array Master," an elder spoke up.

The Master of the Heartshadow Sect scanned the room, stating, "This time, sparing no expense, the Marquis of Jiu Jang brought in Yu Kingdom's foremost Array Master below the Primal Chaos Realm, 'Yuewu', significantly enhancing the military formation's power, and within that military formation is also Luo He!"

"Luo He's strength surpasses any eternal true god in the Yu Kingdom. He can withstand two opponents alone, the Heart Devil Kite and the Divine General of Heartshadow," the Master of the Heartshadow Sect shook his head, "Our plan failed, and that was unavoidable."

The room fell silent.

Two Sect-Protecting Treasures together were stopped by a single eternal true god.

"You all need not worry; they dare not engage us. They only want to escape into the city owner's mansion," the Master of the Heartshadow Sect said, "But by continually running away, they will be unable to govern Huyang City or the entire Jiu Jiang Primal Chaos Prefecture. Thus, they must face us in the ultimate showdown."

"Once we clash, we have the Flame Wind Ancient Country's battleship, and whether in terms of formations or the elite level of eternal true gods, we surpass the Marquis of Jiu Jang's army," the Master of the Heartshadow Sect declared.

The Eighteen Elders and Qiu Yi concurred.

After all, coming from the foundation of a Godly King Sect, their eternal true god disciples were generally much stronger than those under the Marquis of Jiu Jang; the coordination within their formations held an advantage in all aspects.

"Elder Hearteye, Brother Qiu Yi, once the final showdown begins, the two of you just need to tie down Luo He," the Master of the Heartshadow Sect directed, "Just keep him busy! The rest of our disciples can then fully exert their strengths."

Elder Hearteye and Qiu Yi both nodded.

"There may be some casualties then, but as long as you tie down Luo

He, the Marquis of Jiu Jang's army's threat will be much weaker. We will surely prevail," the Master of the Heartshadow Sect declared.

"Initially, Luo He had proposed an employment price of two billion Cosmic Sands! Marquis Liu Yin did not agree, but the Marquis of Jiu Jiang did; I don't know at what great cost," said another elder.

"It must not have been cheap."

"The Marquis of Jiu Jiang is certainly generous."

The elders discussed.

"Let's not worry about these matters, and prepare for the final showdown," the Master of the Heartshadow Sect said.

"Yes," the elders dispersed immediately.

Elder Hearteye and Qiu Yi did not rush to leave; they looked at the Master of the Heartshadow Sect.

"After carefully thinking over the combat situation, it feels like Luo He dealt with it very easily, even his servant Luo Sa didn't need to take action," the Master of the Heartshadow Sect expressed his concern, "the task for you two is important and not easy, to tie down Luo He."

Elder Hearteye and Qiu Yi both nodded.

Both were extremely proud, but in previous engagements, indeed, the servant Luo Sa hadn't intervened.

"If you truly can't stop him, then don't force it," the Master of the Heartshadow Sect's eyes flashed with a murderous intent, "if he wants to kill our Heartshadow Sect disciples, then you two go and slaughter the eternal true gods under the Marquis of Jiu Jiang. In this war, we must win!"

"Alright."

"We understand," Elder Hearteye and Qiu Yi both nodded.

They soon left as well.

The Master of the Heartshadow Sect gazed into the distance: "The fate of our Heartshadow Sect hinges on the two venerable ancestors! If the two ancestors make a breakthrough, as long as they don't fear the Great Saint Jiuyuan, our Heartshadow Sect will rise swiftly."

"If the two ancestors do not break through, and more disciples perish, the burden of maintaining the sect's operations will be lighter, allowing it to endure longer," the eyes of the Master of the Heartshadow Sect were cold.

Chapter 101: 2 27 Primal Chaos Realm (Part 2)

Days passed one by one.

Inside a pavilion atop the city owner's mansion's wall, Luo Feng was meditating in quietude, while Morosa was responsible for observing every movement outside. With his Primal Chaos Realm strength, Morosa could detect any activity from the Heartshadow Sect.

"Brother Luo He, I'm fully prepared here," a voice emerged beside Luo Feng's ear.

Luo Feng opened his eyes.

"The Marquis has agreed, we will launch the attack today," Yuewu continued via voice transmission, "Brother Luo He, any issues on your end?"

"I can make my move at any time," Luo Feng responded.

"Good."

Yuewu highly valued Lord Luo He, partly because he believed Lord Luo He could also reach the Primal Chaos Realm in the future, and partly because in this war, Lord Luo He was the critical factor.

Luo Feng stood up, and Morosa immediately asked, "Are we taking action now?"

"Just follow the plan we prepared, and coordinate well with me," Luo Feng said. It's better for a 'Sector Beast' at the Primal Chaos Realm level to keep a low profile.

"Don't worry, I'll coordinate well," Morosa said.

Luo Feng's gaze pierced through the window to the outside world; the grand Heartshadow Sect array that had once enveloped the entire Primal Chaos Armor Sector had been lifted. After the 'Plan to Capture the Array Master' failed, the Heartshadow Sect tightened its headquarters' defenses, becoming much more secure.

Merely moments passed.

The Marquis of Jiu Jiang's legion had already fully mobilized and was ready to engage, some filled with high fighting spirit while others visibly nervous and uneasy. Direct confrontation was likely to lead to many casualties, but as subordinates of the Marquis of Jiu Jiang, this was not the time to retreat.

"It's a fight to the death." Gaowu Shui led a row of Mechanical Treasures, solemn in wait, his confidence somewhat bolstered upon spotting Lord Luo He at the forefront of the army.

Suddenly—

"Boom boom boom~~~"

The whole Huyang City seemed to come to life as one terrifying formation after another arose; precisely one hundred and thirty-nine formations of varying strengths activated and coordinated with each other like a complete entity.

As the formations erupted, Bang Bang Bang!!! Some key nodes of the three Heartshadow Sect arrays set up previously blasted apart.

"Not good."

"The formation has been breached."

The Heartshadow Sect disciples guarding the area exclaimed in shock as they too saw the dark array that once cloaked Huyang City dissipate, replaced by one hundred and thirty-nine interconnected formations.

In different parts of the city, several Heartshadow Sect disciples were instantly bounded and rendered immobile by the formidable power of the formations. They were all transported through void shifting

directly into the city owner's mansion, imprisoned within its dungeons.

"Yuewu's mastery in formations is truly beyond belief."

At Heartshadow Sect headquarters, the Sect Leader and the Eighteen Elders together with Qiu Yi looked up at the multicolored, numerous formations; the power of the formations somewhat alarmed them.

"Prepare for battle!" the Master of the Heartshadow Sect commanded.

Boom boom boom~~~

A battle ship from the Flame Wind Ancient Country appeared, containing the majority of ordinary disciples within.

Surrounding the ship were two terrifying large-scale formations, the Dark Prison World Array and the Great Destruction Ultimate Formation intermingled, within which one could vaguely see several super-large Mechanical Secret Treasures.

"Supress!" From high above, the multicolored formation forcefully pressed down, the Dark Prison World Array bearing the brunt of this terrifying oppression.

"After the Huyang City Formation erupted, it's so strong," the eternal true gods within the Dark Prison World Array strained to resist, feeling overwhelmed and unable to divert their attention to cope with other foes.

...

The Marquis Jiu Jiang's legion also flew out from the city owner's mansion, like a huge vortex of fire and water. The surface of the vortex was also covered with a layer of radiant light, carrying the might of Huyang City against its enemies.

"Even if you've sought help, this battle will still be won by our Heartshadow Sect," the massive battle ship charged first, slamming into the gigantic vortex of fire and water.

Boom boom boom~~~

Upon crashing into the vortex of fire and water, the advancing troops clearly saw Luo Feng and his servant at the front.

"Stop Luo He."

Whoosh! Whoosh!

A black flying creature and a black figure, incredibly swift, darted towards Luo Feng.

Luo Feng casually swung the Bloodshadow Knife in his hand, leaving a dazzling rainbow of light in the void, impeding both the Heart Devil Kite and the Divine General of Heartshadow. Once they clashed, they immediately felt the disparity in techniques.

"After taking over the Divine General of Heartshadow, my sheer power is not inferior to Luo He. However, when it comes to sophistication, I am far behind him," Qiu Yi thought privately, having only grasped five moves of Primal Chaos Realm techniques. Even with two against one, Luo Feng handled them quite effortlessly.

As his blade blocked them, Morosa whisked Luo Feng away, whooshing through the void into the Dark Prison World Array.

"Luo He's servant is adept at moving through the void."

"In the midst of all these formation collisions, he can still move through the void?"

Both armies were quite astonished.

Among them, some elites could perform instantaneous movement under the suppression of ordinary large cities. But at this moment, with two armies clashing and the spatial turbulence intensified manyfold.

Still able to move through the void at such a time, he must have mastered several moves of Primal Chaos Realm techniques in the void to an unimaginably high level.

"At least several moves in the void have been mastered at the Primal Chaos Realm. No wonder he can act as Luo He's protector. With him

leading the escape, those below the Primal Chaos Realm, even within a large army formation, pose no threat to them master and servant."

The many eternal true gods of the Heartshadow Sect felt a chill in their hearts.

"He's trying to destroy the Dark Prison World Array, stop him," they cried.

The Dark Prison World Array, tasked with resisting the suppressive might of over a hundred formations from Huyang City, was already under severe strain. It barely had any power left to deal with Luo Feng and his reduction in self-protection capabilities meant it could very easily be breached by Luo Feng and his servants.

"His servant moves through the void space too quickly, we can't stop him!"

The Great Destruction Ultimate Formation ceased its attack and joined forces with the Dark Prison World Array to counter Luo He.

For a time, both great arrays, while resisting the numerous formations of Huyang City, also suppressed Luo Feng, neither able to target the Marquis of Jiu Jiang Legion.

The battle ships of the Flame Wind Ancient Country clashed fiercely, over a hundred super-large mechanical treasures coordinating together, battling the Marquis of Jiu Jiang Legion.

...

A figure of crimson flames watched the battle from outside the city.

"Such trash, restrained by Yuewu and Luo He, the two most crucial arrays," Marquis Liu Yin shook his head, knowing that with the loss of these two super-large arrays, the Heartshadow Sect had lost more than half of its strength.

The army formation led by Yuewu, was like a single entity.

Whereas the battle ships, the Heart Devil Kite, the Divine General of Heartshadow, and the hundred super-large mechanical treasures

seemed formidable, they were truly disorganized. They would be defeated one by one by the army formation led by Yuewu.

"Yan'er, make your move," Marquis Liu Yin commanded from afar.

"Yes, Father."

Inside the Flame Wind Ancient Country battle ship, there were many ordinary disciples, among them a black-armored general sent by Marquis Liu Yin to supervise.

"Master of the Heartshadow Sect, by order of the Marquis, we are here to assist you in breaking the formation," the black-armored general announced, and suddenly, a legion appeared out of thin air! Leading this legion was a young man in a blood-colored robe.

"Young Master Yan?" The Sect Leader of the Heartshadow instantly rejoiced.

Having been under Marquis Liu Yin for so long, he obviously knew that the strongest under Marquis Liu Yin was this 'Liu Yinyan.' Marquis Liu Yin was harsh in raising his children and generously invested resources in them.

Liu Yinyan was Marquis Liu Yin's most outstanding child! Moreover, Marquis Liu Yin had spared no expense to have Liu Yinyan trained under an ancient Godly King from the Snow Realm, making him a direct disciple of the Ancestral God of the Snow Realm.

"I am here to help you destroy the Marquis of Jiu Jiang Legion," Liu Yinyan declared, taking immediate command of the entire royal guard legion, maneuvering a humanoid mechanical treasure as white as snow.

Whoosh!

The super-large snow-white humanoid mechanical treasure naturally possessed an endless beauty, but when it emerged from the battle ship into the void space, the Marquis of Jiu Jiang Legion was greatly alarmed.

"Is this… the Mechanical Treasure 'Envoy of the Snow Realm' from

under the command of the Ancestral God of the Snow Realm?" Yuewu exclaimed in surprise upon seeing this.

Technically, the Heart Devil Kite and the Divine General of Heartshadow from the Heartshadow Sect, also specially crafted by a Godly King suitable for their own disciples, were nearly as exquisite as the Envoy of the Snow Realm.

However, the old ancestor of the Heartshadow Sect had long died. So, they were merely managing with some disciples, managing to drive the Heart Devil Kite and the Divine General of Heartshadow was already quite an achievement.

Whereas the Ancestral God of the Snow Realm was an ancient existence known throughout the Land of Origin, with countless desiring to be his disciples.

Those qualified to maneuver the 'Envoy of the Snow Realm' had been selected; whether the leader or the 36 assisting eternal true gods and 49,000 true gods of void space, all were selected through screenings. Ultimately, they could perfectly unleash the power of the Envoy of the Snow Realm.

"Whoosh—" The power unleashed by the Envoy of the Snow Realm was stronger than both the Heart Devil Kite and the Divine General of Heartshadow combined.

Wherever it went, mechanical treasures collapsed, and the eternal true gods, true gods of void space, and true gods inside responsible for maneuvering them all died, without exception.

"Brother Luo He, quickly come and stop this Envoy of the Snow Realm!" Yuewu knew it was bad, he could entangle with the Heart Devil Kite and the Divine General of Heartshadow with his formation, but he couldn't stop this Envoy of the Snow Realm.

Whoosh!

Moved by Morosa's swift travel, Luo Feng and Morosa reached near the Envoy of the Snow Realm almost in the blink of an eye.

"Leave it to me."

Luo Feng also observed the Envoy of the Snow Realm in front of him, whose entire body had skin that was pale and stunningly beautiful, bearing a resemblance to the true form of the Sector Beast.

"He resembles my true form quite a bit," Morosa transmitted his thoughts, "but the essence is different, my essence is the Path of Destruction. The essence of this Envoy of the Snow Realm is the Great Dao of Life."

"Luo He?" The Envoy of the Snow Realm looked at Luo Feng, his eyes gleaming with golden light, cold and impassive.

"Yes, its essence is the Great Dao of Life," Luo Feng observed the Envoy of the Snow Realm.

The Ancestral God of the Snow Realm was indeed an ancient Godly King who walked the path of the Great Dao of Life! However, in terms of slaughter, the Ancestral God of the Snow Realm was among the top ten most notorious old demons in the Land of Origin, having slain countless creatures.

"Hum."

A pure white light surged from the surface of the Envoy of the Snow Realm, naturally resisting the power of the formation, as it stared at Luo Feng.

In Liu Yinyan's view, if the Envoy of the Snow Realm could entangle Luo Feng, it served its purpose.

"The Great Dao of Life, yet such slaughter..." Luo Feng watched as light glowed on the surface of the Envoy of the Snow Realm.

Luo Feng, having significant expertise in the Great Dao of Life and the Path of Destruction, saw a super-large mechanical treasure containing the mysteries of the Great Dao of Life. Merely viewing the flowing pattern on its surface was enough to stir him.

This slight stirring was like a beacon of light in the darkness, quickly integrating Luo Feng's numerous insights gathered over a long period.

Suddenly, Luo Feng blinked.

"Is this the Law of Primal Chaos?" which confused Luo Feng for a long time. But when his accumulation was sufficient, a slight opportunity acted as a trigger, breaking through the bottleneck and revealing everything clearly.

Luo Feng was filled with joy, delicately experiencing the completely comprehended Law of Primal Chaos.

"Luo He, what are you looking at? Why haven't you made your move?" The Envoy of the Snow Realm was already prepared and was surprised that the renowned Lord Luo He merely stared at it without taking action.

Chapter 102: February 28 Evolution of Chaos

```

Luo Feng looked at the Envoy of the Snow Realm before him, his heart brimming with joy.

"This Envoy of the Snow Realm, truly lives up to its renowned reputation as a Mechanical Treasure of the Snow Realm lineage. Impressive," Luo Feng praised. Although he wasn't fond of the 'Ancestral God of the Snow Realm'—that ancient Godly King—he had to admit that the Ancestral God of the Snow Realm had extremely deep attainments in the Great Dao of Life.

According to the records of his master, the Mountain sitting guest, in terms of strength, the Ancestral God of the Snow Realm was roughly equal to his master. But because his cultivation was of the Great Dao of Life, his ability to protect himself was far stronger.

Endless years have passed, and many ancient Godly Kings have perished. However, despite his numerous sins and many enemies, the Ancestral God of the Snow Realm managed to live freely until today, which speaks volumes of his abilities.

"Different Primeval Daos have different strengths, and the Great Dao of Life indeed possesses the strongest capability for survival," Luo Feng had seen the complete Great Dao of Life Origin and understood the power of this path.

Even just grasping a branch of it could dominate the Land of Origin.

"Without taking action, you are instead praising. Are you scared?" Liu Yinyan, who was commanding the Envoy of the Snow Realm, had no patience to wait, "I want to see how strong the top eternal true gods
```

really are."

Whoosh!

In an instant, the Envoy of the Snow Realm pounced, and a ray of light flashed, engulfing Luo Feng.

Normally, such an attack would be enough to erode away the body of an eternal true god and cut off all of its lifeforce. However, Luo Feng simply slashed casually with his blade, and the Blade Light flowed like water, perfectly blocking the pounce of the Envoy of the Snow Realm and slicing it to retreat backward in flight.

"Hmm?" While the Envoy of the Snow Realm was flying backward from the momentum, it suddenly changed direction and increased in speed.

Whoosh, whoosh, whoosh!!! Turning into a blur of afterimages, it continued to make consecutive pounce attacks.

Luo Feng stood firm on the spot, defensively impeccable.

"All retreat, back to the city owner's mansion," suddenly, an order rang out in Luo Feng's ears.

The entire military formation completely transformed into a group of unpredictable flowing water, heading straight for the city owner's mansion.

With the help of over a hundred major formations within Huyang City, and with Luo Feng blocking the Envoy of the Snow Realm, it only took a few moments for the entire formation to completely retreat back to the city owner's mansion.

"Brother Luo He, it's the Marquis's order to withdraw the troops." Yuewu informed through a transmission.

Luo Feng understood.

He had just begun to comprehend the Primal Chaos Laws and was at his weakest as a being in the Primal Chaos Realm!

At this moment, his small universe had just begun expanding, his True God's Heart had not yet transformed, his godly body and Divine Power had not yet undergone transformation, and he had not had enough time to grow! He hadn't had the chance to study the heritage of the Primal Chaos Realm.

Exposing his mastery of the Primal Chaos Laws now would be the most foolish act.

The Marquis Liu Yin would definitely not mind crushing Luo Feng to death.

Just like Xue Yun before, in a moment of life and death, his bloodline transformed, and he grasped control over the Primal Chaos Laws! But apart from his moves being somewhat mysterious, there was no other improvement, and he was directly slain by Luo Feng.

"Only when my perfect godly body of the Primal Chaos Layer reaches its limit can I really stand my ground within the Primal Chaos Realm," Luo Feng thought to himself.

Based on what he understood,

After breaking through to the Primal Chaos Realm with an unlimited godly body, one would still need to cultivate the Secret Technique for a considerable period to improve all aspects without weakness. Only then could one reach the pinnacle of the Primal Chaos Realm, equivalent to the Marquis of Jiu Jiang!

As a Perfect Divine Body, if I can grow to the limit, I should be close to the Marquis of Jiu Jiang, but still not on par with Marquis Liu Yin.

As for now?

Daring to confront the Marquis Liu Yin would be courting death.

...

Within the city owner's mansion.

The Divine Power Incarnation of the Marquis of Jiu Jiang appeared and held a banquet to entertain the core members of his army. Over a

hundred eternal true gods gathered within the grand hall, taking their seats in order.

Luo Feng and Yuewu were seated at the first positions to the left and right below the seat of the Marquis of Jiu Jiang.

"In this skirmish, all of you have worked hard," the Marquis of Jiu Jiang said, "But with the appearance of the Envoy of the Snow Realm, even if we could barely win this battle, I'm afraid only two or three-tenths of the eternal true gods would survive."

The eternal true gods present all agreed.

Actually, they had all clearly understood the situation just now. With the Envoy of the Snow Realm tying up Luo Feng, there was a chance that the army of the Marquis of Jiu Jiang could have been defeated in the ongoing battle.

Even if they won, it would only be a pyrrhic victory!

"A narrow victory would only lead to Marquis Liu Yin sending another army again," the Marquis of Jiu Jiang looked at his subordinates, "but you are all the military force I have. There's no need for us to waste our strength against them."

Luo Feng agreed; Marquis Liu Yin didn't care about the loss of life from the Heartshadow Sect, but the Marquis of Jiu Jiang cherished his army!

The three thousand-plus eternal true gods were nearly all the military force the Marquis of Jiu Jiang had.

A war of attrition?

He certainly didn't want that!

"To win, it must be an overwhelming victory," the Marquis of Jiu Jiang told them, "I don't need a victory with countless deaths."

"Thank you, Marquis."

Many of the eternal true gods were extremely moved.

Luo Feng, Yuewu, and a very few others were confident they could survive the battles within the military formations. But the other eternal true gods could die at any moment; in the face of the Envoy of the Snow Realm, they would perish with a single encounter. The Marquis of Jiu Jiang cared about their lives and didn't want them to be wasted, naturally moving these eternal true gods.

Such a Primal Chaos Overlord was indeed worth following!

"This ceasefire will last for quite a while," the Marquis of Jiu Jiang said, "I will find a way to call for more reinforcements."

Looking at his subordinates, including the summoned master and servant of Luo He, Yuewu, Yong Hu, and others, the Marquis of Jiu Jiang was quite troubled: "I have already invited such powerful eternal true gods, who else can I invite?"

```

"Moreover, Marquis Liu Yin was actually able to invite an Envoy of the Snow Realm, representing the 'Ancestral God of the Snow Realm,' willing to assist him," Marquis Jiu Jiang was very aware of the significance of the appearance of an Envoy of the Snow Realm.

An Envoy of the Snow Realm, as the name suggests, represents the Ancestral God of the Snow Realm to a certain extent.

Without the permission of the Ancestral God of the Snow Realm, that envoy would not possibly participate in battle!

"With one Envoy of the Snow Realm, if Marquis Liu Yin is willing to pay a certain price, he may possibly invite two, three, or even more envoys," Marquis Jiu Jiang knew this.

There are a total of thirty-six Envoys of the Snow Realm.

They are powerful forces mobilized within the territories under the command of the Ancestral God of the Snow Realm! As for the more than ten Primal Chaos Overlords under his command, they joined because they valued the significant enhancement the Ancestral God of the Snow Realm could provide to their survival abilities.
```

Without sufficient reason, these beings of the Primal Chaos Realm couldn't be mobilized.

"I had long heard that Marquis Liu Yin has an extremely good relationship with the Ancestral God of the Snow Realm, to the point of even having his children become disciples of the Ancestral God," Marquis Jiu Jiang shook his head. "But I never imagined that the Ancestral God would go so far as to help him like this."

Many ancient existences would not easily intervene in the wars of other nations.

But the Ancestral God of the Snow Realm is notoriously violent and reckless, riddled with monstrous sins; it is not surprising he would do such a thing.

"Faced with an at the Eternal Level, I'm afraid I can't win," Marquis Jiu Jiang thought to himself, "I must enter the fray personally!"

The conflict at the level of the Primal Chaos Realm is much more brutal!

"Relying solely on myself isn't enough; I must seek help," Marquis Jiu Jiang determined in his heart. The cost of asking for help from someone of the Primal Chaos Realm was great, but at this moment, he could no longer care about that.

The reluctance to easily escalate wars is due to this reason.

Once escalated, the weaker side will seek help, easily leading to multiple great battles involving those of the Primal Chaos Realm!

******

In the region of the Primordial Cosmos, Luo Feng's small universe.

"Rumble～～～"

In the central region of the small universe, spanning a hundred billion light years in diameter, there was a special Space of Cosmic Origin that was now collapsing, with the emergence of Chaotic Power inside and the substantial manifestation of the laws of Primal Chaos.

This place was as if it were a space within the Primal Chaos Layer.

"I originally constructed the small universe using the concept of 'The Beginning of Unity.' What follows is natural evolution," Luo Feng's Divine Power Incarnation stood in this Space of Cosmic Origin, watching the surging Chaotic Power around him, "My framework is quite perfect indeed, eventually naturally evolving into a Primal Chaos Primeval Space."

The evolution of a small universe starts with its formation and framework. After that, it grows naturally.

If the initial framework is somewhat defective, it'll cause the small universe to be somewhat smaller in scale.

If the framework has severe defects, it might even stop evolving at a certain layer. Such cases, though rare, do occur. Those who have stepped on the Law Lineage to become a True God rarely reach this stage.

As for those on the path of Bloodline, their small universe is determined by their bloodline. Although their upper limit is not as high as that of the Law Lineage, they would not have fatal flaws.

"What's going on?"

"This is..."

Inside Luo Feng's small universe, where countless human beings lived, some of the universe masters and True Gods became aware of changes in the small universe.

"Hmm?" The Rampant Demon God arrived at the original border of the small universe, only to see an endless expansion of Primal Chaos forming outside its edges.

"Primal Chaos Currents have appeared outside, identical to the Primal Chaos Currents of the Universe Ocean," the Rampant Demon God exclaimed in amazement, "Is the Lord of the Galaxy's small universe expanding again?"

At this moment, many True Gods had also arrived outside the galaxy

universe.

"The small universe of the Ancestral God of the Galaxy is expanding."

"A diameter of a hundred billion light years, it's growing again?"

"The Lord of the Galaxy is becoming more and more fearsome."

As the powerhouses of the human race and others from the Universe Ocean looked on in astonishment, the Ancestral God of the Galaxy 'Luo Feng' had long been invincible in the entire Primordial Cosmos Region. In the face of yet another enhancement of this invincible existence, the various clans' powerhouses naturally accepted it.

"Luo Feng, how big do you think your small universe will become this time?"

At this moment, Luo Feng's family had arrived outside the small universe in their boat, watching its entire transformation. Xu Xin, Luo Ping, Luo Hai, his younger brother Luo Hua, his father Luo Hongguo, and his mother Gong Xin Lan were all watching the changes.

"It's estimated to reach a trillion light years," Luo Feng said.

"Last time, it reached a hundred billion light years, and then you went to brave through reincarnations," Xu Xin inquired, "How significant is this breakthrough for you?"

"Very significant."

Luo Feng smiled and nodded.

Only by becoming a being of the Primal Chaos Realm can one be considered to have entered the upper echelon of the Land of Origin. Since the number of ancient Godly Kings is too small, and one Godly King can establish a nation, many key affairs in the Land of Origin are handled by beings of the Primal Chaos Realm.

Even in the two great Ancient Countries, beings of the Primal Chaos Realm are quite important! In the imperial lineages like Emperor Chu's Lineage of the Flame Wind Ancient Country, beings of the Primal Chaos Realm can barely become Guest Elders.

With the pride of the Imperial Clan, being willing to call someone a Guest Elder indicates the status of beings of the Primal Chaos Realm.

"At least, I'm not cannon fodder anymore," Luo Feng thought silently; to the higher-ups, an eternal true god was truly nothing but cannon fodder.

Under observation by the various powerhouses of the Universe Ocean, including his teacher, the Primal Chaos City Lord, and Zhenyan, as well as the Thunder Lord and others, Luo Feng's small universe expanded at a terrifying speed.

After five years had passed, the expansion of the small universe finally stopped. By then, it had already reached a full trillion light years in diameter.

Such an enormous small universe, even when compared to the Primordial Cosmos, wasn't far off.

Chapter 103: Volume 2 Chapter 29 Secret Technique Cultivation

```

Huyang City, the City Lord's mansion allocated a separate compound covering tens of thousands of kilometers for Luo Feng to reside in.

The cultivation chamber, within the Star Tower.

Luo Feng sat cross-legged, wholeheartedly sensing his "True God's Heart."

As his miniature universe expanded to a diameter of trillions of lightyears, the True God's Heart connected to it grew increasingly strong and resilient, with a steady flow of Primal Chaos Divine Power pouring into the True God's Heart.

"True God's Heart, Primal Chaos evolution," Luo Feng thought, and Primal Chaos Divine Power surged within the True God's Heart, gradually forming a space that expanded and eventually solidified into a defined Primal Chaotic Space.

For a cultivator of the Law Lineage's Primal Chaos Realm, transforming a Primal Chaotic Space was a very easy feat.

Luo Feng's own Primal Chaotic Space was broader and more stable than that of others at the same level of the Primal Chaos Realm.

"Boom～～～" A massive amount of Primal Chaos Divine Power flooded into the godly body, causing Luo Feng's godly body to begin its metamorphosis.

"For my godly body to grow to its limit, it seems it will take a very long time," Luo Feng felt as if his godly body was a dried-up desert,
```

instantly absorbing any amount of Primal Chaos Divine Power that came its way.

"Thankfully, my miniature universe has a very high efficiency in consuming energy and converting it into Primal Chaos Divine Power," Luo Feng mused silently.

His miniature universe was the "Perfect Form" among miniature universes at his level, with an inherently high absorption and conversion rate. Furthermore, time flowed 10,081 times faster in his distant homeland compared to the Land of Origin, so the Divine Power he transformed every moment was naturally immense.

If it were an ordinary Primal Chaos Realm cultivator absorbing this Divine Power, in less than a day in the Land of Origin, their godly body could grow to its limit.

But for Luo Feng's Perfect Divine Body of the Primal Chaos Realm, this influx of Divine Power caused not the slightest ripple, being silently absorbed without a trace.

"Divine Power has become a hundred times more pure," Luo Feng could feel the changes within.

With a hundredfold purification of Divine Power and great increases in physical size, coupled with an overall elevation in realm, he was indeed far stronger than he had been during his eternal true god phase.

"I wonder, after my godly body reaches its limit, how big the gap will be between me and Marquis Liu Yin," Luo Feng contemplated.

As for the Perfect Divine Body of the Primal Chaos Realm, there was no record of it in the Land of Origin, and the strength it could attain at its limit was something Luo Feng could only guess at for now.

On the surface, among the various Primal Chaos Realm cultivators in the Shi Kingdom, there are nearly ten who possess unlimited godly bodies. Marquis Liu Yin does not possess an unlimited godly body, yet his strength is ranked within the top five.

...

"First, focus on cultivating Secret Techniques," Luo Feng decided as he felt the slow growth of his godly body, then cast aside all distractions to begin studying the Secret Techniques that could be cultivated at his Primal Chaos Realm level.

For normal Primal Chaos Realm cultivators, the first Secret Techniques studied are always those that save one's life.

Why would a Godly King condescend to acknowledge the Primal Chaos Realm? Because even a Godly King cannot guarantee a complete kill of a Primal Chaos Realm cultivator.

"The foremost life-saving Secret Technique of the Primal Chaos Realm —Reincarnation Secret Technique," Luo Feng studied in detail.

The Reincarnation Secret Technique uses a Secret Technique to protect a sliver of the True Spirit for reincarnation.

Upon death.

A sliver of the True Spirit will follow the supreme rules and naturally undergo incarnation through reincarnation. By relying on the Reincarnation Secret Technique, there is a hope to maintain memories during reincarnation.

According to the records of powerful beings who have reincarnated throughout history.

Whether reincarnation can retain memories, or remain conscious, depends on one's Spiritual Will.

A Godly-King's Will can remain fully conscious! It is already conscious in the fetal stage and possesses complete memory. Therefore, after birth, it can quickly cultivate to recover its original strength.

The Primal Chaos Pinnacle Will can generally retain the complete memory within a sliver of the True Spirit, but when it becomes conscious is uncertain—it may awaken during adolescence, or possibly only upon becoming a true god of void space or even an eternal true god, before gaining access to all memories.

As for a weaker Spiritual Will? Even the memories will be incomplete, and the chances of awakening are so low as to be negligible, with no awakening to past life memories in a lifetime. This also signifies the complete annihilation of the previous life.

"Just a hint of consciousness in the Primal Chaos Realm is enough for reincarnation. And with many life-saving Secret Techniques, even Godly Kings cannot ensure a clean kill of a Primal Chaos Realm cultivator," Luo Feng was well aware of this. The not-so-powerful school of the Duan Dong River Lineage in the Land of Origin had the Undying River Secret Technique.

Some more formidable and extensive lineages have even more life-saving Secret Techniques.

As long as one does not die instantly and can reincarnate immediately, after reincarnation, the connections to past causes are severed, becoming a new creature.

From the outside, it is impossible to discern the former identity.

A Godly King will also establish his own domain and have many concerns, and will not easily create such a formidable enemy. This is also why Godly Kings show a modicum of respect to Primal Chaos Realm cultivators.

"In the Land of Origin, occasionally there arises a genius that swiftly climbs the ranks, even some who become newly minted Godly Kings," Luo Feng thought, "But in reality, these rising existences may well be some old geezer who has reincarnated."

For example, his master, the Mountain sitting guest, had already reincarnated.

Like the Godly King ancestor who established the Heartshadow Sect, or the third-generation ancestor of the Duan Dong River Lineage, all publicly known information has them as having fallen! But if they didn't die completely and a sliver of strength quietly reincarnated, keeping their identity hidden, who would know?

When cornered with no way out by terrifying enemies, one can

reincarnate to change identity, completely severing ties with the past.

"Because of the Reincarnation Secret Technique, nearly all ancient Godly Kings have unlimited godly bodies," Luo Feng thought.

By relying on reincarnation, one can compensate for the shortcomings of their godly body.

Of course, reincarnation has some flaws, such as uncontrollable reincarnation identities and extreme vulnerability during the fetal stage— an embryo, with an extremely weak soul, even if it comprehends the Law of Primal Chaos, the strength it can exert is far less than a mere sliver of a Divine Power Incarnation of a Primal Chaos Realm cultivator. At this stage, it is very easy to die.

```

```

Thus, those who dare to reincarnate proactively, usually reach the Godly King Tier in terms of their realm.

A Godly King, at the very least, commands one branch of the Origin Great Dao! With a single thought, they can form 'complete universal operational rules' and can open up a universe of their own.

Merely by relying on the complete universal operational rules, they can make the supreme laws retreat. Their survival ability and strength far surpass those of the 'reincarnated ones from the Primal Chaos Realm,' and their risk of reincarnation is also extremely low.

"I hope I never have to use this reincarnation secret technique," Luo Feng mused, as he certainly did not wish to be reincarnated. Once reincarnated, his miniature universe would perish, and countless humans within it, except for an extremely small number who could be protected and sent to the Primordial Ancestor's miniature universe, over ninety-nine percent would be annihilated.

Moreover, his Divine Power Incarnation would also be annihilated, unable to contact his family. Nor could he observe the Great Dao of Life Origin. The soul enslavement on Morosa would also dissipate, and Morosa would become a free Sector Beast.

Only in a desperate situation would he choose to reincarnate.

"The Reincarnation Secret Technique is not difficult," Luo Feng found, having learned the technique after spending three days on it.

This secret technique, whose creator is unknown, has a very low level of difficulty to practice and can be learned by almost every being in the Primal Chaos Realm. Any force with even a slight background has records of this secret technique.

"'Primal Chaos Great Strength Diagram,' 'World Breaking Nine Blades,' 'Duan Mie,' 'Dong Hua,' 'Lie Yuan Technique'... Let's start comprehending these one by one," Luo Feng calmed his mind and began researching these secret techniques.

...

To the south of Yu Kingdom, there is a vast lake with an island in the center. On the island stands a city, larger in scale than even Huyang City.

"Whoosh."

The Divine Power Incarnation of the Marquis of Jiu Jang appeared in the sky, overlooking the simple, majestic city.

This city, composed by moving a great number of mountains, was bustling and prosperous, filled with countless citizens.

The Marquis of Jiu Jiang flew into the city, invisible to the ordinary guards, and silently reached a cave mansion within.

"Brother Yan Yu," the Marquis of Jiu Jang said with a slight bow.

The door to the cave house opened, and an old servant spoke, "Marquis of Jiu Jang, please."

The Marquis of Jiu Jang immediately entered and, inside an attic of the cave mansion, a four-armed man was sitting there carving a city model, his carving blade leaving secret patterns onto the model.

As he carved the model, identical secret patterns appeared out of thin

air on the city walls of the large lake island city.

The Marquis of Jiu Jang smiled as he watched from the side.

After a long time, the four-armed man put down the carving knife and looked towards the Marquis of Jiu Jang, "What's the matter?"

"Brother Yan Yu's skill in array formations is simply astonishing. Within the entire Land of Origin, there are very few in the Primal Chaos Realm who can match you," the Marquis of Jiu Jang flattered.

"It's nothing," the four-armed man replied, a hint of a smile on his face, "Just say what you are here for."

"Brother Yan Yu is aware that my fief borders Marquis Liu Yin's," the Marquis of Jiu Jang said, shaking his head, "Marquis Liu Yin is too domineering. He has now sent troops to snatch my entire Jiu Jiang Primal Chaos Prefecture. I'm no match for him, so I had to seek help."

"That's quite pitiful," the four-armed man nodded.

"Brother Yan Yu, if you help me, you only need to speak up, and Marquis Liu Yin will surely retreat obediently," the Marquis of Jiu Jang suggested, "Although he's fierce and domineering, he wouldn't dare to offend you."

The four-armed man shook his head, "If I intervene, but Marquis Liu Yin doesn't give me face, then wouldn't that be awkward?"

"He wouldn't dare!" the Marquis of Jiu Jang insisted, "Brother Yan Yu, you are a Direct Disciple of the Emperor, he wouldn't dare to disrespect you."

'Emperor' is a special title, only granted to the supreme rulers of past generations of the Flame Wind Ancient Country. Every Emperor possesses unfathomably powerful strength, and the Flame Wind Ancient Country's reputation has been personally forged by these Emperors over generations.

Apart from the Thunder Ancient Country, no other power would dare to provoke an Emperor! Even the Pinnacle Sector Beast of the Tianmu Kingdom would be eradicated if it challenged an Emperor.

"A Direct Disciple of an Emperor?" nostalgia flickered in the four-armed man's eyes.

Being taken as a Direct Disciple by an Emperor in the Flame Wind Ancient Country was his most dazzling moment. Back then, he was ambitious and even envisioned himself becoming a Godly King one day. But as endless eons passed, he became more insignificant.

Ultimately, he chose to leave the Flame Wind Ancient Country and establish a city on this secluded lake, living there alone.

"Among the Direct Disciples, I'm the weakest, at the peak of the Primal Chaos Realm," the four-armed man said with self-mockery, "I'm not even confident I can defeat Marquis Liu Yin head-on. Jiu Jiang, I can't help you."

In his agitation, the Marquis of Jiu Jiang pleaded, "Brother Yan Yu, are you so concerned about a mere Marquis Liu Yin? Without a fight, how can you know if you can't defeat him? Without a fight, how can you become stronger?"

The four-armed man's expression darkened, "Leave now!"

The Marquis of Jiu Jiang felt the world around him shift, and when his vision cleared, he found himself already back in the Jiu Jiang Primal Chaos Prefecture.

"With such a high-level mastery of arrays, I don't believe Marquis Liu Yin can defeat you. It's a pity, you're just too timid! Everyone who comes to ask for your help, you refuse to leave the city," the Marquis of Jiu Jang lamented.

...

Watching the city model in front of him, the four-armed man picked up the carving knife and continued his work.

"When I become a Godly King, that will be the time for my return," Yan Yu thought, looking at the city which was his most dedicated work. When this large city was carved to perfection, that would be the moment of his ascension as a Godly King.

Thank you to the new Alliance Hierarch '辰v華' for their support, as well as Alliance Hierarch old k for their continued generosity.

```
```

Chapter 104: Chapter 30 Morosa's Body Refining Method

Having become a Primal Chaos Realm cultivator, Luo Feng only left a Divine Power Incarnation outside while his true body was engaged in dedicated cultivation within the Star Tower.

"Reaching my current realm, I have come to realize the shortcomings of the two lineages I've inherited," Luo Feng sighed softly.

My mentor, the Mountain sitting guest, did not bestow upon me a Godly King Level inheritance! Clearly, my mentor did not think I was suited to follow the path of Artifact Refining.

The Duan Dong River lineage, however, my third-generation ancestor did leave behind three Godly King Level inheritances: "Duan Mie," "Dong Hua," and "Undying River," but all these were paths that the ancestor himself had tread.

What I need is a Godly King Level inheritance in the law of life and the Path of Destruction.

"For an eternal true god, the pursuit is to master the Laws of Primal Chaos," Luo Feng thought, "So choosing any few inheritances would be very suitable for oneself. But for beings in the Primal Chaos Realm, they have already mastered the Law of Primal Chaos, and what they need next is to comprehend the Origin Great Dao."

Luo Feng sensed the heavens and the earth.

He could glimpse the many Origin Great Daos faintly hidden behind the chaos! These Origin Great Daos, combined, form the supreme rules! The supreme rules dictate the operations of the entire world.

"A suitable Godly King Level inheritance, I don't have a single one,"

Luo Feng had no choice.

If it were another top eternal true god, faced with the recruitment of the Monarch of Yu Country, they probably would have submitted to apprenticeship long ago! With the Monarch of Yu Country's status, he could grant his disciple a suitable Godly King Level inheritance.

"My Godly King Level inheritance can only rely on Emperor Chu's Lineage of the Flame Wind Ancient Country for now," Luo Feng considered, "Now that I have become a Primal Chaos Realm cultivator, I wonder whether Emperor Chu Yu has made a breakthrough. He needs to break through before he can recruit me as a Guest Elder."

Luo Feng calmed his mind and refrained from overthinking.

Without a suitable Godly King Level inheritance, I can only begin with some suitable inheritances for Primal Chaos Realm cultivators for the time being.

"The 'Primal Chaos Great Strength Diagram' demands increasingly higher Artifact Refining Skills as it progresses, and the resources needed for the fourth refinement of my Perfect Divine Body will also be incredibly vast. I'm too poor, I simply can't afford the cultivation!" Luo Feng had already half given up on this technique.

On the one hand, the upper limit of this inheritance is not high! After all, it's only a technique at the level of the Primal Chaos Realm.

On the other hand, the demands for Artifact Refining Skills are too high. At the stage of an eternal true god, with my talent and guidance from Shang Tianyan to resolve my confusions, I was still able to achieve three Body Refinements. But at the stage of the Primal Chaos Realm, the Artifact Refining Skills undergo a qualitative change, and I don't plan to spend too much effort on it.

Another key point is that the resource requirements are far too great.

The resources I struggle to earn should be spent on Emperor Chu's Lineage of the Flame Wind Ancient Country's inheritances instead, as good steel should be used on the edge of the knife.

"The 'World Breaking Nine Blades' is worth practicing for a longer period, as this blade technique is also in the direction of the Path of Destruction. It's a pity that it's only a technique at the Primal Chaos Realm level," Luo Feng put some effort into studying it.

The "World Breaking Nine Blades" in the Primal Chaos Realm consist only of three blades.

They are 'Primal Chaos Blade,' 'Heaven and Earth Blade,' and 'World-Breaking Blade.'

The final style, 'World-Breaking Blade,' seeks to break through all spatial layers, utterly shattering the entire world, creating a crack in the braided cage. Unfortunately, the 'World-Breaking Blade' can only break through most of the spatial layers, and still can't break the cage.

The entire technique, "World Breaking Nine Blades," can only represent the creator's pursuit.

"Even for a Godly King, breaking the braided cage is not an easy task," Luo Feng continued his meticulous research.

Having reached the Primal Chaos Realm, even the space of inheritance from the Duan Dong River lineage is of little help.

This inheritance space primarily aims to cultivate disciples into eternal true gods. It would already be a miracle to cultivate a Primal Chaos Realm cultivator. As for going even higher? The space of inheritance only offers some information and guidelines.

...

Inside the City Owner's Mansion, in the villa where Luo Feng resided.

Morosa was eating roasted meat, and looking at Moyu Qingyan not far away, he couldn't help but curse, "How can you be so foolish? Not even the Basic Laws do you comprehend yet? Compared to your master, your talent is lacking by who knows how many times."

"I dare not compare myself to my master," Moyu Qingyan could not help but say, "Actually, I'm only one step away from the 'Time Law'

now, and within these more than thirty epochs of time, nearly grasping the Ten Fundamental Laws, I think that's not too bad?"

"Shut your mouth."

Morosa scolded angrily, "Don't you think about how much effort I've put into teaching you? The Time Law alone, how many times have I explained it to you? It must have been over ten thousand times, right? You fool."

Moyu Qingyan quietly listened.

He was very grateful to Lord Luo Sa in his heart. After all, his master had not given him guidance for over thirty epochs, but Lord Luo Sa had patiently guided him time and again. Only recently did he learn that Lord Luo Sa was also a powerful eternal true god, even stronger than Commander Moli Xiao and Xue Yun, a protector of his master.

That such a strong person would provide him with long-term careful guidance, Moyu Qingyan was very touched.

Usually, a mentor would not be so dedicated.

In his heart, Moyu Qingyan had already begun to regard Morosa as his mentor.

"Crunch, crunch," an irritated Morosa quickly devoured the roasted meat.

"Morosa, come in."

Luo Feng communicated telepathically and then moved Morosa into the Star Tower; naturally, Morosa offered no resistance.

Inside the Star Tower.

"Master, did you call for me?" Morosa chuckled, "In front of Moyu Qingyan, I can hit and scold as I wish, but in front of the master, I must be cautious and humble."

"I want to see just how big a gap there is between me, a newly advanced Primal Chaos Realm cultivator, and you, a deeply

cultivated Primal Chaos Realm cultivator," Luo Feng said.

"To compare with me?" Morosa couldn't help but say, "Master, you've only recently made your breakthrough, and your godly body is still far from the limit."

Such a big gap, why compare?

"I know I can't win; I just want to feel the gap," Luo Feng said.

"Hmm."

Upon reflection, Morosa said, "I won't burn any Divine Power or use any Primal Chaos Realm moves, and I'll just rely on my body to compare with the master. This way, I should be able to exercise about ten percent of my strength."

If Divine Power were to be burned, his strength would soar by several times over. And if he were to use Secret Techniques, there would naturally be an increase.

"Alright." Luo Feng showed no mercy. With an outstretched hand, the Bloodshadow Knife appeared in his palm.

Boom!

Luo Feng executed an all-out burning of Divine Power with "Duan Mie," utilizing the skills of the Primal Chaos Laws that he was still capable of learning. It was just that the more advanced techniques were beyond his ability to master.

"Come on, come at me," Morosa confidently beckoned.

In an instant, Luo Feng swung out a Primal Chaos Blade Light, which even severed the operation of the Primal Chaos Laws—within the area covered by the blade technique, the Primal Chaos Laws were already cleaved apart, opening up a deep, dark rift that cut through several layers of space.

This strike was also the first blade of the "World Breaking Nine Blades" within the Primal Chaos Realm—the Primal Chaos Blade.

This blade, based on the Primal Chaos Laws and containing some mysteries of the destruction origin, was still rather elementary. Luo Feng had managed to master it after spending just a little time on it.

But the second and third blades of the sequence were far beyond Luo Feng's current accumulations in the field of destruction, making them much harder to practice.

"Pfft!"

Morosa reached out with his plump hand and forcefully resisted Luo Feng's strike.

His palm's skin slightly indented, effortlessly dissipating the power of the blade.

"Master, that's quite powerful. If it were twice as strong, it might injure me," Morosa shouted.

"That shouldn't be the case," Luo Feng said, puzzled as he sheathed his knife.

"Why have you stopped, Master?" Morosa asked in confusion.

Luo Feng shook his head: "I haven't broken through for long; that strike was the maximum strength I could muster."

Morosa blinked.

He had already said there was no need for a sparring match, but the master insisted on proceeding! Now that the master is somewhat embarrassed, would he take it out on him?

"That shouldn't be the case," Luo Feng couldn't help but say; "Although my godly body is far from reaching its limit, my Divine Power is quite pure, surpassing that of a normal Primal Chaos Realm cultivator. This blade with maximum burning of Divine Power... how could it not even break your skin?"

If Morosa used a Body Protection Secret Method or burned Divine Power, Luo Feng would find it quite normal not to be able to break through his skin.

But to not even break it with a mere ten percent of strength? Would that mean that even if Luo Feng grew to his limit, he would only barely be able to injure Morosa?

"Well, that's because...," Morosa began to explain, "I'm not a normal cultivator; I'm a Sector Beast. My body naturally trains to be incredibly resilient, far surpassing any Body Refinement Technique the master has. That's why the master couldn't break my skin."

Morosa had always looked down on the master's Body Refinement Methods.

"Far surpassing my Body Refinement Methods?" Luo Feng could understand; after all, Morosa was a being born with a complete grasp of the destruction origin, so it stood to reason that his body training method would surpass the "Primal Chaos Great Strength Diagram."

"With no precious materials consumed, how do you refine your body?" Luo Feng inquired.

"Master, what is Body Refinement?" Morosa looked at Luo Feng; "For instance, the most basic unit of your cultivators' bodies is Divine Power. For Sector Beasts, it is the Power of Sector Beasts. How to more efficiently combine 'Divine Power' to greatly enhance defense, strength, and speed... that is called Body Refinement."

"There's more than one method for Divine Power to combine more efficiently.

The so-called refinement of the godly body as if it were a Weapon Secret Treasure is merely one path." Morosa looked at Luo Feng, "I don't need resources; I just need to alter the structure formed by the Power of Sector Beasts in accordance with the enlightenment from the origin of destruction to naturally make the entire body stronger."

"However, this method is not suitable for you, master. I am a Sector Beast, containing a realm within my body. This is the Body Refinement Method that nurtures 'realms.'" Morosa explained.

Luo Feng then understood.

Indeed.

The essence of body training is making Divine Power combine more efficiently. And treating it as an Artifact Refining is just one of the paths.

"Let me have a look at your method," Luo Feng requested.

"Sure." Morosa extended his hand, strands of Power of Sector Beast flew out, beginning to combine, "But even if you watch, master, you won't be able to practice it. This Body Refinement Method is based on the core of a 'realm.'"

The seemingly common Power of Sector Beast combined intricately, and such structure was so beautiful that Luo Feng marveled at it.

Just like many grains of sand combined to form a weapon capable of tearing through the starry sky.

Changing the most fundamental structure eventually makes the whole body very strong. This process doesn't require consuming massive resources, merely a combination of the Power of Sector Beast.

This is much more sophisticated than refining the body into a Secret Treasure.

"Marvelous," Luo Feng exclaimed, "I've heard that some ancient Godly Kings had unfathomably mysterious godly bodies. They probably did it in a similar way."

Morosa's such fine Body Refinement Techniques had only been a subject of hearsay to Luo Feng! His master, Mountain sitting guest, and those of the Duan Dong River lineage, also only had some records about such inheritance, which was considered very precious even among the Godly King Level inheritances.

"This path is one I can try," Luo Feng felt instinctively that he could replicate Morosa's Sector Beast power structure to a degree of seventy to eighty percent.

The main issue was his lack of a 'realm' and not being as advanced in the Path of Destruction as Morosa.

But as a Perfect Divine Body, with the ability to be Formless and Intangible, he could transform at will, even Divine Power into the Power of Sector Beast. He could fully mimic and learn, drawing experience from it.

Chapter 105: Volume 2, Chapter 31, The Path of Life Spirituality

Luo Feng extended his hand, and strands of Sector Beast Power appeared, quickly combining to form a seemingly perfect structure.

"Hmm?" Morosa looked on in surprise.

His master's Divine Power could also transform into the Power of Sector Beast, which Morosa had long known. But this body refinement breakthrough had only been achieved by him after a long period in the Primal Chaos Realm.

"It looks similar on the surface, but there are some differences inside," Morosa observed carefully and said.

"A miss is as good as a mile," Luo Feng nodded, "My realm in the destruction of the origin is not as good as yours; I can't mimic it perfectly."

Only by fully understanding the composition of a substance can one transform perfectly; otherwise, one could only disguise its surface at most.

For example, he had seen a Godly King up close; the surface disguise could be very similar, but the internal differences were vast.

"Moreover, it lacks 'realm'. The 'realm' within your body is the core of the Body Refining Method; it's the key to why your body is so strong," Luo Feng shook his head, knowing that no matter how he transformed, he could not produce a realm.

Luo Feng looked at the structure of Sector Beast Power floating above his palm: "It seems perfect, but in reality, it is unstable and could collapse at any moment."

Morosa watched from the side.

He couldn't assist his master; his growth came from eating and drinking naturally. The thought of researching secret techniques gave him a headache.

"You can go about your business," Luo Feng waved his hand, sending Morosa away.

Luo Feng was alone, silently observing the floating structure of Sector Beast Power before him.

It was so beautiful!

The Body Refining Method that Morosa, a darling of destruction origin, had mastered... was perhaps considered among the very top of its class across the entire Land of Origin.

"Buzz."

Luo Feng extended his hand to disperse the Sector Beast Power structure and began to form it with Divine Power.

The Divine Power formed an identical structure, but it seemed so strange.

"No, this is completely wrong," Luo Feng shook his head.

...

Alone inside Star Tower, Luo Feng attempted to modify, simplify, and integrate his ideas, using all means but failing to come up with a stable Divine Power structure.

"With insufficient realm, relying on mere imitation to research a set of Body Refining Methods is indeed wishful thinking," Luo Feng said with a light smile, dispersing the dozen or so Divine Power structures in the air.

"I will need to accumulate enough realm and then explore slowly."

Luo Feng looked toward the distance.

In the corner of this layer of space, a small space was sealed off, where fifteen Primal Chaos Layer Creatures were flying joyfully. As long as they were fed a sufficient amount of Primal Chaos Crystals, they lived carefree lives.

In the past, Luo Feng often observed Primal Chaos Layer Creatures, but after breaking through to the Primal Chaos Realm, their value to him had diminished.

"Hmm?" A thought struck Luo Feng.

"Primal Chaos Layer Creatures, their structure is incredibly simple, and I have studied them many times," Luo Feng pondered, "I can try to transform."

The 'Formless and Intangible' ability of the Perfect Life Form had failed on Morosa's Body Refining Method, but now Luo Feng had his sights set on the Primal Chaos Layer Creatures.

"Transform."

Luo Feng pointed his finger.

Immediately a Silver Droplet formed, this Silver Droplet was incredibly stable.

"I understand the Primal Chaos Laws; this Silver Droplet Creature is the one I have studied the most, and it is originally formed from droplets of silver," Luo Feng revealed a smile. Primal Chaos Divine Power surged, and one after another Silver Droplet formed.

A total of one hundred and twenty Silver Droplets floated.

Luo Feng smiled as he watched, but gradually his brows furrowed.

"This is wrong."

"They can't fuse?" Luo Feng tried to touch the Silver Droplets together, but they still couldn't merge, "A real Silver Droplet Creature would actively fuse together, and its power would undergo a qualitative change. But why can't these Silver Droplets I transformed merge?"

"Why can't they merge?" Luo Feng pondered, "Could it be that I haven't thoroughly researched their essence?"

To fully understand is to perfectly transform.

In the epoch of the Primordial Cosmos, he had confirmed his capability of Formless and Intangible.

"This Silver Droplet has a relatively simple structure, what else have I not seen through?"

Luo Feng beckoned with his hand, and immediately captured the longest Silverlight Creature formed from 1,091 Silver Droplets. In front of Luo Feng, now in the Primal Chaos Realm, this Silverlight Creature had no ability to resist.

It was rapidly split into a Silver Droplet.

"Whoosh."

With a gentle swipe of Luo Feng's finger, the Silver Droplet was sliced apart, dissolving into silver mist and visualized Primal Chaos Laws.

"This silver mist is just a condensed form of Chaotic Power. This visualization of the Primal Chaos Laws... Hmm?" Luo Feng's expression changed, as he immediately noticed the issue.

Previously, as an eternal true god, he determined at a glance that this was a visualization of the Primal Chaos Laws.

But now, having grasped the Primal Chaos Laws and become part of the Primal Chaos Realm, he recognized the problem.

"This is indeed a visualization of the Primal Chaos Laws, containing the characteristics of Primal Chaos Gold and Water of Primal Chaos. But it has a hint of spirituality," Luo Feng realized.

He had simply copied the Primal Chaos Laws visualization he understood directly.

Yet in reality, the Primal Chaos Laws visualization within the Silver Droplets seemed 'alive'.

```

"As if it had come alive?"

"Possessing spirituality of Primal Chaos Laws?"

Luo Feng's complexion changed slightly.

...

In the Land of Origin region of the Primordial Cosmos, an incarnation of Luo Feng's Divine Power headed straight for the Primordial Cosmos.

The Primordial Cosmos, at the Source Ground, that core location.

"Great Dao of Life Origin."

Luo Feng had come here again, looking up at the towering Great Dao of Life Origin.

It had different 'aspects', and from different perspectives, it appeared differently; after grasping the Primal Chaos Laws, Luo Feng felt that understanding the Great Dao of Life Origin seemed not so difficult anymore.

"My previous realm was too weak, I actually thought that Silver Droplet Creatures contained only the complete Primal Chaos Laws. I was wrong, so wrong." Luo Feng, facing the vast Great Dao of Life Origin, knew he was mistaken.

This endless twisting dragon before him could be viewed from various angles, and one could also see a winding dragon bone connecting the whole body.

The information contained within this winding dragon bone allowed Luo Feng to vaguely see...

Flowers blooming.

Fuzzy creatures breaking out of their shells.
```

An ancient tree that had lived for countless years, one day, suddenly cultivated spirituality; it came alive and became a plant life.

"The Spirit of Life is the starting point of life."

"A touch of the Spirit of Life can even bring a stubborn stone to life, turning it into a rock-type creature."

"Silver Droplet Creatures don't have a clear consciousness, they can't think or communicate. But the essence of their life is very high," Luo Feng pondered, "even the most basic element of their life structure—a Silver Droplet—contains Life Spirituality."

Like humans, like many animals.

In their blood, bones, muscles, and so on, there is no spirituality. Only when a soul merges with the body does it count as a life.

Without a soul, it is just a walking corpse.

Even True Gods, true gods of void space, eternal true gods... each one is like this; the soul is fundamental!

"Some plant life cultivate a bit of spirituality from the whole plant."

"Whereas Silver Droplet Creatures, each Silver Droplet of theirs contains Life Spirituality. This makes the life that finally comes together extraordinarily powerful."

"I originally thought, its core was just the complete Primal Chaos Laws."

"Now I know, its core is the Primal Chaos Laws merged with the Spirit of Life, it's just that the spirituality isn't particularly high," Luo Feng looked at the dragon bone of this endless coiling dragon before him.

Facing the Origin of Life, Luo Feng understood how terrifying it could be if the Life Spirituality were strong enough.

A touch of spirituality can animate a stubborn rock.

If every drop of Divine Power contained spirituality, how terrifying would that be?

"If it harbors strong spirituality, each portion of Divine Power would seem to come alive, fundamentally transforming. The strength, speed, and resilience of the godly body could soar rapidly.

The godly body itself would become immensely powerful, virtually unshakable," Luo Feng thought, "and, if willing, each part of my Divine Power could develop its own consciousness, capable of giving birth to a new life."

A single drop of my blood, guided by my will, can form another strong and vivid life.

These vibrant lives are limited by the amount of power I bestow upon them! The more Divine Power I bestow, the larger this independent life becomes.

"If I were a Godly King, I could differentiate my flesh and blood, and perhaps create thousands of Primal Chaos Realm incarnations," Luo Feng mused, "The flesh and blood I can divide are parts of my godly body."

"If I divide it out, I too would become weakened."

The pathway of Life Spirituality.

The so-called 'Animating Life', 'Creating Powerful Incarnations' are merely auxiliary uses. For those who have become Godly Kings along this path, their godly bodies are the most terrifying.

Their godly bodies are an upgraded version of the Silver Droplet Creatures!

Parts of their flesh and blood can be condensed to form weapons! Destroying them is as difficult as destroying emperor level Secret Treasure Weapons!

"With my humble realm, I can only glimpse a part of the path of Life Spirituality," Luo Feng looked at the endless coiling dragon before him, "Perhaps there are other terrifying aspects."

That Ancestral God of the Snow Realm had mastered one of the branches of the Great Dao of Life Origin. Its ability to preserve life reached an unbelievable extent; despite immense sins, it still lives to this day.

"The Great Dao of Life Origin has many branches. The more branches you master, the more terrifying you become. If you can merge many branches into one... mastering the complete Great Dao of Life Origin," Luo Feng gazed up at the towering endless coiling dragon.

An existence that has mastered the full Great Dao of Life Origin is just like this endless winding dragon.

Such a being is the embodiment of the concept of life itself.

"Life Spirituality." Luo Feng sat cross-legged, carefully observing the vast Origin Great Dao, studying the dragon bone of the endless coiled dragon.

Luo Feng knew his realm was shallow; he was only researching some information similar to the spirituality of the 'Silver Droplet Creatures'. When he could perfectly change the Silver Droplet Creatures, it would represent a small achievement on the path of 'Life Spirituality'.

Days went by.

In Luo Feng's eyes, there was only that dragon bone containing endless spiritual information, continuously absorbing the information.

The more he understood, the deeper his understanding of the spirituality of the Silver Droplet Creatures.

Only time would tell how long it had been.

"I should be able to change it now," Luo Feng, with a certain level of understanding of Life Spirituality, naturally gained confidence.

```
```

Chapter 106: 2 32 Transformation of Strength

A layer of space within the Star Tower.

Luo Feng sat cross-legged, stretched out his hand and gently tapped, and a wisp of Divine Power transformed, bringing forth a droplet of silver liquid.

This droplet of silver was an absolute spherical shape, its surface marked with traces of the Primal Chaos Laws, imbued with the rhythm of life. It was like adding the finishing touch to a dragon in Earth's mythological stories—once it contained 'Life Spirituality,' the essence of this silver droplet had completely transformed.

"How magical," Luo Feng observed as the silver droplet flowed in his palm.

After fully comprehending the essence of the 'Silver Droplets,' Luo Feng found that his consciousness naturally merged with them as he created them with the formless and intangible ability of the Perfect Divine Body.

The silver droplet felt like it was a part of his own body.

"That's right, even though Silverlight Creatures have extremely low intelligence, they are capable of feelings like joy, anger, attack, and so on. This silver droplet is capable of carrying consciousness, albeit an extremely weak one," Luo Feng waved his hand.

A mass of Primal Chaos Divine Power flew out, transforming into thousands of silver droplets.

Each of the silver droplets possessed spirituality. Upon manifesting, they instinctively sought to merge. Just like how human fingers

naturally work together, these silver droplets naturally combined!

"This is a successfully transformed silver droplet." Luo Feng smiled.

To carry consciousness and merge naturally were the abilities of the silver droplets.

"Hum."

Thousands of silver droplets merged together, akin to numerous parts forming one complete machine, the power instantly undergoing a qualitative leap! They easily transformed into various weapons: silver blade light, silver sword light, silver long sticks, silver nets...

"Just in terms of strength and speed, it's already comparable to Yong Hu of the unlimited godly bodies. It is only that the moves are somewhat clumsy." Luo Feng continued to sprinkle Divine Power and produced a large number of silver droplets.

The silver droplets kept converging, three thousand, five thousand... however, there was no significant change in power. When they accumulated to ten thousand, they formed a stream of silver liquid.

The might of this stream of silver liquid rose again.

"This Silverlight Creature is indeed peculiar, capable of continuous quality changes through accumulation?" Luo Feng, curious, continued to produce a massive amount of silver droplets.

Hundred thousand, million... yet the power showed no obvious changes.

Luo Feng painstakingly transformed silver droplets, and each one embodied weak Life Spirituality. Even such weak spirituality required some thought for Luo Feng. From initially producing thousands at a time, he grew more adept until he could create millions with a wave of his hand.

Finally—

When the count reached one hundred million, another qualitative change occurred!

"Boom~~~"

A silver river hung in the void.

"One hundred million droplets perfectly merged into a whole. Even for me to destroy it would take some effort," Luo Feng swiped a hand across the silver river. The silver river was incredibly resilient and merely trembled slightly, dispersing. "It's comparable to a newly advanced Primal Chaos Realm being."

Of course, it was only comparable to the strength of normal moves. Once a newly advanced Primal Chaos Realm being burned its Divine Power at its limit to fight desperately, increasing its power by several folds, it could still suppress this silver river.

"Can it continue to merge?"

Luo Feng tried.

Two hundred million, three hundred million, one billion...

Luo Feng was patient because the last qualitative change was from ten thousand to one hundred million—a multiplier of ten thousand times!

As Luo Feng transformed again and again, his understanding of the silver droplets deepened, and the quantity he could change increased more and more. In a sweep, he could produce tens of millions, hundreds of millions, even up to a billion droplets. But the silver river still showed no qualitative change.

One trillion droplets! Two trillion...!

As a Cultivator who had practiced for endless eons, Luo Feng was not in a hurry. Even if just to deepen his understanding of 'Life Spirituality,' he continued to produce massive quantities of droplets.

Finally—

When he accumulated to the level of 'ten quintillion' droplets, the originally vast and scattered silver river naturally united to form a perfect whole.

"Whoosh whoosh whoosh~~~~"

A broad silver river, hundreds of kilometers long, flowed mightily within the Star Tower.

The strength of it amazed Luo Feng.

"Go!"

The mighty silver river suddenly thinned, transforming into a silver blade light tens of thousands of kilometers long! This was also its normal state.

"At this moment, it can be large or small," Luo Feng felt in the depths of his being that it was utterly 'perfect.' Small, it could fit within the palm of a hand. Large, it could span across heaven and earth.

"It also far surpasses the previous might," Luo Feng felt that after another leap in toughness, strength, and speed, even with clumsy moves, it could be comparable to the casual moves of an ordinary Primal Chaos Realm being.

Ordinary Primal Chaos Realm beings represented the most basic strength of the Primal Chaos Realm.

Those who've just broken through? They tend to lie low like Luo Feng is currently doing, cultivating Combat Secret Techniques, Life-Saving Secret Laws, Body Refining Secret Techniques and so on, beginning to solidify their strength in all aspects.

Normally, those who roam about, ordinary Primal Chaos Realm beings are the weakest. Such cases are rare, perhaps one in ten Primal Chaos Realm beings is at this lowest level.

Because beings of the Primal Chaos Realm have infinite lifespans, even if they are part of a Bloodline Cultivation System, they usually attain the 'Middle Layer of the Primal Chaos Realm' standard given enough accumulation.

For a Primal Chaos Realm being with an unlimited godly body, once the godly body grows to its limit, that being is at the Middle Layer standard of the Primal Chaos Realm. If they go on to cultivate some

powerful Secret Techniques and their realm accumulates, their abilities improving in all aspects, only then can they be considered at the top of the Primal Chaos Realm.

The pinnacle of the Primal Chaos Realm is quite impressive indeed! Marquis of Jiu Jang is one such being.

One step further! To touch the edge of the Godly King! To master more than 99% of a branch of Origin Great Dao, leaving only the final breakthrough as the bottleneck. With such strength, one could be considered at the Pinnacle of Primal Chaos Realm. Marquis Liu Yin is at this level.

Under normal circumstances, the Pinnacle of Primal Chaos Realm is the strongest level for many second-rate and third-rate countries of Primal Chaos Realm beings.

Only under special circumstances, such as Primal Chaos Realm beings from the two Ancient Countries who have cultivated secret laws surpassing that of 'Godly King Secret Techniques,' like Luo Feng's Lie Yuan Technique which also exceeds the Godly King Secret Techniques.

The elite of the Primal Chaos Realm from these Ancient Countries surely have a few who can transcend the 'Pinnacle of Primal Chaos Realm.'

"The silver river of 108 trillion droplets finally has the strength of an ordinary creature of the Primal Chaos Realm with a simple wave of the hand."

"Normal creatures of the Primal Chaos Layer indeed have clumsy moves and low intelligence. However... this is created by me, and it is my consciousness that controls it. My realm is certainly not considered low," Luo Feng revealed a smile.

"Slash!"

With a single thought.

A vast expanse of silver blade light appeared in the air, carrying terrifying high speed, it instantly cut through the operation of the

Primal Chaos laws, tearing apart numerous spatial layers, and created a black spatial ravine.

"Ordinary beings of the Primal Chaos Realm could only manage so much with a full strength blow using all their might to burn Divine Power, I suppose," Luo Feng thought. "It also matches about two to three times the power of my previous all-out effort."

"Can it continue to stack up?"

Although he felt it was perfect, Luo Feng still continued to try.

Now with one gesture, he could create hundreds of millions of silver droplets.

The number continued to increase...

...

Luo Feng treated it as a form of cultivation! Even though the Perfect Divine Body had not grown to its limit, it was still quite immense. Luo Feng naturally could transform into a vast number of silver droplets.

Every '108 trillion droplets' of silver blade light, he regarded as one unit.

Luo Feng transformed half of his current godly body into silver droplets! He had transformed into '1.2 billion units' of silver blade light, but these silver droplets could no longer fuse together or undergo qualitative change.

"It seems that they cannot undergo further qualitative change," Luo Feng realized.

At this moment, a vast silver ocean appeared within this level of space in the Star Tower, with Luo Feng sitting cross-legged atop this vast silver ocean.

This was the silver ocean formed by the gathering of 1.2 billion units of silver blade light.

"These silver droplets have a few flaws, the first being that they very easily get hungry! And they can't absorb power from heaven and earth; they must rely on Chaotic Power, Primal Chaos Crystals, or even more pure Primal Chaos Divine Power," Luo Feng pondered. "Fortunately, my miniature universe supplies endless Primal Chaos Divine Power at all times.

Maintaining these silver rivers is fairly easy."

"The second flaw is that they are not Divine Power and can't drive Weapon Secret Treasures."

If ordinary body refining methods are just about Divine Power exerting its might more efficiently, fundamentally, it is still Divine Power.

But when Luo Feng transformed Divine Power into 'silver droplets', even the most basic unit was completely changed! From Divine Power into the form of silver droplets.

Silver droplets can't autonomously absorb the Power of Heaven and Earth, can't drive Weapon Secret Treasures, and can't even burn like Divine Power.

"The third flaw is that they can't burn like Divine Power. Their normal state's power is already their limit," Luo Feng thought to himself.

Creatures of the Primal Chaos Layer still have quite a few weaknesses.

"But all of these weaknesses cannot cover up their advantages," Luo Feng was excited. "A single unit of Silverlight Creature performing the 'Primal Chaos Blade' is comparable to an ordinary being of Primal Chaos Realm at the limit of burning Divine Power in a strike."

"What about ten units then?"

With a single thought from Luo Feng.

The immense silver ocean flew out with indeed ten streaks of blade light.

Ten streaks of blade light performed the same 'Primal Chaos Blade', the might terrifying, as if ten ordinary beings of the Primal Chaos Realm were desperately burning Divine Power.

"For me, I need to divide my attention and multitask. My Spiritual Will is strong enough now, and my soul is strong enough...and the 'Primal Chaos Blade' is quite a simple move," Luo Feng tried it out.

In mid-air, streaks of blade light rose up, continuously practicing the 'Primal Chaos Blade'.

The Star Tower was extraordinarily stable, allowing Luo Feng to practice his moves to his heart's content.

Eventually, a total of three hundred streaks of blade light rose!

Three hundred streaks of silver blade light, each one immense, each performing the Primal Chaos Blade. As if three hundred ordinary beings in Primal Chaos Realm were giving their all in a full-strength strike... the might was already startling to Luo Feng.

"Boom~~~~"

Even if the skill level was low, the combined might of three hundred streaks of silver blade light forcibly tore through a dense multitude of spatial layers!

"I have discovered a new body refining route—the Law of Transformation. Transforming into a myriad of forms, possessing the traits of special creatures," Luo Feng was very excited; of course, this Transformation Method was unique to him.

The ability to be Formless and Intangible was what made Luo Feng's Divine Power so easily transformable.

"The Law of Transformation is not a single Dao," Luo Feng faced the Great Dao of Life Origin directly and understood this clearly. "The ultimate form for a body should be understanding the profound rules that make the godly body powerful, as if one's very self is the convergence of the entire Dao."

"I am currently only in the Primal Chaos Realm, and I haven't even

grasped a branch of the Dao. A lot is lacking to seek the ultimate," Luo Feng was self-aware.

In the early stages before mastering the complete Dao, being able to transform in endless ways holds many advantages and helps in contemplating the Dao.

...

"Hoo," with a thought from Luo Feng, he teleported Morosa into the Star Tower.

"Master," Morosa looked at his master eagerly.

"Morosa, let's have another sparring match," Luo Feng said to Morosa with a smile.

Morosa was stunned.

Another sparring session?

Previously, even the master's full-strength blow could not break the skin of his palm. That was when he had completely restrained his own power.

"Master, why don't we wait until your godly body has grown to its limit before we spar?" Morosa couldn't help but say, the gap was too large. There was no point in sparring; one could stand there and let the master hit without breaking the skin.

Chapter 107: 2 volumes 33 chapters, one force defeats 10 opponents

"Right now," Luo Feng said.

"If the master demands, then let's have the contest," Morosa had no choice, who asked for the master to be the master?

"Master, I will not burn Divine Power, nor will I use any Primal Chaos Realm moves, I will purely engage using my body," Morosa said, this way he would only exert about ten percent of his strength.

Luo Feng smiled and nodded, "Good."

As he spoke, Luo Feng waved his hand.

Whoosh Whoosh Whoosh!!!

In the dark space of this level of the Star Tower, three hundred silver blade lights hovered in the air, each about ten meters long.

"Morosa, you better be ready," Luo Feng said with a smile.

"Bring it on," Morosa said, looking at the ordinary three hundred blade lights and couldn't help muttering to himself, "Fancy moves, weak godly body, weak realm, no threat at all."

"The blade technique I am using is the 'Primal Chaos Blade' which is the first blade of the 'World Breaking Nine Blades' in the Primal Chaos Realm, containing a hint of the aura from the Great Dao of Destruction Origin," Luo Feng said cheerfully.

Morosa still wasn't concerned, Destruction's Origin? The master's

mysteries of destruction's origin were all learned from him!

Boom! Boom! Boom! Boom! Boom! Boom!

The three hundred blade lights, each formed from 'a hundred and eighty billion Silver Droplets,' even in their normal state are tens of thousands of kilometers long. But now, shrunken to about ten meters, their power was intensely concentrated, making them even sharper.

The 'World Breaking Nine Blades' in the Primal Chaos Realm aimed to split open the cage!

Luo Feng had watched Morosa demonstrate the mysteries of destruction's origin and had also vaguely comprehended some of the mysteries hidden between heaven and earth in the Great Dao of Destruction's Origin. He knew that the Path of Destruction contained many branches.

The 'World Breaking Nine Blades' pursued one of the branches of destruction's origin, the 'Chop and Split' branch.

This branch's name was not known to Luo Feng; it was a name he came up with himself.

During his comprehension, he naturally understood the many characteristics of this branch, which sought to split everything in the universe 'in twain'! It contained endless sharpness, aiming to split apart all hindrances.

Luo Feng was ultimately a swordsman, and this branch suited his temperament well, so naturally, he spent most of his thoughts on it.

At this moment, the three hundred blade lights were peerlessly sharp, converging like a rolling river of blades, embodying the force of three hundred ordinary Primal Chaos Realm beings burning their Divine Power in a desperate strike.

"Rumbling～～～"

Effortlessly powerful!

Dense masses of spatial layers were instantly destroyed, its force

comparable to the final blade of 'World Breaking Nine Blades,' the 'World-Breaking Blade.'

At close range, Morosa was so startled that his eyes bulged, his Divine Power within violently burst forth, surging violently, his godly body's might greatly increased, and then he was engulfed by the river of silver blade light.

Morosa was blasted forth like a streak of flowing light, "bang", slamming fiercely against the inner wall of the Star Tower. His skin was covered in numerous wounds, his bones broken in many places, his body terribly mangled, and his face horribly disfigured.

The previously simple and honest face had become much uglier. He fell down from the inner wall of the Star Tower, his injuries quickly disappearing, and both his eyes returned to normal as he exclaimed in disbelief, "Master, how long has it been? You can already match my full-strength strike when I'm burning Divine Power?"

"How is that possible; I've been in the Primal Chaos Realm for more than Five Eras. My body has grown to its limit, and I still possess various secret techniques! How long has Master broken through to catch up with me?" Morosa couldn't believe it, nor could he accept it.

Wasn't he naturally possessing the mysteries of destruction's origin, and now he'd been caught up to in terms of cultivation?

Luo Feng watched him with a smile, three hundred blades of light floating around.

"I've always said, you need to understand, to learn to research," Luo Feng teased.

"Understand? Study? I can't learn that," Morosa couldn't help saying, "Master, now I have to go all out."

At that moment, as Morosa stood there, the surrounding Void twisted, his body seemingly transforming into a dark abyss, causing everything in all directions to twist and shatter. The shattering of the Void spread continually, also reaching towards Luo Feng.

"Master, just because a technique is powerful doesn't mean it's strong

—realm is also very important," Morosa said.

"Oh?"

Luo Feng watched Morosa at that moment.

Morosa himself seemed like a dark abyss, his figure becoming indistinct.

"Slash!"

Luo Feng did not hesitate; the three hundred blades of light, carrying the force that split everything, also sliced toward the twisted dark endless abyss before him! This endless abyss shattered and twisted everything around, and Luo Feng's blades' force was crushed, twisted, and devoured.

Most of its power was destroyed and ground up, with only a small part remaining which was swallowed by Morosa, leaving him completely unharmed this time.

"Master, if your blade technique is just powerful, then its weakness is too obvious," Morosa, incarnated as the dark abyss, transmitted his voice, "With the increase in realm, some mighty Primal Chaos Realm techniques are quite mysterious, and your power is likely to be mostly dissipated or redirected."

"As a Sector Beast, I am quite skilled in the art of survival. But in terms of realm, I'm far from reaching the threshold of a Godly King. I'm probably inferior compared to the deeply accumulated Marquis of Jiu Jiang," Morosa said.

He considered himself somewhat stronger than the Marquis of Jiu Jiang because of the foundation of a Perfect Life Form.

Just in terms of realm, after all, he had only been in the Primal Chaos Realm for a bit more than Five Eras, without having consumed any formidable treasures or godly body, and thus naturally his grasp and understanding of the mysteries of the destruction's origin were not extensive.

"I know."

Luo Feng nodded, "According to the intelligence, Marquis Jiu Jiang can hide in the Void, his body existing between the real and the illusory. Indeed, my three hundred blades of light would have a hard time fully striking him. Marquis Liu Yin is even more formidable; though I can now approach his strength in terms of technique power, I estimate I can't even touch him."

"I admit, I'm not confident I could defeat Marquis Liu Yin," Morosa reverted to his normal appearance, "After all, he is a Pinnacle of the Primal Chaos Realm existence, rumored to be able to transform into a world's disaster! In front of him, I can only say I have a chance at survival."

Luo Feng smiled and said, "Morosa, don't forget, I haven't been in the Primal Chaos Realm for long."

Morosa was taken aback, and couldn't help saying, "Right, Master, you've just reached the Primal Chaos Realm, how come you've become so strong?"

"This is a secret technique of transformation I've created using the ability of 'Formless and Intangible,'" Luo Feng explained.

"Self-created?" Morosa was shocked, the feeling complex at this moment. This was the difference between a Sector Beast and a cultivator. Sector Beasts naturally absorbed countless insights from the origin of destruction, and their understanding of various secret techniques was instinctive—they didn't need to contemplate or create anything on their own.

Luo Feng nodded and said, "This transformation secret technique that I created myself offers immense help in terms of my godly body. Now that I've barely started, this is my current strength."

"Three hundred blade lights, they can dodge, transfer, or dissipate them. But what about one thousand blade lights, or three thousand?"

Luo Feng said, "Overwhelm the many with one! Even if each blade light isn't very strong, a change in quantity causes a change in quality. Once the power accumulates to a terrifying degree, it can even split open a braided cage! Who among them could avoid it?"

The braided cage would be split open! Everything in the way must be annihilated!

"Three thousand blade lights? Master, can your power still increase tenfold?" Morosa couldn't help but ask.

The Great Dao of Destruction Origin...

It was supreme power, entirely devastating everything!

As a pet of the destruction origin, Morosa knew very well how unimaginable it was when such absolute power reached a certain level.

Sweep across everything! Destroy everything!

Space-time, worlds, causality, and all else must be shattered. Before absolute destruction... there was no need to consider any entanglement of causality, no need to mind any schemes, and it could even level the entire world.

"That pinnacle Sector Beast comprehends the complete Great Dao of Destruction Origin. Yet, it's merely a Sector Beast of the first-rate Tianmu Kingdom. It doesn't even dare to unleash a catastrophe.

It seems that the foundation of the two ancient countries cannot be compared to the complete Great Dao of Destruction Origin." Morosa, understanding the power of the destruction origin, was increasingly aware of the terror of the two ancient countries.

His master was willing to become a guest elder in the line of Emperor Chu of the Flame Wind Ancient Country, and Morosa was also willing.

The stronger his master became, the safer he would be.

"I employ the lineage of Life Origin to perfect the Law of Transformation," Luo Feng nodded. "Then, I use the lineage of the destruction origin to execute my blade technique."

"Three hundred blade lights are just the beginning."

Luo Feng was not hiding anything in front of Morosa.

Because his current realm was quite low, the Primal Chaos Blade was his strongest blade technique, and it required considerable effort to use. At this moment, the fact that he could control three hundred blades... was purely because the soul of his Perfect Divine Body was strong enough, and his Spiritual Will was at the Godly King level, which allowed him to forcefully control so many blade lights.

As his godly body continued to grow and the soul nurtured within it became stronger, the number of blade lights he could control would increase.

Most importantly, as his realm improved, Luo Feng's execution of the blade technique would become easier and his consumption of Heart Force would reduce. Naturally, he would be able to perform more techniques.

"Master, your transformation law is already so formidable just at the introductory stage. If it continues to grow, its potential is indeed enormous," admired Morosa.

"This method is merely in its embryonic form," Luo Feng also acknowledged this fact.

Even the Primal Chaos Layer Creatures that he had collected on his own consisted of six types, and he had only studied one so far.

The Law of Transformation naturally involves the study of multiple transformations! Draw upon their strengths.

Moreover, there are also some creatures in the Primal Chaos Layer that naturally possess 'Primal Chaos Realm strength.' These are much more powerful than the Silverlight creatures, and have been captured alive by some major powers! Luo Feng believed that the Flame Wind Ancient Country had also captured some, and he planned to study one or two of them when possible.

The creation and perfection of the Law of Transformation, the strengthening of the soul and Spiritual Will, and the ascension of realm.

All these improvements would enhance his power!

Luo Feng vaguely saw...

The path of the Law of Transformation is one where he could 'Break Laws with Force,' using absolute power to destroy everything! Perhaps during his phase in the Primal Chaos Realm, he might hope to 'split open the braided cage.' Of course, Luo Feng did not dare to hope for too much, considering that some ancient Godly Kings couldn't achieve this.

"Go back to your tasks," Luo Feng waved his hand, moving Morosa out, and then he began to focus on his cultivation again.

Entering the early stages of the Primal Chaos Realm was a period of rapid strength enhancement, and Luo Feng wanted to devote himself to seclusion.

...

Morosa was moved out, but he felt somewhat unpleasant.

"Previously, the master could only defeat me by using the Secret Technique of Willpower. But now, it seems... he could likely defeat me in a regular fight," Morosa thought. "I too must find a way to accelerate my growth."

"But I don't know how to study or comprehend, I need to devour some powerful godly bodies and treasures to enhance myself faster. But to obtain these godly bodies and treasures, I need the master's help."

Morosa was quite troubled.

As a Sector Beast, he had to be extremely careful during his growth stages.

This Land of Origin was too hostile towards him as a Sector Beast!

Displeased, Morosa decided to look for some food.

"Lord Luo Sa, Lord Luo Sa," Moyu Qingyan ran over.

"What's the matter?" Morosa glanced at Moyu Qingyan, feeling quite annoyed at seeing this youngster whom he had painstakingly taught for over thirty years. How stupid he was, so much inferior compared to the master.

His master's growth rate made even him, a natural bearer of the destruction origin, somewhat anxious.

"Lord Luo Sa, I've made a breakthrough, I've made a breakthrough," Moyu Qingyan was ecstatic. "I've finally mastered all of the Ten Fundamental Laws."

Upon hearing this, Morosa glanced at Moyu Qingyan and said, "So you've mastered the Ten Fundamental Laws? Is such a trivial matter worth getting excited over?"

Moyu Qingyan was taken aback and immediately nodded obediently.

Compared to his master and Lord Luo Sa, both of whom were incredibly strong eternal true gods, he was indeed very weak.

"Hurry up and get me something to eat," said Morosa. "The master is in seclusion and should not be disturbed! When the master comes out of seclusion, then tell him about your breakthrough."

"I'll go prepare something to eat right away." Having served Morosa for so long, Moyu Qingyan was well aware of Morosa's preferences and immediately went to make arrangements.

Morosa watched Moyu Qingyan run off and finally revealed a smile, feeling extremely pleased: "This foolish boy has finally made a breakthrough! My own cultivation has never been this exhausting!"

Chapter 108: Episode 2 Chapter 34 Luo Feng Takes an Apprentice

Inside the Star Tower, Luo Feng sat cross-legged, and a strand of Primal Chaos Divine Power instantly transformed into an exceedingly tiny black octadecahedron, which also bore the patterns of the Primal Chaos Laws on its surface.

Luo Feng felt that this black octadecahedron was like an extension of his own arms and legs, his consciousness able to permeate it. He could not help but reveal a look of joy: "The six species of Primal Chaos Layer Creatures that I've collected, I have finally mastered the second type."

Whoosh~~~

With a casual wave of his hand, Luo Feng sprinkled a large amount of Divine Power, which transformed into numerous black octadecahedrons: ten, a hundred, a thousand, ten thousand, one billion, one hundred eighty trillion. The number transformed and evolved was exactly the same as the previous Silver Droplets creatures.

When one hundred eighty trillion black octadecahedrons were completely combined, Luo Feng also felt a sense of 'Perfection'.

"These Primal Chaos Layer Creatures are quite similar," Luo Feng thought. "Perhaps those naturally born with Primal Chaos Realm strength are fundamentally different from them."

It's a pity that those strongest Primal Chaos Layer Creatures were already captured long ago.

"Whoosh."

After the fusion of the one hundred eighty trillion black octadecahedrons, they were like a dark, black mountain, stable and unshakable.

"Rise," thought Luo Feng, and immediately, ten silver blade lights appeared, violently striking the black mountain. The black mountain, as though harboring an endless abyss within, naturally absorbed the limitless impact force, without moving an inch.

Not even the ten silver blade lights could shake it.

"Just as I anticipated, its defense is very strong," Luo Feng conducted test after test.

After a long time, Luo Feng was quite satisfied.

"The previous Silver Droplet Transformation Method, setting the benchmark, serves as the base."

"This black octadecahedron Transformation Method, although unsuitable for executing blade techniques—with only thirty percent of the power and twenty percent of the movement speed of the Silver Droplet Transformation Method—its defensive strength reaches nine times higher, also having the ability to absorb enemy forces for a counterstrike!"

Defense, along with the ability to absorb and counterstrike.

"The first Transformation Method I've comprehended, the Silver Droplet Transformation Method, is thus named the 'Galaxy' Transformation Method," Luo Feng thought, since one hundred eighty trillion droplets of silver indeed formed a silver river.

"The second Transformation Method shall be named the 'Black Abyss' Transformation Method," Luo Feng mused.

Each black octadecahedron containing space within, capable of absorbing and counterattacking with force. This also made them remarkably sturdy.

Silver Droplet creatures were already very resilient, but the toughness of the black octadecahedron was nine times that.

"They are all scalable, and in Black Abyss form, they can form a protective robe," Luo Feng thought. The black mountain in the air quickly covered Luo Feng's body, transforming into a set of black robes, "I can transform all into Black Abyss form using ten percent of the Divine Power from my Perfect Divine Body. Who then can harm me?"

With the Black Abyss robe on the surface, with the Star Tower maintaining Primal Chaotic Space within.

And surrounded by an endless silver galaxy!

"First, I'll study these six Transformation Methods; afterward, I can go to the Primal Chaos Layer, and collect more Primal Chaos Layer Creatures," Luo Feng was quite interested in these creatures—after all, they were naturally born, each basic unit of strength containing 'Life Spirituality.'

To create out of nothing was exceedingly difficult.

Yet, merely transforming, Luo Feng still managed to achieve it.

He believed that as he studied more Primal Chaos Layer Creatures, the Transformation Methods would certainly improve. With dozens or even hundreds of Transformation Methods, accumulated experience may sooner or later allow creation of the most suited godly body for himself.

...

Inside the city owner's mansion, at Luo Feng's separate courtyard.

"Master, you're out of seclusion?" Morosa's telepathy detected Luo Feng's emergence immediately.

"One has to rest sometime," Luo Feng said with a smile, achieving a Transformation Method was indeed no small feat, especially since each transformation involved creatures from the Primal Chaos Layer with different internal structures and different Life Spiritualities.

"Go arrange some food for me," Luo Feng commanded, and then he picked up a jug of wine himself, which he carried with him; however, the food would need to be freshly prepared.

"I'll arrange it right away,"

While Morosa was affirmatively responding, he couldn't help but add, "Master, there is something I must tell you first,"

"Go on," Luo Feng said leisurely while drinking, completing a Transformation Method felt truly fulfilling, and naturally, his mood was excellent.

"Moyu Qingyan, that lad, has already mastered the Ten Fundamental Laws and has become a true god of void space," Morosa spoke.

"Has he finally figured it out?" Luo Feng laughed. "With you, a great master personally guiding him, it took him so long to break through. It seems Moyu Qingyan's comprehension isn't considered very high."

Morosa shook his head: "It's not just not very high, his comprehension is poor. Compared to master… far too inferior." Morosa, after all, had been with Luo Feng for a long time and had witnessed Luo Feng's rapid growth.

Luo Feng's progress put even him, a Sector Beast, under pressure.

Compared to that, Moyu Qingyan naturally appeared utterly mediocre.

"He's already done quite well," Luo Feng chuckled.

"Master, are you planning to take him as a disciple?" Morosa asked, "According to what was said initially, mastering the Ten Fundamental Laws was just the first test."

Luo Feng looked at Morosa with interest: "Don't hold back, I know, you want to help Moyu Qingyan."

Morosa laughed, "Heh heh."

"Actually, his long-term following us, and being with us day and

night, is another test. A test of his true nature," Luo Feng explained, "Over three decades of constant companionship is enough to understand his true nature. This Moyu Qingyan knows restraint, acts meticulously, and has also not used my name to recklessly gain benefits outside."

With Luo Feng's fame in Huyang City, as one of his only two servants, Moyu Qingyan could have gained many benefits had he been greedy.

"When they were three brothers before me, I saw that this lad was the more down-to-earth one," Luo Feng reminisced. Back then, he had stated that he wouldn't provide any guidance, and without any guidance...

In the Land of Origin, many True Gods could spend their entire lives without comprehending the Ten Fundamental Laws!

In such circumstances, Moyu Qingyan was still willing to follow.

Even though he knew there were numerous dangers, Moyu Qingyan did not waver.

His elder brother and third brother had both given up.

At that time, Luo Feng had felt that Moyu Qingyan had a good nature, being the most steadfast of them all.

"So, Master, what do you mean?" Morosa asked.

"Having spent over three decades together, he has also passed the test," Luo Feng looked at Morosa, "but I sense that he should be closer to you at heart. How about, you let him take you as his master?"

"Take me as his master?" Morosa was startled.

"Your current status is that of a powerful eternal true god. Once I am strong enough in the future, you can naturally make a breakthrough to the Primal Chaos Realm," Luo Feng said, "To be his master is indeed sufficient."

Morosa was indeed somewhat tempted; after all, after such a long time together and over three decades of careful teaching, he naturally

developed feelings.

"Forget it." Morosa shook his head, and telepathically communicated to Luo Feng, "In the early stages I need to be very careful, not to reveal any sharpness. Even if I grow to the pinnacle in the future, having a Sector Beast as a disciple is not exactly a prestigious status.

But Master, you are different, you will be a guest elder in the Flame Wind Ancient Country, your future status will be more noble, and your strength greater. Plus, your identity is reputable, being your disciple will bring him far greater benefits."

Luo Feng was a normal cultivator, and even though some of the top inheritances in Flame Wind Ancient Country had high thresholds with various check-ups and screenings, there was nothing to worry about.

But it was different for Morosa.

The detailed check-ups and screenings, even those that could delve deep into the body, would find that Morosa's body contained a "realm" within it.

Therefore, he was destined to keep a low profile.

"You really are considering everything for his sake," Luo Feng looked at Morosa.

"I'm tired of mentoring! I've taught him for over three decades, it's been enough," Morosa couldn't help saying.

Luo Feng looked on, feeling rather emotional.

As a Sector Beast representing "cataclysm", Morosa, after being enslaved at the soul level and fully suppressing his ferocity, interacted with other creatures, formed bonds, and experienced grievances.

"All creatures have a glimmer of life. Sector Beasts, beings born with the power to control the destruction of the origin, are also controlled by that same origin, only knowing slaughter and destruction, ultimately leading themselves to destruction," Luo Feng thought,

"Perhaps being enslaved, seemingly losing freedom, actually suppresses their violence, giving them this glimmer of life."

Sector Beasts, born that way, seemed to have their destinies already set.

However, being enslaved could possibly allow them to escape that destiny.

"Alright, since you won't take him, then I will take him as my disciple," Luo Feng said.

"Thank you, Master," Morosa exclaimed joyfully.

...

Soon, Luo Feng publicly took a disciple, which was also the first disciple he took in the Land of Origin.

Moyu Hu's family, General Yuewu, General Yong Hu, and many high-status eternal true gods from Jiu Jiang Primal Chaos Prefecture, all attended the ceremony. Gaowu Shui, Moli Feiyun, and Diaorong Qi also stood in a corner watching.

"Lord Luo He actually took Qingyan as a disciple," Moyu Hu was very excited; initially, he had exchanged his most valuable treasure and a favor from Luo Feng for the chance for his son to become a disciple.

Who would have thought that after a test lasting more than three decades, Lord Luo He would take a disciple.

Lord Luo He is likely to reach the Primal Chaos Realm; his own son Qingyan, truly has ascended to the heavens in one step.

"He actually became a disciple so quickly," Moyu LieFeng, the eldest of the Moyu Family, felt happy for his brother, yet had mixed emotions. After all, such a great opportunity had been in front of him too, but he chose to give it up. Now his brother had successfully become a disciple.

"A young fellow, fortunate enough to take Lord Luo He as a master," the Dream Flower Tower Master observed from aside, also very

envious.

Lord Luo He doesn't lightly take anyone under his wing; up to now, there had been only one servant, 'Lord Luo Sa,' and his newly accepted sole disciple, 'Moyu Qingyan'.

"Disciple Moyu Qingyan, paying respects to Master."

Moyu Qingyan formally knelt down in utmost respect.

This scene was witnessed by everyone present.

In the Land of Origin, becoming a disciple was an extremely solemn affair.

The relationship between master and disciple could even surpass kinship ties.

Once becoming a disciple, one was devoted to the master for life! If one betrayed the master, it would be scorned by all parties. After all, the grace of imparting teaching, guidance, cultivation resources, providing Weapon Secret Treasures, and guiding the path of cultivation... A master's kindness towards a disciple was immense. To betray such immense kindness, what cultivator could be trusted?

Who would dare employ him?

"Rise," Luo Feng said with a smile, looking at Moyu Qingyan.

Moyu Qingyan stood up, feeling tremendously excited at the moment, as if he were in a dream.

"Congratulations, Brother Luo He," General Yuewu and General Yong Hu both offered their congratulations from the side.

"This young one is still very naïve, he needs to cultivate diligently," Luo Feng said with a smile.

Moyu Qingyan stood to the side, glancing at Morosa nearby.

In his heart, Moyu Qingyan even harbored the idea of taking 'Morosa' as his master, given the countless careful teachings over the years; he

was very grateful. However, he kept this thought deep in his heart.

...

The act of Lord Luo He taking a disciple was just a minor episode in the wars between the two great Primal Chaos Prefectures.

Time silently passed, and an era had elapsed. The Marquis of Jiu Jiang was also trying to find ways to visit various powerful beings, all who did not fear Marquis Liu Yin!

However, he had not been able to secure any powerful allies.

Chapter 109: 2 volumes 35 chapters Blood Food

The Land of Origin housed a vast and frigid icefield known as the Tianji Icefield. Its expanse was so vast, it could rival the territory of the Flame Wind Ancient Country. However, due to the harsh environment of this icefield, the number of cultivators was less than one percent of those in the Flame Wind Ancient Country.

In the Tianji Icefield, there were no kingdoms, only scattered powers.

"Huff." The Marquis of Jiu Jiang, in his transformed form, looked at the great icy city of 'Juefeng City' before him.

Juefeng City was also a large city, built entirely from ice, its population several times more than that of Huyang City.

In the Tianji Icefield, only the city housed a numerous amount of cultivators. Outside…you could hardly see any tribes. The harsh conditions made survival difficult for tribes.

"At last, Great Saint Juefeng has come out of seclusion." The Marquis of Jiu Jiang had also received the message and was visiting Great Saint Juefeng once again.

Within the imposing city, at the center was a massive cave mansion, belonging to the city's master, 'Great Saint Juefeng.'

"Marquis Jiu Jiang, please." An eternal true god attendant personally led the way at the main gate of the mansion.

Soon, they arrived at a grand hall.

"Come, come, come, Brother Jiu Jiang, take a seat." A towering figure with dark green skin sat there, grinning and said, "I've been in closed-

door cultivation all this time, making Brother Jiu Jiang wait for so long."

"Brother Juefeng's cultivation is the most critical matter," the Marquis of Jiu Jiang said with a flattering smile.

He was seeking aid from beings no less than Marquis Liu Yin!

This Great Saint Juefeng, carefree and unrestrained, was also unwilling to join any kingdom. He occupied a major city on his own, ruling over millions of cultivators, content in his cultivation, yet none dared to provoke him.

In terms of strength, Great Saint Juefeng was not inferior to Marquis Liu Yin, both being pinnacle existences in the Primal Chaos Realm.

In terms of background, Great Saint Juefeng had once been an honorary disciple under an emperor of the Flame Wind Ancient Country, but given the intense competition that drew too many elites to the Flame Wind Ancient Country, Great Saint Juefeng ultimately chose to leave and become a carefree Chaos Great Saint in the Tianji Icefield.

"Haha, Jiu Jiang is always so pleasant to listen to," Great Saint Juefeng laughed, showing his teeth. "Say, what brings you to me?"

The Marquis of Jiu Jiang put down his wine cup and then said, "Brother Juefeng, my neighbor, Marquis Liu Yin, is presently scheming against my fiefdom…"

"I've heard about your situation," Great Saint Juefeng nodded. "Marquis Liu Yin is fierce and overbearing. It would be strange if he didn't bully you."

The Marquis of Jiu Jiang's expression stiffened as he nodded, "Indeed, I'm not confident I can withstand him, which is why I'm here to ask for assistance! If Brother Juefeng is willing to help, just name your price."

Great Saint Juefeng, holding a huge blue-golden wine cup, drank the wine first before saying, "Within your Yu Kingdom's borders, there are no Primal Chaos Realm beings willing to help you, right?"

The Marquis of Jiu Jiang nodded, "That's right. In our Yu Kingdom, there are only a few capable of contending with Marquis Liu Yin. Even our nation's ruler finds it difficult to mobilize them. How could I possibly persuade them?"

"Of course, you can't persuade them!"

Great Saint Juefeng put down his cup. "After enduring countless hardships to reach the Primal Chaos Realm, who would want to risk their life for you? If you brought out treasures like 'Godly King Weapons' as an invitation, you might be able to call for strong support. But do you have such treasures?"

"I do not," the Marquis of Jiu Jiang admitted.

"Saying 'just ask' while being unable to produce any actual treasures, who would want to risk their life against Marquis Liu Yin for you?" Great Saint Juefeng shook his head. "Who is Marquis Liu Yin? He's inherently fierce, retaliatory, and at the pinnacle of the Primal Chaos Realm; he might break through at any moment and step into the Godly King Level."

"Contend against such an existence? With empty promises?" Great Saint Juefeng scoffed, "Jiu Jiang, you truly have mishandled this situation."

"Brother Juefeng, I know I can't offer many treasures," the Marquis of Jiu Jiang said helplessly, "but this involves my fief, and I'm out of options."

"Your fiefdom has three large cities and a hundred and eighty-nine ordinary cities," Great Saint Juefeng said teasingly. "If I help you protect your fiefdom, from then on, the 'Residence Fee' of two large cities and a hundred ordinary cities will perpetually go to me. Could you accept that?"

The Marquis of Jiu Jiang looked somewhat embarrassed.

I only have Jiu Jiang City and a few ordinary cities left?

A top-tier cultivator in the Primal Chaos Realm could easily occupy a large city even without ambition.

Was it worth it to compete with Marquis Liu Yin at all costs, only to be left with so little in the end?

"You see, you're reluctant to part with it."

Great Saint Juefeng shook his head, "The struggle for fiefdoms isn't a short-term conflict; it's a prolonged battle. It's about thoroughly offending Marquis Liu Yin to death! Without enough benefit, no one is willing to help you. Come on, let's stop talking about this and just drink."

Marquis of Jiu Jiang could only drink his sorrow away.

It had been one era.

He had thought, with quite a few friends, maybe he could invite a powerful helper.

But when it came to a life-and-death struggle with Marquis Liu Yin, he couldn't invite even one!

...

Outside Huyang City.

Whoosh.

Blood-red flames coalesced, forming one of the avatars of Marquis Liu Yin.

"After the last battle in Huyang City, Marquis of Jiu Jiang must have realized that he can't win against the army of the Eternal Level," Marquis Liu Yin gazed at Huyang City from afar, "so he has been going everywhere inviting friends to aid him."

Marquis Liu Yin, too, had heard that the Marquis of Jiu Jiang had been requesting help from powerful figures in some places.

"One era, and Marquis of Jiu Jiang should have come to terms with reality. My guess is that he couldn't invite anyone," Marquis Liu Yin said confidently, a confidence built over many long years.

He always acted in a brutal and overbearing manner; even existences of the same level would need to carefully consider the costs of getting involved.

"Even if helpers are invited, a victory must still be determined," thought Marquis Liu Yin.

His reason for waiting patiently was that, even if an army of the Eternal Level won and temporarily occupied three large cities, once Marquis of Jiu Jiang called in strong reinforcements, he would still have to descend into battle.

It was better to wait patiently and see how the situation unfolded.

Maybe Marquis of Jiu Jiang, realizing his own lack of strength, would completely lose heart, not daring to join the fight and simply give up his fiefdom.

"Yanyan," Marquis Liu Yin transmitted his command.

"Father," Liu Yinyan, who was in the Heartshadow Sect's residence within Huyang City, responded to his father's message.

"You can contact your senior brothers and sisters now, and also have the two envoys from the Snow Realm come over," transmitted Marquis Liu Yin, "Once your senior brothers and sisters arrive and preparations are complete, we can go to war. I guess... this time, Marquis of Jiu Jiang will probably concede voluntarily."

"Yes, Father," Liu Yinyan was overjoyed.

******

Within Huyang City.

Cloaked in a blood robe, the young man 'Liu Yinyan' received orders from his father and was overjoyed. He immediately contacted his senior brothers and sisters.

"The battle between Liu Yin Primal Chaos State and Jiu Jiang Primal Chaos State has reached its final moments. My father predicts that Marquis of Jiu Jiang, knowing he's not a match, will likely opt to

concede," Liu Yinyan transmitted, "I ask for senior brothers and sisters' support to jointly attack Marquis of Jiu Jiang's military formation."

"Master has already commanded, and we certainly shall assist."

"Junior brother, rest assured, we will come as fast as possible."

Once the Ancestral God of the Snow Realm nodded, the other two Envoys of the Snow Realm were already prepared. As soon as Marquis Liu Yin summoned them, they naturally rushed to assist with the greatest speed.

After the communication was cut off.

Liu Yinyan was quite excited.

"Young Master Yan, since the Marquis has said that Marquis of Jiu Jiang will voluntarily step back, it seems this battle will go very smoothly," the General Black Armor by his side also anticipated eagerly.

"What does Marquis of Jiu Jiang have to contend with my father?" Liu Yinyan smiled, "My senior brother and senior sister will soon be here, I need to prepare some food for them."

"Prepare food?" General Black Armor's eyes lit up.

He had followed the young master in his cultivation in the Snow Realm and was very aware of what the so-called food was.

"Don't worry, you'll get your share too," Liu Yinyan glanced at his subordinate.

"Thank you, Young Master Yan." General Black Armor was delighted.

Liu Yinyan casually traced his hand, and a model of the Huyang City appeared before him. He looked at it and pointed to a certain area: "Huyang City is teeming with cultivators, here is the Fengyi District of Huyang City, home to roughly a hundred billion cultivators. Offering them as food to my senior brother and senior sister should be presentable enough."

"Let's go."

Liu Yinyan led his forces, together with the Envoys of the Snow Realm, quietly departing the Heart Realm's residence.

A single Envoy of the Snow Realm could not defeat the army formation of Marquis of Jiu Jiang. But to merely protect itself, it was completely at ease.

Even Luo Feng, who had shown his strength on the surface, could do nothing against the 'Envoy of the Snow Realm'.

Whoosh.

This Envoy of the Snow Realm left the Heart Realm and headed straight for the Fengyi District of Huyang City.

...

"That Young Master Yan left the residence?" On the side of the Heartshadow Sect, the Master of the Heartshadow Sect and the Eighteen Elders quickly received the news.

"We just need to watch the city owner's mansion. The Envoy of the Snow Realm comes and goes as he pleases, no one can threaten him," the Master of the Heartshadow Sect instructed, and the other Elders understood as well; they were not qualified to intervene with the affairs of that Envoy of the Snow Realm.

Whoosh!

The Envoy of the Snow Realm took only a few steps to traverse the void and arrived above the Fengyi District.

At this moment, nearly all the cultivators in Fengyi District were hiding in their dwellings, not daring to go out and cause trouble.

The entire Huyang City was gripped by fear and anxiety, the Formation of the city owner's mansion enveloped the entire city, and the wave-like pulsations of the formations from the Heartshadow Sect also spread out. This terrified ordinary cultivators.

"I wonder how long this battle will last."

"No matter who takes command of Huyang City, we have to obediently pay the residence fee, so let's just survive through this storm."

The entire Fengyi District, indeed housing about a hundred billion cultivators, were all enduring patiently.

At the moment, to leave the city meant potentially losing life to the colliding Formation energies of the two major forces. While the residential area was still protected by the Formation, it was at least a barrier against some of the residual energy.

"A hundred billion blood food," the Envoy of the Snow Realm, whose body was white as snow and holy beyond compare, looked down below, stretching out his arm which rapidly grew to an immense size.

The snow-white palm, covering the entire sky above the Fengyi District, reached for it.

"Hm?"

This significant commotion naturally drew attention from all sides.

Whether it was General Yuewu, who controlled the grand formation, Emperor Chu Yu of the Flame Wind Pavilion who observed the whole city, or Luo Feng and Morosa, who were at the level of Primal Chaos Overlords, they all saw this scene.

"What is he doing?" Morosa was shocked.

"The Envoy of the Snow Realm?" Luo Feng looked at the scene.

The Ancestral God of the Snow Realm had originally achieved Godly King status through the 'Bloodline of Blood' within the Great Dao of Life.

Blood is indeed very mysterious.

It contains endless information, and having a powerful lineage can greatly accelerate cultivation! Morosa, by absorbing information from

some powerful lineages, could promote his own evolution.

And the Ancestral God of the Snow Realm had already thoroughly mastered the path of the 'Bloodline of Blood', even starting to cultivate other branches of the Great Dao of Life.

To cultivate the secret techniques of the Bloodline of Blood, the cultivators of the Snow Realm were most keen on capturing 'blood food', an important resource for their cultivation.

"To capture all creatures in the entire Fengyi District? Again, to capture blood food?" Luo Feng, who also contemplated the Great Dao of Life, was very clear that actually, collecting some blood could equally facilitate cultivation of the 'Bloodline of Blood'.

To capture directly and keep for long-term blood harvesting was purely for convenience.

Those blood foods, kept for long-term blood harvesting, lived in abject misery, suffering far more than simply meeting death.

"He came here to seize blood food?" Luo Feng shook his head lightly; he had already disappeared into thin air, making Morosa beside him surprised, then itching with anticipation: "Master wishes to act, so he acts. When can I indulge so freely?"

"Rumble～～～"

The Envoy of the Snow Realm, with the snow-white palm obscuring the sky of the Fengyi District, filled the hundred billion beings of the Fengyi District with terror. The residential area's Formation was easily torn apart by the snow-white palm.

"No!"

"It's over."

"Why go after us?"

"We are just True Gods."

The hundred billion creatures had no power to resist and watched the

scene in despair.

Suddenly—

Plop!

A palm came from the void, piercing the snow-white chest of the 'Envoy of the Snow Realm'.

——

Thanks to the two new Alliance Hierarchs for their support: Traversing Snow-laden Winds and Eastern Slope Summit.

Chapter 110: 2 36 Get started

After practicing the Transformation Method, Luo Feng's godly body became like the most terrifying weapon. His fingers, sharp and containing boundless might, easily penetrated the chest of the Envoy of the Snow Realm.

"Eh?" Luo Feng, who stepped out from the Void, was quite surprised, "Is the Envoy of the Snow Realm so fragile?"

Mechanical Treasures like Heart Devil Kite, Demon General of Heartshadow, and Envoy of the Snow Realm were reputed in the outside world to be on par with Primal Chaos Realm Weapon Secret Treasures, renowned for their toughness. But in this moment, as Luo Feng's palm pierced through, he confirmed the true defensive capabilities of the Envoy of the Snow Realm.

"The material of this Envoy of the Snow Realm is at the bottom among the Weapon Secret Treasures of the Primal Chaos Realm.

Plus, because it is a Mechanical Treasure made of mechanical parts, its stability is even worse," Luo Feng assessed as he pierced through, fully ascertaining the strengths and weaknesses of the Envoy of the Snow Realm, "An eternal true god definitely couldn't break this Envoy of the Snow Realm, but any slightly formidable being from the Primal Chaos Realm could damage it."

"Slightly inferior materials, slightly worse stability. But it is very complexly made, allowing a group of the weak to burst forth with great strength.

A single Envoy of the Snow Realm is worth as much as an ordinary Primal Chaos Realm Weapon Secret Treasure, roughly around 200 million Cosmic Sand," Luo Feng said, accurate in his valuation with detailed intelligence from his master, Mountain Sitting Guest.

After all, his master used to sell these.

"Buzz."

As Luo Feng's fingers pierced into the chest of the Envoy of the Snow Realm, he immediately sensed all the Manipulators within the Envoy.

A Leader, thirty-six assisting eternal true gods, and forty-nine thousand true gods of void space were all in a state of endless fear at this moment.

"Reeking of blood." Luo Feng could feel the blood-stained scent deeply ingrained in the souls of the Leader 'Liu Yinyan' and the thirty-six eternal true gods; they were disciples directly under the Ancestral God of the Snow Realm and practiced the Bloodline of Blood Dharma.

The forty-nine thousand true gods of void space, however, didn't have much of a blood scent; they were not yet qualified to learn the emperor level inheritance.

After all, cultivation requires the consumption of a vast amount of Blood Food, and the consumption of Blood Food by beings from the Primal Chaos Realm and numerous eternal true gods was already enormous, not enough to go around. Thus, true gods of void space were naturally forbidden to use Blood Food. In desperation... some of the lower ranks who erred could also end up as Blood Food.

"To be born in the Snow Realm, indeed, it's a lament for you all," Luo Feng had no killing intent towards those forty-nine thousand true gods of void space.

He was well aware of the pitiable state of the middle and lower tiers within the Snow Realm.

Born in that territory, even thinking of escape was futile.

"Buzz!"

Luo Feng's thoughts were lightning-fast. As his hand pierced the chest of the Envoy of the Snow Realm, he seized the Leader 'Liu Yinyan' in his palm, while an invisible fluctuation swept across the thirty-six

assisting eternal true gods, causing each of them to perish.

At the same time, he expelled all forty-nine thousand true gods of void space, each tumbling away into the distance.

"Piercing the chest, damaging a section of the chest components – a fix and it'll still be usable. It might fetch a decent price," Luo Feng collected the figure of the Envoy of the Snow Realm. After all, being poor, the Envoy valued at roughly two billion was still worth cherishing.

Luo Feng then looked at the young man in the blood-red robe 'Liu Yinyan' held within his palm.

As Liu Yinyan was grasped within the palm, he looked up to see the familiar figure in a black robe; Luo Feng at this moment looked indifferently at the blood-robed youth as if he were looking at filthy trash.

"Luo He?" Liu Yinyan couldn't believe it, "You, you've broken through to the Primal Chaos Realm?"

Piercing the Envoy of the Snow Realm with one hand, that was certainly not something an eternal true god could achieve.

...

Luo Feng stood above the Fengyi District, clutching Liu Yinyan in his hand, a scene that naturally everyone witnessed.

"Lord Luo He, he, he's reached the Primal Chaos Realm?" On the side of the city owner's mansion, General Yuewu, General Yong Hu, and various other eternal true gods were all shocked. Too many eternal true gods longed to take that step.

Even General Yuewu, who was publicly recognized as a future Primal Chaos Realm being, still had an unknown time of arrival.

Now, they who thought they knew Lord Luo He well, saw him truly become a Primal Chaos Realm being.

"He turned out to be a Primal Chaos Realm being," the Dream Flower

Tower Master muttered to himself in a whisper.

"Was he always a Primal Chaos Realm being, or is he a newly advanced one?" Lord of Huyang City also pondered in secret.

"My master, he is a Primal Chaos Realm being?" Moyu Qingyan was somewhat stunned, and Morosa chuckled as he looked at Moyu Qingyan.

...

Billions of Creatures of the Fengyi District were the most excited, watching the scene above where Luo Feng held Liu Yinyan in one hand with both gratitude and excitement.

"We've survived."

"My father, mother, wife, and all my children have survived. My fellow disciples, my clan... they all survived." The Fengyi District was home to a myriad of different clans and even some small sects and forces, all of whom had now survived.

"That is Lord Luo He."

Billions of Creatures, the vast majority of whom did not recognize Luo Feng. Yet some true gods of void space, with some knowledge of the information, recognized at a glance that the figure high above was indeed Luo Feng.

"It was Lord Luo He who saved my entire clan."

Many Cultivators felt tremendous gratitude.

...

"Young Master Yan has been captured, the thirty-six eternal true gods are all dead, am I free now?" The forty-nine thousand true gods of void space, scattered in all directions, each had different thoughts at this moment.

Being born in the realm of the Snow Realm, they were deprived of the right to choose from the very beginning, compelled to serve the

massive power of 'the Snow Realm'.

Even some who failed would become sources of Blood Food.

"Leaving here, I will never return to the Snow Realm," a true god of void space left silently.

"The Envoy of the Snow Realm has been taken away, how will we return to the Snow Realm?" There were also some true gods of void space devoutly loyal to the Snow Realm, still thinking of returning. But Yu Kingdom was too far from the Snow Realm.

They could only hope the Snow Realm would come to fetch them, or that Marquis Liu Yin would find a way to send them back.

"Us weak ones, the Snow Realm probably doesn't care about us, right? Have I struggled in vain for so long? Can't I go back?"

"Only a few of my kin still live; this vengeance, I will most definitely seek."

The forty-nine thousand true gods of void space had varying thoughts.

As one of the Land of Origin's top ten sinners, the 'Ancestral God of the Snow Realm' ruled his territory with extreme cruelty; countless beings harbored resentment against him.

But the Ancestral God of the Snow Realm didn't care. His disciples, once they reached the Eternal True God Level, would be granted a drop of his blood to inherit the Bloodline of Blood.

Upon absorbing this drop of blood, they would naturally become loyal, never to betray.

Thus, in the Snow Realm, while there may be much grievance and resentment at the lower levels, the middle and upper echelons were absolutely loyal.

******

Luo Feng's seemingly casual act changed the fate of the forty-nine

thousand true gods of void space, changing the destiny of billions of creatures in the Fengyi District.

"I didn't expect that Luo He had already reached the Primal Chaos Realm." From the side of the Flame Wind Pavilion, Emperor Chu Yu and the Deputy Pavilion Master, watching this scene, were in high spirits.

"Now I can take Luo He back to the Flame Wind Ancient Country with me," thought Emperor Chu Yu.

Emperor Chu Yu then transmitted his voice from afar, "Luo He, now that we have both stepped into the Primal Chaos Realm, once the matters here are settled, we can return to the Flame Wind Ancient Country. Remember, don't kill Liu Yinyan at all costs! Publicly killing Liu Yinyan while the two armies are in stalemate... Marquis Liu Yin, for the sake of face, will surely make a move against you."

…

Luo Feng heard Emperor Chu Yu's transmission and looked at Liu Yinyan in the palm of his hand.

Knowing Marquis Liu Yin's nature, with many sons and daughters, the death of one Liu Yinyan would not be too unbearable! But in a stand-off between two armies, with someone from the Primal Chaos Realm taking action—a matter of face—Marquis Liu Yin could not tolerate it!

"Lord Luo He, my father is Marquis Liu Yin, my master is the Ancestral God of the Snow Realm; please forgive my previous disrespect and spare my life," Liu Yinyan pleaded for mercy.

He guessed that a newly advanced Primal Chaos Realm cultivator wouldn't dare to kill him publicly.

But he didn't dare to bet!

Having spent so much time in the Snow Realm, he was accustomed to the madness there. Cultivators of the Snow Realm acted unbridled, killing without a second thought!

Background? It's only useful if you value it.

"Brother Luo He, you are not yet a Guest Elder of my Flame Wind Ancient Country. Even if you were... my Flame Wind Ancient Country does not intervene in conflicts between Guest Elders. After all, many emperor level beings at the border kingdoms are Guest Elders of my Flame Wind Ancient Country.

They often fight among themselves, and we do not intervene," Emperor Chu Yu perceived something wrong and immediately transmitted, "Even the disciples of Emperors perish in these external conflicts! As long as it's a fight on the same level, the Flame Wind Ancient Country does not interfere."

"Once you kill Liu Yinyan, and Marquis Liu Yin flies into a rage! Being from the Imperial Clan of the Flame Wind Ancient Country, he wouldn't dare touch me, but I can't stop him either!"

Emperor Chu Yu transmitted his advice.

He valued Luo Feng highly for his loyalty and sense of righteousness, as well as his hate for evil. But it was precisely because of this 'hate for evil' that Emperor Chu Yu worried that Luo Feng might act impulsively and kill Liu Yinyan.

"He has instantly killed thirty-six eternal true gods, yet he merely captured Liu Yinyan alive," the Deputy Pavilion Master remarked, "This Luo He, he's most likely not a rash person."

"I advised him, yet he didn't agree to spare Liu Yinyan. I always feel that something is wrong," said Emperor Chu Yu, "For a minor eternal true god, it's not worth putting oneself in jeopardy."

…

As Emperor Chu Yu advised, the avatar of Marquis of Jiu Jiang was also attempting to persuade through transmission, "Younger Brother Luo He, congratulations on breaking through to the Primal Chaos Realm. But the gap between beings of the Primal Chaos Realm is vast."

"This era, I invited friends from various sides, but still, no help came.

You, a newly ascended Primal Chaos Realm being, needn't involve yourself, I will confront Marquis Liu Yin and settle this with a victory or defeat. If I lose, I'll also give up my territory."

"You're giving up, Marquis of Jiu Jiang?" transmitted Luo Feng.

"Eight or nine out of ten, I won't be able to hold on to this territory," the avatar of Marquis of Jiu Jiang transmitted back, "You, as a new Primal Chaos Realm cultivator, need time, time to grow steadily. Not to meddle in this now."

Luo Feng understood.

Luo Feng then looked towards the distant sky.

In the sky, a strand of blood-red flame condensed, forming a dark red armored figure. This dark red armored figure looked towards Luo Feng.

"Release my child, hand over the Envoy of the Snow Realm, and offer up another ten billion Cosmic Sand to the Snow Realm as compensation," the dark red armored figure spoke indifferently, "Then I will spare you, giving you, a newly ascended Primal Chaos Realm being, a chance to live."

"Otherwise, if I deal with you, it would not be considered bullying the weak," the dark red armored figure kept his gaze on Luo Feng.

"Are you that confident?" Luo Feng looked at him.

"Those who seek death, feel free to make your move," the dark red armored figure said coldly, watching the scene.

Luo Feng nodded slightly, exerting force with his finger.

Thud!

"No—" Young Master Yan was filled with horror but was still crushed to pieces, turning to ash.

This scene stunned Marquis of Jiu Jiang and Emperor Chu Yu, even the distant dark red armored figure's expression changed subtly.

"Come then, I want to see how exactly I'm seeking my own death," Luo Feng looked at the dark red armored figure.

—

Thank you to the new Alliance Hierarch for their support: Qin's Moon

Chapter 111: Episode 2 Chapter 37: Marquis Liu Yin and Luo Feng

"This is serious trouble."

At the Flame Wind Pavilion, both Emperor Chu Yu and the Deputy Pavilion Master were trembling in their hearts.

In the entire world, only the Godly Kings and those in the Primal Chaos Realm were considered high-level beings, and every existence at the Pinnacle of Primal Chaos was not to be trifled with. Even the imperial clansmen of the Flame Wind Ancient Country wouldn't provoke them without good cause.

Because the existence at the Pinnacle of Primal Chaos, their Spiritual Will was at least at the 'Pinnacle of Primal Chaos Realm', and might even be at the Godly-King's Will. Once they used the Reincarnation Secret Art, they could be reborn with their complete memories intact.

Who would dare to cause trouble relying on their background against such beings? If pushed too far, they would simply kill you! After killing, they could just reincarnate.

No matter how big your background, you can't find the reincarnated identity of the other party.

Moreover, there was an unspoken agreement in the Land of Origin: when those in the Primal Chaos Realm clash, the God Kings wouldn't intervene easily without sufficient reason. Therefore, outside of the two Ancient Countries, the Pinnacle of Primal Chaos was already the most powerful deterrent under normal circumstances.

"We can't help him," the Deputy Pavilion Master shook his head. "This

Luo He is too reckless. When his strength was weak, why did he insist on acting on impulse?"

"Perhaps he thought he could protect himself," Emperor Chu Yu frowned. "But the power of an existence at the Pinnacle of Primal Chaos is terrifying indeed, far stronger than those newly advanced to the Primal Chaos Realm."

"This is bad," at the city owners mansion, General Yuewu's facial expression slightly changed.

"Even for just a little face, Marquis Liu Yin will have to take action," said General Yong Hu at his side.

"I'm worried that Marquis Liu Yin will take out his wrath on the entire Huyang City," General Yuewu said.

Yong Hu looked at Yuewu in surprise.

General Yuewu continued, "Marquis Liu Yin is called the catastrophe of the world! Normally, when he takes action, it represents the coming of a catastrophe. And given the great humiliation this time, his actions will only be more ruthless."

"Don't worry, my master has bestowed upon me a life-saving treasure, and I will take you away when the time comes," General Yuewu sighed. "But I cannot protect the whole Huyang City."

Upon hearing this, Yong Hu immediately nodded. He was also touched… They were all disciples of the Monarch of Yu Country.

But among the disciples of the Monarch of Yu Country, Yuewu was treated ten times better than them, even having a life-saving treasure.

"Did Master kill Liu Yinyan, so Marquis Liu Yin is going to make a move?" Moyu Qingyan was very worried about her master and couldn't help but look towards Morosa.

"Don't panic," Morosa comforted, looking up.

Over this period, Luo Feng had sparred with him many times. He was the one who knew his master's strength best.

...

The dark red armoured figure in the sky looked at Luo Feng with a cold gaze: "Good, I hope when the time comes for you to die, you're still as confident."

Having said that, this incarnation dissipated into the air, vanishing between heaven and earth.

Luo Feng turned his head to look towards the distant Heartshadow Sect base.

"Boom!"

A terrifying and oppressive aura had exploded from the Heartshadow Sect base.

The True Body of Marquis Liu Yin had already arrived here with the help of the Space-Time Treasure bestowed upon the Heartshadow Sect.

"He's here," Luo Feng muttered as he watched.

"He's here," Emperor Chu Yu, the Deputy Pavilion Master, Marquis of Jiu Jiang, and the others all took notice of the terrifying aura erupting from the Heartshadow Sect base—an aura that made their hearts tremble.

Marquis Liu Yin stood at the Heartshadow Sect base, looking up at Luo Feng from a distance.

Luo Feng also looked at him.

"Courageous," Marquis Liu Yin said softly.

Suddenly he vanished into thin air.

And in an instant, the entire sky darkened, followed by the spread of endless bloodfire that seemed like blood vessels extending across the sky.

"What's this?"

"What's happening to the sky?"

Countless cultivators in Huyang City were looking at the sky in horror, as the bloodfire spread like veins across the entire sky, turning it completely dark red! Under the shadow of the dark red sky, a sense of calamity spread, even making the cultivators feel as if 'death' was approaching.

At the Heartshadow Sect, Master of the Heartshadow Sect and the Eighteen Elders looked up at this sight.

"When the Marquis bestowed the Space-Time Treasure to me, it was for me to arrive instantly, to deal with Marquis of Jiu Jiang," the Master of the Heartshadow Sect said as he watched. "Who would have thought that this Luo He would seek death by offending the Marquis?"

"Could this Luo He be relying on something, that he dares to be so arrogant?" an Elder spoke up.

"Among the Primal Chaos Overlords, those who can be called 'Pinnacle of Primal Chaos' are few and far between. This Marquis Liu Yin is an existence on par with Great Saint Jiuyuan; how could there possibly be a newly advanced Primal Chaos Realm being capable of withstanding him?" Elder Hearteye shook his head.

The Heartshadow Sect had fallen due to Great Saint Jiuyuan.

Elder Hearteye and the others had also carefully understood the differences between those in the Primal Chaos Realm and knew the terror of ones like Great Saint Jiuyuan and Marquis Liu Yin.

"Marquis Liu Yin only asked him to hand over the Envoy of the Snow Realm and to compensate ten billion Cosmic Sand," he said.

"Those in the Primal Chaos Realm have strong life-saving capabilities; now let's see how good Luo He's life-saving secret technique is," they said.

The Heartshadow Sect watched on.

They could only hide far away from such a high-level confrontation.

Previously, too, they had watched from a distance as Great Saint Jiuyuan fought against the Heartshadow Sect's three Primal Chaos Realm beings. Using the sect's formation, in the end, the formation was broken, one died and two fled.

...

Luo Feng looked at the dark red sky, which extended for billions of miles, with the aura of calamity spreading far and wide.

Suddenly—

A giant face appeared in the dark red sky—that was the face of Marquis Liu Yin.

"This is my world, can your life-saving secret technique escape from my world?" the giant face looked at Luo Feng. "As for reincarnation? You, a newly advanced Primal Chaos being, can you awaken your memories after reincarnation?"

Only those with Godly-King's Will can remain fully aware, clear-headed even as a fetus.

The Primal Chaos Pinnacle Will beings, once reincarnated, have an uncertain time for awakening memories; it could happen in youth, or even when one is a true god of void space or an eternal true god. If one dies again without 'awakening memories,' then that death is truly final.

"Marquis Liu Yin, did you ask my permission before you made your move?" a voice rang out.

Marquis of Jiu Jiang appeared out of nowhere above Huyang City, standing beside Luo Feng.

He looked up at the dark red sky.

"Buzz～～～"

The void vibrated suddenly, its ripples covering the dark red sky, making the entire sky blurry.

"Luo He, take the chance to get away while I hold off Marquis Liu Yin," Marquis of Jiu Jiang glanced at Luo Feng and immediately sent a telepathic message, "Take your friend and leave quickly. I won't be able to hold off Marquis Liu Yin for long. With Marquis Liu Yin in a rage, I fear he might take it out on the entire Huyang City."

"Of course, if I end up winning, that would be the best," the Marquis of Jiu Jiang chuckled, then completely vanished as he merged into the void.

Knowing full well that his chances of victory were slim, the Marquis of Jiu Jiang still wanted to fight and settle the battle once and for all.

Who's stronger? Who's weaker? Only a fight would tell!

"Boom~~~"

In the vast and mighty Bloodfire World, its power was terrifying, but there was also an invisible layer of void ripples covering the Bloodfire World, suppressing it.

"Marquis of Jiu Jiang, you think you can stop me?" Suddenly, millions of Marquis Liu Yin's bloodfire figures appeared, each one swinging out a blade of bloodfire light which instantly tore through the void ripples.

"Extinguish,"

With a cold shout, suddenly a net of void appeared in the world, its dense web of void instantly slicing through the millions of Marquis Liu Yin figures, shredding them all into pieces.

…

Luo Feng watched all this unfold.

"In terms of realm, they are both above me," Luo Feng realized the gap between them as he observed their fight.

In terms of realm, the moves of both Marquis Liu Yin and Marquis of Jiu Jiang were incredibly mysterious, far more powerful than his own straightforward techniques, to the point where he couldn't even

pinpoint their true bodies.

"As strength increases, it's not just the power that grows immensely but the techniques also become more inconceivable," Luo Feng observed carefully. Although he had gathered a lot of information about the Primal Chaos Realm, it was still not as good as witnessing it with his own eyes.

Since he became a creature of the Primal Chaos Realm, the only one he had fought with was Morosa.

"Luo He, why aren't you leaving?" Emperor Chu Yu, the Master of the Flame Wind Pavilion, urgently sent a telepathic message, "Now that the Marquis of Jiu Jiang is holding the other off, you must leave immediately."

"Let me gauge the situation first," Luo Feng responded, watching intently.

"You, ah you... I really don't understand why you're so confident. Here is the most detailed information on Marquis Liu Yin," Emperor Chu Yu, unable to persuade him, immediately sent a detailed dossier, "Marquis Liu Yin is known as the Disaster of the World; at this moment, his true body is not any physical form, but that Bloodfire World itself! The world is him, and he is the world."

Luo Feng reviewed the information on Marquis Liu Yin.

The information provided by Emperor Chu Yu was extremely detailed, even including many recorded battle scenes.

Luo Feng was too poor to afford detailed information on such top-tier beings of the Primal Chaos.

"Thank you, Pavilion Master," Luo Feng sent his thanks through telepathy.

"Luo He, are you not leaving? I can't hold him off any longer!" the Marquis of Jiu Jiang sent an urgent telepathic message.

"Thud thud thud~~~"

The whole Bloodfire World seemed to boil, with annihilation everywhere, and the Marquis of Jiu Jiang, hidden within the void, found it increasingly difficult to withstand as he burned his Divine Power.

"Marquis of Jiu Jiang, if you can't hold out, then let me take over," Luo Feng said with a slight smile.

"Take over?" the concealed Marquis of Jiu Jiang was shocked.

All eyes were on Luo Feng as he looked up at the endless Bloodfire World.

Boom rumble~~~

A rolling torrent of silver river suddenly swept across a vast expanse. Its extent was so grand that it was in no way inferior to the Bloodfire World itself.

All cultivators in Huyang City had noticed that a silver river flowed over every road and every residential area, providing perfect protection for Huyang City, preventing any cultivator from being harmed by the Bloodfire World.

"I have cultivated fifteen kinds of Transformation Methods, but when it comes to large-scale maneuvers, the 'Galaxy Transformation Method' is still what I'm best at," thought Luo Feng.

During this era, he had also visited the Primal Chaos Layer and captured some Primal Chaos Layer creatures.

Thus he upgraded his Transformation Methods to 'fifteen kinds'.

However, Luo Feng only used five kinds of Transformation Methods on himself.

"Rise."

At the thought of Luo Feng, myriad vast silver Blade Lights began to levitate, a total of eight thousand Blade Lights suspended at the same time.

"Hm?"

The Marquis Liu Yin, transformed into the endless Bloodfire World, watched this scene with confusion because these eight thousand Blade Lights looked mighty, but there was no burning of Divine Power.

"Slash!" Luo Feng looked up at the sky.

The eight thousand Galaxy Blade Lights were simultaneously executing the Blade Technique 'Blade River Slash'. It was a move that Luo Feng had created as his realm gradually improved. The Blade River Slash pursued simplicity and purity, with Luo Feng removing some intricate variations, even eliminating the targeting of space itself, to seek only the most fundamental power!

As a result, Blade River Slash was much less taxing on the Heart Force.

Moreover, after the Perfect Divine Body reached its limits of growth, nurtured by the physical body, his soul grew larger, enabling him to divide his attention among even more Blade Lights.

With these improvements, Luo Feng was able to cast eight thousand Blade Lights with but a single thought.

"Rumble rumble~~~~"

Even without targeting space, maintaining only the purest power,

As the eight thousand Blade Lights erupted at once, layer after layer of space instantly shattered into pieces, utterly defenseless. Wherever the Blade Lights enveloped, everything was annihilated, everything returned to primal chaos.

With the Blade Lights rampaging, all the layers of space were crushed, even touching the outermost membrane of the entire world.

This layer of membrane was the Braided Cage membrane.

Under the rampaging of the eight thousand Blade Lights, this Braided Cage membrane remained incredibly tenacious and unshakable.

Purely relying on power to break through the Braided Cage? Such force was still far from sufficient!

"This—"

Whether it was Marquis of Jiu Jiang, Emperor Chu Yu, or Marquis Liu Yin who faced the devastating eight thousand Blade Lights, they were all astonished.

The eight thousand Blade Lights ravaged an area of hundreds of billions of kilometers, shattering all layers of space down to the final Braided Cage membrane. Even the 'Bloodfire World' was partly destroyed in an instant.

Within this area, unless one could merge with the Braided Cage membrane, there was no escape! One could only withstand this strike head-on!

"I'm actually injured?" Since Marquis Liu Yin had been able to turn into the Bloodfire World, it had been a long time since he was injured.

"You are not a newly advanced Primal Chaos cultivator." As the eight thousand Blade Lights converged and the Bloodfire World spread again, a giant face looked at Luo Feng, "You possess the strength of the Pinnacle of Primal Chaos Realm."

Dressed in a black robe, stepping on the endless silver river, Luo Feng looked up at the Bloodfire World, "Who told you that I am a newly advanced Primal Chaos cultivator? Marquis Liu Yin, I secluded myself in Huyang City, and you were the one who provoked me!"

Thank you to the new Alliance Hierarchs for their support: Sunshine 文, 李泳2024, 红盟白鹿, xjtuer

Chapter 112: 2 minutes and 38 seconds to win or lose

"Living in seclusion in Huyang City?" The enormous face in the sky seemed somewhat incredulous.

In the Land of Origin, not every Cultivator from the Primal Chaos Realm was willing to join a nation and be granted a title because, although owning a fief brought a continuous output of resources, it also tied them to too many obligations. The more one possessed, the more entwining the consequences became.

Many from the Primal Chaos Realm preferred to occupy a remote area and cultivate in peace. Great ones like Great Saint Jiuyuan, Great Saint Juefeng, and others did the same. They gave up many resources but also avoided many troubles.

Some of them went into complete hiding, disguised as ordinary cultivators, quietly cultivating and hoping that one day they would fully comprehend the Dao and step into the Godly King Tier.

"I attacked the Jiu Jiang Primal Chaos Prefecture, and I actually encountered a hidden Cultivator at the Pinnacle of Primal Chaos?" Marquis Liu Yin felt that his luck was particularly bad, "and he even once proposed a hiring price of two billion Cosmic Sand."

If he had known he was a hidden Cultivator at the Pinnacle of Primal Chaos, let alone two billion Cosmic Sand, even twenty billion Cosmic Sand Marquis Liu Yin would gladly have paid to hire him.

But now, everything was too late!

The situation had developed to this point, this hidden Cultivator Luo He, had completely moved to the opposition.

"This Brother Luo He, he's actually at the Pinnacle of Primal Chaos?" Marquis of Jiu Jang, who had escaped and appeared inside the city owner's mansion, was utterly delighted.

One billion Cosmic Sand could hire someone from the Pinnacle of Primal Chaos?

What kind of luck is this?

"Luo He!"

In the dark crimson sky, that enormous face stared at Luo Feng, "As a hidden Cultivator of the Primal Chaos Realm, must you interfere in the conflict between Marquis of Jiu Jiang and me?"

"I originally had no intention of intervening. What does your feud over fiefs have to do with me?" Luo Feng shook his head lightly, "But your subordinates have repeatedly killed the innocent, and it happened within the city where I reside in seclusion. How could I tolerate this?"

Marquis Liu Yin's thoughts shifted.

Indeed!

Xue Yun committed a massacre originally, and in the end, Luo He chased him out of the city and still killed Xue Yun.

The Heartshadow Sect entered the city, and initially, Luo He was tolerant. But when the Heartshadow Sect began to loot the entire city and slaughter on a large scale, Luo He took action.

The two armies clashed! From start to finish, Luo He demonstrated the overwhelming strength of an eternal true god, taking one billion Cosmic Sand, and indeed played the role worthy of one billion Cosmic Sand. However, when Liu Yinyan captured ten billion Blood Food, Luo He made his move.

"A bunch of idiots, bringing me great trouble." Marquis Liu Yin looked down upon Luo Feng, and although he understood that the situation had turned sour, he was still full of confidence in himself.

"Luo He, no matter the reason, since you have intervened, I want to see whether you really have the power to interfere," Marquis Liu Yin's voice resonated powerfully.

Hum~~~

The sound, carrying a sinister attack of will, arrived in an instant.

Marquis Liu Yin, as a cultivator at the Pinnacle of Primal Chaos, had his Spiritual Will honed over the long years to barely enter the Godly King Tier. Knowing Luo He's fearsome strength, he began to give his all.

"Your Secret Technique of Willpower, buzzing like an insect?" Luo Feng frowned slightly, "It's truly annoying!"

"His will is not at all inferior to mine, completely unshakable," Marquis Liu Yin became even more certain, this was an old fellow who had cultivated for who knows how long, his Spiritual Will honed to an extremely terrifying degree.

"If you have no tricks left, just scram."

Luo Feng flicked his sleeve.

Eight thousand Galaxy-like Blade Lights swept across, instantly sweeping the heavens and earth, cleansing all! The Bloodfire was all extinguished, leaving only a Primal Chaos Current.

While Marquis Liu Yin's incarnation of the Bloodfire World covered a vast area. Luo Feng's eight thousand Galaxy only impacted less than one-tenth of it, and even knowing Luo Feng's technique afterward, Marquis Liu Yin's Divine Power retreated to a far distance. The damage this time was much smaller than the first.

Accompanied by many spatial layers naturally healing, the world returned to calm, the Bloodfire World spread over once again.

"Hmph." Along with a cold snort in the world.

Then, Bloodfire ignited on Luo Feng's body surface as he carefully felt it.

To himself, he seemed to have become the 'enemy' of a vast world, endless malice converging upon him, with Bloodfire burning and corroding.

"No trace, eroding my body out of thin air?" Luo Feng looked in surprise, "Compared to my foolish eight thousand Blade Light, Marquis Liu Yin's technique is indeed much more bizarre."

"Useless?" The incarnation of the Bloodfire World, Marquis Liu Yin, indeed sensed that the Bloodfire could hardly damage Luo Feng's body.

Booming~~~~

Suddenly, the entire Bloodfire World erupted with booming sounds, the world's power of this 'Bloodfire World' nearly converged at one point, and in front of Luo Feng out of nowhere, a figure clad in dark crimson armor appeared.

The moment this dark crimson armored figure appeared, he had already chopped towards Luo Feng's shoulder! Luo Feng was quick to react; otherwise, the blow would have landed on his head.

"This is the World's Body?" Luo Feng had learned detailed information about Marquis Liu Yin from Emperor Chu Yu, knowing that this dark crimson armored figure... was not Marquis Liu Yin's True Body, but the 'World's Body' formed from the conjured power of the entire Bloodfire World.

The World's Body, gathering the power of an entire world, held immense strength, making close combat naturally terrifying. And even if it was destroyed, it would only disperse into the World's Force, not harming Marquis Liu Yin's True Body.

"Such a strong blade, and it appeared suddenly before me, hardly giving me any chance to dodge." Luo Feng still stood in midair, looking at the blade edge on his shoulder.

The dark crimson armored figure had struck Luo Feng's shoulder and was also astonished.

Because…

The blade hadn't even cut through Luo Feng's black robe on his shoulder! As for the skin, it was completely unscathed.

"Hiss, hiss, hiss~~~" Luo Feng's black robe on his body surface instantly had countless black liquids flowing, instantly enveloping the blade, and even enveloping the entire body of the dark crimson armored man.

"Engaging me in close combat?" Luo Feng shook his head lightly.

Of the fifteen Transformation Methods he mastered, apart from the 'Galaxy Transformation Method' that specialized in domain techniques, the other methods were oriented towards close combat. Luo Feng carefully selected five Transformation Methods to use regularly.

Thus, in regular combat, the Galaxy Transformation Method was used for long-range encounters, while the other four methods were for close combat.

Luo Feng's close combat strength was far more terrifying than his long-range capabilities.

"Hissss~~~~"

The man clad in dark red armor wrapped in black liquid, under the horrific constraints of immense force, disintegrated instantly, leaving only the long blade with blood-fire patterns behind.

"What a fine weapon," Luo Feng said, holding the blade.

For the 'Body of the World' to have enough explosive close combat strength, Marquis Liu Yin naturally equipped it with the best weapon, which was a top-quality weapon among those in the Primal Chaos Realm.

"This blade, suitable for a Pinnacle of Primal Chaos cultivator, is worth at least five billion Cosmic Sand," Luo Feng commented approvingly, then quickly stowed it away in the Star Tower.

Luo Feng looked up at the Bloodfire World high in the sky.

"Marquis Liu Yin, do you have any other tricks up your sleeve?" Luo Feng asked leisurely.

"How is that possible?"

At that moment, Marquis Liu Yin couldn't believe it. "My World's Body, empowered by the entire strength of the Bloodfire World, immensely powerful, yet it was so easily overcome by that black liquid?"

The oppressive binding force crushed the World's Body instantaneously.

The gap in close combat was too vast.

"No wonder I thought his techniques were crude; it turns out he specializes in his physical body, which is far stronger than my World's Body," Marquis Liu Yin instantly recognized their disparity.

Every Pinnacle of Primal Chaos Realm cultivator has their own path they excel in.

Marquis Liu Yin's forte was transforming into the Bloodfire World, rendering his true body untouchable by enemies.

Yet, if one focused on physical prowess and cultivated to the Pinnacle of Primal Chaos Realm, their physical body would be tremendously terrifying. Even ancient beings who had just entered the Godly King Tier found it incredibly challenging to completely obliterate a physical body at the Pinnacle of Primal Chaos Realm.

Such powerful beings were suited for confinement, sealing; typically, they required a long period of attrition to gradually erase them.

"Your godly body is strong, but I want to see if it truly has no weaknesses!" Marquis Liu Yin, unwilling to give up easily, let the Bloodfire World surge vehemently, as formless forces constantly descended, attempting to penetrate Luo Feng's godly body.

These formless forces included strange blood, burning flames, and the power of calamities...

All sorts of bizarre forces kept infiltrating.

Marquis Liu Yin knew well that while some powerful physical bodies appeared invincible, if infiltrated by some special forces, they might just succeed and completely erode them.

"You want to wear down my godly body? Hahaha..." Luo Feng suddenly burst into laughter.

Boom~~~

Luo Feng's stature suddenly surged to an unimaginably immense height! He had passed through countless cloud layers, and his head had reached the edge of the starry sky. Looking up, Luo Feng could see countless miniature galaxies.

At this moment, one of his fingertips was much larger than Huyang City.

The vastness of his size shocked even Marquis Liu Yin.

"What? He can maintain such a massive godly body?" Marquis Liu Yin exclaimed, "Touching the edge of the starry space? Although an unlimited godly body can be large or small, the larger it is... the stronger the world's suppression it faces."

Standing on the ground with his head touching the edge of the starry space.

Moreover, higher realms, under supreme rules, forbid touching, preventing damage to those miniature galaxies.

This height... was now the maximum a cultivator could achieve in size.

"Only a venerable Godly King can reach this height. Even focusing on the physical body at the Pinnacle of Primal Chaos Realm, such a size is somewhat inconceivable," Marquis Liu Yin was well aware that sometimes, size could indeed indicate strength.

A godly body maintained at such a celestial height signifies endless might!

"Begone!" Luo Feng bellowed, his palms covering the entire Bloodfire World, and with a wave, he completely shattered it into Primal Chaos.

"Buzz."

When the Bloodfire World shattered, using the world's power, the formless force instantly escaped to a far distance.

There it transformed into a blood-fire body, now the significantly more injured Marquis Liu Yin.

"Luo He, if you're willing to stay out of the conflict between me and Marquis of Jiu Jiang, we can discuss terms," Marquis Liu Yin spoke from afar.

"I've got this place secured," the towering godly body as high as the heavens declared mightily, his voice booming.

Marquis Liu Yin's expression turned grim.

He knew well that he had territories, numerous subordinates, countless clan members, and much too much at stake.

And Luo He? Merely a recluse at the Pinnacle of Primal Chaos! Those close to him amounted to an old servant and a disciple.

Such an unburdened cultivator at the Pinnacle of Primal Chaos would give even a Godly King headaches. They would not be easily provoked.

"Hmph."

Marquis Liu Yin merged with the world in an instant and disappeared from sight.

…

All over Huyang City, countless cultivators looked up, but due to the thick clouds obscuring their view, they only saw the waist area of an endless, imposing godly body clad in a massive black robe, imposing a terrifying pressure on them.

"A godly body as tall as the heavens?" Marquis of Jiu Jiang looked upward, knowing that focusing on the physical body to reach the Pinnacle of Primal Chaos Realm was terrifying, but facing such an imposing godly body directly, the oppressive feeling was overwhelmingly intense.

Moyu Qingyan looked up, her eyes somewhat glazed over: "Is this, is this my master?"

Chapter 113: Episode 2 Chapter 39 Giving Away a City

Luo Feng stood with his feet planted on the ground and his head touching the edge of the starry sky, looking down at the tiny figure of Marquis Liu Yin as he merged into the heavens and the earth and disappeared from sight.

"I am extremely strong in close combat, but my means of trapping an enemy are quite lacking, Marquis Liu Yin could leave as he wished, and I could not stop him at all," thought Luo Feng. After all, he had only stepped into the Pinnacle of Primal Chaos Realm for a relatively short period.

This battle made the outside world regard him as a cultivator fixated on his physical body, at the Pinnacle of Primal Chaos Realm!

But Luo Feng was well aware that his physical body was so strong partly because his Perfect Divine Body had grown to its limit and was comparable to the top of the Primal Chaos Realm. On the other hand, by comprehending various transformation methods with the "Formless and Intangible" ability, these transformation methods were even more effective than some body refining methods for him!

At the extreme growth of the Perfect Divine Body, its most basic composition was still "Divine Power".

As for the Transformation Method, its most basic units contained Life Spirituality, and it had undergone a qualitative change! The change in form had made the Perfect Divine Body much more formidable.

"Hoo."

Luo Feng instantly shrank back to his normal size and landed within the city owner's mansion.

"Brother Luo He, Brother Luo He," Marquis of Jiu Jiang approached excitedly at that moment, his face full of gratitude and with a very humble posture, "I never expected that our small Jiu Jiang Primal Chaos Prefecture would have Brother Luo He come to live in seclusion; it truly is a blessing for our entire prefecture.

Previously, I mistook Brother Luo He for an eternal true god and was truly negligent, so negligent!"

"Marquis of Jiu Jiang is too kind," said Luo Feng.

Speaking of which, he had met Marquis of Jiu Jiang only a handful of times, so naturally, their feelings for each other were not very deep. However, during those few interactions, Marquis of Jiu Jiang had been quite generous. When Marquis Liu Yin initially made a move, Marquis of Jiu Jiang also helped to intercept, and Luo Feng felt quite fond of Marquis of Jiu Jiang.

"Brother Luo He, I've prepared some ordinary food and drinks; let's sit down and talk," Marquis of Jiu Jiang had already arranged everything, warmly leading the way.

"Please," Luo Feng nodded, and at the same time, he glanced at Moyu Qingyan and Morosa in the distance, nodding slightly.

Moyu Qingyan was somewhat excited.

"To think my master is so powerful," various thoughts emerged in Moyu Qingyan's mind, feeling as if she were floating on air, it was all too surreal.

"Of course, the master is powerful," Morosa remarked from nearby.

"Lord Luo Sa, the outside world once thought you were the master's Protector," Moyu Qingyan whispered.

"I'm not worthy to be the master's Protector; I am truly just a servant," Morosa said with a sigh, speaking the truth as even his soul had been enslaved, he was an absolute servant.

Morosa knew very well.

His master, Luo Feng, was a cultivator who could naturally blend in with some of the major forces of the Land of Origin. But as for himself, Morosa, he had to hide in the shadows, and even making a move required much consideration. Speaking of which... it was the master who was his Protector!

"Kid, seize the opportunity," Morosa said to Moyu Qingyan, "To become the master's only disciple is your great fortune; you must treasure this chance."

"I understand," Moyu Qingyan nodded. Becoming the direct disciple of a being at the Pinnacle of Primal Chaos Realm was a tremendous opportunity, and she naturally needed to act cautiously and considerately.

Morosa watched this scene.

This lucky child...

The master was not merely a common figure at the Pinnacle of Primal Chaos Realm.

At this moment, the conversation between Morosa and Moyu Qingyan, seen from afar by other cultivators, was enviable.

"Is this the strength of Lord Luo He?" General Yuewu, Moli Xiao, Lord of Huyang City, and a host of eternal true gods were all shocked.

"This being actually shed tears listening to Araya's music, to my music?" the Dream Flower Tower Master thought to himself, "Probably moved at heart, thus shedding tears, indeed true to his emotions."

"This being, who is even stronger than Marquis Liu Yin, was actually willing to help me avenge my grievances," Diaorong Qi looked on from a distance.

To many cultivators, this might be the first time they had seen such an immense divine body, and even Marquis of Jiu Jiang felt an extreme pressure; one could only imagine the shock it had on the spirit of ordinary cultivators.

...

Flame Wind Pavilion.

"Brother Luo He turned out to be a Pinnacle of Primal Chaos Realm existence," Emperor Chu Yu was quite emotional. "It seems, however, that he is wholly devoted to godly body cultivation! His other aspects seem a bit weak."

"In the Primal Chaos Realm, there are dozens in the Land of Origin who are adept at godly body cultivation. But those who stand as tall as heaven and earth...

in the entire Land of Origin, figures at the Pinnacle of Primal Chaos Realm can be counted on one's fingers," the Deputy Pavilion Master said with emotion, being from the Imperial Clan of Flame Wind Ancient Country, his experience was very broad.

Emperor Chu Yu smiled, "There's no need to fret too much, an unlimited godly body at the Primal Chaos Realm, trying to grow tall enough to match heaven and earth is extremely difficult. Those who focus on body refinement are seeking a stronger godly body, not height. Take for instance, the well-renowned 'Marquis Minghuo' from my Flame Wind Ancient Country who focuses on body refinement.

His form is not imposing... yet he has reached the level of Transcendence of Primal Chaos Realm, able to contend with some ordinary Godly Kings without falling behind."

Pinnacle of Primal Chaos Realm, in some fringe nations, is considered the strongest in the Primal Chaos Realm.

Yet, in the two great ancient countries, there exist those who are beyond the Pinnacle of Primal Chaos Realm and have reached an unimaginable level.

If the Pinnacle of Primal Chaos Realm was where one's realm touched the threshold of Godly King,

then the beings at the Transcendence of Primal Chaos Realm have a nature of power at the Godly King level.

However, such beings are scarce, almost all residing in the two great ancient countries.

"Luo He being able to suppress Marquis Liu Yin naturally means he's somewhat stronger. But he couldn't even force out any of Marquis Liu Yin's life-saving secret techniques... showing that his advantage is limited," Emperor Chu Yu smiled, "Once he becomes a Guest Elder for Emperor Chu's Lineage, with better nurturing, I believe he will achieve even greater accomplishments."

Being the first to invite a cultivator to the position of Guest Elder in the Primal Chaos Realm was indeed promising, and Emperor Chu Yu was very happy about it.

He knew very well that with the Imperial Thirteen Branches, competition was fierce.

The stronger his assistants, the smoother his own path would be.

```

"If he could take one more step and reach the level of Transcendence of Primal Chaos Realm, the help he brings would be much greater," the Deputy Pavilion Master said. In the Flame Wind Ancient Country, the ancient God Kings naturally held high status. But in the Primal Chaos Realm, only the 'Transcendental beings of Primal Chaos Realm' held a high enough status.

The Imperial Thirteen Branches, each branch's imperial members of the Primal Chaos Realm, the numerous disciples under Emperor's tutelage, as well as the disciples of God Kings who served as Guest Elders, and even some independent cultivators of the Primal Chaos Realm, the competition was too fierce.

The Pinnacle of Primal Chaos Realm? They were barely noticeable among them. Many existences at the pinnacle ultimately chose to leave the Flame Wind Ancient Country.

"I am worried about one thing," the Deputy Pavilion Master said. "I have never heard of such a powerful being before, and now suddenly a Pinnacle of Primal Chaos Realm appears..."
```

"What's there to worry about?" Emperor Chu Yu laughed, "At worst, it's just a transmigrated God King."

Indeed, some powerful beings in the Land of Origin could transmigrate.

But for the Flame Wind Ancient Country, these were just little waves in the endless ocean.

******

In the Huyang City Lord's Mansion, within a graceful building, Luo Feng sat opposite Marquis of Jiu Jiang.

"This time, I truly have Brother Luo He to thank," Marquis of Jiu Jiang said with deep emotion. "In this era, I've traveled across most of the Land of Origin, visiting many friends, seeking a strong ally. But I couldn't invite even one."

Luo Feng also understood.

Marquis Liu Yin, a fierce and overbearing figure who stopped at nothing to achieve his goals, made other Pinnacles of the Primal Chaos Realm cautious about becoming his enemy.

It was Luo Feng, who came to the Land of Origin through the Samsara Channel, who had no attachments, acting even more unrestrainedly.

If the entire human race was in the Land of Origin, and his family and friends were all here, he too would have to think thrice.

"I understand their difficulties, and I can't offer enough to invite them either," Marquis of Jiu Jiang looked at Luo Feng, moved. "And this time, I merely paid a negligible one billion Cosmic Sand, yet Brother Luo He helped me preserve my fief. I really don't know what to say. I want to thank Brother Luo He… but I can't offer anything of sufficient value."

Marquis of Jiu Jiang had invested all his resources in his own cultivation. His Weapon Secret Treasures were too important to himself.

To thank someone? He truly didn't have any treasures valuable enough.

"After much thought," Marquis of Jiu Jiang looked at Luo Feng, "Brother Luo He lives in seclusion in Huyang, and has helped the citizens of Huyang on multiple occasions. You must care a lot about this Huyang City. So I've decided to gift this Huyang City to Brother Luo He."

"From now on, Huyang City only needs to pay twenty percent of the residence fee to the God Kings. Everything else belongs to Brother Luo He, including all matters of administration in Huyang City... it's all for Brother Luo He to decide."

"From now on, Huyang City is Brother Luo He's city," Marquis of Jiu Jiang looked at Luo Feng, "I find it hard to repay the great kindness of Brother Luo He this time. You must accept Huyang City."

Luo Feng was taken aback.

Granting a city?

After all, Huyang City was within the territory of Yu Kingdom, so paying twenty percent of the residence fee to the God Kings was mandatory. The other eighty percent of the residence fees, including some of the city's resource outputs, would all go to him.

"Marquis of Jiu Jiang, it won't be long before I head to the Flame Wind Ancient Country. I won't be able to oversee this Huyang City," Luo Feng said.

"Brother Luo He, with your current reputation… if you leave a Divine Power Incarnation here, who would dare offend?" Marquis of Jiu Jiang immediately said, "As for city management, naturally, there are subordinates to handle it."

"Also, I have a selfish motive. After Brother Luo He leaves Huyang, Marquis Liu Yin is likely to get ideas again," Marquis of Jiu Jiang looked at Luo Feng, "But if Huyang City becomes Brother Luo He's city, Marquis Liu Yin will definitely not dare to offend again. In reality, I am using a city... to preserve my entire fief."

Luo Feng looked at Marquis of Jiu Jiang's expectant gaze, thought for a moment, and then nodded: "Alright, then I'll accept it."

Huyang City was the first city he lived in when he came to the Land of Origin, holding some special significance.

And indeed, his presence in the city would definitely deter Marquis Liu Yin from harboring any thoughts of offence.

"Hahaha, thank you, Brother Luo He," Marquis of Jiu Jiang was overjoyed.

The entire fief's income, besides the three large cities, included one hundred eighty-nine ordinary cities. While the income from a single ordinary city was lower, the total could match up to two large cities.

In actuality, by giving away one-fifth of his fief, he retained the greater portion and also secured a Pinnacle-level strong ally.

It was extremely worthwhile!

"With Brother Luo He's intervention, this war has come to an end," Marquis of Jiu Jiang said, "Now that Heartshadow Sect is trapped inside the city, what does Brother Luo He plan to do with them?"

"What to do?" Luo Feng pondered.

"The core treasures of this Heartshadow Sect are hidden by the two Primal Chaos Realm cultivators who have escaped," Marquis of Jiu Jiang said, "The Heartshadow Sect's eternal true gods don't have any treasures of great value on them. It's not worth Brother Luo He's time to deal with them."

"In that case, I'll send my men to loot Heartshadow Sect, and all the treasures will belong to Brother Luo He. As for the Heartshadow Sect itself, let them go. That way, the outside world can't accuse Brother Luo He of being a bully," Marquis of Jiu Jiang said, "What does Brother Luo He think?"

The Primal Chaos Realm cultivators, as long as they do not offend him, generally don't bully the weak.

"Loot their treasures, and let them go?"

Luo Feng shook his head lightly, "When they were rampaging and massacring freely within Huyang City, they had already offended me."

Marquis of Jiu Jiang was taken aback.

"Since they like to massacre and loot so much, there's no need for Heartshadow Sect to exist anymore, they can be disbanded," Luo Feng said, "As for those eternal true gods, investigate each one. Not a single one who participated in the massacre within Huyang City shall be spared, execute all of them. As for those who didn't partake in the massacre, let them go."

"Disband Heartshadow Sect?" Marquis of Jiu Jiang couldn't help but say, "Heartshadow Sect still has two Primal Chaos Realm cultivators out there... doing so would absolutely offend those two."

"If offense leads to offense, so be it, what can they do?" Luo Feng looked at Marquis of Jiu Jiang, "I don't have as good a temper as Great Saint Jiuyuan."

```
```

Chapter 114: Episode 2 Chapter 40: The Two Factions of the Land of Origin

Marquis of Jiu Jiang chuckled upon hearing this, "Alright, all according to Brother Luo He's wishes."

He also secretly marveled that Brother Luo He's close circle included merely an old servant and a disciple, which allowed him to act without much concern. How enviable indeed. Fortunately, such a pinnacle being of the Primal Chaos Realm was his friend.

"Huyang City shall belong to Brother Luo He, but I still need to report to the Monarch," said Marquis of Jiu Jiang. "Mainly because the Five Great Families originally managing the city owner's mansion need some arrangements."

"Then I'll leave the trouble to Marquis of Jiu Jiang," Luo Feng nodded.

During their conversation, they decided the fate of all parties in Huyang City.

...

Within Huyang City, the Heartshadow Sect was now anxious and fearful.

"Marquis Liu Yin has retreated, what shall we do?" The Master of the Heartshadow Sect, the Eighteen Elders, and Qiu Yi were all somewhat distraught. For now, their lives were at the mercy of Marquis of Jiu Jiang's side.

"What can we do? With Great Saint Luo He and Marquis of Jiu Jiang

both in the city, we have no power to resist and can only accept whatever comes."

"Considering the elders, they should spare our lives. As for the treasures? They are likely to be seized."

They too were discussing this.

Suddenly—

A wave of the Void swept across the entire Heartshadow Sect's territory. All the eternal true gods of the Heartshadow Sect were powerless to resist and were all transported by the Void.

"Where is this?"

"Have we been captured?"

When they looked around, they discovered they had appeared inside a vast prison.

The Master of the Heartshadow Sect and others were well aware that they had been easily captured, and since it involved a Void transport, it surely was Marquis of Jiu Jiang himself who had made a move.

In the prison, one of Marquis of Jiu Jiang's trusted aides' commanders, 'Jiang Yuyou,' stood with a group of subordinates, coldly observing the massive assembly of thousands of eternal true gods beside him, with Morosa and Moyu Qingyan standing by his side.

"By the order of City Lord Luo He, investigate the crimes of Heartshadow Sect for plundering Huyang City and slaughtering the citizens of Huyang," said Jiang Yuyou.

Upon these words, the multitude of eternal true gods from the Heartshadow Sect trembled.

An investigation into the looting and slaughtering?

"Elders, we've been captured alive by Great Saint Luo He and Marquis of Jiu Jiang, yet they still want to investigate our plundering and

slaughters. What are we to do?" simultaneously, the Master of the Heartshadow Sect contacted the two elders from the Primal Chaos Realm.

"Endure."

"Now my Heartshadow Sect, cannot provoke Great Saint Luo He!"

The responses from the two elders were one brief and another slightly explanatory.

"Just let them kill us?" the Master of the Heartshadow Sect continued to inquire. Were the two elders simply watching with their eyes open?

One elder cut off the communication outright.

"It depends on whether Great Saint Luo He is merciful," another elder responded and also cut off the communication.

The two Primal Chaos Realm elders were already weary.

Previously, it was because of the disciples of the Heartshadow Sect acting recklessly for a long time, which accidentally led to the death of a descendant of the Great Saint Jiuyuan, provoking his wrath and resulting in the death of one elder while the other two fled for their lives.

The Great Saint Jiuyuan, at least, still had many scruples in his actions.

This Great Saint Luo He, capable of repressing Marquis Liu Yin and with fewer attachments, if provoked further, the two elders might have to die again.

"Elder, Elder."

No matter how the Master of the Heartshadow Sect tried to communicate, both elders had cut off their communication.

"By the order of City Lord Luo He, since the Heartshadow Sect commanded the looting and slaughtering, the entire sect no longer

needs to exist and shall be disbanded," Jiang Yuyou said. "Those Heartshadow Sect disciples who engaged in looting and slaughtering are to be executed without mercy."

The thousands of eternal true gods present all trembled in fear.

The sect is no more, to fight|to kill?

"Those who were only ordered to loot and did not participate in slaughtering might be dealt with less severely," Jiang Yuyou added.

"Deal with less severely?" Many eternal true gods breathed a sigh of relief—the ones who truly committed ruthless slaughters were only a minority.

"The Heartshadow Sect has two elders in the Primal Chaos Realm, dare you kill us?"

"Both Great Saint Luo He and Marquis of Jiu Jiang are from the Primal Chaos Realm, don't bully the weak!"

Instantly, many of the eternal true gods who had participated in the slaughters became frantic and hysterical.

However, under the Formation of the city owner's mansion, they were easily restrained, making them unable to speak. With Luo Feng and Marquis of Jiu Jiang presiding over the city owner's mansion, how could the eternal true gods of the Heartshadow Sect resist?

"My city owner's mansion monitors the entire city, and many scenes of looting and slaughtering were recorded at the time. Moreover, the Heartshadow Sect itself also recorded the events of looting and slaughtering at that time," Jiang Yuyou spoke with Morosa beside him. "Any participant in the slaughters will not escape, and similarly, no eternal true god will be killed by mistake."

"Our master is still very merciful," Morosa indifferently observed the group of eternal true gods from the Heartshadow Sect.

"Great Saint Luo He is merciful."

"Those who enjoy slaughtering deserve to be killed."

"Those weak citizens had absolutely no power to resist, there was no need for slaughtering. It's just some disciples recklessly causing disasters, dragging us down."

"Still, Great Saint Luo He is merciful, sparing us."

Those eternal true gods of the Heartshadow Sect who survived were singing praises.

What does the sect matter as long as you are alive?

The sect was already decaying and splitting. It seems better now to be completely extinguished.

...

Royal Capital of the Yu Kingdom, in the cave mansion of Her Royal Highness the Princess 'Yushui Tianyu.'

"What?"

Yushui Tianyu had received detailed intelligence on the battle in Huyang City.

Suddenly, a Pinnacle of Primal Chaos Realm existence had risen, which might seem insignificant in the two Ancient Countries, but in the second and third-tier border nations, it was a significant event. Customers who had long-term intelligence subscriptions with the Flame Wind Association's Dark Hall received the news immediately.

"Brother Luo He is actually a Pinnacle of Primal Chaos Realm existence hiding in Huyang City?" Yushui Tianyu could hardly believe it.

As the daughter of the Monarch of Yu Country, she held a high position and was well-informed. She knew very well what a Pinnacle of Primal Chaos Realm existence meant! In the border nations, such an existence could already decide some of the order within the country. Even the imperial clansmen of the two Ancient Countries had to restrain themselves in front of such entities.

"Summon the Black Butcher and Suo Zi here," Yushui Tianyu

instructed.

"Yes," replied an attendant from outside the hall. Soon, the Black Butcher arrived with his disciple 'Suo Zi', both behaving respectfully. Their days had indeed been much more comfortable since they came to the Royal Capital.

"Your Highness," the Black Butcher and Suo Zi greeted respectfully. Suo Zi looked slightly confused, as he was merely a disciple of the Black Butcher and normally had no right to meet Her Royal Highness the Princess.

"I just received some news today," Yushui Tianyu said, smiling at them. "Marquis Liu Yin made a move personally in Huyang City."

The Black Butcher and Suo Zi were shocked.

He really made a move?

"Luo He intervened and defeated Marquis Liu Yin," Yushui Tianyu continued, smiling as she observed the astonishment of the Black Butcher and Suo Zi. She had been equally shocked when she first received the news.

"This... this..." the Black Butcher and Suo Zi could hardly believe.

"The true identity of Luo He is actually that of a Pinnacle of Primal Chaos Realm existence who was hiding in Huyang City," Yushui Tianyu revealed. "The days he spent in hiding there, you two were able to make his acquaintance; consider it a twist of fate on your part."

"You may leave now," commanded Yushui Tianyu.

"Yes." The Black Butcher and Suo Zi left respectfully.

Yushui Tianyu watched their retreating figures: "They might be of great use in the future."

******

Flame Wind Pavilion.

Emperor Chu Yu and Luo Feng sat down, with the Deputy Pavilion Master accompanying them on the side.

"Brother Luo He, you really had me fooled," Emperor Chu Yu laughed, "I thought you were truly an eternal true god."

"I've been hiding in Huyang City, immersed in the study of Body Refinement Techniques," Luo Feng explained.

Having Morosa with him meant he had to act somewhat normally.

Proactively admitting to being a reclusive Pinnacle of Primal Chaos Realm was the best excuse. The outside world might suspect that he was a reincarnated powerhouse? Such suspicions didn't matter in the least.

"Since you've been a Primal Chaos cultivator for a while now, and I've also made the breakthrough into Primal Chaos Realm," Emperor Chu Yu said, "then we can prepare to return to Flame Wind Ancient Country."

"I can leave at any time," Luo Feng said.

Precisely because he possessed extensive intelligence from both the Mountain Sitting Guest lineage and the Duan Dong River lineage, Luo Feng was very curious about the Flame Wind Ancient Country and indeed wanted to experience it for himself. Moreover, the Primordial Ancestor was also in the Flame Wind Ancient Country, and he had told him he'd meet up there.

"You should know that the true powerhouses of the Land of Origin are mostly in the two Ancient Countries," Emperor Chu Yu stated. "For instance, in the cultivation of Primal Chaos Realm, reaching the Pinnacle in the border nations usually means no further advancement. But in the two Ancient Countries...

there are stronger and special legacies, making it possible for those in the Primal Chaos Realm to possess the strength of ordinary Godly Kings."

"Such power is considered the limit of the Primal Chaos Realm by our two Ancient Countries, often referred to as 'Transcendence of Primal

Chaos Realm' tier," Emperor Chu Yu explained.

"And the cultivation at the Godly King Tier, we two Ancient Countries far surpass any other nation."

"Like the Monarch of Yu Kingdom, the Master of the Shi Kingdom, and other powerful God Kings who established second-tier nations, nearly all are ministers of the two Ancient Countries," Emperor Chu Yu said. "Throughout the Land of Origin, apart from the indigenous people, all other powers choose to ally with one of the two Ancient Countries."

Luo Feng nodded.

He knew this.

The border nations of the Land of Origin must choose a side to support! Only the first-tier national powers could interact with both ancient nations.

Yu Kingdom, Shi Kingdom... each had only the Flame Wind Pavilion within their territories.

"In the entire Land of Origin, it's actually the two Ancient Countries that make the rules," Emperor Chu Yu stated.

All other powerhouses revolved around them.

"The territories occupied by the two Ancient Countries are also at the center of the Land of Origin, and all of the most precious resources of the Land of Origin are in the hands of the two Ancient Countries," Emperor Chu Yu said, looking at Luo Feng. "Likewise, the competition within the Ancient Countries is very fierce."

"In my Flame Wind Ancient Country, there are many internal factions."

"The Imperial Thirteen Branches, disciples under the Emperor, disciples under the Minister God Kings, and free cultivators like yourself, Brother Luo He. The internal competition is extremely fierce," Emperor Chu Yu stated. "There are so many precious resources, but many competitors, ultimately the strong get stronger,

and the weak become resource-deprived."

Emperor Chu Yu looked at Luo Feng, "Upon my return to the Ancient Country, I will need your help. Of course, I will also help you in return."

"Understood, I've long heard that the two Ancient Countries are filled with formidable figures and fierce competition," Luo Feng said.

Seeking revenge for his master, the Mountain Sitting Guest, was not an easy task.

Even when three Masters of the Shi Kingdom joined forces, his master, the Mountain Sitting Guest, was still able to escape. Obviously, at the Godly King Tier, completely defeating a Godly King is very difficult.

For himself to be able to kill the three Masters of the Shi Kingdom, he must far surpass them...

To grow to that level, he currently lacked even a suitable legacy! The best course of action was to go to the Flame Wind Ancient Country.

Competition?

He had never been afraid of competition!

"Apart from internal competition, there's also the conflict with the Thunder Ancient Country," Emperor Chu Yu said. "The border conflicts between Flame Wind Ancient Country and Thunder Ancient Country have never stopped. Minor conflicts involve battles at the Primal Chaos Realm level. Major conflicts... that's when the Godly Kings intervene."

"I've heard of it," Luo Feng grinned, his fighting spirit soaring within.

Warfare?

A Primal Chaos Realm perfect divine body with the Five Great Transformations Technique fused within, afraid of warfare?

"Good," Emperor Chu Yu looked at Luo Feng's confident demeanor,

feeling even more gratified. Frankly, he was somewhat worried about the future since he was a newly advanced breakthrough and his strength was relatively weak. In the early stages of growth, he really needed assistance from the ministers.

"Soon, Flame Wind Pavilion will have a new Pavilion Master arrive. Once the affairs are handed over, we can return," Emperor Chu Yu also looked forward with anticipation.

———

Thanks to the new Alliance Hierarch for the reward: House Immortal Qi Tian

Chapter 115: Volume 2 Chapter 41: The New Huyang City (End of This Volume)

The ancient Huyang City, after battles between two Pinnacle of Primal Chaos Realm, finally regained its peace.

"What a pity for my weapon, the bit of Cosmic Sand I had accumulated was all taken away."

"Being alive is good enough."

"Let's hurry up and leave."

That night, a large number of eternal true gods, true gods of void space, and true gods from the Heartshadow Sect were freed!

The eternal true gods of the sect, many of whom were carrying large mechanical treasures and relics of the sect, now had them all confiscated, leaving not even a single weapon behind.

The true gods of void space, the disciples on the level of true gods, were not troubled though.

"With no Heartshadow Sect, Marquis Liu Yin and the two ancient ones don't care about us, where do we go now?"

"With our strength, where can't we go?"

"Huyang City is on the border of two countries, who knows if it will start up again, I'd rather go to an ordinary city."

"Brother Yufang, let us go together."

The eternal true gods were still quite confident, having once been

disciples of a great sect, even without weapons or treasures, their mastery of secret techniques was profound, and many began leaving Huyang City for surrounding cities.

"Great Saint Luo He hates evil like an enemy, dislikes dark forces. His Huyang City is still suitable for living." Some eternal true gods also had families, and did not wish to keep wandering.

Many of the true gods of void space and lesser true gods from the Heartshadow Sect, being weaker, preferred not to travel far and chose to settle in Huyang City.

"Our treasures, Great Saint Luo He did not take them away, he is very merciful." These true gods of void space and true gods held a favorable view of Luo Feng.

...

Over eighty percent of the eternal true gods released from the Heartshadow Sect left, but the majority of the middle and lower tiers stayed in Huyang City, determined to settle down there. This substantially increased the number of powerful individuals in Huyang City.

"Huyang City will be lively from now on." From the walls of the city owner's mansion, Luo Feng looked out over the peaceful city beneath the night sky, now his own city.

"Master." Morosa appeared beside him, "All the treasures of the Heartshadow Sect have been sealed, all personally overseen by me, and have been completely tallied."

"How are they?" Luo Feng asked.

"Right here." Morosa handed over an Ink Jade Bottle to Luo Feng, "All treasures and assets are inside."

Luo Feng took it and inspected it.

"The wealth of the Heartshadow Sect was stored in the Flame Wind Association's Dark Hall, managed by two Pinnacle of Primal Chaos Realm individuals. Normally, only through the application of the

Master of the Heartshadow Sect would the two Pinnacle of Primal Chaos Realm release some amount." Morosa said, "What we were able to seize were just some of the tangible assets of the Heartshadow Sect."

Luo Feng wasn't surprised, with two Pinnacle of Primal Chaos Realm individuals present, the truly core treasures of the Heartshadow Sect were definitely hidden by those two.

"The assets we seized belong to thousands of eternal true gods from the Heartshadow Sect, probably including those they plundered from all over Huyang City.

Now mixed together, making them hard to identify, totaling more than 2.9 billion Cosmic Sand, and also about 3.7 billion Cosmic Sand worth of weapons and treasures, including the warship from the Flame Wind Ancient Country, sect-protecting treasures, many large treasures, etc., all have been accounted for in the estimates."

Luo Feng nodded, totaling over six billion Cosmic Sand.

Perhaps any of the two Pinnacle of Primal Chaos Realm ancestors from the Heartshadow Sect would have accumulations surpassing these.

Like Marquis Liu Yin, a single weapon was worth fifty billion. The amount they use on their own cultivation was likely much more.

"Their sect's heritage, not to mention the weaker inheritances, in total there are 122 types of Primal Chaos Realm inheritances, five types at the Godly King Level.

But these five Godly King Level inheritances only have parts up to the Primal Chaos Realm." Morosa said, "According to interrogations, the subsequent parts beyond the Primal Chaos Realm are in the hands of the two from the Heartshadow Sect."

Luo Feng had already discovered five Godly King Level inheritances inside the Moyu Bottle, pervaded by divine power, he examined them.

All stopped abruptly at the Primal Chaos Realm.

The subsequent parts? Not at all.

"Getting a suitable Godly King Level inheritance for oneself really isn't easy." Luo Feng sighed internally.

Any power tightly controls their inheritances! Wanting a top-notch inheritance? There's a price to pay! Considering becoming a guest elder for the Flame Wind Ancient Country sounds splendid. But he could guess with his eyes closed, acquiring any inheritance comes at a cost.

"Becoming a guest elder, at least there would be opportunities to contend for resources, to battle for inheritances." Luo Feng understood this, without being a guest elder, he wouldn't even have a chance.

******

That night.

The original ruling class of Huyang City, the 'Five Great Families', most of their descendants were very unwilling because the owner of the city had become Great Saint Luo He! Their days of eating and drinking in luxury were over!

"Flame Wind Pavilion has already arranged for Flying Boats, they will escort the family away, everyone prepare quickly." Many of the Meiwu Clan's descendants were not willing, but the operational order of the upper levels of Yu Kingdom was determined by Godly Kings and those in the Primal Chaos Realm.

The local lord 'Marquis Jiu Jiang' voluntarily gave Huyang City to Luo He! The Monarch of Yu Country too was pleased to see this scene unfold.

These major family branches didn't even have the right to object.

"How is the ancestral land arranging for us? Are they sending us to other large cities?"

"There are only so many large cities in Yu Kingdom, no chance of being settled elsewhere, only to go back to our ancestral land."

"Go back to our ancestral land, and abide by the arrangements."

Before as the ruling family, many family members held important positions in Huyang City, even those without any position received quite a bit of Primal Chaos Crystal every cycle. Now all these were gone.

...

Flame Wind Pavilion arranged Flying Boats, and that night they escorted the Five Great Families away.

Chapter 116: Volume 2 Chapter 41: The New Huyang City (End of This Volume) - 2

"Father," Moli Meng looked at his father, Moli Xiao.

"From now on, follow the City Lord closely," Moli Xiao smiled and said, "If possible, I even want to follow the City Lord. But I have my duties, and with the orders from the Royal Capital, I can only comply."

In the previous Huyang City, the Lord of Huyang City managed many affairs, and Moli Xiao handled the military matters. Both of them were truly getting things done.

When the Yu Kingdom's Capital withdrew its administration layer, they completely empowered Luo Feng. They also transferred Moli Xiao and others, as Moli Xiao was not one of those disposable members of the families; he was of significant use.

"I'm taking most of the family heirs with me, leaving only a few for you to take care of," Moli Xiao instructed.

"Don't worry, Father," Moli Meng nodded. His father had also left him with three family Eternal True Gods as assistants.

Moli Xiao nodded with a smile.

This time, it was Luo Feng himself who spoke up, inviting Moli Meng to stay! Moli Meng had previously managed many affairs within the city, and was very familiar with, and capable of, managing a city.

As for Moli Xiao? Luo Feng wasn't so concerned about him. Because the future Huyang City didn't need the military deterrence!

...

City Owner's Mansion.

Luo Feng looked at Moli Meng and Moyu Hu before him and smiled, "From now on, you two will be the Deputy City Lords of Huyang City. You can discuss and solve many of the major and minor affairs, and if you can't solve them, then report back to me."

"Yes, City Lord," both Moli Meng and Moyu Hu were exhilarated.

In the previous Huyang City, it was the leaders of the Five Great Families who jointly managed affairs. Moli Meng had never had as much power as he did now! And now, he was following someone from the Pinnacle of Primal Chaos Realm; Moli Meng very clearly saw the great opportunity he had encountered.

Moyu Hu was even more excited; previously serving under Moli Meng, he was also very familiar with many of the city's administration affairs.

"I never thought that I, Moyu Hu, would actually become a Deputy City Lord of Huyang," Moyu Hu felt that the day he encountered City Lord Luo He in the wilderness was truly a turning point in his fate.

Luo Feng nodded.

Managing a city was not something he had the energy for, but he also wouldn't just trust one side.

"I'll state two new rules for the future," Luo Feng said.

Moli Meng and Moyu Hu immediately listened attentively.

"First, the future Huyang City will have no Dark Forces," Luo Feng stated.

Both Moli Meng and Moyu Hu were familiar with city affairs, and they both realized the impact of this rule! Many ordinary businesses almost had their profits taken by Dark Forces, sometimes struggling and still ending up at a loss.

Without the Dark Forces, the commerce in Huyang City would definitely flourish.

For cultivators wanting to settle down, the attractiveness would also greatly increase.

"Second, the future Huyang City will not need the Huyang Legion," Luo Feng continued, "The Huyang Guards will stay and are responsible for maintaining order within the city."

The Huyang Legion was used to deter enemies and to handle some powerful adversaries.

In one's own city, a legion was not needed.

"These are the main two rules; for other detailed management plans, you two first discuss them and then submit them to me," Luo Feng said, "My requirement is that the administration of the City Owner's Mansion is as streamlined as possible."

"Yes," both Moli Meng and Moyu Hu responded.

"City Lord, with the recent war, there has been a minor loss of citizens in the entire Huyang, and currently there should be around five hundred billion citizens," Moli Meng reported, "Every epoch, the Residence Fee collected amounts to about fifty million Cosmic Sand! The income from the Primal Chaos Ruins each epoch is about six million Cosmic Sand!

Twenty percent of the Residence Fee is remitted to the Royal Capital, and the rest is needed to maintain the entire city's operation... what can be presented to the City Lord should be around thirty million Cosmic Sand per epoch," Moli Meng explained.

Luo Feng understood.

It might seem not very much, but this income was consistent every epoch! Over a thousand epochs, that would be a total of thirty billion Cosmic Sand.

Of course, in normal realms of the Primal Chaos, the long years would breed a large number of races, and the cumulative costs of

cultivating a massive number of races would be substantial.

His own family, all in the Primordial Cosmos Region, generally had very little power, and most of the family members couldn't even become 'Immortal'.

In the Land of Origin, clans from major families began as True Gods! When totaled, a large number of true gods of void space, and even over a thousand eternal true gods were common, and the expenditures for each era were immense.

"Even the Imperial Clan of the Flame Wind Ancient Country doesn't dare to openly provide resources, but still requires the offspring of the clan to compete for them," Luo Feng secretly lamented.

Perhaps some ancient beings, in order to rid themselves of the burdens of their vast clans, deliberately chose to reincarnate.

Sometimes, when a family proliferates to a certain extent, it instead becomes a burden to some ancient beings.

"City Lord," Moyu Hu respectfully said, "Some cultivators who have joined the city owner's mansion also want to receive some cultivation inheritance."

"As long as they have enough merit points, they will have the opportunity to exchange for the inheritance," Luo Feng nodded.

Why do cultivators follow the powerful? The key reason is the inheritance.

Without inheritance, relying on oneself to explore, the difficulty increases by a hundredfold or a thousandfold.

"You all may leave now, and quickly organize the management plan for Huyang City," Luo Feng instructed.

"Yes," the two Deputy City Lords responded with ambition and respectfully withdrew.

Morosa had been there all this time, and only now spoke, "Master, the Moli Meng family has several eternal true gods, and there are also

familiar eternal true gods like Gaowu Shui who have taken refuge with them. Their side holds a strong power. Moyu Hu is relatively weaker by much."

"You are mistaken, the Zhu Clan has mostly returned tonight, and at this moment, they are together with Moyu LieFeng," Luo Feng smiled and said, "After all, Moyu LieFeng is the direct disciple of Zhu You. With their master-disciple relationship, the Zhu Clan was the first to take refuge with the Moyu Family."

Morosa then understood.

Luo Feng, even though he greatly trusted Moyu Hu and Moli Meng, still made them constrain each other.

...

Huyang City gradually gained a new order.

The eternal true gods and true gods of the void space, originally plundered by the Heartshadow Sect, were surprised to find that the Dark Forces had completely disappeared? And their fixed assets were also distributed back to them by the city owner's mansion.

"Life will be easier from now on," many ordinary merchants felt immensely relieved.

The Black Butcher, initially dependent on Luo Feng, rid themselves of much extortion and blackmail.

And now, the entire Huyang City, merchants no longer worried about the Dark Forces, and commerce was even more prosperous than before.

"Huyang City has become better than before," Gaowu Shui, leading a squad of Huyang Guards, looked upon the bustling city and smiled, "With the Pinnacle of Primal Chaos Realm situated here, more and more ordinary True Gods are coming to Huyang City."

At another location at the moment.

Luo Feng, with a servant and a disciple, had already met up with

Emperor Chu Yu and his party.

"It seems your two Deputy City Lords are managing Huyang City quite well," Emperor Chu Yu smiled and said, "Whether Huyang City can become even better depends on Brother Luo He's strength. The more powerful you become, the more prosperous this city will become."

Luo Feng, looking at the city, smiled and said, "It will definitely become more prosperous."

"Let's go."

Immediately, Emperor Chu Yu used a space-time treasure to connect to the distant Flame Wind Ancient Country.

Whooosh~~~~

In front of them, the void twisted, and a space-time passage appeared.

Emperor Chu Yu, along with the Deputy Pavilion Master and Luo Feng with Morosa and Moyu Qingyan, the five of them flew into the space-time passage together.

(End of this volume)

Upon arriving in the Land of Origin, Luo Feng's first stop was Huyang City. Now that the Huyang City arc has concluded, Luo Feng, after becoming a Pinnacle of Primal Chaos Realm, will officially embark on the next major storyline.

Tomato will take a break tomorrow to prepare well for the upcoming storyline, and will update the third chapter the day after tomorrow.

Chapter 117: Episode 3: Showdown in Chu Capital - Chapter 1: Guest Elder

Flame Wind Ancient Country, Chu Capital, outside the East City Gate.

At this moment, a host of elite troops respectfully awaited outside the East City Gate, along with numerous large ships and Flying Boats stationed in the vicinity, all eagerly anticipating the arrival.

"I heard that the newly promoted Marquis Chu Yu was directly appointed as a First-Rank Marquis." On one of the Flying Boats, a group of Imperial Clansmen and Royal Descendants gathered together, also waiting.

"Marquis Chu Yu, wholly devoted to the Law Lineage, also commands the unlimited godly bodies! With the natural talent and potential of the unlimited godly bodies, it's natural that he was made a First-Rank Marquis as soon as he broke through." A member of the Imperial Clansmen said with uncontainable pride.

"Uncle Chu Yu once gave me guidance! Possessing the unlimited godly bodies, his status within the clan was always special. Now that he has broken through to the Primal Chaos Realm, he has immediately become a core member of Emperor Chu's Lineage."

All these Imperial Clansmen belonged to the Emperor Chu's lineage and now shared in this honor.

"Impressive."

"Marquis Chu Yu is truly remarkable."

The Royal Descendants, on the other hand, were busy singing his

praises. In the very heart of the Flame Wind Ancient Country were the thirteen branches of the Imperial Family, with other royal families substantially inferior in status. As for families at the Primal Chaos Realm?

Unless they gave birth to a being who achieved Transcendence of the Primal Chaos Realm, such families were quite mediocre, unable to mingle in the circles of the Imperial and Royal Families.

On another luxuriously large ship.

Two figures were drinking together, served by maidservants at their sides.

"A First-Rank Marquis is truly different, endowed with a First-Rank Marquis Mansion, granted Royal Guards. Even his fief is a 'first-class large city.'" A rather plump man exclaimed, "He is even offered two Guest Elder positions."

"And us? We third-rank marquises have our fiefdoms as small cities, smaller Cave mansions, bestowed with some Royal Guards. We don't even qualify to apply for the position of a Guest Elder," the plump man grumbled.

The tall woman sitting beside him laughed heartily, "We follow the Bloodline Cultivation System and ascend to the Primal Chaos Realm with the help of our bloodlines. Thereafter, we must transition to cultivating the Law Lineage. The laws are too difficult for us. In this life, I only hope to advance further to become a Second-Rank Marquis. As for a First-Rank Marquis, I dare not even dream of it."

"You still have hope, at least you currently possess Middle Layer of the Primal Chaos Realm strength. And I..." the plump man pointed to himself, "Among the 29 Marquises from Emperor Chu's Lineage including Marquis Chu Yu, only two are of ordinary Primal Chaos Realm strength, and I am one of them!

I have been at the Primal Chaos Realm for more than three millennia, still only ordinary Primal Chaos Realm. Far too much behind the top echelons of the Primal Chaos Realm."

While these two Marquises were chatting, they suddenly noticed the distant space-time ripping apart, forming a space-time passageway.

"Here they come." The two Marquises perked up energetically.

At this moment, other Marquises, Imperial Clansmen and Royal Descendants, Royal Guard Army, and so on, all turned their attention toward the space-time passage in the distance.

From within the space-time passage, a total of five figures flew out.

Emperor Chu Yu was leading the Deputy Pavilion Master, while Luo Feng was accompanied by Morosa and Moyu Qingyan.

"Hmm? The man beside Marquis Chu Yu?"

"He walks side by side with Marquis Chu Yu, obviously holding him in high esteem."

All parties took notice of Luo Feng in black attire.

"He is none other than the Great Saint Luo He from Yu Kingdom." Some well-informed Marquises and Imperial Clansmen had already learned of the strong figures of the Land of Origin, and upon seeing Luo Feng, they immediately confirmed his identity.

"This Great Saint Luo He, in the battle at Huyang City, even overpowered Marquis Liu Yin. His cultivation of the physical body has reached an inconceivably advanced stage, capable of stepping on the ground while his head touches the stars!"

"This is an entity at the Pinnacle of the Primal Chaos Realm."

"And he's with Marquis Chu Yu? Could it be that the first Guest Elder Marquis Chu Yu chose was him?"

...

Luo Feng and Emperor Chu Yu used the space-time passageway to travel directly from Huyang City in Yu Kingdom to the Flame Wind Ancient Country's Chu Capital. This made Luo Feng quite reflective: "Space-time transport is indeed profoundly mysterious. I too must

rely on space-time treasures to perform space-time transport."

The Primal Chaos Realm, almost none can transport through space-time by themselves.

All rely on treasures.

A treasure that can be used for long-term space-time transport is too valuable. Luo Feng possessed a one-time-use Command Token, which would be destroyed after use. A space-time transport Command Token could only be activated by someone at the Primal Chaos Realm level, selling for 100 million Cosmic Sand. Even for those at the Primal Chaos Realm, it would be used only in critical moments.

Emerging from the space-time passageway, Luo Feng's gaze fell upon the troops outside the majestic city's East Gate and the many ships and Flying Boats that had come to welcome them.

"Our respects to Marquis!"

The army cried out in unison, saluting with respect.

Emperor Chu Yu watched this scene and smiled faintly, speaking to Luo Feng at his side, "This is the Royal Guard Army bestowed upon me after becoming a Primal Chaos Realm cultivator. These are elite troops cultivated by our Emperor Chu's Lineage."

Luo Feng observed the Royal Guard Army, consisting of a thousand eternal true gods and a massive number of true gods of void space. Even outside the city, under the command of their battalion commander, they were naturally as one, far more imposing than the army of Marquis Jiu Jiang or Heartshadow Sect's forces.

In the Flame Wind Ancient Country, this elite Royal Guard Army would be capable of sweeping through the forces of the Heartshadow Sect and Jiu Jiang's army arrays.

"Father!"

"Father!"

In front of the army array, a majestic woman with three young men

excitedly looked at Emperor Chu Yu. Their father had been wandering and cultivating abroad and had unexpectedly become a Primal Chaos Realm cultivator and even a First-Rank Marquis! This was wealth descending from the heavens.

Whoosh!

Emperor Chu Yu, accompanied by Luo Feng and the others, approached the army array and glanced at the three young men, feeling somewhat vexed.

"Chu Yu, upon hearing the news of your being ennobled, I immediately rushed back from Wind Leaf City with the three children." The majestic woman spoke.

"Father, the news of you becoming a First-Rank Marquis has spread throughout the entire Chu Capital City."

"There are only seven First-Rank Marquises in total within our Emperor Chu's Lineage, and father is now one of them." The three sons were thrilled.

Emperor Chu Yu nodded and then introduced Luo Feng beside him, "This is my dear friend Great Saint Luo He. When you see him, show the same respect as you would for me, without the slightest disrespect."

"We pay our respects to Uncle." The three young men immediately saluted deferentially, realizing that this man must be a powerful ally invited by their father.

"Pleased to meet you, Great Saint Luo He." The majestic woman also greeted politely.

"Madam, you are too kind," Luo Feng said with a smile. He could tell that the relationship between Emperor Chu Yu and this lady must be quite ordinary; even after such a long time apart, there wasn't a trace of closeness when they met again.

Emperor Chu Yu, on the other hand, walked over to an old servant next to the three children and was quite affectionate.

"Marquis," the old servant said with an emotional expression.

"Elder Zheng, it's been a long time," Emperor Chu Yu looked at the old servant, who was merely a true god of void space level.

"The old servant has finally seen Your Highness become a Marquis, and a First-Rank Marquis at that," Elder Zheng said with great excitement.

This old servant was left behind by Emperor Chu Yu's mother, and had been following and taking care of him since he was at his weakest. Known as a servant, he was in fact as close as kin.

While they were gathering as a family—

"Chu Yu!"

"Brother Chu Yu!"

The various Marquises of Emperor Chu's Lineage made their appearance.

Emperor Chu Yu looked up and saw several Marquises of considerable status within the family, coming to meet him with great enthusiasm.

Luo Feng merely watched everything unfold. Before coming to the Flame Wind Ancient Country, Emperor Chu Yu had given him detailed information on the truly top powerhouses of the Land of Origin, including detailed records of everyone in the Primal Chaos Realm within the Flame Wind Ancient Country.

Luo Feng compared them one by one.

"Emperor Chu's Lineage has a total of 29 titled Marquises in the Flame Wind Ancient Country, and today seven came to meet Emperor Chu Yu. Of these seven, five are Third-Rank Marquises and two are Second-Rank Marquises," Luo Feng instantly identified them.

As for the First-Rank Marquises whose status was equivalent to Emperor Chu Yu's, not a single one showed up.

"It is said that the competition is fierce within the Royal Family, and the First-Rank Marquises are direct competitors with each other," Luo Feng understood this point.

As for so-called Third-Rank Marquises, the Royal Family has given up on them to some extent, providing only the most basic resources and nothing more!

Second-Rank Marquises, on the other hand, receive many more resources.

Only First-Rank Marquises could access the true core resources of the Land of Origin. They too must engage in brutal competition with each other.

"As a Guest Elder, the threshold to obtain resources is much higher than that of a First-Rank Marquis," Luo Feng was clear on this point. The Flame Wind Ancient Country focuses on cultivating their own First-Rank Marquises of the Royal Family, who are the absolute elite.

And the Guest Elders? Their relationship is more of an exchange.

Guest Elders serve the Ancient Country, earning Merit Points in exchange for some resources. Therefore, the resources they obtain are naturally far less than those of a First-Rank Marquis.

...

After handling many Marquises, Emperor Chu Yu finally took Luo Feng aboard the large ship.

On the ship.

The lady and the three children went to the back, while Emperor Chu Yu and Luo Feng sat in the front hall, gazing ahead at the East City Gate.

"The ones who came to meet us are all Second-Rank Marquises and Third-Rank Marquises," explained Emperor Chu Yu. "There are three Godly Kings in Emperor Chu's Lineage; these Kings, lofty and high above, naturally do not deal with trivial matters. Many affairs are handled and decided by us First-Rank Marquises."

"So they are also here to curry favor with you," Luo Feng understood.

The First-Rank Marquises of the Royal Family are either at the Pinnacle of Primal Chaos Realm with unlimited godly bodies or have Primal Chaos Realm Pinnacle strength. Meeting either condition qualifies one to be a First-Rank Marquis.

Of course, these are the requirements for the Imperial Clansmen.

For cultivators like Luo Feng, who are independent, becoming a Guest Elder is a complicated matter.

"I've already applied for you to become a Guest Elder," Emperor Chu Yu said with a smile. "Under normal circumstances, it should be approved."

"What circumstances would lead to it not being approved?" Luo Feng asked.

"One, if the power isn't sufficient. Two, if there's a problem with identity," Emperor Chu Yu said with a smile. "You have Primal Chaos Realm Pinnacle strength, so power is certainly sufficient. As for identity? Your identity definitely won't be a problem."

Hum~~~

The large ship flew over the vast East City Gate of Chu Capital, and the Royal Guards also entered.

"How can you be sure that my identity won't be a problem?" Luo Feng wondered.

"Our Flame Wind Ancient Country doesn't care much about the origins of its Guest Elders when recruiting them—regardless of whether they are sinners of the worst kind, possess incredibly strong destinies, or even if they are entangled with many horrific karmic ties... Flame Wind Ancient Country doesn't care about any of that!

We only need to verify one thing: that you are not from an alien race," Emperor Chu Yu explained.

"Alien race?" Luo Feng asked.

"That would be any life from outside the Braided Cage," said Emperor Chu Yu. "Our Flame Wind Ancient Country's heritage resources can be passed on to any living being within the Braided Cage. But never to an alien race."

Luo Feng was inwardly shocked.

Alien race?

"By entering Chu Capital, it means that you are a life from within the Braided Cage," Emperor Chu Yu explained. "This Chu Capital City was personally refined by the Ancestor of our Flame Wind Ancient Country as a congratulatory gift for the Emperor. Any alien life that enters this city will be discovered!"

Luo Feng marveled.

The most mysterious and fearsome being in the Flame Wind Ancient Country was that Ancestor Yan Feng, followed by the thirteen Emperors!

"Hm?" Emperor Chu Yu suddenly smiled. "Now that you've entered the city and it's confirmed that you have no issues with your identity, your application to be a Guest Elder has already been approved. You are now officially a Guest Elder of Emperor Chu's Lineage. Congratulations, Brother Luo He!"

Luo Feng smiled: "Thank you, Brother Chu Yu."

Thanks to the two new Alliance Hierarchs who have given their support: A Stubborn Autumn and Eternal Brightness of Hope and Justice.

Chapter 118: Episode 3: Battle of Chu Kingdom - Chapter 2 Emperor Chu's Lineage

Emperor Chu Yu said, "After becoming a Guest Elder of Emperor Chu's Lineage, you will be gifted a Guest Official Token, a cave mansion, and ten servants. This cave mansion is also located within Chu Capital City, and it is quite valuable."

Luo Feng nodded. With Chu Capital being the core of Emperor Chu's Lineage, there are few cities on the Land of Origin richer than it.

The price of a large cave mansion here is likely more expensive than the combined costs of those in the Primal Chaos Armor Sector of Huyang City.

"I know you don't care about these," Emperor Chu Yu said with a smile, "What you care about are the inheritance and resources."

"As a casual cultivator, what I lack are exactly inheritance and resources," Luo Feng said.

Emperor Chu Yu said, "Brother Luo He should have one or two Godly King Level inheritances suitable for himself given his cultivation to the Pinnacle of Primal Chaos Realm. However... in my Flame Wind Ancient Country, we have the best inheritances on the entire Land of Origin, and also those most suitable for you.

It's likely that with a more suitable inheritance, Brother Luo He's strength could advance even further!'"

Emperor Chu Yu also felt a surge of excitement.

If Brother Luo He could advance further, without even reaching the

Godly King Level, just achieving the 'Transcendence of Primal Chaos Realm' would be of great help to him.

"I am quite looking forward to it as well," Luo Feng said.

The outside world thinks I am at the Pinnacle of Primal Chaos Realm, and assumes I should have one or two Godly King Level inheritances suitable for me.

But in reality, I am poorer than the world guesses! I don't even have one Godly King Level inheritance that suits me. The Lie Yuan Technique is indeed beyond Godly King Level, but it is not an 'Origin Great Dao' cultivation inheritance, rather it is a Secret Technique of Willpower.

What I now need is an inheritance related to the practice of the Origin Great Dao. I am desperately in need of those related to the Great Dao of Life and Path of Destruction.

"Once we return to the Marquis Mansion, I will immediately send Brother Luo He to select his inheritance resources," Emperor Chu Yu said, "Each Guest Elder has a free exchange quota of one hundred thousand Merit Points. This is also a gift from Emperor Chu's Lineage to the Guest Elders.

As for more inheritances and resources, they require the Guest Elders to earn Merit Points, and the greater the merits, the more resources you can exchange."

"Even the most core and top inheritances of Emperor Chu's Lineage can be exchanged if the Merit Points are sufficient. Primogenitor Yan Feng is also very benevolent to Guest Elders," Emperor Chu Yu said.

Luo Feng had long understood this.

All other forces on the Land of Origin would join either the Flame Wind Ancient Country or the Thunder Ancient Country. It is indeed due to these two factions that the most valuable inheritances are made accessible.

But the required Merit Points are very high.

"Don't worry, I will arrange some tasks for Brother Luo He that are easy to earn Merit Points," Emperor Chu Yu said with a smile, "The arrangement of numerous tasks by Emperor Chu's Lineage is mainly decided by the First-Rank Marquises."

"Then I will have to trouble Brother Chu Yu," Luo Feng said.

Emperor Chu Yu was still in a good mood.

The competition among the First-Rank Marquises was fierce; they could not obtain many good tasks for themselves and generally could only fully support one or two Guest Officials of Primal Chaos Realm! If the chosen Guest Official was ungrateful, it would be very frustrating.

Emperor Chu Yu had observed Luo Feng for a long time during his period in Huyang City and determined Luo Feng's character before deciding to invest heavily.

"Boom～～～"

The Royal Guard Army's warships, escorting the large boat of Marquis Chu Yu, headed towards the Marquis Mansion together.

At this moment, in a towering structure at the top of Chu Capital City.

Two figures sat opposite each other.

A man, reckless and uninhibited, leaned against the railing, holding a wine flask. He glanced at the distance, his gaze piercing through the spatial barriers, looking at Marquis Chu Yu's grand ship, "That newly appointed Marquis Chu Yu has returned to Chu Capital."

"Marquis Chu Yu?" asked a delicate-looking man with three eyes, also gazing in that direction, "The Marquis Chu Yu who possesses unlimited godly bodies, just breaking through to the Primal Chaos Realm, is already a first-rank marquis."

"Yes, another with unlimited godly bodies," said the reckless man, shaking his head, "Of the seven first-rank marquises, five possess unlimited godly bodies. Yet, I am not one of them."

"Brother Chu Feng, with an ordinary godly body yet reaching the pinnacle level of Primal Chaos Realm, that's truly more remarkable," said the delicate three-eyed man.

The reckless man was none other than 'Marquis Chu Feng', one of the seven first-rank marquises of Emperor Chu's lineage.

"Stop flattering me."

Drinking from his flask, Marquis Chu Feng lamented, "Cultivating through the long years yet unable to advance further, whether it's the transcendence level of Primal Chaos Realm or the Godly King Tier, they both seem so distant. The resources given by our ancestor are just this much. Previously there were six first-rank marquises competing... now it has become seven."

"Marquis Chu Yu, newly advanced, has average strength and foundation, he probably won't be able to compete with you, Brother Chu Feng," said the delicate three-eyed man.

"He has an aide named Luo He, at the pinnacle level of Primal Chaos," Marquis Chu Feng narrowed his eyes, "Even in the early stage, he will compete with me!"

"As a newly appointed marquis, he doesn't need to undertake any tasks for the first thirty eras," said the delicate three-eyed man hesitantly, "This is also the emperor's protection for newly appointed marquises, we can't do much about it."

Putting down the wine flask, Marquis Chu Feng spoke, "Let's not talk about him anymore. By the way, when is Lord Yuan Xiu coming to Chu Capital?"

"Brother Yuan Xiu said he would visit the Godly King in Chu Capital, but when exactly he will come, nobody can say," said the delicate three-eyed man.

"Once we know he's coming to Chu Capital, let me know immediately," Marquis Chu Feng said.

The delicate three-eyed man nodded.

In Emperor Chu's lineage, including members of the Imperial Clan in Primal Chaos Realm, emperor's disciples, guest officials of Primal Chaos Realm, and free agents in Primal Chaos Realm... only two have reached the transcendence level of Primal Chaos Realm, their status comparable to those newly entering the Godly King Tier.

Lord Yuan Xiu, is one such transcendent being of the Primal Chaos Realm! Within his own godly body, he cultivated a prison called 'Dark Mansion'. With just a thought, he can imprison the boundless expanses of the surrounding heavens and earth inside his bodily prison! Naturally, this includes trapping enemies in the prison.

Even ancient Godly Kings, once trapped in his body's prison, would need some time to escape.

With this method, those newly entering the Godly King Tier hold him in considerable awe.

******

As a first-rank marquis mansion, the estate of Marquis Chu Yu spans about ten billion kilometers.

Many descendants of the Marquis Chu Yu lineage, the royal guard army, and a plethora of servants have all moved in. Emperor Chu's lineage has proliferated over endless years, and the amount is incredibly large, with many imperial clan descendants living perhaps even modestly.

Only the higher echelons within the imperial clan lead a luxurious life with abundant resources.

"Chu Yu, there are quite a few within the clan who wish to meet you," a dignified woman whispered, "Should we meet them?"

"Let's invite them all together at the banquet this evening," Emperor Chu Yu said, "Brother Luo He and I have important matters to attend to."

Speaking of which, Emperor Chu Yu took Luo Feng and left.

Luo Feng could only offer an apologetic smile.

"Mother." The eldest son watched his father and Great Saint Luo He depart before he couldn't help but say, "Father has just returned, and many elders of our Imperial Clan and the Wind Leaf family have come to see him, but father has treated them so coldly..."

"Shut up."

The dignified woman looked coldly at her eldest son. "You fool, the matter between your father and Great Saint Luo He is the most important matter for our Marquis Mansion."

"Oh." The eldest son acknowledged softly.

The second and third children said nothing on the side.

Primarily because the mother favored the eldest the most, sometimes the eldest became much more unrestrained, and the second and third were much more cautious.

"The first Guest Official chosen by our Marquis Mansion is this Great Saint Luo He, whose origins are unknown," the dignified woman slightly frowned. "My father is at the Pinnacle of Primal Chaos Realm and is the City Lord of Wind Leaf City, yet he was not invited..."

When he was being welcomed outside the city, she was somewhat annoyed to see the black-robed man 'Great Saint Luo He' accompanying her husband.

In her view, it would have been perfect if her husband and her father, the City Lord of Wind Leaf City, had joined forces.

However, her husband had already made his choice, and he had applied without discussing it with her, so she was powerless to change it.

...

"Luo Sa and Qingyan, you two rest here first. Brother Chu Yu and I are going out for a bit," Luo Feng instructed. Morosa and Moyu Qingyan immediately complied, residing in a separate courtyard within the Marquis Mansion.

Marquis Chu Yu took Luo Feng, and together with a team of trusted aides, they boarded an ordinary-looking Flying Boat and quietly left the Marquis Mansion.

"The inheritance resources chosen by Guest Officials are all within the Emperor's palace," Marquis Chu Yu said. "Actually, any branch of our Royal Clan Thirteen Branches can choose identical inheritances since they were all left by the Primogenitor Yan Feng. However, the resources we can select are different.

The resources that Chu Lineage can select are generally the ones bestowed by our ancient ancestor."

Luo Feng was also somewhat expectant.

Among the thirteen Emperors of Flame Wind Ancient Country, the most renowned was named 'Emperor Qing.'

Emperor Qing, with the most formidable strength, according to all records in the Land of Origin, never encountered an opponent.

Emperor Qing had a total of fifteen direct disciples, among them six were Godly Kings, eight had transcended the Primal Chaos Realm, and one was at the Pinnacle of Primal Chaos Realm! Emperor Qing's lineage was also the most powerful among the Royal Clan Thirteen Branches.

The other twelve branches were not much different.

Luo Feng was already very satisfied to be able to join 'Emperor Chu's Lineage.'

"We have arrived at the Palace of Emperor Chu," Marquis Chu Yu looked ahead.

Previously unnoticed, but as they approached, they suddenly discovered it.

A vast palace, seemingly integrated into the dimness of primal chaos, existed there! From the outside, it seemed to be about the size of Huyang City. However, Luo Feng could feel that space and time were folding inside, and the actual internal space was much larger.

"The Palace of Emperor Chu is where the most descendants of our Chu Lineage's Royal Clan are located," Marquis Chu Yu led Luo Feng inside, unobstructed along the way, and Luo Feng did not see any guards.

"The most descendants?" Luo Feng looked around the empty palace, not seeing even a servant's shadow.

"The ancient ancestor in the Palace of Emperor Chu has created numerous small universes," Marquis Chu Yu explained. "Many useless royal descendants are thrown into small universes; they cultivate and multiply there. The environment in the small universes is very harsh, and they are born very weak. Many descendants never become True Gods in their lifetime."

Luo Feng was astonished.

He knew that some powerful realms of Primal Chaos, like his master Mountain Sitting Guest's World of Jin, along with some other powerful beings, would purchase small universes created by Godly Kings to cultivate their subordinates.

Who would have thought that Emperor Chu's ancient ancestor used them as a punishment for useless royal descendants. Once too useless, they would spend their lives only in small universes.

"Those descendants thrown into small universes, including their offspring, only those who cultivate to eternal true gods have the qualification to leave the small universes," Marquis Chu Yu remarked. "Those who can become eternal true gods under such harsh conditions, once they come out, they will be reused."

Luo Feng could only comment that this ancient ancestor was quite harsh on royal offspring.

...

"These juniors, where do they understand how terrifying the consumption of resources by countless descendants is?" Any movement within the Palace of Emperor Chu could not escape the notice of that ancient existence deep within the palace, who now

opened his eyes to look at Emperor Chu Yu and Luo Feng.

"The best method is to throw ninety-nine percent of the descendants into small universes," Emperor Chu thought. This was the first action taken by 'Emperor Xuan' among the thirteen Emperors of the Flame Wind Ancient Country, and quickly the other twelve Emperors followed suit.

Throwing them into small universes, firstly, can save a lot of resources and reduce the pressure on the emperors. Secondly, it also puts enough pressure on the royal descendants to prevent them from slacking off."

This ancient emperor just glanced at Emperor Chu Yu and Luo Feng and then closed his eyes, ignoring them further.

...

The Palace of Emperor Chu was vast and mysterious, akin to a space-time labyrinth. Only under the guidance of Emperor Chu Yu did Luo Feng arrive at a grand hall.

"Next time, just follow the same route to come to this Inheritance Hall," Emperor Chu Yu said. "Don't trespass into other areas. Once you get lost, who knows, you might end up in some forbidden places."

"I understand." Luo Feng was not interested in the secrets of the Palace of Emperor Chu; he cared only about inheritance and resources.

Luo Feng looked at the grand hall in front of him, the hall was ancient, and two statues guarded the entrance.

"Go ahead, I'll wait here for you," Emperor Chu Yu said.

Luo Feng nodded and immediately walked over.

As he approached the hall doors, the two statues shifted their heads slightly, their eyes fixed on Luo Feng, and he felt an overwhelming terror of death enveloping him.

"The strength of these statue guards, far beyond mine?" Luo Feng thought in surprise. "Even though I have five Transformation Methods, I feel like I can't withstand them."

The two statue guards glanced at him and then resumed their original positions, continuing to silently watch ahead.

Only then did Luo Feng fully step into the Inheritance Hall.

Chapter 119: Episode 3 Chu Capital Rivalry Chapter 3 Two Sects' Legacy

Upon entering the Inheritance Palace, Luo Feng felt as though he had stepped into an independent space surrounded by primal chaos.

"Guest Official Luo He." A light converged to form an old man who smiled at Luo Feng. "I am the Artifact Spirit of the Palace of Emperor Chu, here to assist you in exchanging inheritance resources."

"Thank you," Luo Feng replied politely.

The old man said, "Each new Guest Elder will have an initial free exchange limit of one hundred thousand Merit Points. According to the rules of the Inheritance Palace, the more Merit Points a Guest Elder has, the more inheritances and resources they can access."

"What inheritances and resources can I view?" Luo Feng asked curiously.

"With one hundred thousand Merit Points, you can view all inheritances and resources up to one million Merit Points," the elder explained. "In the future, when Guest Official Luo He accumulates three million Merit Points, you will be able to access all resources and inheritances up to thirty million Merit Points."

Luo Feng understood.

"Please look."

The elder waved his hand, and amidst the endless chaos, information about various inheritances appeared on the left, and densely packed resource information appeared on the right.

"The inheritance information on the left is arranged according to the Merit Points required for exchange from high to low."

"The resource information on the right is also organized in descending order of exchange Merit Points. Guest Official Luo He, you can take your time to look. There is no time limit. Once you've made a choice, just let me know," the elder said.

Luo Feng nodded and first looked at the inheritance that concerned him the most.

The top-ranked inheritance: "Karmic Ashen Flames" Volume One, requiring one million Merit Points for exchange.

"Karmic Ashen Flames" Volume One is an inheritance of the Causality Origin Dao lineage. It requires the utilization of 'Primordial Force' from beyond the Braided Cage, with power far surpassing those of the same tier.

...

"Primordial Space Fragmented Array Eight Scrolls" Volume One, requiring one million Merit Points for exchange, consists of incomplete records of an ancient array inheritance from beyond the Braided Cage. It has extremely high requirements for practicing, demanding profound understanding of the 'Space Origin Dao' and Primordial Force.

...

"Song of the Earth" Upper Part, requires one million Merit Points for exchange.

It necessitates the exchange of the Primordial Material 'Scales of the Earth' before cultivation can begin and also requires comprehension of the 'Earth Primordial Dao.' Be cautious in choosing, as the Braided Cage World we live in does not contain the 'Earth Primordial Dao' among the highest rules of the inherent Origin Dao.

...

"Body of the Three Treasures" First Layer, requiring one million Merit

Points for exchange.

It requires exchanging the Primordial Material 'Heart of the Three Treasures' before it can be practiced, and demands comprehension of the 'Great Dao of Life Origin', as well as extremely high requirements for Spiritual Will.

...

Each heritage introduction was very detailed, listing the prices of required Primordial Materials, which branch of the Origin Dao was corresponding to the cultivation, the intensity required for Spiritual Will, the requirements of the cultivation environment, and the necessary auxiliary materials.

All had descriptions to make the exchangers carefully consider.

"In the Flame Wind Ancient Country, it's clear that inheritances and resources that either utilize Primordial Force or Primordial Materials in cultivation are extremely powerful and require a high amount of Merit Points for exchange," Luo Feng realized.

These inheritances, just at the introductory stage, allow transcending the Primal Chaos Realm!

If one steps into the Godly King Tier, it would be sufficient to command respect among peers, with unpredictable and cunning methods.

After all...

Normal Godly King Level methods utilize the regular forces within the Braided Cage World. But these methods utilize Primordial Force and Primordial Materials.

"Whether it is the Land of Origin or the surrounding 'Three Thousand Dimensional Primitive Universe' of the Land of Origin, it all operates according to the highest rules," Luo Feng realized as he read these detailed introductions. "This huge world governed by the highest rules is just like a cage! Beyond this Cage, more expansive areas use transflowing Primordial Force."

Primordial Force is a more mysterious kind of power.

It can only be used in the Primal Chaos Realm through special methods.

"No wonder the outside world speculates that the two ancestors from the Flame Wind Ancient Country and Thunder Ancient Country might be beings who have broken out of the Cage," Luo Feng thought. "Seeing these inheritances and resources would make anyone speculate so."

Yet, both ancient countries have never admitted to this.

"Those Primordial Materials are also very expensive," Luo Feng noticed as he looked at the other side's resources.

Ranked first, named 'Primordial Crystal,' required for exchange is one million Merit Points. The Primordial Crystal contains refined 'Primordial Force.'

Ranked second, is a direct encounter with 'Time Primordial Dao' for one era, demanding 900,000 Merit Points for exchange.

Ranked third, are direct encounters with the other eight types of Origin Dao within the highest rules, complete and direct encounter for one era, each requiring only 800,000 Merit Points for exchange.

"At the court of Primogenitor Yan Feng, are there ways for juniors to directly encounter the nine types of Origin Dao contained in the highest rules?" Luo Feng marveled internally. Of course, an era encounters cost eight or nine hundred thousand Merit Points. But he could face the Life Origin Dao permanently, giving him a considerable advantage in this regard.

Ranked fourth, the complete corpse of a Blood Armored Beetle, requiring 800,000 Merit Points for exchange.

Ranked fifth, a sword, a Godly King Level weapon, demanding 800,000 Merit Points for exchange.

Ranked sixth, the Shadowless Elixir, this elixir, when consumed, can make one favored by the Infinite Origin Dao. The duration of its

effect is related to the soul's strength, requiring 800,000 Merit Points for exchange.

Ranked seventh, Primordial Material 'Heart of the Three Treasures,' requiring 800,000 Merit Points for exchange.

...

Luo Feng carefully examined the options.

Though he only had an allowance of one hundred thousand Merit Points, unable to afford those with higher costs, the numerous inheritances and resources still broadened Luo Feng's horizons. He gained a clearer understanding of the capabilities of some ancient God Kings and beings who had transcended the Primal Chaos Realm.

"The Flame Wind Ancient Country does this intentionally, letting any new Guest Elder see these. It makes the Guest Elders all the more desperate to accumulate Merit Points," Luo Feng inwardly sighed.

Going through the numerous inheritances and information, Luo Feng took his time.

As the required Merit Points continued to decrease, the inheritances and resources gradually became 'normal.'

"This lowest-ranked inheritance is still destined for me," Luo Feng noticed at a glance. The last listed inheritance named "Heartshadow Technique," a Godly King Level inheritance, is the core inheritance of the Heartshadow Sect.

Being included in the Flame Wind Ancient Country meant it indeed had something outstanding. "Heartshadow Technique," according to its detailed introduction, had exceptional aspects in safeguarding one's life, hence it was qualified to be included.

"Ordinary inheritances at the Godly King Level are all ten thousand merit points," Luo Feng noted while looking at the inheritances priced at ten thousand merit points, each of which had its highlights.

"I need to check the inheritances related to the Lineage of Life Spirituality as well as the 'Chop and Split' Lineage of Destruction,"

Luo Feng searched for what he needed and began his study.

There were nine kinds of Godly King Level inheritances in the Lineage of Life Spirituality.

The lowest was ten thousand merit points, the highest, one hundred thousand merit points.

"An inheritance of a branch of the Great Dao of Life? It actually demands one hundred thousand merit points?" Luo Feng examined.

"'Eight Tribulations Life Form,' the First Calamity, requires one hundred thousand merit points for exchange. One must first cultivate separately the 'Life Spirituality,' 'Origin of Life,' and 'Body of Life.' Only after perfecting these three pathways can one proceed with the 'First Calamity' cultivation, which is extremely difficult.

Once the 'First Calamity' of the 'Eight Tribulations Life Form' is accomplished, every fraction of one's strength will contain consciousness, and one can easily manifest 'avatars.' The individual becomes like a vast world, immensely powerful and immovable. Moreover, the vitality is endless." Luo Feng read through the detailed introduction.

Avatars? Endless vitality? A godly body like an immovable world?

Merely the concept of avatars attracted Luo Feng.

Among the ancient Godly Kings, very few possessed avatars. An inheritance that could cultivate 'avatars' was exceedingly rare.

"According to the introduction, as long as one completes the First Calamity, the combat strength is slightly stronger than those at the same tier. However, the capacity for self-preservation is more terrifying than many in the Second Realm of Godly King," Luo Feng secretly marveled.

Having looked at a large amount of inheritance introductions, he gained an understanding of cultivation at the Godly King Tier.

Godly Kings are divided into three realms. Those who enter the Godly King Tier for the first time, the typical Godly Kings, are all in the

First Realm. On the Land of Origin, the vast majority of ancient Godly Kings are still in the First Realm of Godly King.

The First Realm of Godly King does not mean they are weak! It depends on what Dao and law they cultivate. For example, with the 'Eight Tribulations Life Form' First Calamity, once achieved, has avatars, and each avatar is harder to kill than many in the Second Realm of Godly King!

Of course, other paths have their own advantages.

"This is the advantage of the Great Dao of Life Origin, and of course, the 'Eight Tribulations Life Form' method is very strong," Luo Feng noted while reading the introduction, "Even though it doesn't utilize Primordial Force or Primordial Materials, the cultivation difficulty is very high."

Other methods, when one lineage is perfected, confer the status of Godly King.

This method, only after perfecting all three lineages can one undertake the final cultivation of the First Calamity, and only upon successful completion is the First Calamity considered accomplished.

"No wonder, the Ancestral God of the Snow Realm never dies..." Luo Feng noted while looking at the Law of Life, the Ancestral God of the Snow Realm must have learned some very powerful inheritances of the Life Origin Great Dao, making him difficult to kill.

"This is just the First Calamity; there's also the Second and Third Calamities to cultivate.

Moreover, the creator of this inheritance must have had an extremely high realm, having perfected this method with such profound understanding, surely the foundation is incredibly solid," Luo Feng merely read the introduction and felt that although both were top inheritances of the First Realm of Godly King, the 'Eight Tribulations Life Form' First Calamity was many times stronger than the 'Heartshadow Technique.'

"Within the range of one hundred thousand merit points, the 'Eight

Tribulations Life Form' First Calamity is the best Life Spirituality method I can exchange for."

"The sole flaw is that its combat power is a bit weaker," Luo Feng thought to himself.

Mastering the three veins of the Great Dao of Life, and perfecting them to achieve the First Calamity, makes one only slightly stronger than a regular Godly King in the First Realm.

If one only cultivates one vein of the Great Dao of Life, the combat power is generally weaker than other Daos.

...

"The Path of Destruction, however, holds immense destructive power," Luo Feng also viewed some inheritances of the Path of Destruction.

In the Flame Wind Ancient Country, the Chop and Split lineage of the Path of Destruction is known as the 'Heaven-Splitting Lineage,' aiming to split the entire cosmic Braided Cage!

The Heaven-Splitting Lineage inheritances.

From low to high, the cheaper ones cost about ten to twenty thousand merit points, even if one steps into the Godly King Tier with the aid of 'Heaven-Splitting Lineage,' it won't split the cosmic Braided Cage.

"This 'Extermination of Seventy-Two Blades'..." Luo Feng's eyes lit up as he found this Blade Technique very appealing.

'Extermination of Seventy-Two Blades,' the first volume, requires ninety thousand merit points for exchange.

The Heaven-Splitting Lineage perfected, promises the cultivation of 'Heaven Splitting Blade Formula Three Styles,' capable of creating a crack in the membrane wall of the Braided Cage World.

The Dark Heaven Lineage perfected, promises the cultivation of 'Dark Heaven Blade Formula Three Styles,' with terrifying might.

Combining both lineages, promises cultivation of 'Extermination of the First Three Blades,' with terrifyingly powerful attacks, enabling one to fight across ranks.

"This Blade Technique is all about offense, without any means of self-preservation," Luo Feng was quite satisfied as he looked, because the Life Dao was already sufficient for self-preservation, what he needed was strong offensive power.

"A First Realm of Godly King Method costs ninety thousand merit points. This 'Extermination of Seventy-Two Blades' has an exceptional origin," Luo Feng realized from the introduction.

"Unfortunately, I can only exchange for one method right now."

Luo Feng glanced around.

There were many other resources he wanted to exchange for, such as — viewing the 'Shadow of the Catastrophe Beast' once required one hundred thousand merit points.

The Shadow of the Catastrophe Beast was the true image of the beast from the 'Calamity Beast Diagram.'

"Too poor, too poor," Luo Feng thought, "Right now, the deepest accumulation I have is in the 'Lineage of Life Spirituality,' and many transformation methods are also the core of my strength. First, I will exchange for the 'Eight Tribulations Life Form' First Calamity. As for the Great Dao of Destruction Origin's 'Extermination of Seventy-Two Blades,' I will wait."

He had yet to master his own 'World Breaking Nine Blades,' which was enough for his temporary cultivation; he would wait to accumulate merit points before exchanging for this Blade Technique.

...

The Artifact Spirit of the Palace of Emperor Chu patiently waited on the side, accustomed to the Guest Elders carefully viewing each and every inheritance and a myriad of resources during their first visit.

"I need to exchange for this 'Eight Tribulations Life Form' First

Calamity," Luo Feng spoke up.

The elder Artifact Spirit was slightly surprised, "Guest Official Luo He, are you sure you want to use all your one hundred thousand merit points to exchange for this one inheritance?"

"Yes," Luo Feng nodded.

He had always been in need of detailed inheritances of the Primordial Dao, and this one contained three veins of the Life Origin Great Dao, and also had a solid foundation. It was many times stronger than the inheritances of Mountain Sitting Guest and Duan Dong River, no wonder everyone wanted to be a Guest Elder of the two Ancient Countries.

Chapter 120: Volume 3 Chapter 4 All Might, unto Oneself

"Guest Official Luo He, please be prepared," the artifact spirit elder said with a slight smile before dissipating into nothingness.

At the same time, the vast information on inheritance and resources within this Primal Chaotic Space all disappeared, leaving only a hazy radiance enveloping Luo Feng, transmitting the massive information of the "Eight Tribulations Life Form" First Calamity.

Heaps of information continuously flowed into Luo Feng's memory. Even with the strength of Luo Feng's soul, it took quite some time to fully record it all.

Although Luo Feng had previously reviewed a vast amount of inheritance introductions, gaining insights, the shock he felt upon actually receiving the inheritance was still profound. It was the first time he realized just how powerful true strong beings could be!

"I once faced the Great Dao of Life Origin, thinking it to be the embodiment of the concept of life itself, an ultimate and unsurpassed power," Luo Feng mused.

"Yet, as I perceive the inheritance of the 'Eight Tribulations Life Form' First Calamity, even through a glimpse, I can feel... that its creator is far more powerful than even the complete Great Dao of Life Origin."

This being seemed to casually utilize information from branches of the Great Dao of Life Origin, creating secret techniques from low to high. And by combining these techniques, ultimately formed the First Calamity.

The creation of such secret techniques gave off a sense of turning decay into magic, a shock that surpassed the impact the Great Dao of

Life Origin had on Luo Feng.

"No wonder the Sector Beasts that grow to their pinnacle only reside in first-rate nations like Tianmu Kingdom. They wouldn't dare provoke the two great Ancient Countries," Luo Feng understood the more he learned, the vastness of the heavens and earth.

Hum!

Just as Luo Feng had finished receiving the inheritance and was still in awe, he was already teleported out of the Inheritance palace, appearing at the entrance.

"Brother Luo He," Marquis Chu Yu saw Luo Feng.

Luo Feng, without a second thought, responded, "Brother Chu Yu, I apologize for making you wait."

"The sky hasn't even darkened yet; it's still early," Marquis Chu Yu said with a smile.

"By the way, as a Guest Elder, your cave mansion, servants, and so on, have all been arranged by Emperor Chu's Lineage," Marquis Chu Yu stated, "Your disciples and servants have already gone ahead to the cave mansion."

"Oh?" Luo Feng was surprised. He had only just submitted the application upon entering the city, and now everything had already been prepared—such efficiency.

"Let's go, I'll escort you there," Marquis Chu Yu said enthusiastically.

…

In the West City of Chu Capital, Marquis Chu Yu led Luo Feng to an elegant cave mansion.

Everything around was very quiet, with large sprawling cave mansions everywhere. Those who lived here were either high-ranking members of the Imperial or Royal Family, or beings of the Primal Chaos Realm like Luo Feng.

"This is your cave mansion," Marquis Chu Yu stated.

Luo Feng, now holding the Guest Official Order, naturally took control of this cave mansion with ease.

"From now on, this cave mansion permanently belongs to Brother Luo He," Marquis Chu Yu declared with a smile.

"Master (Teacher)," Morosa, sensing something from inside the cave mansion along with Moyu Qingyan and ten servants, had already approached the main gate to greet them.

Luo Feng and Marquis Chu Yu entered together.

This cave mansion, as the dwelling of a Guest Official of Primal Chaos Realm, spanned over hundreds of millions of kilometers. The mansion's formation was powerful, even capable of harnessing a shred of the might from the entire Chu Capital, enough to ensure the safety of the mansion.

Such a large area was not considered vast for a Primal Chaos Realm being; secret cultivation practices even required retreating into spatial secret treasures.

Luo Feng, with a stature as high as the heavens and earth when in his godly body, could not freely display his might in the outside world.

"This cave mansion's formation can even harness a trace of Chu Capital's might. I can feel that, even with all my strength, I'd probably be unable to shake it," Luo Feng, in control of the mansion, naturally sensed that trace of power that was vast enough to crush him.

"After all, Chu Capital was forged by the Ancestor of my Flame Wind Ancient Country," Marquis Chu Yu said with a smile.

"By the way, Brother Chu Yu, there's something I need to trouble you with," Luo Feng began.

"Brother Luo He, there's no need for formalities between us," Marquis Chu Yu replied with a smile. Having such a Guest Official was the most important support on his cultivation path.

Luo Feng said, "I have a close friend who's currently in the City Defense Army of Yinju City in Beijiu Chaos State of the Flame Wind Ancient Country, holding the post of a Deputy General."

"Why would he be in such a dangerous frontier place?" Marquis Chu Yu was surprised.

"Hence, I need Brother Chu Yu's help to bring him to Chu Capital," Luo Feng stated.

Marquis Chu Yu thought for a moment and said, "Since he's your close friend, it's best not to transfer him through official channels. The other first-ranked marquises... might have their eyes on me, and any interference could spell trouble."

Luo Feng nodded.

"I'll send a team of Royal Guards with my token to Beijiu Chaos State's Yinju City! They'll directly retrieve the Deputy General. As a member of the Imperial Clan and a first-ranked marquis, I have the authority to recruit Royal Guards. The power to enlist a mere Deputy General is still within my rights," Marquis Chu Yu explained.

"Let Luo Sa accompany them on this trip," Luo Feng suggested.

Luo Feng was concerned about potential mishaps.

His presence as a Pinnacle of Primal Chaos Realm Guest Official would arouse suspicion among those with ulterior motives. Sending a servant on the surface who was an eternal true god appeared less conspicuous.

"You only need to inform Luo Sa of your friend's identity, and that way, it won't be leaked," Marquis Chu Yu remarked, "Once they reach Yinju City, have Luo Sa take my Royal Guards and token to retrieve the Deputy General."

"Brother Chu Yu is more thorough than I am," Luo Feng acknowledged.

"You have no idea how fierce the competition within the Imperial Clan can be," Marquis Chu Yu shook his head, "Among us first-ranked

marquises, we dare not kill each other! But the Guest Officials and subordinates at our side... they can meet deadly fates."

Luo Feng understood; the path of Dao cultivation was filled with contention.

Having entered the fray, Luo Feng was unafraid.

The game was fraught with danger, but it also offered many benefits. For example, the newly acquired inheritance of the "Eight Tribulations Life Form" First Calamity could cause him to undergo a complete transformation.

"Morosa," Luo Feng immediately communicated telepathically, "in a while, you will lead a team of Marquis Chu Yu's Royal Guards and stealthily head to Yinju City in Beijiu Chaos State of the Primordial Chaos Prefecture, and bring back the Ancestor."

"Bring back the Ancestor?" Morosa knew of Luo Feng's relationship with the Ancestor.

Among the human groups that had traversed reincarnation to come to the Land of Origin, there were only Luo Feng and the Ancestor.

The Ancestor, in the end, was Luo Feng's mentor's mentor.

Their relationship was close, even above Morosa himself.

"Aside from me, you are the only one who knows the identity of the Ancestor," Luo Feng communicated telepathically, "You must keep this trip secret at all costs."

"Rest assured, Master," Morosa responded, "If any accidents occur on the way, any dangers arise..."

"Should the Ancestor's life be endangered, you are permitted to reveal your Primal Chaos Realm Strength," Luo Feng replied, "You must ensure his safety."

"Understood. I will hide the Ancestor within a Spatial Secret Treasure when the time comes, and unless absolutely necessary, I will not expose my strength," Morosa, who was also very cautious in Flame

Wind Ancient Country, was waiting for his master to become stronger.

When the conditions were more suitable, revealing Primal Chaos Realm Strength would no longer be conspicuous.

...

That very day.

Morosa led a team of Royal Guards from Marquis Chu Yu and silently left Chu Capital aboard a small Flying Boat. This Flying Boat could travel through the Void at incredible speeds, yet it still required five days to reach Beijiu Chaos State.

After informing the Ancestor of the news, Luo Feng began closed-door cultivation that very night.

In the quiet chamber was a Star Tower, and within the spatial confines of the Star Tower, Luo Feng pondered over the newly acquired "Eight Tribulations Life Form" First Calamity.

"In the past, I was ignorant and clueless."

"This inheritance has truly revealed the nature of the Braided Cage World and provided information beyond the Braided Cage World," Luo Feng thought to himself, feeling like a human seeing the starry sky for the first time.

Only when one looks up at the night sky does one realize how vast it really is.

"The vast areas governed by the supreme rules, the Land of Origin and the surrounding three thousand Primordial Cosmoses, are all within the Braided Cage World."

"The world I live in, everything is influenced by the supreme rules; the nurturing of life, the trials of reincarnation, transmigration, small cosmoses, the length of life, the flow of time, the stability of space, the levels of godly bodies... all determined by the supreme rules."

"The level of the godly body when becoming a True God, even

decides one's entire life."

If one becomes a True God with an unlimited godly body, then as true god of void space, eternal true god, Primal Chaos Realm, Godly King, one will always have an unlimited godly body.

Becoming a True God with a Perfect Divine Body. Every stage thereafter is a Perfect Divine Body.

"The size of the godly body, the reserve of Divine Power, the unlimited godly bodies allow 'size as one wills'. Like my Perfect Divine Body, it is larger than an unlimited godly body and has purer Divine Power. It also possesses the 'Formless and Intangible' ability," Luo Feng thought, "Are these abilities things that I realized on my own by understanding the essence? No!

They are bestowed by the supreme rules!"

The supreme rules allow for the ultimate height of your godly body.

The supreme rules grant you the power to be Formless and Intangible.

The supreme rules place the cultivators of the Land of Origin's small cosmoses among the stars.

Everything is rules!

"Formless and Intangible are not abilities I comprehended on my own; they are abilities granted by the supreme rules," Luo Feng considered, "And according to the 'Eight Tribulations Life Form' description, truly powerful cultivators originally live within the Braided Cage, drawing from its knowledge. Then they must break through the Braided Cage... All great powers return to oneself."

"Only those who break through the existence of the Braided Cage can truly claim that their strength comes not from the gifts of the supreme rules but from the 'Dao' they have mastered within themselves."

Luo Feng had once felt proud of his Perfect Divine Body and abilities like 'Formless and Intangible'.

But now, seeing this inheritance...

In the eyes of its creator, cultivators within the Braided Cage had not yet broken through the 'supreme rules' Braided Cage.

There are two types of Cages.

One is the world's Braided Cage, which directly shelters all beings within the walls of the Braided Cage.

The other is the Braided Cage of the supreme rules.

Only by breaking through all Braided Cages and walking the path of 'all great powers returning to oneself' can one truly tread the path of the Great Dao.

Even the Great Dao, one must carve out for oneself!

"If the inheritance 'Eight Tribulations Life Form' is so incredible, what about the other costly inheritances?" Luo Feng thought to himself, "The Monarch of Yu Country and the Master of the Shi Kingdom are equally Guest Elders of the Flame Wind Ancient Country, and they can definitely exchange for some powerful inheritances."

Exchanging for inheritances is one thing, but cultivating to what realm is another matter.

"I was a bit too arrogant before. Avenging my master is not going to be easy."

The more one knows, the more humble one becomes.

After witnessing many inheritances, particularly those terrifying Dharmas cultivated with the help of Primordial Force and Primordial Materials, Luo Feng clearly understood that even in terms of the ability to preserve life, he is no match for the "Eight Tribulations Life Form" First Calamity, let alone some ancient Godly Kings.

"My master, the Mountain sitting guest, managed to escape from the pursuit of the three monarchs of the Shi Kingdom, which clearly shows that he had exceptional means," Luo Feng, now more aware, had a more accurate judgment of his master's true strength.

Presently, he still fell considerably short of his master.

Luo Feng immediately stopped dwelling on these thoughts and immersed himself in cultivating this inheritance.

Chapter 121: Episode 3 Chapter 5: Meeting with the Primordial Ancestor

In the northern part of the Flame Wind Ancient Country, within Yinju City in the Beijiu Chaos State.

Yinju City, as a third-rank large city of the Flame Wind Ancient Country, was comparable in size to Huyang City. The garrisoning forces here far surpassed those of the peripheral national city garrisons.

A single city's military strength was enough to sweep through Jiujiang Primal Chaos State and Liu Yin Primal Chaos State.

"According to Luo Feng, his servant Luo Sa should arrive in Yinju City today," said Primoridal Ancestor, sitting alone at a high floor of an ordinary tavern, drinking and watching the outside world.

As the Deputy General of the City Defense Army, Primoridal Ancestor had specifically taken leave.

The City Defense Army had two groups of soldiers who could alternate shifts. After all, when cultivating in seclusion, one might require a lot of time, hence another Deputy General took over while Primoridal Ancestor was on leave.

"Divine Monarch," the tavern attendant said respectfully, bringing some delicacies with a very humble gesture.

A true god, and also a Deputy General of the City Defense Army, was indeed an existence not to be provoked by an ordinary tavern.

Primoridal Ancestor drank his wine and ate his food, waiting

patiently.

"Boom—,"

Suddenly, a terrifying aura spread from afar.

Primoridal Ancestor looked up and saw a young man riding a serpentine exotic beast flying within Yinju City. Following behind him were some trusted aides riding a Flying Boat.

"It's the Garrison Commander's second son, 'General Yu,'" Primoridal Ancestor recognized instantly. This young man was the most unruly figure in all of Yinju City.

The garrison of Yinju City was a Guest Official of the Primal Chaos Realm, responsible for guarding the frontier cities.

He had two sons; the elder one was a disciple of a Godly King, while the younger was kept by his side.

"This is a Primal Chaos Realm exotic beast, controlled by a secret technique. It is said that the Garrison Commander paid a substantial price to obtain it from a Godly King to serve as his son's mount and protector," Primoridal Ancestor reflected inwardly.

A Primal Chaos Realm exotic beast used just as a mount— who in the city, among the eternal true gods, would not envy that?

And who would dare provoke the young General Yu? After all, the protective treasures he possessed, especially his mount, were fearsome.

"Uncle Han, I heard my father has left his secluded meditation?" the young General Yu, brimming with excitement, had hurried back from outside the city.

"Master just left his meditation; young master didn't need to rush over so quickly," the serpentine beast telepathically replied. It had been completely enslaved, its original ferocity long gone, which gave the Garrison Commander the confidence to let it protect his son.

"I want my father to see my trophy, Uncle Han, hurry, hurry!" urged

the young General Yu.

The great serpent slightly sped up, darting twice, allowing the trailing trusted aides to clearly see it arriving at the 'Garrison Mansion'.

"We seek a lineage and cannot obtain one; yet General Yu can use a Primal Chaos Realm exotic beast as a mount."

"Just gradually accumulate merit points. With enough, you can still exchange them for a mount," was the discussion among many eternal true gods within the city, filled only with envy.

This was merely the son of a Primal Chaos Realm Guest Official. The sons and core members of the Imperial Clan of the Flame Wind Ancient Country had resources exceeding these by untold amounts.

…

"Luo Feng mentioned that he is now a Guest Official of the Flame Wind Ancient Country," Primoridal Ancestor watched as General Yu rode his mount out of sight, "The resources he can obtain must be comparable to those of Yinju City's Garrison Commander."

At that moment, the straightforward appearing Morosa, with some trusted aides, subdued their auras and arrived at the base of the tavern.

This tavern was the place agreed upon by Primoridal Ancestor and Luo Feng.

"Primoridal Ancestor?" Morosa was a being of the Primal Chaos Realm and immediately identified Primoridal Ancestor inside the tavern.

"You all wait here," commanded Morosa before silently entering the tavern.

The trusted aides dispatched by Marquis Chu Yu could only wait there.

They still did not know… the true purpose of this trip! They only

knew to obey the commands of Luo He's servant.

Inside the tavern.

Primoridal Ancestor suddenly turned his head as a straightforward figure pushed the door and entered.

"Luo Sa?" Primoridal Ancestor, having previously been given a detailed description of Morosa's appearance by Luo Feng, recognized him at a glance.

"Deputy Commander?" Morosa gave a slight smile, "I come by the command of Master Luo He."

Primoridal Ancestor nodded with a slight smile.

"We will leave Yinju City now," said Morosa.

"Not coordinating with the City Defense Army?" asked Primoridal Ancestor.

"The fewer the disturbances, the better. As for the handover, everything will be properly arranged," Morosa explained.

Morosa considered this operation to be very cautious; the trusted aides he led did not even know their final destination! However, the struggles among the 'Seven First-Rank Marquises' of Emperor Chu's Lineage were brutally fierce. Thus, no amount of caution was excessive.

As long as they could safely return to Luo Feng's Cave mansion, then everything would be in order.

Morosa said, "We need the Deputy Commander to temporarily reside within a Spatial Secret Treasure."

"Haha, Luo He had already mentioned this," Primoridal Ancestor stood up.

Morosa nodded, then waved his hand and encapsulated Primoridal Ancestor into the Spatial Secret Treasure he carried, quietly exiting the tavern to meet up with the trusted aides.

"Let's go."

Although the trusted aides were still very confused, they obediently left quietly.

If they encountered resistance, the trusted aides would present the "First-Rank Marquis Command" to handle it. If there were no obstacles... they would just leave quietly.

Unnoticed, the Primordial Ancestor had quietly left Yinju City.

"Hmm? Deputy Commander Yuan's Identity Command Token, how did it disappear?"

At the City Defense Army, it was possible to pinpoint the location of all members at any time, but now the whereabouts of Primordial Ancestor's token could not be tracked.

Since it was only a Deputy Commander, the City Defense Army immediately reported the news! This message, in a short time, couldn't reach the Garrison Commander.

...

The Garrison Commander of Yinju City was spending time with his second son.

"Hmm?" The Garrison Commander suddenly received a piece of information.

"A First-Rank Marquis of the Imperial Clan 'Marquis Chu Yu' requested a transfer order, moving the Deputy Commander 'Yuan'?" the Garrison Commander frowned slightly, "A First-Rank Marquis making a transfer request for just a minor deputy commander?"

This kind of order, once passed by the Imperial Clan, was already confirmed. He, as the Garrison Commander, had no right to object.

In the Flame Wind Ancient Country, the Imperial Clan managed all aspects of the nation, even the distribution of some tasks was done by the core of the Imperial Clan. Even the most distinguished Guest Officials... only had the right to choose tasks and refuse missions;

they had no right to interfere in the management of the Flame Wind Ancient Country.

With Yuan transferred away, the Garrison Commander had no right to object, only the right to be informed.

"Check where the City Defense Army's Deputy Commander 'Yuan' is?" the Garrison Commander started to give orders.

"His Identity Command Token cannot be locked? He probably has left Yinju City already?" the Garrison Commander frowned slightly, "This Yuan, his identity must be extraordinary. Marquis Chu Yu must be worried about my interference spoiling his plans."

Even with his official power, the Garrison Commander had no right to stop it.

But as a powerful Guest Official of the Primal Chaos Realm, he naturally had the ability to obstruct without anyone knowing.

******

By the time the other First-Rank Marquises of Emperor Chu's Lineage noticed this transfer order, Yuan had already left Yinju City.

Five days later.

In Chu Capital, Morosa had quietly returned to Luo Feng's cave mansion.

"Master." Morosa, along with Primordial Ancestor, came to report back on the mission.

Luo Feng had naturally come out early to welcome him and spotted the grey-robed man walking with Morosa at a glance.

"Yuan." Luo Feng smiled as he spoke, the two of them had long discussed their respective names in the Land of Origin. The title 'Primordial Ancestor'... would immediately make outsiders realize the special significance of Primordial Ancestor to Luo Feng.

"Luo He." The Primordial Ancestor also looked at Luo Feng with a

smile, calling him by this name.

"Master, everything went very smoothly," Morosa said.

Luo Feng nodded: "Very well, you've also worked hard, go rest now."

Morosa understood that his master and Primordial Ancestor had matters to discuss, feeling that... Primordial Ancestor and master seemed even closer, he could only obediently leave.

"Yuan, come with me." Luo Feng immediately took Primordial Ancestor into the quiet room, entering the Star Tower.

...

Inside one of the layers of the Star Tower.

"Look." Luo Feng pointed ahead, where a vast amount of items were stored, including heritage scriptures, various rare treasures of heaven and earth, refined precious medicines, and Weapon Secret Treasures, "These are what I confiscated after defeating the Heartshadow Sect, they have limited help for those in the Primal Chaos Realm, but there are many treasures that aid the cultivation of eternal true gods."

The Heartshadow Sect, being set to train elite disciples, naturally had a systematic collection of various rare treasures and artifacts.

"So many?" Primordial Ancestor also saw the scriptures leading to the Primal Chaos Realm, Godly King scriptures were rare, but Primal Chaos Realm scriptures were plentiful.

"Previously, in Yinju City, I diligently sought ways to accumulate merit points to exchange for a good inheritance," Primordial Ancestor lamented, "yet now before my eyes is a pile stored."

Luo Feng laughed.

Before, he wanted to help Primordial Ancestor, he had to first learn an inheritance himself, then through the Memory Stone, teach it to Primordial Ancestor back in his homeland in the Primordial Cosmos Region.

Now that the two of them had met in the Land of Origin, Primordial Ancestor could learn by himself.

"These resources, Primordial Ancestor, feel free to choose," Luo Feng said.

"Resources still need to be properly planned; many of our Human Race descendants will have to come over later," Primordial Ancestor looked at the massive amount of resources; he had previously been just an ordinary eternal true god, a minor Deputy Commander in the City Defense Army, all his treasures combined were not worth one hundred thousand Cosmic Sand, yet here were treasures worth billions of Cosmic Sand.

Luo Feng laughed, "By the time other Human Race cultivators come over, these treasures will really not be worth mentioning." Experience new tales on m v|l e'-NovelBin.net

Not to mention anything else.

Just digesting the "First Calamity" of the "Eight Tribulations Life Form" properly, perfecting his Transformation Method, he would be enough to advance further.

"Primordial Ancestor, you practice here slowly, just say the word if you want to go out," Luo Feng said.

"You go ahead." Primordial Ancestor was currently full of fighting spirit, especially since the inheritances and resources in front of him could allow him to thoroughly study and utilize them.

Luo Feng nodded, then immediately disappeared, going to his own layer of space in the Star Tower.

Luo Feng was in the middle of his cultivation but had specifically come out to meet Primordial Ancestor.

Now he continued to study the "Chapter of Life Spirituality" in the "First Calamity" of the "Eight Tribulations Life Form"; previously, Luo Feng had learned the simple application of life spirituality by studying Primal Chaos Layer Creature. However, this "Chapter of Life Spirituality" contained all the mysteries of the Life Spirituality

Lineage, with many applications and Secret Techniques.

Luo Feng wasn't in a hurry to perfect his Transformation Method but was first gradually learning and accumulating.

Chapter 122: Episode 3 Chapter 6 Mission

Luo Feng contemplated the First Calamity of the "Eight Tribulations Life Form," becoming so engrossed that he lost track of time.

Although he had great opportunities to directly face the complete Great Dao of Life Origin, it was like the eternal true gods living beside the "Primal Chaos Ruins," able to observe the materialized Primal Chaos Laws, but how many of them could really understand the Primal Chaos Laws?

Seeing it did not mean understanding it!

Across the entire Land of Origin, there were numerous ancient beings who could face the complete Origin Great Dao directly. They had inheritances and resources to aid them, yet most couldn't grasp it in their lifetimes.

"Having an inheritance does make comprehension easier."

"All creatures possess life spirituality, and those with strong spirituality are filled with infinite possibilities."

"If one fully masters the lineage of life spirituality, one can even transform life! Even rocks, weeds, weapons, and rivers could be transformed, acquiring consciousness and becoming true life forms."

"For instance, a majestic large city requires mastery of the complete Great Dao of Life Origin! Only by perfectly integrating the life structure of the 'majestic city' with spirituality, can the city be transformed."

"Vast rivers, towering mountains, formidable corpses... all can potentially be transformed into life forms."

"Those who grasp the complete Great Dao of Life Origin can transform many formidable lives. Some might even possess the strength of a Godly King Tier right from the moment of transformation," Luo Feng read in the inheritance, utterly awed.

Every individual who mastered the complete Origin Great Dao possessed unimaginable capabilities.

As a Sector Beast like Morosa who mastered the complete Great Dao of Destruction Origin, the 'sector' within him could also spawn a vast number of subordinates, even fostering Godly King Level strength.

Of course, the more powerful the subordinates, the harder they were to foster. For those who grasped the Great Dao of Life Origin, transforming someone into a Godly King Level combatant was extremely difficult.

"One transformation, organizing the life structure, bestowing spirituality, directly achieving Godly King power?" Luo Feng reflected quietly, "My cultivation up to now hasn't even reached the Godly King Tier."

Those transformed or fostered by external forces, possessing Godly King Level strength from birth, had a far lesser understanding compared to regular cultivators.

Ordinarily, becoming a Godly King involved selection from countless creatures along with the accumulation of realms over many long years. Those who instantly possessed Godly King Level strength neither developed naturally nor had any accumulation, making their chances of advancing in comprehension almost nil.

"My Transformation Method model itself after creatures from the Primal Chaos Layer, transforming directly," Luo Feng pondered, "And, according to the inheritance, the stronger the life spirituality of any creature, the more remarkable it becomes."

"The appearance of these Primal Chaos Layer creatures does not represent the most perfect form."

"I could try enhancing their life spirituality."

The First Calamity of the "Eight Tribulations Life Form" did not record the Transformation Method. This was a unique ability Luo Feng possessed after acquiring the Perfect Divine Body, and it was also a power bestowed by the highest rule.

"With the ability of being formless and intangible, I can better attempt and study the relation between the body of life and life spirituality."

The Great Dao of Life Origin consists of six major branches, each heavily related to the others. For instance, to enhance life spirituality, there's a cap for each life form. Modifying life structure is required to further enhance life spirituality.

And life structure relates to the 'Body of Life Lineage'.

"Brother Luo He," suddenly Luo Feng received a message.

During his seclusion, Luo Feng almost completely cut off all contact with the outside world, only Marquis Chu Yu and the Primordial Ancestor were able to contact him. Of course, Morosa could also reach him directly through telepathy.

"Brother Luo He, you should have checked the guest official tasks with your Guest Official Order, right?" Marquis Chu Yu said.

"None of them are good tasks, either garrison a frontier city for ten thousand eras or deal with some conflicts with the Thunder Ancient Country," Luo Feng replied. He had just obtained the inheritance, a period for accumulation and improvement, naturally he was unwilling to get involved.

Even the minor conflicts with the Thunder Ancient Country were at the Primal Chaos Realm level. But the Thunder Ancient Country also had some 'Transcendence of Primal Chaos Realm' beings.

Those who reached that level generally cultivated Primordial Force or cultivated with Primordial Materials, their methods were mysterious and unpredictable. Luo Feng had no interest in clashing with them.

"Haha, the best tasks have been taken by us, the seven top-ranked

marquises, and only those tasks that no one wants are left to check via the Guest Official Order," Marquis Chu Yu laughed, "I just found a good task, if you have no objections, I'll assign it directly to you. You just need to accept it."

"What's the good task?" Luo Feng asked.

"To serve as an inspector of Chu Capital," Marquis Chu Yu said, "Chu Capital has three inspectors, all held by Guest Officials of Primal Chaos Realm."

"Actually, Chu Capital itself has an army, minor troubles are dealt with by the many armies. And for major troubles... a Godly King will personally handle it! Things that require an action from a Primal Chaos Realm inspector are very rare," Marquis Chu Yu said, "Being in this position offers higher merit points than garrisoning the frontier, a thousand merit points per era.

This position cannot be held for more than one hundred eras, it must be rotated."

"One hundred eras, that's one hundred thousand merit points. Serving in Chu Capital for one hundred eras, that's one hundred thousand merit points! This is a task that all Guest Officials of Primal Chaos Realm wish to compete for," Marquis Chu Yu said.

Luo Feng nodded, "What are the requirements for serving as an inspector of Chu Capital?"

Earning merit points was extremely hard.

Garrisoning a frontier city for ten thousand eras also earned one hundred thousand merit points! Serving as an inspector of Chu Capital for one hundred eras also earned one hundred thousand merit points. The latter took much less time and was less risky, so the later task was more desirable. Those willing to take the former task did so only out of necessity.

"To serve as an inspector of Chu Capital, you must reside in Chu Capital. If you need to take leave or leave Chu Capital, you cannot be away for more than one thousand days per era," Marquis Chu Yu

said, "If you have no objections, I'll issue the task to you now."

"Brother Chu Yu, thanks," Luo Feng readily accepted the task, having just entered the Primal Chaos Realm not long ago, he was not inclined to seek trouble.

When his cultivation hit a bottleneck and progression became difficult, needing merit points to exchange for inheritance resources, then it would not be too late to undertake more dangerous tasks.

Soon, Luo Feng's Guest Official Order received the issued task, designated to Brother Luo He.

Luo Feng naturally chose to accept!

...

Time passed, and Luo Feng had come to the Chu Capital of the Flame Wind Ancient Country, and before he knew it, more than half an era had passed!

During this time, as the 'Chu Capital Inspector,' Luo Feng had only received one order, personally capturing a group of brawling imperial clansmen. All these imperial clansmen were eternal true gods, strong in abilities, rich in treasures. When they truly went mad... It required the intervention of a Guest Official of the Primal Chaos Realm.

Within a tower atop the clouds in Chu Capital.

Luo Feng and Primordial Ancestor sat opposite each other.

"This brew is really something," said Primordial Ancestor, somewhat astonished, "It feels like it nourishes both the godly body and the soul." Just one cup had made the Primordial Ancestor feel as though his godly body had been nourished and had grown stronger.

"This is Hundred Differentiations Brew," Luo Feng explained with a smile, "It is said to be concocted using the blood of over a hundred Primal Chaos Realm Exotic Beasts, along with some heavenly and earthly treasures. This pot alone is worth a hundred cosmic sand."

Primordial Ancestor listened in amazement.

Ordinary eternal true gods, even if they spent all their fortune, wouldn't be able to drink it for long.

"Blood from over a hundred Primal Chaos Realm Exotic Beasts?" Primordial Ancestor was shocked.

"It's not a big deal," Luo Feng explained, "Chu Capital has many Primal Chaos Realm Exotic Beasts in captivity. And some common blood is trivial to these beasts. It naturally recovers as they absorb the power of heaven and earth. Therefore, the cost for merchants isn't considered high! This pot of brew costs a hundred cosmic sand, but the actual cost might be just one or two cosmic sand.

However, every pot of brew has a fixed amount of sixty cosmic sand, which needs to go to the first-rank 'Marquis Chu Ying'."

Primordial Ancestor nodded, he already knew that each first-rank marquis in Emperor Chu's Lineage had great authority. Luo Feng sided with the first-rank 'Marquis Chu Yu.'

"Brother Chu Yu has been a first-rank marquis for a short time, and his accumulations in all aspects are much less than other first-rank marquises," Luo Feng said.

Be it strength, realm, or resources and wealth, Marquis Chu Yu was far behind.

But with seven having equal status, Marquis Chu Yu's aspects would continuously improve.

"Brother Luo He." Suddenly, Luo Feng received a message, "There's a good task, but it requires leaving the city."

"Oh? What task?" Luo Feng asked.

In one era, he could not leave Chu Capital for more than a thousand days; as long as the task was short, there was still time.

"I'll send you the details. I think with your strength, it could probably be resolved within a few days," Marquis Chu Yu transmitted, "Completing this task rewards ten thousand merit points. I just discovered it and grabbed it for you; take a look at this task... see if

you want to take it."

Soon, the detailed information of the task was sent over.

Luo Feng put down his cup and carefully examined the task.

Within the Qingchong Primal Chaos Province of the Flame Wind Ancient Country, there was a regular city, 'Sky Curve City,' built specifically for the mining of 'Heavenly Bend Stone Essence.' Recently, however, in the past few Chaos Eras, the output of 'Heavenly Bend Stone Essence' had significantly decreased, and even the cultivators responsible for the mining had died in large numbers, with dozens of eternal true gods among the deceased.

It was suspected that a Primal Chaos Realm entity was involved in the illicit mining of Heavenly Bend Stone Essence.

The task, to trace the identity of the pirate, rewarded ten thousand merit points. Capturing the pirate alive would provide an additional reward of five thousand merit points.

"Trace the pirate's identity?" Luo Feng understood.

For the Flame Wind Ancient Country, tracing the identity was most important. Once found, capturing would actually be relatively easy.

"Heavenly Bend Stone Essence is an extremely important cultivation resource for the Flame Wind Ancient Country, almost exclusively used by the God Kings," Luo Feng knew the specialty of this heavenly and earthly treasure.

The borders of the Flame Wind Ancient Country and the Thunder Ancient Country were at the center of the Land of Origin, where exotic beasts were much more numerous, as were cultivators and treasures. Discover hidden content at m,v l'e-NovelBin.net

"I'll take this task," Luo Feng responded to Marquis Chu Yu.

A short-duration task with over ten thousand merit points was indeed rare.

"I'll send you all the information related to this task," Marquis Chu Yu

transferred.

"By the way, Brother Chu Yu, could you help me find some Primal Chaos Realm Strength creatures of the Primal Chaos Layer?" Luo Feng transmitted.

Primal Chaos Layer Creatures that he had captured himself were not very strong; the strongest ones, born with Primal Chaos Realm Strength, had already been captured by some ancient existences.

"Primal Chaos Layer Creatures?" Marquis Chu Yu was somewhat vexed, "If you're talking about exotic beasts, they are everywhere in the world, and my Flame Wind Ancient Country has captured many Primal Chaos Realm Exotic Beasts. Buying a few is not difficult. But 'Primal Chaos Layer Creatures' that also have Primal Chaos Realm Strength… as far as I know, they are extremely rare.

There might not be more than ten within the entire Flame Wind Ancient Country, almost all in the hands of the God Kings."

"I don't need the complete creature, just some body materials," Luo Feng said.

"Only needing some body materials, that I might be able to try," Marquis Chu Yu felt the difficulty greatly reduced, "But it will take some time. I'm not even sure which God Kings possess these creatures."

"This is very important to me. Please, Brother Chu Yu," Luo Feng said.

"This important to you?"

Marquis Chu Yu was invigorated, his most important ally was in urgent need, "Don't worry, just for some body materials, I will definitely get you some."

"Thanks," Luo Feng said without mentioning his payment of cosmic sand, as for a first-rank marquis, even ten billion cosmic sand was not of great significance! What he owed was a favor.

But for Primal Chaos Layer Creatures born with Primal Chaos Realm Strength, Luo Feng felt owing a favor was worth it.

…

That same day.

Luo Feng quietly left the Chu Capital and headed to Qingchong Primal Chaos Province to investigate the matter of the pirate.

Chapter 123: Episode 3 Chapter 7 The Looter of Flame Wind Ancient Country

Flame Wind Ancient Country, Qingchong Primal Chaos Province, outside the 'Heavenly Bend Mining Area' of Tianqu City.

"Shoo."

A thread crossed the distant void and appeared in a barren land outside the Heavenly Bend Mining Area, then transformed into a figure—it was Luo Feng arriving from Chu Capital.

Luo Feng mainly focused on five types of Transformation Methods. The Galaxy Transformation Method was effective for long-range attacks, while the other four were integrated into his body, making them more suitable for close combat. This thread that passed through the void was the 'Tunneling Transformation Technique', skilled at traversing the void with remarkable speed.

Whether used for escape or close combat fighting, the significant increase in the speed of movement was a great help.

Being chosen by Luo Feng as one of the five Transformation Methods, the tunneling ability was indeed remarkable, especially after the integration of 'one hundred and eighty billion drops', the ability to traverse by tunneling had undergone a qualitative change.

"In just a little over an hour, I could travel from Chu Capital to Qingchong Primal Chaos Province. After the enhancement of my Life Spirituality, this 'Tunneling Transformation Technique' indeed has increased in power significantly," Luo Feng was quite satisfied as he gazed toward the Heavenly Bend Mining Area ahead.

"This Heavenly Bend Mining Area is extremely large, much larger than Huyang City," observed Luo Feng, "and it's enveloped by a formation, making theft very difficult."

"The thieves either come from within the administrative side or else are extremely clever in their methods."

Luo Feng had learned detailed intelligence about this mission from Emperor Chu Yu, knowing the troubles involved, "The highest administrator of the Heavenly Bend Mining Area, who is also the garrison commander of Tianqu City, is a top entity in the Primal Chaos Realm. Even the Tianqu City garrison commander couldn't identify the thief."

Because the administration could not identify them, Emperor Chu's Lineage finally issued this mission.

Neither ancient Godly Kings nor transcended beings of the Primal Chaos Realm would stoop to steal something like Heavenly Bend Stone Essence. Thus, in Emperor Chu Yu's view, Luo He heading out to investigate posed no danger.

"Let's begin!"

Luo Feng already had his own set of solutions.

Standing in the barren wilderness just outside the Heavenly Bend Mining Area, his body immediately had countless silver streams merge into the earth. These silver streams quickly became extremely fine, so fine that even a True God could not see them with the naked eye.

Countless threads spread rapidly, permeating deeply into the earth, encircling the entire Heavenly Bend Mining Area.

"The Heavenly Bend Mining Area, roughly eight hundred billion kilometers in diameter. My Galaxy Transformation Method can easily encircle it," Luo Feng was quite pleased. He split into one billion units of the Galaxy, these countless Galaxies wildly intertwined, resembling a Heavenly Net, completely sealing off the entire mining area.

As he completed the encirclement, Luo Feng could also sense the purpose of the mining area's formation.

"The formation, tracking and trapping enemies is only one aspect, the core is to guide the natural forces of heaven and earth to converge, enabling the mining area to more quickly nurture 'Heavenly Bend Stone Essence'." Luo Feng could feel a massive amount of natural forces continuously being directed and gathered.

The Flame Wind Ancient Country was, after all, at the core of the Land of Origin, naturally nurturing a plethora of treasures. Guided by the formation, the nurturing speed of the Heavenly Bend Stone Essence could also be accelerated.

"Buzz."

Unnoticed, Luo Feng approached the Heavenly Bend Mining Area, then using a Transformation Method, he transformed into a wisp of wind and naturally attached himself to a miner. Many miners frequently traveled between 'Tianqu City' and the mining area.

...

The depths of the mining area were dark and unpredictable.

"The underground 'Wind Nether Seven' mining area, I heard the last group of miners who went there all died," a group of mining Cultivators progressing forward, all a bit nervous.

"The mining area used to be very safe, but recently, over the past few Eras, a lot of miners often die. Even eternal True Gods have died quite a few. We, as True Gods, don't even have the chance to resist."

"Hopefully, we get lucky this time."

The group of mining Cultivators comforted each other, continuing to go deeper.

Under the cover of the great formation of the mining area, they couldn't even slack off.

"We've arrived, Wind Nether Seven Area! Start working," the team

leader commanded.

The Wind Nether Seven Area was at the very deep bottom region, over three hundred billion kilometers from the surface. The miners used a Secret Technique, and immediately, beams of light illuminated, brightening the ancient pathways of the Wind Nether Seven Area.

They started wielding Secret Treasure tools, began crushing the surrounding rocks, and after crushing large amounts of rock, carefully sifted for 'Heavenly Bend Stone Essence particles'.

Heavenly Bend Stone Essence, True Gods needed to scrutinize closely to see those incredibly tiny particles.

A team would toil for an Era, and the accumulated countless particles gathered for refinement, typically could only refine a piece or two of standard 'Heavenly Bend Stone Essence'.

"Nowadays, the mining area is producing less and less Heavenly Bend Stone Essence. The higher-ups are still blaming us for not being diligent enough."

"I think, this Heavenly Bend Stone Essence might have been stolen beforehand."

The miners chatted with each other while carefully searching for the tiny particles by crushing the rocks again and again.

At that moment, very close to them,

"Hiss~~~" a massive shadow infiltrated numerous rocks, slowly permeating and selectively extracting tiny particles.

Every time miners sifted for particles, they would hand them up, and each time the amount was not significant, totally not worth plundering. Thus, 'it' could only painstakingly mine on its own, given its strength, naturally mining far faster than these miners.

"Boom!" The mining team leader used a Secret Treasure, blasting a large amount of rock, allowing the miners to slowly grind and sift.

Breaking the rock required good planning, otherwise, the underground pathways would collapse. This blasting task was also completed by the team leader.

"Boom." When a large amount of rock collapsed, a massive shadow was suddenly faintly visible.

"Not good."

The mining team leader was shocked, the faces of other miners around him greatly changed.

"Requesting backup."

"Help us." They each used transmission tokens to call for help.

"Countless mining pathways are densely spread everywhere, the old fellow is pressing me to mine faster; I could be discovered at any moment," the massive shadow was quite impatient as a surge of power burst forth, sweeping towards the group of miners.

The miners showed terrified expressions, only remembering the shadow that surged towards them instantly.

"Shoo."

A man clad in black appeared out of nowhere in front of the miners, hissing~~~ His clothes transformed into countless streams of black liquid, which naturally penetrated the rocks, instantly engulfing the massive shadowy figure.

"Quite bold, continuing to mine stealthily like this," Luo Feng observed the enveloped huge shadow.

Luo Feng had come here on a mission, his greatest concern... was that the stealthy miners would only mine occasionally. If they weren't in the mining area currently, it would be difficult for him to complete his task.

However, according to his estimates, mining Heavenly Bend Stone Essence was troublesome and required a long time to accumulate a substantial amount! The probability of encountering it being mined

was still relatively high.

"A newcomer of the Primal Chaos Realm?" The massive shadow was shocked.

Huh.

Silently, this shadowy figure vanished completely.

"Hmm?" As the black liquid merged back into his robe, Luo Feng slightly furrowed his brow. In an instant, the already prepared Heavenly Net of the Galaxy Transformation Method erupted in power, completely isolating the inside from the outside.

Whoom!!!

A giant silver cage appeared, its power terrifying, sealing off the entire Heavenly Bend Mine.

At this moment, several waves of energy were scattering, trying to tunnel through the Void, but the area was already sealed off, and at least "its" ability to escape couldn't break through this Heavenly Net.

"Trying to flee?" Luo Feng stood his ground as countless silver threads permeated the earth, enveloping those waves of energy.

Previously, it was ten billion units of the Galaxy, sealed by the Heavenly Net.

Now, utterly unobstructed, another twenty billion units of Galaxy threads densely covered the entire inner part of the Heavenly Net, leaving the stealthy miner no place to escape.

"Shatter it." Wave after wave of energy either collided with the countless silver lights in the sky or the countless silver lights underground.

Having contemplated the "First Calamity of the Eight Precepts of Life", Luo Feng's five Transformation Methods and Life Spirituality had enhanced, boosting the overall power. The current Heavenly Net made it impossible for the shadowy figure to flee, tear through, or break out.

Hissing~~~

Countless silver threads crisscrossed through heaven and earth, wrapping around wave after wave of energy, and each wave that was enveloped directly vanished.

Eventually, only one wave of energy remained.

Luo Feng took a step and appeared high in the air, looking at the wave ensnared by the silver light.

"Spare my life, spare my life," this wave of energy transformed into a gray, furry Exotic Beast, which bowed respectfully, "Greetings to the Great Saint of the Primal Chaos Realm."

Luo Feng looked at this Exotic Beast.

This Exotic Beast was from the Primal Chaos Realm, generally much weaker than those that understood the essence of laws! Judging by it... this Primal Chaos Realm Exotic Beast was probably of the ordinary level of the realm; he could easily seal it with a simple stream of Galaxy light.

"You dared to stealthily mine Heavenly Bend Stone Essence," Luo Feng stared at it.

"Guest Official Luo He." The furry Exotic Beast suddenly emitted a strange sound, "I'm raising this fellow with a craving. It ate some Heavenly Bend Stone Essence, please forgive us."

Luo Feng's expression slightly changed.

"I'll have it leave immediately, just pretend you didn't catch the miner, okay?" the strange voice continued.

"I was ordered to track down the miner, and now that its identity is confirmed, I naturally have to report back," Luo Feng spoke.

"Must you oppose me?" the eerie voice inquired.

Luo Feng also felt a headache coming.

This Exotic Beast from the Primal Chaos Realm clearly had a master, who had dispatched it to mine stealthily here! It was also the master's arrangements that allowed it to avoid the Formation's detection.

"Empty promises, asking me to abandon my mission?" Luo Feng stared at the Exotic Beast, "I can give you face and let you take it away. But its identity, I will definitely report."

"I really admire Guest Official Luo He's courage,"

Accompanied by a cold snort.

"No—" The gray, furry Exotic Beast screamed miserably, vanishing silently and instantly.

Luo Feng frowned at this scene.

This Exotic Beast from the Primal Chaos Realm was evidently enslaved and controlled, killed with just a thought.

"How does it matter if this Exotic Beast was killed? Now that the identity of the Primal Chaos Realm Exotic Beast is clear, Emperor Chu's Lineage naturally has a lead to follow," Luo Feng waved and collected the remains of this Primal Chaos Realm Exotic Beast.

...

Discover stories at mvl

"What's going on?" The Garrison Commander of Tianqu City left the city and arrived near the Heavenly Bend Mine, his face pale as he stared at the giant silver cage completely sealing off the mine.

The entire silver cage was still experiencing internal collisions, slightly twisting and flowing.

Soon, the entire silver cage dissipated.

The Garrison Commander of Tianqu City saw the figure of the man in black in mid-air.

"Guest Official Luo He?" The Garrison Commander recognized him.

"I was ordered to come to track down the miner." Luo Feng didn't conceal anything, as the mine's Formation would naturally record all the details.

After saying so, Luo He took a step and tunneled through the Void, leaving directly.

Seeing this, the Garrison Commander's expression slightly changed.

"It seems, this Guest Official Luo He has clashed with it," the Garrison Commander thought to himself, having known that an Exotic Beast from the Primal Chaos Realm was stealthily mining, but realizing that it could avoid detection by the mine's Formation, he understood the terrifying existence behind this Exotic Beast.

Thus, he had acted as if he couldn't determine the identity of the miner.

Chapter 124: Season 3 Episode 8 Marquis Chu Yu's Planning

In the Land of Origin, the Tianji Icefield boasted an expansive territory known as the 'Black Sky Realm'. For endless years, it was shrouded in vast black clouds. The expanse covered by these black clouds was so vast that it was almost comparable to the entire territory of second-tier nations like the Yu Kingdom and the Shi Kingdom.

"Luo He?"

Within the depths of the black clouds, a shadowy figure with wings lay hidden.

"This Luo He certainly has guts. He should have guessed that there's a Godly King behind the Exotic Beast, yet he still doesn't show me any respect?" pondered the winged figure. "He follows Marquis Chu Yu, a newly promoted first-class marquis! The struggles among the first-class marquises of Emperor Chu's Lineage are brutal. It won't be long before Luo He finds himself in trouble."

"I'll make my move when the opportunity is right," the figure resolved, having lived endless years and becoming increasingly cautious in its actions.

To become a being at the pinnacle of the Primal Chaos Realm, one would be able to maintain complete memories even after reincarnation.

Even he was not keen on making powerful enemies without good reason.

Yet, he was clear that by subtly fanning the flames at the right time, he could induce many powerful beings into dire straits.

"This Exotic Beast is one I have enslaved in secret, never revealing its existence."

"Now that the Exotic Beast has exposed its identity, I also used a secret technique to conceal the cause and effect. In the entire Land of Origin, only a handful could trace it back to me..." mused the winged figure. "Emperor Qing from Flame Wind Ancient Country and the reigning Emperor Di Fu, both excel in probing causality and could uncover my identity."

"However, the Heavenly Bend veins I targeted belong to the controlled territory of Emperor Chu's Lineage. Emperor Chu would not stoop to asking Emperor Qing or Emperor Di Fu for help over such a trivial theft."

The winged figure was once a Guest Official of Primal Chaos Realm from Flame Wind Ancient Country, and during that era, it even reached the level of 'Transcendence of Primal Chaos Realm'.

After becoming a Godly King, its strength naturally grew much deeper, which is why it left Flame Wind Ancient Country.

Many Godly Kings establish their own nations or factions, believing they have the strength to stand tall in this world. The difficulty of obliterating them is incredibly high. The 'Mountain sitting guest' of the past also thought he was more than capable of self-protection, enough to deal with most dangers in the Land of Origin.

He never expected the Master of the Shi Kingdom to be so unbridled and reckless.

"Flame Wind Ancient Country and Thunder Ancient Country occupy the core territories of the whole Land of Origin, monopolizing nearly all treasures. What does it amount to if I take away just a bit? After all, they are the precious rarities nurtured by heaven and earth," the winged figure thought. "The other Exotic Beasts have not been exposed yet."

"Hum."

The winged figure melded into the black clouds. These boundless

black clouds were where his true form resided.

The entire Black Sky Realm, blanketed by the black clouds, was teeming with countless cultivators, countless Exotic Beasts, and whenever a Primal Chaos Realm Exotic Beast was born, it would be quietly enslaved by him. He would then send them to the two great Ancient Countries to steal various heavenly and earthly rarities.

******

At Chu Capital, Marquis Mansion of Chu Yu.

"Brother Chu Yu," Luo Feng relayed the details of his mission.

Upon hearing, Emperor Chu Yu frowned slightly. "This Primal Chaos Realm Exotic Beast isn't recorded in our intelligence. It must have been nurtured not long ago and was captured and enslaved while still freshly born. I have no idea who its master is behind the scenes."

"Whoever dares to dispatch an Exotic Beast to steal heavenly and earthly rarities from Flame Wind Ancient Country is either strong enough to not fear investigation from Emperor Chu's Lineage or is one of the strong individuals within the Imperial Clan," Emperor Chu Yu was well aware that the most frequent thieves of various treasures were the many marquises within the Imperial Clan.

```

The Marquises were fiercely competitive, and when they couldn't secure enough resources through competition, they began to harbour improper thoughts.

"Having traced the detailed identity of this Exotic Beast, your mission is already a success," Emperor Chu Yu said with a smile, "As for the rest, there's no need to concern yourself further. Whether the Exotic Beast is backed by a Marquis of the Imperial Clan or some ancient existence, it's not your place to intervene."

Luo Feng nodded, "After the Exotic Beast died, it had no Weapon Secret Treasures, only some Heavenly Bend Stone Essence."

With that, a wave of his hand.
```

Several pieces of Heavenly Bend Stone Essence as tall as half a person, along with a pile of Heavenly Bend Stone Essence grains.

"A total of twenty-three pieces of Heavenly Bend Stone Essence and some fragments," Luo Feng reported.

"That Exotic Beast was probably required to periodically hand over some of the stolen Heavenly Bend Stone Essence to its master," Marquis Chu Yu glanced and said, "Twenty-three pieces and some, valued at more than 23,000 Merit Points. Keep it! The Spoils of War from carrying out a mission are yours to claim."

Luo Feng nodded and put it away.

Merit Points in Flame Wind Ancient Country were highly valued, and Cosmic Sand couldn't be exchanged for Merit Points.

From what Luo Feng knew, a complete piece of Heavenly Bend Stone Essence would need a thousand Merit Points to exchange. But to purchase one from the outside world would cost nearly 300 million Cosmic Sand, a price that fluctuated because it was rare for anyone to be willing to sell Heavenly Bend Stone Essence.

"By the way, I've made some inquiries about the 'Primal Chaos Layer Creature' materials at the perfect level that you need," Emperor Chu Yu said, "Our Flame Wind Ancient Country should have seven of them. Six of them are with the Godly King, and one is with 'Marquis Wuhuang.' Marquis Wuhuang is of the 'Emperor Wu' lineage... and has a very poor relationship with our Emperor Chu's Lineage."

"Even I will need to spend quite some effort to acquire these Primal Chaos Layer Creature materials. It will probably take a considerably long time to get my hands on them," Emperor Chu Yu also found it challenging.

"If they can't be obtained, then so be it. There's no need to force it," Luo Feng said.

As the "Eight Tribulations Life Form" First Calamity had no record of the Transformation Method, Luo Feng needed to constantly refine the Transformation Method himself. Now that Luo Feng had made

considerable progress in terms of 'Life Spirituality,' he also realized...

...that the life structures of the Primal Chaos Layer Creatures he had captured were still too simple, with relatively low potential. To deduce more mystical life structures from scratch was exceedingly difficult.

Naturally, Luo Feng hoped to obtain more perfect Primal Chaos Layer Creatures to study their life composition.

But looking at it now, it seemed quite difficult even for Emperor Chu Yu to acquire them.

"We'll take it slowly," Emperor Chu Yu said with a laugh, "I haven't been a top class Marquis for long, and as I get to know more friends over time, there will be ways. If there are seven perfect Primal Chaos Layer Creatures in my Flame Wind Ancient Country, I refuse to believe that I can't acquire just their materials."

Emperor Chu Yu was well aware that the thirty Eras after becoming a Primal Chaos Realm cultivator was a protected period with no mandatory tasks, giving him sufficient time to grow.

Once the protected period ended, he would have to face the same competitive environment as the other six top class Marquises, and he would need the help of Guest Official Luo He.

...

Time passed, and it had been more than three Eras since Luo Feng arrived in Chu Capital.

He devoted himself to comprehending the inheritance of the "Eight Tribulations Life Form" First Calamity. The inheritance was vast like a sea of smoke, Luo Feng absorbed knowledge and continuously tried to perfect the Transformation Method.

In an elegant pavilion, Marquis Chu Yu sat opposite a woman dressed in crimson armor.

```
```

"Marquis Chu Yu, rest assured. As long as the 'North Sea Beast Forest' is under my management, I will definitely procure the materials from the Primal Chaos Layer Creature of perfect layer that you need," the woman in red armor said with a brilliant smile, brimming with confidence.

"I, of course, trust the vow of the Lianyu City Lord," Marquis Chu Yu said with a smile, "Soon, the Lianyu City Lord should receive the appointment."

The woman in red armor and Marquis Chu Yu chatted idly as they drank.

A moment later.

"Hmm?" The woman in red armor revealed a look of joy, as she had received a task from the Imperial Clan to take charge of the North Sea Beast Forest for ten thousand eras.

She did not hesitate to immediately accept the task.

"Marquis Chu Yu truly keeps his word," the woman in red armor stood up promptly, "I'll go to seek my father's help right away! Within three days, I will surely bring the materials you need."

Marquis Chu Yu stood up, "Thank you for the trouble, Lianyu City Lord."

In addition to the Imperial Clan's Godly Kings, the Flame Wind Ancient Country also had some Guest Elder Godly Kings. These Guest Elder Godly Kings were fully integrated into the Flame Wind Ancient Country and even granted fiefs, with their descendants thriving there as well.

The father of this Lianyu City Lord was the 'Heaven Capital King', who had been granted a fief by the Flame Wind Ancient Country.

The Flame Wind Ancient Country did not hold ordinary Godly Kings in high regard, and those ordinary Godly Kings didn't qualify to be granted fiefs in the Flame Wind Ancient Country!

This Heaven Capital King was a direct disciple of the Primogenitor

Yan Feng and addressed Emperors as his brothers, making him a formidable figure.

The Lianyu City Lord... was the only one among the many children of the Heaven Capital King to reach the Primal Chaos Realm. However, the governance of the Flame Wind Ancient Country was overseen by thirteen Emperors, with the first-class Marquises taking charge. The Guest Elder Godly Kings had no right to intervene.

"Searching the entire Primal Chaos Layer to capture ancient beings of perfect Primal Chaos Layer Creatures is either the task of Emperors or of beings at the Heaven Capital King's level," Marquis Chu Yu also felt it was not easy, "Having planned up to this day, my efforts have finally come to fruition."

The promise of the Lianyu City Lord was something Marquis Chu Yu believed in.

Whew.

Marquis Chu Yu, with his followers in tow, exited the pavilion, including two Cultivators of the Primal Chaos Realm. The Flame Wind Ancient Country had some generally weak Cultivators of the Primal Chaos Realm, who tried every means to get close to first-class Marquises in hopes of seeking opportunities.

"Emperor Chu Yu!" A fierce voice rang out.

Marquis Chu Yu's expression changed slightly as he turned to look.

He saw two figures approaching with a group of followers in tow.

"Emperor Chu Yu, regarding the task of the North Sea Beast Forest... both Marquis Chu Ji and I sought your assistance. You have given neither of us face!" A hideous figure covered in black fur said, his eyes flashing with thunder, "I guessed you were aiding the Lianyu City Lord, and it turns out I was right."

"For the past three-plus eras, I have been yielding on task distributions, but this North Sea Beast Forest mission is critical to me," Emperor Chu Yu stated, "I cannot yield any longer."

"You've gotten bolder," the figure with black fur chuckled strangely, an aura of murder washing over, causing Emperor Chu Yu's heart to skip a beat.

Among the seven first-class Marquises, this Marquis Chu Yuan was a madman. With bloodlines from both the Flame Wind and Thunder Imperial Clans, Marquis Chu Yuan suffered many hardships in his youth, which twisted and exacerbated his violent nature.

Marquis Chu Yuan, would only get along well with Marquis Chu Ji, who had a similar temperament.

"When you're weak, you should stick to deeds that match your strength," the burly figure beside him said to Emperor Chu Yu, "You even think you're worthy of taking on an emperor-level task?"

"We first-class Marquises, have equal status," Emperor Chu Yu replied with an equally unpleasant expression, "I've let go of past emperor-level tasks, not receiving even once! This North Sea Beast Forest mission... because I have never received one before, I naturally have priority."

"Priority?" the ugly black-furred figure shouted in anger, "We already told you, to yield it to us! And you still dare to compete?"

Bang!

A terrifying force hit Emperor Chu Yu's body, also affecting the followers beside him. Even the two Cultivators of Primal Chaos Realm at his side felt a terrifying presence sweeping towards them.

The formation of the house of pleasure immediately emerged, as Emperor Chu Yu was blasted back, crashing into the formation, with the two Primal Chaos Realm Cultivators also slamming into the formation, making a thunderous noise that attracted many guests' attention.

As for Emperor Chu Yu's ordinary entourage? They were already reduced to ashes.

"Oops, I accidentally killed a few of your followers," the ugly black-furred figure cackled, "Guess I'll be fined a few thousand merit

points? Hahaha, fine by me."

"This is a warning," he said.

"Next time, I won't be so gentle," the ugly black-furred figure turned and walked away.

Marquis Chu Ji beside him also looked indifferently at Emperor Chu Yu, saying, "Emperor Chu Yu, you know Marquis Chu Yuan's temper. Behave yourself, and you'll suffer less. Otherwise, even I can't stop him."

With that, Marquis Chu Ji left as well.

The expressions of Emperor Chu Yu and the two Primal Chaos Realm Cultivators at his side were unsightly.

"My lord, are we just going to endure this?" A Cultivator with several tentacles who couldn't help himself said.

"Let's go back," Emperor Chu Yu said coldly, turning to leave. Stay updated with mvl

The many guests of this pleasure place also had quite some status, but seeing the conflict between three first-class Marquises, none dared to watch for long.

...

Two days later.

Emperor Chu Yu arrived at Luo Feng's cave mansion.

"Brother Chu Yu," Luo Feng came out to meet him.

"I have finally not let down Brother Luo He's expectations," Emperor Chu Yu laughed heartily, "After plotting for three eras, I finally obtained the materials from the perfect layer of Primal Chaos Layer Creatures."

As he spoke, Emperor Chu Yu took out a jade box and opened it. Inside the jade box was a yellow feather that radiated a strange

luster, almost like a precious gem.

Chapter 125: Episode 3 Chapter 9 Godly King 2nd Realm 'Spiritual Will

Luo Feng looked at the yellow feather inside the jade box, feeling its incredibly sharp edges and the fluctuations of the Void.

Emperor Chu Yu smiled from the side, "This is the Golden Feather Divine Bird under the command of Sky Capital King, naturally born in the Primal Chaos Layer. It was very young when it was born, possessing only the strength of the middle layer of the Primal Chaos Realm.

Over time, after the Sky Capital King meticulously nurtured it with various rare treasures, it grew into its most perfect form, already comparable to the Pinnacle of the Primal Chaos Realm."

Luo Feng was amazed, "Grown to its most perfect form?"

The Primal Chaos Layer creatures he had captured himself, such as the Silverlight Creatures, were either formed by merging a hundred silver droplets or even a thousand. These were all very young.

According to his own Transformation Method, one hundred eighty billion droplets were the limit for merging Silverlight Creatures.

This Golden Feather Divine Bird, though born with Primal Chaos Realm strength, still had room for growth.

"I conducted a trade with 'Refining Jade City Lord,' the daughter of the Sky Capital King, to obtain this feather of the Golden Feather Divine Bird," said Emperor Chu Yu. "Since it was willingly exchanged, this feather will not self-destruct."

Luo Feng expressed his gratitude, "Brother Chu Yu, this is a great help to me, thank you."

Whether it's cultivators, Exotic Beasts, or other sentient beings from the Primal Chaos Layer with complete consciousness, wanting to study their body materials?

There are only two methods: one, destroy their consciousness and naturally you can study their corpses. Two, if the subject is alive, they must be willing. Otherwise, with just a thought, their blood, feathers will self-destruct and disperse.

The more powerful the life form, the less likely they are to let other powerful beings study their body materials.

"Haha, why should we be so formal with each other?" Emperor Chu Yu smiled lightly, "I'm in my protection period for the first thirty eras of the Primal Chaos Realm, during which both of us can cultivate safely. But once the protection period is over, I might also need your help."

"Anything you need help with, just say the word," Luo Feng said.

"During the protection period, there's nothing much you need to help with, just focus on your cultivation," Emperor Chu Yu laughed heartily, "I have other matters to attend to, so I'll take my leave first."

Luo Feng promptly escorted Emperor Chu Yu to the entrance of his cave mansion.

Once Emperor Chu Yu had left, Luo Feng immediately went into seclusion again.

Emperor Chu Yu and the conflicts with the other two first-rank marquises were unknown to Luo Feng!

On one hand, since arriving in Chu Capital, Luo Feng hadn't made many friends. The waters of Chu Capital were too deep; the seven first-rank marquises were already the toughest competitors, not to mention the direct disciples of the Emperor and the disciples of other Godly Kings... the factions were overwhelmingly complex.

In the phase where his strength was rapidly increasing, Luo Feng preferred to retreat for cultivation. He was well aware that once his strength was sufficiently strong, the so-called complex situation would quickly become clear.

On the other hand, the core of Emperor Chu's lineage's management of numerous affairs was these seven first-rank marquises. Their conflicts were something the whole of Chu Capital dared not discuss! Those who witnessed the conflict kept their silence out of fear.

Because angering a first-rank marquis could result not only in death, but could potentially bring disaster to one's family and power base behind them.

Moreover, Emperor Chu Yu himself wanted to keep these details confidential, not wanting them to affect Luo Feng. He naturally hoped that Guest Official Luo He would focus solely on his cultivation, the stronger the better.

"Marquis Chu Ji and Marquis Chu Yuan are both at the Pinnacle of the Primal Chaos Realm! Marquis Chu Ji has two guest elders, Marquis Chu Yuan has one. Between their camps, there are five individuals at the pinnacle tier of the Primal Chaos Realm!" Emperor Chu Yu was well aware of their strength, "Plus some others in the Primal Chaos Realm who follow these two."

The two marquises have allied themselves, making their side the most powerful.

"Although Brother Luo He is also at the Pinnacle of the Primal Chaos Realm, he is ultimately alone, against their five."

"Moreover, Marquis Chu Yuan, carrying the bloodlines of two ancient imperial clans and is heavily nurtured by the old ancestors, is among us seven first-rank marquises... the most likely to achieve transcendence of the Primal Chaos Realm," Emperor Chu Yu had to admit this point.

Among the seven first-rank marquises, Marquis Chu Yuan is the most reckless and aggressive one, but he is also the most talented and powerful.

At the pinnacle tier of the Primal Chaos Realm, without a significant gap in strength, it's very hard to completely kill an opponent. However, there are still levels of strength; just like how Luo Feng can suppress Marquis Liu Yin.

Marquis Chu Yuan has never encountered an opponent in the pinnacle tier of the Primal Chaos Realm! Even the Godly Emperor ancestor highly appreciates his talents.

"Now, my strength has reached the top of the Primal Chaos Realm," Emperor Chu Yu silently said, "By the end of the protection period, my strength must advance further! Even if I haven't reached the pinnacle of the Primal Chaos Realm... I must make it so that Marquis Chu Yuan can't touch me."

Emperor Chu Yu also had ambitions.

In his youth, he chose the path of unlimited godly bodies! Naturally, he aspired to reach the Godly King Tier.

"Forcing me to concede? Relinquish many resources? Without resources, how can I grow stronger?" Emperor Chu Yu's eyes flashed coldly.

******

Within Luo Feng's cave mansion, in the quiet room of seclusion, within a space inside the Star Tower.

Luo Feng, who was uninvolved in the various powers of Chu Capital and made no friends, focused solely on cultivation.

"This feather?" Luo Feng looked at the yellow feather in front of him, pinching it lightly, pulling at it, "Exceptionally tough, and the edges are like blades."

With a thought, the yellow feather flew out, hovering in midair.

Luo Feng stretched out a finger, the tip barely visible with sharpness.

"Whoosh."

With a gentle wave of his hand.

He sliced off a small tuft of down at the edge of the feather! Luo Feng even felt a bit of resistance.

"In close combat, I am far more formidable than using the Galaxy Transformation Method, yet cutting through the small down still posed some resistance," Luo Feng silently remarked, then gripped that tiny tuft of down and suddenly exerted force.

The terrifying power that transcended the physical realm and reached the zenith of the Primal Chaos Realm burst forth, completely shattering the tiny filament of fur into the most fundamental particles.

"What is this?"

A tiny filament of fur, once shattered, turned into tens of thousands of particles.

"Are these particles as well?" Luo Feng observed with slight confusion, noticing some Law Secret Patterns on the surface of the particles. At first glance, they resembled the particles from other transformation methods like the Galaxy Transformation Method and the Black Abyss Transformation Method, "but the life spirituality feels extremely strong!

It's thousands, even millions of times stronger than the life spirituality of my five transformation methods, representing a qualitative change."

"Why do these particles possess such strong life spirituality?"

"Huh."

Luo Feng lightly waved his hand and split a particle open.

As the particle split, Luo Feng instantly saw clearly.

This particle contained the Law Secret Patterns of Primal Chaos, and inside it even encapsulated two particles that were merging with each other.

"One larger particle encompassing two smaller ones? Are the two smaller particles partially merged?" Luo Feng observed and continued to split the even smaller two particles. As they split, they revealed many law secret patterns, while also completely disintegrating.

"Fusion of Yin-Yang? The Trinity?"

At that moment, Luo Feng understood the basic life structure of this mightiest Primal Chaos Layer Creature and also why this particle could harbor such powerful life spirituality.

"A form embodying Yin-Yang fusion contains endless mysteries, divided into Pure Yin, Pure Yang, and the fusion part of Yin and Yang."

"And the Trinity further complicates the complexity."

Luo Feng cut open another particle to closely observe.

Black and white can be considered Yin-Yang, life and death can be considered Yin-Yang, and matter and energy can also be regarded as a type of Yin-Yang.

Yin and Yang is a state.

Particles from the same origin display different states and yet perfectly merge.

"Regarding the fusion of Yin and Yang, it's documented in the 'Body of Life Chapter' of the First Calamity in 'Eight Tribulations Life Form'." Luo Feng used this inheritance to understand.

The Beginning of Unity, Fusion of Yin-Yang, The Trinity, Ten Directions World... 'Eight Tribulations Life Form', this inheritance, describes various forms of the 'Body of Life.'

"The Trinity is too complex, demanding higher requirements of life spirituality and the body of life. First, try the simpler form of Yin-Yang." After understanding the inheritance, Luo Feng began to refine his transformation methods.

Whoosh.

Divine Power transformed into two droplets joined together.

This combination, however, appeared quite ugly and contained only average life spirituality.

"The Yin-Yang form is about complementing each other." Luo Feng tried again after dispersing the previous attempt.

Time passed.

After numerous attempts, each time learning from the lessons and studying the inheritance further, he also cut open the 'Golden Feather Divine Bird's' particles to observe carefully.

The Golden Feather Divine Bird under the command of Heavenly King could sense its body's material being cut, but as the transaction was legitimate, it could only let everything happen without daring to actively obliterate that one feather.

"Whoosh." Not knowing how many times he had tried, this time Luo Feng waved his hand, and two droplets of silver light combined, yet with a sense of beauty of life, the life spirituality being ten times stronger than before.

"This is the feeling." Luo Feng revealed a surprised expression, immediately changing forms repeatedly.

A single transformation produced millions, tens of millions, hundreds of millions of droplets...

Luo Feng's soul was mighty now, his spiritual will even stronger, and his transformation methods were executed faster and faster.

Soon, 180 billion droplets of silver light formed, each pair combining.

"Buzz." A contained silverlight galactic river formed, and while it looked ordinary, Luo Feng could feel that his ability to merge his consciousness was much stronger, and its might had increased several times.

"Having been in Chu Capital for so long, my transformation methods have finally undergone a qualitative change." Luo Feng showed

pleasure.

"Now, my spiritual will has reached the threshold of the Second Realm of Godly King, and I can also manipulate more Galaxy Blade Light. The overall might of this Galaxy Blade Light compared to when I was in Huyang City should have increased tenfold." Luo Feng was quite happy.

Like the 'spiritual will' in the standard layers of Primal Chaos Realm, it gradually and slowly elevated, only experiencing a qualitative change from the bottleneck of the Primal Chaos Realm to the Godly King Tier.

The spiritual will of a Godly King also progresses gradually, from the First Realm to the Third Realm, all through slow accumulation. This kind of accumulation is very difficult, and even ancient Godly Kings struggle to take even one step further over endless years.

"My spiritual will being able to progress from the First Realm of Godly King to the threshold of the Second Realm, the key factor is the transformation of my life stage," Luo Feng knew this.

When he had been an eternal true god, he already possessed the will of a Godly King.

Upon becoming a being of the Primal Chaos Realm and after the growth of his Perfect Divine Body, his soul became even stronger, naturally resulting in a slight uplift in his spiritual will.

"Unless I elevate my life stage and reach the Godly King Tier, which could aid my spiritual will, otherwise... I will need to slowly accumulate." Luo Feng was well aware how gradual the normal progression and enhancement was.

His spiritual will had been at the pinnacle will of the Primal Chaos Realm in his true god phase. As an eternal true god, by nurturing his godly body and utilizing the Calamity Beast Diagram, he broke through to the will of a Godly King. In the Primal Chaos Realm, he advanced a small step, reaching the threshold of the Second Realm of Godly King.

Chapter 126: Episode 3 Chapter 10 The Wrath of Marquis Chu Yuan

As time flowed gently by, Emperor Chu Yu of Emperor Chu's Lineage appeared to be much more low-key during the distribution of tasks among the seven First-Rank Marquises.

And in the blink of an eye, half a century had passed.

"Finally, it's my turn to have priority again," Emperor Chu Yu, with the help of the First-Rank Marquis Command, had discovered a newly emerged emperor-level task.

Even among the First-Rank Marquises, emperor-level tasks were rare, and the seven had to choose in sequence.

"Guardian of the Ghostfire World?" Emperor Chu Yu gazed at the task, his eyes ablaze with excitement, "This task might even be more valuable than the 'Northern Sea Beast Forest'."

"My priority rights..."

With a cold smile, Emperor Chu Yu did not hesitate to claim the task for himself.

After being taught a lesson last time, he had kept a low profile for half a century. Now, at this crucial moment, he made his move again. As he seized the task, the other six First-Rank Marquises were also informed simultaneously.

"Hmm? Interesting."

"It seems we've underestimated this Chu Yu; he's quite bold."

"He dares to snatch it directly? He's asking for death!"

"No hurry, Marquis Chu Yuan will surely be the first to act."

The other First-Rank Marquises each had their own thoughts.

Indeed, upon realizing that Emperor Chu Yu had dared to use his priority rights to claim the emperor-level task, Marquis Chu Yuan was immediately consumed by nameless rage that scorched his entire body, and even his soul.

"A newly advanced being of Primal Chaos Realm with weak strength should just bear it! How dare he compete with me?" Marquis Chu Yuan was furious.

In his view, only those at the Pinnacle of Primal Chaos Realm had the qualification for a fair competition! A newly advanced being from the Primal Chaos Realm, even with the aid of unlimited godly bodies and the resources of a First-Rank Marquis for cultivation, still had a huge gap in strength and was not qualified to compete with them!

"Emperor Chu Yu!" Marquis Chu Yuan contacted Emperor Chu Yu, transmitting his voice directly, "You've got some nerve to snatch an emperor-level task."

"What? Am I, a First-Rank Marquis, not qualified to seize an emperor-level task?" Emperor Chu Yu responded indifferently.

Transmitting his voice across the vast distance, he was not afraid of that madman.

"It seems the lesson from last time didn't work on you," Marquis Chu Yuan's voice transmitted with murderous intent.

"I hear you, Marquis Chu Yuan, are very powerful. Among the seven First-Rank Marquises, you are the strongest? Even fighting many at the Pinnacle of Primal Chaos Realm without meeting an adversary?" Emperor Chu Yu said with interest, "I am currently inside my mansion; if you have the guts, kill your way here!"

Marquis Chu Yuan paused.

Storm into the First-Rank Marquis Mansion?

Even a Guest Elder's Cave mansion could harness a trace of the power of Chu Capital City, something that even beings who had transcended the Primal Chaos Realm feared immensely.

And a First-Rank Marquis Mansion could harness even more of the city's power! Even some ancient Godly Kings wouldn't dare to charge in recklessly.

"You're just going to hide in your mansion?" Marquis Chu Yuan said.

"You guessed right, I have no mandatory tasks before the protection period! So during the protection period... I will stay inside the Marquis Mansion," Emperor Chu Yu responded leisurely, "I won't step out of the mansion. What can you do to me?"

Marquis Chu Yuan was infuriated.

"I will not yield on any task," Emperor Chu Yu said coldly, "You and I are both First-Rank Marquises. Think you can suppress me? Delusional!"

"Very well, that's just great!" Marquis Chu Yuan's face twisted.

Emperor Chu Yu immediately cut off the communication, unwilling to deal with that madman any longer. Inside his own Marquis Mansion, Emperor Chu Yu was completely fearless.

After cutting off the transmission, Emperor Chu Yu thought for a moment, then immediately contacted Luo Feng, "Guest Official Luo He, I have some conflicts with the other First-Rank Marquises. It's best if your disciples don't go outside for the time being."

"Oh?" Luo Feng, who was in seclusion, received the message, "Don't worry, I will instruct them."

Luo Feng had entrusted Morosa, Moyu Qingyan, and Primoridal Ancestor with instructions.

...

"Aaaaah!"

Marquis Chu Yuan, driven to fury, caused thunder to flicker as he instantly tore apart the pavilion building he was in, and even two maids outside the pavilion were caught in the aftermath. The maids were turned to ash in an instant amidst their terror and despair.

"Damn it, damn it," Marquis Chu Yuan's eyes were completely filled with lightning.

Just then, a figure appeared high in the sky, none other than Marquis Chu Ji.

"Chu Yuan!" Marquis Chu Ji rebuked, striking at the soul, restoring some clarity to Marquis Chu Yuan's eyes, who then looked up to see Marquis Chu Ji descending.

"Big brother," Marquis Chu Yuan gritted his teeth, "This Emperor Chu Yu did it on purpose, he is deliberately provoking me."

"Yes, he is deliberately provoking you, making you go mad again, so that you break the laws set down by our Primoridal Ancestor. Then, he can imprison you in the Ghostfire World for ten thousand years," Marquis Chu Ji scolded.

Marquis Chu Yuan paused, looking at the only brother he trusted.

"You've come this far, become a First-Rank Marquis, after enduring many hardships," Marquis Chu Ji said, "You have exceptional talent, and you even have hope to transcend the Primal Chaos Realm! At this time, don't fall for the other's scheme; if you go mad and act recklessly... it will only amuse Emperor Chu Yu."

Marquis Chu Yuan nodded.

"In all matters, pay attention to the laws. As long as you don't break the prohibitions, that's all that matters." Marquis Chu Ji was also helpless; this brother of his still had some sense left, but as he cultivated the Primordial Secret Method inheritance, his temperament became increasingly uncontrollable.

"Many of the Thunder Ancient Country's Imperial Clan members have

uncontrollable tempers, bursting out at times to confront even Godly Kings. My brother has certainly inherited some of the traits of the Thunder Ancient Country's Imperial Clan," Marquis Chu Ji thought to himself.

Having inherited the bloodlines of two great imperial clans, and after becoming a being of Primal Chaos Realm, Primoridal Ancestor personally guided Marquis Chu Yuan in his cultivation, causing his strength to soar.

"Summon a few Guest Elders to come over, we'll discuss and find a solution," Marquis Chu Ji said.

"Alright," Marquis Chu Yuan nodded, reining in his temperament.

A moment passed.

Marquis Chu Ji, Marquis Chu Yuan, and the three guest elders gathered. These five Pinnacle of Primal Chaos Realm existences discussed the matter, which was also a way for Marquis Chu Yuan to vent his anger! Given Marquis Chu Yuan's temper, failing to vent his anger... would only make him grow more irate.

"Emperor Chu Yu said that during the protection period, he would stay within the Marquis Mansion and not take half a step outside," said Marquis Chu Yuan, his ugly face full of thick black hair bristling with fury, "I really wish I could smash him into a pulp! Fine, if he won't step out, I refuse to believe his wife and children won't!"

"To act against the close relatives of a First-Rank Marquis is equivalent to taking action against the Marquis himself," added Marquis Chu Ji from the side.

"I'm not going to kill them, just rough them up a bit," Marquis Chu Yuan, his body emitting black Qi, insisted, "As long as they don't die, it's merely a minor punishment."

"Taking action against relatives is crossing the line," Marquis Chu Ji shook his head.

"This isn't allowed, that isn't allowed, then what can we do?" Marquis Chu Yuan said angrily.

The man in blue robes on the side chuckled, "Marquis Chu Yuan needn't hurry. The reason Emperor Chu Yu is unyielding is because he wants to compete for resources... so we should strike at what he cares about the most. Isn't his biggest help at the moment that guest official Luo He? There are no laws against disciplining a guest official, and not even death would be investigated."

In the Flame Wind Ancient Country, there were many guest officials, and strife among them was common. The Ancient Country couldn't possibly manage it all.

"Right, the most powerful person beside him is that Luo He," nodded Marquis Chu Yuan, "But Luo He is at the Pinnacle of Primal Chaos Realm level, certainly practicing several life-saving secret techniques, making it too difficult to kill him outright."

He wasn't confident either.

"While we may not be able to kill him outright, as long as we destroy him once and take away the treasures he carries, it will certainly be a huge blow to him," the man in blue robes said.

"A strong person like him would carry the treasures he has accumulated over the long years with him. Die once, lose all his treasures, and even if he could survive by using life-saving techniques, the pain would be immense," said an old woman at his side.

"With our means, we might not be able to kill him outright, but taking his treasures will not be difficult," said an old man whose left arm was encircled by golden rings leisurely.

"Good."

Marquis Chu Yuan nodded, "He's hiding himself, so we'll act against his guest official! Let's see if this guest official Luo He will dare to continue helping Emperor Chu Yu!"

...

Luo Feng did indeed entrust Morosa, Moyu Qingyan, and the Primordial Ancestor, so even if they went out, they were just Divine

Power Incarnations taking a stroll.

In Chu Capital, Thousand Star Tower.

"I was once suppressed by the Primordial Cosmos for most of a Reincarnation Era, intently perceiving the myriad states of beings and the movement of all things," The Primordial Ancestor sat in a small building within the Thousand Star Tower, drinking as he observed the lives of the beings outside, "Yet the myriad states and rules of movement of the beings in the Land of Origin are much more mysterious."

After obtaining a wealth of inheritance from the Heartshadow Sect, the Primordial Ancestor started integrating many experiences of his predecessors and began to create a Dharma at the Eternal level for the 'Virtual Universe'.

As the Dharma started to take shape, the Primordial Ancestor's strength improved significantly.

"Sometimes, what's real is also an illusion, and an illusion can also be reality," the Primordial Ancestor smiled.

"With my Dharma in its initial success, I can form an 'Illusionary Avatar', which possesses a third of my True Body's strength," the Primordial Ancestor said contentedly, "I hear that even among beings of Primal Chaos Realm, there are few who have the method of creating an Avatar."

Suddenly—

A ripple descended.

The Primordial Ancestor saw a figure in a blue robe standing to the side, its intangible might already completely binding the Primordial Ancestor.

At this moment, the Primordial Ancestor felt as though the blue-robed figure was like an endless heaven and earth, leaving no room for resistance, with the gap between them being unimaginably huge.

"Are you the Primordial?" the blue-robed figure looked at him.

Indeed, this was an Eternal True God Level Physical Body, not some Divine Power Incarnation.

"May I know what the Great Saint desires?" the Primordial Ancestor rose to pay respects.

"I hear that the guest official Luo He went to great lengths for you, bringing you to Chu Capital," said the blue-robed figure leisurely, "Send a message to Luo He promptly, tell him... if he doesn't come, you're as good as dead."

The Primordial Ancestor was slightly taken aback.

"Yes, I will send the message immediately," The Primordial Ancestor still kept a very low profile.

...

Inside Luo Feng's Cave Dwelling.

Luo Feng was summoned from his secluded cultivation.

"Primordial Ancestor, is there an urgent matter?" Luo Feng looked at the Primordial Ancestor.

"Luo Feng, my Illusionary Avatar in the city's Thousand Star Tower encountered the guest official 'Great Saint Tianyu' of Marquis Chu Yuan. He wants you to go there immediately, otherwise he will kill me," said the Primordial Ancestor, "But don't worry, he only captured my Illusionary Avatar."

"Illusionary Avatar? Great Saint Tianyu couldn't recognize it?" Luo Feng was surprised.

He hadn't even cultivated an Avatar himself yet.

The inheritances from the Heartshadow Sect didn't have any Secret Technique for Avatars. Could the Primordial Ancestor possibly have managed to cultivate an Illusionary Avatar?

"The Illusionary Avatar is also a real Physical Body, just weaker than my main self," the Primordial Ancestor explained.

Luo Feng nodded slightly. If the Primordial Ancestor was captured, he would have been somewhat troubled.

Now?

Luo Feng was only filled with burning fury.

They had started targeting people close to him? Luo Feng's killing intent grew even more intense.

"You must be careful. If they ask you to go there, there may be an ambush waiting," the Primordial Ancestor cautioned.

"Don't worry."

Luo Feng nodded, then stepped forward and disappeared into the Void.

Chapter 127: Volume 3 Chapter 11 He is not at the Pinnacle of Primal Chaos Realm!

Thousand Star Tower, merely a somewhat ordinary merchant in Chu Capital, yet today marked its most special day ever! Two first-rank Marquises and three Guest Officials of Primal Chaos Realm were inside Thousand Star Tower.

"The fate of Great Saint Luo He is blurred, and causality is converged; it is very hard to discover much about him," said the old woman next to Marquis Chu Ji, "His rise was abrupt, and even close friends are exceedingly rare. He might be the reincarnation of some old fellow. When we make our move later, we must give it our all."

"Against any pinnacle of Primal Chaos Realm cultivator, we cannot afford the slightest carelessness," said the old man with rings of gold on his left arm.

The man in blue robes sneered, "The Pinnacle of Primal Chaos Realm, already touching the threshold of Godly King. However, this Luo He... specializes solely in the cultivation of the physical body, and his moves are rather clumsy, which actually makes him easier to deal with."

Like the Origin Dao of Time, Origin Dao of Space, Origin Dao of Causality, and so on...

Many Daos, if reached the pinnacle of Primal Chaos Realm, are very unpredictable, and capturing or killing them is very difficult. Like Luo Feng defeating Marquis Liu Yin before, but he couldn't retain him.

And those who specialize solely in the physical body, while indeed

tough to annihilate, usually have other aspects that are weaker.

"No matter what the opponent is like, we must go all out," Marquis Chu Ji stated.

"The stronger the physical body, the better, for I can enjoy the battle more!" snarled the black-haired, ugly Marquis Chu Yuan, "Soon, I'll smash him with thousands of clubs, turn him into a pile of mush! Let's see how strong his physical body is!"

The other four pinnacles of Primal Chaos Realm were already used to Marquis Chu Yuan's temperament.

In the Imperial Clan of Flame Wind Ancient Country, such rampant madness was rare. Yet in Thunder Ancient Country's Imperial Clan, most of the powerful members were like this, with only a few being calm and rational.

"He's here," the old woman spoke, gazing off into the distance with a somewhat anxious heart. Being a student of the Origin Dao of Causality, she always felt that Luo He's fate was too hazy; she could see too little.

Whoo!

A man in black emerged from the Void, his forehead adorned with a cluster of dark golden spikes, his face bearing a hint of chill. As soon as he stepped out, he looked toward Thousand Star Tower, immediately focusing on those two first-rank Marquises and three Guest Officials.

"Marquis Chu Yuan, Marquis Chu Ji, and the three Guest Officials," Luo Feng observed them, "You all have statuses, yet you dared to make a move against the eternal true god by my side."

"Guest Official Luo He has been staying inside his cave mansion without going out; we merely used a small trick to kindly invite Guest Official Luo He to meet," Marquis Chu Ji said smilingly, his voice hearty, "Surely, Guest Official Luo He is also aware of some conflicts we have with Emperor Chu Yu."

"Since coming to Chu Capital, I have been in closed-door cultivation

and am not very clear about the details of the conflicts among the first-rank Marquises," Luo Feng spoke.

Marquis Chu Ji and the others were somewhat surprised.

As a guest elder invited by Emperor Chu Yu, he does not know about Emperor Chu Yu's conflicts with them?

"Well, it doesn't matter if you don't know," Marquis Chu Ji continued, "We give you two options: one, distance yourself from Emperor Chu Yu and no longer assist him. Two, continue to help Emperor Chu Yu and be our enemy. Two paths… you choose one!"

Choosing a Guest Elder needs to be done carefully; Emperor Chu Yu was initially worried about encountering an ingrate and preferred to select someone trustworthy and with great potential for gradual cultivation.

The first time Emperor Chu Yu invited Luo Feng, he thought Luo Feng was an eternal true god of unlimited godly bodies and hoped to support each other for mutual growth. Emperor Chu Yu was prepared for an early period of restraint.

Only later, Luo Feng's strength was unexpectedly strong.

"Choose between two paths?" Luo Feng looked at them, with a smile that was not quite a smile, "You think you are fit to make me choose?"

Marquis Chu Yuan, Marquis Chu Ji, and the three Guest Officials suddenly changed color.

"We fit to?" Marquis Chu Ji's eyes flashed with anger, and the inherently hot-tempered Marquis Chu Yuan's body surged with thunder.

"Hmph."

The blue-robed man coldly huffed. An illusionary avatar of the Primordial Ancestor, who had been bound and unable to move aside, instantly vanished, and the sky around Thousand Star Tower grew dark.

The old woman glanced at Luo Feng—"Hmmm~~~" A silent spiritual attack enveloped Luo Feng, obscuring his mind, blurring his perceptions.

But Luo Feng, who had reached the Second Realm of Godly King in terms of Spiritual Will and possessed the Lie Yuan Technique, was not bothered by this confusion at all.

"Causality obscuring?" Luo Feng detected the opponent's move. The opponent's spiritual will level was just entering the threshold of Godly King, but this spiritual attack aimed to blur all his perceptions, "This must be Xun Guest Official by Marquis Chu Ji's side, adept at the law of causality, and the Origin Dao of Causality is indeed mysterious and unpredictable."

The old man with rings of gold on his left arm stared at Luo Feng, the circles of gold on his left arm vanishing into thin air.

"Hmm?"

Five illusionary rings of gold appeared out of nowhere, encircling Luo Feng, and instantly tightening, the five rings binding Luo Feng's body, containing powers of seal, bind, strangle, and suppress.

"Luo He didn't avoid my golden bands?", the old man sneered upon seeing this.

"His true body is definitely doomed." Seeing the five golden bands trap Luo Feng, the blue-robed man revealed a smile, and the entire area faintly manifested a grand array; as the array operated, countless chains of heaven and earth enveloped Luo Feng.

Marquis Chu Ji showed a slight smile, victorious.

The moment Luo He was trapped by the golden bands, the outcome was already determined.

"Is this your capability?" Luo Feng's voice suddenly rang out, his body slightly exerting force, all the basic components of his five types of Transformation Methods had already transformed into 'yin-yang particle form', his power tremendously increasing.

Luo Feng's five Transformation Methods, four of which are for close combat.

Using the Galaxy Transformation Method, Luo Feng could now simultaneously execute 23,000 blade lights during the use of the Blade Technique of Primal Chaos Realm.

In close combat, which merely bursts forth immense power and puts little strain on the Spiritual Will, Luo Feng was able to unleash "over ten billion units" of power through the Transformation Method, reaching an unimaginably powerful level.

"Boom, boom, boom, boom, boom!!!!!"

With a single exertion, all five golden hoops shattered!

Every heavenly chain that touched the surface of Luo Feng's clothing naturally disintegrated upon contact.

This scene shocked both the first-class marquis and the three Guest Officials of the Primal Chaos Realm!

"My five golden hoops, shattered?" The elderly man couldn't believe what he saw. "These are Weapon Secret Treasures, and they're broken?"

He could accept the golden hoops being stretched out,

but shattering instantaneously?

When the chains formed by the Heaven and Earth Array touched Luo Feng's clothing, they disintegrated naturally. He could distinctly sense the incredible power that was encountered at the moment his controlled chains touched Luo Feng's clothing.

Upon contact, they were annihilated!

"Escape quickly! He is not just at the Pinnacle of the Primal Chaos Realm, he has transcended it!" the man in the green robe transmitted a message while trying to flee simultaneously.

"Rumble~~~~"

Centered around the Thousand Star Tower, endless silver light emerged, enveloping and forming a colossal silver cage that now completely enclosed the entire Thousand Star Tower.

"Thinking of leaving?" Luo Feng took a step forward, his figure traversing through the void, already appearing beside the man in the green robe. His five fingers grasped the man's body, and instantly the area surrounding them within several meters turned into chaos—all layers of space disintegrated, and a terrifying force assaulted the walls of the world.

Under this strike, the body of the Great Saint of Heaven was utterly wiped out, without even a shred of capability to struggle.

First, the five golden hoops were crushed, and the heavenly chains disintegrated, followed by the inability of the Great Saint of Heaven to withstand even one strike. This heavily shocked Marquis Chu Ji and the others.

Although the Divine Body of the Great Saint was not exceptionally powerful, as a cultivator of the Origin Dao of the World, his strength was considered comparable to that of Marquis Liu Yin, and his life-preserving capabilities were strong; yet, he was extremely vulnerable in front of Luo Feng.

"Boom!" "Boom!"

Luo Feng's arms suddenly swelled enormously, resembling pillars of the heavens. His hands simultaneously reached out toward the elderly man and the woman.

Luo Feng naturally had detailed intelligence on both the first-class marquis and the three Guest Officials of the Primal Chaos Realm. In fact, the three guest officials had the strongest ability to escape! Thus, Luo Feng dealt with the Great Saint of Heaven, who controlled the heavens and earth first, then the other two guest officials.

As for Marquis Chu Ji and Marquis Chu Yuan? While strong, they were weaker in terms of escape.

"Buzz."

The palm of Luo Feng's hands, traversing through the void, appeared out of nowhere close to the two Guest Officials of the Primal Chaos Realm.

"Marquis, let's go." The old woman grabbed Marquis Chu Ji, and in an instant, she disappeared without a trace.

The body of the elderly man dispersed, avoiding Luo Feng's grasp. When his body reappeared from afar, he angrily looked towards the silver cage, "This cage has cut off the void, separating the inside from the outside world."

Luo Feng's silver light cage had cut through every layer of space, preserving only the walls of the world.

"Whew."

The woman, having escaped with Marquis Chu Ji to a distant point above the Marquis Mansion, finally looked back with assurance towards the direction of the Thousand Star Tower.

"Marquis, I can only barely take one life from the Primal Chaos Realm with me using the Causality Escape Technique," the woman said. "I could only bring the Marquis out."

The Causality Escape Technique, where one merges with the threads of causality to flee, is a powerful escape method that the woman developed from her study of the Origin Dao of Causality, based on the heritage she got from the Flame Wind Ancient Country.

This method of escape, carrying a life form along, significantly increases in difficulty.

"I owe it to Guest Elder Xun. Without Guest Elder Xun, I could not have escaped," Marquis Chu Ji anxiously looked towards the distance. His gaze penetrated the spatial barriers to view the silver cage, "That cage can isolate the inside from the outside, making escape very difficult."

"Guest Elder Xun, is there a way to save Marquis Chu Yuan and the others?" Marquis Chu Ji asked.

"There's no way."

The woman shook her head, "Not only are Luo He's moves extremely fast, but he can also traverse through the void even under the control of the Great Saint of Heaven! If I were to use the Causality Escape Technique to sneak in, the moment I materialize, I would probably be hit! My godly body is not even as strong as that of Brother Luo He. Once hit, this true body would surely die."

"He must be a transcendence of the Primal Chaos Realm who specializes in physical strength, capable of competing with Godly Kings with his physical body alone. He's not someone we can contend with," the woman added, somewhat frightened.

Marquis Chu Ji grimaced, "I didn't expect that this time, only the two of us would escape."

...

As a first-class marquis, Emperor Chu Yu received the news about the battle at the Thousand Star Tower immediately, being very well-informed within the Chu Capital.

"What, Marquis Chu Yuan and Marquis Chu Ji, five of them against Brother Luo He?" Emperor Chu Yu became anxious, "Didn't I warn Brother Luo He to be careful? How could he still have been ambushed?"

Chapter 128: Episode 3 Chapter 12 Luo Feng's Big Slap

Emperor Chu Yu was filled with anxiety, instantly arriving above the Marquis Mansion, his gaze stretching towards the direction of Thousand Star Tower as described in the reports.

His eyes pierced through the spatial obstacles, and he saw a silver cage enveloping the Thousand Star Tower from afar.

"Thousand Star Tower is sealed by a Silverlight Cage, this Silverlight Cage?" Emperor Chu Yu suddenly paused, clearly remembering the scene when Luo Feng unleashed the mighty Galaxy, with its Blade Light tearing through the sky in Huyang City.

"This silver light, could it be Brother Luo He's method?"

"Marquis Chu Yuan and the other four set out against Brother Luo He, yet instead of fleeing, Brother Luo He counteracted with the Silverlight Cage, sealing the entire battlefield?" Emperor Chu Yu sensed something was amiss.

But now that the Silverlight Cage had sealed the area, it was difficult for the outside world to pry into, and at this point, the likes of Marquis Chu Ji, who had suffered a great loss, weren't about to voluntarily disclose any information.

At this moment, all significant powers in Chu Capital had received the news that 'Marquis Chu Yuan, Marquis Chu Ji, and three Guest Elders were confronting Guest Official Luo He,' yet the details of the battle were still unclear to many.

"That madman, Marquis Chu Yuan, really made his move."

"To Emperor Chu Yu, Luo He is just one Guest Official, right? If Luo

He were obliterated and lost his Weapon Secret Treasures, I'm afraid his strength might be greatly reduced."

The other first-class marquises were quite patient, waiting for the outcome of this conflict.

Common sense would dictate that the Guest Official Luo He, facing five opponents, is unlikely to end well.

...

In Chu Capital, within the quiet room of Great Saint Tian Yu's cave mansion where he cultivated, suddenly, a brick on the floor transformed into a silhouette—the figure of the green-robed Great Saint Tian Yu.

"Rumble.." Cosmic Primal Chaos Divine Power surged into the miniature universe, gradually restoring the physical body of Great Saint Tian Yu.

"My True Body has been destroyed," said the Great Saint with a grim expression.

As a pinnacle expert of the Primal Chaos Realm, the Weapon Secret Treasures he cared about most were those he carried on his person, as only then could he unleash his full strength. Only some resources and treasures were temporarily stored in his cave mansion.

"Fortunately, as a Guest Elder, the merit points I accumulated were all exchanged for inheritances and resources, which I used on my person," thought the Great Saint Tian Yu. Most of the resources accumulated by such strong individuals were dedicated to cultivation.

This enabled them to obtain more powerful inheritances and cultivate to higher realms with stronger Secret Techniques. Even if their True Bodies died and were resurrected, their realm and Secret Techniques would not be lost.

"My three Formation Diagrams, valued at thirty billion Cosmic Sand, are all gone." The Great Saint took the loss of the three formation diagrams to heart, "With the diagrams, I could control the Heaven

and Earth Array, and my strength was double what it is now. But my Formation against Luo He… was nothing but a joke."

In fact, that Formation did have some influence on Luo Feng, which is why Luo Feng targeted the Great Saint first!

"This time, having provoked someone who has Transcended the Primal Chaos Realm, the matter may not be so easily resolved." The weakened Great Saint Tian Yu also arrived above the cave mansion, looking towards the direction of Thousand Star Tower and seeing that sealed Silverlight Cage.

Like the third-generation ancestor from the lineage of Duan Dong River, who created his own secret technique which included the 'Undying River' method.

And most of the inheritances created by individuals in the first realm of Godly King level wouldn't even make it into the Flame Wind Ancient Country's treasury. The inheritances in the treasury of the Flame Wind Ancient Country mostly have significant origins, which naturally include numerous life-saving methods.

Luo Feng, who practiced the "Eight Tribulations Life Form" from the first calamity, merged three of the major branches of the Great Dao of Life Origin, also possessing many life-saving techniques. Although Luo Feng's contemplation time was short, he naturally learned two life-saving techniques.

Of course, with Luo Feng's Perfect Divine Body cultivating the Transformation Method, to force Luo Feng to use a life-saving technique would be extremely difficult.

******

The Silverlight Cage sealed the entire area of the Thousand Star Tower, cutting through space and separating the inside from the outside.

The merchants, attendants, and guests inside the Thousand Star Tower were all terrified. Although the Thousand Star Tower had activated its Formations to protect each building, the tower's

Formations had no right to tap into any of the power of Chu Capital. Hence, any Pinnacle Primal Chaos Realm expert could destroy the Thousand Star Tower if they fully unleashed their abilities.

"Why did the conflict between first-class marquises break out in our Thousand Star Tower?"

"May it not involve us."

They were all nervous, fearing their lives would be jeopardized.

Suddenly, a grand voice echoed: "It was foolish of us, having offended Guest Official Luo He. I beg Guest Official Luo He to spare me, to let this True Body go! I am willing to offer ten billion Cosmic Sand as compensation."

The figure of the old man with the golden hoop dissipated, invisible and intangible, but his voice resounded.

"The Infinite Body is indeed somewhat interesting," Luo Feng commented. The old man with the golden hoop cultivated the 'Origin Dao of the Infinite'; his golden hoop that entrapped enemies was formidable, and his body, the Infinite Body, had strong evasion capabilities.

Among his peers, the old man with the golden hoop was even more fearsome than Marquis Liu Yin.

But the old man had encountered Luo Feng! Although Luo Feng's realm was somewhat inferior, he relied on the terror of his physical body to Break Laws with Force!

Now, Luo Feng's Silverlight Cage cut through every layer of space, leaving only the world's membrane wall. At the level of the Primal Chaos Realm, there were very few methods to escape. 'Causal Escape' was one, as Luo Feng couldn't intercept causality.

But the old man's Infinite Body could not escape.

"Rumble～～～"

Suddenly, silver light enveloped the entire Thousand Star Tower, and

in an instant, everything was gathered within the Star Tower. Luo Feng had no desire to involve the pitiful Cultivators inside the Thousand Star Tower.

"Guest Official Luo He..." The voice of the old man with the golden hoop echoed in the air, attempting to continue his persuasion.

"All of you took action against me, and now with just ten billion Cosmic Sand, you want to save your True Body?" Luo Feng scoffed.

Boom, boom, boom!!!

Dense Blade Light of countless Galaxies appeared, twenty thousand Blade Lights of Galaxy, each containing the mood of splitting the heavens. These Blade Lights did not discriminate between friend and foe, attacking all parts of the Silverlight Cage simultaneously, leaving no dead angles.

These twenty thousand Blade Lights formed the most basic 'Yin Yang particle state', with their power multiplied several times over. Coupled with the increased number of Galaxy Blade Lights Luo Feng controlled, one could only imagine the extent of their power.

```

"No—" The golden-hooped elder with the infinite body was somewhat desperate as the overwhelming power covered every spot, even encompassing Luo Feng himself, leaving the golden-hooped elder with no avenue of escape.

At this moment, every part of the silver cage was under attack, with annihilation occurring everywhere.

Under the form of boundlessness, every bit of divine power from the golden-hooped elder was also annihilated, leaving behind only the most tenacious of the Weapon Secret Treasures.

Luo Feng stood in the void, and although the Blade Light covered him as well, it didn't harm even a single hair on his head, as if a gentle breeze brushed his face.

"Another one resolved." Luo Feng put away the Weapon Secret
```

Treasures left by the golden-hooped elder and looked towards Marquis Chu Yuan.

Originally ferocious and frenzied, Marquis Chu Yuan, incredibly, did not make a move throughout; by this point, his black hair had been nearly obliterated by the endless Blade Light, revealing his tough black skin underneath.

"You are stronger than me," Marquis Chu Yuan, staring at Luo Feng, said in a deep voice, "I admit defeat."

Luo Feng smiled, looking at Marquis Chu Yuan, "I must say, I'm starting to see you in a new light. Everyone says Marquis Chu Yuan is fierce and reckless, without restraint! But in my presence, aren't you quite docile and also understand the concept of defeat?"

Marquis Chu Yuan's eyes flickered with lightning, as rage ceaselessly scorched his soul.

But the hardships he had endured from childhood had taught him that when one is weak, one must bow down!

"How can I secure my release?" Marquis Chu Yuan asked, "You set the terms."

"You've already targeted my friends and family, and you still think you can escape this calamity?" Luo Feng looked at him, "You did the deed, you must pay the price."

As he spoke, Luo Feng's arm swelled up in an instant, reaching towards Marquis Chu Yuan.

"Then come on!"

With no way to escape or dodge, Marquis Chu Yuan no longer contained the fury that twisted his soul. In a flash, his entire body bathed in lightning, his eyes filled with it too, and he swung a black staff down.

Bang!

Luo Feng's enormous palm blocked the black staff; at the same time,

countless black liquids flowed across the surface of his palm, enveloping the staff and quickly spreading toward Marquis Chu Yuan.

"Whoosh." Unable to pull the staff free, Marquis Chu Yuan immediately let go and retreated explosively.

"My full-powered strike didn't harm him in the slightest, and my staff was taken instead?" Marquis Chu Yuan perceived the immense gap more clearly.

"Escape?"

Luo Feng watched the figure transformed into lightning and fleeing, shaking his head slightly. Innumerable black liquids surged from his body, and although the 'Black Abyss Transformation Method' wasn't as fast or sharp as the 'Galaxy Transformation Method', it was superior in terms of binding and entangling.

Countless black liquids instantly spread throughout the silver cage, engulfing everything in their path, leaving no room for escape, however swift one's movement might be.

In his frenzy, Marquis Chu Yuan was completely submerged by the black liquid, trapped and enshrouded.

"Whoosh."

Luo Feng looked at the bound Marquis Chu Yuan.

"Split." With a single thought, billions of units of the Black Abyss Transformation Method simultaneously exerted force, causing Marquis Chu Yuan's body to stretch and enlarge, yet remain unharmed.

"So tenacious?" Luo Feng was surprised.

Then he reached out his hand, and the four types of transformation methods attached to his body erupted simultaneously, with hundreds of billions of units of transformation law unleashing their power. Luo Feng's palm, carrying a world-shattering terrifying force, smacked down on the bound body of Marquis Chu Yuan.

"Crack!" Marquis Chu Yuan got smashed into dozens of pieces of lightning flesh.

The dozens of pieces of lightning flesh remained incredibly tough, filled with endless vitality.

"Although shattered, the divine power has hardly depleted?" Luo Feng was astonished, "I'd heard that those at the pinnacle of Primal Chaos Realm who focus solely on physical cultivation would have unbelievably tough bodies, which even ordinary Godly Kings would have to whittle down over time."

Continue your adventure at mvl

Luo Feng pondered for a moment and then made another move.

One palm strike after another, in almost the blink of an eye, Luo Feng delivered thousands of consecutive blows.

Each strike unleashed his full power, with the combined might of hundreds of billions of transformation law units. This continuous assault pulverized the pieces of lightning flesh even more until they turned into strands of lightning liquid.

From solid to liquid state.

The myriad parts of lightning liquid still tried to fuse and gather together.

"I've beaten him into a pulp, into a liquid, and the depleted power is so minimal? It's even recovering?" Luo Feng was rather speechless, as Marquis Chu Yuan consistently had the support of minor universe divine power, a small loss followed by quick recovery, "No wonder he's considered a likely candidate for Transcendence of Primal Chaos Realm."

Luo Feng was also somewhat troubled; Marquis Chu Yuan was virtually unkillable.

"Well, at least take his weapon." Although Luo Feng had obtained the Weapon Secret Treasures left by three pinnacle Primal Chaos Realm beings, the most precious was still Marquis Chu Yuan's staff, "It's

indeed a Godly King level weapon, befitting of a first-rate marquis!"

...

Throughout Chu Capital, only three beings could see the battle inside the silver light cage, watching as Luo Feng swung his arm thousands of times, brutally pounding Marquis Chu Yuan into a pulp, into a liquid state.

"Chu Yuan, this kid, has cultivated the Primordial Bloodline inheritance of the 'Eight Techniques of Thunderbolt,' and he's just one step away from the 'Thunder Beast Juvenile Body,' so one can only imagine how tough his body is. Yet he's reduced to liquid by this Luo He?" A female voice sounded somewhat astonished.

"This Luo He's physical cultivation is very strong, almost one to two percent as strong as mine," said a rough voice with a hint of admiration, "But he's too rough in other aspects; he would suffer against a Godly King."

At this moment, The Emperor observed Luo Feng with keen interest as well.

For them, the addition of one more being who might Transcend the Primal Chaos Realm was a happy occasion for the entire lineage of Emperor Chu.

```
```

Chapter 129: Episode 3, Chapter 13: New Transcendence of Primal Chaos Realm

Emperor observed Luo Feng: "This Luo He's physical body features characteristics of a Primal Chaos Layer Creature, and after becoming a Guest Elder he exchanged for the 'First Calamity of the Eight Tribulations Life Form.' Not long ago, Chu Yu even helped him obtain a portion of the Golden Feathered Divine Bird's body material."

As an Emperor of Emperor Chu's Lineage, the gathered intelligence on Luo Feng's arrival in Chu Capital would naturally be presented to the Emperor.

The Emperor usually didn't bother to look, but now that he was interested in investigating, he came to understand many details about Luo Feng.

"Whether it's my Flame Wind Ancient Country or the Thunder Ancient Country, I have never heard of anyone reaching the Transcendence of Primal Chaos Realm by relying solely on a 'Body Refining Method like that of the Primal Chaos Layer Creatures'."

"Does that mean he has created his own Body Refining Method?" The Emperor became intrigued.

With his insight, he was well aware that achieving Transcendence in the Primal Chaos Realm across the entire Land of Origin generally involves cultivating some special heritage, such as using Primordial Force or Primordial Materials for cultivation... to possess the strength of Transcendence in the realm level of Primal Chaos.

Creating his own Secret Technique to reach Transcendence in Primal Chaos Realm?

This represented immense potential!

"Has Chu Yuan brought back a cultivator of extremely high talent?" the Emperor wondered.

In this moment, the Emperor's esteem for Luo Feng rose above that of a first-rank Marquis.

The Imperial Clan, having proliferated endlessly over eons, were countless. Numerous Imperial Clan members were discarded into small universes to fend for themselves, indicative of the Emperor's attitude toward the Imperial Clan.

The Emperor also valued the unlimited godly bodies of the Imperial Clan and the first-rank Marquises, approaching them with an attitude of nurturing the clan's future generations.

"This Luo He, being able to create his own Secret Technique of Transcendence in the Primal Chaos Realm. Perhaps he will become one of our peers one day," the Emperor observed Luo Feng, facing many difficulties and obstacles himself as an Emperor.

Even the exalted Primogenitor Yan Feng was also advancing through darkness.

"Look into his past in detail, his traces in the Land of Origin are too few," the Emperor thought. "If there are no issues, then I can fully draw him to my side."

...

Emperor Chu Yu was currently above the Marquis Mansion, looking eagerly in the direction of Thousand Star Tower.

Suddenly—

The silver light cage that had sealed the Thousand Star Tower abruptly disappeared, revealing a figure in a black robe—it was Luo Feng.

Luo Feng was holding a meatball in one hand, the bound form of 'Marquis Chu Yuan.'

This scene warmed Emperor Chu Yu's heart.

"Are all the enemies gone? Only Luo He left?" Emperor Chu Yu speculated, "What exactly is the meatball held in Brother Luo He's hand?"

—

At that moment, Emperor Chu Yu immediately headed towards the direction of Thousand Star Tower.

And the location of Thousand Star Tower was desolate.

"This minor punishment, if you dare bother me again, I will make you suffer even more severe punishments," Luo Feng casually threw, and the meatball was flung far away, rapidly regaining the form of the hairy, ugly figure of Marquis Chu Yuan.

Marquis Chu Yuan, with his ugly, fully hairy body, stood dumbfounded in midair.

Just a moment ago, having been beaten into mud, even into a liquid, Marquis Chu Yuan felt only pain, as if trapped in an endless nightmare, until now when he regained his freedom.

"This is a minor punishment?" Marquis Chu Yuan looked at Luo Feng, dared not say more, and quickly flew away.

Only then did Luo Feng wave his hand, releasing the many buildings of Thousand Star Tower, as well as the cultivators inside.

The many cultivators all excitedly looked towards the man in black outside, all respectfully saluting and shouting, "Thank you, Great Saint!"

"Thank you, Great Saint!"

Each cultivator was very grateful.

The Great Saints of Primal Chaos, each exalted high above, few cared about these weaker lives. It was considered decent to not deliberately slaughter; unintentional impacts were very common.

Luo Feng glanced at the many cultivators of Thousand Star Tower, inwardly sighing. Many powerful beings in the Land of Origin did not care too much about the lives at the bottom, not deliberately killing was already considered good, and unintentional impacts were very common.

"Brother Luo He." Emperor Chu Yu emerged from the Void, coming close to Luo Feng, finally daring to step out of the Marquis Mansion in person, "What exactly is going on, weren't Marquis Chu Yuan, Marquis Chu Ji, and the three Guest Elders joining hands against you?"

"They dared to attack 'Yuan' next to me, forcing me to show myself," Luo Feng said angrily. "Naturally, I could not endure any longer and had to punish them."

"To punish them?" Emperor Chu Yu blinked his eyes.

One against five, and he ended up punishing the others?

"Let's go to Brother Luo He's Cave mansion; we can have a good talk there," Emperor Chu Yu felt a tremendous opportunity right before him.

"Let's go." Luo Feng nodded, immediately transporting Emperor Chu Yu through the Void, reaching the Cave Mansion in merely two steps.

Luo He Cave Mansion.

Emperor Chu Yu was also secretly amazed; Chu Capital had strong suppression over space-time, and usually, beings in the Primal Chaos Realm could only teleport short distances. Luo Feng bringing him from Thousand Star Tower to the Cave Mansion in just two steps showed remarkable abilities in traversing the Void.

"They five against you, and you punished them, what kind of punishment?" Emperor Chu Yu immediately inquired.

"That Guest Elder Xun has the Causality Escape Technique, and her escape capabilities are quite formidable," praised Luo Feng. "She managed to take Marquis Chu Ji with her as they fled, and I failed to stop them. As for the others... I destroyed the True Bodies of two,

took away all their treasures, and beat Marquis Chu Yuan into a pulp, taking away his Godly King Weapon. That counted as punishment."

Luo Feng did not intend to conceal this, because the spoils of war he had collected still needed Emperor Chu Yu's help to sell, in exchange for the Cultivation Resources he needed.

Emperor Chu Yu's eyes widened a bit.

One against five, completely sweeping through?

Only two escaped by using the Causality Escape Technique?

"Brother Luo He, your strength now?" Emperor Chu Yu was somewhat excited.

"Fortunately, the Golden Feathered Divine Bird feathers you brought helped with my Body Refining Secret Technique, and I've made further progress," Luo Feng smiled, "I barely qualify as having reached the Transcendence of Primal Chaos Realm, but my methods as a cultivator focusing on the physical body are still quite crude."

Emperor Chu Yu said joyfully, "Brother Luo He, being able to take on five and completely sweep through, I guessed you must have transcended the Primal Chaos Realm."

"My methods still need a lot of improvements," Luo Feng said.

It was the truth.

Every aspect was too rough; they say those who transcend the Primal Chaos Realm can fight against those at the First Realm of Godly King. Yet, Luo Feng felt that if he encountered someone at the First Realm of Godly King… he would probably be toyed with.

He could only bully those at the pinnacle of the Primal Chaos Realm, relying on an absolute advantage in power to break laws with force and sweep through recklessly.

"Brother Luo He, you are already very strong. Within our entire Emperor Chu's Lineage, there are only two who have transcended the Primal Chaos Realm," Emperor Chu Yu said, "Now you are the third

person in Emperor Chu's lineage who has transcended."

Whether it was Luo Feng or the other two who had transcended, they were all Guest Officials of Emperor Chu's Lineage.

"With your current status, your situation has changed dramatically," said Emperor Chu Yu excitedly, "Many troublesome missions, with your strength, are no longer an issue. Later, I can also help you get some more dangerous missions, but similarly, the merit points will be greater."

"Right, Brother Luo He, are you interested in some missions on the frontier?" Emperor Chu Yu said, "Flame Wind Ancient Country and Thunder Ancient Country, the entire border line is fiercely contested."

"Typical conflicts are controlled at the Primal Chaos Layer, so a being who has transcended the Primal Chaos Realm has a great advantage at the border," Emperor Chu Yu said, "Normally, it takes thousands of Chaos Eras for a Godly King Level conflict to erupt, and at that time, those in the Primal Chaos Realm will withdraw."

Luo Feng was very aware.

The internal competition within Emperor Chu's Lineage was fierce, like the thirteen channels of the imperial clan of Flame Wind Ancient Country—strife would only be crazier! As for the two great ancient countries… the main reason for the deaths of Godly Kings in the entire Land of Origin was their involvement in the wars between these two countries.

"The missions on the frontier can wait for now," Luo Feng said, "I still need to cultivate in seclusion for some time."

"Alright, I'll listen to you, Brother Luo He," Emperor Chu Yu said with a radiant smile, "By the way, now that you possess the strength of one who has transcended the Primal Chaos Realm, the ancestor might consider you and take you as a Direct Disciple."

A thought struck Luo Feng's heart.

"A Guest Official who has transcended the Primal Chaos Realm would generally be able to take an emperor or some powerful Godly King as

a mentor," said Emperor Chu Yu, "You just need to wait patiently; there should be some results soon."

Explore more adventures at mvl

Luo Feng nodded; with this in mind, he was not in a hurry to deal with the Spoils of War.

He would wait and see how things unfolded; these treasures must be used strategically.

…

As the battle at the Thousand Star Tower concluded, news of this fight was quickly collated and soon spread throughout the city.

A conflict involving a first-class marquis implicated Guest Official Luo He.

Guest Official Luo He, one against five, direct sweep! Marquis Chu Ji and Guest Official Xun escaped using the Causality Escape Technique, the other three weren't so fortunate—Marquis Chu Yuan was beaten into a pulp, and nothing was left of the other two.

The impact of this news on various forces within Chu Capital can be imagined.

"This this…" at the Marquis Chu Yu's mansion, the lady of the mansion and her three sons, given their status, naturally also got wind of this major news.

"Mother, did uncle really sweep through five?" the eldest son was so excited that his whole body was radiating heat, "Is my uncle transcended the Primal Chaos Realm?"

"Mother, has Uncle Luo He transcended the Primal Chaos Realm?"

"In our Emperor Chu's lineage, is Uncle Luo He the third person to transcend the Primal Chaos Realm? His power rivals that of an ordinary Godly King?"

All three sons were very excited.

This was their own uncle!

"That Marquis Chu Ji, Marquis Chu Yuan were blind to provoke your uncle," the lady of the mansion said with a radiant smile, "Now they have suffered a huge loss."

In the recent few Chaos Eras, as one of the seven first-class marquises with the weakest power and foundation, their entire faction had been somewhat stifled.

Just then, Emperor Chu Yu walked in.

"Father."

"Chu Yu."

All three sons and the lady immediately went up to greet him.

"Father, about uncle?" the youngest son wanted to confirm.

"Hahaha… You must have all received the news, and yes, it's all true," Emperor Chu Yu laughed heartily, rare for him, "My brother Luo He indeed exists in a state of transcendence beyond the Primal Chaos Realm, but you still need to restrain yourselves a bit outside, and not be arrogant."

"Understood," the three sons immediately responded.

"Lady, let's have a feast tonight to celebrate for my brother Luo He," Emperor Chu Yu said.

"Okay, I'll arrange it right away," the lady of the mansion was also fired up.

"Hahaha…" Emperor Chu Yu left laughing. After being stifled for so long, even preparing to endure a lengthy and obscure period, a sudden joy from heaven now meant his path ahead would be much clearer.

Of the seven first-class marquises, only he, Emperor Chu Yu, had a Guest Official who had transcended the Primal Chaos Realm.

Chapter 130: Volume 3, Chapter 14: The Reincarnated Mountain Sitting Guest

A conflict in Chu Capital of the Flame Wind Ancient Country spread first throughout the entire city, then it spread across the entire Land of Origin in a short amount of time.

"Flame Wind Ancient Country, has another transcendent being of the Primal Chaos Realm emerged?"

"The seventieth-first transcendence of the Primal Chaos Realm in the entire Land of Origin!"

"Great Saint Luo He?"

Regardless of the overt or covert powers, all were highly interested in this piece of information. Because "transcendence of the Primal Chaos Realm" could now be regarded as the equivalent of an ordinary Godly King, and numerically, transcendents of the Primal Chaos Realm were even rarer than Godly Kings.

The name Great Saint Luo He was recorded by many nations and forces.

"What? He has transcended the Primal Chaos Realm?" Her Royal Highness Princess Yushui Tianyu of Yu Kingdom was somewhat perplexed when she received the news, "When he was living reclusively in Huyang City, he only displayed the strength of an eternal true god. Now that he has gone to Chu Capital... he has transcended the Primal Chaos Realm."

"No wonder he didn't acknowledge my father as his teacher." The princess somewhat understood.

Those who have transcended the Primal Chaos Realm, holding a status equivalent to an ordinary Godly King, desire even more to take Emperors as their mentors!

Of course, the powerful beings of the entire Land of Origin would most prefer to take as their mentors the Ancestors of the two ancient countries. Alas... these Ancestors of the ancient countries, seldom appearing even in the longest of ages! Even some ancient Godly Kings struggle to meet them, let alone to take them as mentors.

The tier of an Emperor is more commonly seen in the Land of Origin.

"Great Saint Luo He has actually transcended the Primal Chaos Realm?" Marquis Liu Yin, aware of the news, was also somewhat shocked, "The last time he and I sparred, he merely exhibited the pinnacle strength of the Primal Chaos Realm and did not destroy my true body. Was he deliberately concealing his strength, or did he make a breakthrough after arriving in Chu Capital?"

Marquis Liu Yin felt somewhat panicked.

Gaining an enemy who has transcended the Primal Chaos Realm was naturally troublesome.

"His city, 'Huyang City,' is right next to my fief." Marquis Liu Yin was somewhat distracted.

"Hahaha..." On the other hand, Marquis of Jiu Jiang, upon receiving the news, was overjoyed, "Brother Luo He has actually transcended the Primal Chaos Realm, sending him Huyang City back then was a stroke of genius, pure genius."

His fief was secure for the future! And he now had a strong support.

The gap between the top and the pinnacle of the Primal Chaos Realm wasn't considered too large, like Marquis of Jiu Jiang could engage with Marquis Liu Yin in a few moves and still manage to escape.

But the gap between the pinnacle and the transcendence of the Primal Chaos Realm was huge.

This was a qualitative change!

Normally, those who have transcended the Primal Chaos Realm often rely on Primordial Force or Primordial Materials to cultivate some special legacies, granting themselves the strength of a Godly King tier. They completely overpower those at the pinnacle of the Primal Chaos Realm.

Luo Feng also managed this step through his "Formless and Intangible" ability.

...

Thunder Ancient Country, another of the two core powers of the Land of Origin, had almost half of the border countries completely aligned with Thunder Ancient Country.

In these border countries, there were no Flame Wind Pavilions, only Thunderclap Commerce.

A city on the border of Thunder Ancient Country.

"Boom boom boom～～～"

A burly man with blue scale armor wings, clad in heavy armor, rode a Primal Chaos Realm Exotic Beast exuding endless chill as he led the royal guard team descending from the sky, heading straight for the city owner's mansion.

"City Lord." The subordinates inside the city owner's mansion bowed respectfully upon seeing the burly man.

This was none other than the most revered figure of the entire city—the City Lord 'Zuo Shanjin'.

"Hurry and prepare some food and drink." The burly man ordered and then headed towards the main hall, while the Primal Chaos Realm Exotic Beast flew to its own territory inside the city owner's mansion.

Inside the main hall.

The burly man's massive wings retracted, an invisible aura of authority naturally spread, his eyes deep while his lips curled up

slightly, displaying a hint of a smile.

"The talent of this disciple of mine is truly impressive, having arrived in the Land of Origin just over thirty years ago, he has already become a transcendent of the Primal Chaos Realm." the burly man thought, "His talent and potential far surpass mine."

"Revenge is hopeful, revenge is hopeful." the burly man thought.

He was indeed Mountain Sitting Guest, reincarnated in the Land of Origin.

As Luo Feng's mentor, based on some detailed information about Luo He, such as the time he emerged in the Land of Origin and the time Luo Feng experienced reincarnation, the weapons used? A godly body as tall as the heavens? Very few friends and family, with one called 'Primordial'?

Based on this information, Mountain Sitting Guest could easily deduce that Luo He was Luo Feng.

"Although my greatest hope is pinned on my disciple, I also need to strive myself, so that in the future when we actually confront the Shi Kingdom, I don't become a burden to my disciple, and at best, I could even restrain one or two from the Shi Kingdom." the burly man thought, "Originally, I followed Flame Wind Ancient Country, but this life it seems I shall be a Guest Official of Thunder Ancient Country."

"Thunder Ancient Country should have some legacies different from those of the Flame Wind Ancient Country."

"I hope that in this life, my strength will advance further." the burly man thought.

Mountain Sitting Guest was well aware that in the past he survived being chased by three masters of the Shi Kingdom using his ability to protect himself. But for revenge, merely relying on the ability to protect oneself was not enough. A fundamental breakthrough in strength was essential.

"Thunder Ancient Country, most adept at cultivating using the 'Primordial Bloodline'. In this lifetime, I will try this path." Mountain

Sitting Guest knew this path was equally arduous and even prone to madness, yet without a doubt, once successful, the power was terrifying.

The ancient existences of Thunder Ancient Country were no less powerful than the Emperors of Flame Wind Ancient Country.

...

The name of Great Saint Luo He was first spread throughout the Land of Origin.

In Chu Capital, many sought to visit and befriend Luo Feng, and some wished to become his disciples. However, Luo Feng was not inclined to take on another disciple. The first disciple he had taken in the Land of Origin had been taught by Morosa; could he really take on another and still leave the teaching to Morosa?

"Master, recently there have been many inviting your disciple." Moyu Qingyan looked at Luo Feng, "May your disciple go out?"

"If you want to go out, then go." Luo Feng nodded, "In the years to come in your cultivation journey, choose whatever friends you wish to make, and decide how to proceed on your own. Of course, you must also bear the consequences of your decisions."

Moyu Qingyan, thoughtful, immediately responded, "Disciple understands."

Luo Feng immediately turned and left.

"Qingyan," Morosa spoke, "the waters run deep in Chu Capital, and you, a little True God of Void Space, might be unaware even when calculated against by illusions and other methods. For the time being, I'll accompany you whenever you go out."

Morosa was quite worried about Moyu Qingyan; indeed, he had invested much more effort in teaching the disciple than Luo Feng had.

"That's great." Moyu Qingyan also breathed a sigh of relief; he had been feeling stifled practicing within the Cave Dwelling, and he was

curious about Chu Capital, one of the most bustling supercities in the Land of Origin.

The Primordial Ancestor was also receiving invitations from some forces within Chu Capital.

The Primordial Ancestor naturally did not refuse anyone and accepted the invitations leisurely. Each time he attended... it was only his Illusionary Avatar! His Illusionary Avatar was a Physical Body almost identical to his True Body, just without the True God's Heart.

...

Luo Feng's Cave Dwelling, Quiet Room, within the space of Star Tower.

As a Transcendence of Primal Chaos Realm, Luo Feng mostly dismissed the visits from most forces within Chu Capital, allowing him to focus on his cultivation.

"Brother Luo He," Emperor Chu Yu communicated, "I've carefully checked some tasks with considerable Merit Points; they are all of very high difficulty and haven't been completed by Guest Elders in a long time. You can take a look first."

Soon, Emperor Chu Yu sent over a pile of detailed reports on the tasks.

Luo Feng immediately reviewed them.

The first task was the complete elimination of 'Lord of Seduction City' from the Primal Chaos Realm.

Lord of Seduction City, a Pinnacle of Primal Chaos Realm, was a City Lord within the Thunder Ancient Country. He had previously, during his travels, manipulated the desires of many Creatures, causing numerous Creatures to die, including three Eternal True Gods from the Imperial Clan of Flame Wind Ancient Country.

When Lord of Seduction City realized the identities of the deceased, he immediately sought refuge in Thunder Ancient Country.

This task was valued at 200,000 Merit Points!

"Complete elimination?" Luo Feng frowned as he read, "According to the task requirements, so-called complete elimination means making the enemy completely disappear from the Land of Origin, leaving no trace of his karma."

As for whether the target could reincarnate, that was difficult to determine.

After all, if the reincarnation was kept secret, no one could recognize it.

"Lord of Seduction City excels at manipulating the spiritual will. According to the intel, his spiritual will definitely reaches the Godly King Level." Luo Feng thought inwardly, "My Spiritual Will at the Second Realm of Godly King might only be slightly stronger than his, and even if I were to use the 'Lie Yuan Technique', I could not kill him."

The Pinnacles of Primal Chaos Realm, having cultivated for endless years, had greatly honed their Spiritual Will, even capable of creating their own Secret Techniques of Willpower. To kill them with willpower alone? Extremely difficult.

"There are quite a few bounty tasks." Luo Feng noted that there were many tasks offering bounties on powerful figures of Primal Chaos Realm, all of which had remained uncompleted for a long time.

On one hand, the Emperors were disinclined to deal with weaker existences of Primal Chaos Realm.

Though Primal Chaos Realm might have killed a few Eternal True Gods of the Imperial Clan, or been discovered stealing rare treasures, these minor issues were beneath the Emperors' notice.

And while some Godly Kings could kill a Primal Chaos Realm, if the target regained consciousness for even a moment, they could directly reincarnate. That would then be another powerful enemy in the shadows.

Godly Kings didn't fear those from Primal Chaos Realm, but what

about their children and loved ones?

Therefore, killing someone from Primal Chaos Realm was indeed a troublesome task.

"Not many want to take on tasks that involve killing someone from Primal Chaos Realm," Luo Feng thought, "The difficulty in dealing with the Master of Shi Kingdom will be much higher."

Stay updated with mvl

After becoming a Guest Official of Primal Chaos Realm, being a Marquis of the first rank, Emperor Chu Yu also provided Luo Feng with a substantial amount of detailed intel from the entire Land of Origin.

Luo Feng thus gained a deeper understanding of the strength of those three Masters of Shi Kingdom from the past.

Master of Tian Kun from Shi Kingdom, a Godly King of the Second Realm, as a Guest Elder of Flame Wind Ancient Country who also practiced a powerful legacy, possessed formidable strength. There weren't many in the entire Land of Origin stronger than him, and his ability to save his own life was beyond question.

Even if an Emperor took action, being able to directly suppress Master of Tian Kun, they couldn't claim to be able to kill him completely.

Even the sin-laden Ancestral God of the Snow Realm from the First Realm of Godly King had survived till today, which attests to the life-preserving capabilities of these ancient beings.

"The stronger the strength, the more mysterious and unpredictable the life-saving abilities. To completely kill the Master of Tian Kun from Shi Kingdom, ensuring even his reincarnation is impossible... what level of power must I obtain?" Luo Feng shook his head lightly, "It's still far from me."

Chapter 131: Season 3 Episode 15 That’s him

These high-merit troublesome missions, besides pursuing those from the Primal Chaos Realm, are related to Thunder Ancient Country.

For example, the "Snatch the Heavenly Yin Fruit" mission, where for every Heavenly Yin Fruit, Emperor Chu's Lineage is willing to pay ten thousand merit points for purchase, the more the better, no upper limit.

And in the border region adjacent to the two Ancient Countries, there is a Heavenly Yin Fruit tree, which is currently in its maturation period, with an estimated thousands of fruits maturing in succession. The Thunder Ancient Country has set up a powerful Formation with a garrison commander who has transcended the Primal Chaos Realm.

"The two Great Ancient Countries occupy the most central and prosperous areas of the Land of Origin, monopolizing the various rare treasures nurtured by heaven and earth. They also fight each other, contending for the other's treasures," Luo Feng looked at these missions.

Heavenly Bend Stone Essence, for instance, ranks lower among the resources of the two Ancient Countries and is only sporadically poached by the particularly bold.

As for something more precious like the Heavenly Yin Fruit, even Godly Kings dare not pilfer it easily. Usually, it's the two Ancient Countries that act against each other to snatch it.

"These troublesome missions are divided into three categories, namely bounty missions, garrison missions, and treasure snatching missions," Luo Feng reviewed, "Bounty missions are very difficult to complete by killing the target. If the target reincarnates, that adds a

stealthy great enemy."

"Garrison missions consume a lot of time."

"Treasure snatching missions are extremely dangerous."

Luo Feng pondered for a moment.

With the ability to Break Laws with Force, he could bully the weaker ones.

But high-merit garrison and treasure snatching missions were likely to encounter opponents of the same level. Those who had transcended the Primal Chaos Realm all had higher realms and their methods were unfathomable and mysterious.

"Compared to other transcended beings of the Primal Chaos Realm, I only know how to charge blindly ahead, which makes me easily played. I still need to accumulate more," Luo Feng thought as he looked at these missions. "Only bounty missions are most suitable for me."

"I'll also discard targets with very strong Spiritual Will."

"I'll choose those with weaker Spiritual Will."

Luo Feng reviewed the bounty missions, and finally set his sights on one.

Bounty Mission: Eradicate Great Saint Beiyu completely!

Great Saint Beiyu had not offended the Flame Wind Ancient Country, but the reason for his bounty was due to a hobby of his—treating Cultivators as delicacies!

Within his territory, he deliberately built many ordinary cities for Cultivators to live in, occasionally devouring all the Cultivators in an ordinary city. He didn't devour them all at once, but rather savored them slowly.

Because his domain wasn't big enough, his feasting wasn't as satisfying! Occasionally, he would roam elsewhere to devour.

When feasting in foreign lands, he would indulge himself, devouring an entire large city's Creatures in one gulp. However, this action would also infuriate the masters of those domains! Great Saint Beiyu did not dare to make too many enemies and had to control the frequency of his actions.

Such behavior ultimately landed him on the bounty list of the Flame Wind Ancient Country! Although he had been killed a few times in his True Body, he was still alive and well to this day.

"This Great Saint Beiyu..." Luo Feng remembered that back when he was in Huyang City, dealing with Meiwu Qi, Meiwu Qi mentioned this Great Saint Beiyu who would swallow a large city in one bite.

"He's at the pinnacle level of the Primal Chaos Realm and is said to cultivate the Great Dao of Life Origin, having an extremely strong ability to preserve his life," Luo Feng read the briefing and regarded such arbitrary devouring of Creatures as scum in his eyes.

The briefing stirred his killing intent!

"I haven't heard that his Spiritual Will is particularly strong, let's see if he can withstand my Lie Yuan Technique," Luo Feng thought.

At this stage, using the Lie Yuan Technique against those from the Primal Chaos Realm is no big deal.

First of all, as a supreme secret technique, the Lie Yuan Technique is unique, belonging only to him. Nobody knows the characteristics of the Lie Yuan Technique, making it tough to identify that Luo Feng possesses it.

Furthermore, as a being transcended from the Primal Chaos Realm, grasping a supreme secret technique by chance is not an unusual affair!

As far as Luo Feng knew, the Ancestor left behind many opportunities, most of which were monopolized by the two Ancient Countries.

"To thoroughly slay someone at the pinnacle of the Primal Chaos Realm is truly difficult. Even for me... I'd have to rely on the Lie Yuan

Technique," Luo Feng silently lamented, no wonder Godly Kings were not too willing to accept missions.

My close combat skills are formidable; with one move, I can annihilate an enemy.

Yet, the enemy possesses all sorts of Life-saving Secret Techniques, like regenerating from a drop of blood or using a resurrection vessel. However formidable my close combat might be, it poses no threat to a resurrection vessel hidden somewhere in the Land of Origin.

...

Tianji Icefield.

Great Saint Beiyu was large in stature, with a huge furry head, as he leisurely walked through the harsh wilderness, looking distantly at the city ahead.

"This city has reproduced enough Cultivators," Great Saint Beiyu eyed his cultivated food, licking his lips hungrily.

Devouring Cultivators was not only a hobby but also an essential part of Great Saint Beiyu's Cultivation method, allowing him to meditate on the Great Dao of Life Origin.

In the Land of Origin, there are some who are at the level of Primal Chaos Realm and Godly Kings in the Great Dao of Life Origin, including those like Luo Feng who pity weaker life forms. There are also others like the Ancestral God of the Snow Realm and Great Saint Beiyu who view countless lives as materials for Cultivation—great demon lords.

This lineage might not be strong in direct combat, but they generally possess an extremely strong ability to preserve their lives.

"Father, I've become a True God," a young girl excitedly rushed out of the Quiet Room to tell her parents.

"Big sister is so amazing."

Her younger brother and little sister, both children, crowded around

the girl, cheering.

The Tianji Icefield has a harsh living environment, making acquiring Cultivation Resources much more challenging. The Bloodline Cultivation System, in particular, requires a plethora of resources; without them, progress is difficult.

The parents looked at their eldest daughter, smiling with joy. Her breakthrough was mostly thanks to her father's adventures outside the city, slaughtering Exotic Beasts and obtaining their essence.

"In the future, I'll strive to become a true god of void space. Then I can take good care of father and mother, as well as my brother and sister," the girl said determinedly.

"Good, in the future, it's up to you to buy us a cave mansion," the parents said, beaming with happiness.

Just at that moment—

"Enough offspring have been bred, time to truly indulge," the Great Saint Beiyu, standing in the open field, suddenly opened his mouth.

Boom!

Countless creatures within the city suddenly saw an immense head appear above the city. The head was so large that it was difficult for the creatures within the city to see it clearly in its entirety.

The gaping maw of this furry head had already completely enveloped the sky above the city.

"No—"

"What is this?"

"Help."

"Great Saint Beiyu, save us."

Numerous cultivators were in a state of panic, some even calling for Great Saint Beiyu to save them.

Because every time Beiyu devoured a city of creatures, his territory would bear no rumors of 'his devouring of creatures.' For with his strength, as soon as such rumors emerged, he would quickly devour those spreading them.

"Woosh." An unseen wave of terror covered the entire city, sweeping all the creatures within toward that gaping maw in the sky.

"Father, mother, brother, sister," a girl who had just become a True God was in a panic, trying to grab onto her family members.

But as they were swept up and began to fly, they couldn't come together again; they could only watch each other in despair.

"Hahaha…"

On the enormous head of Great Saint Beiyu, his face was filled with satisfaction, as he was obsessed with this kind of devouring.

Suddenly, a hint of suspicion flashed in his eyes as he noticed a man dressed in black appearing in the field. This man in black had stepped out from the void, appearing as an ordinary cultivator.

To the now city-sized Great Saint Beiyu, this man in black seemed like nothing more than a tiny speck.

Yet, he was trembling inside because he recognized at a glance that this person was indeed the Great Saint Luo He—as depicted in intelligence reports. Great Saint Luo He… that was a Transcendence of Primal Chaos Realm, a guest elder in Flame Wind Ancient Country.

"Slash!" Luo Feng, seeing what was before him, did not hesitate to employ the Lie Yuan Technique.

"Hmm?"

Great Saint Beiyu found that everything before him had vanished. He could no longer see Great Saint Luo He, and he could no longer feel his own existence.

In the world he could see, there was only a single, endlessly majestic star. This immensely huge star, constructed by Luo Feng's Spiritual

Will using the "Lie Yuan Technique," was focused into a singular force. At this moment, it came rolling in, crashing down upon the Spiritual Will of Great Saint Beiyu.

Pu—

His Spiritual Will was obliterated instantly, without any chance to resist.

After countless years, Great Saint Beiyu too had reached the Pinnacle of Primal Chaos Realm with his will! Even when facing a Godly King, a Godly King's Will would typically only suppress him. To kill him with just Willpower? Such cases were rare among Godly Kings.

But at this moment, his entire Spiritual Will was extinguished in an instant.

"Whoosh."

The colossal body of Great Saint Beiyu in the sky, having lost consciousness, began to fall.

Countless swept-up citizens, losing the force that swept them up, also began to fall toward the city below.

"Buzz." Luo Feng waved his hand, collecting the body of Great Saint Beiyu.

"His Spiritual Will is still within the Primal Chaos Realm category," Luo Feng confirmed after the confrontation, "As long as it's within the Primal Chaos Realm, it can still be killed in a thought with the Lie Yuan Technique." Continue reading at mvl

The leap from the Pinnacle of Primal Chaos Realm to Godly King Level is a qualitative change.

Godly King's Will combined with the Lie Yuan Technique could sweep through all Primal Chaos Realm Willpower strongholds.

But there is not much difference between the First Realm and Second Realm of Godly King. Even with the Lie Yuan Technique, at most, it would only suppress.

"The Lie Yuan Technique is already quite powerful," Luo Feng was clear that completely killing a cultivator, preventing even reincarnation, was extremely difficult!

Utter annihilation of Will is quite rare and demands very high requirements. The ordinary Secret Techniques of Willpower do not possess the power of the Lie Yuan Technique.

In the Land of Origin, complete annihilation usually follows two paths.

One is the path of causality. Even for cultivators of the Causal Great Dao, substantial strength superiority is required to use causality to instantly eliminate all of the opponent's means of revival.

The other and most challenging one to cultivate is the path of the soul!

Powerful practitioners of the soul path can directly annihilate the opponent's soul, naturally leading to complete death.

But the path of the soul has no Great Dao within the supreme rules! It must be explored and grown within the darkness by oneself. It is widely acknowledged as the most difficult path to cultivate.

"Whoosh whoosh whoosh."

Dense swarms of cultivators fell from the sky, landing within the city.

"Father, mother," the girl regrouped with her parents, younger brother, and sister. They were anxious and confusedly looked towards the sky.

After landing within the city, countless cultivators looked towards the sky in fear.

The once gigantic maw in the sky had now disappeared.

"Having killed this Great Saint Beiyu and obtained a complete body, I can provide it as food for Morosa," mused Luo Feng as he already traversed the void, heading for Flame Wind Ancient Country.

Chapter 132: Episode 3 Chapter 16 "Eliminating 72 Strikes

Luo Feng, with the help of the Lie Yuan Technique, had completely slain the Great Saint Beiyu. The Flame Wind Association's Dark Hall confirmed that the causal ties of 'Great Saint Beiyu' had completely vanished and immediately informed each important guest of his death.

"Great Saint Beiyu has been completely killed?"

"A top powerhouse in the Primal Chaos Realm, and he cultivated the Great Dao of Life Origin as well. Although his combat ability is somewhat inferior, his ability to preserve his life is exceptionally strong."

"Who could have completely killed him?"

"Could it be some of the top existences among the ancient godly kings of the Land of Origin? Those beings, each with a highly esteemed status, generally do not bully the weak. Great Saint Beiyu was also very cautious, never daring to provoke those beings. What in the world happened?"

The death of Great Saint Beiyu had many powerful individuals within the Land of Origin paying attention and feeling somewhat alarmed.

They also worried that this terrifying existence might come after them. After all, most in the Primal Chaos Realm were not as capable of preserving their lives as Great Saint Beiyu was.

"Perhaps Great Saint Beiyu chose to reincarnate immediately after encountering a formidable enemy." Some powerhouses speculated that Great Saint Beiyu was still alive, just that he had reincarnated. That was normal; faced with an overwhelming enemy... naturally one

would choose to reincarnate cleanly and neatly.

...

Luo Feng's Divine Power Incarnation in Chu Capital also received this important piece of intelligence from the Flame Wind Association's Dark Hall. With his current status, he naturally had a long-term subscription to the important intelligence of the Land of Origin.

"This intelligence only records the death of Great Saint Beiyu, but not why or who killed him. It's completely unknown!" Luo Feng, shuttling through the Void on his return journey, found the intelligence to be somewhat amusing.

When he acted, only the cultivators in that ordinary city were present. Given Luo Feng's realm, when he appeared before those cultivators, those ordinary cultivators could not even see him.

Thus, the only one who knew of Luo Feng's action was Great Saint Beiyu himself! Luo Feng merely glanced at Great Saint Beiyu, and under the Lie Yuan Technique, Great Saint Beiyu was dead. He didn't even have the chance to use the Reincarnation Secret Art, so there was naturally no opportunity for the news to spread.

Hu!

With Luo Feng's Tunneling Transformation Technique, he could shuttle through the Void at tremendous speeds. Still, traveling from Tianji Icefield back to Flame Wind Ancient Country's Chu Capital took about six hours.

...

Marquis Mansion of Chu Yu.

"I handed over a bunch of troublesome tasks to Brother Luo He, and Brother Luo He picked the task concerning Great Saint Beiyu. No sooner had he accepted it than Great Saint Beiyu died?" Emperor Chu Yu was a bit astonished, "Based on the battle at Thousand Star Tower, Brother Luo He's physical body was powerful, easily sweeping through the peak of Primal Chaos Realm.

But no matter how formidable the physique... it shouldn't be possible to kill a being of the Primal Chaos Realm, completely."

After all, Great Saint Beiyu had quite a few life-saving techniques.

"It seems that having a formidable physical body is merely what is observable of Brother Luo He's methods. He also has hidden lethal moves, possibly even able to completely kill a top Primal Chaos Realm being," Emperor Chu Yu speculated, his eyes lighting up for a moment, "Just what is Brother Luo He's true origin? Could he really be the reincarnation of a godly king?"

If he was the reincarnation of a godly king, it would make sense for him to have unknown techniques.

Suddenly, Emperor Chu Yu saw a figure arriving above the marquis' mansion.

"Brother Luo He." Emperor Chu Yu immediately went to greet him, and Luo Feng descended.

"Mission accomplished," Luo Feng said with a slight smile.

Emperor Chu Yu also expressed with admiration, "I didn't expect Brother Luo He to have such methods, capable of completely killing a top Primal Chaos Realm being. When you were against five opponents before, it seems Brother Luo He still showed restraint."

Luo Feng smiled.

On one hand, those five were at the peak of the Primal Chaos Realm. He wasn't entirely sure he could kill them with the Lie Yuan Technique. Furthermore, two of them were rank one marquises... killing an eternal true god from the Imperial Clan would put a bounty on his head, let alone a rank one marquis of the Imperial Clan. The moment he moved against them, he probably would have lost his life.

On the other hand, in Chu Capital, he still needed to keep a low profile.

"Mission accomplished, but what proof is needed?" Luo Feng asked.

"This task hasn't been claimed in a long time. You just accepted it, and Great Saint Beiyu died. That's part of the proof already. If you have Great Saint Beiyu's body or weapons, you can just show them to me for recording," said Emperor Chu Yu, "If not, a record of your killing memory scene given to me will also suffice."

Luo Feng turned his hand and took out a well-known double-edged axe belonging to Great Saint Beiyu.

Emperor Chu Yu glanced at it and nodded, "That's enough, I've submitted the task. Your merit points should be awarded very soon."

Luo Feng nodded, "Remember to keep the matter of the task I completed confidential."

Emperor Chu Yu understood, nodding, "Rest assured! I am directly responsible for your task. When I submit it... it is handled by the Artifact Spirit of Palace of Emperor Chu! Apart from the Ancestor Emperor, the outside world will not know."

Luo Feng nodded, there was no need to publicize his ability to completely kill a top being of the Primal Chaos Realm. It was still best to keep such a lethal move hidden.

"Hm?" Luo Feng's Guest Official Order received a message; he had acquired one hundred thousand merit points as a reward.

"With enough merit points, I can now exchange them for the Great Dao of Destruction Origin's 'Extermination of Seventy-Two Blades' Volume One," Luo Feng's heart surged with eagerness, originally having set his sights upon two inheritances, he had only exchanged for one last time.

Luo Feng immediately bid farewell to Emperor Chu Yu and headed to the Palace of Emperor Chu to exchange for the long-coveted inheritance.

...

Inside the Palace of Emperor Chu, within the Inheritance Hall.

"Guest Official Luo He, are you sure you want to exchange for

'Extermination of Seventy-Two Blades' Volume One?" asked the old Artifact Spirit of Palace of Emperor Chu, looking at Luo Feng.

"Yes," Luo Feng nodded.

The old Artifact Spirit gave a slight nod, and he disappeared in an instant. The Inheritance Hall was engulfed in chaos, except for a faintly glowing light enveloping Luo Feng, the vast amount of inheritance information flowed into Luo Feng's mind.

Luo Feng's consciousness quickly absorbed the massive amount of information, understanding the true nature of this inheritance.

"This..." Luo Feng was somewhat shocked. He had previously only understood some of the basic information about the inheritance, but upon coming into contact with the real inheritance, Luo Feng was still stunned.

The initial 'Eight Tribulations Life Form' first calamity embodied three branches of the Great Dao of Life Origin: 'Life Spirituality,' 'Body of Life,' and 'Origin of Life,' and one needed to achieve perfection in all three branches for the cultivation of the first calamity.

And 'Extermination of Seventy-Two Blades' Volume One only contained two branches of the Great Dao of Destruction Origin: the 'Heaven Splitting Lineage' and 'Dark Heaven Lineage.' With just these two branches, the first volume of this inheritance required ninety thousand merit points, only slightly less than the 'Eight Tribulations Life Form' first calamity's one hundred thousand points.

The 'Extermination of Seventy-Two Blades,' with almost negligible life-preserving capability, why such a high cost?

"It is too strong."

Luo Feng finally realized just how terrifying the path focused on slaughter and destruction could be.

In the face of this path, there was no need to protect oneself; by killing the enemy, there would be no more threats.

The Blade Technique he had comprehended seemed like an infant swatting at branches. It was many times inferior to the first volume of Extermination of Seventy-Two Blades.

"Heaven Splitting Blade Formula Three Styles…" In the inheritance information received by Luo Feng, he saw those three blades, each stroke of Blade Light was restrained, seemingly not very powerful. But a seemingly ordinary stroke could easily cut through all things, even severing the operation of laws.

Swish!

An ordinary stroke passed, and everything was cleaved apart! Even the thick and mysterious world barrier was torn open with a crevice.

"The explosive power of my billions of units of Transformation Method couldn't even shake the world barrier the slightest. As far as I know, even some ancient Godly Kings can't break this Braided Cage barrier," Luo Feng looked at this ordinary stroke within the inheritance information.

This one stroke, not strong in might, yet nothing could withstand its cut!

It seemed as if everything was going to be cut open!

Even the world barrier was about to be split!

"In the face of such a stroke, even the world barriers would be cleaved open; how many godly bodies could block it?" Luo Feng pondered, noting that this was only the Heaven Splitting Blade Technique.

Boom!

Luo Feng also saw the Blade Light from the Dark Heaven Lineage within the inheritance information, which was even more restrained than the 'Heaven Splitting Blade Technique,' but this kind of restraint made Luo Feng feel somewhat apprehensive.

"The Dark Heaven Blade Technique is an extreme concentration of might, condensed to surpass the normal Pinnacle of Primal Chaos

Realm by tens of thousands, even millions of times."

The Dark Heaven Lineage, was the convergence and refinement of power.

The same amount of power, if concentrated tens of thousands to millions of times…

Swish.

A very ordinary Blade Light, when wielded, could also destroy all things; in its presence, the Braided Cage barrier trembled, seemingly ready to crack any moment.

"This Dark Heaven Blade Technique has little might, but solely because it's condensed to the utmost… its destructive power far surpasses mine," Luo Feng mused, not surprised, as only upon perfection of the Dark Heaven Lineage could one fully master the Three Styles of Dark Heaven Blade Technique.

Upon perfection of the Dark Heaven Lineage, one was already a Godly King.

It made sense that a destructive Blade Technique cultivated by a Godly King was more powerful than his own.

"Fusing the Heaven Splitting Blade Technique Three Styles and Dark Heaven Blade Technique Three Styles into one…" Luo Feng saw the most core part of this inheritance.

Combining the 'Condensation' of the Dark Heaven Blade Technique with the 'Cuts Through Anything' of the Heaven Splitting Blade Technique.

The Blade Light condensed to the utmost could easily rip a huge gash in the world barrier, wielding the power to destroy heaven and earth. Luo Feng felt as if his own body, no matter how formidable, would be annihilated in the face of such Blade Light.

"And this is only the first volume, comprising the first three strokes of Extermination of Seventy-Two Blades," Luo Feng thought silently.

As the first volume, the creator of the Blade Technique also expounded on the true intent of the technique.

The purpose of the Blade Technique was to transcend the cage, achieve limitless and ultimate destructive power, cut through everything, and even pursue the severing of all operational rules.

"Such a terrifying obsession," Luo Feng felt, just by coming into contact with the inheritance, the obsession imbued by the creator of the Blade Technique within it.

Slash!

To cut through everything!

Everything outside the cage, equally to be severed!

Extermination of Seventy-Two Blades represented only the strongest Blade Technique he left behind as an inheritance at that time; he was still pursuing a stronger Blade Technique, aiming to cut through even more formidable targets.

...

In the Palace of Emperor Chu, that Emperor was observing Luo Feng.

"Could it be that he managed to thoroughly kill a top entity of the Primal Chaos Realm? Could he be a reincarnated Godly King?" the Emperor thought, "No matter the origin, all life born in this Origin World… can be cultivated."

Both Ancient Countries had the magnanimity to encompass the entire Origin World; they could accommodate even Pinnacle Sector Beasts, of course, they would not tolerate uncontrollable Sector Beasts that wreaked havoc.

"In terms of strength, I'm inferior to Emperor Qing! Apart from the two Ancestors in the Land of Origin, Emperor Qing is the strongest, and I can't compare."

"But in nurturing disciples, I'm not necessarily worse off."

The Emperor still felt a bit defiant.

Among the Imperial Clan's thirteen lineages, Emperor Qing has fifteen Direct Disciples: six Godly Kings, eight who have transcended the Primal Chaos Realm, and one at the Pinnacle of Primal Chaos Realm. Moreover, the six Godly King disciples under the Emperor also have numerous disciples, among which two have become Godly Kings.

This shows how strong Emperor Qing's lineage is.

"I currently have two disciples: one who has transcended the Primal Chaos Realm, and one at the Pinnacle of Primal Chaos Realm," the Emperor considered.

He was not as good as Emperor Qing, nor were his disciples.

"This Luo He may be a reincarnated Godly King. If I take him as a Direct Disciple, wouldn't I have a Godly King disciple in the future?" the Emperor thought, watching Luo Feng receive the inheritance, "After becoming a Guest Official, he chose two inheritances. I'm not very familiar with the Life Origin lineage, but the destruction of origin lineage?

Read latest chapters at mvl

My cultivation is precisely based on the Great Dao of Destruction Origin!"

The Emperor was quite pleased, "It seems he should be my disciple."

"But the two inheritances he chose did not rely on cultivating with Primordial Force or Primordial Materials; they were inheritances for The Enlightened. The Enlightened's inheritance seeks no external assistance and aims for one's own Dao. Although this path is powerful, the difficulty is extremely high," the Emperor reflected, "I have to think what to prepare for my third disciple."

The Emperor pondered.

In the thirteen lineages of the Imperial Clan, when Emperors take disciples, they bestow weapons, resources, and other items; this has

become customary.

Chapter 133: Episode 3 Chapter 17 The Doubts of Star Tower

Inside Luo Feng's Cave Dwelling.

With Morosa and Moyu Qingyan, this pair who were essentially master and apprentice, were eating and drinking.

"Qingyan," Morosa, gnawing on a big chunk of meat with relish, said, "Your master has now transcended the Primal Chaos Realm. The resources bestowed upon you casually are things even eternal true gods cannot beg for. You, a mere true god of void space, must seize this opportunity and not let your master's pains go to waste."

"I understand." Moyu Qingyan also knew that as a disciple of one who had transcended the Primal Chaos Realm, his strength was indeed too weak.

"And another thing!" Morosa said, "In Chu Capital, many daughters of prestigious families have taken a liking to you… You must stay clear-headed, boy."

Moyu Qingyan chuckled in response.

The willing advances from daughters of prestigious families indeed tempted Moyu Qingyan, who came from a small place like Huyang City.

"For cultivators, there is no end to life, and women are not a necessity," Morosa said. "Look at me, look at Yuan, look at your master! None of us have women by our sides! Why? Women can distract you from your dedication to cultivation!"

Moyu Qingyan was taken aback upon hearing this.

Indeed!

His master, Lord Luo Sa, Yuan … none of them had women in their lives.

"Cultivation requires focus!" said Morosa.

"But there are many cultivators who do take wives," Moyu Qingyan couldn't help but counter, his heart moved by two among the many daughters of prestigious families during his time in Chu Capital.

"You know the reasoning; it's up to you to decide," Morosa stood up.

Moyu Qingyan sat alone.

He had seen many couples, like his own parents, who would risk their lives for each other, and had nurtured their children lovingly and supportively.

"I should wait and see," Moyu Qingyan thought, feeling recently he had been too dazzled by these women to see their true hearts.

Morosa came out and immediately saw his master, Luo Feng, descending from the sky.

"Master." Morosa promptly went to greet him.

"Come with me," Luo Feng said with an enigmatic smile.

Morosa, stirred by his master's smile, immediately repressed his joy and followed his master to the Quiet Room.

...

In the Quiet Room, within a layer of Star Tower—this was the space exclusively for Morosa's cultivation.

Both Luo Feng and Morosa were here now.

"This trip out, I killed a top-notch existence in the Primal Chaos Realm," Luo Feng looked at Morosa. "He cultivated in the Great Dao of Life Origin with a particularly unique physical body."

With a wave of his hand, the massive body of Great Saint Beiyu fell into this space layer.

Upon seeing it, Morosa's eyes instantly lit up.

He felt an ominous presence from the body, far stronger than the nascent Primal Chaos bloodline of Xue Yun right before his death.

"To have a body left behind after killing one from the Primal Chaos Realm," Morosa was pleasantly surprised.

Generally, if the opponent has a medium for resurrection, as long as there's a thread of consciousness, a mere thought could completely disintegrate the true body.

Thus, a Primal Chaos Realm corpse was quite a rarity.

"Since my ascension to the Primal Chaos Realm, progress has been slow," Morosa couldn't help but say. "I could only rely on absorbing the energies of heaven and earth, but this time, my strength will finally be able to rise substantially."

Morosa's absorption of energies from heaven and earth wasn't slow, roughly within an era he could absorb the energy reserves of a 'Perfect Divine Body' of the Primal Chaos Realm. But the energy from heaven and earth was pure, offering limited assistance.

The body of a mighty being contained their own laws, greatly benefiting the growth of the inner 'Realm'.

"Go ahead and cultivate at your own pace," Luo Feng smiled and then left the space layer.

Immediately, Morosa utilized a secret technique, and the enormous body of Great Saint Beiyu began to be absorbed and digested. The aspects of the Great Dao of Life Origin contained within that body also began to merge into Morosa's inner 'Realm', allowing the realm to grow at a painstakingly slow rate.

With the growth of the 'Realm,' Morosa naturally came to comprehend further mysteries of the Great Dao of Destruction Origin.

Normal cultivators would have some emphasis on different branches of the Great Dao of Destruction Origin during their cultivation, but Morosa was comprehending each branch simultaneously, progressing comprehensively.

...

In Star Tower, Luo Feng's exclusive cultivation space.

Luo Feng began to ponder over the "Extermination of Seventy-Two Blades."

Previously, Luo Feng had not received any emperor-level inheritance in the direction of the Great Dao of Destruction Origin. The "World Breaking Nine Blades" he had been cultivating was created by an individual of the Primal Chaos Realm, who had not penetrated even one branch of the Great Dao of Destruction Origin, leaving a technique that only deepened Luo Feng's confusion.

Even with Luo Feng's powerful spiritual will, he could understand some of the mysteries of the Great Dao of Destruction Origin as demonstrated by Morosa, but still made slow progress.

"This is true inheritance of the Great Dao!"

Upon careful study of the first volume of "Extermination of Seventy-Two Blades," and the wealth of inheritance information about the Heaven Splitting Lineage, Luo Feng felt tears welling up in his eyes.

The creator of "Extermination of Seventy-Two Blades," with his high realm, had discussed the 'Heaven Splitting Lineage' from various perspectives, explaining it clearly and lucidly. Many confusions Luo Feng had since becoming a Primal Chaos Walker naturally disappeared.

With a deeper understanding, Luo Feng continuously advanced in his knowledge of the Heaven Splitting Lineage.

Luo Feng pondered slowly, studying every sentence carefully before moving on to the next. With such meticulous study, after more than half an era, he had thoroughly researched both the 'Heaven Splitting Lineage' and the 'Dark Heaven Lineage.'

After one thorough study, Luo Feng felt a profound transformation within himself.

"So, the Heaven Splitting Lineage and the Dark Heaven Lineage are like this," Luo Feng previously saw things as if through a fog, filled with many confusions, but now he had a clear understanding of the two paths.

He had even delved into the deepest study of the Heaven Splitting Lineage, and had already grasped a great deal of it.

Of course, this was the easiest part to understand—the more profound parts were increasingly difficult! Many at the pinnacle of the Primal Chaos Realm were stuck at the final bottleneck, the last step that prevented them from becoming a Godly King.

"A truly top-notch inheritance is of great help," Luo Feng had never worried about inheritance before becoming a walker in the Primal Chaos Realm. At that time, the inheritance of the Duan Dong River lineage and the teachings of his master, the Mountain Sitting Guest, were enough for him to comprehend. He did not empathize with the eternal true gods who longed for an inheritance.

Only after becoming a walker in the Primal Chaos Realm did he feel the difference with or without an inheritance!

Whoosh~~~

Luo Feng sat there, his palm gently sweeping across the void, as if a knife slicing through tofu, easily parting layer upon layer of spatial folds.

"To understand the operation of the laws is to exert ten thousand, a million times the effect with a single effort. This is the Dao," Luo Feng said with a smile.

Suddenly—

The grand galaxy blade light appeared in the space of the Star Tower, twenty thousand strands of galaxy blade light in 'yin-yang particle form', each with terrible might, now all unleashing 'Blade River Slash'.

The Blade River Slash was Luo Feng's attempt at simplifying the most common Primal Chaos Realm blade technique because of its simplicity, it also placed a minimal burden on the spirit.

"Boom!" Within this layer of space in the Star Tower, the spatial folds were all annihilated, turning into chaos, with only the world's membrane walls being thick and solid.

"The Blade River Slash can be even simpler and purer."

With a deeper understanding of the Heaven Splitting Lineage and the Dark Heaven Lineage, Luo Feng began to integrate these insights into the Blade River Slash, starting to change this move and gradually giving the Blade River Slash some simple applications of the Heaven Splitting Lineage and the Dark Heaven Lineage.

The most rudimentary application put very little strain on the spirit, yet the power had even increased slightly.

"Let's see how many 'Blade River Slashes' I can perform at the same time now," thought Luo Feng.

Thirty thousand galaxy blade lights tore the space apart.

Forty thousand galaxy blade lights, fifty thousand galaxy blade lights...

The number climbed to eighty-three thousand galaxy blade lights before Luo Feng felt the burden on his spirit becoming strenuous.

"Contemplating on the 'Extermination of Seventy-Two Blades' for almost an era, and the insights from the Heaven Splitting Lineage and the Dark Heaven Lineage let me wield this many blade lights?" Luo Feng couldn't help but feel joyous, as this power was several times greater than before.

"If I reach the pinnacle of the Primal Chaos Realm in both the Heaven Splitting Lineage and the Dark Heaven Lineage, how high my realm becomes, how many blade lights could I control?" Luo Feng was very curious about his own limits at the Primal Chaos Realm level.

"Hmm?"

Enjoy exclusive content from MVL

Luo Feng suddenly looked at this space, with a shocked and puzzled expression.

"My galaxy blade light has increased by several folds this time, and while I may be lacking in profound complexity compared to those at the initial tier of the Godly King level, the sheer 'might' is definitely not inferior," Luo Feng was very clear about this.

The galaxy blade light in the yin-yang particle form, a single unit of galaxy blade light unleashing 'Blade River Slash', is comparable to the full-force strike of a middle-layer strong being in the Primal Chaos Realm, burning divine power to its limits.

Eighty-three thousand of such powerful beings uniting? In terms of pure might, they are certainly not inferior to the First Realm of a Godly King.

"The Star Tower was refined by my master. My teacher is also just at the First Realm of a Godly King, and the Star Tower he refined... should also just be a secret treasure of the Godly King First Realm," thought Luo Feng, "Like the long staff I got from Marquis Chu Yuan before, it was an emperor level weapon."

"As a secret treasure of the First Realm of a Godly King, the Star Tower indeed should be able to withstand my full-force strike. But it should feel some pressure, right?"

"But..."

"Every time I strike with full force, the Star Tower doesn't feel any pressure at all."

Previously, Luo Feng's lack of strength did not allow him to notice this, but as he approached the level of the First Realm of a Godly King, he discovered this issue.

Swish.

Luo Feng stepped forward to the inner wall of the Star Tower and punched it, causing a slight vibration before the wall easily dissipated

the force. Luo Feng gradually increased his explosive force, making his punches heavier and heavier.

Until, Luo Feng's several tens of billions of units of Transformation Method power fully erupted.

With 'eighty-three thousand units' of galaxy blade light, Luo Feng could execute the Primal Chaos Realm level technique 'Blade River Slash'. Yet, once he erupted with several tens of billions units of Transformation Method power, Luo Feng could only execute the most crude techniques, but the power was enormously vast, bombarding the tower wall with a thunderous roar.

The wall of the tower still only vibrated slightly before dissipating the force.

"What? My full-force melee attack against the wall of the tower doesn't shake it at all?" Luo Feng couldn't believe it.

"That means, if I were trapped inside, I couldn't escape at all."

"Even beings ten times, a hundred times stronger than me, if trapped inside, may not necessarily be able to get out." As the owner of the Star Tower, Luo Feng could sense that his attacks were still far from the Tower's limit of endurance.

As to how far from the limit, he couldn't tell. He only knew that his current full-force burst didn't stress the Star Tower in the slightest.

Luo Feng couldn't believe it: "A Godly King First Realm secret treasure, can't possibly be this strong!"

This defied common sense.

A Godly King First Realm secret treasure, to suppress beings of the same level, it would need to consume Divine Power and careful control.

"My teacher, the Mountain Sitting Guest, as far as I know, is just the ruler of a fringe nation on the Land of Origin," pondered Luo Feng, "My teacher mentioned that there was an accident during the refining of the Star Tower, and a golden light merged into the Star Tower,

accelerating its formation..."

Luo Feng hadn't noticed anything amiss when he discussed this with his teacher before.

But now, thinking back on it.

A Godly King undergoing artifact refining would have strict control over the environment, and yet an accident occurred that allowed a foreign object to merge into the Star Tower? The appearance of this foreign object clearly exceeded the Godly King's control over the environment.

"This Star Tower," Luo Feng carefully sensed it, for the first time discovering some of the mystery of the secret treasure that had been with him for countless years.

Chapter 134: Episode 3 Chapter 18 Lord of Yuan Xiu Mansion Hosts a Banquet

While Luo Feng was dedicating himself to cultivation, a transcendent being from the Primal Chaos Realm arrived in Chu Capital.

At one of Marquis Chu Feng's other residences.

"Brother has arrived."

A handsome man with three eyes looked into the distance and immediately stood up. Marquis Chu Feng also stood up and looked, only to see a figure that had seemingly appeared close by in a blink of an eye. The figure was clad in a simple yet slightly tattered dark robe. At first glance, it seemed merely a damaged robe, but upon closer inspection, it felt like looking at a tattered dark world.

The figure had a face with blue scales, appearing ugly, yet his eyes were calm and gentle, as if they contained the worlds of heaven and earth.

As he approached, he naturally influenced the surrounding environment, as if the very operation of heaven and earth revolved around him.

To master a branch of the Origin Great Dao is to become a Godly King! The complete Great Dao of Life Origin can evolve the operational laws of the Primordial Cosmos. A branch of the Dao is also sufficient to sustain the cosmic operational laws of a small universe.

With this, a Godly King can create a small universe.

Godly Kings operate the laws of the cosmos independently, possessing unimaginable abilities. When figures like the one in the dark robe arrive, the cosmos centering around them is a common phenomenon seen with Godly Kings.

"Lord Yuan Xiu of Yuan Xiu Mansion is clearly only a transcendent of the Primal Chaos Realm, yet he can influence the operation of heaven and earth, more terrifying than the last time I saw him," Marquis Chu Feng thought apprehensively, and immediately went forward to greet him.

"Brother, this is Marquis Chu Feng," said the handsome three-eyed man, stepping forward with a smile.

"Marquis Chu Feng greets the mansion lord," Marquis Chu Feng said with considerable humility.

Becoming a transcendent of the Primal Chaos Realm is equivalent to reaching the first realm of the Godly King. Such beings seldom care about first-rank marquises. Only a first-rank marquis needs to seek them, and whether they bother with a marquis depends on their mood.

"When I last saw Marquis Chu Feng, he was still a second-rank marquis," said Lord Yuan Xiu with a smile, "Now, he has already become a first-rank marquis! For someone who cultivates with a regular godly body to reach this level, Marquis Chu Feng is truly extraordinary."

"Lord, you flatter me, please, have a seat," Marquis Chu Feng said warmly.

Soon, the three of them sat down, and attendants brought over food and drinks.

"I heard that the mansion lord came to Chu Capital to visit a Godly King?" Marquis Chu Feng asked.

"Indeed, I intended to visit a Godly King this time in Chu Capital. However, I heard... there is a transcendent of the Primal Chaos Realm in Chu Capital now, known as Great Saint Luo He," Lord Yuan Xiu

said, clearly interested.

Marquis Chu Feng nodded, "This Great Saint Luo He is quite mysterious, rarely making moves. He previously fought against five by himself and swept through five pinnacle beings of the Primal Chaos Realm, revealing his true strength to the outside world."

"Given his low profile, it seems he also focuses on cultivation. Marquis Chu Feng, I desire to meet this Great Saint Luo He and have a dialogue on the Dao. Please help me arrange it to see if Great Saint Luo He is willing," said Lord Yuan Xiu.

Marquis Chu Feng's spirits lifted.

He wasn't afraid of a transcendent of the Primal Chaos Realm asking for help—he was afraid they might ignore him entirely.

"Rest assured, lord, I will arrange everything properly," said Marquis Chu Feng.

...

During his period of cultivation, Luo Feng occasionally came out to relax his mind.

"Master, Marquis Chu Feng personally paid a visit," Morosa told Luo Feng, "But you were in closed-off cultivation at the time, so I didn't disturb you."

"He paid a visit?" Luo Feng was surprised.

After all, Marquis Chu Feng was a first-rank nobility of the Imperial Clan, and he had left after finding Luo Feng in closed-off cultivation, respecting the protocol.

"Did he mention what it was about?" Luo Feng asked.

"Marquis Chu Feng also mentioned that his good friend, 'Lord Yuan Xiu of Yuan Xiu Mansion,' intends to host a banquet for you to discuss the Dao. His visit was to see if you would be willing to attend the banquet to discuss the Dao?" Morosa said.

"Discuss the Dao? Lord Yuan Xiu?" Luo Feng naturally knew of him; Emperor Chu's lineage had only two transcendent beings of the Primal Chaos Realm.

One was Marquis Dark Fire, a direct disciple of 'Emperor Chu.'

The other was Lord Yuan Xiu, a direct disciple of the sovereign of the first-class country 'Wanjie Kingdom.'

In the Land of Origin, there are three major first-class forces: Tianmu Kingdom, Wanjie Kingdom, and the Eastern Extreme Territory.

The Eastern Extreme Territory is the last surviving place of the original aborigines of the Land of Origin. Although these aborigines are somewhat lacking in intelligence and perceptiveness, their gathering also qualifies them as a first-class force.

Tianmu Kingdom is known for possessing a Pinnacle Sector Beast.

Wanjie Kingdom's prominence comes from the sovereign of Wanjie Kingdom! The sovereign's power alone has transformed a region into a first-class force, ensuring that he stands among the pinnacle existences of the Land of Origin. The sovereign's disciples are numerous; some serve as guest elders in the Thunder Ancient Country, others in the Flame Wind Ancient Country.

"Master, will you attend the banquet to discuss the Dao?" Morosa asked.

"Agree to it," Luo Feng nodded. A dialogue on the Dao with a peer at the same level of strength interested him as well.

After all, like Lord Yuan Xiu, those who have achieved transcendence through Primordial Items or Primordial Bloodline are the norm in the Land of Origin. This would also be an opportunity to see the differences between him and them.

******

In Chu Capital, the celebrated Thirteen Star Hall, Lord Yuan Xiu was hosting the banquet here, specifically to honor Great Saint Luo He.

Previously, the thirteen emperors of the Flame Wind Ancient Country had gathered once in Chu Capital, and that time Emperor Chu himself had established the Thirteen Star Hall. After the gathering of the thirteen emperors here, the Thirteen Star Hall naturally became famous, and hosting a banquet here was also costly.

This time, everything was arranged by Marquis Chu Feng, naturally done in a grand manner.

"A dialogue between two transcendent beings of the Primal Chaos Realm! This is really rare!"

"I heard that aside from Marquis Chu Yuan, the other six first-rank marquises have all come to attend the banquet."

"Too bad we're not qualified to see it."

Some chefs preparing food quietly discussed this. They were all well-known chefs within Chu Capital, each one at the Eternal True God Level. Today, there was even a chef from the Primal Chaos Realm present, personally invited by Marquis Chu Feng.

In another building.

"Sister Yu, I went to great lengths to arrange for you to perform in front of the hall today," said a chubby man earnestly, "Today, the upper echelons of Chu Capital are gathering, six of the seven first-rank marquises are here! Even two transcendents from the Primal Chaos Realm! There are more than ten direct disciples of the Godly Kings.

If even one of them takes an interest in you and is willing to help you, you could escape your predicament."

"Marquis Chu Le, thank you so much! If it weren't for your help, I might not have survived till today," said a woman dressed in light blue.

"Alas, as a third-class noble of the Imperial Clan, I hold no power," the chubby man shook his head. "In Chu Capital, I'm even less influential than those with actual power in the Primal Chaos Realm."

There are 29 marquises in the Emperor Chu's Lineage, but only two of them possess the strength of the average Primal Chaos Realm, and Marquis Chu Le is one of them! To the Imperial Clan, those of the weakest Primal Chaos Realm are considered worthless, with no cultivation value.

Luo Feng's Blade Light of the Galaxy had the force of a limit-burning Divine Power full strike at the mid-layer of the Primal Chaos Realm, much stronger than Marquis Chu Le.

Marquis Chu Le had grown accustomed to such days, preferring pleasure and making numerous like-minded friends.

"I must remind you," the chubby man said, "the two highest-ranking guests at this banquet are from the Transcendence of the Primal Chaos Realm, one of whom is Great Saint Luo He. He really enjoys listening to music!"

The woman in light blue's eyes lit up.

"This is secret information about Great Saint Luo He that cost me quite a bit of Cosmic Sand," continued the chubby man. "Back when he was in Huyang City, he favored two Musicians who excelled in music. Your performance... if it pleases him, your status in Chu Capital will be solidified."

"Thank you, Marquis Chu Le," the woman expressed her gratitude.

"That's all I can do; the rest is up to you," the chubby man waved his hand and left.

The woman in light blue patiently waited; she was not the only performer at this banquet.

...

The banquet admitted six first-class nobles of the Imperial Clan, eight second-class nobles, nine Guest Elders, and fifteen disciples directly taught by Godly Kings, along with their attendant servants. Of course, the two most central seats in the main hall were reserved for the two transcendents from the Primal Chaos Realm.

"They're here."

"Great Saint Luo He is here."

The banquet was primarily in honor of Great Saint Luo He.

When Luo Feng arrived with Emperor Chu Yu, they naturally attracted attention from all sides. Some lesser nobles, families of first and second-class nobles, casual members of the Primal Chaos Realm, and even some servants and attendants eagerly looked forward to glimpsing the man in black.

As the man in black appeared, Emperor Chu Yu slightly lagged behind.

Whoosh!

Outside the main hall, Lord of Yuan Xiu Mansion personally appeared to greet them.

"Brother Luo He," Lord of Yuan Xiu Mansion smiled at Luo Feng.

"Brother Yuan Xiu," Luo Feng also spoke, smiling back at this transcended being of the Primal Chaos Realm, the center seemingly governed by the cosmic operational laws.

"Able to influence the cosmic operational laws?" Luo Feng inwardly sighed, something he was incapable of! Solely in terms of the 'path' realm, he was still inferior to these Transcendents of Primal Chaos Realm.

"Hmm?"

Lord of Yuan Xiu Mansion observed Luo Feng, his strongest technique being the Dark Mansion Prison cultivated within his body, capable of imprisoning everything far and wide within an instant.

"What a terrifying physical body," Lord of Yuan Xiu Mansion noted upon seeing Luo Feng, perceiving that the unassuming man in black, despite appearing ordinary, was much denser than the vast cosmical environment around him.

Immensely dense, probably very difficult to pull into the Dark Mansion!

Even without a fight, just by looking once, Lord of Yuan Xiu Mansion already made some deductions.

"His physical body is much denser than some who first entered the God King Realm from ancient existences," he thought to himself.

"Brother Luo He, please."

"Please."

Lord of Yuan Xiu Mansion and Luo Feng both remained very polite, as their interactions this time were merely about discussing the path, so both sides were courteous!

Had it been a fight, things would have been starkly different.

Together, they entered the main hall, and the numerous first and second-class nobles, Guest Elders, and disciples of Godly Kings all stood up to greet them and soon took their seats.

"Commence the banquet," Marquis Chu Feng instructed.

The banquet officially began, with courses of exquisite food, wine, and fruits presented.

Luo Feng tasted some and was surprised.

The dishes, at their weakest, matched the standards of Black Butcher of the Fire Realm Restaurant; some even far surpassed him.

A seemingly ordinary platter appeared almost like the essence of heaven and earth converging, very appetizing. After trying one, Luo Feng felt this dish's influence on the soul; it even exceeded many heavenly rarities, sharply enhancing his sensitivity to all things and significantly aiding his cultivation. Experience new stories on MVL

"Elder Brother Yu's culinary skills have indeed become even more impressive," Lord of Yuan Xiu Mansion commented appreciatively after tasting.

"Culinary skills reaching Primal Chaos Realm, truly remarkable," Luo Feng also knew him, one of Emperor Chu's Lineage's Guest Elders, 'Yu Jiufang,' whose strength was at the top tier of the Primal Chaos Realm; but it was his culinary skills that had reached this realm.

In the entire Chu Capital, he was the best in culinary arts!

"You flatter me too much," Yu Jiufang, who had also entered the hall, had his pride before some noble marquises but showed much humbleness before the two transcendents of the Primal Chaos Realm.

Diverse dishes, rare spirit fruits, and exquisite wines continued to be served!

Dance, music, songs...

Performers at the banquet were at least at the Eternal True God Level in their respective arts; weaker individuals watching these performances would find their spirits uncontrollably affected. Luo Feng and others, however, could enjoy them with ease and pleasure.

"Truly worthy of Chu Capital, several performers today are more skilled than even the Dream Flower Tower Master," Luo Feng remarked in admiration, thinking to himself, "In the future, I could utilize this for 'Seven Emotions of Heart Refining Technique.'

Long years of cultivation tend to make emotions increasingly indifferent, with smaller fluctuations. However, 'Seven Emotions of Heart Refining Technique' facilitates awakening of the spirit.

"The performance has ended."

As the performance by the woman in light blue concluded, she noticed the surrounding distinguished guests all smiling and chatting jovially. The two transcendents occupying the main seats seemed to be casually chatting and didn't seem particularly interested in her. Not daring to stare directly, she promptly and obediently exited once her time was up.

Chapter 135: Book 3 Chapter 19 Luo Feng and the Lord of Yuan Xiu Mansion

All the guests in the main hall of this banquet are high-ranking individuals from Chu Capital.

Take Yu Jiufang, for instance, even though he is merely a top-tier practitioner in the Primal Chaos Realm, it is exceedingly rare for anyone in the Land of Origin to reach the pinnacle in culinary skills. The Godly Kings often invite him, and he always sets his sights pretty high, not necessarily accepting invitations even from first-class marquises of the Imperial Clan.

But this time, it was a banquet to discuss Tao among two transcendent beings of the Primal Chaos Realm!

Yu Jiufang was well aware of his position, capable of acting superior to those in the Primal Chaos Realm and marquises of the Imperial Clan but he adopted a very humble attitude towards Godly Kings and transcendent beings of the Primal Chaos Realm.

"Brother Luo He," the Lord of Yuan Xiu Mansion, sitting there with a smile, said, "I have spent a long time refining a Dark Mansion Prison. Today, I will use some methods from the Dark Mansion to exchange a few moves with Brother Luo He."

The guests in the main hall immediately realized that the highlight of the banquet had arrived.

This level of confrontation was a rare sight for them.

Explore more at MVL

"I've focused on physical body cultivation, so I'll use some physical techniques and compare notes with Brother Yuan Xiu," Luo Feng nodded in agreement.

Lord of Yuan Xiu Mansion nodded, his dark robe slightly tattered, like a damaged dark world, and suddenly, specks of dark flames began to spread over his robe. These dark flames spread toward Luo Feng in the main hall, "This is the fire of the Dark Mansion, capable of burning the godly body and soul of a prisoner in the Dark Mansion."

Luo Feng looked at those dark flames, and immediately his black robe also had black liquid spreading out.

The black liquid, flowing like water, swiftly made contact with the dark flames.

"Sizzling~~~" flames burnt intensely.

But the black liquid quickly enveloped them, each flame was wrapped by the black liquid.

This black liquid was the Yin-Yang particle form of the "Black Abyss Transformation Method," appearing to spread out not so abundantly but actually already reached hundreds of millions of units engulfed it.

Luo Feng clearly understood the advantage of his transformation method—overwhelming by sheer volume!

"Both of their robes are extraordinary, can the Lord of Yuan Xiu Mansion's robe transform into the fire of the Dark Mansion? And the robe of Great Saint Luo He also extends black liquid?"

"The black liquid has enveloped all the fire of the Dark Mansion."

"The fire of the Dark Mansion is undying, but the black liquid can also easily trap the fire from the Dark Mansion."

Present were marquises of first and second class, guest officials of the Primal Chaos Realm, direct disciples of Godly Kings, each with exceptional vision, and they all perceived the terrifying capabilities of both parties.

The fire of the Dark Mansion was famous, generally, even pinnacle practitioners of the Primal Chaos Realm would not dare to confront it directly, as it would burn them into nothingness.

Great Saint Luo He, who specialized in refining his physical body and transcended the Primal Chaos Realm, was well known for being near indestructible among the levels of the Primal Chaos Realm.

"This black liquid, what secret technique is it?" exclaimed the Lord of Yuan Xiu Mansion.

He sensed that the fire of the Dark Mansion could not damage this black liquid, and if Luo Feng wished, he could actually obliterate the flames with the overwhelming wrap of the black liquid.

Luo Feng smiled and said, "It can be called the Waters of the Black Abyss." Luo Feng knew well, if it were merely one unit of the Black Abyss Transformation Method, it would certainly be burnt and destroyed. But with hundreds of millions of units sweeping over, it naturally held an overwhelming advantage.

"The Waters of the Black Abyss?" understood the Lord of Yuan Xiu Mansion, "Impressive, impressive."

The many guests watching were also secretly astonished.

The fire of the Dark Mansion needn't be overstated for its fame. But these Waters of the Black Abyss seemed to be just as formidable.

"Sigh." The fire of the Dark Mansion withdrew, retracting back into the Lord of Yuan Xiu Mansion's dark robe.

With a thought, Luo Feng drew back hundreds of millions of units of black liquid.

"I have an axe that harnesses the power of the Dark Mansion, capable of beheading prisoners of the Dark Mansion," said the Lord of Yuan Xiu Mansion, as immediately the surrounding atmosphere darkened, and a huge axe blade flickered in and out of visibility, like a divine punishment, "This is also one of my strongest moves."

"I fancy blade techniques, this is also one of my strongest frontal

combat moves," Luo Feng gestured, and eighty thousand Galaxy Blade Lights condensed into an equally massive blade light.

This Thirteen Star Palace, once the gathering place of thirteen emperors, has a terrifying formation.

The formation operated so there was no concern of the spillover impacting the other guests while the two transcended beings of the Primal Chaos Realm sparred.

"These are their strongest level techniques."

"Wonder who is stronger."

The guests watched tensely, while some guests in the side halls didn't even have the privilege to watch, only knowing that the battle had commenced in the main hall.

Hum~~~~

The divine-punishment-like axe blade slowly descended, not fast in speed, but its might was evidently hard to counter.

"Slash," Luo Feng's mind moved, and the massive blade light formed by eighty thousand Galaxy Blade Lights, using a 'Blade River Slash,' met it head-on! Coordinating so many Galaxy Blade Lights and executing a sophisticated move of the Primal Chaos Realm level also placed a heavy burden on Luo Feng's spiritual will, indeed, it was a near-limit long-range attack move.

The axe and blade light collided!

At the moment of collision, a huge phantom of the Dark Mansion Prison loomed behind the axe, seeming as though the entire world's force augmented it, carrying powers like obliteration, penetration, divine punishment, and more, making the axe extremely terrifying.

And Luo Feng's immense blade light was like eighty thousand mid-layer Primal Chaos Realm powerhouses simultaneously unleashing their full power in a Godly Power burst attack, and moreover, it was executed with the essence of 'Blade River Slash,' making the force too terrifying.

Currently 'Blade River Slash,' integrating some mysteries of 'Extermination of Seventy-Two Blades,' 'Heaven Splitting Lineage,' and 'Dark Heaven Lineage,' although it was simplified, still carried a bifurcating essence.

"Whoosh." The huge axe blade was forcefully cleaved by the blade light, splitting it right in the middle.

And Luo Feng's huge blade light, not a complete Weapon Secret Treasure but rather eighty thousand Galaxy Blade Lights converged, also exhibited numerous cracks under such a collision but then quickly coalesced back together.

The giant axe blade split apart but also healed just as quickly, a result of the concentrated power in the Dark Mansion world, and it was not a Weapon Secret Treasure either.

"Admirable," the Lord of Yuan Xiu Mansion praised.

"Impressive." Luo Feng also noticed the differences between them. The giant axe blade's power was far inferior to his own blade strike, yet it could easily find the weak spots in his Blade Light. It quickly locked onto the fact that the eighty thousand Blade Lights were not unified, could naturally infiltrate, and caused the eighty thousand Blade Lights to split apart.

Even in a single exchange, his eighty thousand Galaxy Blade Lights had annihilated three!

Of course, he still possessed a massive reserve of the Galaxy Transformation Method.

"Many of my methods stem from the Dark Mansion," said the Lord of Yuan Xiu Mansion. "The Dark Mansion is also my strongest method. Brother Luo He, would you dare to try entering it?"

Luo Feng smiled, "I dare not."

The Lord of Yuan Xiu Mansion was taken aback.

It was merely a casual competition, and moreover, it was within the Thirteen Star Hall and inside Chu Capital; he naturally had to abide

by the rules.

"But I can part some of my power to test the might of the Dark Mansion," Luo Feng said as he waved his hand, and instantly five kinds of Transformation Methods, each comprising 'one billion units,' flew out and ultimately condensed into a silver silhouette.

"Good," the Lord of Yuan Xiu Mansion showed a delighted expression and immediately looked toward the silver silhouette, intending to capture and imprison it with the Dark Mansion.

Buzz!!!

The terrifying power of the Dark Mansion world engulfed the silver silhouette, attempting to drag it into the Dark Mansion. But the silver silhouette stood there as if anchored in place, and could not be dragged or shaken at all.

"Boom boom boom~~~~"

The dragging force of the Dark Mansion world erupted fully, causing the surrounding space to twist into a chaotic mess. Under the protection of the Thirteen Star Hall's formation, the guests all watched the scene in shock.

It was rare to see the Dark Mansion fully unleashed.

"It cannot be moved?"

"The Dark Mansion is a prison world cultivated within the body of the Lord of Yuan Xiu Mansion! If one is imprisoned inside, it would be difficult to escape. But the silver body formed by part of Great Saint Luo He's power cannot be imprisoned by the Dark Mansion?"

All eyes were watching.

Luo Feng appeared calm, but his Spiritual Will was focused on the silver body, resisting the drag of the Dark Mansion world.

"Buzz." The dragging force of the Dark Mansion world was mysterious, capable of affecting spiritual will, but Luo Feng, being in the Second Realm of Godly King and using the Lie Yuan Technique,

completely ignored this influence.

And while the world's dragging force was enormous, the silver body, with a cumulative 'fifty billion units' of Transformation Method, vibrated slightly and broke free from the restraint.

"Brother Luo He's Body Refinement Technique is unimaginable," praised the Lord of Yuan Xiu Mansion. "I cannot trap it inside the Dark Mansion; only the Dark Mansion world itself can now descend."

Buzz~~~~

A dark world descended from the void into reality, the Dark Mansion cultivated by the Lord of Yuan Xiu Mansion. It could be kept inside the body or released externally, though its power would decrease a notch when released; now it was actively descending to envelop Luo Feng's silver body.

Once the Dark Mansion world enveloped it, the restraints on the silver body significantly increased, with eight chains swiftly winding around it.

These eight chains were of eight colors, branded with various Secret Patterns, and even contained traces of Primordial Force. These were the eight prison chains forged by the Lord of Yuan Xiu Mansion using Primordial Materials, melded into the Dark Prison. As Luo Feng felt the chains binding him, they sealed, suppressed, bound, strangled, infiltrated, and tore...

all sorts of forces permeated his power avatar.

The power of the silver body erupted, but the eight chains were incredibly tough, undamaged in the slightest.

"Hmph." The silver body suddenly grew larger, forcibly stretching the eight chains significantly, yet they still did not break.

"My Transformation Methods are formless, but after being bound by the eight chains, not even a single unit could escape," Luo Feng remarked in surprise, "Only brute-force could withstand it."

The silver body grew towering and tall, reaching the top of the main

hall, and its full strength erupted, but it still could not break free from the eight prison chains.

"Brother Yuan Xiu's Dark Mansion is indeed powerful; I cannot break free with this power avatar," Luo Feng lamented.

"I cannot even drag a single power avatar of Brother Luo He into the Dark Mansion. Even if I bind it with chains, it still wouldn't harm a power avatar," the Lord of Yuan Xiu Mansion said aloud, though he was secretly shocked.

He had cultivated the Secret Technique and even forged this Dark Prison using Primordial Materials!

Who would have thought that Great Saint Luo He's physical body had been cultivated to such an extent that just a single avatar of his was difficult to completely imprison within the Dark Mansion.

"I can trap his avatar, but not harm it. As for his True Body? It remains to be seen whether it can be trapped or not," the Lord of Yuan Xiu Mansion concluded, recognizing the formidable nature of Luo He's physical body.

The Lord of Yuan Xiu Mansion thought for a moment, then retracted the Dark Mansion world.

Luo Feng also retracted the power avatar. Such a large power avatar, he could only use it at close range! After all, he did not have a Clone Technique, and from a distant place, he could only barely summon a strain of Divine Power.

"This power avatar contained fifty billion units of Transformation Method, yet it couldn't break the chains. This power avatar possessed two to three-tenths of the strength of the True Body," Luo Feng thought, as he currently maintained a total of two hundred billion units of Transformation Method, "If the True Body were trapped, it might not be able to break free either."

This exchange also made Luo Feng aware of the terrifying aspects of normal Transcendence of the Primal Chaos Realm. The Dark Prison, aided by Primordial Materials, was finally successfully refined. Even

if a regular Godly King was imprisoned, it would only take some time to escape, not harming the Dark Prison at all.

"This discussion with Brother Luo He has enlightened me to the formidable nature of the Body Refinement lineage's Transcendence of the Primal Chaos Realm," the Lord of Yuan Xiu Mansion raised a glass, "Please."

"Please," Luo Feng also raised a glass.

The other guests in the main hall were astounded by their match-up! The strength of these two... was indeed far beyond the scope of the Primal Chaos Realm; it was in the realm of a Godly King, and even a slight exertion of their power could annihilate them.

The banquet concluded in a friendly atmosphere.

News of this exchange quickly spread throughout Chu Capital.

Chapter 136: Volume 3 Chapter 20 The Emperor Takes a Disciple (Part 1)

A woman in green stood atop a tall building, gazing at the vast and endless Chu Capital.

"Is it worth it to come to Chu Capital just for cultivation?" the woman in green silently pondered. In her small town on the fringe, there were only a few dozen eternal true gods, and with her strength, she was one of the most powerful in the town, naturally leading a comfortable life.

"In the small fringe town, I could never acquire powerful heritages, and breaking into the Primal Chaos Realm seemed hopeless."

"But since coming to Chu Capital, I quickly found a heritage that suited me! I even obtained quite a few resources, and now my strength could be described as at the limit of an eternal true god," thought the woman in green.

With a heritage and resources, she had improved her strength, mastered several Primal Chaos Realm moves, and now saw a glimmer of hope in advancing into the Primal Chaos Realm.

"I've gained opportunities, but troubles have followed," the woman in green worried. "If it weren't for the help of my good friend Marquis Chu Le, I would likely be living a life worse than death right now."

"But Marquis Chu Le, being a third-rate member of the Imperial Clan, holds no real power."

The woman in green had been in Chu Capital for quite some time, where she established 'Shallow Whisper Pavillion,' drawing many

guests through music and illusion technique, even attracting many noble patrons. Chu Capital had many powers, and she had traded some sacrifices for cultivation heritages and some resources.

"I've been very careful in Chu Capital, cautious at every step, even afraid to control the minds of any noble guests. Still, trouble came," she felt distressed.

In Chu Capital, where powers are deeply entangled, even a first-rate marquis of the Imperial Clan fights fiercely against others; she, a mere eternal true god, despite being careful, was still dragged into a dark vortex.

"Hmm?" Suddenly, the woman in green noticed two figures approaching.

A man in black, accompanied by a naive-looking servant.

"Great Saint Luo He?"

The woman in green recognized him at a glance, her heart skipping a beat, feeling as if the sky itself had brightened considerably. She immediately went forward to greet them.

The main building of the Shallow Whisper Pavillion.

"Just a few of your best songs," Luo Feng said as he sat down, while Morosa munched on food and drink beside him, accustomed to his master enjoying some music. But music didn't really interest the Sector Beast.

Luo Feng was quite interested; although there were many performers at the previous discourse banquet, that was not a suitable occasion for deploying the Seven Emotions of Heart Refining Technique.

Before coming, Luo Feng had gathered some information.

Among the best at the banquet in terms of music and illusion techniques were three experts, and this woman in green, named 'Yu Youyi,' came from a small town on the fringe of Flame Wind Ancient Country, and was currently embroiled in a big trouble involving a general from Chu Capital named Xue Chi.

"Places like Chu Capital, you can't just avoid trouble if you want to," Luo Feng thought. When he first arrived in Chu Capital, he stayed in seclusion and didn't provoke anyone, yet Marquis Chu Yuan, Marquis Chu Ji, and their three Guest Elders still banded together against him.

Only by achieving Transcendence of Primal Chaos Realm could he truly rise above it all!

Of the three music experts at the banquet, Luo Feng chose her, also intending to help her this one time.

"Swoosh, swoosh, swoosh~~~"

The woman in green stood there, surrounded by flowing water, using numerous streams as musical instruments, the sound emerging as if it were the natural sound of heaven and earth! This music, even aligning with the cosmic laws, further stirred Luo Feng's emotions.

Luo Feng had already deployed the Seven Emotions of Heart Refining technique, immersing himself even deeper in his feelings.

Moved by the emotions, he found himself weeping unexpectedly.

"Hmm?" The woman in green was surprised. How could listening to music bring someone to tears?

She dared not stop, focusing only on performing the music and illusion technique.

Throughout the musical illusions, Luo Feng didn't say stop, so she didn't dare to.

"This Great Saint Luo He seems easily moved by music? But at the discourse banquet, he didn't care at all," the woman in green, confident in her music and illusion technique, observed Luo Feng while performing.

"That's enough," Luo Feng suddenly spoke.

The woman in green could only stop.

"Let's end it here for today," Luo Feng stood up and walked outside.

Cultivators live too long and experience too much; emotions easily become numb.

Seven Emotions of Heart Refining Technique, while it can intensely stir emotions, over time and repeated intense stimulation of the emotions, can also become numbing. So it should be used sparingly.

"Seven Emotions of Heart Refining is just an adjustment. The Great Destruction Heart Refining Technique is fundamental," Luo Feng's Seven Emotions of Heart refining transitioned into the Great Destruction Heart Refining Technique.

Accustomed to the painful tempering of his spiritual will, the continuous refinement also kept Luo Feng's spirit full of fighting spirit.

"How much is the fee?" Morosa saw his master standing up, immediately waved to collect all the food and drink in front of him and his master, then turned to the woman in green.

"It's a great honor for Shallow Whisper Pavillion that Great Saint Luo He could visit. There's no need for a fee," said the woman in green.

Morosa frowned, "The master doesn't like taking advantage. Speak, how much is the fee?"

"Ten Cosmic Sands will suffice," the woman in green could only say.

With a wave of his hand, Morosa sent out ten Cosmic Sands, then swiftly followed Luo Feng as they left quickly.

The woman in green immediately followed to see them off.

She continued until Luo Feng and Morosa disappeared into thin air.

"Are you leaving just like that?" The lady in green was somewhat agitated and also a bit apprehensive.

...

Marquis Chu Yu's mansion.

"Brother Luo He went to the Shallow Language Pavilion?" Emperor Chu Yu naturally received the news, and with Luo Feng's current strength, Emperor Chu Yu was very concerned about every move of this Guest Elder.

On one hand, he feared other first-class Marquises might entice him, and on the other hand, he also worried about not having treated him well enough, which might deteriorate their relationship.

Emperor Chu Yu knew well that even if they were once friends, it didn't mean they would always be friends!

The relationship of friendship needs to be maintained!

"This Brother Luo He, when he was in Huyang City, liked to listen to music. Moreover, he often became so immersed in it that he would occasionally lose his composure," laughed Emperor Chu Yu, recalling that it was precisely because of Luo Feng's lapse that some eternal true gods in Huyang City considered Luo Feng to have a weak Spiritual Will and deemed him an average eternal true god.

Stay connected through MVL

This also led to Luo Feng's first act in Huyang City, where he seized the True God's Heart of the Vice President Lai Mo with one movement.

"At the banquet of philosophies, he listened to Yu Youyi's music-driven Illusion Technique, and since he went there again in private... clearly he is quite fond of it." Emperor Chu Yu thought for a moment, then immediately instructed his trusted aide.

"Take my mansion's token and go to the Shallow Language Pavilion," advised Emperor Chu Yu.

"Yes, my lord," replied the trusted aide promptly.

...

Luo Feng's mere visit to the Shallow Language Pavilion attracted the attention of many forces in Chu Capital!

Given their understanding of 'Great Saint Luo He,' known for despising evil and having few usual hobbies—other than enjoying fine food, wine, and music!

Yu Youyi's name was also collected by many forces.

"Great Saint Luo He likes your music-driven Illusion Technique, which is a great opportunity for you. This is our Marquis Chu Yu Mansion's token, show it if you run into trouble.

You can also contact me directly," said the aide of the Imperial Clan's first-class Marquis, whose status was quite high outside, as he, accompanied by several guards, delivered the token to Yu Youyi at the Shallow Language Pavilion.

Once the token was given, those aides left.

Holding the token from Marquis Chu Yu's Mansion, Yu Youyi felt that all troubles were gone, completely relieved.

In fact, even without this token, a transcendent being from the Primal Chaos Realm coming to listen to her music-driven Illusion Technique was a message alone… powerful enough to intimidate even Xue Chi.

******

Luo Feng's days in Chu Capital were quite peaceful.

If there was a time during the pinnacle of the Primal Chaos Realm when many forces dared to provoke him or had conflicts of interest with him, now that Luo Feng had transcended the Primal Chaos Realm, everyone, including those first-class Marquises, was actively seeking to make good relations with him.

"Among the seven first-class Marquises under Emperor Chu's lineage, six are quite likable," Luo Feng judged based on intelligence and personal interactions, "Only Marquis Chu Yuan is somewhat mad."

During this time, only Marquis Chu Yuan consistently avoided Luo Feng and never met him face to face.

Luo Feng also knew that Marquis Chu Yuan, who had the royal

bloodline of Thunder Ancient Country and was also leveraging the Primordial Bloodline in his cultivation, the root cause of his madness and fierceness was the path of his cultivation.

"Brother Luo He, Brother Luo He," Luo Feng suddenly received a message, "Hurry and prepare, the old ancestor's trusted aide has come."

As Luo Feng, who was meditating in the Quiet Room, took in this news, he was startled.

The old ancestor, naturally, was one of the thirteen Emperors of Flame Wind Ancient Country, 'Emperor Chu.' The coming of an Emperor's trusted aide, what could it mean? According to the previous guesses by Emperor Chu Yu, the Emperor might consider taking disciples.

"Sigh."

Luo Feng quickly exited the Quiet Room and calmly awaited, sensing Luo Sa's approach as he immediately rushed to his side upon detecting Luo Feng leaving his retreat.

"Master, did you leave your retreat so soon?" Luo Sa inquired.

"A distinguished guest is coming soon," instructed Luo Feng, "Be cautious."

"A distinguished guest?" Realizing the implication, Luo Sa immediately stood by to wait.

Shortly after, nine figures appeared out of thin air in the high sky, one of whom was Emperor Chu Yu, while the other eight figures were all clad in the armor of the Emperor Chu Palace's trusted aides, albeit in different styles.

The leader among the nine figures was a silhouette of black water, wearing black armor with blood-colored Secret Patterns.

"The old ancestor has three main trusted generals, this one here is 'General Xuan Jiao'," introduced Emperor Chu Yu, "General Xuan Jiao, this is Guest Official Luo He."

General Xuan Jiao was burly, with black water flowing slowly within his armor, his eyes of condensed black water deadly still, casting a glance at Luo Feng and Luo Sa... enveloping the master and servant in a suffocating aura.

When observed, the world seemed to fall into dead silence, wrapping around oneself.

"According to intelligence, Emperor Chu has three major trusted generals, reputedly not cultivators but some very mysterious existences," Luo Feng, encountering General Xuan Jiao for the first time, could feel a great disparity between them!

"Not a cultivator, yet so powerful?" Luo Feng also knew that Flame Wind Ancient Country harbored many secrets, and even the numerous opportunities granted by the mysterious 'Yuan' were mostly monopolized by the two great ancient countries.

"Master, this General Xuan Jiao is terrifying, I feel that with one move I would be gone," Luo Sa communicated telepathically to Luo Feng.

Luo Feng immediately saluted: "I've seen General Xuan Jiao."

These ordinary trusted aides were also eternal true gods, who could reach the strength of the Primal Chaos Realm only with some powered augmentation.

"Luo He," General Xuan Jiao looked at Luo Feng, his tone becoming slightly warmer, "The Emperor is interested in taking you as a disciple, would you be willing? If you are willing, then accompany me to the Palace of Emperor Chu. If not… I will return to report."

Chapter 137: Volume 3 Chapter 21 The Emperor Takes a Disciple (Part 2)

Luo Feng stood inside the cave mansion, looking up at General Xuanjiao in the sky, and without hesitation, he immediately said, "It's my fortune that Emperor Chu is willing to take me as his disciple, and I am naturally willing."

Luo Feng had been prepared for Emperor Chu to take him as a disciple, and he had thought it over carefully.

Among the thirteen Emperors of the Imperial Clan of Flame Wind Ancient Country, Emperor Chu had terrifying strength, and the few recorded instances of his intervention were sweeps against other ancient existences. He was quite low-key and bore no infamy, mostly devoting himself to cultivation in seclusion.

Becoming a disciple of Emperor Chu was something Luo Feng was willing to do.

After all, he knew well that with the help of a master, he could avoid many detours.

"Good, follow me." General Xuanjiao then showed a smile, waved his hand and, enveloping Luo Feng with an invisible wave, flew toward the Palace of Emperor Chu together.

"Brother Luo He, congratulations," Emperor Chu Yu congratulated him during the flight.

"It's also thanks to Brother Chu Yu for bringing me to Chu Capital," Luo Feng also expressed his thanks.

"Haha... With Brother Luo He's strength, even without me, you would rise rapidly," Emperor Chu Yu said.

Soon, under the lead of General Xuanjiao, Luo Feng and the others arrived in front of the Palace of Emperor Chu.

"All of you withdraw, I'll take Luo He to meet the Emperor," General Xuanjiao said.

"Yes," the trusted aides withdrew, and Emperor Chu Yu stood outside the Palace of Emperor Chu with a slight smile, not following any further.

Immediately after, Luo Feng entered the palace, which seemed to merge into the dark and chaotic, with General Xuanjiao.

A moment later.

Luo Feng and General Xuanjiao entered an ancient hall together, instantly seeing a burly figure sitting on the floor of the hall, this figure sitting there as if he were the center of the boundless universe.

As if the heaven and earth were to perish, yet he would not.

His breathing was even more terrifying than the might of heaven and earth.

Looking at Luo Feng... it gave Luo Feng a sensation akin to facing the Great Dao of Life Origin.

Luo Feng understood that this person must be one of the thirteen Emperors of the Imperial Clan, "Emperor Chu."

"Emperor," General Xuanjiao saluted, "Luo He has been brought here."

Emperor Chu nodded slightly and General Xuanjiao immediately withdrew from the hall.

The hall was then left with only Luo Feng and Emperor Chu.

"Luo He," Emperor Chu looked at Luo Feng with a smile, "Recently, I've taken some time to understand your past, you come from the

Primordial Cosmos?"

Luo Feng was surprised and did not hide it, immediately bowing, "Yes, I indeed come from the Primordial Cosmos."

Emperor Chu smiled approvingly, "Creatures from the Primordial Cosmos are exceptionally weak; growing from weakness to a True God is difficult. That you have reached the transcendence of Primal Chaos Realm... is indeed impressive."

"Don't be nervous, countless ancestors of today's cultivators almost all came from the Primordial Cosmos. They came to the Land of Origin, and through endless years of propagation, we now have so many creatures," Emperor Chu said, "The original natives of the Land of Origin almost all live in the region of the Eastern Extremes."

Luo Feng also knew this.

"Let me ask you another question, are you the reincarnation of a cultivator?" Emperor Chu asked again, although the Flame Wind Ancient Country had clever means, they still could not break through the supreme rules.

"No," Luo Feng shook his head.

Emperor Chu nodded.

"Among the thirteen Emperors, I have the fewest disciples, only two," Emperor Chu looked at Luo Feng, "In accepting disciples, I value talent and compatibility of temperaments. Your talent is good, and I like your character too, which is why I decided to take you as my disciple."

Emperor Chu said, "Before you become a disciple, think it over carefully, whether you really want to become a disciple."

"Becoming a disciple is a significant cause and effect."

"The relationship between master and disciple is comparable to that of close blood relatives," Emperor Chu said, "A master chooses his disciple, and a disciple also chooses his master! Think it over

carefully. Once you become my disciple, the other pinnacle beings of the Land of Origin will no longer be able to take you in as a disciple."

Luo Feng, of course, understood that the mentor-disciple relationship was significant!

Yet, how many of the pinnacle beings in the Land of Origin were interested in him? Moreover, Luo Feng had his temperaments; some existences committing immense sins, Luo Feng himself did not wish to become a disciple under them.

"Disciple has thought it through clearly," Luo Feng immediately knelt down, touched his head to the ground, and made a grand salute, "Disciple Luo Feng, greets the master."

"Luo Feng?" Emperor Chu was startled.

"Luo Feng is my real name, involving some karma, so I have always used the name Luo He." Since Luo Feng decided to become a disciple, he naturally no longer hid his real name.

"Hahaha... very well, very well," Emperor Chu laughed upon hearing this, "From today onwards, Luo Feng, you are now my third direct disciple!"

"Luo Feng, do the karmas you're entangled with require my help to resolve?" Emperor Chu asked.

"Not necessary, disciple can resolve them," Luo Feng said.

Emperor Chu nodded in satisfaction, "Since you are entangled in karma, I will also keep your real name confidential." Seeing his disciple resolve troubles on his own was something Emperor Chu was very pleased to see.

"Today you've sworn apprenticeship to me, and I've prepared three gifts for you," Emperor Chu looked at Luo Feng, "The first gift is the two inheritances you chose, 'Eight Tribulations Life Form' First Calamity and 'Extermination of Seventy-Two Blades' Volume One. Once you master them, you can get the following inheritances for free."

"Of course, the inheritances I can give you for free are those that do not surpass the Ultimate Realm of Godly King," Emperor Chu said.

Luo Feng listened with surprise.

Free access to these two inheritances up to the Ultimate Realm of Godly King?

Currently, 'Eight Tribulations Life Form' First Calamity and 'Extermination of Seventy-Two Blades' Volume One, both tips of the First Realm of Godly King, are worth around 100,000 Merit Points each. If one were to progress further... the inheritance of the Second Realm of Godly King would require around 3 million Merit Points.

The teachings of the Third Realm (The Ultimate Realm), even more, demands one billion Merit Points.

To gain these Dharma, some Guest Elders would even fight to the death for the Flame Wind Ancient Country.

Two inheritances, worth around two billion Merit Points in total! As long as I reach the required realm, I can get them for free! This is the difference between outsiders and Direct Disciples.

"The second gift I have for you," Emperor Chu looked at Luo Feng, flipped his hand and he took out a stone box. As the box opened, it contained ten pale red fruits.

Just by smelling the fruit, Luo Feng felt his soul nourished, and his thoughts churning several times faster, "These are 'Primordial Crystal Spirit Fruits.' The Ancestor once bestowed them to me, but now they are of little use to me, so I give ten to you."

"These Primordial Crystal Spirit Fruits are grown from a fruit tree cultivated with Primordial Crystal Jade. They have miraculous effects in nourishing the soul. After consumption, one's alignment with the supreme rules significantly improves, thus greatly enhancing one's comprehension," said Emperor Chu, "This is not a product from within our origin world but exceedingly rare.

Merit Points can't even exchange them, so make sure you use them sparingly."

"I suggest you consume five fruits at the Primal Chaos Realm and another five at the First Realm of Godly King."

"Yes, Master," Luo Feng felt the deep care of his master.

Emperor Chu looked at Luo Feng, "What is your most commonly used weapon?"

Luo Feng flipped his hand and pulled out the Bloodshadow Knife, "This blade."

Emperor Chu glanced at it, "Is it a Godly King Level Blade Embryo?"

Emperor Chu pondered briefly then flipped his hand to take out a cluster of rainbow-colored mud, casually tossing it onto the Bloodshadow Knife. The knife eagerly absorbed the colorful mud in the blink of an eye.

"Originally, your Blade Embryo was capped at a weapon of the First Realm of Godly King," Emperor Chu said, "Now, its potential has increased significantly, with the possibility of reaching the Ultimate Realm of Godly King."

"However, I've provided the main material; you will need to gather some supplementary materials yourself. Because nurturing a Blade Embryo is most crucially your personal endeavor. Here is the detailed method to nurture a weapon," said Emperor Chu as a beam of light fell upon Luo Feng, encoding the Secret Technique of weapon cultivation into him.

Emperor Chu looked at Luo Feng, "The Ancestor decreed, even for a Direct Disciple, Merit Points must still be accumulated on one's own."

"Master has already done so much for his disciple," Luo Feng was very grateful.

Each of the three gifts was of immense value.

"I am not adept at teaching disciples," Emperor Chu looked at Luo Feng, "I am not skilled in the Great Dao of Life Origin, so you will have to rely on yourself. As for the Great Dao of Destruction Origin... it just happens to be my path too. If you have any confusions, you

can come and ask me."

Luo Feng nodded, "Disciple understands."

"Do you have any questions now?" Emperor Chu looked at Luo Feng.

"Not at the moment," Luo Feng shook his head.

Joking to himself, his own cultivation of the Great Dao of Destruction Origin was still very low, not even reaching the top-tier standard of the Primal Chaos Realm. As he was still in a rapid growth phase, he decided to only inquire when truly faced with bottlenecks making progress difficult.

"Good," Emperor Chu nodded with a smile, "As my Direct Disciple, there are many special missions you may choose from before they are assigned to members of the Imperial Clan and marquises."

"Understood," Luo Feng nodded.

"Go now, cultivate diligently, and become a Godly King soon. Among my disciples... none are yet Godly Kings," Emperor Chu remarked with emotion.

"Disciple will surely strive," Luo Feng bowed right away, "Disciple takes his leave."

Luo Feng then promptly exited the grand hall.

Looking at the chaotic dimness outside the grand hall, Luo Feng felt somewhat exhilarated.

The ten 'Primordial Crystal Spirit Fruits' given by Master Emperor Chu, just smelling them benefited his great cultivation immensely. What wonders would actually consuming them perform? Since arriving in the Land of Origin, this was the first time he had encountered such a rare treasure!

Eager to begin, Luo Feng started his journey back, wanting to try one of the fruits first.

Inside the grand hall, Emperor Chu watched Luo Feng leave.

"My third Direct Disciple," Emperor Chu watched and slightly shook his head, "It's a pity that my ability is limited, unable to guide the disciple's cultivation properly."

Like 'Emperor Qing' among the thirteen Emperors, because his realm is high enough, even when teaching disciples of different paths, he could quickly pinpoint the problems of the disciples and guide them efficiently.

What about him, Emperor Chu? He could only provide precious resources! For the rest, he had to rely on the disciples themselves.

"What does taking disciples amount to?" Emperor Chu looked into the boundless universe beyond the grand hall, "This origin world will eventually meet its end. By then, how many can survive?"

"Even the Ancestor is advancing in darkness. Emperor Qing too has embarked on this path, and he may well assist the Ancestor in the future."

"While we twelve are indeed strong enough in the Land of Origin, if we leave this origin world, what are we really worth?"

"And my disciples likely don't even have the qualifications to leave the origin world."

"Cherish the connections with them in this origin world," Emperor Chu gently shook his head, closed his eyes, and began to meditate.

Chapter 138: Season 3, Episode 22, Shocking

```

Luo Feng left the Palace of Emperor Chu and returned to his own cave mansion.

"Master," Morosa had been waiting to greet him.

Luo Feng smiled at him, "I have taken the Emperor as my mentor."

Morosa immediately showed a look of joy, although it was almost certain when General Xuanjiao came to invite him, Morosa was still worried that something unexpected might happen... After all, he was a Sector Beast and feared bringing trouble to his master.

"I'm going into seclusion now. In the coming time, unless it's something important, no one needs to be concerned," Luo Feng instructed, as he planned to consume the Primordial Crystal Spirit Fruit and naturally needed to focus completely on his cultivation.

Apart from his master 'Emperor Chu,' he would cut off all contact with the outside world. Of course, Morosa could still contact him through telepathy.

During the seclusion, the Primordial Ancestor, Moyu Qingyan, and Emperor Chu Yu would temporarily be unable to contact him.

"Rest assured, Master," Morosa responded.

Luo Feng had also left messages for the Primordial Ancestor and the others.

Whoosh.
```

Right then, Luo Feng had already headed to the Quiet Room.

"The master has taken the Emperor as his mentor," Morosa was very excited. As a Sector Beast, he felt extremely uneasy in the Land of Origin! After all, apart from the Sector Beast of Tianmu Kingdom, the Sector Beasts throughout the history of the Land of Origin had all died.

"Once I become a Pinnacle Sector Beast, and with the Emperor backing the Master, my situation should not be worse than that of the Tianmu Kingdom's Sector Beast," Morosa thought.

"If some more powerful Primal Chaos Realm corpses come my way, perhaps I can become a Godly King."

The body of the Great Saint Beiyu last time had greatly progressed Morosa's strength!

But the bottleneck between the Primal Chaos Realm and Godly King was really difficult to break through! For Morosa, it also required a qualitative change in the 'Sector' within his body.

...

Quiet Room, a space within the Star Tower.

Luo Feng looked at the pale red fruit in front of him, its faint scent alone made the soul feel joyful and relaxed, and thought processes sped up several times faster.

"This is a rare treasure bestowed upon my mentor by the Primogenitor Yan Feng, one that cannot even be nurtured within a Source World," Luo Feng understood the value of such a treasure.

To his mentor Emperor Chu, who already stood at the pinnacle of the Land of Origin and had the backing of Primogenitor Yan Feng, they were able to know all of the Land of Origin's past and even glimpse traces of the future, understand many truths of the Source World, and uncover many secrets beyond the Source Worlds.

For Emperor Chu's perspective, he viewed things from a very long-term view, even considering the end of the Source World...

But for Luo Feng, the years were still endless!

A Reincarnation Era in the Primordial Cosmos was very long, and even tens of thousands of Reincarnation Eras, under the supreme rules of the Source World, were merely a period of time. Luo Feng couldn't see as far as Emperor Chu did, and he only thought about taking each step correctly.

First, to climb step-by-step to the pinnacle of the Land of Origin, he could also repay his mentor's kindness and help his mentor, Mountain sitting guest, to take revenge.

"Having arrived at Chu Capital, I have finally tasted the flavor of top resources," Luo Feng mused to himself.

Before coming, he was too poor to even have a suitable Godly King level inheritance.

Now, both "Eight Tribulations Life Form" and "Extermination of Seventy-Two Blades" inheritances, these two inheritances surpassed the Ultimate Realm of God King, and their creators had very high realms.

As for auxiliary cultivation resources, those Imperial Clan elites, direct disciples of Godly Kings, and so on, had been using such resources for a long time. Luo Feng had never come into contact with these types of resources in the past.

"Such a treasure."

Luo Feng looked at the pale red fruit, "Let's taste it."

He took a gentle bite. The flesh was somewhat tough, but with Luo Feng's godly body strength, he easily chewed and swallowed the pieces, consuming the entire fruit in a few bites. Once inside his body, the flesh gradually decomposed, spreading energy that began to influence his soul.

"Hm?" Luo Feng felt different.

With his Perfect Divine Body, Luo Feng's soul was already powerful. Combined with the Spiritual Will of the Second Realm of Godly King,

his thinking speed was already extremely fast.

Yet at this moment, nourished by the fruit's energy, his soul's thought processes reached a standard more than twenty times faster than before. Moreover, his soul felt ethereal, and merely by contemplating the "Chapter of Life Spirituality" in the First Calamity of the "Eight Tribulations Life Form," previous confusions were swiftly understood.

"During past cultivation, enlightenment would only occasionally flash."

"Now my comprehension has greatly increased, and many puzzles are no longer puzzles. And my thought processes are more than twenty times faster."

"Is this the effect of truly top-tier resources from the Land of Origin aiding in cultivation?"

Luo Feng no longer dwelled on it and began to focus on understanding the inheritances.

...

In that core location of the Origin Ground in the Primordial Universe.

The Divine Power Incarnation of Luo Feng was facing the grand and towering Great Dao of Life Origin.

"Great Dao of Life Origin..." Luo Feng observed, and because he had consumed the Primordial Crystal Spirit Fruit, his consciousness observing the complete Great Dao of Life Origin was much more insightful than in the past, his thinking vastly accelerated, and what he saw of the Great Dao of Life Origin also changed.

In his eyes, the Great Dao of Life Origin at first glance was a sinuous dragon with twenty-four claws.

But upon closer observation, he saw a deeper essence.

"The outward form of this Great Dao of Life Origin actually contains six major branches," Luo Feng realized. Each branch was mysterious and unpredictable, and their perfect combination made them even

more vast and complex.

Just like the Ten Fundamental Laws, each one on its own is quite simple, and those below the True God can comprehend many aspects of it.

But to integrate the Ten Fundamental Laws into one body, into the 'Primal Chaos Laws,' is something only those of the Law Lineage in the Primal Chaos Realm can do!

The same principle applies!

The six major branches of the Great Dao of Life Origin, to fully comprehend any single branch, would be the First Realm of Godly King.

To fully realize all six branches isn't too hard.

```

```

But to completely integrate the six branches into one… the difficulty immediately skyrocketed by an unknown multiple, only by completely merging into one can it become a complete Great Dao of Life Origin, which is considered the Ultimate Realm of God King.

"The gap between the First Realm of Godly King and the Ultimate Realm of God King is really too vast," Luo Feng now truly understood the difference between those ancient beings from the Land of Origin.

The elite of the imperial clans from the two ancient countries had also consumed many resources, some of which were no less than the Primordial Crystal Spirit Fruit.

However...

The effectiveness of resources also depends on who consumes them.

In the environment of the Primordial Cosmos where Luo Feng had only a vague sense of the laws, he was able to reach the level of an eternal true god. One can imagine his aptitude for understanding,

and now, after consuming the Primordial Crystal Spirit Fruit and observing the Great Dao of Life Origin, he felt the continuous surge of insights.

All six branches of the Great Dao of Life Origin were making progress.

...

Time passed.

Luo Feng was facing the Great Dao of Life Origin while contemplating the First Calamity of the 'Eight Tribulations Life Form' and the 'Extermination of Seventy-Two Blades'. Occasionally, he would also allow Morosa to display the mysteries of the Great Dao of Destruction Origin.

During this cultivation process, Emperor Chu Yu, Primoridal Ancestor, and Moyu Qingyan didn't come to disturb Luo Feng.

Finally, the effect of the Primordial Crystal Spirit Fruit completely vanished.

Luo Feng felt his soul becoming much heavier and murkier, and his thought processes slowed down. Having grown accustomed to the previously increased aptitude and quick thinking, Luo Feng felt somewhat uneasy.

"This one Primordial Crystal Spirit Fruit lasted a little over an era," Luo Feng stopped his cultivation, somewhat shocked, "In just a little more than an era, I have improved this much?"

The six branches of the Great Dao of Life Origin and the six branches of the Great Dao of Destruction Origin all made comprehensive progress.

Because the cultivation of the Great Dao of Destruction Origin required the help of Morosa's display of its mysteries... so the progress was much slower than that of the Great Dao of Life Origin.

"Twelve branches progressed comprehensively."

The First Calamity of the 'Eight Tribulations Life Form' recorded three lineages: the Body of Life, the Origin of Life, and Life Spirituality. The first volume of the 'Extermination of Seventy-Two Blades' recorded the Heaven Splitting Lineage and the Dark Heaven Lineage.

With the inheritance for these five lineages, progress was naturally faster.

"The Heaven Splitting Lineage and Dark Heaven Lineage of the Great Dao of Destruction Origin have both reached the top standards of the Primal Chaos Realm."

"The Body of Life Lineage and the Origin of Life Lineage of the Great Dao of Life Origin have also reached the top standards of the Primal Chaos Realm."

"The Life Spirituality Lineage has reached the Pinnacle of Primal Chaos Realm."

Luo Feng was amazed.

Even with a strong inheritance, and sufficient talent in the Primal Chaos Realm, it might take tens of thousands of eras to reach the Pinnacle of the Primal Chaos Realm.

Luo Feng reckoned that without the Primordial Crystal Spirit Fruit, focusing on cultivation for one or two hundred eras, he might only be able to reach his current realm.

"One Primordial Crystal Spirit Fruit, worth a hundredfold effect?"

"The most important thing is... the improvement of comprehension! When you encounter a bottleneck, increasing comprehension makes breaking through the bottleneck much easier." Luo Feng understood that the Primordial Crystal Spirit Fruit was more suitable for use when breaking through bottlenecks.

At this moment, Luo Feng distinctly felt that he had understood all the mysteries of the 'Life Spirituality' branch. What he needed now was the last step—to perfectly integrate it into one, forming a complete branch, and only then could he become a Godly King.

"The Land of Origin has many at the Pinnacle of Primal Chaos Realm. Even in peripheral kingdoms, there are a lot such existences. Some who have obtained top resources can even cultivate to 'Transcendence of the Primal Chaos Realm'. But they are unable to become Godly Kings."

"It's because merging all the mysteries into one is much more difficult than penetrating all the mysteries," Luo Feng understood the difficulty.

Penetrating all mysteries belongs to the process of learning. By studying slowly, one will always make continuous progress.

Merging into one, on the other hand, is a qualitative change!

"I have a total of ten fruits, as per my master's instructions, I am to use five in the Primal Chaos Realm and five in the First Realm of Godly King," Luo Feng thought, "Based on the effects of the first fruit…"

"With the help of the first fruit, my realm has greatly improved, as has my strength."

"Next, I need to be patient, let the various branches accumulate gradually, and understand them slowly by myself until I reach the Pinnacle of the Primal Chaos Realm."

"When the five branches from the First Calamity of the 'Eight Tribulations Life Form' and the first volume of the 'Extermination of Seventy-Two Blades' have all reached the Pinnacle of the Primal Chaos Realm, I will then consume the second fruit," Luo Feng was very clear about the difficulty of becoming a Godly King.

Therefore, such Primordial Crystal Spirit Fruits must be used at the most critical moment.

Only by not relying on external things and reaching the Pinnacle of the Primal Chaos Realm, can one hope to advance further with the help of external things.

"Sigh."

Luo Feng left the Quiet Room, and as he looked around at the scenery, he saw the flowers and grass as if infused with endless vitality, growing rapidly. The leaves and branches of the big trees were full of boundless vitality, swaying as if to come alive.

"If I were to make further progress, I fear I could easily transform these ordinary flowers and trees," thought Luo Feng.

Morosa, Primoridal Ancestor, and Moyu Qingyan all hurried over, as Luo Feng had been in seclusion for a very long time. When they saw Luo Feng, they noticed that the plants and flowers around them were blooming, and the space around them was filled with the power of life.

"Master," Moyu Qingyan felt that his master was different somehow, but he couldn't say exactly where.

Morosa, being of a high enough realm, felt that Luo Feng's present life breath was far more terrifying than before, even more terrifying than a Sector Beast like him.

"Why is Master's aura so terrifying?" Morosa was secretly alarmed.

Primoridal Ancestor looked at Luo Feng and felt that Luo Feng's intangible aura even affected the operation of the 'Illusionary Universe' constructed within him, "When an individual is too powerful, it naturally affects the operation of heaven and earth, even affecting the operation of the Illusionary Universe within me. Luo Feng now seems much stronger than before he went into seclusion."

"Master, are you about to become a Godly King?" Morosa couldn't help but ask.

"Still a long way off," Luo Feng smiled, "After being in seclusion for so long, I've lost all taste. Come on, let's go have a meal at Yu Jiufang's place."

"Yes, yes, yes."

Morosa was delighted, and both Primoridal Ancestor and Moyu Qingyan's eyes lit up.

Yu Jiufang, that's a Primal Chaos Realm being who has mastered cooking! His culinary delights are no less than many rare treasures. Primoridal Ancestor, Moyu Qingyan, and the others were also very intrigued. As the highest culinary luminary in the Chu Capital, it's not easy to get him to cook.

It is only when God Kings and transcendents of Primal Chaos Realm step in that Yu Jiufang would warmly entertain.

```
```

Chapter 139: Season 3 Episode 23 Extreme Bounty

For over an epoch, Luo Feng focused on his cultivation after consuming the Primordial Crystal Spirit Fruit.

Now that the effects of the Spirit Fruit had worn off, Luo Feng became more leisurely, enjoying fine cuisine at Yu Jiufang's place and visiting the 'Shallow Whisper Pavilion' to listen to music and experience illusion techniques with the Seven Emotions of Heart Refining Method. The various powers in Chu Capital also noticed that Great Saint Luo He was venturing out more often.

One day, Luo Feng went alone to the Flame Wind Association's Dark Hall in Chu Capital.

"Great Saint Luo He," the master of the Flame Wind Association's Dark Hall greeted him personally. The master was an ordinary-looking woman clad in golden robes. She seemed inconspicuous with her aura concealed, but in reality, she was Marquis Xin Huo, a pinnacle existence of the Primal Chaos Realm.

It was exceedingly rare for a non-Imperial Clansman to be conferred the title of Marquis in the Flame Wind Ancient Country.

"It's Great Saint Luo He's first visit to our Flame Wind Pavilion since arriving in Chu Capital," the woman in golden robes said with a smile. "Please, take a seat."

The two sat opposite each other.

An attendant brought over some fine wine and fruit.

"Marquis Xin Huo," Luo Feng said, savoring the wine, "I'm here to sell some treasures this time."

"Oh?" Marquis Xin Huo smiled. "Given that Great Saint Luo He is a direct disciple of an Emperor, our Flame Wind Pavilion will certainly offer the highest purchase price."

For regular clients selling treasures, the Flame Wind Association's Dark Hall would also drive a hard bargain to ensure a high profit margin.

But behind the Flame Wind Pavilion were a group of Emperors and some Godly Kings from the Flame Wind Ancient Country. As a direct disciple of an Emperor, special treatment was naturally afforded.

"Take a look first," Luo Feng said, waving his hand, bringing out some of the spoils of war he had obtained from his last battle where he fought against five opponents.

Three scrolls emanating terrifying auras, some broken golden hoops, three black nails, and a long weapon staff. Luo Feng even brought out Marquis Liu Yin's blade and Great Saint Beiyu's double-edged axe.

"Hmm?" Marquis Xin Huo broke into a smile upon seeing the long weapon staff. She recognized it at a glance... it was the Godly King Weapon of Marquis Chu Yuan, and its value was much higher.

"This double-edged axe?" Marquis Xin Huo's expression changed slightly.

The death of Great Saint Beiyu remained a mystery to this day.

Now seeing the weapon of Great Saint Beiyu, Marquis Xin Huo understood, "It seems that Luo He was the one who killed Great Saint Beiyu."

Every transaction in the Flame Wind Association's Dark Hall was recorded and confidentiality for the client was mandatory. Even though Marquis Xin Huo was the master of the Chu Capital branch, if she leaked any information... the Dark Hall would impose severe punishments.

The Flame Wind Pavilion's widespread presence across much of the Land of Origin was due to its strict rules and regulations.

"Hum." An invisible glow enveloped the treasures in the Dark Hall of the Flame Wind Pavilion, naturally appraising them and providing a price.

"Great Saint Luo He is truly formidable," Marquis Xin Huo sighed. "Great Saint Beiyu was among the top combatants in the Primal Chaos Realm and, being proficient in the Great Dao of Life Origin, had an extremely strong ability to preserve his life. Yet he still fell at the hands of Luo He."

Luo Feng simply smiled, neither confirming nor denying.

"We will not leak any client's transaction information," Marquis Xin Huo assured as she looked at the items. "These three Formation Diagrams are quite valuable, and the Dark Hall of the Flame Wind Pavilion can purchase them for 260 billion Cosmic Sand."

The one who actually desired these three Formation Diagrams the most was their original owner, 'Saint Tianyu.' However, after that one battle, even Saint Tianyu had become very poor and simply couldn't afford them.

"These golden hoops are broken and need repair," said Marquis Xin Huo. "We can only pay 30% of the price, which comes to 90 billion Cosmic Sand."

Luo Feng muttered to himself silently.

He had held back somewhat at the time. If he had let loose, the hoops would have been completely shattered.

"These three black nails can also be counted as 90 billion Cosmic Sand."

"As for the blade and double-edged axe, together they can be counted as 90 billion Cosmic Sand."

"Added up, that comes to 530 billion Cosmic Sand," declared Marquis Xin Huo.

Luo Feng nodded as he listened. He had only brought out some of the important treasures; many smaller spoils of war were not presented

as their combined value was limited.

"As for this most important Godly King Weapon," Marquis Xin Huo pointed at the long staff. "This is Marquis Chu Yuan's Godly King Weapon. It's a weapon of the First Realm of Godly King tier and is relatively simple to forge. According to the purchase price of the Dark Hall of the Flame Wind Pavilion, it's merely the lowest at 500 billion Cosmic Sand."

Luo Feng knew that even though they were both Godly King Tier Weapon Secret Treasures, armor and bladed weapons naturally varied in value.

Places like the Star Tower, that are akin to palaces, are even more valuable. In critical moments, one could hide inside such a 'palace-class Secret Treasure' to escape. Of course, Luo Feng's physical body was so strong that... no one had yet forced him to retreat into the Star Tower to escape with his life.

"Godly King Weapons could even attract Godly Kings as buyers," continued Marquis Xin Huo. "I suggest you put this long staff on 'consignment' through the Dark Hall of the Flame Wind Pavilion. With your status, Great Saint Luo He, our Dark Hall will only charge the minimum consignment fee of 5%. The starting bid for consignment will be 600 billion Cosmic Sand!

You'll definitely earn more than if the Dark Hall purchased it outright."

"Then let's consign it," said Luo Feng.

"The consignment period can be as short as one day or as long as an epoch," Marquis Xin Huo looked at Luo Feng. "How long would you like to set for your consignment, Great Saint Luo He?"

"Ten thousand days will suffice," responded Luo Feng.

An epoch in the Land of Origin was ten billion days, there was no need for such a lengthy consignment.

Marquis Xin Huo smiled, "Rest assured, we will inform all our important clients about this consignment. Those who can afford a

Godly King Weapon in the Land of Origin are not too numerous."

...

The news of the consignment of the Godly King Weapon spread among numerous clients across the Land of Origin. Within Chu Capital, it stirred some waves as the various factions also knew that this was once Marquis Chu Yuan's weapon.

"My weapon is being consigned?" Marquis Chu Yuan clenched his wine glass until it crumbled into powder, his eyes flashing with thunder, "This Luo He!!!"

He was angry, but he had been utterly defeated in their last encounter.

Hum.

Marquis Chu Yuan immediately contacted his most trusted friend, 'Marquis Chu Ji'.

"Chu Yuan, are you looking for me because of your weapon?" Marquis Chu Ji was well aware of his brother's temperament.

"Big brother, that's my weapon. If he hadn't put it up for consignment, then fine, but now that he has openly consigned it... I must buy it back," Marquis Chu Yuan said through gritted teeth. "My weapon, ending up in the hands of other cultivators, would be a disgrace."

Marquis Chu Ji responded, "Alright, I'll help you."

"I can only muster five hundred billion Cosmic Sand on my end," said Marquis Chu Yuan. "When it comes to the bidding, I estimate I'll need to borrow some from you, big brother."

"Sure," Marquis Chu Ji replied.

Even as an imperial-level Marquis of the Imperial Clan, they had to consume vast resources for cultivation. For Marquis Chu Yuan, to muster five hundred billion Cosmic Sand was already a matter of exhausting all possibilities. To need more? They could only borrow!

Time passed, day by day.

Primal Chaos Crystals and Primal Chaos Stones could naturally form within the Primal Chaos Ruins.

But Cosmic Sand had to be condensed by Godly Kings through cultivation. Each grain of Cosmic Sand contains pure power, and within each grain lies the embryonic form of a universe. Even for Godly Kings, it requires careful cultivation to condense.

Cosmic Sand has many uses. It could be used to refine the bloodlines of eternal true gods, to set up formations, and to cultivate heaven and earth's rare treasures...

The most critical use is to shatter the Cosmic Sand to observe its most essential 'Great Dao's composition.' Each grain of Cosmic Sand must possess at least 'a complete branch of the Great Dao' to form.

Therefore, Cosmic Sand was quite valuable. Even Godly Kings, when cultivating some unfamiliar branch of the Great Dao, would purchase some Cosmic Sand.

******

In the blink of an eye, the consignment period ended.

Luo Feng also arrived at the Flame Wind Association's Dark Hall, where Hall Master Xin Huo welcomed him warmly, "Great Saint Luo He, this consignment of the Godly King Weapon has reached the final price of 700 billion Cosmic Sand. After deducting the half-percent fee, that leaves 665 billion Cosmic Sand."

Luo Feng was quite satisfied. For such a precious weapon, consignment indeed was far more worthwhile.

"Do you want the actual Cosmic Sand, or shall we keep it deposited in our Flame Wind Association's Dark Hall for now?" Hall Master Xin Huo asked.

"Keep it deposited for now," Luo Feng responded. "By the way, I need to purchase perfect-tier materials from Primal Chaos Layer creatures,

a quantity exceeding one in a millionth of the body will do. For each set of materials, I offer a price of 100 billion Cosmic Sand."

The materials from perfect-prime Primal Chaos Layer creatures were extremely hard to obtain!

Luo Feng chose the simplest method... exceedingly high bounty rewards!

A normal Godly King Weapon usually starts at 500 billion Cosmic Sand! His offer of 100 billion Cosmic Sand was just for a bit of Primal Chaos Layer creature material. Surely, it would tempt some.

"I have already obtained a set of materials from the 'Golden Feather God Bird,'" Luo Feng said. "I need only one set of materials from each kind of perfect-tier Primal Chaos Layer creature. This bounty is limited to ten kinds of perfect-tier Primal Chaos Layer creatures."

"Is there a time limit for this bounty?" Hall Master Xin Huo asked.

"None. The bounty ends once ten kinds of materials are collected," Luo Feng said.

Hall Master Xin Huo understood, "The bounty handling fee is half a percent of the cost."

"That's fine."

Luo Feng did not mind. In this era, his 'Life Spirituality Lineage' had reached the pinnacle of the Primal Chaos Realm, and both his 'Body of Life Lineage' and 'Origin of Life Lineage' had reached the top level of the Primal Chaos Realm. Even so, as Luo Feng pondered the feathers of the Golden Feather God Bird, he still had many doubts about 'Trinity' comprehension.

A creature like the Golden Feather God Bird, with ordinary wisdom, deploying only threshold moves of the Primal Chaos Realm, could still possess the strength of the pinnacle of the Primal Chaos Realm. It showed how terrifyingly powerful these perfect-tier Primal Chaos Layer creatures could become when cultivated to the limit.

If his 'Galaxy Transformation Method' could also reach the Unity Tier,

to its perfect extremity, a single Galaxy Blade Light deploying a common move would have 'the strength of the pinnacle of the Primal Chaos Realm.'

Then what would happen if ten thousand Blade Lights surged overwhelmingly forward? What kind of power would that be? Even Transcendent beings of the Primal Chaos Realm or those who have just ascended to the Godly King Tier might simply be cleaved until their godly bodies dispersed.

"Elevating the Transformation Method to the level of perfect-tier Primal Chaos creatures is also a use of the Great Dao of Life Origin," Luo Feng saw the prospects of this path and naturally would continue down it.

...

"A hundred billion Cosmic Sand just for a set of perfect-tier Primal Chaos Layer creature materials?" When the Flame Wind Association's Dark Hall passed the message on to important clients, quite a few were tempted. Even for Transcendent beings of the Primal Chaos Realm, earning a hundred billion Cosmic Sand would take quite a bit of effort.

In Wanjie Kingdom at this moment.

Inside Wanjie Kingdom, there was a world that had been developed. Within it, were many special creatures kept: Godly King level Exotic Beasts and perfect-tier Primal Chaos Layer creatures, along with some specially cultivated terrifying beings.

"Our bodily materials are needed?" A towering rock creature and a silver hoofed Exotic Beast both looked at their keeper.

The keeper, a man in a yellow robe, said with a chuckle, "We only need portions of your body, exceeding one in a millionth of it. The material sold cannot be actively annihilated."

"It seems like he wants to study our bodily materials," the towering rock creature and the silver hoofed Exotic Beast both eyed their keeper. Having reached the perfect tier of the Primal Chaos Layer,

their wisdom was quite high, and they were capable of deploying some Primal Chaos Realm threshold moves.

"As long as you both agree! For the future ten thousand eras, I will present each of you with a vessel of 'Blood Spirit Wine' every era," the keeper said. Matters like this had to be consented to actively by the perfect-tier Primal Chaos Layer creatures; otherwise, with just a thought, the materials would be annihilated.

"Two vessels of Blood Spirit Wine," the silver hoofed Exotic Beast raised two hoof tips.

"Three vessels!" the towering rock creature glanced at the silver hoofed Exotic Beast. They had been captured from the Primal Chaos Layer by Wanjie Kingdom's ruler long ago, and had been kept for a long time. Bodily materials? They did not care. What they wanted were pleasures like fine food and drink.

"One vessel of Blood Spirit Wine is already the best I can do," the keeper shook his head continuously.

After tough negotiations, the towering rock creature and the silver hoofed Exotic Beast sold some of their bodily materials for the price of 'one and a half vessels of Blood Spirit Wine' per era, with a provision of continuous supply for ten thousand eras.

Chapter 140: Season 3 Episode 24 Merit Points

Chu Capital, Luo Feng's Cave Dwelling's Quiet Room, a layer of space within the Star Tower.

Luo Feng looked at the three sets of perfect Primal Chaos Layer Creature materials before him: a huge rock, three silver scales, and a section of a giant, broken leaf.

"Perfect Primal Chaos Layer Creature materials are really hard to collect," Luo Feng mused in the dark, "A hundred billion Cosmic Sand for each, and I've only managed to collect three sets over such a long time."

It's understandable when you think about it—those perfect creatures of the Primal Chaos Layer would be captured by the pinnacle existences of the Land of Origin! These peak beings wouldn't even bat an eye at a hundred billion Cosmic Sand. Only their Direct Disciples and offspring might be tempted and would try to acquire some materials.

"Let's take a look."

Luo Feng's palm was like a blade as he lightly swiped, easily slicing the rock into powder, the scales into dust, and the leaf into fragments. He then proceeded to dissect and analyze the fundamental composition of each material.

"Hmm?"

Luo Feng saw it.

The fundamental structure of the rock powder was a trinity form as well, containing a grey particle enshrouded with the Law's Secret

Patterns of Primal Chaos and enclosing two merging grey particles.

"They all share the trinity form. The Golden Feathered Bird is more agile, while this rock's trinity form is much heavier," Luo Feng studied and comprehended.

The three new forms of materials were all 'trinity form', yet they had slight distinctions. These minute differences... resulted in entirely different final forms.

As Luo Feng contemplated, his understanding of the trinity form slowly increased.

"It's too complicated." Even as Luo Feng had reached the pinnacle of the Primal Chaos Realm within the Life Spirituality Lineage and the peak within the Body of Life Lineage, he still found the trinity form too esoteric, almost like a perfect creation of heaven and earth! Grasping its nature was extremely difficult.

...

In a mysterious palace, which doesn't exist in the real world but rather as a construction within an illusion.

Thoughts converged there.

"The 'Luo He' of the Transcendence of Primal Chaos Realm has recently been collecting perfect Primal Chaos Layer Creature materials. Could there be some special purpose for these materials that we don't know about?" one thought voiced.

"I possess a perfect Primal Chaos Layer Creature and have studied it closely. It's only slightly unique in its physical structure, imbued with some mysteries of the Origin Great Dao of Life and the Origin Dao of Matter," another thought spoke.

"This Luo He has created his own Body Refining Secret Technique, which has similarities with the bodies of Primal Chaos Layer Creatures. He must be cultivating both the Origin Great Dao of Life and the Origin Dao of Matter for his body refinement. Moreover, his Blade Technique must also encompass the Great Dao of Destruction Origin," another thought added.

In fact, his deduction was quite precise. Luo Feng was using the Origin Great Dao of Life to understand the composition of perfect Primal Chaos Layer Creatures, then changing directly with the ability of being 'Formless and Intangible'.

Were it not for the 'Formless and Intangible' capability, one would need to study the 'Origin Dao of Matter' and also require material transformation.

"A cultivator of the Primal Chaos Realm, studying three types of Origin Great Daos? This young one is certainly bold."

"It can be confirmed, there's nothing special about his collection of perfect Primal Chaos Layer Creature materials. Moving on to the next piece of intelligence, the Ancestral God of the Snow Realm has exchanged at great cost the corpse of a 'Tuo Mountain Beast'."

"The Tuo Mountain Beast is a special lifeform cultivated by the Primogenitor Yan Feng from the Primordial Bloodline. Even the Tuo Mountain Beast houses a very faint trace of the Primordial Bloodline. The Ancestral God of the Snow Realm, who practices the 'Blood Dripping Scripture', has comprehended all six branches of the Origin Great Dao of Life, reaching the state of 'Blood as the Boundary'.

Yet, he has been unable to break through to the Second Realm of Godly King. It's likely that he's planning to cultivate using the 'Primordial Bloodline'."

"Continue observing! If he really can master a breakthrough using the Primordial Bloodline, then we could invite him to become one of us."

"Next piece of intelligence, the 'Snow Demon Godly King' of the Thunder Ancient Country has lost control and devoured the True Body of the Lei Sha Godly King. Lei Sha Godly King has lost his True Body and an Ultimate Realm of God King weapon. His loss is substantial. Lei Sha Godly King won't let this go..."

They exchanged this intelligence.

These ancient existences quietly observed the Land of Origin.

Any precious opportunity or powerful treasure would catch the

attention of the ancient existences, who might even take direct action to seize it!

Of course, for the current Luo Feng, merely collecting some perfect Primal Chaos Layer Creature materials, those ancient existences wouldn't even bother. Moreover, Luo Feng was in 'Chu Capital', and these ancient existences dared not venture into Chu Capital to provoke Emperor Chu.

******

Focused on cultivation, time flew by rapidly.

Apart from cultivating, Luo Feng occasionally accepted missions to earn Merit Points.

Bounty tasks, garrison tasks, treasure-hunting tasks; the last two were quite troublesome, requiring either a long time or much thought. Only 'bounty tasks' were relatively simple for Luo Feng, who possessed the Lie Yuan Technique.

"It'll be him."

Luo Feng didn't want to stir up too much trouble in the Land of Origin, so he only took on bounty tasks occasionally.

This time, the bounty target was a top Prime Chaos Realm strong being named 'Black Mist Great Saint', with a reward of a hundred thousand Merit Points.

"This Black Mist Great Saint practices the Origin Dao of Causality," Luo Feng said, using the Tunneling Transformation Technique to arrive at Black Mist Great Saint's territory.

This was a relatively remote region, mostly shrouded in black mist.

Within this territory, there were over a hundred ordinary cities.

Under the cover of the black mist, each city was like an isolated island.

"Everyone returning to the city must be thoroughly checked. Make

sure not to carry any evil objects with you," at the gate of one ordinary city within the Black Mist Territory, multiple formations carefully inspected every returning cultivator.

The cultivators all obediently submitted to the inspections.

Suddenly, one cultivator, under the careful scrutiny of the formation, saw blood marks emerge on the surface of his skin.

"Impossible, when did I pick that up?" The cultivator showed a look of despair as his body silently dissolved into nothingness.

"Not good," the cultivators in charge of receiving and inspecting each changed color drastically.

"All who have seen the blood-colored marks must undergo a second investigation to ensure they are not contaminated," a voice came, and even the guards who hid in relatively safe regions had to be inspected once.

Otherwise, once it spreads into the city, the whole city will be engulfed in a great catastrophe.

At this moment—

Luo Feng appeared high in the sky, watching this scene.

"The Catastrophe Beast of the black mist has brought down the 'Tribulation of Causality', causing countless cultivators within his territory to live forever in panic. These Karmic Marks spreading... causing countless cultivators to be in utter terror, creating stronger karmic ties."

"Cultivating through the causality of all beings, comprehending the Origin Dao of Causality."

"Should the ties of causality become too deep, he would bring down a calamitous tribulation, causing all cultivators within the city to be wiped out, thus completely eradicating causality."

Luo Feng had long known about the intelligence on this Catastrophe

Beast of the black mist.

Complete annihilation is the simplest way to eliminate causality. Indeed, the countless cultivators in these cities are deeply entangled with the Catastrophe Beast of the black mist. But in the end, they all head towards destruction.

Hu.

Luo Feng walked above city after city, seeing the countless cultivators within them living in constant dread, with each outburst of the Tribulation of Causality meaning the death of many creatures.

"Found it." Luo Feng sensed an aura of the Primal Chaos Realm, belonging to a merchant living within one of the cities.

The merchant was smiling and running his business, warmly dealing with some regular customers. These city-dwelling cultivators had no idea... that this merchant was the source of the endless evil catastrophe.

"Hmm?" The merchant sensed something and looked up at Luo Feng.

In the moment he saw it, the merchant felt as if everything else disappeared from his sight except for a tremendously majestic star! This formidable star, rolling in, was already crushing the merchant's Spiritual Will.

Pu!

With the instantaneous obliteration of his Spiritual Will, the Catastrophe Beast of the black mist was thoroughly erased.

Luo Feng was too cautious, worrying that the Catastrophe Beast of the black mist might be able to execute the Causality Escape Technique. But in reality... the Catastrophe Beast of the black mist only cultivated in one branch of the Origin Dao of Causality and was not adept in the Causality Escape Technique.

The moment Luo Feng arrived, it was the killing move – Lie Yuan Technique – using overpowering spiritual will to directly crush him, not leaving a single trace of consciousness, not even enough time to

use the Reincarnation Secret Technique.

"Thump." The merchant's face still held a smile as he fell down.

In that moment, within the territory of the Catastrophe Beast of the black mist, the countless cultivators in over a hundred cities had no idea that the Tribulation of Causality... from this moment on, had completely disappeared.

"Collect." Luo Feng waved his hand, collecting the body of the Catastrophe Beast of the black mist,"Morosa finally has some food again."

Luo Feng then left immediately.

...

The complete death of the Catastrophe Beast of the black mist also caught the attention of some forces in the Land of Origin.

After all, conflicts and killings among beings of the Primal Chaos Realm were normal, and the true death of their True Bodies was a common occurrence. But a complete death, total eradication of causality? That was very rare. Over just a few eras, the Great Saint Beiyu and Catastrophe Beast of the black mist had died in quick succession, which prompted those with intentions to investigate.

"The Great Saint Beiyu and Catastrophe Beast of the black mist, both completely perished within a few eras; they both had great sins. Could it be that some powerful Godly King, intending to kill these grave sinners?"

"The Great Saint Beiyu and Catastrophe Beast of the black mist were somewhat restrained, mainly slaughtering within their own territories. They didn't dare to affect too great an area. Have they still provoked a righteous and powerful being?"

This made many forces speculate.

Fully killing top beings of the Primal Chaos Realm in the Land of Origin was something very few could do, and usually, beings at the First Realm of Godly King couldn't achieve it. Naturally, it was

suspected that some powerful beings took action.

Of course, only two have died, so it wasn't a big commotion.

If ten or eight were to die completely, that would cause a much bigger stir, and might even incite panic among some beings of the Primal Chaos Realm.

"One hundred thousand merit points." Luo Feng, as a Direct Disciple of the Emperor, now had authority to claim merit points that even surpassed those of the Imperial Clan's first-class marquises.

He himself could submit tasks directly to the Artifact Spirit of the Palace of Emperor Chu.

Palace of Emperor Chu, Inheritance palace.

Luo Feng once again arrived here.

"I need to watch the 'Shadow of the Catastrophe Beast' once," said Luo Feng directly to the Artifact Spirit elder. He had reached the Godly King Level from the bottleneck of the Primal Chaos Realm thanks to the Calamity Beast Diagram, and naturally was very interested in the more effective Shadow of the Catastrophe Beast.

Just one viewing was equivalent to the inheritance of the first calamity of the Eight Tribulations Life Form, too expensive, and only now had Luo Feng saved up enough merit points.

"Watch the Shadow of the Catastrophe Beast?" The Artifact Spirit elder looked at Luo Feng, "Even just looking at a complete Shadow of the Catastrophe Beast, even if it's only its image, requires a Godly King's Will just to barely maintain consciousness. It's best to have the Spiritual Will of the Second Realm of Godly King before watching. The threshold's Spiritual Will of a Godly King...

is mainly used to stay conscious, too little will be remembered from the image."

"Are you sure, will you continue to watch?" the Artifact Spirit elder looked at Luo Feng.

Luo Feng nodded, "Watch."

Just a mere image was this terrifying, what then was the origin of this Catastrophe Beast?

"Get ready," the Artifact Spirit elder nodded, then he dissipated.

Luo Feng looked at the Primal Chaos before him, when gradually a vague and huge figure began to emerge from within...

Chapter 141: Episode 3 Chapter 25 Summoned by Emperor Chu

```

Its body, vast like a boundless world, was entirely crimson, with flames ascending. It had a total of eight pairs of enormous wings, and four gigantic hooves as if supporting the entire world. Its single enormous eye coldly gazed in Luo Feng's direction.

"Boom～～～" Every movement it made seemed strenuous because it was bound by numerous chains. These chains came from the void, penetrating every part of its body and soul, making it hard to resist.

It looked towards Luo Feng, its eye filled with terrifying murderous intent.

Luo Feng even saw the 'traces of its past' on it, saw the marks of its growth, from a weak and insignificant Catastrophe Beast step by step becoming stronger, precisely the process experienced in the "Three Thousand Void Calamity Beast Diagram".

Only the past traces seen at this moment were much more detailed than the "Three Thousand Void Calamity Beast Diagram", and much more terrifying and oppressive.

"This is an image of a Catastrophe Beast observed by a powerful being," Luo Feng somewhat understood, "That powerful existence was able to see the 'past space-time' traces of a Catastrophe Beast. And he recorded this segment of observation, preserving it."

If it were a weakling that saw the Catastrophe Beast, they would probably be mentally obliterated to death on the spot.

Being able to see the traces of a Catastrophe Beast in past space-time
```

with a single glance, this ability was beyond Luo Feng's imagination.

Even the Emperor of the Flame Wind Ancient Country was just observing the Shadow of the Catastrophe Beast, creating one Calamity Beast Diagram after another.

The Calamity Beast Diagrams were merely a part of the true Catastrophe Beast.

"The Catastrophe Beast, it is actually bound?" Luo Feng was somewhat shocked, those chains extending from the void clearly made it difficult for the Catastrophe Beast to escape.

"With my spiritual will of the Second Realm of Godly King, I can only observe the Shadow of the Catastrophe Beast. The strength of the Catastrophe Beast is surely above the Ultimate Realm of Godly King. Such a being, yet still bound and trapped."

While shocked, Luo Feng also instantly guessed...

The existence that bound the Catastrophe Beast must be from the Cultivators' side. After all, the Shadow of the Catastrophe Beast was passed down to the Flame Wind Ancient Country.

"Looking at the growth trajectory of the Catastrophe Beast, it should not be from the Cultivators' side," Luo Feng thought, "It should be a terrifying life form from outside the Braided Cage."

Luo Feng had to admit it.

Just by looking at the growth trajectory of the Catastrophe Beast, he couldn't help but admire it. Yet still, there were stronger existences capable of binding the Catastrophe Beast.

"Always keep a heart filled with respect and fear," Luo Feng silently advised himself, "Like the Catastrophe Beast, even a terrifying being above the Ultimate Realm of Godly King is still bound. And I... am just a mere Walker in the Primal Chaos Realm now."

Luo Feng carefully remembered this segment of the image.

After all, he had spent a hundred thousand Merit Points just for one

viewing, and the Inheritance Palace had given enough time.

The original "Three Thousand Void Calamity Beast Diagram" was a painting, while this was a space-time image, much more real and detailed. Luo Feng immersed himself in it, attentively viewing and experiencing.

"One must possess the Heart of Eternality to undergo the endless calamities." After careful observation, Luo Feng's understanding of the Catastrophe Beast's Heart of Eternality deepened.

"One can abandon everything, even one's own life; only with such a fearless mindset... and after undergoing Nirvana and transformation time after time, can one reach this step," Luo Feng shook his head slightly, "But because of this, it also abandons its once friends."

"It even devoured its friends that faced adversity together multiple times."

Luo Feng saw much more detailed growth traces than the "Calamity Beast Diagram."

By the final period, the Catastrophe Beast had become incredibly powerful, with several friends following it. Merely for the sake of being stronger, the Catastrophe Beast still broke through one by one, killing its friends and devouring them.

It became more powerful.

On the road of growth, it needed no companions; it only needed to be stronger itself.

In the end, on some day, it was captured! It didn't even see who acted, with just a change in space-time, it was taken into a prison world, and chains from the void entangled its body, from then on, it could never escape.

"Is this the end for the Catastrophe Beast?" Luo Feng looked on, somewhat sentimental, "Caught just by a change in space-time? Didn't even see who the opponent was?"

"Its spiritual will is strong, but in the end, it's all about strength."

"Without enough strength, it also became a prisoner."

This was also a wake-up call for Luo Feng.

Defeating an enemy simply with spiritual will is too difficult; one needs both a significant advantage in spiritual will, and also in the secret technique of willpower. As his strength improves, the advantage of the "Lie Yuan Technique" will become smaller and smaller.

He was able to completely annihilate some beings of the Primal Chaos Realm, partly because their spiritual will was much weaker than his, and partly because of the "Lie Yuan Technique."

But for some of the ancient existences on the Land of Origin, the gap in the secret techniques of willpower they cultivated compared to "Lie Yuan Technique" would narrow.

"Even the Emperors of the Flame Wind Ancient Country and the Monarchs of the Thunder Ancient Country have not been heard to have killed a Godly King with willpower alone," Luo Feng understood this point, "Spiritual Will is ultimately one aspect of cultivation. The true foundation of cultivation is contemplating the Great Dao."

...

The viewing of the Shadow of the Catastrophe Beast, on the one hand, firmed Luo Feng's dedication to the Dao, also understanding that there are no shortcuts in the cultivation of the Dao! The help from "Lie Yuan Technique" will inevitably become weaker and weaker.

On the other hand, it also made Luo Feng aware that there are heavens beyond heaven, and one should always keep a heart filled with respect and fear.

As time passed, Luo Feng focused more on contemplating the Great Dao.

In the blink of an eye, Luo Feng had already been in Chu Capital for

twenty-seven eras.

...

In the secret space of the Source Ground of the Primordial Cosmos.

Luo Feng's Divine Power Incarnation directly faced the complete Great Dao of Life Origin, able to see its six major branches of the Great Dao of Life at a glance.

"I have also cultivated the Body of Life Lineage to the Pinnacle of the Primal Chaos Realm," Luo Feng looked at the Great Dao of Life Origin in front of him, "I've also collected seven portions of perfect Primal Chaos Layer Creature materials, yet I still haven't understood the 'trinity form.'"

"The Eight Tribulations Life Form" First Calamity recorded three major branches: Life Spirituality, Body of Life, and Origin of Life. Among them, Life Spirituality and Body of Life had now both been raised to the Pinnacle of the Primal Chaos Realm.

Before becoming a Godly King, it was impossible to advance any further.

"After contemplating for so long and still not understanding, do I really have to become a Godly King to comprehend the trinity form?" Luo Feng pondered, "Perhaps I can try taking a Primordial Crystal Spirit Fruit."

```

Originally, Luo Feng planned to reach the pinnacle with all five main branches of his enlightenment before consuming Primordial Crystal Spirit Fruits, leveraging the remaining four Primordial Crystal Spirit Fruits to break through to the Godly King tier.

Now, merely two branches had reached the pinnacle of the Primal Chaos Realm.

"According to what Master said, five fruits should be taken in the Primal Chaos Realm, five in the First Realm of Godly King." Luo Feng thought, "Even if it's just to advance my Transformation Method to a
```

higher level, consuming one fruit is worthwhile."

Perfecting the Transformation Method could also deepen his understanding of the two branches.

"Luo He, come to my Palace of Emperor Chu."

Suddenly—

Luo Feng's spiritual consciousness received a mental transmission from his master, Emperor Chu.

"My master, calling on me for the first time in over two decades?" Luo Feng was somewhat surprised, and his True Body naturally hurried to the Palace of Emperor Chu.

******

Inside the Palace of Emperor Chu.

Emperor Chu sat cross-legged, his figure imposing, yet his eyebrows were slightly furrowed.

"The Ancestor sent back a batch of resources; they are all for our own clan." Emperor Chu pondered. Not long ago, the thirteen Emperors of the Flame Wind Ancient Country were summoned by the Primogenitor Yan Feng, who bestowed upon them a large batch of resources.

This batch of resources was divided into thirteen parts, one for each of the Imperial Clan's thirteen lineages.

As instructed by the Ancestor, these resources were naturally intended to cultivate their own clan members.

The temperament of Primogenitor Yan Feng was as such, he naturally cultivated his own clan members, while outsiders were usually recruited as Guest Elders. Guest Elders had to work hard to earn Merit Points in exchange for benefits.

As for cultivating disciples? Whoever cultivates disciples, supplies the resources.

"This time, the elite of the Imperial Clan will each receive a batch of resources." Emperor Chu thought, "Of my three disciples, the other two frequently visit me seeking guidance. But this disciple Luo Feng... has not sought me out once in these two decades."

Compared to the Imperial Clan elites, Emperor Chu was equally fond of his three Direct Disciples.

He felt the Imperial Clan elites receiving resources meant he also ought to give some resources to his Direct Disciples.

"Master."

At this moment, Luo Feng entered from outside the hall, bowing respectfully.

"Ever since you became my disciple, you haven't come to consult me once in over two decades," Emperor Chu looked at Luo Feng, "No confusion about cultivation?"

Luo Feng respectfully replied, "Master, I have some confusion regarding the Great Dao of Life Origin."

Emperor Chu's eyelids twitched slightly.

Great Dao of Life Origin?

He didn't understand it!

"What about the Great Dao of Destruction Origin? Are you making smooth progress in your enlightenment?" Emperor Chu asked, an area he was proficient in.

"So far, it's been quite smooth," Luo Feng said.

Although the Extermination of Seventy-Two Blades details the Heaven Splitting Lineage and Dark Heaven Lineage, which are both merely top-tier in the Primal Chaos Realm, the main issue is that they cannot directly face the complete Origin Great Dao. Morosa, after all, was also only in the Primal Chaos Realm. So progress was slower than that of the Great Dao of Life Origin.

Emperor Chu nodded, then inquired, "What's troubling you about the Great Dao of Life Origin?"

With a wave of his hand, Luo Feng brought forth a grey particle that split open, revealing a yin-yang fused dual-particle inside.

"This is the most basic particle form of a perfect Primal Chaos Layer Creature—the Trinity form," Luo Feng explained, "I have pondered much on this, but ultimately I couldn't gain full understanding."

Emperor Chu looked at it and felt a headache coming on.

He was wholeheartedly cultivating the Great Dao of Destruction Origin, and though he had a little understanding of the Origin Dao of Matter, Causality, and Space, it was merely equivalent to the level of an average Godly King.

As for the Great Dao of Life Origin? Indeed, he didn't understand it.

"I'm very confused," Luo Feng said, having spent the majority of these two decades focused on it, "I seek your guidance, Master."

"The Trinity form? It's a relatively superficial bodily structure," said Emperor Chu, while quickly pondering the question—given the speed of thought an Emperor possessed.

Whoosh.

Suddenly, Emperor Chu waved his hand and a golden scale beetle's corpse appeared in the hall, "This is the body of a Primal Chaos Realm creature. Its structure is the more advanced 'Ten Directions World Form' than the 'Trinity Form.' With its body, it can fight against Godly Kings across levels.

Study the 'Ten Directions World Form' carefully, and perhaps by looking back and studying the simpler 'Trinity Form,' you will understand it fully."

Luo Feng stared at the golden scale beetle's corpse before him in astonishment.

The aura of the corpse was powerful.

"This corpse?" Luo Feng was puzzled, as he had never heard of such a creature before.

"The Thunder Primogenitor is dedicated to studying various Primordial Bloodlines; this is one of the special creatures he has cultivated," Emperor Chu explained, "Go back and study it. Once you gain a deeper understanding, consuming the Primordial Crystal Spirit Fruit may enable you to grasp the Trinity form in one go."

"I understand," Luo Feng acknowledged, immediately taking the corpse with him.

"Off you go," Emperor Chu waved his hand.

Luo Feng respectfully took his leave.

"I had planned to give him a portion of resources, but this golden scale beetle corpse, valued at a million Merit Points, can also be considered his share of resources," Emperor Chu felt satisfied, not wanting to shortchange his own disciple.

Chapter 142: Season 3 Episode 26 Heavenly Task

Luo Feng left the Palace of Emperor Chu and returned to his own cave mansion, where he entered the Star Tower to study the newly acquired corpse of the golden scale beetle.

A massive scale beetle corpse lay in this layer of the Star Tower's space, and Luo Feng looked up at the colossal creature.

"According to what Master said, the Ancestor of the Thunder Ancient Country was dedicated to researching various Primordial Bloodlines, and this is one of the special creatures cultivated by the Ancestor," Luo Feng carefully examined the scale beetle.

From the many inheritances and resource information in the Inheritance palace, Luo Feng had a preliminary understanding...

The vast world governed by supreme rules is like a giant Braided Cage. Places such as the Land of Origin and the three thousand Primordial Cosmoses are all within a complete Braided Cage. Outside of the Braided Cage, where there is Primordial Force and Primordial Materials are produced, the creatures born in that space possess Primordial Bloodlines!

The upper echelons of the Imperial Clan of the Thunder Ancient Country, the vast majority cultivate with the help of Primordial Bloodlines.

"This is a Primal Chaos Realm creature, yet it possesses a 'Ten Directions World form' that is more profound than the Trinity form?" Luo Feng extended a finger, and a thread of silver silk flew from the tip of his finger, entering the golden scale beetle's mouth and quickly siphoning a drop of blood.

Luo Feng began to dissect this drop of golden blood.

"It's already dead, and yet the blood is still so stable?" Luo Feng's fingers, edged with sharpness, sliced the blood into particles.

"This golden scale beetle, each particle contains powerful spirituality, indeed stronger than a perfect Primal Chaos Layer Creature. No wonder it can fight against a Godly King without being at a disadvantage."

Snap.

As a golden particle was dissected, nine smaller particles appeared inside.

These nine smaller particles were divided into three parts, with each part consisting of three merged particles.

The three parts maintained a certain distance, rotating slowly but steadily.

"Could it be this kind of 'Ten Directions World form'?" Luo Feng was astonished as he watched, "The 'Ten Directions World form' recorded in the 'First Calamity of the Eight Tribulations Life Form' within the 'Body of Life Lineage' is divided into seven types, and this one before me is indeed among them."

The description in the inheritance wasn't as good as witnessing it with one's own eyes.

One large particle contained nine smaller particles. Every three of the nine smaller particles merged into one group, and the three groups were forever rotating and chasing each other, yet they never touched.

Even with Luo Feng's comprehension at the Pinnacle of the Primal Chaos Realm within the Body of Life Lineage, he found value in studying such a form.

"Wonderful, wonderful, truly wonderful."

Luo Feng watched excitedly, "These three particles merge perfectly, also forming a Trinity form."

The Trinity form also has many variants.

Perfect Primal Chaos Layer Creatures consist of one large particle, with internal Yin and Yang particles forming the Trinity form.

Whereas the fundamental construct of the golden scale beetle's 'Ten Directions World form' also has three particles fused together, representing a type of Trinity form.

"Two different Trinity forms..."

Luo Feng observed carefully, cutting open to watch as the collapsing Trinity form revealed countless solidifying Primal Chaos Secret Patterns.

"The Trinity form can also form a cyclical system with each other?" Luo Feng diligently studied the underlying mysteries, his understanding of the Trinity form improving.

...

During his time in Chu Capital, Luo Feng received top-notch inheritances and precious resources, naturally immersing himself wholeheartedly in cultivation. He couldn't be bothered to get involved in the various disputes of Chu Capital.

"What?"

Marquis Chu Ji and Marquis Chu Yuan were originally drinking and chatting leisurely when they simultaneously received a mission issued by the Imperial Clan, shocking them as they received it.

"Heavenly level?" Marquis Chu Yuan's ugly features twisted even more, his eyes bulging.

"A Heavenly Task?" Marquis Chu Ji was also somewhat dazed.

Being of the Imperial Clan, the highest level of tasks they had access to were normally emperor level.

However, every once in over a thousand eras and even tens of thousands of eras, there would occasionally be a higher 'Earthly

Task'.

And over even longer periods, spanning hundreds of thousands of eras or more, there would occasionally be a 'Heavenly Task'. A Heavenly Task was also the highest level of tasks that a first-class marquis of the Imperial Clan could encounter in their lifetime.

This task was issued specifically for the members of the Imperial Clan. Guest Elders did not qualify to receive it.

"To think there would be a Heavenly Task." Marquis Chu Yuan and Marquis Chu Ji looked at each other.

"Big brother," Marquis Chu Yuan said with fervent eyes, "if we rank high in completing this Heavenly Task... the resource rewards we'll receive will be substantial, truly terrifying."

"We must prepare well for this task," Marquis Chu Ji said, his voice tinged with madness at the moment.

That day, all the emperor level and first-class marquises of the Flame Wind Ancient Country's Imperial Clan received the Heavenly Task.

It all started when the Primogenitor Yan Feng sent back a batch of precious resources, and according to the rules of the Imperial Clan, the thirteen Emperors and those in the Second Realm of Godly King were allocated a certain amount of resources according to their status, with no need for competition.

But for those in the First Realm of Godly King and the first-class marquises, competition was fierce.

The outstanding ones would receive more.

The mediocre would receive less.

...

Within the mysteries of a Virtual World palace, thoughts converged.

"Flame Wind Ancient Country has obtained a batch of rather precious resources, Heavenly Level resources! The Godly Kings of the First

Realm and first-class marquises of the Flame Wind Ancient Country's Imperial Clan all have to compete. The distribution of resources will be based on ranking."

"They will need assistance in competing. We can help."

"If those Godly Kings of the First Realm and the first-class marquises voluntarily give us a portion of the resources they obtain. The thirteen Emperors of the Flame Wind Ancient Country won't be able to stop them."

"Helping out and taking a small reward in return is perfectly justifiable!"

The Land of Origin had many ancient existences that had long been coveting the two great Ancient Countries.

The resources of the two great Ancient Countries were so vast, that the Primogenitor Yan Feng and the Primogenitor of the Thunder Ancient Country, having obtained a huge amount of resources they themselves did not need, left a great deal for their own people.

"In terms of talent and potential, the elite cultivators selected from the countless cultivators of the entire Land of Origin definitely surpass the Imperial Clan of the two great Ancient Countries."

"But it's just by virtue of cultivating with an enormous amount of precious resources, they toughly raised thirteen emperors of the Flame Wind Ancient Country and nine Monarchs of the Thunder Ancient Country. In terms of resources, what we use doesn't even come close to one ten-thousandth of those emperors and Monarchs."

"Serving as Guest Elders, we toil and accumulate tens of millions of Merit Points, but that's still far from being enough for one Ultimate Realm inheritance."

"The Ultimate Realm inheritances of the two great Ancient Countries start at thirty million Merit Points each! Those exorbitantly priced Primordial Bloodline inheritances, or those cultivated with the assistance of Primordial Force, are even more expensive, costing upward of hundreds of millions of Merit Points."

"And there are many resources that are simply not available for exchange."

These ancient existences were very envious.

To serve as Guest Elders to the two great Ancient Countries, fighting to the death, and to exchange for an inheritance was very difficult.

Whereas the Imperial Clan of the two great Ancient Countries could casually choose inheritances and had piles of various precious resources. These ancient existences, though clearly very strong, did not dare to rob openly. They could only use some legitimate means to make the Imperial Clan willingly give them some.

"Fortunately, there is Yuan, who has given us, wanderer cultivators, the same competitive opportunity as the Imperial Clan. Otherwise, we would never emerge victorious."

"Without Master Yuan, the two great Ancient Countries would only exploit us more."

After these ancient existences chatted for a while and exchanged intelligence, they dispersed.

******

Luo Feng exited his cultivation retreat to welcome the visiting Emperor Chu Yu.

"Brother Chu Yu, what's the matter? You seem to be in a hurry," Luo Feng asked with a smile. Generally, a message would suffice, but this time Emperor Chu Yu insisted on a face-to-face conversation.

"My Flame Wind Ancient Country's Imperial Clan has issued a Heavenly Task. Are you aware?" Emperor Chu Yu inquired.

"Heavenly Task?" Luo Feng was somewhat surprised.

With his status, he also had access to some common high-level intelligence of the Land of Origin and naturally knew that the highest level task for the marquises of the Imperial Clan was the 'Heavenly Task,' which afforded the most terrifying resources.

At that moment, Luo Feng did not yet know that when his master, Emperor Chu, obtained that batch of significant resources, he had summoned him first.

"Possibly every few hundred thousand eras, there comes a Heavenly Task," Emperor Chu Yu said a bit anxiously, "I've only recently become a first-class marquis, and I encountered a Heavenly Task. Alas! Among the seven first-class marquises of Emperor Chu's Lineage, my strength is the weakest, and this competition is very troublesome."

"Very troublesome?" Luo Feng looked at him.

"The Heavenly Task is divided into three subtasks," Emperor Chu Yu explained, "The first two subtasks are personal tasks that I must undertake on my own. Only for the third subtask... can I seek external assistance."

Luo Feng nodded in understanding.

Two subtasks depended on oneself? The weakest, Emperor Chu Yu, indeed suffered a disadvantage.

"If this Heavenly Task had been delayed by one hundred eras, I would have reached the Pinnacle of Primal Chaos Realm," Emperor Chu Yu said, also somewhat helplessly. Even with the assistance of a plethora of resources for cultivation, there was still some distance to the Pinnacle of the Primal Chaos Realm.

"No matter what, you have to fight for it. If you miss this time, who knows when the next Heavenly Task will be," Luo Feng said.

"Among the three subtasks, one is the battle for the Blood Spirit Golden Pearl," Emperor Chu Yu stated, "For this task, I can only trouble Brother Luo He, as only your strength holds hope for competing for it."

Luo Feng understood.

In the entire Land of Origin, the Blood Spirit Golden Pearl was produced only in one place, located at the border area between the two great Ancient Countries.

"Don't worry," Luo Feng nodded.

"As long as Brother Luo He helps me complete this task, for other tasks later on, I won't trouble Brother Luo He anymore," Emperor Chu Yu stated, as long as this Heavenly Task was completed well enough and he secured enough resources.

Even if he lay idle for tens of thousands of eras afterward, it wouldn't matter.

Luo Feng smiled and said, "Brother Chu Yu, rest assured, I will give it my all for this task."

It was because of him that Luo Feng had come to Chu Capital to serve as a Guest Elder and had been taken in as a Direct Disciple by Emperor Chu, earning merits for Emperor Chu Yu.

Merely for this relationship, Luo Feng also needed to help earnestly.

"Remember, after the Blood Spirit Golden Pearl is born, it must be delivered back to Chu Capital within ten days, for after ten days, the Blood Spirit Golden Pearl will become a 'Blood Spirit Poison Pearl,' and won't count towards the task's Merits," Emperor Chu Yu stated.

Luo Feng nodded.

"There are seven first-class marquises from Emperor Chu's Imperial Clan Lineage," Emperor Chu Yu continued, "Although I'm the weakest in strength, I've already reached the top tier of the Primal Chaos Realm. Moreover, my two personal tasks are also tests of comprehension, temperament, and many other aspects, so I'm not necessarily the bottom ranker"

"As for the battle for the Blood Spirit Golden Pearl, among the seven first-class marquises, not many can obtain the assistance of those transcendent from the Primal Chaos Realm."

"I estimate I could fight for the third or fourth place," Emperor Chu Yu said.

Seven first-class marquises.

From the first to the seventh place, the resources allocated were vastly different.

If he could fight for a middle position, Emperor Chu Yu would be very satisfied.

"Leave the Blood Spirit Golden Pearl task to me," Luo Feng said, obviously unsure about Emperor Chu Yu's final ranking. Who knew how Emperor Chu Yu would fare on his own two personal tasks?

"Here is the detailed information about the Blood Spirit Golden Pearl task. I'll send it to you," Emperor Chu Yu sent it over immediately.

Luo Feng received the task and immediately reviewed it.

Now was the preparation period for the task, and in one thousand days, the Heavenly Task would officially begin.

The whole Heavenly Task would last one era.

After one era, the overall ranking would be calculated.

Chapter 143: Volume 3, Chapter 27, Palace of Two Realms

Chu Capital, the night shrouded in haze.

In a common courtyard, Marquis Chu Chang was drinking alone when suddenly an invisible fluctuation enveloped him.

"Hmm?" Marquis Chu Chang felt the world around him change, and he found himself in an illusory realm.

"Marquis Chu Chang." Clouds condensed into a figure, who smiled at Marquis Chu Chang.

"I have been alone in this courtyard, waiting for you all for a long time." Marquis Chu Chang looked around, "I didn't expect you to drag me into an Illusory Realm. Even the famous Two Realms Palace in the Land of Origin dares only meet me in an illusion?"

The cloud figure spoke, "This is Chu Capital, personally crafted by Primogenitor Yan Feng! We in the Two Realms Palace must also act cautiously, please forgive us, Marquis Chu Chang."

Marquis Chu Chang looked at the other party.

The Two Realms Palace, a massive force hidden in the dark on the Land of Origin, its inner members' identities a mystery. It was rumored that the weakest among them reached the Second Realm of Godly King, and there were even followers of the Yuan among them.

Compared to Primogenitor Yan Feng and Primogenitor Lei Ting, Yuan was more revered in the Land of Origin.

Yuan was aloof, merely leaving behind some powerful inheritances and precious resources; he himself was too lazy to accept disciples. Of

course, there were some ancient beings who, having received Yuan's guidance, claimed themselves as 'disciples of Yuan.'

"I am just an ordinary member of the Two Realms Palace." The cloud figure smiled at Marquis Chu Chang, "However, helping Marquis Chu Chang to achieve a top ranking in this Heavenly Task would be an easy matter."

"You want to help me?" Marquis Chu Chang looked at him.

If he was an official member, this cloud figure would at least be of the Second Realm of Godly King! An existence that could crush him with a flick of a finger.

However, as a first-class marquis of the Imperial Clan, Marquis Chu Chang naturally had his own pride.

"Marquis Chu Chang, " the cloud figure said, "you should understand, among the seven first-class marquises of Emperor Chu's lineage... in terms of comprehension and potential, Marquis Chu Ying should be ranked first, Marquis Chu Feng, Marquis Chu Ji probably rank above you."

Marquis Chu Chang listened.

Their rivalry had lasted for years, apart from the newly promoted Marquis Chu Yu, the other six marquises knew each other well.

"Without sufficient powerful assistance, you won't make it into the top three." The cloud figure spoke.

"I can help you get into the top three, but I need half of the resources you obtain," the cloud figure looked at Marquis Chu Chang.

Marquis Chu Chang looked back at him, scoffed, "Half? These are resources of the Imperial Clan of Flame Wind Ancient Country, your Two Realms Palace really is bold."

"Everything is voluntary, I will not force you," the cloud figure said, "if you refuse, I can leave right now and will no longer disturb you, Marquis Chu Chang."

Marquis Chu Chang looked at him.

Among the seven first-class marquises of Emperor Chu's lineage, he was the least remarkable! Even the newly promoted Marquis Chu Yu had the backing of the 'Great Saint Luo He,' a transcendent of the Primal Chaos Realm.

"If you help me, and I achieve first place this time, I will split half with you!" Marquis Chu Chang said, "If I take second, you can only have twenty percent. If third, only ten percent. If I don't make it to the top three, it means you are too useless and don't deserve to share the resources."

The cloud figure shook his head: "To fully assist you, I need to invest quite a bit of effort."

"If I take first, I want half."

"If second, three tenths."

"If third, two tenths. Anything lower? I can do without." The cloud figure looked at Marquis Chu Chang, "This is my final offer, you may choose to refuse."

Marquis Chu Chang looked at him, suddenly laughed: "Very well, it's agreed then."

The cloud figure nodded: "Since it's agreed, it has become karma! Marquis Chu Chang, don't even think of reneging... the price of karmic backlash is something you cannot afford." After saying this, the cloud figure disappeared without a trace.

Marquis Chu Chang felt the illusory realm dissipate, and he was still sitting at the table in the courtyard.

"The price of karmic backlash?" Marquis Chu Chang slightly furrowed his brow, he was ultimately just at the Pinnacle of Primal Chaos Realm, and had never thought of cheating the inner members of the Two Realms Palace.

"If I obtain the most resources in this Heavenly Task, perhaps I have a chance to transform." Marquis Chu Chang had ambitions too.

He was merely slightly less talented among the seven first-class marquises, yet could cultivate to the Pinnacle of Primal Chaos Realm, which certainly showed he had potential. With enough resources, there was a chance to reach the Godly King Tier.

The treatment of a first-class marquis of the Imperial Clan, and Godly King of the Imperial Clan, were starkly different.

...

Among the seven first-class marquises of Emperor Chu's lineage, the most famous was Marquis Chu Ying.

Marquis Chu Ying looked out of the window at the night sky.

"Buzz." He held the transmission token, beginning to contact a friend powerful enough.

"Sister Bi Yun." A crisp cold voice resounded.

"Brother Chu Ying." Marquis Chu Ying was rather humble.

Great Saint Bi Yun, was the direct disciple of Emperor Qing!

Emperor Qing, the strongest among the thirteen emperors of Flame Wind Ancient Country, was also adept in teaching disciples. This Great Saint Bi Yun, being a transcendent of the Primal Chaos Realm, was extraordinary and unparalleled, possessing treasures bestowed by Emperor Qing, making her incredibly formidable.

"This time, the seven first-class marquises of Emperor Chu's lineage also need to compete." Marquis Chu Ying explained, "The task of collecting the Blood Spirit Golden Pearls will also require your help, Sister."

"Many imperial elites visited Master before, and Master always said... among those of Emperor Chu's lineage, Brother Chu Ying, your talent is the highest, certainly destined to become a Godly King." the crisp voice spoke, "Emperor Chu's lineage should allocate the best resources to you."

Marquis Chu Ying was quite grateful to Emperor Qing.

With just a word from Emperor Qing, Marquis Chu Ying's status skyrocketed, and he received a tilting of resources in his favor.

"Competition among the first-class marquises is a rule set by the Ancestor. We still have to compete," Marquis Chu Ying said, "Sister, do you have the time for this task of collecting Blood Spirit Golden Pearls?"

"Leave it to me." Sister Bi Yun responded, "I can't promise first place in collecting the Blood Spirit Golden Pearls, but I definitely won't hold you back."

Chapter 144: Episode 3 Chapter 27 Two Realms Palace_2

"I appreciate your help, senior sister."

Marquis Chu Ying heaved a sigh of relief.

Emperor Qing's words had inclined some Godly Kings, even those transcended in the Primal Chaos Realm, to be willing to make acquaintances with Marquis Chu Ying.

However, the Blood Spirit Golden Pearls originated from the borders of two Ancient Countries, where conflicts were typically confined to the 'Primal Chaos Realm level'; if Godly King level powers intervened, the border conflicts would escalate massively. To initiate a large-scale war between two nations for a sub-task in a Heavenly Task? No one could bear the consequences.

Limited to the Primal Chaos Realm level, after much consideration, Marquis Chu Ying concluded that the most suitable helper would be Great Saint Bi Yun.

Across the Land of Origin, among the two Ancient Countries and various other forces, both overt and covert, there were in total seventy-one who had transcended the Primal Chaos Realm. Naturally, there was a variance in their strengths.

"Among those transcended in the Primal Chaos Realm, Senior Sister Bi Yun ranks among the top," Marquis Chu Ying thought to himself.

******

On the day the Heavenly Task was issued, the seven first-rank marquises of Emperor Chu's lineage were all devising plans.

Luo Feng was originally walking in his cave mansion.

Suddenly—

An invisible fluctuation enveloped Luo Feng, attempting to drag his consciousness into a virtual world.

"Buzz." Luo Feng's soul, on one hand stabilized by the "Lie Yuan Technique", and on the other hand protected by the Star Tower.

The invisible fluctuation couldn't move Luo Feng's consciousness at all.

"Hmm? Able to resist the summons from the Two Realms Palace?" The presence in the shadows was somewhat shocked.

"Who?" Luo Feng naturally felt that powerful dragging force, but with the "Lie Yuan Technique" and the Star Tower simultaneously garrisoning, he naturally was fearless.

Whoosh whoosh whoosh~~~

The wind rose, naturally condensing into a vague figure that appeared before Luo Feng, with invisible fluctuations spreading around to isolate any spying.

"Great Saint Luo He, have you ever heard of the Two Realms Palace?" the Wind Shadow, smiling, looked at Luo Feng.

Luo Feng was inwardly startled.

Whether it was the lineage of his master, Mountain Sitting Guest, Emperor Chu's Lineage, or his currently elevated status, Luo Feng was somewhat familiar with some of the massive forces in the Land of Origin.

The numerous forces in the Land of Origin were divided into overt and covert types. The overt major forces all had their territories, among them, the two Ancient Countries were most revered! Tianmu Kingdom, Wanjie Kingdom, the Eastern Extreme Domain, these were the overt first-rate forces.

Yu Kingdom, Shi Kingdom, and many other nations were second-rate countries, along with many third-rate countries.

Covert forces, however, appeared more mysterious.

Covert forces, who were their members? How strong were they exactly? Many details remained enigmatic.

Possibly even Godly Kings from the two Ancient Countries were involved, or even alien races from outside the Braided Cage.

The Two Realms Palace was one of the top two major forces in secrecy.

"Two Realms Palace, you have matters with me?" Luo Feng looked at the other.

"Luo He, you are currently just transcended in the Primal Chaos Realm, unaware of the hardships of the cultivation path," the Wind Shadow said, "Only when you become a Godly King will you realize that the higher you go, every step is like a chasm."

Luo Feng listened.

He of course understood, the gap between the First Realm of Godly King and the Ultimate Realm was like the difference between mastering one of the Ten Fundamental Laws and the Law of Primal Chaos. The difficulty was indeed multiples higher, naturally making it increasingly difficult the higher one ascended.

"In terms of resources, the two Ancient Countries will only cultivate the Imperial Clan." the Wind Shadow said, "Even if you are Emperor Chu's Direct Disciple, he needs to take out a portion of his own resources for you."

"Now, your strength is weak, he is willing to give you some resources he can no longer use."

"But what about when you become a Godly King in the future, become stronger? The more precious resources you need, which are also very important to him, will he still give them to you?" the Wind Shadow said.

"In terms of cultivation guidance... You should concurrently cultivate in the Great Dao of Life Origin, destruction, and matter." the Wind Shadow said, "Emperor Chu can only teach you the Great Dao of destruction, what about the other two great daos of origin? What will you do?"

Luo Feng listened.

Concurrently cultivate three great daos? When did I start concurrently cultivating the Origin Dao of Matter?

"The two ancient countries are unwilling to part with their most precious resources, so it must be taken by force," Wind Shadow said, looking at Luo Feng, "As for guidance? The Great Dao of Life Origin and the Origin Dao of Matter — members within our Wanjie Kingdom can guide you, and it will definitely be better than what Emperor Chu can teach."

Luo Feng looked at him, "What do you mean by all this?"

"I can allow you to first become an outer member of the Wanjie Kingdom," Wind Shadow said, "The guidance you get in Wanjie Kingdom will definitely surpass that of Emperor Chu. He doesn't really teach his disciples at all."

"What is it that you want from me?" Luo Feng studied him.

"Join us."

Wind Shadow looked at Luo Feng, "I admire you greatly."

It was initially just for a transaction, but when he found out he couldn't drag Luo Feng's consciousness into the virtual world, he changed his mind.

Resisting the attraction of Wanjie Kingdom? This was quite rare.

"This Heavenly Task will serve as a minor test," Wind Shadow said, "You continue to compete for the 'Blood Spirit Golden Pearls' for Emperor Chu Yu, giving him one or two. The rest of the Blood Spirit Golden Pearls are all mine!"

"A minor test to see whether you are willing to join the Wanjie Kingdom," Wind Shadow said, "You surely know, the identity of Wanjie Kingdom members is highly confidential. Joining us will only benefit you, there are no drawbacks."

Luo Feng looked at him and scoffed, "Marquis Chu Yu is my closest friend. You want me to betray a friend?"

Boom!

Luo Feng waved his hand, and a disruption directly swept over Wind Shadow.

Wind Shadow dispersed in shock.

"How dare you..." Wind Shadow reformed, somewhat furious.

To give him such disrespect?

"This is Chu Capital! The Chu Capital of my master!" Luo Feng looked at him, "You dare to act here, in Wanjie Kingdom? I must say, I do admire your courage."

Wind Shadow was both angry and anxious.

Emperor Chu, after all, was one of the pinnacle existences in the Land of Origin. He might not be invincible in the outer world, but within Chu Capital, unless Ancestor Yan Feng and Ancestor Lei acted, Emperor Chu was invincible in the Land of Origin.

"Aren't you leaving?" Luo Feng clearly didn't want to waste words with him.

"You don't even understand what Wanjie Kingdom means!" Wind Shadow said coldly, "Nor do you understand what you have refused today! When you become a Godly King, you will regret today."

Having said this, Wind Shadow vanished without a trace.

Luo Feng watched the scene, a cold smile playing on his lips.

A bunch of self-righteous fellows!

Even if his own Sector Beast Morosa grew to its pinnacle, could anyone in Wanjie Kingdom provoke a Pinnacle Sector Beast? A bunch of people who only dared to skulk in the shadows!

"Morosa," Luo Feng communicated through his spiritual will.

"Master," Morosa immediately came over.

Inside a layer of Star Tower.

"What is this?" Morosa looked at the massive corpse of a golden scale beetle, its insides emanating a strong longing and calling, "Master, is this for me? I feel that its help to me will far surpass the previous Primal Chaos Realm corpses."

Luo Feng watched him and smiled, "This is the material for my cultivation."

"For Master's cultivation?" Morosa looked somewhat disappointed, but he would not covet what belonged to his master.

"I have taken one percent of the materials from this golden scale beetle's body, which is enough for my cultivation," Luo Feng said, "This corpse now belongs to you."

Morosa was excitedly thrilled.

"This is no ordinary corpse; it might even be stronger than a normal Godly King's corpse. Don't disappoint me," Luo Feng observed him.

The fact that the golden scale beetle could engage in combat beyond its level with a Godly King highlighted the unique nature of its physical body.

"Thank you, Master," Morosa was incredibly excited, sensing that this golden scale beetle's body might bring about a profound transformation in him.

Chapter 145: Volume 3 Chapter 28 City Lord of Desert Wind City

Morosa began his closed-door cultivation, thoroughly assimilating the golden scale beetle's corpse, while Luo Feng still concentrated on the Transformation Method.

"Hum." "Hum."

Luo Feng watched the two particles floating in front of him, his palm's edge sharp like a blade, sweeping past the particles.

One of these particles split open, revealing two merged yin-yang particles inside. The other particle split open to disclose three heaps of particles that spun and chased each other.

"It's all a matter of one particle containing the interior." Luo Feng observed, "The container particle is like a world in itself, this is 'The Beginning of Unity'..."

Luo Feng noticed the commonality between the two forms.

The 'Trinity Form' of a perfect Primal Chaos Layer Creature makes evolution simpler within its particle world.

The 'Ten Directions World Form' of the golden scale beetle's corpse involves deeper level evolution within its particle world, also drastically changing in power.

"The evolution within a particle, is it like the world nurturing and evolving?" Luo Feng observed, as the numerous mysteries of the two major branches of 'Life Spirituality' and 'Body of Life' at the pinnacle of Primal Chaos Realm collided.

Time elapsed.

Suddenly, at one moment, Luo Feng naturally stopped his cultivation.

"It's time to leave." Luo Feng had already set his departure time, even during the intensive cultivation, he would emerge punctually when the time came.

...

On the day of the departure, Emperor Chu Yu also personally came to see off Luo Feng.

"Brother Luo He, in this Heavenly Level Task, all first-class marquises will try everything. In terms of individual strength, I am ultimately the weakest, my individual tasks... I am afraid I will rank lower," Marquis Chu Yu looked at Luo Feng, "So for this task, we need not put too much pressure on ourselves."

"Just focus on preparing your own individual tasks," Luo Feng said, "leave the Blood Spirit Golden Pearl task entirely to me."

Marquis Chu Yu nodded.

If the Heavenly Task had come much later, several hundred eras from now, once he reached the pinnacle of the Primal Chaos Realm, then undertaking individual tasks, his chances would be much better.

But such is life, one can't always have everything as desired.

"The Blood Spirit Golden Pearl skirmish is at the border between two countries, be careful," Marquis Chu Yu said.

"Don't forget I cultivate the Physical Body, perhaps vying for Blood Spirit Golden Pearl might be average, but my survival capability is unquestionable," Luo Feng spoke truthfully, his combat system, indeed was at a disadvantage in competing for Blood Spirit Golden Pearls.

Life Spirituality, Body of Life... both are renowned for their survivability.

Competing with cultivators of causality, space, world, and other paths for treasures, indeed, I am not as smooth as them.

"Let's both do our best," Marquis Chu Yu smiled.

"I'm leaving first. If I collect Blood Spirit Golden Pearls, I'll send them back immediately," Luo Feng said.

Marquis Chu Yu nodded.

Before departing, Luo Feng saw the Primordial Ancestor and Moyu Qingyan seeing him off to the side.

Luo Feng nodded to the Primordial Ancestor, then advised Moyu Qingyan, "Qingyan, Luo Sa is now also in closed-door cultivation, you should also devote more effort to your cultivation."

"Yes, Master," Moyu Qingyan immediately replied.

Luo Feng nodded, then with a single step, already traversed the void and departed.

Marquis Chu Yu watched this scene.

"I need to also give my best shot at my two individual tasks," Marquis Chu Yu nodded slightly to the Primordial Ancestor and Moyu Qingyan, then also left. Chapter Read:

******

Flame Wind Ancient Country and Thunder Ancient Country occupied the most central and bustling territories of the Land of Origin! The natural treasures here cultivate more abundantly, even the number of cultivators and Exotic Beasts bred are much larger.

The junction of these two countries is even acclaimed as the heart of the Land of Origin! Here, precious resources are exceedingly numerous.

The two ancient countries also have a tacit agreement, letting almost all resources be contested by those in the Primal Chaos Realm. Only a very few resources would provoke actions from the Godly Kings.

"I've arrived."

Leaving Chu Capital, Luo Feng, using the Tunneling Transformation Technique to travel, within just over three hours arrived at his destination.

With the Tunneling Transformation Technique, Luo Feng, as if melded into the void, looked at the distant sky from afar, where there was an incredibly massive blood-red fireball! The glow emitted by this blood-red fireball illuminated the surrounding land and rivers with red light.

"This naturally nurturing 'Blood Spirit Star' illuminates a wide area with its glow, also producing some of the natural wonders around it," Luo Feng noted the Blood Spirit Star.

"The flame of this Blood Spirit Star, roughly every era, will erupt two or three times, spewing liquid-like flames as well as Blood Spirit Golden Pearls."

"The task lasts one era."

"Within this era, any Blood Spirit Golden Pearls that erupt, we need to seize them."

Luo Feng looked on from afar.

There are signs when the Blood Spirit Star is about to enter its Eruption Period, there's no need to reach the proximity too early.

Hu.

Luo Feng waved his hand, the Law of Primal Chaos operated, and the Chaotic Power naturally gathered to form an ordinary Cave Mansion, which was also equipped with a simple Formation that blocked prying eyes.

"Let's wait for the Blood Spirit Star to enter its Eruption Period," Luo Feng created a Divine Power Incarnation, sitting cross-legged within a pavilion, sensing the activities of the distant Blood Spirit Star at all times. Luo Feng's True Body had already entered Star Tower for cultivation.

An era's time, probably just needing to compete two or three times.

The rest of the lengthy era, naturally, was to be used for cultivation.

...

"I can feel, there are already many strong presences around the Blood Spirit Star," Lord of Yuan Xiu Mansion merged within the natural world, silently observing the world around the Blood Spirit Star, he also couldn't help but smile, "This time aiding Marquis Chu Feng to compete for Blood Spirit Golden Pearls, I can also take the chance to spar with one strong player after another."

In this contest, as viewed by the Lord of Yuan Xiu Mansion, doing one's best is sufficient.

As for the final ranking of Marquis Chu Feng? He wasn't concerned about it.

Lord of Yuan Xiu Mansion was more concerned about his own cultivation.

...

A gray shadow, hidden in the deepest part of the Void, revealed no aura as it silently observed the area around Blood Spirit Star.

"Based on my observations, there are at least nine auras nearby," the gray shadow noted, "It seems that this competition for the Blood Spirit Golden Pearl will not be easy."

"General Yan Su, I believe in your ability to vie for the Blood Spirit Golden Pearl," an invisible fluctuation transmitted.

"This competition is intense; I dare not claim to gather the most Blood Spirit Golden Pearls, but I can assure at least ten," the gray shadow declared, "You two-realms palace, do not forget what you promised me."

The invisible fluctuation responded, "Rest assured, fairness is paramount in the conduct of our two-realms palace."

"Good," the gray shadow replied.

"During this competition for the Blood Spirit Golden Pearl, Luo He will probably make a move as well. At the critical moment, you can strike against him to sabotage his Blood Spirit Golden Pearl task," said the invisible fluctuation.

"He is, after all, a direct disciple of the Emperor..." the gray shadow remarked.

"The Emperor won't use his power to bully you, a Transcendence of Primal Chaos Realm," the invisible fluctuation stated, "In a fair fight, who would bother you?"

"Increase the reward you promised me by thirty percent," the gray shadow demanded.

"As long as you fully sabotage his mission, I will increase it by thirty percent," the invisible fluctuation asserted, his power such that those transcending the Primal Chaos Realm generally acted very polite and dared not treat him lightly.

Yet Luo Feng had directly attacked his incarnation, which indeed angered him.

But he dared not truly invade Chu Capital!

"A mere Transcendence of Primal Chaos Realm!" As a member within the two-realms palace, an ancient being from the Land of Origin, accustomed to superiority! Luo Feng's offense indeed enraged him.

...

Clouds in the sky, suddenly becoming sentient, overlooking Blood Spirit Star from afar.

"Brother Chu Ying asked me to make a move, I'll only take half this time's Blood Spirit Golden Pearls!" the clouds surveyed all around, "The other half, let the others fight over them."

"Having secured half, Brother Chu Ying will assuredly rank first in this sub-task of the Heavenly Task," the clouds continued to observe.

Onlookers lurking in the shadows, however, did not notice that these

clouds had become sentient.

...

Boom!!!

As experts from various factions secretly hid nearby, patiently waiting for the Eruption Period of the Blood Spirit Star, a terrifying commotion suddenly erupted, attracting the attention of all the concealed experts.

"What is that?" Luo Feng's Divine Power Incarnation also looked over.

A gigantic hoof tore through the Void, striding across it, bringing its entire colossal body into this space.

"Such a large body," Luo Feng marveled internally.

Its lower body possessed four enormous hooves, while its upper body featured bulky, powerful arms, carrying circles of black chains and several short spears.

Standing there, its stature was perhaps nine hundred billion kilometers tall.

Its breathing alone created storms.

Its eyes, like stars.

"Hahaha..." standing on the earth, it scanned all around, its eyes piercing through various layers of concealment to observe each expert, "Members of Flame Wind Ancient Country, your Emperor Chu's Lineage treats 'gathering Blood Spirit Golden Pearls' as a sub-task of a Heavenly Task? Did anyone bother to ask if I from Flame Wind Ancient Country agree?"

It grinned, its gaping mouth laughing even more wildly, "Most of the Blood Spirit Golden Pearls this time are mine! However, I am willing to sell you Blood Spirit Golden Pearls, to the highest bidder, haha..."

His laughter caused ripples across the heavens and the earth, many mountains cracked from the vibrations, and many trees were directly

shattered.

Seeing this, the experts hidden in darkness felt somewhat troubled.

"It's the 'City Lord of Desert Wind' from Thunder Ancient Country."

"This is a task for Flame Wind Ancient Country, yet the City Lord of Desert Wind dares to meddle?"

Even Lord Yuan Xiu and others felt the pressure. Luo Feng, spying that towering figure, felt a headache coming on.

"City Lord of Desert Wind!"

Luo Feng frowned.

In Flame Wind Ancient Country, those at the Primal Chaos Layer level generally are forbidden to cultivate the 'Primordial Bloodline' system. Even becoming a Godly King has numerous thresholds, requiring strict verification before qualifying to learn the Primordial Bloodline system.

Because the 'Primordial Bloodline' contains immense power and some chaotic will, venturing into its study at the Primal Chaos Layer usually results only in losing control.

The Imperial Clan of Thunder Ancient Country, however, allows cultivation of Primordial Bloodline at the Primal Chaos Layer level. Although many there go mad, and some at the Godly King tier even lose control, it must be admitted... those who maintain clarity possess terrifying strength.

"According to the intelligence I've gathered, the top-tier beings of the Land of Origin can have their cultivation systems classified into two main types."

"One type involves using the Primordial Bloodline, Primordial Materials, and Primoral Force for cultivation, generally possessing greater strength! The inheritance and resources for this type are very expensive."

"Another type involves normal cultivation of the great Dao, like my

'Eight Tribulations Life Form' First Calamity, 'Extermination of Seventy-Two Blades' Volume One, which are purely Daoic cultivation."

Pure Daoic cultivation requires fewer resources and won't result in losing control, but generally, the power is somewhat inferior.

Only by understanding one's own Dao does the strength advance a little further.

"Using the Primordial Force and Primordial Materials for cultivation is relatively safe."

"Using the Primordial Bloodline for cultivation is the most dangerous," Luo Feng observed the imposing City Lord of Desert Wind.

Yet, once successful, every Transcendent of Primal Chaos Realm who uses the Primordial Bloodline is incredibly formidable.

For instance, Marquis Chu Yuan, even when not fully trained, Luo Feng could not kill him even if he turned him to liquid. But once fully trained, the transformation in strength is immense!

Chapter 146: Episode 3, Chapter 29: The Eruption of the Blood Spirit Golden Pearl

The Blood Spirit Star hung high, its crimson flames illuminating in all directions, as the Desert Wind City Lord lay on all fours, sitting there peacefully at rest. Concealed in the darkness, powerful beings, one after another, waited patiently.

Days passed by.

Luo Feng too had patience, fully engrossed in his cultivation, until one day.

"Boom~~~" The massive Blood Spirit Star boiled like tumultuous flames rolling over.

"It's about to enter the Eruption Period," Luo Feng's Divine Power Incarnation had been meditating cross-legged, sensing from afar that the Blood Spirit Star was beginning to enter the Eruption Period, so Luo Feng's True Body immediately emerged from the Star Tower.

"After entering the Eruption Period, liquid flames will first spurt out, and as the momentum grows, the Blood Spirit Golden Pearls will be ejected," Luo Feng had long since learned the detailed information.

Whoosh.

Packing up his cave mansion, Luo Feng had already swiftly approached the Blood Spirit Star.

At this moment—

The many strong beings hidden in the shadows converged on the

Blood Spirit Star from all directions.

"Finally entering the Eruption Period?"

Beneath the Blood Spirit Star, the Desert Wind City Lord who had been sitting there also stood up, his eyes filled with excitement.

Suddenly, with him at the center, winds howled in the vast surrounding area, sweeping across the Blood Spirit Star in all directions and even scouring the earth to a depth of a hundred billion kilometers.

Above and below, in every direction, there was only wind.

The Desert Wind City Lord, drawing on the Primordial Bloodline, had taken control of this wild wind.

"That's the Desert Wind Domain. Any regular Peak Primal Chaos Realm being would turn to dust and smoke under this wind."

"Under the Desert Wind Domain, it will be difficult for me to compete for a Blood Spirit Golden Pearl."

Some of the hidden strong ones felt a tremor of fear.

"Bang! Boom!"

The Blood Spirit Star grew increasingly unstable, with liquid flames splashing and bursting in all directions, when suddenly, within one stream of liquid flame, a crimson gold pearl was mixed in.

The hidden powerhouses present, the weakest of whom were at the Pinnacle of the Primal Chaos Realm, instantly locked onto this very first crimson gold pearl to erupt.

"Mine."

The Desert Wind City Lord glanced over, and the endless winds had already wrapped around that crimson gold pearl.

"Take."

Lord of Yuan Xiu Mansion stood at a distance, his Dark Mansion Prison enveloped the crimson gold pearl with terrifying power, intending to draw it into the Dark Mansion within his body.

However, the Lord of Yuan Xiu Mansion realized... the winds encompassing the vast heavens and earth seemed to form a massive whole! The wind also enveloped that crimson gold pearl. To take away the crimson gold pearl, one would need to battle the entire Desert Wind Domain.

"Hum." The Dark Mansion Prison struggled against the Desert Wind Domain and was clearly outmatched.

"This Desert Wind Domain from the Primordial Bloodline is way too strong," Lord of Yuan Xiu Mansion's face slightly changed, knowing well that each transcendent being of the Primal Chaos Realm who cultivated the Primordial Bloodline was incredibly formidable.

But faced in direct confrontation, Lord of Yuan Xiu Mansion also felt a hint of helplessness.

It was as if he was using a prison to detain a colossal beast, which he simply couldn't confine.

Chapter Find:

"Whoosh."

Suddenly, a streak of sharpness swept over the crimson gold pearl, and thereafter, the crimson gold pearl vanished without a trace.

"Hmm?"

The Desert Wind City Lord's expression changed; his Desert Wind Domain had enveloped the crimson gold pearl, wanting to take it away. But that edge seemed to cut out a small segment of the world, taking with it the small space where the crimson gold pearl was, whisking away the whole thing.

His Desert Wind Domain couldn't stop it.

"The Blood Spirit Golden Pearls of today, I'll take half, the rest of you

can fight over," a cold voice echoed in all directions.

The grey shadow about to act from the darkness also changed expression, "Bi Yun the Great Saint?"

"Bi Yun the Great Saint?" Within the Desert Wind Domain, Luo Feng could not tunnel either; he needed to fly closer. His speed in acting was not comparable to that of Lord of Yuan Xiu Mansion or Bi Yun the Great Saint.

"To enlist Bi Yun the Great Saint out of the seven first-ranked marquises of Emperor Chu's Lineage?" Luo Feng felt the pressure.

When it came to strength,

Both Bi Yun the Great Saint and Desert Wind City Lord were among those at the forefront of Transcendence of Primal Chaos Realm. Yet Bi Yun the Great Saint, who followed the Origin Dao of the World, could even cut out parts of the world with a single sword strike.

In terms of snatching the Blood Spirit Golden Pearls? The methods of Bi Yun the Great Saint were even stronger than the Desert Wind Domain of the Desert Wind City Lord.

"Hahaha... I didn't expect Bi Yun the Great Saint to come," the Desert Wind City Lord laughed loudly, "A single eruption of a Blood Spirit Golden Pearl and you managed to whisk it away? If multiple Blood Spirit Golden Pearls erupt simultaneously, how many can you snatch?"

"We can try," the voice of Bi Yun the Great Saint resounded through heaven and earth, yet she remained hidden within the milieu, unseen.

"This is bad."

The distant Lord of Yuan Xiu Mansion, viewing the scene, frowned, "I thought my methods were quite adept at contesting for Blood Spirit Golden Pearls. Yet Desert Wind City Lord and Bi Yun the Great Saint are even more skilled at snatching them."

Practitioners of different paths have various techniques.

Some excel in saving their own lives, others in fleeing.

Marquis Chu Ying enlisted Bi Yun the Great Saint because amongst his acquaintances who transcended the Primal Chaos Realm, she was the most suited to vie for the Blood Spirit Golden Pearls.

"Rumble~~~"

The Blood Spirit Star became even more furious, continuously erupting with liquid-like flames.

Bang!

Suddenly, the splashing liquid flames carried three Blood Spirit Golden Pearls; upon their appearance, every transcendent being in the Primal Chaos Realm, including Luo Feng, struck out instantly.

"Hum~~~~" Lord of Yuan Xiu Mansion used his full strength with his Dark Mansion Prison to capture a Blood Spirit Golden Pearl, but this time, not only was the Desert Wind Domain closing in, but an invisible world also contended.

"Whiz."

An edge cut out a small chunk of the world as if slicing a piece off a sheet of paper, taking that segment of the world with a Blood Spirit Golden Pearl along with it.

"Whoosh." A grey shadow teleported through the Desert Wind Domain, appearing right next to a Blood Spirit Golden Pearl, and as he grasped the pearl, he too vanished into thin air.

Hum.

```

Only the third Blood Spirit Golden Pearl was swept up by the Desert Wind Domain and fell into the mouth of Desert Wind City Lord.

"Boom—" Luo Feng was still charging towards a Blood Spirit Golden Pearl, only to find that it had already vanished.
```

"I'm too slow."

Luo Feng realized the problem now.

As of now, the vicinity of Blood Spirit Star engulfed by the Desert Wind Domain, with Bi Yun the Great Saint commanding heaven and earth while many forces were clashing and suppressing... Luo Feng relied solely on the Tunneling Transformation Technique, finding it impossible to traverse the Void.

"That grey shadow, is it Great Saint Yan Su?" Luo Feng also recognized the expert who snatched a Blood Spirit Golden Pearl.

Great Saint Yan Su, a transcendent of the Primal Chaos Realm, cultivated the Origin Dao of Space. His mastery was so profound that, even with strong suppressions around, he could still teleport with ease.

Moreover, he also practiced the Clone Technique.

With just the Clone Technique, Yan Su the Great Saint was already a formidable adversary.

"Either have a Domain, control heaven and earth, or be adept at space? Relying solely on my Physical Body, how can I compete with them?" There was a murderous look in Luo Feng's eyes, "No choice, I have to seize by force!"

Boom!

Luo Feng was seen sprinting over, his body rapidly enlarging during his sprint—trillions of kilometers, tens of quadrillions of kilometers, reaching the edge of the starry sky at an inconceivable rate.

An endlessly towering body, as tall as heaven and earth itself, emerged, reducing Blood Spirit Star to mere insignificance before him.

"It's all mine."

Luo Feng stood there, as black liquid flew out of his robe, quickly engulfing the entire Blood Spirit Star.

The black liquid completely enveloped the gargantuan Blood Spirit Star, layer upon layer.

"This is the only way."

The endlessly towering Luo Feng, with the Blood Spirit Star at the position of his chest, was entirely wrapped up by the black liquid.

"Luo He?" Desert Wind City Lord looked up at this towering figure and scoffed, "Being larger doesn't mean you can fight. Get lost."

Whizz Whizz Whizz~~~~

The Desert Wind howled, blowing against Luo Feng's body.

The terrifying wind that could reduce ordinary beings of the Primal Chaos Realm to ashes seemed too gentle for Luo Feng.

Luo Feng looked down at that tiny speck that was Desert Wind City Lord.

"All your techniques are very clever," Luo Feng spoke, "My Physical Body cultivation is somewhat crude, so I have to resort to such methods."

"Physical Body? I want to see whose body is stronger between you and me!" Desert Wind City Lord instantly enlarged his body to a tremendous height of tens of quadrillions of kilometers. Any larger, and his power might diminish.

Boom!

The tens of quadrillion kilometers tall Desert Wind City Lord, though immense, merged into the Desert Wind itself, his hooves trampling the void, moving at a frightening speed as he charged straight at Luo Feng.

Although he was much smaller than Luo Feng in stature, Desert Wind City Lord, who cultivated the Primordial Bloodline, was truly terrifying in Physical Body strength, capable of fighting against Godly Kings without faltering.

Lord of Yuan Xiu Mansion, Bi Yun the Great Saint, and Yan Su—they were all covertly watching.

```

They were not adept at head-on confrontations.

"Boom~~~~"

Luo Feng didn't even attempt to dodge; he stood his ground, allowing the City Lord of Desert Wind City to slam into his chest. Harnessing the power of the five Transformation Methods within him, Luo Feng was most confident in his physical body! He was curious to see how strong this physical resilience of a Primal Chaos Realm transcendent with Primordial Bloodline could be!

The impact was as if heaven and earth were shattering.

"Rumble~~~~" The force obliterated many spatial layers.

"Hm?"

Luo Feng felt a horrific shock force blast through his body, billions of units of the Transformation Method working simultaneously to dissipate the force, causing him to stagger back two steps before he steadied himself. Each step he took created vast pits spanning trillions of kilometers on the ground.

The City Lord of Desert Wind City too was repelled by the impact, feeling a terrifying rebound force coursing through his entire body.

The aftermath of the collision swept through the surroundings, annihilating high mountains and trees, flattening the land.

"I think we'd better not get involved," one remarked.

"If we're not careful, we could get caught in the crossfire from their battle to transcend the Primal Chaos Realm," another said.

"We won't be able to snatch the Blood Spirit Golden Pearl," admitted a third.
```

Several peak Primal Chaos Realm beings hiding in the distance trembled at the sight; the terrifying power of this direct confrontation could obliterate them even if just grazed.

"After all, the City Lord of Desert Wind City cultivated with the Primordial Bloodline; his physical body is naturally extremely powerful, fearless even against a Godly King. But how can this Luo He... how can his body also be so powerful?"

"In their head-on clash, Luo He stepped back twice, while the City Lord of Desert Wind City took a full five steps."

"Four legs took five steps back; the difference shouldn't be large."

Though the peak Primal Chaos Realm beings dared not interfere, they still observed the battle closely—such a level of combat was indeed rare.

Luo Feng and the City Lord of Desert Wind City looked at each other, equally surprised.

"I am of Primordial Bloodline; shouldn't I have the advantage in a physical clash?" the City Lord of Desert Wind City could not believe it.

Among those who had transcended the Primal Chaos Realm, indeed some specialized in cultivating their physical bodies.

Some utilized the Primordial Force, others the Primordial Items to cultivate their physical bodies. But, without a doubt, those who cultivated with the 'Primordial Bloodline' were even more powerful in their transcendence of the Primal Chaos Realm.

"With the Galaxy Transformation Method, I am considered to have transcended the Primal Chaos Realm, and my physical strength should be even greater. Over the past two decades in Chu Capital, the 'Life Spirituality' aspect of the Transformation Method has also improved a lot, nearly doubling my physical strength, yet I am only comparable to him?" Luo Feng was also astonished.

Originally, his Transformation Method, with the Yin Yang particle form, broke through to the transcendent strength level of the Primal

Chaos Realm.

In battle, he would typically rely on the long-range attacks of the Galaxy Transformation Method.

During close combat, because of the need to mobilize billions of units of the Transformation Method within his entire body, he couldn't execute very intricate maneuvers, but it still amounted to immeasurable power, which was Luo Feng's strongest tactic.

Over the past two decades, though the Transformation Method remained in the Yin Yang particle form, after reaching the Life Spirituality pinnacle of the Primal Chaos Realm, the Life Spirituality of the Yin Yang particles significantly increased, nearly doubling his physical strength.

Luo Feng believed that with his terrifying body made up of billions of units of the Transformation Method, he had nothing to fear from an ordinary Godly King.

"A transcendent of the Primal Chaos Realm with Primordial Bloodline is indeed mighty; his physical body truly is no weaker than mine," thought Luo Feng.

Chapter 147: Episode 3 Chapter 30 The End of the First Wave of Contest

"Close combat is not just about strength!" Desert Wind City Lord suddenly pulled out two short spears from behind, and his towering body, rising trillions of kilometers high, merged into the desert wind, instantly rushing towards Luo Feng.

Whoosh whoosh whoosh!!!

As the wind howled, the figure of Desert Wind City Lord instantly appeared all around Luo Feng, with the phantom of the short spears stabbing at him repeatedly.

Luo Feng stood still, coldly watching the scene unfold.

"Thump thump thump." As the short spears hit Luo Feng's body, a black liquid immediately tried to entangle the spears but could not restrain them, given the immense strength of Desert Wind City Lord.

"Not a drop of blood shed?" Desert Wind City Lord was quite astonished. "What kind of Body Refining Method does he possess?"

A Bloodshadow Knife suddenly appeared in Luo Feng's hands. The Bloodshadow Knife, now far more formidable, possessed the potential to grow into an 'Ultimate Realm Weapon of Godly King'. Heavy and incomparably sharp, Luo Feng abruptly slashed out with it, and Desert Wind City Lord met the blow with his pair of short spears, withstanding the attack.

Boom!

The massive collision of their weapons caused shockwaves that swept

across billions of kilometers in all directions.

Their enormous size meant that every movement they made was cataclysmic, easily reducing large city fortresses to dust. Such power even caused the nearby watchers from the Pinnacle of Primal Chaos Realm to tremble.

"Transcendence of Primal Chaos Realm and the Pinnacle of Primal Chaos Realm... the gap is too big," thought those from the Pinnacle of Primal Chaos Realm.

They could obliterate a large city if they exerted all their strength.

But their power paled in comparison to these two titans before them!

Luo Feng and Desert Wind City Lord both stopped, each knowing that they could not overcome the other.

"Luo He, your strength is not inferior to mine," boomed the voice of Desert Wind City Lord like thunder, "but you should understand that in this competition for the Blood Spirit Golden Pearl, our biggest rival is Great Saint Bi Yun."

Luo Feng understood this as well.

Great Saint Bi Yun and Desert Wind City Lord were both prominent figures in the Transcendence of Primal Chaos Realm. Yet when it came to competing for the Blood Spirit Golden Pearl, Great Saint Bi Yun was indeed more adept.

Luo Feng had not even sensed Great Saint Bi Yun's presence until now.

"Luo He, do you think this will lock down Blood Spirit Star?" Suddenly, a cold voice rang out.

Whoosh.

A gray figure, ignoring Luo Feng's encasing black liquid, appeared out of nowhere within Blood Spirit Star.

Blood Spirit Star flared up with flames as the gray figure stood amidst

them, leisurely surveying the surroundings.

"Luo He, your strength is not enough to lock down Blood Spirit Star," said the cold voice of Great Saint Bi Yun as Luo Feng's black liquid shrouding Blood Spirit Star shattered in an instant.

Luo Feng felt the space where the black liquid was completely tear apart, naturally causing the black liquid to fracture.

"Just the Black Abyss Transformation Method indeed can't stop her," Luo Feng mused after a preliminary clash with Great Saint Bi Yun, realizing her terror.

The horrifying sharpness of her attack made Luo Feng marvel.

Great Saint Bi Yun's body was ordinary, far weaker than Luo Feng or Desert Wind City Lord. However, her destructive power, seemingly able to cleave through heaven and earth, surpassed even theirs.

"Great Saint Bi Yun is indeed formidable," laughed the gray figure standing on the surface of Blood Spirit Star.

Luo Feng, Great Saint Bi Yun, and Desert Wind City Lord also paid great attention to this gray figure, 'Great Saint Yan Su.'

In terms of head-on combat power, Great Saint Yan Su indeed fell short of the three of them. However, being adept at the Origin Dao of Space, he naturally excelled during the scramble for the Blood Spirit Golden Pearl and had also mastered the Clone Technique.

Lord of Yuan Xiu Mansion, observing from afar, watched this scene. "For a Heavenly Task of Emperor Chu's Lineage summoning seven first-rank lords, such powerful figures have been drawn. I'll just stay far away and grab whatever I can."

Among those present from the Transcendence of Primal Chaos Realm, Lord of Yuan Xiu Mansion was best at trapping and imprisoning enemies.

Luo Feng and Desert Wind City Lord had bodies too formidable to be dragged into it.

On the other hand, the physically weaker Great Saint Bi Yun and Great Saint Yan Su... once targeted, they could easily be captured into the Dark Mansion. Of course, Great Saint Bi Yun always concealed herself well, making her hard to track. Even if imprisoned, with her terrifying destructive power, she could break out of the Dark Mansion Prison.

As for Great Saint Yan Su, with his Clone Technique, imprisoning one of his avatars allowed him to quickly destroy it and cultivate another.

Clashing with him would be troublesome.

"I'll do my best," thought the Lord of Yuan Xiu Mansion, not willing to risk it all.

Chapter Enjoy:

...

Luo Feng looked at the Blood Spirit Star before him and also felt a headache coming on.

Two beings of his level were present: Desert Wind City Lord and Great Saint Bi Yun. The slightly weaker Great Saint Yan Su, adept at space, along with a far-removed Lord of Yuan Xiu Mansion.

"Buzz."

Blood Spirit Star naturally formed within the universe, with a solid core, a liquid middle layer, and outer layers of blood-colored flames. Furthermore, the ancient Godly Kings of Flame Wind Ancient Country had long ago arranged formations within the core of Blood Spirit Star to better absorb the forces of heaven and earth, allowing it to produce more Blood Spirit Golden Pearls.

In fact, all locations in Land of Origin where treasures are nurtured are owned by someone.

They would arrange formations, protect the treasure locations, and even nurture them.

It's only in these treasure locations along the border of the two

Ancient Countries that the strong between them are allowed by mutual consent to contest for dominion—whoever is stronger takes possession. But there is one rule—they are forbidden from destroying these locations.

These locations can continuously bring forth treasures!

The struggle for these treasures is up to individual prowess.

However, intentionally destroying a treasure location is a taboo! Both Ancient Countries severely punish such actions!

Even a standard treasure location might produce treasures worth thousands of Merit Points every century, but what about over millennia? That amounts to accumulatively millions of Merit Points worth of treasures! One can only imagine the value of a treasure location.

Of course, these locations are all protected by formations set by Godly Kings, and they are not easy to destroy.

"Let's grab as much as possible," Luo Feng thought immediately, as a vast silvery river began to spread out.

Galaxy Transformation Method!

Endless silver rivers floated around, gathering and dispersing unpredictably, sweeping around the Blood Spirit Star.

As long as the 'Blood Spirit Golden Pearl' actively erupted into the silver river and became bound by it, no other power could steal it again.

"Hmm?" Having observed this, the City Lord of Desert Wind's expression changed slightly, as he exerted his Desert Wind Domain to suppress it.

Boom!

Tens of billions of units of the Galaxy Transformation Method surged powerfully, clashing fiercely with the Desert Wind Domain and proving to be a notch stronger.

This was Luo Feng's last resort, using such a wide-reaching domain technique like the Galaxy Transformation Method to compete for the Blood Spirit Golden Pearl. The Galaxy Transformation Method, unpredictable and fast as lightning, was best suited for long-range execution.

"This Luo He, he has this trick up his sleeve?" The City Lord of Desert Wind realized the trouble.

His Desert Wind Domain, though permeating everywhere, indeed suited for snatching treasures.

In terms of flexibility, changes, and penetration, the Galaxy Transformation Method was slightly inferior to the Desert Wind Domain. However, the Galaxy held more power, completely dominating the area it covered over the Desert Wind Domain!

"Great Saint Luo He's domain technique is indeed quite extraordinary," remarked a grey shadow standing on the surface of Blood Spirit Star with a smile.

No sooner had he spoken.

The vast Galaxy seemed to freeze, slowing down significantly in its movements.

"Hmm?" Luo Feng's face changed slightly; he felt the space solidifying, heavily binding his Galaxy Transformation Method! Although he could still move forcibly through the sheer force, the speed was only ten to twenty percent of the original.

"Do not take offense," laughed Great Saint Yan Su, "Your domain technique was too powerful; I had to suppress it a bit."

"Fine, fine," Luo Feng looked at him.

Just then, boom~~~

During the eruption period of Blood Spirit Star, amongst the liquid flames it spewed out, ten Blood Spirit Golden Pearls burst forth in an instant.

"Swoosh, swoosh, swoosh."

With sharpness that could slice heaven and earth, two small realms were instantly cut off, carrying three Blood Spirit Golden Pearls between them, and were swept away into the void.

Luo Feng's Galaxy Domain spread far and wide, close to these Blood Spirit Golden Pearls, immediately joining the competition.

"Buzz." Space seemed to freeze, the degree of imprisonment immediately soaring, making Luo Feng's Galaxy Transformation Method move even slower.

"Damn it." Luo Feng growled in annoyance.

Huff, huff, huff.

The City Lord of Desert Wind, Great Saint Yan Su, and Luo Feng all made quick moves.

The Desert Wind City Lord's wind howled, sweeping away two Blood Spirit Golden Pearls. Great Saint Yan Su teleported to snatch two Blood Spirit Golden Pearls. Even though Luo Feng's Galaxy Transformation Method held the terrain advantage, completely enveloping Blood Spirit Star, he could only manage to wrap around two Blood Spirit Golden Pearls due to the slow movement.

Even the Lord of Yuan Xiu Mansion, who stayed far away, took the opportunity to collect one Blood Spirit Golden Pearl using the Dark Mansion Prison.

"Yan Su," Luo Feng looked at Great Saint Yan Su; had it not been for Yan Su's spatial imprisonment, with the advantage of the Galaxy Transformation Method, he might have doubled his share of the Blood Spirit Golden Pearls.

Great Saint Yan Su just smiled.

"Great Saint Yan Su," Luo Feng immediately transmitted a message, "Five beings at the Transcendence of Primal Chaos Realm competing, and you target just me? Just stop obstructing me. Once this eruption ends, I'll give you three Blood Spirit Golden Pearls."

"Haha... Competing for Blood Spirit Golden Pearls is all about skill," General Yan Su said, smiling amiably at Luo Feng.

Luo Feng could sense that the other party was somewhat targeting him.

Spatial imprisonment could bind the Galaxy Transformation Method, and could similarly bind the Desert Wind Domain! Yet General Yan Su was going all out just against him.

"Very well, it's all about skill," Luo Feng gave him a cold glance, saying no more.

...

Time passed.

This wave of Blood Spirit Golden Pearls eruption lasted about three days.

Great Saint Bi Yun, who hadn't appeared from the beginning to the end, nonetheless cut away the most—exactly twenty-five Blood Spirit Golden Pearls.

Desert Wind City Lord, by dint of his Desert Wind Domain permeating everywhere, also snatched twelve Blood Spirit Golden Pearls.

Although Luo Feng's Galaxy Transformation Method covered all directions, under Great Saint Yan Su's spatial imprisonment, he managed only nine Blood Spirit Golden Pearls.

Great Saint Yan Su himself took away eight Blood Spirit Golden Pearls.

The always distant Lord of Yuan Xiu Mansion, taking advantage of the conflict, also managed to pick up three Blood Spirit Golden Pearls.

"Great Saint Yan Su targeting Great Saint Luo He time and again, is there a grudge?"

"Great Saint Yan Su's spatial imprisonment can easily bind both Great Saint Luo He and the City Lord of Desert Wind simultaneously. In that case, the restraint on Great Saint Luo He would be much weaker, potentially getting two or three more Blood Spirit Golden Pearls. The City Lord of Desert Wind would also get fewer."

"Yan Su has made an enemy of Luo He this time."

"What does it matter? Great Saint Yan Su, with his Clone Technique, is much tougher to deal with than average transcendents of the Primal Chaos Realm."

Let alone transcendents of the Primal Chaos Realm, even beings at the Godly King stage rarely possess clones.

These beings at the Pinnacle of Primal Chaos Realm, who had been watching from afar, observed the whole process, chatting casually while they started to leave.

After observing the first wave of competition, their desire to compete had already diminished.

"Hahaha..."

The City Lord of Desert Wind stood beneath Blood Spirit Star, looking around, his voice booming through the sky and earth, "I acquired a total of twelve Blood Spirit Golden Pearls; I'm willing to sell these to you starting at one hundred billion Cosmic Sand each! The highest bidder takes them!"

Luo Feng, Great Saint Bi Yun, the Lord of Yuan Xiu Mansion, Great Saint Yan Su, and some who were about to leave who were at the Pinnacle of the Primal Chaos Realm, all heard this news.

"Starting at one hundred billion Cosmic Sand each? Has he gone mad?"

Even Bi Yun, the wealthiest among those present, thought the price was outrageous.

Chapter 148: Episode 3 Chapter 31 Clone Technique

City Lord of Huang Feng watched the figures in the distance, waiting patiently.

"One Blood Spirit Golden Pearl for ten billion Cosmic Sand? No one will agree to that," the Marquis Mansion 's Lord Yuan Xiu said with a smile.

"Ten billion Cosmic Sand each, I'd be willing to buy a few," a voice came from afar, spoken by a Pinnacle of Primal Chaos Realm.

Seeing this, the City Lord of Huang Feng was quite disappointed.

This price can't sell it?

Luo Feng, seeing this, was somewhat speechless.

'Blood Spirit Golden Pearl task' was backed by the competition among the seven first-rank Marquis of Emperor Chu's Lineage, who also had various expenditures. Managing to take out several hundred billion Cosmic Sand was already quite impressive.

To exhaust all wealth and buy only three to five pearls? Keep in mind that Great Saint Bi Yun had obtained a total of 25 pearls in the first wave of the battle.

Even buying three to five pearls, the impact was too trivial.

"Transcendents of Primal Chaos Realm, they are summoned by first-rank Marquis," Luo Feng mused, "In the end, it still comes down to the first-rank Marquis making the bids., they can't afford it."

In terms of treasure accumulation, the Transcendents of Primal Chaos

Realm naturally far surpassed the first-rank Marquis.

But this was ultimately the Marquis' task, and Transcendents of the Primal Chaos Realm wouldn't spend their own wealth. Figures like Luo Feng, Great Saint Bi Yun, and Lord Yuan Xiu were helping due to their relationships! They didn't even ask for benefits for this task.

"Then, I will lower the price a bit, eighty billion Cosmic Sand each," City Lord of Huang Feng, seeing that he couldn't sell, finally lowered the price.

But no one present was willing to make a bid.

Still too high.

"Sixty billion Cosmic Sand each, my lowest price," City Lord of Huang Feng's voice deepened, then he smiled, "It seems there are some who know the goods, this time Blood Spirit Golden Pearls have all been traded. Want to buy? Wait for the next contention!"

After saying this, the City Lord of Huang Feng had already transformed into a desert wind, disappearing between heaven and earth.

This scene surprised Luo Feng, Lord Yuan Xiu, and others.

"Sold it? Who did he sell it to among the first-rank Marquis?"

"Could it be that he pretended to have sold it?"

"Blood Spirit Golden Pearl, must be delivered to Chu Capital within ten days to complete the task; if over ten days, they will turn into Blood Spirit Poison Pearls. Keeping them has no use, no need to pretend to have sold them."

The Transcendents and Pinnacles of Primal Chaos Realm present all had various speculations, and then they began to leave.

When Luo Feng left, he glanced at Great Saint Yan Su in the distance.

"Humph," Great Saint Yan Su watched Luo Feng with a smirk that was not quite a smile.

It's aimed at you, what of it?

In the Land of Origin, most ancient powerhouses are rule-abiding in their dealings. They do not make enemies lightly, given that they have many concerns too, unless it involves opportunities related to the great laws when they may act recklessly at all costs.

Yet, there are a few powerhouses with no clan or many disciples or subordinates who act without restraint.

Great Saint Yan Su is one such figure who acts without restraint. Of course, in terms of sins, there are many in the Land of Origin with greater sins than his! Great Saint Yan Su is just more willful, and cruelly ruthless in his deeds, but he does not engage in large-scale slaughters.

In terms of notorious reputation, he is far less than the Ancestral God of the Snow Realm and even less than the Master of the Shi Kingdom who exterminated multiple Divine Kingdoms.

...

Luo Feng hurried back to Chu Capital at the first opportunity, as the Blood Spirit Star, after its eruption, would need to wait a long time before entering the next wave of eruptions. One Era, totaling only two to three waves of eruptions.

"Phew." Luo Feng arrived at Marquis Mansion of Chu Yu.

"Brother Luo He," the Divine Power Incarnation of Marquis Chu Yu came to greet Luo Feng, "My true body is currently on a mission."

"This heavenly task has three subtasks, the Blood Spirit Golden Pearl task is just one of them. Your own task… is of even greater importance," Luo Feng said, as he took out the nine Blood Spirit Golden Pearls, "The first wave of the Blood Spirit Star's eruption just happened, and I managed to obtain nine Blood Spirit Golden Pearls."

"I heard Lord Yuan Xiu only got three," Marquis Chu Yu received the detailed information right away.

After all, several Transcendents of Primal Chaos had clashed, and

some Pinnacles of Primal Chaos had watched, information traveled fastest to Flame Wind Pavilion.

"That Great Saint Yan Su is somewhat strange," Luo Feng said, "I don't know him at all, but this time... he went all out exclusively against me. Brother Chu Yu, does he have a grudge against you?"

"No."

Marquis Chu Yu shook his head continuously, "I am just a newly-promoted first-rank Marquis, before this, I was merely an eternal true god. How could I possibly have made an enemy of a Transcendent of the Primal Chaos Realm, 'Great Saint Yan Su'?"

Luo Feng nodded slightly.

"It's good then that you and he have no enmity; it seems, it was because of me," Luo Feng said.

"Brother Luo He, just do your best in contending for the Blood Spirit Golden Pearls; don't force it," Marquis Chu Yu laughed, "After all, I am the youngest among the seven first-rank Marquis, and a freshly advanced one at that. It doesn't matter much if my ranking is low."

Luo Feng looked at him, "Regardless, you need to strive hard in your own two subtasks."

"Of course," Marquis Chu Yu nodded.

"I'm off," Luo Feng turned and left.

Since he had taken on the Blood Spirit Golden Pearl task, he would naturally take it seriously.

Phew.

Marquis Chu Yu watched Luo Feng leaving.

"The temperament of Brother Luo He..." Marquis Chu Yu had understood Luo Feng's temperament while in Huyang City, a personality that greatly values righteousness.

"My first guest elder's position, I will invite Brother Luo He. It was my luckiest decision," Marquis Chu Yu felt quite fortunate at this moment.

...

Luo Feng left the Marquis Mansion of Chu Yu and also bought a sufficiently detailed report on 'Great Saint Yan Su' through Flame Wind Association's Dark Hall.

Phew.

As he set out on his return journey, Luo Feng was also studying the intelligence on Great Saint Yan Su.

"We are strangers, yet he targets me so specifically," Luo Feng muttered as he carefully analyzed the information.

He didn't believe in hostility without reason. At the level of Transcendence of the Primal Chaos Realm, one would not make enemies lightly.

"Great Saint Yan Su's clone technique…"

Luo Feng looked at the record in the intelligence, feeling somewhat headache.

Chapter Enjoy:

The clone technique practiced by Great Saint Yan Su allowed him to possess two complete avatars and seven weaker ones! The complete avatars maintained peak condition in both godly body and soul.

"His technique gives him an advantage over my 'Eight Tribulations Life Form' clone technique," Luo Feng quietly reflected.

Although they are both called clone techniques, the differences were significant.

In the 'Level 8 Life Form' from the Lineage of Life Spirituality, if the clone technique was practiced, one's own power must have sufficient life spirituality to exist independently. By parting a portion of one's

Divine Power, an avatar could be formed.

Even hundreds or thousands of avatars were a simple matter.

But the power of all avatars, when combined, was only the complete whole!

Every avatar created weakened oneself.

"The clone technique of the Lineage of Life Spirituality, the power still remains one complete whole, not a bit more," Luo Feng thought. "However, Great Saint Yan Su's clone technique results in an extra complete avatar on top of the original True Body. It's as if his Divine Power has doubled! And he's cultivated an additional soul! Apart from the complete avatars, he also has seven weaker avatars."

Luo Feng silently marveled.

Of course, he was still very content, for most of the nine Origin Great Daos under the supreme rules, cannot practice clone techniques.

In terms of clone techniques, surpassing the 'Great Dao of Life Origin', according to Luo Feng's knowledge, only the 'Time Primordial Dao' and the 'Origin Dao of Space' were capable.

The Time Primordial Dao, it is said, could cultivate avatars that existed independently in the past, present, and future. Naturally mysterious and immensely powerful.

The Origin Dao of Space could break certain restrictions of the Braided Cage, possessing several complete avatars. Having two complete avatars like Great Saint Yan Su was merely considered a beginner level.

"Yan Su is currently tasked with garrisoning the border city 'Xiangjie City', and he must have one complete avatar there," Luo Feng thought, "The ones participating in the struggle for the Blood Spirit Golden Pearls must be another complete avatar and possibly several weaker avatars."

The more Luo Feng understood Yan Su, the more he realized he was helpless against him.

Yan Su had some servants and two disciples, and he did not care about the life and death of his disciples; his disciples had died more than once.

For Yan Su, only cultivation was the most important thing; nothing else mattered.

...

The City Lord of Desert Wind City came alone to a dark forest.

"I didn't expect that I couldn't sell even one Blood Spirit Golden Pearl," sighed the City Lord of Desert Wind.

"I told you, I am willing to buy all of them for thirty billion Cosmic Sand each, which is already a high price," said a figure formed from the invisible forces of heaven and earth, smiling at the City Lord of Desert Wind.

The City Lord of Desert Wind nodded and with a wave of his hand, he took out the twelve Blood Spirit Golden Pearls he had acquired.

"Here you go," the City Lord of Desert Wind handed them all to the other party.

"Old rules, within the time limit of the Blood Spirit Golden Pearl mission, no matter how many Blood Spirit Golden Pearls you get, I will buy them all at the price of thirty billion Cosmic Sand each," said the ethereal figure with a smile.

The City Lord of Desert Wind's participation in the struggle was at his request.

The City Lord of Desert Wind's external sale of the Blood Spirit Golden Pearls was allowed, but they had to be sold at double the price! Thus, the City Lord of Desert Wind had to sell them for at least sixty billion Cosmic Sand each...

Just as this ancient existence had expected, he couldn't sell them at all.

"The Imperial Clan and nobles of the Flame Wind Ancient Country

are too stingy," the City Lord of Desert Wind lamented, having openly set his price but unable to sell even one.

"I have been very generous," said the ethereal figure with a laugh, and then vanished silently.

The City Lord of Desert Wind watched this scene.

"This old fellow, no idea who he is," the City Lord of Desert Wind muttered to himself and then traversed the Void to leave.

******

Luo Feng returned to the cave mansion not far from Blood Spirit Star, his Divine Power Incarnation still quietly cultivating in the pavilion to keep an eye on Blood Spirit Star, while Luo Feng's True Body was practicing in the space of the Star Tower.

"Three-in-one form, with my level of understanding, it's indeed very challenging."

Luo Feng watched the dispersal of the particles of the three-in-one form and the ten-directional world form in front of him, revealing the laws, feeling still puzzled.

Considering the accumulation, both the Lineage of Life Spirituality and the Body of Life Lineage were at the pinnacle of Primal Chaos Realm! To go higher? That would be to become a Godly King. He also had materials from the golden scale beetle and various perfect Primal Chaos Layer creatures for reference.

Despite such deep accumulation, he still had confusions.

"This competition for the Blood Spirit Golden Pearls also pointed out many of my weaknesses," Luo Feng admitted.

In terms of strength, the City Lord of Desert Wind was comparable to him.

In terms of various moves, Great Saint Bi Yun was clearly superior! He couldn't even be sure of Great Saint Bi Yun's true body, yet Bi Yun could strike easily.

"With such strength, in the second wave of the Blood Spirit Golden Pearl struggle, I still won't get much."

Luo Feng smiled slightly, taking out a stone box.

He opened the box, which still contained nine pale red fruits.

"At the level of Primal Chaos Realm, I had planned to consume five Primordial Crystal Spirit Fruits. Now at this crucial time," Luo Feng immediately took out one Primordial Crystal Spirit Fruit and closed the box.

Cultivation was at a bottleneck, and his friend's task was also at a crucial point, so it was essential to use good steel on the blade's edge.

Luo Feng felt that now was indeed the time to strike!

Luo Feng then began to eat the fruit.

The fruit was tough; he chewed and swallowed it bit by bit, feeling the pulp dissolve in his stomach, with energy starting to spread and affect his soul, making his soul more ethereal and his thoughts speed up rapidly.

Chapter 149: Episode 3, Chapter 32: Godly King Level Morosa

During normal cultivation, there are occasional moments when one's state of mind is excellent and a flash of spiritual light occurs.

However, after consuming the Primordial Crystal Spirit Fruit, with the fruit's energy nourishing the soul, Luo Feng could maintain a perfect state continuously, greatly enhancing his comprehension and even accelerating his thought processes by twenty to thirty times.

Luo Feng began to utilize material from the golden scale beetles and perfect Primal Chaos Layer Creatures, commencing his dissection and research.

"If I can fully grasp both the lineage of Life Spirituality and the Body of Life, then I can easily study and form the trinity state,"

"Merely relying on the accumulation of both lineages at the pinnacle of the Primal Chaos Realm is clearly not enough."

Luo Feng understood this and could only continue to delve into his studies slowly.

The process of delving was also a process of accumulation.

"Perhaps, I might become a Godly King first," Luo Feng mused.

He had a feeling that comprehending the trinity form was no less difficult than comprehending a complete branch of the Great Dao.

...

In the Primordial Cosmos, within that special space at the Source Ground,

Luo Feng's Divine Power Incarnation was also directly confronting the complete Great Dao of Life Origin.

"Life Spirituality, Body of Life." Luo Feng carefully observed; depending on the angle of observation, the complete Great Dao of Life Origin displayed different forms.

It appeared as a twisting, twenty-four-clawed dragon, or as an eternal river that pierces through time and space, or as an endless majestic godly body, or the origin of countless lives, or the very concept of life itself...

As Luo Feng watched, his Spiritual Will was continuously baptized by the entirety of the Great Dao of Life Origin, drawing him closer and closer to the Dao.

"Trinity?" Luo Feng murmured to himself, recalling the many detailed records on the trinity from the 'Life Body Chapter' of the 'Eight Tribulations Life Form,' which described the First Calamity.

It felt almost within reach, yet just slightly beyond his grasp.

Cultivation was like this: many beings at the pinnacle of the Primal Chaos Realm, even those who have transcended it, are stuck at a bottleneck, unable to master a complete branch of the Great Dao.

******

In another space within the Star Tower, this was also Morosa's exclusive cultivation space.

Since absorbing the corpse of the golden scale beetle, Morosa had been in silent cultivation, doing his utmost to digest it.

At this moment, Morosa had long resumed his true appearance, transformed into a tall, fair-skinned, beautiful being; his appearance naturally carried a seductive charm. He was the darling of the Path of Destruction, and at this moment, he did not conceal the Power of Sector Beast within him.

This was his truest state.

"Hum."

Morosa's aura suddenly trembled, a terrifying fluctuation spreading from within his 'realm' and extending in all directions. His body naturally embarked on a transformation, evolving from the Primal Chaos Realm to a higher life level.

"I've broken through," Morosa opened his eyes, filled with excitement, "To break through from the Primal Chaos Realm to Godly King, this is a fundamental metamorphosis."

"The 'realm' within me also now has the embryonic form of its final shape," Morosa was thrilled.

The most core aspect of a Sector Beast lies in the 'realm' within its body.

With each life level breakthrough, the realm undergoes a metamorphosis. Becoming a Godly King signifies the last of these transformations.

From the First Realm of Godly King to the Ultimate Realm of God King (Third Realm of Godly King), the realm within would only continue to be perfected, until it reached its ultimate state.

"It's been sixty eras since I came to the Land of Origin, and I've now stepped into the Godly King level, much faster than I anticipated. All thanks to the corpse of the golden scale beetle," Morosa knew this very well, "This single corpse of the golden scale beetle is worth the effect of thousands of Primal Chaos Realm corpses."

If he had to slowly absorb the forces of heaven and earth to become a Godly King, it would take far too long.

Suddenly—

A figure appeared beside him, it was Luo Feng. Whether it was the sense of soul enslavement or the perception of the interior of the Star Tower, Luo Feng detected Morosa's change instantly.

"You've broken through?" Luo Feng looked at Morosa, who had now taken on a honest-looking appearance, but whose aura was clearly far

more terrifying.

"Master, I've become a Godly King," Morosa said with a chuckle, "All thanks to the golden scale beetle corpse that you gave me."

Luo Feng nodded slightly; it was a gift from his master, Emperor Chu. He had kept just one percent of the materials for himself and had given the rest to Morosa.

"It seems the effect is indeed very good," Luo Feng was quite satisfied; his own cultivation and comprehension of the Great Dao were extremely difficult. Yet Morosa had a relatively smooth journey and had now even become a Godly King ahead of him.

Morosa was also pleased and said excitedly, "Master, after becoming a Godly King, the realm within my body now has the embryonic form of its final shape! I now possess many powerful abilities."

"Oh?" Luo Feng looked at him.

"Even without revealing my Sector Beast identity, I can use many techniques," Morosa was quite confident, "For example, with the realm inside me, I can now cast a Curse Killing Technique. As long as I've seen the enemy once, I can perform a curse kill!"

"Curse kill?" Luo Feng was inwardly shocked.

He himself was a cultivator of the Great Dao of Destruction Origin and was well aware of this Dao, which contains many destructive methods.

For instance, the 'Black Sky Lineage' of the Great Dao of Destruction Origin was particularly adept at assassination and curse killing techniques.

"Most at the First Realm of Godly King would probably be unable to withstand my Curse Killing Technique," Morosa confidently said, "Under my curse, all of their avatars and survival tricks would be killed, forcing them to reincarnate."

Luo Feng listened, deeply astonished.

Forcing the majority of those at the First Realm of Godly King to reincarnate?

"Aside from the secretive curse kills, I can also strike openly. My avatars can transform in thousands of ways and hide their presence just the same," Morosa was very confident, "I can stir up trouble in the Land of Origin, anonymously striking from the shadows, and my enemies would be unable to detect my identity."

"Master, do you need me to take action?" Morosa asked eagerly, having been suppressed for too long, "With my Curse Killing Technique, the enemy wouldn't even know who killed them."

Morosa glared.

Endure more?

"Your avatars can undergo a myriad of transformations? The traces of your Curse Killing Technique are hard to detect?" Luo Feng gently shook his head, "No matter what, you're still at the First Realm of Godly King. There are many beings on the Land of Origin stronger than you, especially the methods of the two Ancient Countries. How much do you know about them?"

"To trace causality! To follow the tracks of past spacetime... Do you think you can really hide?"

Luo Feng shook his head, "On the Land of Origin, there are only seventy-one who have transcended the Primal Chaos Realm! There may be a few more ancient existences, but that's all there are."

"These ancient existences are mysterious to us, but to the two Ancient Countries... the two Ancient Countries probably have long understood everything. Those who are skilled in curse killing, capable of reducing a Godly King of the First Realm to reincarnation, are probably very few on the Land of Origin."

Luo Feng looked at Morosa, "Don't harbor any delusions of luck."

"Once you take a risk, there's a chance of being discovered," Luo Feng said leisurely, "We've only been on the Land of Origin for sixty eras, what's the rush?"

"Oh."

Scolded by his master, Morosa could only obediently listen.

Luo Feng, due to soul enslavement, could feel Morosa's innate desire for destruction. It was the suppression at the soul level that made Morosa so docile.

"Forget the present, even if you become a Pinnacle Sector Beast in the future, you'll need my permission before you act," Luo Feng looked at him.

"Understood," Morosa obediently responded, "Master, rest assured, I got somewhat arrogant just now when my strength greatly increased. I've sobered up now."

"It's good that you've sobered up. Now show me the Great Dao of Destruction Origin that you've mastered," Luo Feng commanded.

"Yes," Morosa said.

Only then did Morosa begin to exhibit the Great Dao of Destruction Origin he had comprehended.

Boom~~~

In a daze, Luo Feng saw an endlessly vast, dark black hole. This dark black hole was surrounded by numerous solidified Secret Patterns that naturally expressed a plethora of information about the destruction of the origin.

"You, you..." Luo Feng was astounded. The countless Secret Patterns, incomprehensible to other cultivators, were laid bare for Luo Feng to read many messages from.

"You've mastered all six branches of the Great Dao of Destruction Origin?" Luo Feng couldn't believe it.

Although he had known that Morosa's natural growth involved the simultaneous development of all six branches of the Great Dao of Destruction Origin.

Normally, a cultivator becomes a Godly King by relying on one of the branches.

After all, there are differences in comprehension speed.

"Yes, I absorbed the corpse of the golden scale beetle, and as my realm naturally grew, I intuitively comprehended the complete six branches when the realm transformed," Morosa explained.

Luo Feng fell silent.

He had not mastered even one branch, finding it incredibly difficult to comprehend. But here was Morosa grasping the entire six branches of destruction at once.

"It's not difficult to master the six branches," Morosa said, "That's just the foundation! What follows is harder, as the six branches gradually fuse... and then I will need more food, or it will be slow."

Morosa looked at Luo Feng.

If the master didn't allow him to act, he would have to rely on the master to feed him.

"Mastering the six branches at once." Luo Feng was at a loss for words.

Even the creators of the "Eight Tribulations Life Form" and "Extermination of Seventy-Two Blades" believed that during the Primal Chaos Realm stage, it was best to focus on two or three branches.

Only after becoming a Godly King should one slowly expand.

"No more thoughts on that." Luo Feng was unwilling to view the growth of a Sector Beast from the perspective of a cultivator any longer, after all, it was an existence destined to reach the Ultimate Realm of God King.

Luo Feng closely observed the enormous dark black hole before him.

This vast black hole covered a large area of this layer of the Star Tower. The six branches of destruction served as the six keystones of this vast black hole universe! The six branches also complemented each other.

Even though they had not begun to fuse yet, just the coordination of the six keystones made the operation of this vast black hole universe incredibly perfect.

"It's too perfect," Luo Feng was shocked inside.

A normal Godly King, by relying on a complete branch of the Great Dao, could form the Cosmic Operation Laws and even create a universe with it.

And this was a 'realm' formed by the perfect collaboration of six branches, its perfection in cosmic operation made Luo Feng marvel.

"This must be the operation of the 'realm' inside Morosa..." Luo Feng observed, "Compared with it, both the Trinity form and the Ten Directions World form seem too primitive."

Trinity form, Luo Feng knew of two kinds, one where a large particle contained two internal yin and yang particles, the other where three particles of equal status merged with each other. Both were considered very primitive forms of small worlds.

The Ten Directions World form, on the other hand, was considered to be a relatively complete form of small world.

But before him was a 'realm' constructed of six branches, overwhelmingly impactful.

"Six branches as the foundation to form a realm..." In this shock, Luo Feng's understanding of 'realm' greatly improved, and he immediately gained a clearer understanding of the 'primitive small world form' of Trinity.

Emperor Chu was right, studying more advanced life world forms and then simple ones yielded great results.

Luo Feng, after consuming the Primordial Crystal Spirit Fruit and

comprehending the foundation of a Sector Beast's life – the 'realm,' now looked at the Trinity form and indeed found many of his confusions resolved.

Thanks to the two new Alliance Hierarchs who have offered their support: Zhou Xiaolun of Class Three Year Two, and Guo Xiaofeng.

Chapter 150: Episode 3 Chapter 33 Trinity Form

Morosa initially displayed the mysteries of destruction's origin with great patience, but as time passed, he became somewhat astonished.

"How long have I been displaying this? Thirty thousand days? Why hasn't my master allowed me to rest yet?"

"Fifty thousand days."

"One hundred thousand days, two hundred thousand days... one million days!!!"

Unable to hold back, Morosa finally spoke, "Master, may I stop now?"

Divine power surfaced around Luo Feng as he repeatedly tried to transform it; he looked up at the six branches of the destruction origin, now resembling a dark black hole: "Has it been that long, and you're impatient with your cultivation already?"

Morosa could only keep silent.

Luo Feng studied the six branches of destruction that constructed the realms, his understanding deepening. He faintly perceived the fusion of two branches into pairs, forming a stable triadic foundation.

"A triadic foundation, stabilizing the world."

Luo Feng then waved his hand and sliced open particles from the material of a golden scale beetle's corpse; inside each particle, nine smaller particles divided into three parts were rotating and chasing each other. Each of these parts consisted of three particles fusing together.

There were many commonalities between the triadic foundation of Morosa's realm and the fusion of these three particles.

Following his intuition, Luo Feng repeatedly transformed into the trinity forms he envisioned.

With the aid of the Primordial Crystal Spirit Fruit, Luo Feng was in excellent condition, seizing every spark of inspiration, attempting over and over. Though each attempt failed, it allowed Luo Feng to accumulate experience.

With each attempt, he edged closer to success.

Finally...

"Swoosh."

With a casual wave of his hand, Luo Feng's divine power transformed, forming three mutually intermingling particles.

These three particles, like a tripod standing firm yet subtly blending into one another, also had an intermingled core. Secret patterns infused deep within the particles, carrying essences of both life and destruction.

"It's done." Luo Feng knew instantly that he had succeeded the moment he made the transformation, guided by an indistinct feeling.

He was naturally filled with joy.

"Master, have you succeeded?" Morosa also sensed Luo Feng's intense joy.

"Let's verify it first," Luo Feng said. He waved his hand and created tens of millions of particles, then billions; soon, he reached the extreme state of 'one quadrillion and eighty billion particles.' Each trio of particles merged into one entity, amounting to 'thirty-six billion entities'.

One quadrillion and eighty billion particles converged into a black river that appeared before Luo Feng.

Merely a single black river contained a might that amazed Luo Feng.

"It's finally done." Luo Feng could feel that it was a force more powerful than many at the pinnacle of the Primal Chaos Realm.

Each black river was like a perfect primal chaos layer creature.

Perfect primal chaos layer creatures, even with average intelligence and weaker moves, could match the strength of those at the pinnacle of the Primal Chaos Realm in terms of bodily strength.

"Master, may I stop now?" Morosa ventured cautiously.

"I don't need your help anymore." Luo Feng was intently changing his divine power, easily creating hundreds of millions of fused particles, and as time went on, the number of particles he transformed each time continued to increase.

"Let me take a look," said Morosa curiously, watching from the side.

Black rivers after black rivers took shape.

Towards the end, in just a few breaths, Luo Feng formed a complete black river.

After transforming one hundred billion black rivers, Luo Feng finally stopped.

"This black river form places a heavy burden on the soul." Luo Feng felt that as he controlled more and more black river forms, the burden on his soul grew heavier.

Even though he had a perfect divine body and was at the second realm of Godly King Spiritual Will, and possessed the Lie Yuan Technique to safeguard his soul, controlling one hundred billion black river forms still seemed to expend over half of his Spiritual Will.

To wield such a powerful physical body, one needed a soul that was equally strong.

"With my soul, with my Spiritual Will... just controlling the physical

body, I already feel the pressure," Luo Feng realized how astoundingly powerful his body had become at this moment.

One black river, in terms of bodily strength, was even stronger than those who specialized in the physical body at the pinnacle of the Primal Chaos Realm.

How powerful must one hundred billion black rivers be?

It was normal for Luo Feng to feel the pressure.

"Master, you..." Morosa looked at his master with some astonishment.

At this moment, Luo Feng's one hundred billion black river forces had united, and his mere presence naturally affected the surrounding world. The rules in the vast vicinity naturally revolved around "Luo Feng" as the center, with even the supreme rules momentarily yielding.

Every Godly King who mastered a branch of the great dao could influence their immediate surroundings to some extent.

Yet Luo Feng hadn't mastered a branch of the great dao; his sheer terrifying physical presence alone altered the surrounding rules.

"What's wrong with me?" Luo Feng looked at Morosa.

Morosa, looking at Luo Feng, felt the pressure too.

As a Sector Beast who stepped into the Godly King level, Morosa had mastered all six branches of destruction, experienced a hundredfold metamorphosis of divine power, and his life form was rapidly growing. His power was soaring to an extraordinarily high standard within the first realm of Godly Kings.

The current Luo Feng gave him the impression that their strengths were closely matched.

"Transcendence of the Primal Chaos Realm can be this powerful?" Morosa realized at this moment that the natural talent of a Sector Beast didn't mean it was the strongest at the same level.

"You go out first; I need to focus on comprehending," Luo Feng thought, and he sent Morosa to his own space layer.

Luo Feng began his research.

"My Trinity State is a part of the Ten Directions World form, which is made of the material from the golden scale beetle's corpse and also draws on some of the essence from Morosa's 'Sector' form, combined with the guidance from the Life Body Chapter in the First Calamity of the Eight Tribulations Life Form, I finally cultivated it," thought Luo Feng to himself, "This form shall be called 'Black River Form'."

Just as he had cultivated it, Luo Feng could feel the many special characteristics of this form.

Every Black River had extremely strong Life Spirituality, and each could exist independently.

"This could be considered a kind of Clone Technique as well."

Having completely mastered the lineage of Life Spirituality, which can master the Clone Technique, the power in oneself contains extremely strong spirituality that can separate part of its power to exist independently.

Now, every Black River could exist independently.

"If I wish, could I have a hundred billion avatars?" Luo Feng laughed to himself. Of course, he would not do that; the more the power was divided, the weaker it would be.

With a hundred billion Black Rivers converging into one, it would be very difficult for enemies to harm oneself.

But if completely separated... Some powerful enemies could easily sweep through all the weaker avatars by manipulating causality.

"My Clone Technique involves separating a part of my own power. Yan Su's Clone Technique, on the other hand, is about cultivating another complete avatar," reflected Luo Feng inwardly. Different paths truly lead to different outcomes.

"This Black River Form can even form a world of its own."

Luo Feng looked around; even with all his power completely retracted, he could still affect the heavens and the earth all around, as if a Domain.

The Black River could even merge into the Domain, forming a world of its own.

"Buzz."

In the blink of an eye, a black world appeared within this layer of space inside the Star Tower, with Luo Feng standing at the center of this vast black world.

"This black world is different from the galaxy form's cage I used to create, which was formed by the intertwining layers of galaxy threads. This Black River World... I used the power of a billion Black Rivers to truly construct a world, a world that blocks inside and outside, and even isolates some effects of causality," thought Luo Feng.

...

Two of Luo Feng's avatars left the Star Tower, heading towards Chu Capital and Huyang City respectively.

"Whoosh."

Luo Feng, like a streak of black light, traveled through the world at an extremely fast speed towards Chu Capital.

"Only the Trinity State counts as a Godly King Level move," realized Luo Feng in this moment.

Like the previous Yin Yang Particle State, a pinnacle of Primal Chaos Realm that cultivates both Life Origin Great Dao and Matter Origin Great Dao, after paying a sufficient price and breaking through numerous thresholds, there's a chance to cultivate it. But even if one manages to cultivate it, the godly body, soul, and Spiritual Will are all far inferior to Luo Feng's.

The units they transform into in the Yin Yang Particle State are much fewer than Luo Feng's. With a weaker soul and Spiritual Will, they can also control fewer units.

The Trinity State typically requires the Life Origin Great Dao to reach the Godly King level, allowing for relatively easy mastery. It also needs a very high realm in Matter Origin Great Dao to carry out matter transformation.

The more complex the transformation target, the higher the requirements for the realm of material transformation.

But Luo Feng's Formless and Intangible ability belongs exclusively to the Perfect Divine Body. As long as one thoroughly researches all the mysteries of matter's composition, one can directly transform.

"My moves now genuinely have a Godly King level realm," mused Luo Feng.

People like Lord of Yuan Xiu Mansion, Great Saint Bi Yun, and Yan Su, each one of them had unfathomably mysterious moves, comparable to Godly King level.

Previously, Luo Feng relied purely on his Perfect Divine Body and powerful Spiritual Will to exhibit such power with the Yin Yang Particle transformation method. Yet when engaging with opponents, Luo Feng always appeared clumsy.

But now with the Black River Form, many of his techniques have qualitatively changed.

"Whoosh."

This avatar of Luo Feng quietly returned to Chu Capital and to his own cave mansion.

"From now on, this avatar will reside in Chu Capital," Luo Feng thought. This avatar was comprised of a hundred million Black Rivers and it also contained a reserve of Divine Power. It's worth noting that when Luo Feng employed the Blade Technique of Great Dao of Destruction Origin for long-range attacks, using several hundred thousand Blade Lights was his limit.

A hundred million Black Rivers, whether in close combat or long-range attacks, would be formidable.

...

In Yu Kingdom, Huyang City.

Luo Feng's other avatar, also formed from a hundred million Black Rivers and containing a reserve of Divine Power.

"This is my city," Luo Feng looked at Huyang City, "a part of me will also reside here in the future."

Whoosh.

This avatar of Luo Feng instantly arrived at the city owner's mansion and retracted the Divine Power Incarnation that was there.

"City Lord," the servants within the city owner's mansion all greeted respectfully, unable to differentiate between the Divine Power Incarnation and the powerful avatar with their vision.

"One avatar alone has the strength close to that of a strong practitioner in the First Realm of a Godly King," Luo Feng stood on a pavilion in the city owner's mansion, looking over the entire Huyang City, "In various aspects, my techniques are finally close to those ancient existences."

The First Realm of Godly King, for those who have just entered, have relatively ordinary strength. Luo Feng's previous Yin Yang Particle State could compete with them, and Transcendent ones of Primal Chaos Realm also dared to fight these ordinary Godly Kings.

But those with deep accumulations, who mastered several branches of the Daos and cultivated powerful inheritances successfully, had increasingly unfathomable and unpredictable methods.

Like Morosa, who only needed to see the opponent once to conduct a long-range curse killing, or the Ancestral God of the Snow Realm who, despite being a great demon in the First Realm of Godly King and ranking within the top ten in sins in the Land of Origin, simply could not die.

You should know that like the founder of the Heartshadow Sect and the third generation spiritual masters from the Duan Dong River lineage, many ordinary Godly Kings have already died over the long course of time. Of course, they might have also been reincarnated.

"No wonder many ancient beings create a stir or even commit towering crimes and still manage to live well," as Luo Feng's strength gradually approached that level, he understood just how troublesome those opponents were.

For example, he himself was difficult to deal with; each of his avatars was formidable, especially the one in Chu Capital! With his master garrisoning Chu Capital, it was incredibly difficult for enemies to kill that particular avatar.

If not all the avatars are destroyed, one could easily cultivate back to full strength.

Chapter 151: Episode 3 Chapter 34 Wave 2 Eruption Period

Chu Capital, as one of the immensely bustling great cities at the forefront of the Land of Origin, is home to Godly Kings and many from the Primal Chaos Realm. Emperor Chu himself presided over it, and no other power dared to create disturbances here.

In the Land of Origin, many great clans have established their family branches here.

Many independent eternal true gods also come here in search of opportunities. 'Yu Youyi,' known for his mastery of musical Illusion Techniques, was among them.

"Gentlemen, I have a way to lead you all to become disciples under Marquis Chu Chang," spoke one of the eternal true gods, a black-scale eternal true god, within a common tavern as a group of eternal true gods gathered.

"Marquis Chu Chang is one of the seven first-rank marquises. Even if we become his disciples, we'll just be servants," the other eternal true gods were not so easily persuaded by a few words.

The Primordial Ancestor's Illusionary Avatar was also among them.

His Illusionary Avatar could change into different appearances. Currently, he maintained nine different Illusionary Avatars, living within Chu Capital under nine identities.

These nine Illusionary Avatars could join ordinary forces as a backbone, manage businesses, blend into groups as independent cultivators, or join covert operations as peripheral members.

His Illusionary Avatar was also a real physical body,

indistinguishable on the surface, and possessed about thirty percent of the true body's strength.

Initially, figures like Marquis Chu Ji, Marquis Chu Yuan, and three other Pinnacles of Primal Chaos Realm failed to recognize that it was merely an avatar. Unless they came into contact with a Godly King Level being, it was almost impossible for it to be exposed.

"Primordial Qi, haven't you always wanted a Godly King Level inheritance in the Illusion Technique lineage? It's very difficult for us eternal true gods to obtain a Godly King Level inheritance. But if Marquis Chu Chang is willing, he could easily bestow a Godly King Level inheritance," one eternal true god said to the Primordial Ancestor with a smile.

"Even if we follow Marquis Chu Chang, we'd likely need to establish enough merit before being granted a Godly King Level inheritance," the Primordial Ancestor's Illusionary Avatar worriedly said.

"We fear that even after following for tens of thousands of years, we still might not receive the inheritance."

"As long as we follow Marquis Chu Chang, he'll immediately grant the Godly King Level inheritance. I'm willing to follow him now."

"I'm willing too."

"As long as there's an inheritance, we naturally will follow," said the eternal true gods, including the Primordial Ancestor.

"Although Marquis Chu Chang recruits subordinates, to think of obtaining a Godly King Level inheritance just after joining?" the black-scale eternal true god shook his head slightly, "That's a bit delusional."

"Marquis Chu Chang's recruitment of subordinates must be related to the competition among the first-rank marquises," said another eternal true god. "I heard that the first-rank marquises have been fiercely competing recently, each bringing a group of subordinates for training, and many subordinates have died."

"I also heard that besides bringing subordinates for training, they

even invited those who have Transcended the Primal Chaos Realm to fight over the Blood Spirit Golden Pearl."

"Desert Wind City Lord, Great Saint Bi Yun, Great Saint Luo He, Great Saint Yan Su, and Lord of Yuan Xiu Mansion, a total of five who have Transcended the Primal Chaos Realm, fought fiercely over the Blood Spirit Golden Pearl! They fought...all because of our Emperor Chu's lineage of seven first-rank marquises."

The group of independent eternal true gods became excited as they discussed those who had Transcended the Primal Chaos Realm.

As they sought opportunities in Chu Capital, naturally, they eyed the forces of Godly Kings, followed by those under the brand of Transcended from the Primal Chaos Realm, and then the royal family's first-rank marquises.

"It's said that in this competition, Great Saint Bi Yun was most formidable, followed by Desert Wind City Lord; Great Saint Luo He and Great Saint Yan Su were more or less equal, with Lord of Yuan Xiu Mansion ranking the last."

"I also heard that Desert Wind City Lord and Great Saint Luo He clashed head-on. Both are experts in physical strength, and every movement they made was said to be devastating,"

"Yet both are still inferior to Great Saint Bi Yun."

These independent eternal true gods, most passionate about collecting information on various formidable beings, discussing whether such information was true or false while drinking and animatedly talking.

The Primordial Ancestor's Illusionary Avatar joined in happily, praising Great Saint Luo He at one moment, and extolling Great Saint Bi Yun the next.

******

After Luo Feng achieved the Tri-Unity form, he naturally transformed, reaching a new level of strength. Among those in the First Realm of Godly King, he was considered extremely strong.

"All five branches have reached the Pinnacle of Primal Chaos Realm."

Luo Feng looked towards the tranquil Blood Spirit Star in the distance.

Being in the Primordial Crystal Spirit Fruit induced state, initially the Heaven Splitting Lineage and Dark Heaven Lineage had peaked in the Primal Chaos Realm. Now that Morosa had reached the Godly King Level, Luo Feng could witness the complete materialization of the 'Heaven Splitting' and 'Dark Heaven' branches, naturally progressing very rapidly.

Both lineages thus naturally reached the Pinnacle of Primal Chaos Realm.

"The gap between the Pinnacle of Primal Chaos Realm and the Godly King is very big."

With the detailed inheritances of the 'Eight Tribulations Life Form' First Calamity and the 'Extermination of Seventy-Two Blades' first volume, Luo Feng understood clearly what path he should take next.

This is the advantage of inheritance.

Inheritance could guide Luo Feng! It divided the path to breakthroughs into several steps.

Step by step, he would deepen his accumulation until one day, he would become a Godly King.

"Cultivating some powerful Secret Techniques, or even creating some powerful Secret Techniques, can make the accumulation even deeper," Luo Feng thought.

Secret Techniques are the key to practice.

With the mysteries of the Pinnacle of Primal Chaos Realm, cultivating a variety of Secret Techniques. Figures like Lord of Yuan Xiu Mansion and Great Saint Bi Yun even cultivated highly powerful Primordial Secret Methods, achieving the power of those who Transcend the Primal Chaos Realm.

Their realm accumulations were naturally also deeper.

Like Luo Feng, who could conceive moves comparable to those of a Godly King such as the 'Tri-Unity Form,' naturally had a deeper understanding of Life Spirituality and the Body of Life.

"The only method to become a Godly King is to slowly accumulate," Luo Feng knew it couldn't be rushed.

...

In the blink of an eye, nearly half a century had gone by since the first eruption of Blood Spirit Star.

The long-silent Blood Spirit Star had accumulated energy once again reaching some sort of threshold, beginning to boil anew, its surface rolling with liquid flames.

"Hahaha, it's entering the Eruption Period again," declared the massive City Lord of Desert Wind, who had long arrived near the Blood Spirit Star. At this moment, he stood on all fours, the surrounding desert winds spreading out.

"The struggle for it begins anew," Lord Yuan Xiu observed from a distance. "While they fight over it, I might seize the chance to snare a few."

Lord Yuan Xiu had no intention of getting too close; it was too risky and not worth it.

Meanwhile, the clouds in the sky were also watching Blood Spirit Star. Great Saint Bi Yun was equally prepared to make his move at any moment.

"It's starting," Yan Su, hidden in the Void, said leisurely as he watched Blood Spirit Star, his expression suddenly changing.

For a figure had directly approached near Blood Spirit Star, it was Luo Feng.

Blood Spirit Star was suspended, with the City Lord of Desert Wind and Luo Feng on its either side, respectively.

"Luo He? You come to contend with me as soon as you arrive?" The City Lord of Desert Wind's eyes flashed fiercely. In terms of Physical Body, this Great Saint Luo He was comparable to him, and his vast Galaxy could even suppress his Desert Wind Domain, "Good, we failed to determine the victor last time. This time, let us battle properly ... I've even prepared some 'gifts' for you."

Luo Feng glanced at the City Lord of Desert Wind.

Without uttering a single word himself, the City Lord of Desert Wind's eyes were filled with fierce light, and an intangible murderous intent darkened the surrounding heaven and earth slightly.

"The transcendence of the Primal Chaos Realm in cultivating the Primordial Bloodline all have such fierce temperaments, huh?" Luo Feng quietly shook his head. In Thunder Ancient Country, cultivating the Primordial Bloodline leads to ferocity, which already was a fairly good result.

"Great Saint Yan Su," the City Lord of Desert Wind said, staring at Luo Feng. "You and this Luo He have some old grudges. From what I see, the two of us working together ... could ensure Luo Feng doesn't get a single Blood Spirit Golden Pearl."

"Good."

The shadowy figure of General Yan Su appeared as he nodded leisurely, "A fine proposal, City Lord of Desert Wind."

Yan Su was always so direct; once enmities were established, there was no need to hold back anymore.

"The two of you joining forces?" Luo Feng looked at the City Lord of Desert Wind and Great Saint Yan Su.

During the last clash, each transcendent of the Primal Chaos Realm fought individually; there had been no alliances! Once they deliberately teamed up, perfectly coordinating their efforts, the threat posed by Great Saint Yan Su and the City Lord of Desert Wind would greatly increase.

"Yan Su, we are all members of Flame Wind Ancient Country. You

plan to collaborate with the City Lord of Desert Wind from Thunder Ancient Country?" From a distant place, Lord Yuan Xiu spoke up, his voice echoing in the heaven and earth.

"Hahaha... Yuan Xiu, you're mistaken," said Yan Su leisurely. "We are merely Guest Elders at Flame Wind Ancient Country; the Ancient Country has never treated Guest Elders as full members! Even you, Yuan Xiu, as the Direct Disciple of the Sovereign of Wanjie Kingdom, are probably considered more a member of the Wanjie Kingdom by Flame Wind Ancient Country."

Lord Yuan Xiu gently shook his head.

"Moreover, Flame Wind Ancient Country has never restricted whom Guest Elders associate with, nor has it prevented them from making enemies. Guest Elders killing each other, Flame Wind Ancient Country does not care about that," Yan Su continued.

"Well said," Luo Feng nodded in agreement.

Yan Su glanced at Luo Feng surprised, and Great Saint Bi Yun, merged with the heaven and earth, was also surprised by Luo Feng's response.

"Guest Elders slicing each other's throats, Flame Wind Ancient Country indeed doesn't care," Luo Feng nodded. Many Godly Kings from the Land of Origin had been Guest Elders at Flame Wind Ancient Country, weren't they all fighting and battling just the same?

"It seems Brother Luo He understands my point," Yan Su nodded. "Brother Luo He, you should see the situation clearly now; forget about the Blood Spirit Golden Pearls."

"Buzz～～～"

The immense Blood Spirit Star's boiling intensified, and the liquid flames surged and splashed—a scene that caught the attention of all transcended beings of the Primal Chaos Realm.

"The Blood Spirit Golden Pearls are about to erupt, City Lord of Desert Wind, you and I should join forces to push him back quickly," Yan Su said. As long as they could drive Luo Feng away, given the

primitive methods Luo Feng had shown the last time when capturing the Blood Spirit Golden Pearls, he probably would't be able to get even one.

"Good," the City Lord of Desert Wind nodded and instantly pulled out the chains he carried on his back, throwing them towards Luo Feng. The chains, once thrown, transformed into numerous black serpents, terrifying in their might.

Luo Feng watched the scene.

Now, he could naturally control the extensive Domain around him, which was also an exceedingly terrifying natural feature of his Physical Body, known as 'Realm Domain.' At this moment, with a mere thought, fully thirty billion Black Rivers instantly merged into the 'Realm Domain.'

Whoosh!

Within the vast expanse all around, a Dark World suddenly materialized, its world membrane incredibly thick, formed from the cohesion of thirty billion Black Rivers.

The Dark World trapped everything within.

"What's happening?" Lord Yuan Xiu exclaimed, astonished as the world darkened around him, a Dark World enveloping everything, effectively sealing it off. "This is a world far more vast than my Dark Mansion."

"What is this?" Bi Yun, merged with the heaven and earth, also found himself trapped. "An absolute separation of interior and exterior worlds? This is a complete world!"

Just as the City Lord of Desert Wind had thrown the chains to confront Luo Feng, he was momentarily stunned, watching the vast Dark World. The world was too expansive, and its aura was so thick that even he felt somewhat fearful.

"I can no longer feel the outside Void," Great Saint Yan Su, too, gazed in shock at the scene. This Dark World completely blocked off the inside from the outside, even partially obstructing causality, showing

its powerful sealing capability.

In the center of the Dark World, Luo Feng stood there, his aura no longer contained, boldly emanating. His terrifying Physical Body's presence already affected the surrounding heaven and earth, causing the supreme rules to withdraw.

Such a fearsome presence caused tremors in the hearts of all transcendent beings present in the Primal Chaos Realm.

Chapter 152: Episode 3, Chapter 35: Inconceivable Strength

The vast and boundless dark world, covering billions of kilometers, this dark world contained operating laws, and the core of these world's operating laws was that central figure standing there—Luo Feng.

"Physical body affects heaven and earth, and the supreme rules give way?" Yan Su trembled at the sight, "This is the realm of the cosmic body, where the physical body is like a complete universe. Even for a Godly King... very few can reach this realm. The Two-Realm Palace, oh the Two-Realm Palace, you have made me suffer!"

Offending a Transcendence of Primal Chaos Realm, Yan Su didn't care.

Under normal circumstances, it was incredibly difficult for a Transcendence of Primal Chaos Realm to advance further.

Who would have thought that Luo He, in less than half a period of time, would have such a drastic improvement in strength!

"His strength has broken through." Bi Yun, the Great Saint who merged with heaven and earth, was also secretly shocked, "This complete dark world revolves around him, supporting a world with his own power."

At this moment, Bi Yun, the Great Saint, Yan Su, the Lord of Desert Wind City, and the Lord of Yuan Xiu Mansion all felt tremendous pressure.

"My lords."

Luo Feng stood there, his eyes sweeping across all directions, "Blood

Spirit Golden Pearls, all shall be mine. Do any of you have objections?"

"All for you?" The gray shadow, Yan Su, spoke deeply from a distance, "None of us four get even one, and you want to monopolize them all?"

Yan Su was well aware that he had already offended Luo He and could only think of ways to team up with other Transcendences of Primal Chaos Realm! Only when several Transcendences of Primal Chaos Realm join forces could they even think of challenging Luo He.

"All for you?" A figure of a woman in green appeared in the sky, her presence full of endless sharpness, as if she could tear the heavens and the earth apart. She looked at Luo Feng, "Brother Luo He, wanting to monopolize them all, isn't that a bit too much to ask for?"

"Hmph."

The Lord of Desert Wind City huffed angrily, the breath from his nostrils stirring up a terrifying current as he glared at Luo Feng, "No matter what, you're just a Transcendence of Primal Chaos Realm! Do you really think you can overpower the four of us with your own strength? I would like to see just how strong you, Luo He, truly are!"

At the First Realm of Godly King, wielding multiple branches of the Dao and then cultivating either Primordial Bloodline or Primordial Secret Method to the most terrifying level, one could indeed transcend ranks and battle against those in the Second Realm of Godly King.

But the upper limit for a Transcendence of Primal Chaos Realm was much lower, as they had not mastered any branches of the Dao. Bi Yun, the Great Saint, Yan Su, and the Lord of Desert Wind City were unwilling to give up easily.

"I have no objections." The Lord of Yuan Xiu Mansion said with a smile from afar, "First, congratulations to Brother Luo He on your breakthrough. I have no desire to fight for the Blood Spirit Golden Pearls, Brother Luo He... could you please send me out first?"

A few pearls were not worth dying for. Getting involved in the fight and causing his True Body to die would be a significant loss.

His Dark Mansion had integrated many Primordial Materials for him to cultivate to this stage.

"Yuan Xiu, are you actually so cowardly?" Yan Su scoffed coldly, "The four of us together, are we afraid of him?"

"I am not you; you have many avatars and do not care about losing a few." The Lord of Yuan Xiu Mansion replied.

"There is no need to mind Yuan Xiu staying here, he's of no use." The Lord of Desert Wind City remarked.

Bi Yun, the Great Saint, watched the scene and could understand Yuan Xiu's perspective.

The reason the three of them dared to stay was that they all had something to rely on. In comparison, Yuan Xiu was somewhat lacking.

"I will send Brother Yuan Xiu out first." Luo Feng had no conflict with Yuan Xiu, and since the Lord of Yuan Xiu Mansion took the initiative to step back, Luo Feng naturally took the initiative to maneuver the power of the dark world to wrap around the Lord of Yuan Xiu Mansion and send him out.

Whoosh.

The Lord of Yuan Xiu Mansion was moved to the very edge of the dark world, touching the world's membrane, then completely disappeared.

...

The Lord of Yuan Xiu Mansion stood outside, looking at the immensely huge dark world.

"Bi Yun, the Great Saint, and the Lord of Desert Wind City are both leading figures among the Transcendences of Primal Chaos Realm. Yan Su, especially, has incredible survival abilities." The Lord of Yuan

Xiu Mansion shook his head, "But I cannot afford to die."

If he died once, the Dark Mansion inside him would have to repurchase Primordial Materials and integrate them again.

"The most direct way for me to increase my strength is to become a Godly King. Once I master a branch of the Dao, my Dark Mansion will naturally undergo a transformation." Lord Yuan Xiu Mansion thought. He had been accumulating for long years, but breaking through the bottleneck to become a Godly King was still challenging.

Every Transcendence of Primal Chaos Realm longs to become a Godly King.

"Observe the battle first." The Lord of Yuan Xiu Mansion thought no further.

******

Within the vast dark world, three Transcendences of Primal Chaos Realm were positioned in different locations, all observing Luo Feng. Luo Feng had not fully revealed his strength after his breakthrough, and the outside world knew nothing about him.

"Since you all wish to fight for the Blood Spirit Golden Pearls, then we can only battle it out." Luo Feng said with a smile.

Boom!

From Luo Feng as the center, a mighty black river spread out, sweeping across heaven and earth.

And from the membrane of the dark world as well, black rivers flowed out, while the entire dark world itself was contracting. Luo Feng had previously displayed a super large dark world to trap the enemies within.

"Brother Luo He, what is this world called?" Bi Yun, the Great Saint in green clothes, still asked with interest.

"Black River World," Luo Feng said with a smile.

"Black River?"

Bi Yun, the Great Saint, looked at the mighty black rivers spreading far and wide and nodded leisurely, "The surging Black River is indeed formidable."

The surging black rivers instantly submerged Bi Yun, the Great Saint, and she disappeared without a trace. The figure she displayed was only an avatar formed by the condensation of power; her True Body had always been merged with heaven and earth.

"Swoosh!"

She released terrifying sharpness that rent the heavens and earth asunder, also ripping the rolling black rivers apart. But as the saying goes, when you draw your saber to stop water, the water flows even more, and the Black River naturally merged and surged once again.

Time after time, terrifying sharpness erupted, immensely powerful, opening up parts of the river time and time again. Yet even more Black River water spread, making Bi Yun, the Great Saint's moves seem powerless.

"My Heaven Cutting Sword Technique, it can't even shake him?" Bi Yun, the Great Saint, was shocked beyond measure.

She had practiced the Primordial Secret Technique, "Heaven Cutting Sword Technique," and her master, Emperor Qing, personally forged a Godly King Weapon for her, the "Heaven Cutting Sword." With this most suitable Godly King Weapon, her unleashed power became even more terrifying.

But now, her matchless Heaven Cutting Sword Technique, which repeatedly severed the black river water, could only cut through a small part of the endless Black River.

"I've unleashed my full strength, attacking with my sword thirteen times in a row, which has depleted thirty percent of my Divine Power Reserve. Yet, the might of Luo He's Black River remains almost unchanged? In a head-on clash, he must be considered the pinnacle among those who have transcended the Primal Chaos Realm," Bi Yun,

the Great Saint, thought in shock.

"Kill, kill, kill!" Huang Feng, the City Lord, wielding his twin spears, burst with surging energy as he attempted to charge towards Luo Feng's True Body.

However, the endless Black River engulfed him. He seemed to be mired in a swamp, surrounded by the Black River. With every slap of the Black River, Huang Feng stumbled back, unable to approach Luo Feng and even retreating further.

Boom! Boom! Boom!

The Black River raged, sweeping Huang Feng along in its turbulent waves, leaving him with no control over his movements.

"How can he be this strong?" Huang Feng could hardly believe it. "Can those who have transcended the Primal Chaos Realm truly be this powerful?"

"I..." Yan Su, the shadowy gray figure, was utterly astounded as the Black River enveloped everywhere, naturally including him. The river's relentless force instantly shattered this one of his Avatars.

Thump! Thump! Thump!

All ordinary Avatars hidden by Yan Su were wiped out, leaving only a powerful Avatar that could barely manage to survive by dissipating most of the might of the Black River.

"There's no way to fight; the gap is too big," said the powerful Avatar of the gray shadow Yan Su. Its body turned ethereal, shedding most of the impact as it moved time and again to dodge the strikes of the Black River.

When Luo Feng controlled the billions of Black Rivers, he could only use the most basic tactics of assault, slapping, and sweeping. Yet even these simplest moves, when carried out by the endless Black River, made those transcended in the Primal Chaos Realm feel powerless.

"This Bi Yun, the Great Saint, is quite formidable, being able to obliterate three of my Black Rivers?" Luo Feng was somewhat

surprised, but within the Star Tower, he casually created three more Black Rivers to replenish them.

"The Great Saint Bi Yun is terrifyingly powerful, but it seems that her godly body is rather ordinary. After just a short confrontation, her Divine Power Reserve has already been significantly depleted," Luo Feng observed.

The Great Saint Bi Yun had a fearsome attack and was adept at evasion, but her body was rather weak.

Huang Feng, the City Lord, relied entirely on his physical body's explosive force. Though his attacks were slightly inferior, his body was much stronger. Luo Feng's raging Black River, despite engulfing Huang Feng, the City Lord, could not injure him in the slightest.

As for Yan Su? His Clone Technique was rather special, yet his strength was not as formidable as the other two.

"Die!"

Luo Feng looked toward the distant Yan Su, and suddenly, several Black Rivers transformed into streams of Blade Light. Three hundred thousand streams of Blade Light erupted simultaneously, all executing Luo Feng's simplified move, "Blade River Slash."

Having reached the Pinnacle of Primal Chaos in both the Heaven Splitting Lineage and the Dark Heaven Lineage, and having long studied the first volume of "Extermination of Seventy-Two Blades," Luo Feng's expertise in blade techniques was naturally profound.

The three hundred thousand Blade Lights executing "Blade River Slash" were not his limit.

While using the surging Black River to sweep at the other two foes, he had three hundred thousand Blade Lights pursue Yan Su. Wherever the three hundred thousand Black River Blade Lights swept through, all layers of space were annihilated, and even the membrane walls of the Braided Cage World began to show slivers of fissures. Beyond those fissures lay a greater terror.

"This—"

Yan Su watched as fine cracks began to appear in the prison's membranous wall, at least dozens of thin fissures visible at a glance, sending shivers down his spine.

This was the world fracture of the Braided Cage World!

Under such a formidable force, unless one could reach the apex of insubstantiality and merge with the world membrane, there would be no escape.

"Two Realm Palace, you've really put me through hell!" lamented Yan Su, as the terrifying might of three hundred thousand Blade Lights devoured him, and even though his body possessed the ability to phase into insubstantiality, even after reducing their might by seventy to eighty percent, his body was still annihilated without a trace.

"To trap an enemy within the world, the Black River Domain... and even three hundred thousand Blade Lights can break through the world's fissures?" Bi Yun, the Great Saint, witnessing this scene, had no more desire to fight. "Among those who have transcended the Primal Chaos Realm in the Land of Origin, this Luo He must be the foremost!"

Only a few who have transcended the Primal Chaos Realm rank ahead, each stronger than Bi Yun, the Great Saint, and each one rather unique. Some have mastered the Primordial Secret Method of the Time Primordial Dao; others have just grasped the basics of the Infinite Primordial Body.

Yet, none gave off such a terrifying sense of oppression as Luo He! Worlds, Domains, slaughter... even the rules supreme seemed to retreat in the face of Luo He's physical body.

"This opponent has no flaws at all; there's no way to fight against him."

Hum!

In an instant, Bi Yun, the Great Saint, merged with the Godly King

Weapon 'Heaven Cutting Sword' and launched a desperate attack. The first sword of endless edge pierced the membrane of the Dark World, creating a hole by force.

With this sword light, he swiftly escaped.

Luo Feng watched this scene unfold.

"My Dark World membrane still cannot trap Bi Yun," Luo Feng wasn't surprised. The world membrane was vastly dispersed, and the opponent had concentrated their power into one point! To completely trap an enemy was very difficult.

Even the Lord of Yuan Xiu Mansion, who practiced the Dark Mansion Prison technique, could only temporarily confine an enemy who could still rush out again.

To trap an enemy for even a few moments was already a rare feat.

"Yan Su's strength is weaker, unable to break through my Dark World." Luo Feng looked towards Huang Feng, the City Lord, who was still frantically struggling within the roiling black river, "This Huang Feng City Lord is strong-bodied indeed, but too foolish. Swept by the Black River, he cannot even touch the edges of my world."

Beneath the rolling Black River, Huang Feng, the City Lord, could hardly move voluntarily.

Up till now, he had not managed to touch the world's edge, nor could he touch Luo Feng's True Body.

"Luo He! I admit you are stronger than me!" bellowed Huang Feng, the City Lord, "But you still cannot harm me!"

Boom! Boom! Boom!!!

At this moment, as the Blood Spirit Star erupted, the outpouring liquid flame contained three Blood Spirit Golden Pearls, naturally swept up by the black waters.

"Harm you? I want to see just how strong your Primordial Bloodline body really is," said Luo Feng as he gazed at him.

After speaking, with a single thought from Luo Feng, the Black River continued to roll and sweep over Huang Feng, the City Lord, drawing him involuntarily closer to Luo Feng.

"His Domain is too strong." Huang Feng, the City Lord, watched helplessly as he was carried closer and closer to Luo Feng by the Black River, "Even Bi Yun, the Great Saint with his Heaven Cutting Sword, could only flee for his life. He must be considered the foremost in the Transcendence of Primal Chaos Realm in the Land of Origin! Nonetheless, I should have no problem preserving my life."

Chapter 153: Episode 3 Chapter 36 Suppression

Lord of Yuan Xiu Mansion watched from a distance, only able to see a huge Dark World, unable to discern what was happening inside.

"Pu."

Suddenly, a sword light pierced through the membrane of the Dark World and instantly escaped.

Lord of Yuan Xiu Mansion, somewhat surprised, said, "Just after the confrontation, has Great Saint Bi Yun already fled?"

In the Transcendence of the Primal Chaos Realm in the Land of Origin, even in one-on-one situations, very few could force Great Saint Bi Yun to flee, let alone with the assistance of Great Saint Yan Su and City Lord Huang Feng.

"She escaped." Great Saint Bi Yun, having escaped to a far distance, finally breathed a sigh of relief and cast a glance at Lord of Yuan Xiu Mansion.

"Great Saint Bi Yun," Lord of Yuan Xiu Mansion said politely, acknowledging that both in individual strength and background, Bi Yun was superior to him.

"Brother Yuan Xiu, you are indeed wise," Bi Yun said, "Had you mixed in, this True Body of yours might have been lost."

Lord of Yuan Xiu Mansion, astonished, asked, "Great Saint Bi Yun, what exactly happened inside the Dark World? What about Great Saint Yan Su and City Lord Huang Feng?"

Bi Yun shook her head and finally said, "The Blood Spirit Golden

Pearl has nothing to do with us anymore."

With that, she had already faded into the distant cosmos.

Lord of Yuan Xiu Mansion was secretly shocked; from Bi Yun's reaction, he could infer some information.

"It seems it was a one-sided sweep! Three against one, yet they were thoroughly defeated." Knowing the likely outcome, Lord of Yuan Xiu Mansion didn't wait any longer, "The mission for the Blood Spirit Golden Pearl, as far as we are concerned, is already over."

He also left quietly.

...

In the vast Dark World, only Luo Feng and City Lord Huang Feng remained.

"The Thunder Ancient Country and the Flame Wind Ancient Country are on equal footing, while the entirety of the Thunder Ancient Country's Imperial Clan... primarily cultivates the Primordial Bloodline," Luo Feng observed, looking at the massively built City Lord Huang Feng.

The Imperial Clan of Flame Wind Ancient Country also cultivates the Primordial Bloodline. However, for Flame Wind Ancient Country, the entry barrier is much higher; normally, one must become a Godly King and pass through numerous screenings before beginning the path of the Primordial Bloodline.

Based on the intelligence Luo Feng had, several of the thirteen Emperors of Flame Wind Ancient Country practiced the Primordial Bloodline, showing the attractiveness of this faction.

City Lord Huang Feng, however, barely entered the entry-level of the weakest tier in the Primordial Bloodline system. As for Marquis Chu Yuan, who Luo Feng had once beaten into a liquid, he wasn't even considered to have entered the system.

"Slash." Looking at City Lord Huang Feng, a thought arose in Luo Feng, and thirty thousand Black Rivers transformed into numerous

black Blade Lights, all performing the Blade River Slash.

Rumbling!

The endless black Blade Lights destroyed everything in their path, even causing numerous fine cracks in the Braided Cage World membrane. With such terrifying might, City Lord Huang Feng bore it entirely, unable to dodge even a bit.

"Hiss hiss hiss~~~" Numerous wounds appeared on City Lord Huang Feng's body, as if he had been slashed by thousands of knives, his body covered in greenish blood.

But as soon as the might of the Blade Lights passed, the numerous wounds on City Lord Huang Feng's body naturally healed.

"Well, it did break the skin and caused bleeding," laughed City Lord Huang Feng, "Luo He, I admit your power is impressive, but unfortunately, I didn't lose even a drop of Divine Power."

Luo Feng also noticed this.

Physical cultivation at the level of City Lord Huang Feng meant that mere superficial skin wounds were not a real loss; complete annihilation of some flesh was needed for any Divine Power Reserve to be depleted.

"I advise you not to waste your effort." City Lord Huang Feng was very confident, although he was being swept away by the endless black rivers, making it hard to resist, continuously drawing closer to Luo Feng.

"I want to try." Luo Feng looked at City Lord Huang Feng.

The thirty thousand Blade Lights performing 'Blade River Slash' from a distance contained many mysteries, deadly sharp, even opening fine cracks on the Braided Cage membrane.

But Luo Feng in close combat could mobilize nearly a hundred billion Black Rivers, an unadulterated force!

"Merge."

With a thought, Luo Feng drew back all the sprawling Black Rivers into his body, even withdrawing most of those merged into the Dark World, maintaining only "ten billion Black Rivers" in the Dark World.

The Dark World, the more Black Rivers it merged, the stronger it became. Ten billion Black Rivers... was already enough to seal most who transcended the Primal Chaos Realm.

"Hmm?" City Lord Huang Feng saw the surrounding black rivers quickly converging towards Luo Feng, and he too was swept up rapidly approaching.

Suddenly, the rapidly enlarging Luo Feng stretched out a hand and grabbed at the approaching neck of City Lord Huang Feng.

At this moment, Luo Feng possessed the power of nearly ninety billion Black Rivers.

"Open." City Lord Huang Feng struggled, even swinging his arms, but Luo Feng's arm remained unshakable, firmly grasping City Lord Huang Feng's neck.

"Crush."

Luo Feng's left hand grabbed City Lord Huang Feng's neck, while his right hand's five fingers plunged directly into City Lord Huang Feng's body.

PU—

Luo Feng felt City Lord Huang Feng's body was extremely tough, much of his force naturally dissipated by the skin, but eventually, Luo Feng's fingers still forcibly penetrated its flesh. The flesh layer offered even more resistance, as if numerous ropes entangled opposing Luo Feng, with even a bone armor layer deeper inside, densely packed.

Luo Feng's five fingers seemed to be piercing through Weapon Secret Treasures, forcibly breaching some of the bone armor, and finally stopping.

Luo Feng's arm pierced deep into City Lord Huang Feng's body, unable to push any further.

"It's too tough," Luo Feng exclaimed.

"He, he..." City Lord Huang Feng was astounded, being penetrated nearly halfway through his body by a bareHand? He was a strong physical entity with an entry-level Primordial Bloodline.

Pu! Boom! Rip!

Luo Feng one hand gripping City Lord Huang Feng's neck, the other, whether it was a hand blade, claw, or fist, unleashed the full force of nearly ninety billion Black Rivers, continuously tearing through City Lord Huang Feng's body.

Chapter 154: Episode 3 Chapter 36 Suppression_2

"Luo He, how did you cultivate your physical body? I can be sure you haven't cultivated the Primordial Bloodline, yet how is your physical body stronger than mine?" the City Lord of Desert Wind City asked while getting beaten, still managing to inquire.

"Don't waste your effort. It seems I get injured again and again, but actually, I haven't spent a drop of Divine Power," said the City Lord of Desert Wind City as he was getting hit, "I can't fight you, but the vitality of the Primordial Bloodline is beyond your imagination."

Luo Feng stopped, nodded, and said, "Your physical body is indeed very resilient."

As he spoke, a giant Bloodshadow Knife suddenly appeared in Luo Feng's right hand out of thin air.

"A knife?" The City Lord of Desert Wind still didn't care.

"Slash!"

Luo Feng, holding the City Lord of Desert Wind by the throat in his left hand, casually tossed him aside, while at the same time, his right hand had already swung the knife!

At that moment, nearly nine billion strands of Black River power condensed into one, channeling through the heavy and incredibly sharp Bloodshadow Knife, cleaving forcefully into the waist of the City Lord of Desert Wind.

Thick skin, a layer of tough flesh, bone armor...

This Bloodshadow Knife, which had been thoroughly transformed by

the hands of Teacher Emperor Chu, had the potential to point directly to the Ultimate Realm of Godly King. Luo Feng's strength concentrated on the knife's edge was clearly far more terrifying than fighting barehanded.

"Pfft—" The City Lord of Desert Wind's waist was completely severed, his body split in two.

"It's useless, you cannot do anything to—what?"

The City Lord of Desert Wind's eyes widened.

At that moment, black rivers flowed out from Luo Feng's body surface, churning and immediately enveloping the City Lord of Desert Wind's two severed halves. After being split in two, the strength that erupted from each half was on the decline.

"Slash!" "Slash!" "Slash!" "Slash!" "Slash!" "Slash!"

Luo Feng swung the Bloodshadow Knife continuously, cleaving at the halves of the City Lord of Desert Wind's body, turning them into dozens of pieces of flesh in the blink of an eye, each piece condensing into a lump of meat.

Dozens of meat lumps, still resilient and filled with endless life force.

"Don't say turning into meat lumps, even if into minced meat, into tiny particles... I still will not die, hahaha..." voices emanated from the dozens of meat lumps despite them being overwhelmed by Divine Power.

The dozens of large meat lumps were still struggling, but they were all ensnared by the Black River.

"Even cut up like this, it feels like his strength hasn't diminished much?" Luo Feng observed those lumps of flesh. After splitting into dozens of pieces, each piece's power to resist had greatly diminished, feeling no more than the resistance of one at the Pinnacle of Primal Chaos Realm.

"To have shattered my complete body, I admire you, but you cannot kill me. Even if you were several times stronger, it would still be

impossible to kill me," the voice of the City Lord of Desert Wind echoed around.

"Primordial Bloodline, its vitality is indeed strong," Luo Feng nodded with a word of praise.

"Luo He, you cannot always be suppressing me, right? Constantly diverting your attention to suppress me influences your cultivation," said the City Lord of Desert Wind.

Cultivation requires undivided attention and enough focus.

And to suppress the City Lord of Desert Wind with the Black River indeed occupies a portion of Heart Force, affecting cultivation as well.

"So, you might as well let me go," the City Lord of Desert Wind persuaded, "This time I have offended you. If you let me go, I will give you ten billion Cosmic Sand as an apology, how about that?"

"Let you go?" Luo Feng laughed, "This true body of yours is quite a treasure."

Even if the City Lord of Desert Wind were to actively annihilate this body, the treasures carried by the true body were very valuable.

And Luo Feng was well aware that the Primordial Bloodline's true body was very important; actively annihilating it, wanting to cultivate it back again? It would be very troublesome, with a great cost.

"You want to keep suppressing me?" The City Lord of Desert Wind started to struggle, dozens of pieces of flesh struggling, their might quite terrifying; Luo Feng immediately suppressed them with the Black River, "You want to always divide your attention to suppress me, how will you cultivate?"

"Collect."

Luo Feng wrapped up several fleshy masses with the Black River and sent them all into the Star Tower.

In one of the spatial layers of the Star Tower, this layer was naturally divided into thousands of smaller spaces. Luo Feng threw dozens of fleshy masses into these smaller spaces.

"Suppress." The Star Tower had the ability to oppress and seal.

"Hm?"

Dozens of fleshy masses were thrown in, and they twisted into the forms of the various Desert Wind City Lords.

The numerous Desert Wind City Lords looked around in shock. They could even see each other in the different small spaces from a great distance but couldn't come any closer.

"Let me out," the numerous Desert Wind City Lords attacked the small spaces in a frenzy, but obviously, they could not shake them in the slightest.

The stability of the Star Tower—such that even Luo Feng, giving all his effort, couldn't disturb it—was beyond what Luo Feng thought any Godly King Level palace secret treasure was capable of. Now that the Desert Wind City Lords had been split, their resistance was merely at the Pinnacle of Primal Chaos level and couldn't resist at all.

"Let me out, let me out," the Desert Wind City Lords shouted desperately in anger, but within the sealed space, their voices could not even spread.

"Is it a Godly King Level palace secret treasure? He actually has a Godly King Level palace secret treasure?" Desert Wind City Lord couldn't believe it.

Even the Great Saint Bi Yun only had one Godly King Level weapon, the Heaven Cutting Sword.

This Godly King Level palace secret treasure, even the simplest one from the First Realm of Godly King, is worth much more.

"I'm suppressed within a Godly King Level palace secret treasure; he doesn't need to pay much attention to me. Am I just going to be suppressed like this?" Desert Wind City Lord realized the gravity of

the situation. He originally thought that Luo He, in order to cultivate, couldn't be distracted to suppress him for long and would eventually let him go.

"Abandon this physical body?"

Desert Wind City Lord was very clear about how much he had invested to cultivate this Primordial Bloodline physical body. He didn't even have a single Godly King Level weapon; almost all his resources had been spent on this body.

"Luo He, you tell me, what conditions are needed to let me go," Desert Wind City Lord gave in, "as long as I can do it, I will."

"How many treasures can you bring out?" Luo Feng's voice finally rang out.

"I'll try to gather them—I can assemble eight hundred billion Cosmic Sand," Desert Wind City Lord said.

"Eight hundred billion Cosmic Sand?" Luo Feng couldn't help but say, "You, a Transcendence of Primal Chaos Realm, can only get eight hundred billion Cosmic Sand?" That was too poor; he was ready to offer hundreds of billions of Cosmic Sand just for the bounty on perfect Primal Chaos Layer Creature materials.

Desert Wind City Lord felt aggrieved.

Not long ago, he sold twelve Blood Spirit Golden Pearls to the Two Realms Palace, earning 360 billion Cosmic Sand. If not for this income, he couldn't even come up with eight hundred billion Cosmic Sand.

"The cultivation of Primordial Bloodline consumes a lot of resources," Desert Wind City Lord said, "eight hundred billion Cosmic Sand, I've already given my all."

"Then you can't get out," Luo Feng said, jokingly. Eight hundred billion Cosmic Sand could only buy an ordinary weapon from the First Realm of Godly King; to exchange for Desert Wind City Lord's physical body?

Desert Wind City Lord fell silent.

He still had one method left. As a member of the Thunder Ancient Country Imperial Clan, he could ask his clan to redeem him. But in that case, whatever the clan paid, he would have to repay in the future.

...

Luo Feng stood beside Blood Spirit Star, sensing the Desert Wind City Lord imprisoned within the Star Tower in his body.

"A Primordial Bloodline physical body, how could I release it without enough benefits?" Luo Feng looked up at the Blood Spirit Star. The flames of Blood Spirit Star erupted as another nine Blood Spirit Golden Pearls flew out, wrapped up by the Domain of the Dark World and delivered into Luo Feng's hands.

Luo Feng looked at the nine Blood Spirit Golden Pearls floating above his palm.

"This Blood Spirit Golden Pearl mission, I'm without competition now. Brother Chu Yu, I've lived up to you," Luo Feng smiled.

Chapter 155: Episode 3, Chapter 37: Transcendence of Primal Chaos Realm 1 "Luo He

Flame Wind Ancient Country, Chu Capital.

Luo Feng also had an avatar residing in Chu Capital, carrying one hundred million Black Rivers and a portion of his Divine Power Reserve. This avatar was weaker than his True Body but still stronger than Great Saint Bi Yun and the City Lord of Desert Wind City.

"Brother Luo He, I heard that you single-handedly swept through Great Saint Bi Yun, Lord of Yuan Xiu Mansion, the City Lord of Desert Wind City, and Great Saint Yan Su and monopolized the Blood Spirit Golden Pearls," a message arrived, "Can you sell me the complete video information of your victory over these four to the Flame Wind Association's Dark Hall?"

Luo Feng was somewhat surprised.

Buying information about oneself? That had never happened before!

The entire process of the battle that had just occurred was known only to him, and next most knowledgeable was the City Lord of Desert Wind City. And since the City Lord was from the Thunder Ancient Country's Imperial Clan, the Flame Wind Pavilion likely did not want to contact him.

"As the victor of this battle, I believe Brother Luo He's information would be the most comprehensive," the Flame Wind Association's Dark Hall communicated, "We are willing to pay 'one hundred billion Cosmic Sand' for the complete video footage of the battle."

"Two hundred billion Cosmic Sand," Luo Feng responded.

"Brother Luo He, not many in the Land of Origin can afford your detailed information, only the Godly Kings and a very few from the Primal Chaos Realm. Among them, only a few will buy, and they might even share information with each other," the Flame Wind Pavilion replied.

One strong figure might purchase, then share with a few friends. The Flame Wind Pavilion had no way to stop this.

"Then one hundred and fifty billion Cosmic Sand," Luo Feng stepped back, "no less."

"Alright, then the Flame Wind Pavilion would like to befriend the Great Saint Luo He," the Dark Hall of the Flame Wind Pavilion was quite polite.

Luo Feng did not know who was contacting him, since this was an official message from the Dark Hall, but daring to say 'the Flame Wind Pavilion wants to befriend Great Saint Luo He,' it must be someone high up in the Flame Wind Pavilion.

"This one hundred and fifty billion Cosmic Sand, is it credited to your name, Luo He?"

"Yes, this is the complete video of the previous battle."

Luo Feng did not conceal it.

If the Flame Wind Pavilion truly wanted to investigate, both Yan Su and Great Saint Bi Yun had parts of the battle video, and the impoverished City Lord of Desert Wind even had the complete footage, so it was better to let oneself earn this money.

In fact, the Flame Wind Pavilion could also use space-time methods to trace the clues, but that would be too costly! Better to spend some Cosmic Sand to buy directly from the victor, which was cheaper.

"Finally made up for some blood loss." After Luo Feng mastered the Tri-Unity Body Refining Secret Technique, the task he had posted at the Flame Wind Pavilion seeking perfect Primal Chaos Layer Creature materials had ended, but the expenses were still quite large.

...

Within a phantom realm.

"What a Luo He," a misty figure formed, quite annoyed, "I managed through the City Lord of Desert Wind and Yan Su, to gather 20 Blood Spirit Golden Pearls last time and gave them to Marquis Chu Chang. Great Saint Bi Yun obtained 25 Blood Spirit Golden Pearls, only slightly more than Marquis Chu Chang."

His plan was to assist Marquis Chu Chang to secure the second place.

The Blood Spirit Golden Pearl task, by his estimation, would see Marquis Chu Ying and Marquis Chu Chang far ahead, while the other five first-class Marquises would lag far behind.

"Now, the Blood Spirit Golden Pearls have been monopolized by Luo He!"

"If it weren't for him being a disciple of Emperor Chu, a transcendent from the Primal Chaos Realm daring to be presumptuous with me, hmph, I would make him realize the price of disrespect..." The misty figure, as a member within the Two Realms Palace, had been too high and mighty in the Land of Origin.

Luo Feng's disrespect had already ignited his anger.

But Luo Feng's master was Emperor Chu!

He could only stay calm!

"The latest complete information on Luo He?" the misty figure immediately bought it upon thinking. The complete information's purchase price was one hundred million Cosmic Sand, which he did not care about.

Although he thought highly of himself, the complete information from the Flame Wind Pavilion was still extremely valuable.

This complete information included a recent battle where Lord Yuan Xiu withdrew first, all of Yan Su's avatars were annihilated, Great Saint Bi Yun pierced through the membrane wall of the Dark World

to escape, the City Lord of Desert Wind was brutally battered by Luo He's bare hands, and Luo Feng slashed him into dozens of pieces with the Bloodshadow Knife and collected them.

"Luo He, a direct disciple of Emperor Chu."

"He cultivates the Origin Great Dao of life, destruction, and matter, combining the three to create his own Body Refining Method, reaching the level of a Cosmic Body."

"His Black River World, even Great Saint Yan Su cannot break through..."

"His surging Black River Domain, even the City Lord of Desert Wind can only drift along helplessly, unable to control anything..."

"..."

"World, Domain, long-range attacks, close combat, Physical Body, the integration of the three Origin Great Daos, makes him flawless in every aspect, undoubtedly the first among those who have transcended the Primal Chaos Realm."

"Important note: First, his Physical Body carries extremely strong Life Spirituality, with every bit of flesh and blood able to transform into an independent avatar. His number of avatars is innumerable!"

"Second, to control a body far surpassing the 'Primordial Bloodline Flesh Body' in the Primal Chaos Realm, he must possess a Heart Force far surpassing his peers, his Spiritual Will, at least at the Second Realm of Godly King."

The more terrifying the Physical Body, the higher the required Spiritual Will to control it. Luo Feng's Perfect Divine Body, bringing powerful soul, Second Realm Godly King Spiritual Will combined with the Lie Yuan Technique, just controlling one hundred billion Black Rivers consumes more than half of his Heart Force already.

Flame Wind Pavilion, not expecting the Perfect Divine Body, determined that Luo Feng's Spiritual Will was at least at the Second Realm of Godly King, was already very accurate.

"Third, his strength attained the first amongst those who have transcended the Primal Chaos Realm without reliance on Primordial Force, Primordial Materials, or Primordial Bloodline, but by creating his own Body Refining Secret Technique, with a talent so high, it's unimaginable."

"It can be inferred that, in the not-so-distant future, he will become a Godly King! Once he reaches the Godly King Level, his strength will increase comprehensively."

"And his master, Emperor Chu, is quite protective, definitely will cultivate Luo He with all his might."

The misty figure reviewed this detailed information, containing segments of video and a lot of conjectural information.

"Primal Chaos Realm, at least Second Realm of Godly King Spiritual Will?" the misty figure muttered, "No wonder he could withstand the Two Realms Palace's induction."

"This Luo He is not easy to deal with," the misty figure said, understanding this fact as he looked at the intelligence report.

Other transcendents of Primal Chaos Realm relied on external objects to cultivate, and their realm accumulation was not profound, making it difficult to become a Godly King. But Luo Feng, who created his own Body Refining Method to transcend in Primal Chaos Realm, had a much deeper accumulation and a much greater chance of becoming a Godly King.

"Years are long, and there will be plenty of opportunities in the future," the misty figure thought, "Once a major turmoil arises, even the Emperor of Flame Wind Ancient Country and the Monarch of Thunder Ancient Country will be driven to madness. At that time, amid the whirlpool, a slight push will be enough to cast Luo He into the endless abyss."

"This little fellow has no idea how tumultuous the undercurrents at the Godly King Tier can be," the misty figure snickered.

Even now, Luo Feng had no idea who this powerful figure from the

Two Realms Palace actually was.

That was the terrifying part of the Two Realms Palace.

They stirred up storms, yet their identities remained a mystery.

...

Chu Capital, Marquis Chu Yu Mansion.

"Brother Luo He, you swept away the other four and took exclusive control of the Blood Spirit Star?" Marquis Chu Yu naturally got the news from a friend first, and it baffled him.

Exclusive control of Blood Spirit Star? Didn't that mean he was already first in one of the three sub-tasks of the Heavenly Task, and in a clear lead at that?

"What exactly is going on?"

Marquis Chu Yu immediately sought to find out, and soon purchased the latest complete intelligence report on Luo Feng.

This complete intelligence report astounded Marquis Chu Yu.

"Avatars, too numerous to count?"

"At least a Godly King Second Realm Spiritual Will?"

"Creatively self-formulated Body Refining Method, talent unbelievably high?"

Marquis Chu Yu, himself a transcendent of Primal Chaos Realm with unlimited godly bodies and quite high talent, understood very well the implications hidden within this intelligence.

It meant—

Number one among the transcendents of the Primal Chaos Realm! And without relying on external items!

"To think that I chose such an incredible Guest Elder in Huyang City," Marquis Chu Yu could hardly believe it himself, recalling that Luo He

was only an eternal true god when they had first met.

Marquis Chu Yu soon calmed down.

"Does Brother Luo He know how much of his information has been leaked?" Marquis Chu Yu, not daring to hesitate, immediately sent this report to Luo Feng.

"Haha, don't worry, some of the information was sold to the Flame Wind Pavilion by me," Luo Feng responded.

Luo Feng, upon seeing this detailed intelligence, was also astounded.

Avatars? Spiritual Will? Quite a comprehensive deduction.

"They think highly of me; I actually haven't studied the Origin Dao of Matter," Luo Feng thought. The intelligence was already quite comprehensive, recording almost all of his methods.

Of course, some methods, such as his application of the Spiritual Will using the Lie Yuan Technique, and some capabilities of the Star Tower and Perfect Divine Body, were things the Flame Wind Pavilion could not have anticipated.

"Just as this intelligence says, I should increase my accumulation and try to become a Godly King as quickly as possible," Luo Feng was clear.

Realm is fundamental.

Secret Techniques are just branches!

The higher the realm, the more powerful one's various methods can become.

...

Palace of Emperor Chu.

"Hahaha, the Flame Wind Pavilion got it right with this report," Emperor Chu looked at the report, bursting with joy and delight, "The level of my disciple Luo Feng's talent is beyond imagination,

achieving transcendence of Primal Chaos Realm as number one with his own created Secret Technique! He's far stronger than other transcendents of the Primal Chaos Realm,"

What's the use of external aid?

Like Marquis Chu Yuan, the strongest among the seven first-class Marquises, also has hopes of transcending in the Primal Chaos Realm! But that's with the aid of a Primordial Bloodline, and his self-comprehension of the Great Dao is much weaker.

Previously, among a group of inadequate candidates, Emperor Chu was willing to nurture Marquis Chu Yuan. After all, in Emperor Chu's Lineage, there were only two transcendents of Primal Chaos Realm before Luo Feng arrived.

But now? With Luo Feng here, Emperor Chu felt that the others were just too ordinary.

Having such a talented disciple truly feels comforting,

"This is what high talent means, achieving transcendence of Primal Chaos Realm as number one in such a short time. I believe it won't be long before he becomes a Godly King," Emperor Chu thought, "I also need to think of ways to arrange some important resources for my disciple."

The resources needed by Godly Kings are most importantly not those granted by the Primogenitors of Flame Wind or Thunder but those left by Yuan.

Yuan harbored goodwill towards the Godly Kings of the Land of Origin, leaving behind many resources for them to compete over, with the capable naturally obtaining more. Like the Lie Yuan Technique, for example. Yuan knew it was difficult to master, so he left many copies behind, and it was in the Primordial Cosmos that Luo Feng mastered it.

Once he did, all other carriers of the Lie Yuan Technique vanished.

And there are still plenty of similar resources.

Whether inheritance, weapons and treasures, or opportunities. Those ancient beings would also spare no expense for these.

"No hurry, plan slowly," Emperor Chu thought.

Chapter 156: Season 3, Episode 38 Each Has Their Pursuit

Shi Kingdom, Liu Yin Primal Chaos State.

"The latest complete intelligence on Luo He?" In the Quiet Room where he was in seclusion, Marquis Liu Yin was already examining this intelligence report. He had a long-term subscription to information on Luo He, receiving any new intelligence at the first instance. However, as Luo Feng's strength grew increasingly formidable, the price for the information also became increasingly exorbitant.

"The first to transcend the Primal Chaos Realm in the entire Land of Origin, and he even created his own Body Refining Method?"

"In the not-so-distant future, will he become a Godly King?"

"Moreover, avatars, too numerous to count?"

This information, one piece after another, made Marquis Liu Yin's expression grow even uglier.

He felt the crisis of death already looming over him.

"He can easily create avatars, and Huyang City is his city; there must be avatars sitting in power." Marquis Liu Yin looked up, considering the fact that they were neighbors, the distance between them was too close.

"If this intelligence is correct, without any external help, he could become number one in transcending the Primal Chaos Realm! With such talent, he could become a Godly King at any time."

"Once he becomes a Godly King, his strength will improve across the

board... Perhaps he will be able to completely kill me." Marquis Liu Yin's heart trembled.

As a Pinnacle of Primal Chaos Realm being, his survival abilities were very strong! Yet Luo Feng's current strength was terrifying, and after becoming a Godly King, just how formidable would he become?

"Life, destruction, matter—cultivating three Great Daos of Origin simultaneously, who knows what terrifying moves he will comprehend once he becomes a Godly King. If in an instant all my revival vessels are destroyed, it would mean complete death." Marquis Liu Yin thought.

To completely exterminate a being from the Primal Chaos Realm, even preventing them from using the Reincarnation Secret Art in time, was a very difficult task.

But considering the terror of Luo He, Marquis Liu Yin did not dare to take any risks.

"This Luo He detests evil as his enemy. Based on my understanding of his temperament, he is ignoring me right now only because he's not confident he can kill me completely. Once he is sure... he will likely make his move silently." Marquis Liu Yin's eyes were cold.

"Enough, enough."

"Let go of everything at hand."

After going through the intelligence report, Marquis Liu Yin made a decision after some contemplation.

"Only through reincarnation can I completely sever the karmic entanglement with Luo He. I can't provoke him, I can only avoid him." Marquis Liu Yin thought to himself.

Reincarnation under the operation of the highest rules would render the reincarnated soul impossible to find by anyone.

"I must act quickly, if I'm too slow, who knows when he will become a Godly King." Marquis Liu Yin was also very decisive. Clans? Territories? In his heart, none of these were as important as his own

self, and he decided to abandon everything in just moments.

That very day, Marquis Liu Yin ended his seclusion and began making some arrangements.

Once everything was properly arranged, the time for his reincarnation would come.

...

Snow Realm Territory, where countless snowflakes fell all year round.

The snowflakes touched the ground and turned into streams, gradually merging into countless rivers. These countless rivers surged, and their main bodies, branches... dense as blood vessels, spread throughout the entire Snow Realm.

These countless snowflakes, these numerous rivers that covered the Snow Realm, were the True Body of the Ancestral God of the Snow Realm.

This was a mighty being who had cultivated the Great Dao of Life Origin to an unimaginable extent.

"Hmm?" A figure formed from the gathering of high-floating snowflakes, smiling as it gazed in the direction of the Flame Wind Ancient Country, "The last time I heard the name Luo He, it was because he killed my disciple and became enemies with Marquis Liu Yin. He even went to the Flame Wind Ancient Country with Emperor Chu Yu.

Who would have thought that in the blink of an eye, he would have already become the first to transcend the Primal Chaos Realm."

The Ancestral God of the Snow Realm, whose sins ranked in the top ten in the Land of Origin, had an air of transcendence yet seemed incomparably pure.

He had mastered all six branches of the Great Dao of Life Origin and also used the "Blood Dripping Scripture" to oversee these six

branches, perfecting his cultivation to the extreme of the First Realm of Godly King, reaching the realm of 'As Blood Marks the Boundary'.

"The Great Dao of Life Origin provides the greatest survival ability."

"I have cultivated the 'Blood Dripping Scripture' to the ultimate extreme of the First Realm of Godly King, and when it comes to survival, many at the Second Realm of Godly King are not my match. However... my offensive capabilities are too weak." The Ancestral God of the Snow Realm slightly shook his head, "In a direct confrontation, I reckon I would be only about equal to Luo He."

Given his reputation, his direct strength indeed seemed somewhat lacking.

Techniques like the "Extermination of Seventy-Two Blades," even without leveraging any external objects, can fight beyond their level once reaching the peak of the First Realm. This is the difference in cultivation paths! The path of destruction, with all six branches designed for slaughter, naturally has extreme strength in killing.

But the path of Life Origin, even though it also has methods for extinguishing life forces, is much weaker in combat compared to other paths.

Destruction, matter, time, space, infinity... Which one of these paths isn't stronger in direct combat than life?

"I cultivate life, and to comprehend higher levels of the Primordial Bloodline is also suitable for me."

"It's just that once I begin cultivation, the will remnants within the Primordial Bloodline will contaminate me." The Ancestral God of the Snow Realm was well aware of the flaws of this path.

Once the Primordial Bloodline merges with the body, it does more than transform the body; it also twists the soul and contaminates the Spiritual Will. The inherent will within the Primordial Bloodline constantly corrupts the practitioner's own will.

The flaw of this path is more severe the further one goes. It is said that above the Ultimate Realm of God King, there are numerous

drawbacks to the Primordial Bloodline.

But no matter how great the flaws, they cannot hide one fact—these bloodlines come from Primordial Life outside the Braided Cage! That is a higher level of life!

"In order to cultivate the 'Blood Dripping Scripture,' I've amassed countless sins and formed many karmic ties. I can sense... I must become stronger, else my life will come to a complete end." The Ancestral God of the Snow Realm thought.

Whew.

Instantly, the figure dissipated and delved back into cultivating the Primordial Bloodline.

******

The rise of Luo He, the creation of his own Body Refining Method, and the possession of the strength to stand as the first in transcending the Primal Chaos Realm. This news spread among the true powerhouses of the Land of Origin.

Chapter 157: Season 3, Episode 38 Each Has Their Pursuit_2

Within the Thunder Ancient Country, there was a holy land known as 'Mt. Leiting.'

"Mt. Leiting."

The Mountain sitting guest had also arrived here. From a distance, Mt. Leiting appeared as a towering high mountain, but upon ascending, one would find it incredibly vast and extensive, with separate spacetimes existing atop it.

All nine Monarchs of the Thunder Ancient Country had their True Bodies or Avatars frequently residing here, along with other Godly Kings and elite members of the Imperial Clan.

"My disciple is much stronger than I was," Mountain sitting guest felt quite pleased, "Transcendence of the Primal Chaos Realm number one? At my pinnacle, I was about as strong as Luo Feng is now."

Back when he was God King Jin, he cultivated his godly body as one would a Secret Treasure Weapon, reaching the 'Cosmic Body' realm; his physical body was extremely terrifying, not inferior to Luo Feng's today.

Even when fleeing, his physical body acted like a fleeing-class Secret Treasure, possessing many abilities to escape.

When the three City Lords of Shi Kingdom made thorough preparations and suddenly struck, the Mountain sitting guest still managed to escape. But during that sudden attack, his wife, fellow sect members, and his tribal clan were all annihilated.

Under his endless hatred, he chose to go to the Universe Ocean,

seeking an opportunity for revenge.

"My wife, my fellow sect members, my brothers in life and death, my tribal clan..." Mountain sitting guest harbored endless resentment, which, after ages of brewing, had deeply infused into his soul.

For revenge, he was willing to pay any price.

"You need to be patient, wait for Luo Feng to grow." Mountain sitting guest even avoided seeking out Luo Feng, not wanting to put any pressure on him and just wishing for Luo Feng to grow steadily and securely.

As Mountain sitting guest pondered this, he walked along and suddenly noticed a figure ahead, immediately he saluted: "Desert Wind City Lord."

"Hmm."

The Divine Power Incarnation of Desert Wind City Lord simply responded impatiently and went far away.

Mountain sitting guest did not mind at all because he knew that the true body of Desert Wind City Lord was currently imprisoned by his own disciple, Luo Feng.

A moment later.

Mountain sitting guest arrived at an ancient hall where he patiently waited in the spacious hall. After a long time, a figure bathed in flames appeared on the throne of the hall.

"Zuo Shanjin, you wish to cultivate the Primordial Bloodline?" the flaming figure looked down at Mountain sitting guest.

"Yes, God of Fire King," Mountain sitting guest replied respectfully.

"Guest Official of Primal Chaos Realm, you want to cultivate the Primordial Bloodline? You either gather enough Merit Points or fully join the Thunder Ancient Country," the flaming figure looked at Mountain sitting guest, "Your Merit Points are insufficient."

Mountain sitting guest said, "I am willing to fully join the Thunder Ancient Country."

Guest Elders are quite free; it is normal for them to leave an Ancient Country. But once fully joined, they are tied to the war chariot of Thunder Ancient Country.

"Good," the flaming figure nodded, "Fully joining the Thunder Ancient Country only grants you the qualifications to cultivate the Primordial Bloodline. Truly mastering it? There are still many obstacles. Even among the Imperial Clansmen, few who enter the Primordial Bloodline succeed in transcending the Primal Chaos Realm."

"I understand," Mountain sitting guest responded.

"To cultivate the Primordial Bloodline, the stronger your Spiritual Will, the better, and the deeper your understanding and accumulation of the Dao, the better.

If you are completely corrupted by the residual will of the Primordial Bloodline and forget yourself, then you have completely lost control," the flaming figure said, "According to the rules of our Thunder Ancient Country, once you completely lose control and lose yourself, you will be imprisoned in the Snow Demon Prison for ten thousand eras!

If you still cannot regain yourself within ten thousand eras, you will be executed."

"I understand, I have made my preparations," Mountain sitting guest stated.

He was originally a Godly King, a realm much higher than Primal Chaos, having faced countless hardships, his Spiritual Will was also at the level of the Second Realm of Godly King. Mountain sitting guest was confident in maintaining clarity as he began his training.

As for the later stages? That was uncertain.

Not long ago, an ancient being of Thunder Ancient Country, 'Snow

Demon God King,' lost control. The power of Snow Demon God King was comparable to that of the nine Monarchs of Thunder Ancient Country. The reason he never became a Monarch was that he couldn't fully control his own power and would occasionally lose control.

This time, during his loss of control, he rampantly devoured all things, even consuming another Godly King of the Imperial Clan, God King Leisha, along with ingesting an Ultimate Realm God King Weapon, completely digesting that weapon.

"Follow me, first select the Primordial Bloodline inheritance, then choose the corresponding Primordial Bloodline," the flaming figure led Mountain sitting guest away.

...

The City Lord of Desert Wind was also paying his respects to the Godly King at this moment.

"Ancestor, my true body has been suppressed and imprisoned by Luo He." the divine power incarnation of the City Lord of Desert Wind said urgently, "He mentioned that he needs at least three hundred billion Cosmic Sand to release me. I can gather eighty billion myself, but I still need two hundred and twenty billion more."

"You are incapable on your own and you seek to borrow Cosmic Sand from me?" a towering giant seated there, stroking his scale armor, said dismissively, "I myself am short of resources for cultivation."

"Ancestor!" the City Lord of Desert Wind said desperately, "Why don't you speak with Luo He yourself?"

The towering giant angrily said, "There's nothing to discuss! Don't you know the rules of the Thunder Ancient Country? At the same level of conflict, superiors do not interfere! If you are less powerful than your opponent, then you deserve to die! Even if God Kings of the Thunder Ancient Country and Flame Wind Ancient Country fight to the death, many Godly Kings have died through history...

Both ancestors never interfered."

At the same level of conflict, superiors do not interfere. If you die, it's

because you weren't strong enough.

If there's bullying of the weak! Both Ancient Countries will not tolerate it!

"Then what can I do? In the Primal Chaos Realm, nobody can fight Luo He." the City Lord of Desert Wind said helplessly.

"That's not to say there is no way." the towering giant said with a sly smile, "The Snow Demon Prison currently needs a guard. Just a thousand eons there and you can earn a million Merit Points. I can exchange these million Merit Points for three hundred billion Cosmic Sand for you."

"A guard of the Snow Demon Prison?" the City Lord of Desert Wind panicked, "The God of Fire is currently imprisoned there."

The Thunder Ancient Country, is very accommodating towards the God of Fire, also hoping to gradually let him fully master his Bloodline Power. Once he can maintain his sanity forever, he will truly become a monarch.

"To gain a million Merit Points quickly, this is the only way." the towering giant said, "Don't worry, the God of Fire, being imprisoned, is relatively safe."

The City Lord of Desert Wind grimaced.

Relatively safe?

Should there be the slightest problem! The true body he is responsible for guarding must be annihilated, potentially even corrupted.

"Let me think, I need to think more." the City Lord of Desert Wind said worriedly.

"This task is very scarce, once an emperor level puppet can be dispatched there, this task won't be yours anymore." the towering giant said, as guarding the Snow Demon Prison also involves many tasks.

Emperor level power puppets are most suitable, not afraid of will corruption. But they are extremely rare, and with many potentially uncontrollable powerhouses in the Thunder Ancient Country, there are not enough emperor level puppets available.

"Ancestor, I will think of another way." the City Lord of Desert Wind immediately bowed and left, determined not to take the role of guard at the Snow Demon Prison if there was any other choice.

...

The second eruption of the Blood Spirit Star also lasted about three days, Luo Feng encountered no interruption and easily collected all the Blood Spirit Golden Pearls.

"The second eruption has ended."

Luo Feng looked at the now tranquil Blood Spirit Star and nodded slightly, "This time I have obtained a total of 72 Blood Spirit Golden Pearls."

Following that, Luo Feng thought and tucked away the vast Black River World.

For these three days, the Black River World was maintained just in case someone tried to steal the Blood Spirit Golden Pearls.

"Three days and this City Lord of Desert Wind can't even produce three hundred billion Cosmic Sand?" Luo Feng shook his head, after negotiating with the City Lord of Desert Wind, Luo Feng had agreed to release him as long as he could provide the three hundred billion Cosmic Sand.

Three hundred billion Cosmic Sand is roughly equivalent to a million Merit Points. Cultivating a Primordial Bloodline Physical Body would cost at least a few million Merit Points.

Asking for merely the value of one million Merit Points is not too high.

"First, I'll send the Blood Spirit Golden Pearls back." Luo Feng swooshed through the air.

While flying, Luo Feng naturally split an avatar.

An avatar carried the Blood Spirit Golden Pearls directly towards Chu Capital. Another true body, however, headed straight for the border city 'Xiangjie City' where Great Saint Yan Su was located.

———

Thanks to Venerable Xu Xin for another rewarding contribution to the Hierarch.

Chapter 158: Episode 3 Chapter 39 Xiangjie City

Flame Wind Ancient Country, Chu Capital.

"Brother Luo He," the Divine Power Incarnation of Emperor Chu Yu saw Luo Feng above the Marquis Mansion.

Luo Feng descended nearby, smiling, "The second wave of the Blood Spirit Golden Pearls has ended, and this time I got 72 Blood Spirit Golden Pearls." As he spoke, he waved his hand, and all those Blood Spirit Golden Pearls were taken out.

Emperor Chu Yu watched with fiery eyes.

The last time Luo Feng had brought 9 Blood Spirit Golden Pearls, which made it a total of 81 Blood Spirit Golden Pearls including this time. Marquis Chu Ying, who ranked second in the task for the Blood Spirit Golden Pearls, had only 25 pearls.

"Because of Brother Luo He, I am absolutely the first in the task for the Blood Spirit Golden Pearls," Emperor Chu Yu remarked sentimentally.

"Judging from the time, Blood Spirit Star might erupt a third wave within the task deadline," Luo Feng mentioned. The task deadline was an era, and now only half the time had passed.

Upon reflection, Emperor Chu Yu said, "Now that I'm securely in first place for the Blood Spirit Golden Pearls task, if there is a third eruption of Blood Spirit Golden Pearls, Brother Luo He, would you consider selling them to other first-rank marquises? I believe one could sell a Blood Spirit Golden Pearl for twenty to thirty billion Cosmic Sand."

Selling thirty to fifty pearls would amount to a hundred billion Cosmic Sand.

"No need."

Luo Feng shook his head, "Don't lose sight of the bigger picture for a small gain, your Heavenly Task is far more important."

A warmth filled Emperor Chu Yu's heart.

He felt that Brother Luo He had helped him greatly and he had little with which to repay the kindness.

"I understand," nodded Emperor Chu Yu. As a newly promoted first-rank marquis, his resource accumulation was limited, and only by scoring high enough in this Heavenly Task could he attain truly precious resources.

"When the time comes, I will select some suitable precious resources to give to Brother Luo He," Emperor Chu Yu silently made a decision.

To share a portion, in Emperor Chu Yu's view, was only right.

Without Brother Luo He, his ranking would probably drop a lot, significantly reducing the resources he could get.

Moreover, Emperor Chu Yu understood Luo Feng's nature. He was not an ungrateful person. Furthermore, even the Flame Wind Pavilion's intelligence reports said... it wouldn't be long before Luo He would become a Godly King.

Offering resources, naturally, the sooner the better.

"I have an avatar residing in the cave mansion," Luo Feng said, "If there is any trouble, feel free to find me."

"Will do," Emperor Chu Yu responded, confirming the information was correct—Brother Luo He indeed had many avatars.

After delivering the Blood Spirit Golden Pearls, Luo Feng left shortly after.

Right now, during the effects of the Primordial Crystal Spirit Fruit, Luo Feng had no interest in pleasure and was focused solely on cultivation.

...

"Before I concentrate on cultivation, first, I must provide a certain punishment to Yan Su," Luo Feng's True Body hurried on his way, heading straight for Xiangjie City.

Xiangjie City was also one of the many cities along the long border line between the two great Ancient Countries.

Normal border cities were usually garrisoned by cultivators from the Primal Chaos Realm! But Xiangjie City… was garrisoned by a 'Transcendent of Primal Chaos Realm', which showed how special this place was.

It should be noted that Transcendents of the Primal Chaos Realm in the entire Flame Wind Ancient Country were already rare! Even fewer were those willing to garrison cities, which were only about a dozen, and each of them garrisoned critical locations.

In Xiangjie City, naturally, the most esteemed position belonged to the Guardian General 'Yan Su'.

"This Two Worlds Palace has an illustrious reputation, and among the many powers hidden in darkness in the Land of Origin, Two Worlds Palace ranks as one of the top. It's rumored that its official members are at least of the Second Realm of Godly King," Yan Su grimaced, "But I never imagined they could act so shamelessly!"

"What's this? I only got 8 Blood Spirit Golden Pearls. It didn't reach the agreed 10 pearls... All the promised benefits, gone?" Yan Su was seething with rage inside.

This time, he dealt with a mysterious existence from the Two Worlds Palace.

In his caution, he promised that he could get at least 10 Blood Spirit Golden Pearls.

In his view, with his methods, to obtain 10 Blood Spirit Golden Pearls across two or three eruptive waves was a breeze, and this was a cautious estimate he gave.

He obtained 8 pearls on the first eruption, but starting from the second… Luo Feng monopolized them, ultimately failing to reach a total of 10 pearls.

"I fought for my life and managed to get 8 Blood Spirit Golden Pearls."

"I even confronted Luo He! I've made an enemy out of Luo Feng!"

"And now I get nothing for it?" Yan Su had a taste of how an official member of the Two Worlds Palace conducted business.

There was nothing he could do about it either.

On one hand, he had no clue about the other party's identity, and with such a vast disparity in strength, he had no recourse.

On the other hand, he did not achieve 10 pearls! The other party had not broken their promise.

"No wonder these hidden powers keep to the darkness. They talk of fairness but each one is darker than the last," Yan Su thought to himself, "Next time, I must secure the benefits before doing the job."

This time, he had truly suffered a great loss!

Suddenly—

Yan Su, within the Garrison Mansion, employed his control over the entire Xiangjie City's Formation, sensing a massive operation of laws descending.

"Not good," Yan Su looked up, and immediately saw the sky outside darken.

Whoosh.

Yan Su instantly appeared above the Garrison Mansion, only to see a

Dark World with a scope of a trillion kilometers completely sealing off the entire Xiangjie City.

The diameter of Xiangjie City was only about three hundred billion kilometers! Luo Feng's Black River World spanned a trillion kilometers, completely sufficient to encompass the city, wrapping it totally within.

"It's Luo He's Black River World," Yan Su's heart turned cold.

The trouble had arrived!

This Luo He really showed no mercy!

"Luo He," Yan Su immediately spoke up, his voice resonating powerfully across the skies of Xiangjie City.

In the high skies of Xiangjie City, a towering figure appeared, and it was the form of Luo Feng.

"Brother Luo He, I admit that I have offended you in the past, and I am willing to apologize. Is there any way to dissolve the enmity between us?" Yan Su's voice transmission said.

Luo Feng looked at him and said, "If you are willing to apologize, I am not so petty. Our grudge can naturally be erased."

"Please name your price, Brother Luo He," Yan Su said.

Having lost, he had to accept defeat!

"I have heard that the Great Saint Yan Su possesses a pair of Void Divine Cones. Compensate me with that pair, and this matter will be settled," Luo Feng's voice rose in Yan Su's ears, and for a moment, Yan Su's eyes reddened.

A pair of Void Divine Cones?

These were treasures he had painstakingly accumulated, exchanging a full 800,000 Merit Points for this pair of Godly King Weapons, which he cherished even more than his own life! When his complete avatar was out on business, it only carried Primal Chaos Realm

weapons. If it died, so be it.

He always kept this pair of Godly King Weapons in the safest place.

"Brother Luo He, you are asking for a pair of Godly King Weapons just like that? Isn't that a bit too much?" Yan Su was furiously indignant.

His long years of accumulation had been mostly invested in his own cultivation, and the most precious of all was this pair of Godly King Weapons. He would rather let Luo Feng kill his avatar ten times, a hundred times, than lose the Godly King Weapons.

"To offer an apology, one must be sincere," Luo Feng looked at him. "A mere pair of First Realm Godly King Weapons, and you're unwilling to part with them? And you call this an apology?"

"I admit I have offended Brother Luo He before," Yan Su said, "I guess Brother Luo He has also surmised that there are reasons for me targeting you. I am willing to explain the reason to Brother Luo He... Brother Luo He, could you perhaps lower the compensation?"

"To say or not to say, that is up to you," Luo Feng shook his head.

What could make a Transcendent of the Primal Chaos Realm deliberately target him, and bear a grudge against him?

Ever since he arrived in the Land of Origin, he had kept a low profile and tried not to cause trouble. There were only a handful of conflicts with him! With a little deduction, Luo Feng guessed... it must be that person from the Two Realms Palace.

"I didn't mean to offend Brother Luo He, it was that person from the Two Realms Palace," Yan Su's voice transmission said, "There is a clear creditor for a grievance, and I am merely acting on orders, just a claw of that entity."

"I guessed it was the Two Realms Palace, but I am equally unable to deal with the other party," Luo Feng looked at Yan Su, "What I can do is to cut off its claw first."

Yan Su was frantic: "To me, losing a few avatars is not a big deal. But

if you act, it would be an attack on the frontier cities and ruin the military discipline of the Flame Wind Ancient Country."

Luo Feng shook his head: "I guess that pair of Godly King Weapons is on you right this moment."

Yan Su looked at Luo Feng: "Oh? Are you so certain?"

"Yan Su, you have two complete avatars, one adventuring outside, which would not carry important treasures. The other one, staying in Xiangjie City, is the one carrying the priceless treasures," Luo Feng said, "Godly King Weapons are naturally carried with one's self for contemplation."

"Most importantly, if the avatar didn't carry treasures, you wouldn't care about its death, nor would you be so humble and forbearing," Luo Feng looked at him.

Yan Su was annoyed.

He practiced the Clone Technique, dispersing his avatars across different places in the Land of Origin.

If it weren't for the treasures he carried with him, why would he bear it?

"Luo He." Yan Su sneered, "You should be able to check... the uniqueness of Xiangjie City."

To have a Transcendent of the Primal Chaos Realm as its Guardian General, Xiangjie City was indeed very special.

Before Luo Feng made his move, he naturally gathered information in advance.

"Xiangjie City guards the entrance to a world known as 'Xiangjie'." Yan Su sneered, "Within Xiangjie, there are creatures with the Primordial Bloodline cultivated by Ancestor Yan Feng themselves. If you attack Xiangjie City and cause any flaws to appear at the guarded entrance... Can you afford the consequences?"

"Attacking border cities is a serious crime."

"If an accident occurs in the guarded world, the crime is compounded, towering into a grave offense," Yan Su said, "I, Yan Su, am responsible for guarding Xiangjie City and have always been diligent in preventing any accidents. If you attack, I must defend to my utmost, and it's very possible that the entrance will sustain cracks. I've already warned you about the risks."

"If you knowingly commit this offense, nobody can save you!" Yan Su looked at Luo Feng.

Luo Feng was listening.

Yan Su's tone softened, "I possess a Godly King Weapon and operate powerful Formations! It won't be easy for you to breach the city defenses. I advise you, Brother Luo He, to leave. I am willing to compensate five hundred billion Cosmic Sand to resolve our conflict."

"Five hundred billion Cosmic Sand isn't even enough to buy a single First Realm of Godly King Weapon, and you call that compensation? Forget it," Luo Feng shook his head.

Under the vast cloak of the Dark World, Luo Feng's gaze turned frosty.

Yan Su, sensing trouble, immediately exerted all his effort to control the city's Formation, wanting to repel the impending attack.

"Boom boom boom～～～～"

Suddenly—

An enormous and endless Black River materialized within Xiangjie City, surging tumultuously. In the blink of an eye, it had flooded the entire city, effortlessly seeping through many key Formation junctures, effortlessly breaking through them.

"When did you enter the city?" Yan Su couldn't believe that the endless Black River had already infiltrated the city, disrupting the Formation's hubs from the inside.

Since Luo Feng had decided to act, he naturally took advantage of his Formless and Intangible abilities earlier on, turning thirty billion

Black Rivers into intangible currents that flew into the city and mingled with the atmospheric currents.

"Without the Formation, what can you do?" Luo Feng looked down on him. The endless Black River spread out, these same rivers also shielding the countless Cultivators within Xiangjie City, preventing them from being affected.

"What's going on?"

"This, this..."

"This black water flow, it seems to be harmless?"

The numerous Cultivators in Xiangjie City watched as the gentle black currents encircled them, spreading everywhere gently. They could even feel a strong sense of safety.

"Attacking the city, destroying the Formation, causing the entrance to 'Xiangjie' to be wide open! This towering crime, Flame Wind Ancient Country will never spare you!" Yan Su's face contorted ferociously.

Knowing he couldn't escape as the Black River World had sealed the inside and outside, he saw his pair of Godly King Weapons about to be seized, raging with reluctance, "Luo He, I will surely report this to the Emperor! Let the Emperor judge your crime!"

Luo Feng understood that the Emperor Yan Su referred to reporting to was the contemporary 'Emperor Chu'.

In this era, it was Emperor Chu who ruled and managed the Flame Wind Ancient Country.

"Judge crimes?"

Luo Feng looked at him and let out a cold laugh.

Daring to take action, he naturally checked everything beforehand. Attacking Xiangjie City was indeed a grave offense but according to the laws of the Flame Wind Ancient Country, he could still endure the consequences.

Luo Feng felt it was worth it to pay some price to take the pair of Godly King Weapons from Yan Su.

Chapter 159: Volume 3 Chapter 40 The Entrance to the World

"Don't think that just because you are the disciple of an emperor, you can escape punishment," Yan Su, having transcended the Primal Chaos Realm for countless long years, had a deeper understanding of the thirteen emperors of the Flame Wind Ancient Country.

The thirteen emperors of the Ancient Country faced few external threats, which instead led to incredibly intense internal conflicts. Aside from Emperor Qing, who was somewhat detached, the conflicts among the other twelve emperors were extremely fierce. Had it not been for the suppression by the Primogenitor Yan Feng, they would have probably initiated a deadly battle long ago.

Given such conflicts, it was difficult for Luo Feng, even as the direct disciple of Emperor Chu, to avoid harsh punishment.

"I never said I wanted to escape punishment," Luo Feng laughed heartily, "Yan Su, no need to delay, die first."

The Endless Black River surged mightily towards Yan Su.

"Luo He!"

With a fierce expression, Yan Su was suddenly surrounded by two colorful divine spikes. As soon as these spikes appeared, a Void Array Map materialized beneath Yan Su's feet, with the two spikes forming the core of the map.

"Kill." With the Array Map, the two divine spikes unleashed a terrifying destructive force, forcefully annihilating the rolling black river in front of them.

"Interesting," Luo Feng, towering in the distance, watched the scene

unfold. "With that pair of Godly King Weapons, his strength has at least doubled. Sadly, he is still inferior to the Great Saint Bi Yun."

The Endless Black River continuously flooded over, making Yan Su struggle desperately and feel despair.

"The strength difference is too great." Although he had already anticipated this outcome, Yan Su was still very anguished. He was adept at using the Void against enemies, but Luo Feng's Black River World exerted stronger internal control, completely suppressing some of his domain techniques.

A direct confrontation? The gap was even wider.

"It's over." Yan Su, controlling a pair of Void Divine Spikes, struggled for only a few moments before being completely annihilated by the relentless crushing of the Endless Black River.

This complete avatar of his lasted only a few moments, and in the city, he had two other weaker avatars. Those two weaker avatars were obliterated in an instant, utterly powerless to resist.

...

Xiangjie City, although a border city, was ultimately overseen by a transcendent of the Primal Chaos Realm. Hence, it remained very safe. Over the long years, it had also attracted a large number of cultivators. Even the trade between the two ancient countries was mostly conducted here, making trade quite prosperous.

"Is that General Yan Su?"

"The other one, should be Great Saint Luo He?"

Inside Xiangjie City, there were also thousands of eternal true gods. When they sensed the sky darkening momentarily and the Endless Black River engulfing every part of the city, they knew something major had occurred.

When they looked up and saw Luo Feng's towering figure and spotted General Yan Su confronting him high in the sky—although they couldn't hear their conversation—most recognized some of the

famous figures of the Land of Origin, including the identity of Great Saint Luo He.

"Something big has happened."

"A monumental event!"

These eternal true gods were panic-stricken. In the previous long years, General Yan Su had been the sky of the entire city! He was the most terrifying entity within Xiangjie City, and his will was the city's will.

But now, the 'sky' of Xiangjie City had met an even more terrifying being.

"General Yan Su has transcended the Primal Chaos Realm, almost comparable to a newly advanced Godly King. Yet, he couldn't overcome Great Saint Luo He even with the aid of an array?"

"They clashed, and the disturbance from their battle didn't have any repercussions?"

"The disturbances, all blocked by this black water!"

Those with some savvy could sense the horror of this black water.

In the blink of an eye, it covered every part of the city, rapidly eroding and submerging General Yan Su.

"It's over, this battle is over." These eternal true gods, some being city military personnel, some members of trade forces from the two Ancient Countries, and some with notable backgrounds, now only felt sheer terror.

Two terrifying beings were clashing. If they hadn't controlled the aftermath well, all the cultivators in the city would have perished!

Once the fight ended, all they felt was relief.

******

Far away from Xiangjie City, in the high skies, a figure crossed

through the void, which was one of Yan Su's ordinary avatars.

This ordinary avatar of Yan Su, gazing towards Xiangjie City from a distance, also saw the Black River World covering the entire city, leaving no flaws.

"There's just no comparing, the gap is too vast. This Luo He's strength... is undoubtedly the top in the Primal Chaos Realm. Even compared to the First Realm of Godly King, he should be considered at a very strong level within it," Yan Su sighed inwardly.

A feeling of powerlessness filled his heart.

The gap was too large, to the point where he couldn't even muster the will to fight.

This was also the reason he saw Luo Feng and immediately wanted to offer an apology to resolve their enmity. But Luo Feng's demand for that pair of Void Divine Spikes made it difficult for Yan Su to accept.

"My most precious treasures are this pair of Godly King Weapons, to have them taken from me," Yan Su was profoundly anguished. Besides these, he had no other valuable treasures.

These Godly King Weapons were to him what the Star Tower and Bloodshadow Knife were to Luo Feng.

It hurt to lose them.

"Well then, well then, having lost the Godly King Weapons, I'm without a weakness now," Yan Su's eyes grew cold. "This clash with Luo He has also proven one thing—having strong defensive capabilities is not enough! Offensive power must also be strong!"

"This Luo He, already so powerful just at the Transcendence of Primal Chaos Realm. Once he becomes a Godly King, improving in all aspects... he will likely become a dominant ruler of the Land of Origin in a short time," Yan Su thought.

He had lived for endless years, his strength was substantial, and he was very familiar with the order of the Land of Origin, which was determined by that group of ancient rulers.

Who could be called a ruler?

Extreme survivability, almost impossible to kill on the Land of Origin. Offensive power equally terrifying.

Like the Ancestral God of the Snow Realm, even he couldn't be considered a ruler of the Land of Origin! It was because his offensive power was still too weak. If he had successfully cultivated the Primordial Bloodline, his offensive power could compare to a Second Realm Godly King. Only then could he be called a ruler, and then, the Palace of Two Realms would be willing to invite him to join.

As for now? In the eyes of the true rulers, although the Ancestral God of the Snow Realm couldn't be killed, he posed no threat to them, merely an annoyance.

"Quite a few Godly Kings in the First Realm have, over the lengthy river of time, either died or been forced to reincarnate."

"But this Luo He, his foundations are too deep."

Yan Su was very aware of this, and many forces in the Land of Origin knew this as well, as did Luo Feng himself and that being in the Palace of Two Realms. As frustrating as it was, there was nothing they could do.

It was foreseeable that Luo He would become a Godly King.

It was foreseeable that once Luo He became a Godly King, he would quickly become a dominant ruler over the Land of Origin! His power would surge significantly more than it had until now.

But who could stop his growth!

"Luo He, you attack the border towns, especially those suppressing the world's entrance, you must pay a hefty price! You have transcended the Primal Chaos Realm too briefly, you hardly understand the madness of the battles among the emperors, once it involves you, hmm..." Yan Su looked on from afar.

"Boom～～～" Suddenly, in the direction of Xiangjie City, the ground shook violently.

"It has begun," Yan Su was not at all surprised, "Without me controlling the Sealing Array, the creatures with Primordial Bloodline inside that world will definitely try to break out. If they really break out, your crimes would increase tenfold or a hundredfold!"

Boom boom boom~~~

At this moment, the ground in the distance was shaking, and Yan Su watched expectantly, hoping that some creatures with Primordial Bloodlines would break out.

That would be very exciting!

******

Xiangjie City.

After Luo Feng annihilated Yan Su's complete avatar and two weaker ones, he also collected the spoils of war.

"A pair of Void God Cones, Yan Su must be incredibly upset." Luo Feng considered himself quite merciful, he did not provoke him, yet he deliberately targeted him. Merely taking his treasures was a minor punishment.

If Yan Su did not realize and continued to harass and retaliate relying on his Clone Technique, once Luo Feng himself became a Godly King and his Spiritual Will was strong enough, he would not mind using the Lie Yuan Technique to completely dispatch him.

Of course, if Yan Su stopped, Luo Feng would also not spend any more effort on him.

"The most crucial now is the world entrance."

At a thought from Luo Feng, the vast Dark World rapidly shrunk to just a few billion kilometers in scope, encasing the world's entrance within a secret grand hall deep underground of the 'Garrison Mansion' at the core of the whole town.

This world entrance, originally sealed by a formation, Yan Su was tasked with controlling it. But having lost its controller, the array's

power weakened, and the creatures with Primordial Bloodlines inside immediately sensed it.

"I don't know how to control this formation either."
